WHEREAS, objectives to be achieved in the attainment of that goal include 1) creating a strong, healthy and supportive community that addresses the preparation of youth for college and/or career success and 2) responding responsibly to the business community's request for a highly qualified workforce; and

WHEREAS, Section 9.0 of the City's Rules of Procedure for Council Meetings and Related Functions and Activities, as established in City of Moreno Valley Resolution No. 2011-117, states that the City Council may, by motion or resolution, appoint ad hoc committees for particular temporary purposes;

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF MORENO VALLEY, CALIFORNIA, DOES HEREBY RESOLVE AS FOLLOWS:

1. There is created a Mayor's Ad Hoc Committee on Education.

2. The Ad Hoc Committee shall consist of 7 members including a Committee Chair who shall be appointed by the Mayor. The remaining members shall be appointed by the Mayor and Chair after reviewing applications submitted to the City Clerk's office in accordance with the standards established by other City Commissions and Boards. The Chair shall select a Vice Chair from among the appointed committee members.
3. One member shall be a youth representative. *at the discretion of the Chair*
4. The Mayor's Ad Hoc Committee on Education shall be an Ad Hoc Committee formed for the particular purpose of focusing City, School District and business community effort and resources on programs and/or services to increase the graduation rate at Moreno Valley high schools.
5. Ad Hoc Committees are temporary and, as such, by adopting this resolution the City Council agrees that this will be a temporary committee which will expire on June 30, 2015.
6. Terms for committee members will also expire on that date. Any vacancies created on the committee prior to June 30, 2015 will be filled through the appointment of the Mayor and Chair after reviewing applications submitted to the City Clerk's office in accordance with the standards established by other City Commissions and Boards.
6. Should the Mayor and City Council choose to extend the life of the Committee after June 30, 2015, it may consider establishing a standing commission or board through adoption of an ordinance.
7. Should the Mayor and City Council extend the Committee as a standing commission or board, the terms of the Committee Members shall be defined within an ordinance establishing the board or commission.
8. Unless otherwise stated in this resolution, all relevant sections of Municipal Code 2.06 shall apply to this Committee. \*
9. The Mayor's Ad Hoc Committee on Education shall have the following power and duties:
  - a. Develop and implement programs and/or services that will further the goal of increasing graduation rates in Moreno Valley.
  - b. Recruit students, businesses, and volunteers from the community to assist in this effort.
  - c. Solicit funds from private contributions, grants, sponsorships or participate in other fundraising opportunities.

\* Residency required?  
 • only 1 commission/board?  
 • no Council action for appt.?

d. Submit periodic status reports to the Mayor and City Council.

10. The Ad Hoc Committee may establish such temporary subcommittees as it may deem expedient for the performance of its duties, and the chairperson, with the consent of the committee, may fix and appoint the membership of such subcommittees. Membership on a subcommittee need not be limited to members of the committee except that the chairperson of the subcommittee shall be a member of the Ad Hoc Committee.

11. The City Manager may appoint a secretary and/or other staff for the Ad Hoc Committee and provide such reimbursement for their necessary expenses as may be authorized by the City Council in the budget and approved in advance by the City Manager.

12. The Ad Hoc Committee shall hold one or more regular meetings per month and designate the times, dates, and places therefor. All meetings of the Ad Hoc Committee and any subcommittees shall be open to the public.

13. Special meetings may be called by the Chairperson or by a majority of the Ad Hoc Committee provided that notice of such special meetings is given to each member of the Committee at least 72 hours prior to the time of the meeting.

14. Four or more members of the committee shall constitute a quorum for the conduct of business.

15. The Ad Hoc Committee shall be governed by the Brown Act and follow the Rules of Procedure for Council Meetings and Related Functions and Activities as enacted by City Resolution 2013-, and as amended by future City Resolutions.

16. The Ad Hoc Committee shall adopt rules for the transaction of business and shall keep a public record of its action. Promptly after approval thereof by the committee, the original minutes of the committee meetings shall be filed with the City Clerk.

17. If a member of the Ad Hoc Committee is absent without cause from three successive regular meetings of the committee or from twenty-five percent (25%) of the duly scheduled meetings of the committee within any fiscal year, the committee may request the mayor and Chairperson declare a position vacant. An absence may be excused if it is due to illness or is unavoidable and the member gives notice to assigned City staff as to the reason.

APPROVED AND ADOPTED this 26th day of February, 2013.

Title 2 ADMINISTRATION AND PERSONNEL**Chapter 2.06 BOARDS AND COMMISSIONS—GENERAL PROVISIONS**

---

**2.06.010 General rules regarding appointments, terms, vacancies.**

---

A. Unless otherwise provided by law or by ordinance or resolution, or unless by the very nature of a situation the provisions hereof are inapplicable, all members of boards and commissions of the city shall be appointed by the city council for three-year terms commencing as of July 1st of the year of appointment; provided, that interim vacancies shall be filled by appointment to the specific unexpired term of the member replaced. This rule shall not apply to newly established boards or commissions, the initial appointments to which shall be made on a staggered-term basis, provided that the longest such term shall not exceed three years, commencing with the July 1st next following the appointment.

B. Unless otherwise provided by law, and notwithstanding that an ordinance or resolution establishing a board or commission may fail to so provide, then in addition to the number of members of a board or commission set forth in the enactment establishing such board or commission, the city council may in its discretion appoint one or more alternate members to each board or commission. During their incumbency as such, alternate members shall have no vote in the proceedings of the board or commission. In the event of one or more interim vacancies in a board or commission as declared by the city council, and subject to confirmation by the city council, alternate members to such board or commission shall assume the vacated seat or seats for the unexpired portion of the term of the member replaced.

C. Any member of a board or commission of this city may be removed from office at any time, with or without cause, by a majority vote of the city council, except in cases where the mayor or city council are not the appointing authority (in which cases such regular appointing authority may exercise this power of removal). If a member is absent without advance permission of the board or commission or of the appointing authority, from three consecutive regular meetings or from twenty-five (25) percent of the duly scheduled meetings of the board or commission within any fiscal year, the membership shall thereupon become vacant and shall be filled as any other vacancy.

D. Unless otherwise provided by law, or by ordinance or resolution of the city council, all members of any board or commission of the city appointed by the city council shall be at the inception of and throughout their incumbencies, bona fide residents of the city. No member of a board or commission of the city shall be an employee of the city during such membership.

E. Unless otherwise specifically provided by the action establishing the body or appointing its initial members, no person shall be at the same time a member of more than one citizens advisory body created by ordinance or resolution of the city council. (Ord. 276 § 1.1, 1990; Ord. 261 § 1.1(a), 1990; Ord. 187 § 1.1, 1989; Ord. 139 § 1, 1987; Ord. 3 § 1 (part), 1984)

**2.06.020 Chairperson, vice chairperson—Selection.**

---

A. Unless otherwise required by state law or by ordinance or resolution of the city council, and except as provided in subsection B of this section, each board and commission of the city shall annually at its first meeting held after June 30th, choose one of its number as chairperson and one as vice-chairperson. Each chairperson and vice-chairperson shall have authority and perform such duties as are commonly associated with their respective titles, and as may be specially prescribed by law or by the by-laws or other rules of the board or commission. Vacancies in either such position occurring prior to July 1st may be filled as in the first instance, and a new chairperson or vice-chairperson may be chosen at any time by majority vote of all members of the board or commission.

B. The planning commission shall be subject to the provisions of subsection A of this section, except that annual selection of the chairperson and vice-chairperson of the planning commission shall take place at its first meeting held after March 31st. (Ord. 125 § 1.1, 1987; Ord. 3 § 1 (part), 1987)

**2.06.030 Board or commission meeting minutes.**

---

Unless otherwise provided by law, or by ordinance or resolution, or unless by the very nature of a situation the provisions hereof are inapplicable, the minutes of all board or commission meetings shall be filed with, and maintained by, the respective liaison departments. (Ord. 666 § 1.1, 2004: Ord. 544 § 1.1, 1998)

## THE CITY OF MORENO VALLEY MAYOR'S AD HOC COMMITTEE ON EDUCATION

*"Positive, Purposeful Work Toward Something  
Greater Than Ourselves"*  
*--Mayor Tom Owings*

### **About the Mayor's Ad Hoc Committee on Education**

The goal of the Mayor's Ad Hoc Committee on Education is to increase graduation rates through the implementation of a focused partnership among the City of Moreno Valley, the Moreno Valley Unified School District and the business community.

The Mayor's Ad Hoc Committee on Education is an Ad Hoc Committee established by the City of Moreno Valley to identify talented, purposeful and generous community members with a desire to make a positive impact on our youth. Established by resolution as a Two-Year Ad Hoc Committee, the committee members are tasked with mentoring students and providing them with meaningful work and life skills that will translate to higher graduation rates. The Ad Hoc Committee will terminate on June, 30, 2015 and may be extended by the City Council following a review of the Committee's achievements. Ad Hoc Committees are temporary committees established by the City Council to achieve a purported goal. Should the Mayor and City Council choose to extend the term of the Committee after June 30, 2015 it may consider establishing a standing commission or board through adoption of an ordinance.

### **Committee Membership**

The Chairperson of the Committee shall be selected by the Mayor. Committee members are nominated by the Mayor or the Committee Chair. Membership will consist of 7 members including the Committee Chair appointed by the Mayor and a Vice Chair selected by the Chair. One member shall be a youth representative also selected by the Mayor or the Committee Chair. Terms shall expire when the Ad Hoc Committee expires on June 30, 2015. Should the Mayor and City Council extend the Committee as a standing commission or board, the terms of the Committee Members shall be defined within an ordinance establishing the board or commission.

### **Meetings**

The meeting locations and times shall be established by the Committee Chair.

### **City Staff Liaison for the Mayor's Ad Hoc Committee on Education:**

Michele Patterson, Assistant to the City Manager

(951) 413-3030

**Mayor's Task Force: Educational Advisory Committee**

**CONCEPT PAGE**

**Moreno Valley College/Career On Purpose - Opening Statement**

Schools are one part in a larger social system that includes families and communities, which are equally responsible for the development of youth. School-community partnerships, or collaborations, are more than just informal links. An effective collaboration is a formal agreement among participants to establish an autonomous structure to accomplish goals that would be difficult to achieve by any of the participants alone. The collaboration requires infrastructure that ensures participants' ability to accomplish a shared vision and meet a set of goals.

Establishing long-term collaborations includes commitment, vision, cohesive policy, and systematic changes to develop formal and institutionalized sharing of a wider range of resources.

Strong school, family, and community collaboration is a key strategy for efforts to generate essential interventions to address barriers to learning, enhance healthy development, and strengthen communities.

Partnerships can include service agencies, businesses, community-based organizations, post-secondary institutions, religious and civic groups, programs at parks and libraries, and any other facilities that can be used for recreation, learning and literacy, youth development and enrichment, vocational education, and economic development. The political realities of local control have further expanded collaborative bodies to encompass local policymakers, representatives for families, nonprofessionals, volunteers, and, indeed, all who are willing to contribute their talents and resources.

**Goal** – Create a strong, healthy, and supportive community that addresses the preparation of youth for college and/or career success. Aggressively remediate both the external and internal factors that contribute to low graduation rates and high dropout rates. Respond responsibly to the business community's request for a highly qualified workforce.

**Mission** – The Educational Advisory Committee will develop sound recommendations and a well-defined plan for internships and a partnership between schools and businesses. Students will meet academic and technical standards through the implementation of a work-based methodology that will prepare them to meet the requirements for current and emerging professions.

**Current Needs – Assessment Summary**

The table below shows information released from the California Department of Education (CDE) which includes Moreno Valley USD 2011 Cohort Baseline data, for reference, and comparison data for 2012 and 2013. *PLEASE NOTE: As of this date, 1/29/13, the 2013 information is embargoed and not available for public release.*

School	2011 Cohort Graduation Rate (class of 2009-10)	2012 Cohort Graduation Rate (class of 2010-11)	2012 Cohort Dropout Rate (class of 2010-11)	2013 Cohort Graduation Rate (class of 2011-12)	2013 Cohort Dropout Rate (class of 2011-12)
<b>District</b>	<b>65.7%</b>	69.34%	19.9%	74.6%	19.0%
<b>Canyon Springs</b>	<b>79.2%</b>	82.15%	11.6%	80.9%	15.8%
<b>Moreno Valley</b>	<b>68.3%</b>	67.84%	22.7%	72.7%	21.1%
<b>Valley View</b>	<b>70.9%</b>	73.09%	17.2%	83.3%	11.6%
<b>Vista del Lago</b>	<b>70.3%</b>	75.63%	18.8%	74.1%	19.4%

### Education Related Factors

Educational institutions also contribute significantly to the dropout problem. Discipline and grading policies, school organization and size, program assignments, course content, the type of instruction, school climate, and adult-student relationships can all influence students to drop out. "Lack of engagement" and "membership in school" are terms that capture some of the factors. The National Dropout Prevention Center lists school-related factors as:

- Conflict between home and school culture
- Ineffective discipline system
- Lack of adequate counseling
- Negative school climate
- Lack of relevant curriculum
- Passive instructional strategies
- Inappropriate use of technology
- Disregard of student learning styles
- Retentions/suspensions
- Low expectations
- Lack of language instruction

Moreno Valley Unified School District is currently addressing those factors through systemic changes in practices, new leadership, and the implementation of targeted grants. Example: See attachment of the "State of the District" document and "Excellence on Purpose" reference guide.

### External Factors

A number of factors largely beyond the control of educators can influence students to drop out of school. Some research has focused on the students themselves or their family circumstances as the root of the problem. These students have identified dropouts as those who are likely to be students:

- From low socioeconomic backgrounds
- Of color, particularly Hispanic, Native American and African American
- With poor academic achievement
- With poor school attendance
- Who have repeated one or more grades
- Who speak a primary language other than English
- Who attend school in large cities
- Who become pregnant

The type of family mobility, support, and expectations can also have an influence on the likelihood of a student dropping out. In addition, economic and socio-cultural factors can contribute to the dropout rate. These factors include the influence of gang and drug cultures, the feeling of independence generated by having a job, and the lack of community resources to support at-risk students.

Moreno Valley Unified School District currently participates in a Community Collaborative that was developed in 2007 between the District and DPSS. The mission of the Collaborative is to provide "same day services to students and families in need." The Collaborative conducts monthly meetings and a list of current partners is attached.

## PROPOSAL

### Summer Internship

The Summer Internship Program is a two-fold initiative which , by design, links the classrooms with the community by promoting essential contextual learning through the use of work-based methodology (rigorous instruction linked with real life hands-on experience) i.e., internships and developing workforce development partnerships between educators and business intent on creating viable pathways from the classroom to careers.

Thus, education and business partners work together to unify the efforts of many toward the common goal of creating a program that would not only develop the promise of students, but the community, as well. Resources would be maximized by parlaying existing and new. (Among new resources includes the recruitment of new business partners, who would offer full and partial sponsorships; full sponsorships provided worksite locations for internships and pay; partial sponsorships provided either worksite locations for internships or pay.) A unique curriculum was designed (and implemented) that combined one week of specialized instruction (professional development for students) delivered by guest speakers/experts in their fields with five weeks of on-the-job experience/internship. Initial program success has been demonstrated through the successful internships of over four hundred students.

#### Internship Goals

To partner with the community at large, but specifically the business community, leveraging resources, in an effort to provide a myriad of work-based opportunities, i.e. internships, whereby students:

- Meet academic and technical standards through relevant worksite experience
- Explore careers and prepare for life after school
- Prepare for high skill, wage, and/or demand current or emerging professions
- Learn about industry requirements, such as certifications
- Prepare for entry into post-secondary institutions for further education and training
- Develop into responsible, competent and skilled workers who are dedicated to a quality work ethic
- Develop a genuine commitment to the community
- Satisfy the community's broader workforce needs for highly skilled employees
- Become contributing members of the community, underscoring the positive impact they will have on the success of the community

Internship Participants

<b>2012-2013</b>	<b>2013-2014</b>	<b>2014-2015</b>
100 students	250 students	500 students
100 @ \$1,000 = \$100,000	250 @ \$1,000 = \$250,000	500 @ \$1,000 = \$500,000

- Business Partnership for sites
- Business Partnership for sites and donations
- Business Partnerships for Leadership Development and donations

## **Recommendations**

It is of highest importance that the local school district, business community, and city council work in unison to address the needs of education. It will take a comprehensive approach to reduce the number of dropouts and increase graduation rates.

Recognizing that a multi-faceted, comprehensive approach to education optimizes a student's chance for success and responding to the needs voiced by the business community for students/citizens, who are well prepared to enter the workforce/community, underpinning the success thereof, the committee recommends "The Moreno Valley Career/College on Purpose."

## **Summary**

We are committed to creating school environments that are inviting, supportive, and rigorous. We will assist students in obtaining social, health, and other personal resources that help students handle obstacles to their learning and help meet their emergent basic needs. We will personalize programs with academic challenge and academic support as needed. We will support the local school district as they provide teachers with professional development that increases student engagement. The business community will provide opportunities for students to apply their learning in relevant, real world situations and help them see the connection to their own future. We will develop organizational structures that provide time and opportunity for personal relationships with caring adults. Our efforts and targets will be measurable and include an evaluation component.

No. 13

## **A.S.T.E.R.I.S.K.\* PROGRAM FLOURISHES**

### **Contribution from San Manuel Band of Mission Indians Supports Teen Interns**

"Every year our A.S.T.E.R.I.S.K.\* student intern exceeds our expectations," said Lorraine Dominguez of the Civil Service Department located in San Bernardino City Hall. This year, she is speaking of 16-year-old DeShawn Radden, who also assists in the Human Resources Department. Over 400 teens, with applications and portfolios in hand, attended the Employment Fair interviews. Radden is one of the 102 San Bernardino City Unified School District (SBCUSD) teens who received a letter of acceptance, attended four days of professional development training at **Arroyo Valley High School**, and has been placed at one of 44 job sites.

These high school students are earning credits toward graduation, developing job skills, and gaining work experience through the San Bernardino City Unified School District's A.S.T.E.R.I.S.K.\* program. A.S.T.E.R.I.S.K.\* (Accelerating Success Through Employment, Responsibility, Inspiration, Skills, and Knowledge) began six years ago and continues today, supported by Assistant Superintendent Dr. **Eliseo Dávalos**, as a way for local businesses to help prepare students to be successful in the real world. The Department of Public Health, Inland Empire 66ers, the Red Cross, and San Bernardino School Employees Federal Credit Union (SBSEFCU) are a few of the placements for the four-week, paid internships.

This year, the primary A.S.T.E.R.I.S.K.\* sponsors are the San Manuel Band of Mission Indians and the District's Nutrition Services Department. A generous donation from the San Manuel Band of Mission Indians is providing salaries for 35 students interning at other local businesses. Nutrition Services provided both the salaries and places to work for 20 interns.

"The monetary contributions go directly to the \$8-per-hour salaries for the students who work six hours a day, five days a week," said **Sheri Becar**, coordinator of the project. "These

teens work hard. One of our cafeteria workers gets up every morning to catch the bus at 6 a.m. so she can be on the job by 7 a.m.”

Twenty interns earned their food handler’s permit and 61 passed the Highly Qualified Instructional Aide test. SBSEFCU provides free membership and check-cashing services to all A.S.T.E.R.I.S.K.\* interns.

A reception will be held on Friday, July 29, from 7 to 8 p.m., at the Board of Education building, 777 North F Street in San Bernardino to congratulate participating A.S.T.E.R.I.S.K.\* businesses, students, and their parents.

Agenda

- Introductions
- Mayor Owings: Purpose of the JPA discussion/exploration
- Perspectives from around the table
- Mr. Wasserman
  - Observations and discussion
  - Identifying the most cost effective way to provide the police services that residents want
  - How can Strategic Policy Partnerships assist?

**Robert Wasserman**  
**Chairman, Strategic Policy Partnership**

Robert Wasserman is the Chairman of the Strategic Policy Partnership, a group that assists police and government agencies with policing strategy development, performance improvement, personnel selection, utilization of technology and policy development. He has done numerous reviews of police agencies throughout the United States. He also serves as Associate Director of the Senior Management Training Program for the Indian Police Service conducted by Cambridge University (UK). And he currently is the lead consultant for the Department of Homeland Security on Federal, state and local training initiatives related to combatting violent extremism.

Over the past few years he has been a facilitator for the Bureau of Justice Assistance of Roundtables in a number of cities focused on building communities of trust and is the author of the monograph "Guidance for Building Communities of Trust" published by the Office of Community Oriented Policing Services. An expanded and updated version of this monograph is currently in process. He has also worked with the Office of the Program Manager (DNI) and DHS/FEMA on refining aspects of CONOPS for Fusion Centers throughout the United States.

He previously served as a Senior Advisor on International Law Enforcement for the Bureau of International Narcotics and Law Enforcement at the U. S. Department of State where among other initiatives, developed and oversaw implementation of the State Department's International Law Enforcement Academies in Bangkok and Roswell, NM.

Mr. Wasserman has had an extensive career in law enforcement. He has served as a senior executive in several large American police agencies, including Boston and Houston. He was the Director of Public Safety for the Massachusetts Port Authority, overseeing public safety at Boston's Logan International Airport as well as the Boston area's bridges and harbor. He served as Chief of Staff of the White House Office of National Drug Control Policy and was sent to Bosnia following the war, serving as both Deputy Commissioner/Operations and Commissioner of the United Nations International Police Task Force where he oversaw the restructuring of that country's police. And in the United Kingdom, he developed the plan and oversaw implementation for a new 2,000 person transport policing group within the Metropolitan Police Service (Scotland Yard), developed a new policing strategy for London's Underground for the British Transport Police and served as Interim Director of the London Traffic Control Center overseeing it's total restructuring.

Over the years, he has consulted with police agencies, cities and universities around the world on issues of strategy, technology, management and performance. His organizational reviews have focused on understanding the vision of the client for its educational or service environment, and developing strategies that will best support that vision in the wide range of public safety and related areas impacting that environment.

During the course of his career, he has been the initiator or at the forefront of a number of seminal policing initiatives, including 311 and differential police response, police performance management, neighborhood-oriented policing, the Kansas City Patrol Experiments, Dayton Team Policing, the San Diego Beat Profiling initiative, the Boston Community Disorders strategy and the Police Recruit Training Year. He was a participant in the Executive Sessions on Community Policing at Harvard University's Kennedy School of Government, where he served as a Research Fellow for some years.

He did his undergraduate study in Sociology at Antioch College in Ohio and his graduate work in Police Administration at Michigan State University.

He resides on the island of Martha's Vineyard in Massachusetts and is the former Chair of the Martha's Vineyard Airport Commission.

New York, NY 10028

Telephone: [REDACTED]  
Bill.Bratton@BrattonGroup.com

The only person ever to serve as chief executive of both the LAPD and the NYPD. Established an international reputation for reengineering police departments and reducing crime. National reform leader, consultant, public speaker, columnist, author, facilitator and commentator on issues of police and private safety management and leadership, security, terrorism and corruption throughout the United States and abroad. Top executive police manager and accomplished leader with an unbroken record of successful turnarounds. A leading advocate of problem-solving community policing, led and re-engineered six police organizations from mediocrity to excellence by rapid obtainment of high impact results in stretch goal attainment, empowerment, accountability, decentralization, crime reduction, cost containment, morale, productivity and operational improvements requiring strategic vision and proactive actions. Frequently featured, profiled and interviewed by local, national and international news and management media.

---

## EXPERIENCE

**Chief of Police**  
**Los Angeles Police Department**  
**Los Angeles, California**

**2002- 2009**

Appointed as Chief of the Los Angeles Police Department in October 2002. Oversees the third largest police department in the United States, managing over 9,800 sworn officers, 3,000 civilian employees, and an annual budget of more than one billion dollars. Directing a major reengineering of the LAPD with emphasis on complying with the nation's worst Federal Consent Decree, crime and fear reduction, and creation of a comprehensive counter-terrorism initiative. A published Plan of Action forms the basis for decentralizing the bureaucracy, strengthening local commands, increasing responsiveness to community concerns, and developing strategies to counter gang-related crimes and the culture that supports them. During the first six years, Part I crime has dropped 34 percent, homicides 42 percent and response time decreased 33 percent (from 10.2 minutes in 2002 to 6.7 minutes in 2008), while the cities counter-terrorism preparedness and response capabilities have been successfully strengthened.

**President**  
**The Bratton Group, LLC**  
**New York, New York**

**2000 – 2002**

Working with a comprehensive cadre of professional associates, provided a wide range of consulting and networking services to both the public and private sector in the United States and abroad. Using unique leadership, cultural diagnostic, analytical and motivational skills, coupled with effective and innovative management systems, areas of assistance were primarily focused on community crime reduction initiatives, community participation, maximization of use of technology and software, anti-corruption and anti-terrorism strategies, creative training, investigative techniques and organizational re-engineering. Consultancies include Police Department, Trenton, New Jersey; Paterson School Department, Paterson, New Jersey; City

University of New York; Brown University, Providence, Rhode Island; New Jersey Transit; Transport for London, London, England; British Home Secretary, British Home Office; City of Lima, Peru; City of Guayaquil, Ecuador; City of Caracas, Venezuela; City of Santiago, Chile.

**Senior Consultant**  
**Public Safety Services Group**  
**Kroll Inc.**  
**New York, New York**

**2000 - 2002**

Consulted with Kroll Inc., an internationally recognized risk identification and mitigation firm, to provide best-in-class public safety expertise, focusing on public safety administration, training, operational re-engineering, and diagnostic analysis to Kroll's clients. Coordinated closely with Kroll's Crisis and Consequence Management Group, directed Kroll's Public Safety Services Group to provide corporations, government entities, police departments and other public safety agencies with crisis planning, training and on-site response and mitigation. Assignments included serving as a police subject matter expert for the Independent Monitor (Kroll) for the consent decree entered into by the City of Los Angeles, the Los Angeles Police Department and the United States Department of Justice.

**President and Chief Operating Officer**  
**Carco Group Inc**  
**Smithtown, New York**

**1998 - 2000**

Recruited to lead this Long Island, New York based information services firm with over 300 employees, and offices in St. James, New York as well as Houston, Texas. Through a network of more than 7,000 independently owned facilities, CARCO's Insurance Division provides automobile pre-insurance inspections that are designed to deter and detect automobile insurance fraud. CARCO's Research Division provides background-screening investigations of applicants and new hires for fortune 500 type companies throughout the world. The two divisions produce more than two million reports annually.

**Vice Chairman, First Security Services Corporation**  
**President, First Security Consulting, Incorporated**  
**New York, New York**

**1996 - 1998**

Created and led a newly formed subsidiary of Boston based First Security Services Corporation, which at that time was the tenth largest full service private security company in the nation. First Security Consulting offered a variety of design and implementation services to assist police agencies in the development of management initiatives and improvements to reduce crime and disorder while improving police performance. Consultancies included: Birmingham Police Department, Birmingham, Alabama; Fortaleza Police, State of Ceara, Brazil; New Bedford Police Department, New Bedford, Massachusetts.

**Police Commissioner**  
**New York City Police Department**  
**New York, New York**

**1994 - 1996**

Recruited to lead the largest police department in the nation with 46,000 employees and an annual operating budget of \$2.3 billion. Implemented a department wide crime prevention focused community policing philosophy that effectively addressed issues of crime, disorder, fear, police corruption and citizen complaints through comprehensive, sophisticated and innovative management strategies. Reengineered the department's operations, firearms, personnel,

## W I L L I A M J . B R A T T O N

technology, integrity and training policies and procedures. Achieved a 39% reduction in major crime and a 50% reduction in homicides, while improving New York City's FBI Uniform Crime Report ranking of America's 189 largest cities from 88 in 1993 to 150 in 1995. Gallup polls showed that public confidence in the NYPD had risen from a 37% to 73% positive rating.

- Completely reengineered the department's internal affairs and disciplinary systems in response to the Mayor's Mollen Commission investigation report, which documented significant integrity, corruption, and citizen abuse problems.
- Developed and refined new results oriented organizational focus on goal achievement to implement and institutionalize community policing, reduce crime, disorder and improve quality of life while containing costs.
- Initiated and implemented a series of eight interrelated operational strategies (guns, drugs, youth, domestic violence, quality of life, police corruption, auto theft and traffic control) orchestrated for maximum impact on outcome measures. Significant and continuing success was achieved in all categories.
- Initiated a department-wide reengineering effort to examine and refine all organizational systems and structures to support the implementation of new crime reduction focused operational goals and strategies. The effort involved over six hundred personnel, including active citizen, union, minority and ethnic group representation and participation.
- Designed and implemented the merger and assimilation of the 5000 member Transit Police Department and 3000 member Housing Police Department, the nation's sixth and eleventh largest police departments, into the NYPD, resulting in the elimination of redundant administrative and support functions as well as the reassignment of 550 uniformed officers performing administrative duties to enforcement functions.
- Coordinated the department's operational strategies for maximum results, designed and implemented a unique, comprehensive interactive management control and accountability system ("COMPSTAT") to facilitate a decentralized management philosophy which devolves authority, responsibility, discretion, and accountability from the headquarters executive level toward the more results effective and manageable operational precinct level.
- Developed and instituted the department's first multifaceted overtime control program, resulting in a 14% reduction in budgeted overtime expenses from \$112 million annually to \$96 million while traditional generators of overtime - arrests, special events, investigations - all increased significantly. When adjusted for wage increases, this represented the lowest overtime spending level since 1986.
- Reduced the department's non-personnel operating expenses by 35% during the period.
- Significantly increased private sector/corporate donations of money, training, equipment, technology and personnel.
- Created a broad based standing committee of community, religious and institutional leaders and representatives to work with department leadership on improving relations with the city's many minority and ethnic groups.
- Coordinated with the City administration to successfully obtain \$55 million of Federal crime bill funds to support civilianization efforts and technology acquisitions; the largest single award from the bill given to any jurisdiction.
- Dramatically lowered sick leave and injured rate (NYPD has unlimited sick leave policy) and reduced the number of police officers on less than full duty status, resulting in a gain of 1016 officers available for enforcement activities.
- Extensively upgraded the department's computer and technology systems to include new E-911 communications center and computer aided dispatch system.

## W I L L I A M J. B R A T T O N

- Implemented new minimum education and age requirement for police candidates (age 22 and 60 college credits).
- Raised passing grade in Police Academy to 75, increased termination rates of marginal recruits, increased random and targeted drug testing to include hair analysis, and implemented recruit field training.
- Significantly expanded the number of women in command staff positions.
- Reduced command staff levels to support decentralization and operational supremacy of precinct commanders to more quickly and effectively respond to community priorities.

### **Police Commissioner Boston Police Department Boston, Massachusetts**

**1993 - 1994**

Appointed to lead the country's oldest police department with 2600 members and an operating budget of \$156 million. Expanded department's community policing initiatives and crime reduction efforts.

- Significantly expanded department's innovative anti-gang initiatives to successfully deal with gang violence, a principal cause of violence and fear.
- Initiated collaborative web of relationships between Boston Police Department and area universities, including Harvard and Northeastern, to develop cutting edge crime analysis and fear reduction strategies.
- Aggressively sought and obtained state and Federal support for added police and technology
- Initiated creation of the Boston Police Foundation to enlist private sector support and expertise.
- Directed department's technology and computer acquisitions to include state of the art E-911 computer aided dispatch systems, mobile data terminals, and a computerized, live scan fingerprinting and photo imaging arrest processing system, resulting in significant reductions in numbers of officers assigned to administrative tasks.

### **Superintendent-in-Chief Boston Police Department Boston, Massachusetts**

**1992 - 1993**

Recruited to fill the department's top uniformed position after a Mayoral review committee (the St. Claire Committee) concluded that the Boston Police Department had major problems in leadership, training, technology, and management and was failing in its efforts to implement community policing.

- Created task forces consisting of personnel from all ranks, community leaders and subject matter experts to conduct systematic self-assessment of department's equipment, facilities, technology, training, discipline, supervisory procedures, and racial and cultural attitudes.
- Developed a comprehensive Neighborhood Policing Plan of Action based on task-force findings to define strategies and tasks for leveraging existing resources and instilling commitment throughout the organization to make Community Policing a matter of daily practice and institutionalized philosophy at every level.
- Revised and greatly expanded training for all executives, supervisors, and police officers to convey skills and understanding essential to Community Policing, including the department's first ever mandatory annual five day in-service training program for all personnel.
- Assumed operational control of Boston's model multi-agency anti-gang, anti-violence program.

- Initiated a video-based training program to carry cultural-diversity training rapidly into every local command, to ensure respectful treatment of all citizens by police officers.
- Developed crime reduction initiatives resulting in Part I crime decline to lowest level in 18 years.

**Chief of Police/Senior Vice President  
New York City Transit Authority  
New York, New York**

**1990 - 1992**

Recruited to lead the New York City Transit Police, the country's seventh largest police force, with an authorized strength of 4200 police officers and 848 civilian employees and an annual budget of \$306 million. Responsibilities included protecting the 5 million daily riders of the nation's largest surface and rail transportation system as well as direction and control of the agency's proprietary facility protection force of 600 unarmed security officers.

Using a combination of "Broken Windows" quality of life enforcement and problem focused crime prevention strategies, effectively addressed issues of crime, fare evasion, disorder and employee morale and inefficiency. In April 1990, subway crime had been rising for thirty months, with robbery growing two and one half times faster than the city at large. Within 22 months, results included a 35% decline in felony crime (robbery down 40%) and significant reductions in fare evasion and disorder.

- Initiated and designed a comprehensive five-year plan to serve as a blueprint for attacking serious crime and disorder, and for expending \$260 million capital budget to modernize all computer systems, communications and department facilities.
- Sought and obtained state funding to address interim emergency needs for improved communications, vehicle maintenance and purchases, new firearms and training.
- Reduced command staff levels; reorganized and decentralized department structure; empowered district commanders to implement community policing-style preventive-policing patrol strategies to reduce robbery, fare beating and disorder.
- Created department's first EEO office to monitor compliance and expand minority recruitment, selection and promotion.
- Initiated department's first annual "Women in Policing" Conference.
- Became the second-largest department in the United States to gain accreditation from the Commission on Accreditation for Law Enforcement Agencies with active involvement of the department's three unions.
- Significantly expanded and modernized the department's academy, recruitment methods, curriculum and training to include an innovative Field Training Officer Program for new officers.
- Conducted the Authority's first comprehensive security review of all yard and depot facilities.
- Developed a multi-year program for more effectively training, equipping and deploying unarmed guards in all facilities.
- Introduced electronic and other surveillance equipment and techniques to reduce vandalism and employee theft.

**Superintendent  
Metropolitan Police Department  
Boston, Massachusetts**

**1986 - 1990**

Recruited by the Metropolitan District Commission to lead its 640 member, full service police department (third largest in Massachusetts) with a \$26 million annual budget. The Commission managed many of the highways, parks, beaches, public facilities and waterways in the Greater Boston area.

- In May 1986, the department, rocked by corruption scandals, was demoralized and dysfunctional. Effectively addressed corruption problems and reengineered the department with significant improvements in morale, productivity, public image and resultant reductions in crime and disorder.
- Initiated and designed a value-oriented plan of action to serve as a blueprint for revised strategic direction as well as for multi-million dollar modernization of the department's communications and computer systems, facilities, firearms, vehicle and marine fleets.
- Installed new management and audit systems for the control of the department's budgets, overtime and sick leave.
- Implemented strong affirmative action initiatives, which resulted in doubling of minority supervisors, appointment of 25% minority district commanders and recruited the first female Chief of Patrol (who subsequently succeeded me as Superintendent).
- Revised completely the department's rules, policies and procedures to include state of the art use-of-force and high-speed pursuit policies.

**Chief of Police  
Massachusetts Bay  
Transportation Authority Police Department  
Boston, Massachusetts**

**1983 - 1986**

Recruited by the nations' oldest public transit system to lead its police department, which had multi-county jurisdictional responsibilities in seventy-nine cities and towns serviced by the Massachusetts Bay Transportation Authority.

Effectively addressed violent crime problems that had increased by nearly 50% between 1979 and 1981. By 1986, violent crime had been reduced by 37%.

- Designed and initiated a comprehensive and successful multi-million dollar anti-crime program, which doubled the size of the department, installed its first system-wide communications network, and doubled again the agency's enforcement reach by training bus and train inspectors as special police officers.
- Developed a coordinated program with thirteen municipal police departments to jointly respond to MBTA-related crime problems.
- Created an Internal Security Unit to deal with employee and vendor theft throughout the transit agency. The unit's first major investigation resulted in the arrest of 37 money room employees involved in the theft of millions of dollars of fare revenue.
- Initiated and directed the department's accreditation project which culminated in conferral of accreditation from the Commission on Accreditation for Law Enforcement Agencies (thirteenth law enforcement agency in the country to achieve that status).

W I L L I A M J . B R A T T O N

**Boston Police Department  
Boston, Massachusetts**

**1970 - 1983**

**Superintendent of Police**

**1980 - 1983**

Reporting directly to the Police Commissioner, served in highest sworn rank; assignments included Executive Officer, Inspector of Bureaus, Director of Labor Relations and Commanding Officer, Operations Division

**Subject:** Information in advance of meeting with the City of Moreno Valley

Good afternoon Mr. Wasserman. We are looking forward to meeting with you on April 10th regarding policing options for the City of Moreno Valley. In advance of our meeting we wanted to share some information with you. Attached are the following:

- Draft study for in-house police services: the City has investigated the cost to have our own police department several times. Attached is the most recent study which was completed in 2011. This information was presented

to the City Council's Public Safety Subcommittee but was never formally presented to the full Council (however they each received a copy).

- Attachment "A" to our contract with the Riverside Co. Sheriff's Department which summarizes our current level of service.
- The crime stats illustrating Moreno Valley's UCR Part I crimes from 1991-2012

Additionally, last week the City Council received a study session report on the history and projected costs of our public safety contracts with the County and Cal Fire. The staff report and PowerPoint for that item are attached as well.

Please don't hesitate to contact me if you have questions regarding any of the information provided.

Good Morning Mayor Pro Tem Smith:

I am forwarding the information below on behalf of Mayor Owings.

Mayor Owings advised you may be inviting representatives of other entities to the meeting. Would you please advise me the names of the attendees once they are confirmed?

Thanks,

Cindy

*Cindy A. Miller

Cindy:

I e-mailed the Mayor yesterday my availability (below). Bratton probably won't accompany me but Allison Hart (former City Manager in Irvine probably will). I won't know Bratton's schedule until closer to the date so if he can join us, he will.

Can you confirm that date for us? I will be flying down from Oakland for the meeting.

Thanks  
BW

"Riverside County Sheriff's Department and its contract agency (Moreno Valley) implemented a records management system mid-year 1999 and experienced technical problems with the system. Totals reported for 1999 were not valid and should not be used to make comparisons. Therefore, to maintain comparability of 2000 data with 1999 data, counts are shown but not included in the subtotals or total selected jurisdiction counts."

Note \* 2: Shown above is the approximate % change for 1999 using 1998 v 2000 comparison. Per Lt. Hill at Riverside County Sheriff's Technical Services Bureau (TSB): "The Riverside County Sheriff's Department implemented a new records management system in 1999 and experienced technical problems with the system. Totals reported for 1999 were not valid and should not be used to make comparisons." What is shown is an average decrease in crime for 1999 by percentages using 1998 as base year and 2000 as the comparison year and then divide the year 2000 percentages by 2 to show an average for each year, 1999 & 2000.

**AB 109 Realignment:  
Riverside County Sheriff's Review of Issues and  
Recommended Legislative Changes**

January 17, 2013

MV00227435

AB109 Realignment has brought about drastic changes for the California criminal justice system. One of the major impacts felt in Riverside County has been the shift of responsibility to the local jails for housing a large number of convicted criminals who would have previously gone to state prison to serve out their sentences. Our jail system in Riverside County was already undersized before Realignment, and Realignment has only exacerbated the problem. While overcrowding has become the most visible impact of realignment, it is just one of a host of issues that are quickly becoming the new norm for local jails in California.

Although the Riverside County jails had experienced prior periods of overcrowding before Realignment, improvements in headcount management and the efforts of our allied criminal justice partners who effectively kept court cases moving at a reasonable pace and made good utilization of incarceration alternatives resulted with our local jails operating at about 83% capacity before realignment. This was near the Federal Court Order threshold of 90% full, after which the Sheriff's Department was to begin making early releases, but was manageable. This jail status allowed Riverside County police agencies, Probation, and State Parole to book suspects with confidence the person would be held until released by legal process, transferred to prison, or had served their sentence. Jail security was a primary focus, since the jails held some inmates at high security levels while they awaited trial or return to prison, but the majority of the sentenced jail population was comprised of lower security inmates. The jail system offered a variety of rehabilitative programs aimed at short-term inmates to address their educational, vocational, therapeutic, and substance abuse treatment needs as they prepared to return to the community. The Sheriff's Department additionally operated a robust work release and home detention program for eligible sentenced misdemeanants that offered viable alternatives to jail custody while providing valuable volunteer service to the community. Projections showed that more jail beds would be needed in the near future to handle unaddressed past population growth and future growth, and planning was underway to meet this need.

As projected when the details of Realignment were first revealed, the demand for local jail beds sharply increased following the implementation of Realignment. By January 2012, this increase overwhelmed the available capacity, causing the need to begin making early releases. Along with a higher number of inmates came a need for more high-security housing as the number of inmates with histories of violence and criminal sophistication rose. These inmates no longer passed through jail relatively quickly, but many were sentenced to long stays in jail. The traditional short-term programs and program housing quickly proved inadequate to address the needs of inmates facing years in jail. The busy work release and home detention programs remained highly important as alternatives to custody for misdemeanants, but also began expanding to serve as possible alternatives for longer-term inmates and as a method to provide a layer of control for select pre-trial detainees who could then be released from custody while awaiting the court process. With jail overcrowding the new reality, there became an increased need to quickly construct additional jail beds to handle the growing jail population and provide adequate space for programs, health care and mental health treatment. Arresting and prosecuting agencies could no longer be certain that inmates booked into jail would remain there until a legal disposition was reached as increasing numbers were released both pre-trial and before serving a full sentence.

Impact statistics as of November 28, 2012, showed 7,054 realignment-related inmates had served time in our local Riverside County jails since implementation, with 902 of those still physically remaining in jail on November 28th.<sup>1</sup> This change meant that 902 beds that would have been used in the past to hold the type of inmates traditionally held in county jails before realignment were effectively unavailable. This represents approximately 24% of all the current jail beds in Riverside County. 1,932 of these inmates were sentenced under the new state law wherein certain state prison inmates now serve their sentences in county jail [1170(h) PC], with 205 of them remaining in jail still serving out sentences of three years or more. This growing population of long-term sentenced inmates has clogged the normal in-out flow of inmates, leading to the need to release 6,279 shorter-term inmates early just to make room. While preliminary attempts to utilize other alternatives to jail custody are beginning to make a dent, the early release cycle continues and the jail system remains in crisis.

Many have questioned what we can do at this point to solve this crisis. The primary focus needs to be the construction of new jail beds. These jail beds need to be of a type suitable to house the kinds of inmates we are now keeping in our local jails. They need to be secure, safe and efficient to operate, and they need to be located in proximity to where they are needed and close to the type of diverse workforce needed to operate them. There is currently a project underway to expand our jail adjacent to the courts in Indio. This project is a good start to addressing several issues as it corrects the local shortage of jail beds, modernizes and adds additional layers of security over the existing jail, and provides needed jobs to the local economy. But additional jail bed construction is critically needed. These beds need to be high-security, designed to house long-term inmates and deliver appropriate programs to increase the participant's chances for success once they are released. Any new facility needs to be centrally located to serve all parts of Riverside County and should be expandable so more beds and program space can be added to meet future needs.

The fact remains that even with a push to build jail beds, it will be several years before any newly constructed jail beds are actually ready to use. Faced with that reality, we must also explore the use of contract beds, either at fire camps or community correctional facilities (like a city jail or jail run by another county), and the Sheriff's Department has entered into dialogue with certain providers who have signaled their ability and willingness to provide beds. While all the details and costs have not yet been determined, we know that under the current requirements these beds will be expensive to operate over the long term and will never be able to meet more than just a small portion of the local need. However, we will likely have no choice but to utilize these options as a stop-gap measure until our local jail capacity is increased.

Realignment also encourages local criminal justice agencies to utilize alternatives to physical custody wherever possible if a way can be devised to maintain a reasonable level of participant accountability while keeping our communities safe. Our local correctional system has been using electronic monitoring as an alternative to custody for many years, and we have begun to expand this program to include persons awaiting trial and persons toward the end of their sentences who have shown a desire to successfully reintegrate into their community. The current legal structure under which this expansion is expected to operate has presented many challenges that will need

---

<sup>1</sup> See Appendix A – Riverside County Sheriff's Update to the Community Corrections Partnership dated November 28, 2012

to be addressed.

Driven primarily by the State's budget woes, including inadequate prison capacity, AB 109 Realignment was too hastily created. In the year since the changes went into effect, key flaws have been found that need immediate correction by our Legislature. As the full impact and costs associated with Realignment have become increasingly clear, the need for changes in current law has become more and more apparent. Our community recommends strongly and supports the following legislative fixes as most needed:

1) **Adequate Funding from the State.** For realignment to succeed, there will need to be rapid and steady growth in the number of quality programs available for persons both in and out of custody and an adequate number of jail beds for those who are not willing to participate in other alternatives. Realignment will also continue to drive cost increases for the care and security of the new class of inmates who remain within jail walls. Therefore, it is imperative that funding for Realignment be from a designated source, be adequate to fund the true costs of Realignment, be ongoing, and be guaranteed. A permanent shift in responsibility of this magnitude must be accompanied by a corresponding permanent shift in funding to the local level in an adequate amount to cover the true costs. Without sufficient guaranteed funding, all our neighborhoods and communities could be put at even greater risk.

The recent passage of Proposition 30 was an important first step in guaranteeing a base level of funding for Realignment. The proposition offered a constitutional guarantee that certain tax revenues would be remitted to local governments annually to fund program responsibilities transferred to these local governments by the state in 2011, including Realignment.<sup>2</sup> The question remains whether the level of funding contained in the proposition will be adequate to begin to address the true costs of Realignment. We have already seen that the current level of state funding falls far short for the current identified needs in Riverside County, and many of the effects of realignment have yet to be fully realized. For example, the amount of money needed to fund the initial budget requests made to the Riverside County Community Corrections Partnership for Fiscal Year 2012/13 totaled \$56.7 million, yet the funding provided by the state was less than \$43.2 million; a \$13.5 million gap.<sup>3</sup>

Yet these past budget requests only began to scratch the surface of the true need. While the Sheriff's request for FY 2012/13 contained funding to begin using contract beds to meet the immediate housing need for a portion of the long-term population – primarily fire camp beds – that request totaled only \$3.7 million, which was then scaled back at budget approval. Just to keep those same 280 fire camp beds funded for the following full-year will require an additional estimated expenditure of almost \$5 million.<sup>4</sup> On November 28, 2012, AB 109 inmates occupied 902 beds in Riverside County jails. Subtracting the 280 inmates that could potentially be sent to fire camps, the jails system still needs to provide beds for more than 600 AB 109 inmates just to meet current population numbers. Most of the available contract jail beds in California are located in closed facilities owned by several Central Valley cities. It is unclear whether any of

<sup>2</sup> From California Legislative Analyst's Summary of Proposition 30.

<sup>3</sup> See Appendix B - AB109 Community Corrections Partnership Executive Committee Summary of Budget Requests FY 2012/13.

<sup>4</sup> Calculated cost of \$4.7 million for CDCR Bed Cost and nearly \$300,000 for evaluation & transportation.

these facilities are adequate to meet the current need, but, assuming a suitable facility was found, early projections set the cost for an adequate number of these contract beds at an additional \$20 to \$30 million per year.<sup>5</sup> These cost numbers do not even begin to reflect the burgeoning prices for in-custody programs and increased anticipated expenditures for enhanced medical care, dental care, and mental health/substance abuse treatment.

The numbers clearly show that the current level of state funding, while a start, does not address the full needs caused by Realignment. The costs previously mentioned pertain to some of the increased cost for the Sheriff's Department, yet other partners in the criminal justice system and related human services agencies – like Probation, District Attorney, Public Defender, County Hospital, and Mental Health – are also experiencing increased costs as they manage the effects of Realignment in their own areas of responsibility. The legislature needs to remain cognizant of these direct and ancillary costs, and make provisions so all the impacts of Realignment are adequately funded.

2) **Sentences to Local County Jails.** Before passage, when AB 109 was still being crafted, those worried that the new law would require long sentences in county jail were directed to the language in the law stating that the types of non-violent, non-serious, and non-sex offense crimes covered by AB 109 carried maximum sentences of no more than three years. This led to the assumption that no sentences given out under Realignment laws would be longer than three years. While technically true for any single sentence, what was not revealed at the time was that many felons convicted under AB 109 have more than one charge, more than one case pending against them, or have sentencing enhancements added to their charges that are designed to be served consecutive to the base charge. As a result, since Realignment, many people have been sentenced under AB 109 to county jail for very long terms. In Riverside County, these consecutive terms have manifested in a sentence for one inmate of as long as 14 years, 4 months, and many other sentences exceeding the supposed three year maximum for others.<sup>6</sup>

The design and construction of county jails in California has traditionally focused on safely and humanely housing arrestees awaiting trial and those serving short-term sentences before returning to the community. County jails were not intended to house inmates for multiple years. County jail programs were never focused on serving inmates with extended sentences. Once the issue of consecutive sentences and enhancements leading to long jail terms became known, the inappropriate placement of long-term inmates in a place designed for short-term housing was quickly recognized as an unintended consequence of Realignment. Legislation was introduced in the 2011-12 session of the California State Senate to clarify that no person should be directed to serve a sentence in county jail if the total custody time was for more than three years. However the proposed legislative fix ran into resistance due to continued state prison overcrowding and budget issues, so the legislation failed passage in April while still in committee.<sup>7</sup>

A change must be made to take total length of sentence into account when designating where

---

<sup>5</sup> Calculated cost at \$60 to \$70/day Bed Cost, plus evaluation, transportation, oversight, and local video visitation costs. Many possible additional costs related to Programs and Medical needs are still unknown.

<sup>6</sup> The 14-year, 4-month sentence initially imposed was later reduced by the court to a sentence of 12 years, 8 months in county jail.

<sup>7</sup> SB 1441 (Emerson) Cap on Sentences

custody time will be served. No person should be sentenced to more than three years in local custody, regardless of their offense. Any person sentenced to custody for longer than three years, either for one case or any number of consecutive cases, should instead be sent to state prison, which is better suited to deal with long term incarceration. Although overcrowding and funding issues will undoubtedly continue to plague the state prison system, just as they do local county jails, the fact remains that state prison is the more appropriate place for felons to serve long sentences.

3) **Statewide Fire Camps.** Another unintended consequence of Realignment has resulted in a crisis filling Statewide Fire Camps with enough inmates of the correct classification for the camps to competently function and offer adequate fire protection for California's vulnerable forests and grasslands. These camps, traditionally cooperative operations between CDCR and either CAL-Fire or a local county fire department, historically drew upon a certain pool of low-level state prison felons in CDCR custody to populate their necessary workforce. Before Realignment went into effect, those types of inmates served their sentences in state prison. Since Realignment, the types of inmates most suitable for Inmate Fire Camps are routinely sentenced to county jails, not state prison. Counties have been told that they may enter into contracts with CDCR to return suitable inmates back to CDCR, but the county has to agree to pay a daily bed rate for each inmate to the camp, plus screening and transportation costs.

A change must be made to enable Inmate Fire Camps maintained by CDCR and Cal-Fire to be adequately populated with the appropriate county inmates without burdening counties with all the costs. As previously mentioned, CDCR has indicated a willingness to accept appropriately screened inmates from counties to keep the camps populated, but insists on passing the daily camp costs to the counties since they have not been otherwise funded by the state. This cost is prohibitively expensive and will limit the ability of most counties to send many sentenced prisoners to the fire camps. As a result, the state will suffer during each fire season because they will likely have an insufficient number of fire camp inmates to fight the inevitable wildfires – while the local jails remain overcrowded. In recognition for the valuable service provided across our entire state, California needs to cover all the costs of Inmate Fire Camps as they did before Realignment, or at least require counties to bear no financial burden beyond the cost of local inmate screening and transportation to and from the designated CDCR transfer location.

4) **Good Time Credits.** Inmates kept in physical custody in local county jails before trial are generally entitled to earn credit for time served before they are sentenced and have that time deducted from the time owed on their sentence. Sentenced inmates also are generally entitled to earn good time and work time credits for time served in local county jails subject to maintaining good behavior and participating in prescribed programs.<sup>8</sup> Because of overcrowding, many local jails have developed programs as alternatives to jail. Many of these programs severely limit the movements of participants, require them to submit to electronic monitoring and periodic checks, and require participants to agree to random searches and sobriety checks. While these programs are designed to simulate custody and hold participants in a kind of "virtual" jail, current law does not allow participants to earn time-served or behavioral credits, even when participants fully comply with all the imposed requirements.

---

<sup>8</sup> California Penal Code Section 4019.

A change must be made so that inmates who voluntarily accept placement in programs designed as alternatives to physical custody can earn behavioral and time-served credits if they maintain good behavior and are successful in the alternate programs. One of the underpinnings of Realignment was a belief that local agencies could develop and operate creative alternatives to custody that will keep communities safe while allowing the proper inmates to be appropriately monitored without having to physically keep them in jail. As stated previously, current law gives inmates in local jails credits for time served while awaiting trial and behavioral credits for inmates serving sentences, however; these same credits are usually not available for the same inmates if they voluntarily participate in an alternative program, such as GPS ankle bracelet programs or work release. Realignment allows for these programs, but failed to address the credit issues. As a result, participants in these programs are penalized for their participation and the programs are less attractive as alternatives to custody. A change needs to be made so that time spent in programs where the inmate remains in the virtual custody and control of the jail system, and fully complies with that program's requirements is treated the same as time spent in physical jail custody in regard to credits.

5) **Involuntary Work Release.** Current law allows county boards of supervisors to set up work release programs in which suitable inmates can be assigned to perform manual labor in lieu of jail time by improving and maintaining streets, parks, and other public facilities for both local governments and selected community nonprofit organizations, removing graffiti, weeds and rubbish, and performing yard and repair work for senior citizens.<sup>9</sup> All counties can elect to run programs in which qualified inmates participate voluntarily in work release programs, and counties in which the average daily inmate population is over 90 percent of capacity may attempt to set up programs in which selected inmates can be forced to participate involuntarily. While this sounds like a fine idea on the surface, under current law each type of program has issues that make them unattractive or unworkable.

Voluntary work release in lieu of jail time has been used for several years in Riverside County and numerous other locations. Many valuable hours of community work have been performed over the years by participants directly sentenced to the program by the courts. Participants are uncompensated and are routinely charged an administrative fee to help defray the costs to run the program, as allowed under the law. However, participants in the voluntary program are not entitled to receive good time credits, even if they fully comply with all the terms of the program.

As discussed previously, the inability to earn credits makes this program an unattractive option for those currently in custody. This is particularly true in counties like Riverside County that are over capacity in their jails. The inmates who are lower security risks and who comprise the population most suitable for work release are also the inmates most suitable for an early release under the Federal Court Order covering overcrowding. Inmates soon learn that if they participate in the voluntary work release program, it will take far longer to finish their sentences than if they just relax in jail. By staying in jail, they automatically earn credits that drastically reduce the time they must stay. In addition, many of these inmates are also released early due to overcrowding. Both the courts and jails have reported seeing increasing numbers of inmates

<sup>9</sup> California Penal Code Sections 4024.2 (Voluntary) and 4024.3 (Involuntary).

who were initially sentenced directly to work release purposefully fail in the program to get their sentence changed to jail time, only to soon be granted an early release based on overcrowding.

The initial legislative answer to this problem was to create a method in which inmates could be involuntarily assigned to a work release program. While this sounded like an easy answer on the surface, a reasonable analysis soon showed that this notion was full of problems and doomed to fail. Just the idea of forcing someone to do manual labor who does not want to participate is problematic. Common sense tells us the quantity and quality of work we could expect to get from such a participant. While these inmates would be able under the law to earn good time credits for days spent in the program – a benefit not afforded voluntary participants – this incentive means little to someone who could also sit in jail and earn the same credit. To make matters worse, legal counsel has advised this kind of involuntary arrangement could open participating counties to all manner of civil claims, for routine medical and dental care, strict liability for work-related injuries, and more claims based on the involuntary nature of the arrangement.

To make work release a viable alternative to custody, legislative changes are needed to merge the best features of these two programs so that work release becomes an attractive alternative to physical jail time while providing a vital service to the community and granting participants a benefit. Work release programs must be voluntary so that they are populated with participants who want to be there, but they must also grant participants who fully comply with program terms the chance to earn at least as many good time credits as they would otherwise earn simply sitting in jail. The penal code sections dealing with involuntary work release should be recognized as problematic and removed from the books in favor of improved laws covering a reasonable and practical approach to work release.

6) **Medically Infirm Long Term Inmates.** An area of concern for the local jails comes from being tasked to care for a long-term inmate population that is inherently older than the past average, more criminally sophisticated, and possessing a greater depth of therapeutic needs at higher levels than has been seen before. We now see more and more cases where inmates are being sentenced to long terms in our local jail facilities with state prison pasts that have serious medical problems. As the costs of caring for these inmates and taking care of their health needs becomes more apparent, a legislative change will be needed to fund adequate local facilities, staff, and services to meet these needs.

7) **Inmates with Serious Mental Health and Substance Abuse Issues.** Another area of concern comes from the rapid expansion of the quantity and sophistication of inmates committed to long sentences in the Riverside County jails who are diagnosed with serious mental health or substance abuse issues. Besides the inherent increased need for therapeutic staff and costly medications, these categories of inmates often require modified housing and intense security supervision at a higher rate than the traditional jail population. Additionally, while our county jails have historically presented some outstanding and effective programs to address substance abuse, the model currently in use is space and staff intensive, and designed for an inmate who is soon returning to the community. Further programming appropriate for the long-term population will need to be developed and funded, and adequate facilities found, to deal with the growth in these areas.

8) **CDCR Prisoner Transfer Costs.** One of the primary effects of Realignment is that a growing number of convicted felons who would have traditionally served their sentence in state prison are now instead serving out their prescribed custody time in county jail. As the number of inmates being held in county jail awaiting transfer to CDCR facilities has fallen, CDCR has begun to shutter certain receiving center locations and repurpose others. As a result, counties are being forced to transport prisoners to a shrinking number of prison intake facilities at far greater distances than previously required.<sup>10</sup> This change within CDCR has required a sharp increase in the number of transportation vehicles dedicated to state prison runs as well as the amount of staff trained to operate these vehicles and security personnel needed to safely accomplish these lengthy road trips. As a result, local county jail budgets, which were already seriously strained, have had to absorb the additional costs. California Penal Code 4750 and Code of Regulations, Title II, Section 776 specify that local Sheriffs are entitled to reimbursement for expenses incurred in these transportation runs, yet current CDCR policy limits reimbursement of transportation costs to just \$0.185/mile; far below most authenticated mileage rates and far less than actual cost. Legislation needs to be enacted to establish a process for CDCR to follow when making decisions regarding the closure or repurposing of its intake facilities in which local governments have notice and the opportunity for input, and Sheriff Departments should be fully reimbursed for actual, reasonable transportation costs.

9) **Privatized Correctional Facilities.** One of the legislative changes made during the process of Realignment was the purported expansion of the ability of local counties to contract for inmate housing.<sup>11</sup> It was widely reported that these changes would allow counties the ability to contract with a variety of jail bed providers, including CDCR, other county jails, municipal jails, and privatized correctional facilities. However, an analysis of the language of the new laws show they were drafted in such a way that the legality of certain types of contracting remains unclear, and current law does not clearly delineate the legal responsibilities to be borne by each party in these contract situations.

The new laws specifically created statutes that granted new authority for counties to contract with CDCR for the housing of persons with a felony conviction.<sup>12</sup> However, CDCR has announced that it will not take inmates from counties as long as its own headcount remains above the maximum limit set by the federal courts. When and if the CDCR headcount ever falls below the court-imposed limit, CDCR has reserved the right to close prison facilities and beds instead of making them available to outside entities based on its own evaluation of internal costs and needs. So while contracting with CDCR to hold felony inmates for counties appears viable under the law, in reality it is currently not an option and will not likely be a possibility anytime soon.

The new laws also made changes to statutes that covered the housing of inmates in jails owned and operated by other public agencies in California. Previously these types of transfers required

---

<sup>10</sup> See Appendix C – CDCR County Delivery System Update

<sup>11</sup> AB 109 and AB 117; also California Penal Code Sections 17.5(a)(8) and 3450 (b)(8).

<sup>12</sup> California Penal Code Section 2057.

a court order after a finding that the sending county's jails were unfit or unsafe, and then transfer was limited to contiguous counties.<sup>13</sup> Under the changed statutes, counties were given the authority to contract for jail beds with other public agencies who could then house inmates in their jails and community correctional facilities. Besides the various county jails, CDCR has identified eight publicly-owned community correctional facilities; primarily in Central California. These facilities remain potential candidates to receive jail inmates, although challenges remain in relation to finances and distance. This authority is also scheduled to sunset on January 1, 2015.

The new laws also authorized county jails to transfer inmates to contracted private correctional providers if those facilities offered appropriate community-based punishment options. Legal counsel has advised us that this authorization appears quite limited and does not appear to grant authority for the county to contract for groups of inmates based on housing needs. The authority seems to require inmates be specifically selected for placement in these facilities only to address a specific need for programming, such as drug or alcohol treatment, counseling, education, or a specifically structured program to meet their particular need, although the exact definition for such programming is left open to interpretation. There was also no legislative direction offered to address the level of local oversight required to mitigate civil liability for inmate treatment or injury while in contracted housing, leading counsel to conclude that the contracting county would very likely maintain the same legal exposure as if the inmate sent to contract housing had remained in county jail. This would place the county in the untenable position of being held liable for any issues derived from their stay in an alternative location, even if that issue were not the direct fault of the county. If counties are to truly be able to contract for outside housing and transfer inmates into contracted housing, these issues will need to be addressed.

10) **Tort Immunity for Local Jails:** Realignment has caused major changes in the population demographics of local jails in California and has therefore caused drastic changes in the needs of the local jail population. Standards for jail construction and operations have traditionally focused on meeting the needs of inmates whose jail stay was relatively short. Jail cells and recreational areas were built meeting standards established specifically for the traditional county jail population. Jail inmate educational curriculum, therapeutic programs, and religious activities were solely designed to meet short term needs. The focus of medical and mental health care has been to primarily address only immediate, acute needs. Realignment opened whole new areas of responsibility for local jails on the scale previously handled by state prisons. However, the dawn of Realignment did not change the physical limitations of existing jail facilities, or provide for the mass expansion and renovation that would be needed for local jails to suddenly be able to meet these diverse demands. Inmate rights groups that previously focused their energy on the treatment of state prisoners have already begun to redirect their attention to county jails. This will undoubtedly lead to increased scrutiny on the ability of jails to offer facilities and programs for inmates with longer sentences commiserate with what they would have otherwise received in state prison. While counties are moving to rapidly adapt where they can, they face daunting obstacles. Besides the obvious issue of the cost to make changes, the process of analyzing the need and initiating physical facility changes is alone an impossible feat in the short term. For the inmate rights advocates, the pace of change will

---

<sup>13</sup> California Penal Code Section 4007.

undoubtedly be too slow and legal filings have already begun in some venues against local jails that were never designed or built to meet "prison" needs. The legislature needs to recognize this issue and take steps to grant counties appropriate immunity from tort claims based on changes forced upon them by Realignment. This immunity should exempt facilities built before Realignment from meeting new obligations brought by the shift to remake jails into "prisons". The immunity should extend to programs and practices for a reasonable amount of time while change is being analyzed and implemented, with funding for these changes provided by the state.

11) **Prioritization of Jail Construction Funding:** One of the core functions of Realignment was to transfer the responsibility to house certain classifications of inmates from the overcrowded state prisons to local county jails. This change increased the burden for all counties, but this burden has not been felt evenly across the state. Certain counties have felt the increase more heavily due to the total impact of the change, explosive county population growth, and the unique status of their local jail system prior to Realignment. Some counties, like Riverside County, already had large and robust programs in place wherein suitable misdemeanants spent little time in jail and instead served their custody time in work release or electronic monitoring programs. These counties focused their attention and funding on alternatives to custody prior to Realignment, and therefore had not built up a large surplus jail capacity. Other counties, using funding from a variety of internal and external sources, had jail capacity a bit closer to their more modest population growth prior to Realignment implementation. Some of these counties were able to use some of their capacity as a revenue generating source to "rent" out jail space to the federal government. Realignment has purported to encourage the use of alternatives to custody where appropriate, but the reality is those counties with the previous excess jail capacity have been better able to adjust to the crushing impact of the additional inmates being directed to their care. The state has provided some funding opportunities through AB 900 and, more recently, through SB 1022. These funding opportunities will need to continue and grow as the need becomes more apparent across the state. However, for these new jail construction funding grants to be most effective, priority should be given to counties where the need is most critical and where their local county population growth far outpaced their local jail capacity. While attention to programming and re-entry is important, it is important the legislature and regulating agencies involved in directing funding not lose sight of the most acute current need. The decision makers must prioritize grant funding to those counties who are already facing severe jail population caps that force the release of jail inmates back into the community at excessively high rates due to their grossly undersized jail capacity, therefore risking the safety of all our citizens.

2013

Safe Routes to School

Moreno Valley Safe Routes to School  
Meeting With Mayor Owens  
March 27, 2013

Presentation: Introducing the complete program to Mayor Owens; highlighting the "Volunteer Opportunities"

The Peace March: Thank Mayor Owens for coming and his input on the event; If he will be coming to the June event ✓

The Salvation Army Event: Invite him to the March 30 Celebrate Event ✓

RCRMC Event: Invite him to event and update him on our participation of event (P)

Public Service Announcement: Invite him to assist us with upcoming announcements and publicizing the Moreno Valley Safe Routes to School program Bike Rides

The Elks Club: Set a date for Introduce Shor and to present the Moreno Valley Safe Routes to School Program

Vote: Status to Create a Directive for Moreno Valley Safe Routes to School — N

✓ Division of City: Look at map to create Neighborhoods based on School Location- High School, Middle School, and Elementary

✓ Internships/Mentorships: More information on developing a program for and within our program

Program Status: What is the status of the Mayor's Neighborhood Program; Set a date for lunch with the Mayor and Dr. White

Invite the Mayor to our 1st Annual Volunteer Celebration Picnic: May 18, 2012 (location to be announced)

Status of Mayor's Gala and donation to our program

Set Date for next meeting |

# Our Community Now

MVSRTS

# M.V. Safe Routes Program

## Components

### Services

Walking school bus  
Parent paths  
Volunteer crossing guards  
Drop-off sites  
Parking lot patrol  
Bicycle train

### Programs

Monthly student education  
Safety awareness  
Physical fitness  
Mental fitness  
Nutrition

The Safe Routes to School Program was implemented in Moreno Valley in 2011 and it has become a great success!

Our goal is to create a safe and healthy walking/biking environment and a safer healthier community. Through continuous education at each of our school sites along with volunteer empowerment.

# The four E's

- **Engineering** – The City transportation department focuses on creating physical improvements to the infrastructure surrounding the school, reducing speeds, and establishing enhanced crosswalks and pathways.
- **Enforcement** - uses local law enforcement to ensure drivers obey traffic laws.
- **Education** – our staff teaches student safety skills, nutrition, the importance of physical activity and launches driver safety campaigns
- **Encouragement** - uses events and contests to entice students to try walking and biking.

# How We Have Grown

**2011-2012**

**4 Schools participated**

– 4 walking school buses, 12 volunteers, 41 students

**Today**

**11 schools participating**

– 6 walking school buses, 97 volunteers, over 1,000 students  
voluntarily signed up for the program so far!

# Student Involvement

Currently we have over 1,000 students involved in the program! This number is growing by the month!

Many of our students and community partners volunteer to help make drivers aware.

# Statistics

- 33% of Children are obese and this number is rising
- 23% of Children get no physical activity at all
- **Thirty years ago** - 60% of children living within a 2-mile radius of a school walked or bicycled to school.
- **Today** - number has dropped to less than 15%. Well over half are driven to or from school in vehicles.
- **Thirty years ago** - 5% of children between the ages of 6 and 11 were considered overweight or obese.
- **Today**, that number has climbed to 20%.
- This trend is a rise in preventable childhood diseases, worsening air quality, and increased congestion around schools

# Our impact

- The SRTS program has decreased pedestrian and biker collisions by about 49%
- We provide the children with incentives to walk!
  - Walking Celebrations
  - Rewards
  - Safety/health education
- We are building an empowered community that promotes health, safety, and community involvement.
- MVSRTS protects up to 11,000 children each day by encouraging walking and safe driving habits at school sites.

# Volunteer Empowerment and Benefits

## **Education:**

- Personal Achievement
- Goal Setting
- Realizing Your Skills
- Excel
- Word

## **Career Preparation and Experience**

- Calculated Hours and Timesheets
- Positive References
- Shows a Willingness to Work and a Self Starter

## **Resources:**

- Contact with Local Agencies
- Services Provided by Local Agencies
- Information Provided by Local Agencies

## **Health:**

- Information on Diet and Exercise
- Information on Resources Available
- Information on Dealing with Mental Health Issues

# Moreno Valley

## Safe Routes to School Staff

- Shor Denny – Program director
- Chekota Russell – Program Administrator
- La' Keisha Stallworth – Volunteer Coordinator
- Melissa Hinkle – Funding Coordinator
- Erika Elkins - Assistant
- Giovanni Argueta – Administrative Assistant

# SAFE ROUTES TO SCHOOL MORENO VALLEY

A community program for our kids.

# SR2S PROGRAM

- Integrates health, fitness, traffic relief, environmental awareness and safety under one program.
- Opportunity for schools, communities, and local government to create a healthy lifestyle for children and a safer and cleaner environment for everyone.

**Improved pedestrian skills**

**Community design**

**Less reliance on automobile**

**Increased physical activity**

**Many reasons to do a Walk and Bicycle to School program**

**Decreased neighborhood/school traffic**

**Increased independence**

**More social interaction**

**Reduced fear of crime**

# SRTS – WHY IS IT IMPORTANT?

- **Thirty years ago** - 60% of children living within a 2-mile radius of a school walked or bicycled to school.
  - **Today** - number has dropped to less than 15%. Roughly 25% commute by school bus, and well over half are driven to or from school in vehicles.
  - **Thirty years ago** - 5% of children between the ages of 6 and 11 were considered overweight or obese.
  - **Today**, that number has climbed to 20%.
- 
- Trend is a rise in preventable childhood diseases, worsening air quality, and increased congestion around schools

# THE FOUR E'S

---

- **Engineering** - focuses on creating physical improvements to the infrastructure surrounding the school, reducing speeds, and establishing enhanced crosswalks and pathways.
- **Enforcement** - uses local law enforcement to ensure drivers obey traffic laws.
- **Education** - teaches students important safety skills and launches driver safety campaigns
- **Encouragement** - uses events and contests to entice students to try walking and biking.

# ENGINEERING

---

- Enhanced high visibility crosswalks / school signing
- Traffic signal operation (Countdown timers, increased crossing times) / new traffic signals
- Enhanced traffic control at major school crossings
- Connecting missing sidewalk / high level walking path maintenance
- Walking audits with parents / community leaders
- Crossing guards
- Speed limits / Radar Speed Feedback Signs / Flashing Beacons

# ENFORCEMENT

- Increased presence around schools
- Pedestrian compliance operations
- Bicycle rodeos / other safety outreach
- Maintain school speed compliance

# EDUCATION

- **Walking school bus (Elementary)** - Parents collect other children walking the same direction to school. Parents will wear fluorescent vests and carry a bus sign. Walking parents gather children so they don't have to walk alone.
- **Parent paths (Middle Schools)**  
Volunteers line the major streets around our schools, observing and reporting. Children walk to school as they normally do.

- **Parent Crossing Assistance (All schools)**  
Parents are posted at crossing locations along the walking paths. They observe the traffic rules and help the children cross intersections safely.

# ENCOURAGEMENT

---

## Walking and driving safety for kids

- Coloring contests, posters, monthly walking celebrations
- Walk to school day, walking school bus.
- Quarterly safety education assemblies.

# COLLABORATION

## Staff

Program coordinator, Volunteer coordinator, Administrator

## Volunteer base

Active seniors, High school students, Parents, student SRTS team, local community members

## Partners

Bob's Big Boy, Visterra CCU, RTA, MVUSD, City of Moreno Valley, City Council, M.V. School Board, Integrated Care Communities, Liberty Tax

# THE BEGINNING

Walk to School Month - October 2011

2 Schools participated

## Moreno Elementary

- 4 walking school buses, 7 volunteers, 11 walkers

## Mountain View Middle

- Parent paths, 5 volunteers, approx. 30 walkers

# RESULTS TO DATE

## 3 schools participating

- **Moreno Elementary**
  - 3 walking school buses, 3 volunteers, 11 walkers
- **Mountain View Middle**
  - 4 intersections, 8 volunteers, 150 walkers
- **Armada Elementary**
  - 2 school buses, 15 volunteers, 112 walkers

## **2 schools in setup process**

Hendrick Ranch, Badger Springs

## **Five more schools to start 2012-2013**

Cloverdale, Honey Hollow, Chaparral Hills, Midland, Valley View

# SRTS GROWTH

## Program Start

15 Volunteers, 4 walking school buses,  
41 walkers

## Today

41 Volunteers, 4 crossing guards,  
7 walking school buses, 273  
walkers

## Program Enhancements

Monthly volunteer breakfast,  
volunteer trainings, student school  
check-in process, continually  
partnering with local businesses,  
and community groups.

# Community Now

MVSRTS

# Moreno Valley Safe Routes

- The Safe Routes to School Program was implemented in Moreno Valley in 2011 and it has become a great success!
- Our goal was to create a safe and healthy walking/biking environment for our children.
- M.V. Safe Routes Program components
  - Walking school bus (Elementary approach)
  - Parent paths (Middle School approach)
  - Volunteer crossing guards (All schools)

# Student Involvement

- Currently we have 987 students involved in the program! This number is growing by the month!

Many of our student participants volunteer by holding signs that make drivers aware.

# Statistics

- 33% of Children are obese and this number is rising
- 23% of Children get no physical activity at all
- Walking or biking to school is a great way for children to get exercise!
- Schools with more walking and biking students have measurable better air quality!
- There are positive correlations between poor air quality from cars and increases in asthma

# Statistics

- In 2009 almost 23,000 kids were injured walking or biking to school
- 250 children died from those accidents
- More and more children are getting rides to school, increasing the traffic on the roads.
- This leads to more accidents and injuries

# Our impact

- The SRTS program has decreased pedestrian and biker collisions by about 49%
- We provide the children with incentives to walk!
  - Walking Celebrations
  - Rewards
- We are trying to build a loving community. That promotes health, safety, and community involvement.

Southern California Edison (SCE)

# SAN ONOFRE NUCLEAR GENERATING STATION

## THE VALUE OF SAN ONOFRE

3/5/13: c: Council Members  
City Manager  
from: Mayor Owings

--FYI--

Southern California Edison's (SCE) San Onofre Nuclear Generating Station, near San Clemente, Calif., is Southern California's largest and most reliable source of electricity. Jointly owned by SCE, San Diego Gas & Electric and the city of Riverside, the units can generate 2,200 megawatts of power — enough to meet the needs of 1.4 million homes and businesses at a point in time.

The San Onofre plant has produced more than 350 billion kilowatt-hours of electricity since its beginnings in 1968 — exceeding all other individual power sources in the region.

### THE GROWING IMPORTANCE OF CLEAN ENERGY

Nuclear energy is virtually free of carbon emissions, making the San Onofre Nuclear Generating Station increasingly valuable for meeting rising air quality standards and California's commitment to reducing greenhouse gases. Carbon emissions are a prime contributor to the greenhouse gas effect.

Unlike nuclear plants, fossil fuel plants burn their fuel sending particulate matter and greenhouse gas emissions up their smoke stacks and into the atmosphere. Nuclear plants do not burn their fuel and therefore virtually no air emissions are produced.

Compared to fossil fuel generation, San Onofre has helped **AVOID:**

• **100,000** metric tons of smog producing pollutants.

• **180,000,000** metric tons of carbon emissions.

### 24-HOUR GENERATION

The San Onofre plant provides "baseload" generation, meaning its power serves customers' needs day and night, regardless of the weather or the time of day. Few other energy sources are able to provide generation 24 hours a day, 7 days a week.

### A SECURE FUEL SOURCE

San Onofre enhances energy security by increasing SCE's generation diversity that also includes solar, wind, geothermal and biomass. In addition, uranium is an abundant, predictable, secure fuel source that reduces California's dependence on less stable fuel.

### ESSENTIAL TO GRID RELIABILITY

San Onofre provides the region with electricity as well as essential voltage support. Grid operators like SCE must ensure not only that enough electricity is available for customers' homes and businesses, but also that there is adequate voltage support. Much like water pressure in a water system, voltage keeps electricity flowing.

## THE UNITS CAN GENERATE

**2,200** megawatts of power

ENOUGH TO MEET THE NEEDS OF

**1,400,000**

homes and businesses at a point in time

# SAN ONOFRE NUCLEAR GENERATING STATION

## HOW SAN ONOFRE MAKES ELECTRICITY

Most large power plants generate electricity in the same way. They produce steam to turn turbines that rotate generators, producing electricity. They differ in the fuel they use to create steam—oil, coal, natural gas or, in the case of San Onofre, uranium.

1. The nuclear reactor heats water which is then pumped to a steam generator. From here, the heat is transferred to a second water system where that water is converted to steam.

2. High pressure steam flows through the turbine where propeller-like blades spin the electric generator.

3. Inside the generator, coils of wire and magnetic fields interact to produce electricity.

4. The electricity leaves San Onofre through a transmission system to provide power to 1.4 million Southern California homes and businesses.

5. A third, separate cooling system using ocean water condenses the steam back into water for recycling back to the steam generator.

# SAN ONOFRE NUCLEAR GENERATING STATION

## INSIDE THE DOMES

The large domes you see when driving past the San Onofre power plant are 160-foot-high, 4- to 7-foot-thick concrete structures that house steel nuclear reactors and other equipment. The domes are one of several, overlapping safety barriers designed to contain radioactive material during the unlikely event of a plant emergency.

### REACTORS

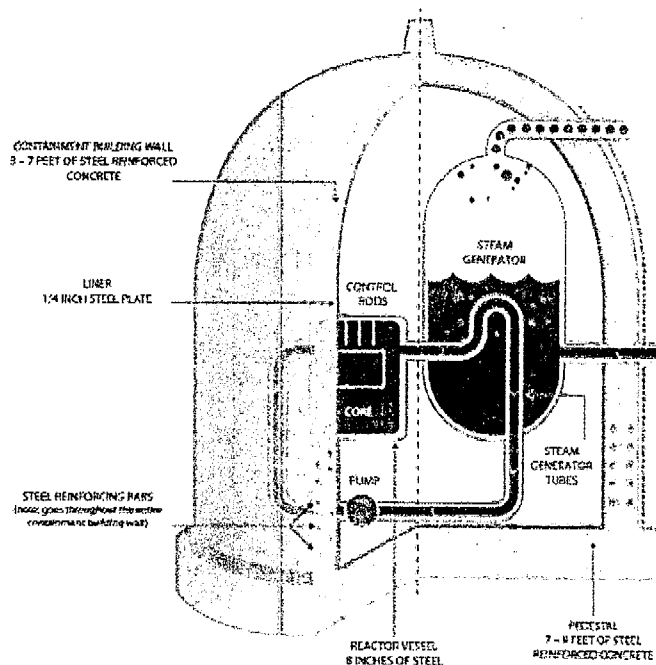

The reactors are 8-inch-thick steel vessels within which the nuclear fission occurs. The energy released heats water to more than 600 degrees Fahrenheit and 2,200 pounds per square inch of pressure. The reactor water serves two purposes: creating heat for the unit's steam generators and slowing the movement of neutrons within the fuel's atoms, which enables fission to occur.

### FUEL AND CONTROL RODS

Nuclear plant fuel is made up of small solid uranium pellets, about the size of the end of your finger. The pellets are dense, ceramic material placed end to end inside long sealed metal tubes called fuel rods. The fuel rods are grouped together in bundles and arranged so that control rods can be placed into them. Control rods contain a substance that absorbs neutrons and are used to slow or stop the fission process, which is done when the reactor is taken offline.

### STEAM GENERATORS

After leaving the reactor, the hot pressurized water passes through pipes submerged in a second water system inside the steam generators. The reactor water heats this separate water system to a boil, creating steam to turn the turbine generators. Each water system is a closed loop. Under normal conditions, water from the nuclear reactor never enters the turbine generator. Both the reactor vessel and steam generators are located inside the airtight, concrete containment dome, while the turbine generators are part of the non-nuclear part of the plant.

### OVERLAPPING, HIGH-TECH SAFETY AND SECURITY MEASURES PROTECT THE PUBLIC

Multiple physical barriers prevent the release of radioactive particles from inside the reactor into the atmosphere. These include the sealed fuel rods, the reactor vessel, the water system piping and the reinforced concrete dome. Overlapping electronic and visual technologies monitor the integrity of each barrier around the clock, as do SCE's trained plant operators and independent inspectors stationed at the San Onofre plant by the Nuclear Regulatory Commission. These expert inspectors have full unrestricted access to all plant operations.

# SAN ONOFRE NUCLEAR GENERATING STATION

## SAN ONOFRE'S STABLE POWER FUEL

Energy diversity leads to increased energy security. As a result, California's energy supply is more secure and its energy costs more stable because of nuclear power plants such as Southern California Edison's (SCE) San Onofre Nuclear Generating Station near San Clemente.

North America and other stable parts of the world have abundant supplies of secure, domestic uranium. As a result, nuclear generation makes America's electricity supply less dependent on unpredictable markets. And an abundant, assured fuel supply means steadier customer rates.

### URANIUM — AN ABUNDANT ENERGY SOURCE

**STEP 1.** Uranium is mined much like other minerals. Solvents are injected into an area that removes the uranium without displacing large amounts of earth. The result is "yellowcake" which then undergoes filtering and drying.

**STEP 2.** A chemical process converts the yellowcake to uranium hexafluoride which contains one of earth's naturally occurring elements called U-235, the source of the controlled reaction in a nuclear reactor.

**STEP 3.** An enrichment process increases the U-235 content from less than 1 percent to between 3 and 4 percent. This low level of enrichment for nuclear fuel cannot explode and is well below the 90 percent enrichment needed to be weapons grade.

**STEP 4.** The uranium hexafluoride is then converted into uranium dioxide powder, pressed into fuel pellets, loaded into long tubes and grouped into tube bundles for use by nuclear plants.

### NUCLEAR FUEL FACTS

- One uranium fuel pellet smaller than a penny contains as much energy as 149 gallons of oil, a ton of coal and 17,000 cubic feet of natural gas.
- All the used nuclear fuel produced by the U.S. nuclear energy industry during four decades of operation could be stacked 10 yards high on one football field.
- If all the electricity you use in your lifetime were supplied by nuclear power, the used fuel from meeting your energy needs would weigh two pounds and fit inside one soft drink can.
- A nuclear power plant occupying a third of a square mile can generate one billion watts of power, or enough electricity to serve 650,000 average homes at a point in time. Generating the same amount of power with a solar installation would require a solar facility covering 50 square miles or a wind farm covering 200 square miles.

## A NUCLEAR POWER PLANT OCCUPYING

$\frac{1}{3}$  of a square mile

CAN GENERATE

**1,000,000,000** watts of power

**THE SAME AMOUNT OF POWER WITH A  
SOLAR INSTALLATION WOULD REQUIRE  
A SOLAR FACILITY COVERING 50  
SQUARE MILES OR A WIND FARM  
COVERING 200 SQUARE MILES.**

# SAN ONOFRE NUCLEAR GENERATING STATION

## SCE'S RELIABILITY PLANNING

Southern California Edison's (SCE) San Onofre Nuclear Generating Station, near San Clemente, Calif., is the region's most reliable source of electricity. Jointly owned by SCE, San Diego Gas & Electric (SDG&E) and the city of Riverside, the plant generates 2,200 megawatts of power – enough to meet the needs of 1.4 million homes and businesses at a point in time.

San Onofre has produced more than 350 billion kilowatt-hours of electricity since its beginnings in 1968 – exceeding all other individual power sources in the region.

San Onofre offers a number of benefits to the state and to the electricity grid:

- Nuclear energy is virtually free of emissions
- Increasingly important in meeting the state's air quality standards to reduce greenhouse gases
- 24/7 generation of power
- Secure fuel source
- Essential for grid reliability

Additionally, San Onofre has helped avoid 100,000 metric tons of smog producing pollutants and 180 million metric tons of carbon emissions.

Whenever there are unexpected or sudden losses to major sources of transmission, voltage levels can fluctuate or drop. San Onofre provides significant reliability support to the grid, including support for grid voltage and frequency, and allows for increased import of power from distant regions outside of California.

- With San Onofre being offline, due to the plant's location between Orange and San Diego Counties where little other generation is located, grid reliability challenges are created that must be mitigated.
- SCE, SDG&E, and the California Independent System Operator (CAISO) took a number of steps prior to the summer of 2012 to protect grid reliability if high voltage transmission lines to the San Diego area were lost.
  - CAISO worked with AES Corporation to temporarily return Huntington Beach Generating Station Units 3&4 to service to provide generation and local grid support.
  - SCE reconfigured and upgraded certain transmission lines to prevent overloads.
  - SCE installed a load shedding scheme for south Orange County which could be activated if system voltages were to drop.
  - SDG&E installed a load shedding scheme for the San Diego area.
- SCE and CAISO are currently planning additional mitigations for summer 2013 and beyond to protect grid reliability if high voltage transmission lines to the San Diego area are lost.
  - CAISO is negotiating a contract with AES to convert the generators at Huntington Beach Generating Station Units 3&4 to synchronous condensers on a temporary basis to provide local grid support.
  - SCE plans to install four capacitor banks and a Static Var Compensator in Orange County to provide grid support.
  - SCE plans to reconfigure additional transmission lines in Orange County.
  - Should San Onofre remain offline beyond 2014, SCE would need to consider a combination of generation resources and/or transmission, including new lines in Los Angeles and Orange Counties.

SCE, CAISO and SDG&E are taking all prudent steps to ensure grid reliability for customers during the period of time when the San Onofre units are unavailable.

## Report to City Council

---

**TO:** Mayor and City Council

**FROM:** Ahmad R. Ansari, P.E. Public Works Director/City Engineer

**AGENDA DATE:** March 05, 2013

**TITLE:** MVU OVERVIEW AND UPDATE AND UTILITIES COMMISSION DISCUSSION

---

### RECOMMENDED ACTION

Recommendation:

1. No action required.

### ADVISORY BOARD/COMMISSION RECOMMENDATION

Not applicable.

### BACKGROUND

The information contained in the attached power point presentation is to provide an overview and update of Moreno Valley Utility (MVU), and also to present a draft ordinance for the creation of a Utilities Commission for the City Council to review.

### DISCUSSION

Highlights from presentation:

- MVU currently has over 5,000 customers, and had a record peak of 32.5 MW last summer.
- Of the municipal utilities formed after 2001, MVU is the largest.

- Review other utility related topics (water, sewer, gas, cable tv, etc.)
- Perform other functions as directed by City Council.
- Value of public power
  - Provides community with local control
  - Funds stay within the community
  - Programs are designed with community in mind
  - Strong record of reliability
  - Provides opportunity to attract and retain businesses
  - Provides funding for other city services

**ALTERNATIVES**

Not applicable.

**FISCAL IMPACT**

Not applicable.

**CITY COUNCIL GOALS**

**POSITIVE ENVIRONMENT:**

*The information provided helps to create a positive environment within the community.*

**ATTACHMENTS**

Attachment 1: Draft Ordinance

Prepared By:  
Jeannette Olko  
Electric Utility Division Manager

Department Head Approval:  
Ahmad R. Ansari, P.E.  
Public Works Director/City Engineer

Council Action	
Approved as requested:	Referred to:
Approved as amended:	For:
Denied:	Continued until:
Other:	Hearing set for:

ORDINANCE NO.

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF MORENO VALLEY, CALIFORNIA, ADDING CHAPTER 2.25 TO THE CITY OF MORENO VALLEY MUNICIPAL CODE ESTABLISHING A UTILITIES COMMISSION

The City Council of the City of Moreno Valley does ordain as follows:

SECTION 1: Chapter 2.25 of Title 2 of the Moreno Valley Municipal Code is hereby established as follows:

**“Section 2.25.010 Created.**

There is created a utilities commission for the city. It shall consist of three city council-appointed members serving without compensation, and appointed in the manner and for the terms prescribed in Sections 2.04.060 and 2.06.010, respectively, of this code, except that the terms of the members first appointed to the utilities commission shall be set by lot, with one member serving for one year after the effective date of their appointment, one other member serving for two years after the effective date of their appointment, and the one remaining member serving for three years after the effective date of their appointment. Thereafter, all terms shall be for three years and shall expire three years after the effective date of the appointment; provided, however, that the term of an appointment made to fill an unexpired term shall be for the unexpired balance of such term.

**Section 2.25.020 Composition.**

The utilities commission shall be composed of three public members, of which at least two members must be Moreno Valley Utility customers. All members shall each have the ability to evaluate utility issues.

**Section 2.25.030 Powers and duties.**

- A. The commission shall have the general power and duty to act in an advisory capacity to the city council, the city electric utility division manager, and other city staff in all matters pertaining to Moreno Valley Utility.
- B. The commission shall have the general power and duty to act in an advisory capacity to the city council and other city staff in all matters pertaining to other utility services such as water, sewer, gas, and the investor-owned electric utility serving parts of the city.
- C. In addition to the foregoing general power and duty, the commission shall have the following particular powers and duties:
  - a. Review the budget for the Moreno Valley Utility during the process of its preparation and make recommendations with respect thereto to the City Council.
  - b. Review and make recommendations on all capital improvements which require City Council approval.
  - c. Review and make recommendations to the City Council regarding rates for Moreno Valley Utility.

This ordinance shall take effect thirty days after the date of its adoption.

APPROVED AND ADOPTED this \_\_\_\_\_ day of \_\_\_\_\_, 2013.

\_\_\_\_\_  
Mayor

ATTEST:

# Moreno Valley Utility

Overview and Update  
March 05, 2013

# MVU Today

- ⌘ 5,664 customers requiring 32,500 kW of peak demand.
  - ⌘ 5,036 customers are residential
  - ⌘ 596 customers are commercial/industrial.
- ⌘ FY 11/12
  - ⌘ Total kWh sales = 116,116,045 (\$15,147,864)
    - ⌘ Commercial/Industrial sales = 79,264,416 (\$9,303,014)
  - ⌘ Ross 2.34 MW
  - ⌘ Skechers 2.32 MW
  - ⌘ Harbor Freight 1.2 MW
  - ⌘ USPS 1.08 MW
  - ⌘ WalMart .680 MW
- ⌘ Growth continues - FY 11/12, sales are 19% above same time previous year.

# MVU is Largest of New Municipal Utilities

œ Since 2001, several cities formed utilities to serve new industrial and/or residential development. As of today, MVU is the largest.

œ 2011 consumption (MWhrs)

œ Corona	73.40
œ Hercules	15.84
œ <b>Moreno Valley</b>	<b>104.09</b>
œ Port of Stockton	13.62
œ Rancho Cucamonga	64.10
œ Victorville	72.71

# Number of Customers

# kWh Sales

Commercial use has kept sales in upward trend

# Sales Revenue

Has increased since inception

# MVU Net Income

## (Potential Contribution to General Fund)

	FY 2011/2012 Actuals	FY 2012/2013 Amended Budget	Projected Year-end
Total operating revenues	\$16,764,420	\$17,242,100	\$18,574,263
Total operating expenditures	\$14,508,614	\$15,093,462	\$15,921,523
Operating Income	\$2,255,806	\$2,148,638	\$2,652,740
Debt Service	(\$2,195,741)	(\$2,153,221)	(\$2,147,760)
Net Balance	\$60,065	(\$4,583)	\$504,980

# MVU Contributions to General Fund

	FY 2010/2011 Actuals	FY 2011/2012 Actuals	FY 2012/2013 Projected Year-end
Franchise Fees <sup>1</sup>	\$150,456	\$168,267	\$240,000
Utility User Tax <sup>2</sup>	\$789,248	\$907,526	\$1,171,575
Administrative Charges <sup>3</sup>	\$717,195	\$629,549	\$629,594
In-lieu Property Tax <sup>4</sup>	\$0	\$0	\$0
<b>Total</b>	<b>\$1,656,899</b>	<b>\$1,705,342</b>	<b>\$2,041,169</b>

1. Franchise fee = "Rent" utility pays to use public right-of-way

2. Utility User Tax = Tax based on consumption of utilities

3. Administrative Charges = Costs allocated to pay for share of internal service funds and other costs

4. In-lieu property tax or accruing for MVU reserves

# On the Horizon

- œ Develop plan to purchase power
  - œ 10-Year Resource Plan development underway - to Council in June 2013
    - œ Plan will create roadmap for purchases of energy to supply growing load while mitigating risk to utility and ratepayers
    - œ Will include renewable energy component and compliance with resource adequacy requirements
- œ Develop plan to ensure financial stability
  - œ Developing plans to achieve minimum reserve levels as recommended by rate study ~ \$4.4 million
  - œ Funding for capital projects needed to accommodate future growth
  - œ One time rate stabilization payment due to ENCO by January 31, 2014. Balance as of June 30, 2012 is \$1.9 million

# On the Horizon

- œ Plan future Operations and Maintenance Options
  - œ ENCO contract expires December 31, 2020
  - œ Options:
    - œ Extend contract?
    - œ Bring functions in-house?
    - œ Contract with another company?
    - œ Contract with another public utility?

# ENCO Utility Services

## History

- Formed as Edison Utility Services in 1997 by Edison International
- Acquired by SRM-ENCO LLC in 2001
- Name changed to ENCO Utility Services in 2002

## Management

- Robert de Korne, Sr VP of California Operations
- Ruby Irigoyen, Sr VP of Customer Services
- Anton Smeerdyk, VP Engineering and Planning

# Utility Structure

<b>MVU Staff (5 FTE)</b>	<b>ENCO (16 FTE)</b>
Power resources	Field Operations
Finance/Administration	Meter Reading
Legislative/Regulatory Affairs	Customer Billing/Call Center
Strategic Planning	Technical Services
Public Purpose Programs	Outage Response
Capital Projects	

# Proposed Utilities Commission

- œ 3 qualified members, appointed at-large
  - œ At least 2 members must be MVU customers
- œ Initial term
  - œ 1 member serves 1-year term
  - œ 1 member serves 2-year term
  - œ 1 member serves 3-year term
- œ Thereafter, all members serve 3-year term
- œ Function - Advisory body to City Council
  - œ Review MVU operating and capital improvement budget
  - œ Review MVU rates
  - œ Other utility related topics (water, sewer, gas, cable tv, etc.)
  - œ Other functions as directed by City Council

# Value of Public Power

- œ Local Control
  - œ Fully accountable to the community
  - œ Success is measured by how much money stays in the community
  - œ Decisions about pricing services, purchasing power, setting policies are made by the community through the Council, and reflect the values and choices of the community
  - œ Operate publicly – subject to open meetings and public record laws
- œ Reliability
  - œ Public power has a strong record of reliability because of its focus on core operations
  - œ For 2012, the average number of outages per MVU customer was less than 1.
  - œ Power is purchased in the wholesale market to supply customers
- œ Economic Development
  - œ Public power is often used as a tool to attract and retain business
  - œ Can be component of “one-stop shopping” customer service offered by City
  - œ Ability to offer customer-defined and customer-focused programs
- œ Potential method of reducing UUT

# Deciding the Future of MVU

## œ Keep or sell?

### œ Implications of sale

- œ Loss of control over electric services and programs

- œ Lost revenue to city - present and future

  - œ Ratepayer funds stay within the community to fund programs and other city services

  - œ Potential savings to police and fire services or UUT

- œ Loss of economic development tool

# Questions or Comments

# Moreno Valley Utility

Overview and Update  
January 07, 2013

# Utility Formation

- œ City Council forms city-owned electric utility on June 26, 2001 by adopting Resolution 2001-33.
- œ Service Providers
  - œ MVU
    - œ Regulated locally by City of Moreno Valley
    - œ Serves newly developed areas (primarily eastern, southern portions of City), vicinity of Civic Center
    - œ Today serves over 5,500 residential/commercial/industrial customers
  - œ SCE
    - œ Serves remaining (more established) areas of the City
    - œ Regulated by San Francisco-based CPUC

# Utility Goals

- ∞ Economic Development – incentives to attract businesses
- ∞ Local Control/Ownership by City Residents
- ∞ Capture success of municipal utilities during the energy crisis

# Utility Structure

MVU Staff (5 FTE)	ENCO (16 FTE)
Power resources	Field Operations
Finance/Administration	Meter Reading
Legislative/Regulatory Affairs	Customer Billing/Call Center
Strategic Planning	Technical Services
Public Purpose Programs	Outage Response
Capital Projects	

# SCE Fights Back

- œ 2004 Moreno Valley Ballot Initiative – SCE sponsored Measure N
- œ Initiative attempted to severely diminish local control by limiting General Fund contributions and prohibiting transfer of money out of utility for 5 years.
- œ SCE spent \$2.4 million on ballot campaign
- œ Measure N was rejected by Moreno Valley voters

# MVU Is Open For Business

- œ MVU's first customers are energized in February 2004.
- œ New meters added at a pace of 100 meters per month for 2004, 2005, and 2006.
- œ More than 4,600 customers by July 2007.
- œ Rapid growth in customer base accelerates need to construct substation.

# 2006 Independent Initial Review

- ❧ RW Beck reviewed the utility and examined need for substation.
- ❧ Conclusions:
  - ❧ Benefits: Higher level of service, reliability, enhanced service to private sector (e.g. plan check and design), control over quality/appearance of distribution facilities.
  - ❧ Fiscal: MVU should achieve positive net revenues if applying same rates as SCE.
  - ❧ Capital: System load and reliability requirements warrant substation in summer 2007.

# 2006 Independent Review Of Financial Structure

- ❧ Montague DeRose/Navigant conducted independent analysis of MVU finances and proposed substation financing.
- ❧ Conclusions:
  - ❧ Revenue Projections: Sufficient to cover annual operating expenses including debt service and required reserves.
  - ❧ Financial Model: Base case pro forma indicates net positive revenue beginning FY 10/11
  - ❧ Potential vulnerabilities – realization of commercial development and volatility of power supply costs.

# Capital Financing

- œ Total amount: \$25.8 million, providing \$21.5 million for substation and other infrastructure projects over 5 years.
- œ March 2007: Lease Revenue Bonds approved by City Council
- œ Financing process improves City's overall credit rating to 'A' by Standard and Poor's.
- œ MVU pays 100% of debt service on 2007 LRBs with no reliance on General Fund.

# MVU Substation

- ❧ November 2006 – City Council awards a contract to ABB for the 115 kV Moreno Valley Substation.
- ❧ Total cost for substation is approximately \$14.9 million.
- ❧ Includes work for both the SCE Switchyard and the MVU Substation facilities.
- ❧ Designed to grow (additional transformers) as load grows.
- ❧ Project completed September 2007.

# Additional Infrastructure 2005 Lease Revenue Bonds

- ∞ MVU's portion of original bond issue is \$4,100,000
- ∞ Projects total \$3,940,085

<b>FY 2005-2006</b>	<b>Indian Middle School Various circuits from Substation to Interconnects</b>	<b>\$2,644,502</b>
<b>FY 2006-2007</b>	<b>Iris Ave/Indian 12kV circuit</b>	<b>\$302,714</b>
<b>FY 2007-2008</b>	<b>City Hall to Frederick Interconnect Public Safety Building to Frederick Interconnect Animal Shelter to Frederick Interconnect GIS Database Services</b>	<b>\$289,729</b>
<b>FY 2008-2009</b>	<b>Substation Landscaping, Irrigation and Fencing Emergency Transformers Elsworth Conduit Extension</b>	<b>\$644,763</b>
<b>FY 2009-2010</b>	<b>Bay Street Back Bone</b>	<b>\$58,377</b>

# New Municipal Departing Load Charges

- ❧ March 2008 - SCE sought \$6.9 million from MVU customers, based upon costs SCE claims to have incurred in preparation to serve those customers prior to creation of MVU.
- ❧ Despite City's and other municipal utilities' objections, CPUC approved SCE's \$6.9 million fee to City's customers.
- ❧ California Supreme Court declined to hear City's petition.
- ❧ City's repeated attempts to seek legislative remedies proved unsuccessful.

# New Municipal Departing Load Charges

---

- œ To preclude SCE's \$6.9 million billing to MVU customers, City reaches settlement agreement with SCE in August 2009.
- œ Permanently resolves SCE's claim for departing load charges from MVU customers.
- œ \$1.7 million, one-time settlement payment is paid out of MVU's restricted reserves (significantly less than \$6.9 million sought by SCE).
- œ Comprehensive settlement for ALL past, current, and future MVU customers.

# ENCO Settlement

- ⌘ In 2007, City sought damages from ENCO for errors and assumptions in 2003 pro forma that were material to terms of 2003 ENCO agreement
- ⌘ The City would not incur certain charges under the WDAT once the substation was built and energized
- ⌘ Capital costs required for the first ten years of MVU operation would be slightly less than \$10 million, and almost all related to the substation
- ⌘ ENCO contended City owed it \$207,651.73 for services they provided.
- ⌘ ENCO was unable to show authorization for work as required by agreement
- ⌘ Dispute between ENCO and the City was mediated in 2010 that resulted in payment to the City of \$1.25 million, and extension of the contract to December 31, 2020.

# MVU Today

- ∞ 5,650 customers requiring 32,500 kW of peak demand.
- ∞ Approximately 90% of customers are residential, 10% are commercial/industrial.
- ∞ Approximately 70% of sales are from commercial / industrial customers
- ∞ Growth continues – FY 11/12, sales are 19% above same time previous year.

# Pro Forma vs. Actual

# Pro Forma vs. Actual

MA/0000000000

# Pro Forma vs. Actual

# MVU Fiscal Status

	FY 2010/2011 Actuals	FY 2011/2012 Adopted Budget	Projected Year-end
Total operating revenues	\$15,672,680	\$17,242,100	\$16,994,146
Total operating expenditures	\$13,148,693	\$14,790,403	\$14,694,375
Operating Income	\$2,523,987	\$2,451,697	\$2,299,771

- œ Development of long-range financial plans through 2020 and beyond
  - œ Load forecast and power supply forecast through 2020 currently in process
  - œ Master Plan being updated
- œ Achieving minimum reserve levels
  - œ Liquidity reserve \$1,500,000
  - œ Operating contingency \$ 500,000
  - œ Equipment failure \$1,700,000
  - œ CIP reserve for new projects TBD
  - œ CIP Repair and replacement \$ 700,000
  - œ TOTAL \$4,400,000

## ROAD MAP TO FORMATION OF A "UTILITY ADVISORY BODY"

### 1. Items to consider that are recommended to be part of the ordinance for creation and establishing a Utility Advisory Body:

- a. **Name** – Options include but not limited to; Utility Commission, Utility Committee, Electric Utility Commission, Electric Utility Committee, MVU Commission, MVU Committee, or a two-member Council Subcommittee?
- b. **Composition** – Members of community appointed by council? By district? MVU customers only? Council member participation? If appointed by council, are terms concurrent with council members? Qualifications for appointment? Election of Chairperson, Vice Chair, Secretary (election by the body or Council)?
- c. **Powers and duties** – Advisory only on all aspects of utility functions or limited functions (for instance rates and budget only)? Or more formal powers like authorize expenditures? Expand to discuss other utility related issues such as water, sewer, gas, cable TV if such issues arise?
- d. **Frequency of meetings** – Monthly? Quarterly? As needed? Are special meetings allowed?
- e. **Compensation** - Will there be compensation to Commission members? Reimbursement for reasonable and necessary expenses? TS support?

### 2. Projected Tentative Schedule:

- a. **City attorney draft / review of ordinance** prior to placement on Council agenda
- b. **February 26, 2013** council agenda
  - i. Titles due 1/28/2013
  - ii. Staff report due 2/4/2013
  - iii. Introduce Ordinance under Public Hearings (First reading)
- c. **March 12, 2013** council agenda
  - i. Second reading of ordinance
- d. If approved, **April 12, 2013** formation of Utility Commission becomes effective 30 days after second reading. ( )
- e. **Application period** for those interested in serving on the Commission – about 45 days
- f. **June 25, 2013** council agenda
  - i. Appointment of Commissioners to Utility Commission
- g. First Utility Commission could be **July or August 2013**, concurrent with the first month of the new fiscal year.
  - i. Development of policies and procedures for the Commission –attendance requirements, by-laws, reporting requirements, development of agenda, staff liaison, etc.
  - ii. Expectation of Commission, training, etc.

Re: 13989 Moreno Rose Place, et al, Moreno Valley  
APN # 479-220-024

**NOTICE AND ORDER  
SUBSTANDARD BUILDINGS & PROPERTY MAINTENANCE VIOLATIONS  
NOTICE TO ABATE**

***Administrative Citation***

As owner(s), or having equitable interest, shown on the last equalized assessment roll of the land in the 13989 Moreno Rose Place, et al, Moreno Valley, CA., further identified as parcel numbers 479-220-024, you are hereby given notice that the City of Moreno Valley has determined that a public and/or attractive nuisance exists upon said property.

On July 14, 2004 the City of Moreno Valley, Building & Safety Division, conducted an inspection of the exterior of the subject property and thirty (30) single-family dwellings based upon information received in this office regarding the property maintenance, structural conditions and components of the buildings located upon the subject property. Pursuant to Chapter 6.04 of the Moreno Valley Municipal Code, you are hereby directed to repair, remove, rehabilitate, abate or demolish the conditions as described:

**Moreno Valley Municipal Code Sections Violated:**

- 6.02.050A - It is the duty of every person in possession, charge or control of any place within the city, in or from which refuse accumulates or is produced, to provide, and at all times to keep in a suitable place readily accessible to the collector, containers capable of holding without spilling all refuse which would ordinarily accumulate on the premises between the time of two successive collections.
- 6.04.030A – To maintain any building or structure containing unsafe structures or building service equipment as defined in Section 102 of the Uniform Building Code as adopted and in force within the City.
- 6.04.030C. To maintain any building, facility, equipment, device or structure in a manner that would constitute a substandard building or condition defined in Chapter 10 of the Uniform Housing Code;

- 6.04.030G. To maintain property containing refuse, rubbish, broken or discarded furniture or household equipment visible from the public right-of-way or adjoining properties. This includes, but is not limited to, the keeping of or disposing of or the scattering over the property or premises of any of the following:

1. Junk, trash or debris,

2. Abandoned or discarded objects or equipment such as automobiles, furniture, stoves, refrigerators, freezers, cans, boxes or other containers

- 6.04.030E - To maintain property containing attractive nuisances in the form of:

1. Abandoned, damaged or broken equipment, machinery or household items, or

- 6.04.030H - To maintain property containing stagnant water, refuse, rubbish, garbage, offal, animal excrement or other waste materials which emit odors that are unreasonably offensive to the physical senses of a normal person(s), or which may cause or attract the migration of insects;

- 6.04.030K - The existence of hazardous substances and waste unlawfully released, discharged, placed or deposited upon any premises or onto any city property;

- 6.04.030M - To maintain any building or structure, or any part thereof, which has been constructed or is maintained in violation of any applicable state or local law or regulation relating to the condition, use or maintenance of buildings.

- 6.04.030N - To maintain property in such condition as to create a detriment or hazard to the public health, safety or general welfare or in such manner as to constitute a public nuisance as defined by Civil Code Section 3480.

- 6.04.030P - To maintain any property or structure in such a manner as to cause or allow the property or structure to become defective, unsightly, or in such other condition of deterioration or disrepair as the same may cause substantial depreciation of the property values of, or similar detriment to surrounding properties, as well as an adverse effect on the health, safety, and welfare of the citizens of the city. This includes, but is not limited to, any of the following:

1. Any improvement on the property, including but not limited to, buildings, garages, carports, wooden fences, block walls, or roofs or gutters which the condition of the patio, stucco, siding or other exterior coating has become so

deteriorated as to permit decay, excessive checking, cracking, broken windows or warping so as to render the building or property unsightly and in a state of disrepair,

5a. Front and visible side yards shall be landscaped (except for improved surfaces, including but not limited to, walks and driveways) with ground cover, decorative rock, redwood bark, lawn and/or other material as determined by the economic and community development director.

5b. Trees and shrubs shall be maintained free of dead or fallen limbs or branches that may present a safety hazard or maintained in a manner that restricts, impedes, or obstructs the use of a public right-of-way, easement, sidewalks or roadway.

5c. Operable vehicles shall be parked or stored in a garage, carport or on an improved surface. Vehicles shall not encroach on any pedestrian pathway, nor cause a hazard to the public as described in subsection 1 of this section by obscuring visibility of any public right-of-way. Unless enclosed within a garage, the wheels shall be attached and the tires shall be kept fully inflated. The vehicle(s) and the area under the vehicle(s) shall be kept free of debris, weeds and other material that constitutes a public nuisance. No more than four vehicles shall be parked or stored within thirty (30) feet of any roadbed. Within any street side yard of corner lots, vehicle(s) shall be screened from the side street with landscaping and/or fencing. Within any interior side yard, a minimum setback of five feet shall be maintained from the interior side property line. No vehicle shall be used for residential purposes.

5d. Walkways on private property, driveways and other improved surfaces shall be maintained in good repair free from unsightly stains and in safe condition

- 6.06.030A. No person shall place graffiti or other writing upon any public or privately owned tree, rock or structure including, but not limited to, buildings, walls, fences, poles and signs, flood control channels, concrete, paving, etc., located within the city.

- 6.06.030B. No person owning or otherwise in control of any real property within the city shall permit or allow any graffiti to be placed upon or remain on any structure located on such property.

- 11.24.200 - It is unlawful and a violation of this code for any person to abandon, park, store or leave or permit the abandonment, parking, storing, or leaving of any licensed or unlicensed vehicle or part thereof which is in an abandoned, wrecked, dismantled or inoperative condition upon any private or public property, not including highways, within the city for a period in excess of seventy-two (72) hours unless the vehicle or part thereof is completely enclosed within a building in a lawful manner where it is not plainly visible from the street or other public or private property, or unless the vehicle is stored or parked in a

lawful manner on appropriately zoned private property in connection with the business of a licensed dismantler, licensed vehicle dealer, or a junkyard.

**Violations:**

1. Asphalt driveway servicing Moreno Rose Place cracked, buckled, potholes and in disrepair.
2. Exterior siding and trim requires painting due to unsightly conditions and to protect wood or similar surfaces.
3. Broken or damaged exterior stucco or plaster.
4. Accumulation of junk, trash, debris, discarded household items, appliances and second-hand items.
5. Placement or disposal of oils, oil containers, vehicle batteries or other containers of household waste.
6. Excessive animal excrement.
7. Failure to maintain front yard landscaping.
8. Inoperative vehicles and parts thereof.
9. Electrical hazards or electrical installed or maintained contrary to code.
10. Plumbing hazards or plumbing installed or maintained contrary to code.
11. Fire separation of garage walls broken, deteriorated or damaged.
12. Inadequate trash service or collection.
13. Building Identification and address required.
14. Dilapidated fences or materials used for fencing unsightly.

**Remedies:**

1. Ensure that all buildings have proper street address or building identification as required by Building Code Standards and Fire Code (13988 Sarah Street requires building address).

2. Remove or place in lawful (enclosed) storage all inoperable vehicles or parts thereof.
3. Remove to an approved waste facility or collection center discarded oils, batteries and other vehicle fluids placed upon the property.
4. Restore front yard landscaping to each unit and prohibit the parking or storing of vehicles upon the same.
5. Repair or replace cracked, buckled, potholes and deteriorated asphalt paving providing access on Moreno Rose Place.
6. Remove dead trees, dead vegetation or overgrown vegetation from front, side or rear yards, including weeds.
7. Remove accumulation of animal excrement from front, side or rear yards of properties of tenants maintaining animals.
8. Exterior siding and trim requires protection of wood surfaces to prevent decay and unsightly conditions. Paint exterior siding and trim. Repair buckled, dry rotted, termite damaged or deteriorated wood.
9. Broken exterior plaster walls. Repair stucco plaster by patching areas per code standards.
10. Damaged fire separation walls between interior garage and dwellings. Ensure that holes, broken plaster, damaged drywall is repaired or properly patched to maintain fire separation.
11. Inspect electrical panels to ensure the installation of dead fronts on main panels. Properly wire or remove double-legged circuit breakers at main panels, including the improper wiring or under sizing of conductors at circuit breakers (13880 Sarah Street).
12. Install proper waste drain lines, standpipes and vents for exterior laundry facilities. Ensure that manufacture rating permits the exterior use of washer and dryers, and type of protection required.
13. Replace window bug screening by installing framed window screens and not by tacking screening over exterior walls and openings. Faulty materials of construction.
14. Remove "keyless" interior type light fixtures from front and back of units and install a UL approved exterior light fixture. Ensure that all

exterior lighting maintain protective covers. Repair or replace loose or damaged fixtures.

15. Remove and replace security lighting on exterior of buildings that have not been installed per code standards by wiring methods or type of wiring (13880 Sarah Street).
16. Fencing or materials used for fencing dilapidated and unsightly. Remove or replace damaged fencing.

**In addition to this Notice and Order:**

A "Notice of Code Violation – Non-Compliance" regarding the property may be filed with the County Recorder's Office, to give Public Notice of pending action by the city on this property.

A "Notice of Non-Compliance" may be filed with the State Franchise Tax Board, which may prevent you from claiming State Tax Deductions for taxes, depreciation, amortization, or interest expense connected with the property, as long as it remains substandard. This includes buildings or structures that are unoccupied and vacated in excess of 90 days.

The Building Official may request a **court appointed receiver** (Health & Safety Codes 17890.7) be placed in care, management and rehabilitation of the property. This could have a legal affect on the title to the property, including those holding a legal vested interest in the property, or in the sale or transfer of the property.

The Building Official may cause the property to be abated; and the cost thereof, including contractor cost, re-inspections fee(s), and administrative fees, shall be assessed against the property and become a Tax Lien thereon.

Criminal action may be filed against you and you may be issued a Court Citation (Notice to Appear), or civil fines, for failing to abate the nuisance as directed. Each day constitutes a separate offense.

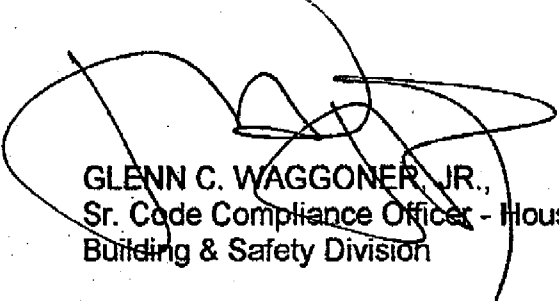

Notice is hereby given that unless you correct the violations by **September 1, 2004**, a judicial action may be filed against you, or, to abate the violations. In addition, a **\$102.50** re-inspection fee will be charged for **any** inspection required for which compliance has not been achieved and will be assessed against the property and become a tax lien thereon. The property owner(s) could also become responsible for all administrative cost associated with the investigation of this complaint due to non-compliance.

**This requires your immediate attention.**

Questions regarding this matter may be directed to the undersigned in writing, or by telephone at [REDACTED]

APN # 479-220-024  
Case H04-0131

Subject: Request for Extension  
Re Notice and Order – Code Violation(s)

The City of Moreno Valley, Building and Safety Division acknowledges your request to grant an extension of time to comply with the Notice and Order of Code Violations dated **July 19, 2004** on the above-mentioned property. Your request is based upon continuing efforts to remedy the violations and to comply with the law.

Upon further inspection and consideration your request for an extension of time has been approved conditionally. The conditions in granting this extension of time are as follows:

1. The owner submit a proposed schedule of time and events in writing to repair, rehabilitate and remove noted violation of the single-family dwellings on the subject property, including the restoration of front and side yard landscaping.
2. The owner removes all inoperable vehicles, or parts thereof, or provides accommodations for the legal and proper storage of inoperable vehicles.
3. The owner notices and ceases unauthorized automobile repair business and services on the property.

4. The owner removes all visible signs of junk, trash, debris, discarded furniture, appliances, equipment, containers, boxes, animal excrement, or other discarded items from front, side and rear yards.
5. The owner notices and ceases the parking and storing of vehicles upon unimproved surfaces, i.e., front, side or rear yards where landscaping is impacted and where improved parking surfaces have been provided.
6. The owner provides for additional trash containers, or, establishes more frequent trash pick-up to handle the accumulation of trash and debris for 30 households.
7. The owner removes accumulation of overgrown vegetation, dead or dry vegetation, including dead trees from the front, side or rear yards.
8. The owner repairs, removes or restores unsound, dilapidated fences.
9. The owner agrees to and permits the City of Moreno Valley, Building & Safety Division to conduct pre-occupancy inspections of rent ready units and agrees to make necessary repairs prior to the occupancy of the unit.

It is a recommendation that the owner consider a licensed professional management company to oversee the rental, control and management of this property to ensure ongoing compliance and enforcement.

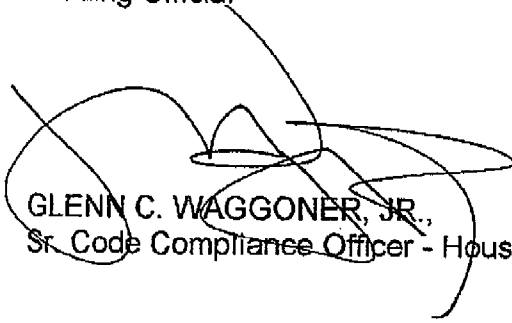

Therefore, the anticipated compliance date is **October 15, 2004**. This extension is granted based upon your efforts to address the nuisance conditions and building improvements of the property. There will be further extension of time considered based upon progress inspections and compliance.

In addition, the City of Moreno Valley may record with the Office of the County Recorder a **"Notice of Non-Compliance"** based upon the code violations on your property. This notice can only be removed upon confirmation that the violations have been corrected.

The property owner, or parties in control or possession of the property, has a legal responsibility to maintain the property free of defects that would otherwise constitute a public or attractive nuisance. We anticipate in granting this extension that you will comply with the law without further administrative or judicial proceedings.

Questions concerning this matter should be directed to the undersigned in writing, or by telephone at [REDACTED]

APN # 479-220-024, et al  
Case # H04-0131

Subject: Administrative Citation – Notice of Failure to Correct

The City of Moreno Valley, Building & Safety Division has issued the **1st Penalty - Administrative Citation(s)** (enclosed) due to your failure to comply in the time prescribed by law under the Notice of Code Violations – Order to Comply dated **July 19, 2004**. You must adhere to the instructions on the reverse side of the citation.

The violations must be corrected by **November 30, 2004** to avoid another **Administrative Citation, or judicial proceedings**. In addition, an administrative citation can be issued everyday the violations exist or the property is in non-compliance.

The issuance of a civil citation does not prohibit the City's limit to utilize any other remedy, civil or criminal, for such violations. Including, but not limited to, judicial or administrative proceedings to abate the nuisance.

The City of Moreno Valley to recover delinquent civil fines, interest, penalties, re-inspection fees or administrative charges may file a lien and special assessment, along with any other action to enforce collection or compliance.

Questions concerning this matter should be directed to the undersigned in writing, or by telephone at [REDACTED]

Subject: Request for Extension  
Re Notice and Order – Code Violation(s)

The City of Moreno Valley, Building and Safety Division grants an extension of time to comply with the Notice and Order of Code Violations dated **July 19, 2004** on the above-mentioned property. This extension is granted based upon telephone dialogue with Otha D. Liggins, Project Manager, U.S. Department of Housing and Urban Development and your continuing efforts to remedy the violations and to comply with the law.

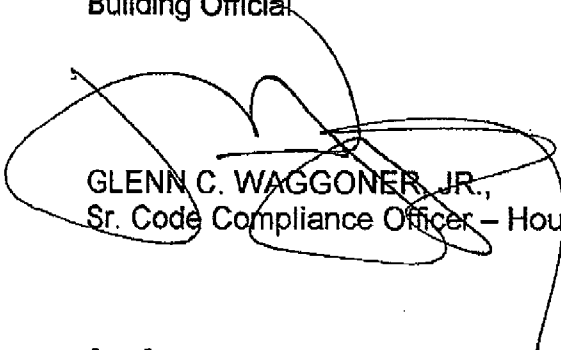

Therefore the compliance date is **March 31, 2005** to meet and comply with these conditions. This extension is granted based upon your efforts to address the nuisance conditions and building improvements of the property.

In addition, the City of Moreno Valley may record with the Office of the County Recorder a **"Notice of Non-Compliance"** based upon the code violations on your property. This notice can only be removed upon confirmation that the violations have been corrected.

The property owner, or parties in control or possession of the property, has a legal responsibility to maintain the property free of defects that would otherwise constitute a public or attractive nuisance. Subject: Request for Extension  
Re Notice and Order – Code Violation(s)

The City of Moreno Valley, Building and Safety Division is in receipt of correspondence from Randel Sherwood, Peak Recovery, Inc., requesting an extension of time to comply with the Notice and Order of Code Violations dated **July 19, 2004** on the above-mentioned property. Your request is based upon continuing efforts to remedy the violations and to comply with the law.

Peak Recovery, Inc. has submitted a letter of their intentions to repair, remove and rehabilitate the single-family dwellings on your behalf.

Therefore the compliance date is **June 30, 2005** to meet and comply with these conditions. This extension is granted based upon your efforts to address the nuisance conditions and building improvements of the property.

In addition, the City of Moreno Valley may record with the Office of the County Recorder a **"Notice of Non-Compliance"** based upon the code violations on your property. This notice can only be removed upon confirmation that the violations have been corrected.

The property owner, or parties in control or possession of the property, has a legal responsibility to maintain the property free of defects that would otherwise constitute a public or attractive nuisance. We anticipate in granting this extension that you will comply with the law without further administrative or judicial proceedings.

Re: 13989 Moreno Rose Place, et al, Moreno Valley  
APN # 479-220-024  
Case # H04-0131

Subject: Administrative Citation – Notice of Failure to Correct

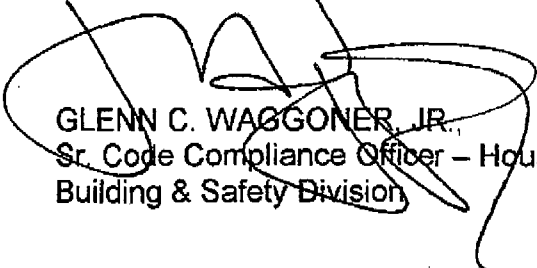

The City of Moreno Valley, Building & Safety Division has issued an **Administrative Citation(s)** (enclosed) due to your failure to comply in the time prescribed by law under the Notice of Code Violations – Order to Comply dated **July 19, 2004**.

The violations must be corrected by **August 18, 2005** to avoid another **Administrative Citation, or judicial proceedings**. In addition, an administrative citation can be issued everyday the violations exist or the property is in non-compliance.

The issuance of a civil citation does not prohibit the City's limit to utilize any other remedy, civil or criminal, for such violations. Including, but not limited to, judicial or administrative proceedings to abate the nuisance.

The City of Moreno Valley to recover delinquent civil fines, interest, penalties, re-inspection fees or administrative charges may file a lien and special assessment, along with any other action to enforce collection or compliance.

Re: 13989 Moreno Rose Pl., Moreno Valley  
APN # 479-220-024  
Case # H04-0131

Subject: Request for Extension  
Re Notice and Order – Code Violation(s)

The City of Moreno Valley, Building and Safety Division have granted an extension of time to comply with the Notice and Order of Code Violations dated **July 19 2004 and July 28, 2005** on the above-mentioned property. This extension is based upon recent inspection of the property and your continuing efforts to remedy the violations and to comply with the law.

90-day extension of time shall be granted with periodic inspections each 30 days to determine progress and compliance. Additional extensions shall be granted based upon these inspections. This extension of time can be voided if the project is halted, abandoned or delayed without cause.

There is a presumption that the land use-zoning issue regarding transitional housing has been fully addressed and resolved.

Therefore the tentative compliance date is **November 30, 2005** to meet and comply with these conditions. This extension is granted based upon your efforts to address the nuisance conditions and building improvements of the property.

In addition, the City of Moreno Valley may record with the Office of the County Recorder a **"Notice of Non-Compliance"** based upon the code violations on your property. This notice can only be removed upon confirmation that the violations have been corrected.

The property owner, or parties in control or possession of the property, has a legal responsibility to maintain the property free of defects that would otherwise constitute a public or attractive nuisance. We anticipate in granting this extension that you will comply with the law without further administrative or judicial proceedings.

Questions concerning this matter should be directed to the undersigned in writing, or by telephone at [REDACTED]

Subject: Request for Extension  
Re Notice and Order – Code Violation(s)

The City of Moreno Valley, Building and Safety Division have granted an extension of time to comply with the Notice and Order of Code Violations dated **July 19, 2004** on the above-mentioned property. This extension is based upon a recent follow-up inspection and your continuing efforts to remedy the violations and to comply with the law.

Therefore the tentative compliance date is **February 15, 2006** to meet and comply with these conditions. This extension is granted based upon your efforts to address the nuisance conditions and building improvements of the property.

In addition, the City of Moreno Valley may record with the Office of the County Recorder a **"Notice of Non-Compliance"** based upon the code violations on your property. This notice can only be removed upon confirmation that the violations have been corrected.

The property owner, or parties in control or possession of the property, has a legal responsibility to maintain the property free of defects that would otherwise constitute a public or attractive nuisance. We anticipate in granting this extension that you will comply with the law without further administrative or judicial proceedings.

Re: 13989 Moreno Rose Pl., et al, Moreno Valley  
APN # 479-220-024  
Case # H04-0131

Dear Mr. Ribeiro:

We are in receipt of correspondence from Sherry McKibben, McKibben + Cooper Architects, who represents your family's proposed project for the mixed use and development of the above-mentioned properties. Ms. McKibben's letter implies that your project will be submitted by winter 2006. We welcome your insight and look forward to the submittal of this project and designed plans. Though your proposed project will take time to develop, we anticipate you will stay the course and submit your innovative project to our city.

Since the city's involvement and with your intervention, we have seen significant progress to this property:

1. The call for service from both the Code Compliance and Building & Safety Divisions has been reduced significantly.
2. The calls for service by the Moreno Valley Police, Problem Oriented Police Team have been noticeably reduced.
3. Installation of a professional management company to screen tenants and aid in the maintenance of the property.
4. Placement of individual trash collection to each household, thus reducing household waste and accumulation of onsite debris. Including the ability to request large item pick-ups by tenants.
5. Addressed needed repairs to specific units.

6. Removal of numerous inoperative vehicles, outside storage, junk, trash and debris.
7. Addressed the need for additional parking, thus eliminating vehicle parking or storage on improved surfaces enhancing the property appearance.
8. Made efforts to address the exterior appearance of the property by restoring or adding to the landscape.
9. The retention of an onsite maintenance worker to address needed repairs, maintenance and upkeep of the general appearance of the property.

The property will require your constant attention, maintenance and upkeep with a pro-active approach by you, your property manager and onsite maintenance. However, we believe we have accomplished our goal of bringing to your attention the needed repairs and property maintenance. We do not intend to put full closure to this matter, but instead place the property in a follow-up status. During this time we expect that the property management company will continue to address issues as they arise, have resources at their disposal to preserve the property, buildings and improvements, and continue to screen for qualified tenants. We also anticipate the onsite maintenance will continue to respond in a timely manner to needed repairs and maintenance in a workmanship manner and that the property owner(s) will support the management of this property without our intervention or requirement to serve notices.

Questions regarding this matter should be directed to the undersigned in writing, or by telephone at [REDACTED] [REDACTED]

Sincerely,

  
GARY KYLE

Solar Panels over parking

**PROPOSED PLAN**

The goal of the Victory Gardens Community Farm is to provide both a learning and a positive social hub for Moreno Valley residents where they will have the opportunity create new relationships, build community goodwill and secure a source of healthy, fresh food. Members will have the opportunity to reserve their own garden plot to raise their own fresh vegetables as well as sell the excess at the onsite Farmers' Market if they choose to do so. We encourage members to donate 10% of their harvests to a Food Bank to help those in true need.

### **Key Project Purpose**

Residents of Victory Gardens will enjoy beautifully remodeled, energy efficient homes and may participate in our demonstration Zero-net Food challenge study in partnership with a major local university. This challenge will require that the residents raise an equal quantity of food onsite to what their household consumes on an annual, pound-for-pound basis. This will demonstrate that housing communities of the future can become largely food and energy self-sufficient. Both National Energy security and the US Trade Deficit will be enhanced with this demonstration project model.

### **SECTIONS/DRAWINGS**

To follow.

**Subject:** Bright Beginnings Project - 13989 Moreno Rose Place

Linda,

I received a phone call late yesterday evening from Steven Ribeiro, son of property owner Eugene Ribeiro. The conversation informed me that he has acquired a Power-of-Attorney from his father and would assume responsibility for the property. He also advised that Bright Beginnings had to go and he has notified Mr. Liggins. This will take some time to find alternative housing for the tenants. Steve also informed me that he would begin renovation of the property once he can assess the property needs. Steve further advised that a management company would be highly considered.

**To:** 'Steven Ribeiro'  
**Cc:** 'noble\_investments@verizon.net'; Gary Kyle  
**Subject:** Moreno Rose Place Properties

Steve,

A progress inspection was conducted today and I reported to Tim Noble that four properties of concern:

- 13901 Moreno Rose Place - Inop. Vehicles, discarded household items at side yard.
- 13927 Moreno Rose Place - Inop. Vehicles, vehicle repairs ongoing, discarded household items, appliances at rear yard.
- 13928 Moreno Rose Place - Inop. Vehicles (related to 13927?).
- 13914 Sarah Street - Accumulation of discarded household furnishings.

Tim has informed me that 13901 Moreno Valley has been served with vacate notice; 13914 Sarah has been served with a notice to clean up the property.

It is apparent that vacant units continue to get cleaned up and repaired prior to renting them out. Tim has ensured that these units are rent ready. There is a concern raised that the general landscape appearance has deteriorated, which, as you know, plays a vital role in the overall appearance of the property. Understanding that temperature changes affect the landscape it is important to emphasize maintenance with the occupants or maintenance.

Several of the units have not had much noticeable changes in the overall appearance, i.e., exterior paint, siding, stucco plaster, broken or damaged siding or framing, windows or window screening. However, it appears that vacant units are being addressed as a priority for occupancy. I understand that occupancy is at about 90% with the newly adjusted rental rates. This should aid in accelerating repairs or improvements.

Please ensure that these properties are addressed and maintenance continues to address the overall appearance of the property. As you recall from past correspondence it was agreed by the Building Official to place this property in a maintenance mode with progress inspections. We look forward to your project submittal and future development plans.

Thank you for your cooperation in this matter.

Glenn Waggoner  
Sr. Code Compliance Officer - Housing  
Building & Safety Division

Glenn,

Thanks for some positive recognition of our efforts at "herding cats" in our Moreno Valley project! I am looking forward to the day when I can personally drive the ceremonial Caterpillar into one of the units! As far as filing for a plot plan goes, we are working with our Architectural firm towards this process as we speak. We need to make sure that what we ask the City to approve can actually be built. We have already got a basic design that I can send you, but how tall we go must be partially determined by solar accessibility and other engineering concerns that we are working through.

Don't worry, we are moving ahead, but because of the highly advanced nature of this new community, there are additional tasks involved. I'll look for the preliminary layout and send it to you shortly.

Thanks.

Steven

**Cc:** Tim Noble  
**Subject:** Moreno Rose Place Progress Inspection

Steve,

I conducted a progress inspection of the property today and issued two parking citations and two parking warnings. Issues regarding outside storage, vehicle storage, vehicle repairs, junk, debris, or household items in and around units continue, but has improved. Trash has been cleared from the vacant lot and I understand that Tim has been in contact with the city regarding the franchise agreement with Waste Management regarding the residential bulk item pick-up. This is something that Tim, or you, will have to stay on top of to retain residential bulk services.

There is no filing for a plot plan or proposed project as you motioned in previous correspondence. Can you provide a time line or a solid proposal for your development concept?

The exterior of these units have unchanged with certain tenants taking great pride in their housing and property, while others disregard their moral obligations. I think this goes hand-in-hand with the property owners commitment. We have forgone any action of the property with the understanding that your firm would be submitting a proposal. This verbal agreement to hold to monitoring the property "only" is rapidly approaching one-year. We can continue to work with you and remain on top of the occupants, while informing the property manager of concerns.

However, in reality this will have to come to closure.

Please provide an update to your proposed development and future intentions of the property if this project is not feasible.

Thank you.

**To:** 'Steven Ribeiro'  
**Cc:** 'Tim Noble'; Gary Kyle  
**Subject:** RE: Aldeia at Moreno Valley Sustainable Development

Steve,

Thank you for your recent e-mail and update. We did agree to stay any further action from enforcement and placing the property into a maintenance mode based upon your commitment to develop these properties. We continue to monitor the property on a monthly basis reporting directly to you and to the property manager. I have recently conducted an inspection and will be forwarding my notes. The maintenance mode of this property was to focus on the exterior of the property, i.e., junk, trash, debris, outside storage, inoperable vehicles and landscape (keeping vehicles off the front and side yards). The buildings have not been inspected, nor have conditions changed as previously noted. However, this too was overlooked with your intentions to proceed with the development of the property. We understand that building issues would be addressed as needed, i.e., plumbing, electrical, mechanical, etc. I agree that having a property management company has kept things in perspective and under control. As you mentioned, screening and personal habits of tenants need improvement.

We look forward to your innovative project and development.

**Subject:** Aldeia at Moreno Valley Sustainable Development

Glenn,

I'm writing in response to your 1/27/07 Notice # CM84621 and want to be sure we have a clear understanding going forward. We understand that our project on Alessandro Blvd., now known as PineWood Village has lived it's full life and is now on borrowed time. As such, we have agreed to be extra diligent in trying to maintain the best public viewshed as possible with the understanding that the property will be redeveloped shortly in two phases into a landmark sustainable, mixed-use, high-tech, "lifestyle center" with a focus on renewable energy. It will be an amazing demonstration project of sorts. My understanding of our agreement is that the fines for violations are pending/forgivable as long as serious progress is being made toward getting this new development approved to replace the existing improvements. Tim Noble has been a great asset in helping to manage the property and is now, as of this week, under my instruction to be even far more diligent in screening all future applicants for renting the houses. In my personal opinion, based on countless visits to this property over the years (since the late 70s) is that the majority of the issues are due simply to low screening standards in tenant selection. The majority of physical deficiencies have now been cured, but we are experiencing a treadmill of continuing offenses due mainly to bad tenant habits/behaviors etc. Tim feels that we can now turn the corner and be more selective, thereby solving the majority of your concerns.

We are now in active progress with our Architectural firm in Boise, and also will be engaging the Architectural firm Ankrom Moisan in Portland to work with us in fine-tuning what the project will be, followed by submitting a pre-application of the redevelopment for the City of Moreno Valley's input. Because what we would like to build is not conceived of, much less mentioned in the current City Code or zoning, we expect that a bit of education of the public and working with City Officials will be very welcomed. We are more than happy to participate in this process. Moreno Valley is not the last city in the State to adopt this new intelligent style of development, but it will be far from the first. Other cities will be very enthusiastic in assisting Moreno Valley to become receptive to

02/20/2007

"Green development" as well. I remember City Hall before computers were adopted and they had to be shown the advantage in the same way as I plan on assisting them with this paradigm change. The process of understanding is actually quite pleasant and exciting. It's just that we are all so used to conventional development i.e.; tacky strip malls surrounded by featureless, single-use subdivisions lined by garage doors and occupied by millions of people who don't know their neighbor's name. Historically, conventional Developers have given little or no consideration to full life cycle costs, true livability and the resulting long list of negative impacts from the style of development that they choose to leave in their wake. Aldeia, at Moreno Valley will be the antithesis of that. I will follow the approval process as laid out by the City of Moreno Valley and keep you constantly posted with information and progress notification as we move forward.

As a reminder, my two other projects can be seen at [www.sustainablecondos.com](http://www.sustainablecondos.com) and [www.classicneighborhoods.com](http://www.classicneighborhoods.com). Both of these sites are undergoing significant redesign and updates as we speak, so please check back occasionally for progress news. Independence Station is now slated to be the #1 highest scoring green building in the world. I plan on bring some of this technology to Moreno Valley as well. Please feel free to forward this e-mail to City Officials that you think would be interested.

Thanks for working with us with a carrot!

Take care.

Steven Ribeiro

**From:** Steven Ribeiro [steven@stevenribeiro.com]  
**Sent:** Monday, September 10, 2007 11:10 AM  
**To:** Glenn Waggoner  
**Subject:** RE: Aldeia at Moreno Valley

Glenn,

We have considerable investments into our other two projects that were approved prior to this one, and to start construction on a third simultaneously would jeopardize all three. Even though, we are proceeding with Aldeia at Moreno Valley as there is considerable work to do in the planning and design phase. If we were to bring Moreno Valley more of the same type of automobile dependant development as has been the norm, such as strip malls and garage door lined cul-de-sacs, we could have had tractors out there this summer. Instead, what I am bringing to Moreno Valley is a "beyond remarkable" demonstration project that will bring nationwide awards and beneficial publicity to the City of Moreno Valley.

Tim Noble and I met on site for over an hour, and as a result, I will be issuing a notice to all residents that they will have to vacate if they continue to destroy screens and don't keep up the appearance of their personal spaces to a higher level. I'll keep you in the loop on that one. As far as the screen code goes, I guess you have successfully pointed out that I missed on that one. Maybe not having the actual word "screens" in the text is why. Glenn, even though in my understanding that screens were not required, I still agreed with you that we need to keep them in place and have purchased what seems like a boatload of them to comply with your request anyway. As you know, it has been difficult to keep up with the rate of destruction. I will continue to replace them as they are ruined. I was just trying to make a point and failed.

As I mentioned, I'm sure you will see during your next inspection that the "curb appeal" of the property is better than it has *ever* been. As far as the new project goes, I will continue to work on the immense amount of details needed to design and prepare for the approval process of a world class demonstration project unlike any Developer has ever considered bringing to Moreno Valley to date. Part of this comprehensive process that we are now planning (one that conventional Developers tend to not only skip and avoid like the plague) is involving the public and local educational institutions up front in some of the design meetings or charrettes prior to presenting the project to the City. Part of the purpose of doing this first is to incorporate the public's and neighboring property owners' input that can steer the overall design of a project that will affect many lives for many years to come. I personally care a great deal about National Energy Security and my feeling is that this important and timely issue is yet to be on the radar screen in Moreno Valley's Planning Codes. Every single building either built or being built in the City limits is completely automobile dependant. I mentioned to the Mayor that Portland has changed their planning codes to lesson the use of oil, and he replied that Portland had more money to deal with the problem and that I should read the Moreno Valley's *newly* adopted planning code. I promised I would and that I would get back to him and that they had to start somewhere and here comes a great demonstration project that I hope will be warmly received! These early design charrette meetings are scheduled prior to meetings with the City so that the public, in unison with the Developer, can present the project to the City for approval with all interest groups not only aware, but in full or at least substantial agreement with the project. No boring, non site specific, off-the-self, cookie-cutter, national chain, forgettable unibox plans here! My goal is to bring a project that is highly self-sufficient and extremely efficient renewable energy wise, consumes radically less water than in conventional developments and creates a vibrant pedestrian based, complete, authentic, livable community for all people. It is a project that will provide revenue for the City, educate and inspire both conventional Developers and planning officials alike and provide real and measurable solutions to deal with our present and increasing water and energy problems.

I will notify you of the dates and times of these privately hosted, but open to the public meetings as we schedule them.

Thanks.

Steven

**Subject:** RE: Aldeia at Moreno Valley

Steve,

Thank you for your e-mail. I hope that your project is a successful one. I just wonder why Moreno Valley has to wait? Did you include the property manager on your visit?

You did not recite what code you are referring to when you mentioned only the screens.

The 1997 Edition of the Uniform Housing Code, published by the International Conference of Building Officials, and adopted by the City of Moreno Valley as its ordinance reads in part:

Chapter 2 - Enforcement, Section 201.3 - Responsibilities Defined: "Owners shall . . . furnish and maintain approved devices, equipment or facilities for the prevention of insects and rodent infestation. . . ." This has been interpreted by legal counsel to include, but not limited to, window screening.

I believe if you examine the HUD Standards for structures used for human habitation, California Civil Codes, along with interpretations of the California Health & Safety Codes, relative to Housing Laws, California Code of Regulations, Title 24, State Building Codes you may also find reference to similar language.

In reply to the title, this will not change until there is sufficient evidence of compliance. I see this property remaining in the current condition for a few years to come. I too remain optimistic, but cannot see cause to release our notices at this time. I suppose once plan are submitted for plan check, facility survey completed for the buildings planned for removal and a construction time line to include removal and construction, then I think that would be considered reasonable.

The inspection is scheduled for Wednesday, September 12th, no time has been established.

**Subject:** Aldeia at Moreno Valley

Glenn,

09/10/2007

I wanted to let you know that I have come to town to address your last inspection of the houses on Alessandro. I wanted to see for myself that we have adequately dealt with your concerns and I also wanted to meet with Mayor White to let him know that we are indeed moving ahead with our soon to be award winning project for the property. I mentioned to him that we now have a very unique, mission minded lender interested in financing the Aldeia At Moreno Valley project. I also wanted to get a feeling what his personal feeling was about our arrangement to clean up the existing houses without doing an extreme home makeover while we go through the design, engineering and approval process of Moreno Valley's first genuine, renewable energy based, mixed-use, authentic, sustainable community. He seemed happy to hear about what our plans are, but of course wanted to know when we were getting it started. I let him know that we have already done a considerable amount of work, but still have two large world class projects in process at the moment. I cannot do all three at once, but I certainly can be doing the required steps prior to actual construction. I have two new full time staff members hired to help me move the Aldeia at Moreno Valley project along as well as my Architect assigned to the project. I also tried to get a read on weather or not he and you would work together in helping me move forward on a goal that we all want, or if you and he were on a mission to become more aggressive in wanting these old houses to be remodeled. My feeling was that your interests in getting the curb appeal up by requiring things such as screens are the direction you are leaning. I looked in the code and did not find a requirement for screens. I'm not bringing this particular item up to oppose you. I agree with you. I want screens as well and have gone through and replaced them again, but it is almost a weekly occurrence that the residents destroy them. I will continue to keep after this, but please understand that it is an ongoing treadmill that I agree to run on to satisfy your concerns.

My lender called me yesterday after they got the title report on the property and were of course concerned that your office has recorded notices against the title. If I am to proceed with the first phase of this development, we need to get this cleaned up. Having the title to the property clouded is counterproductive to all of our goals. What do we have to do to get this removed so we can get our development loan and move ahead?

I also had a professional videographer out yesterday to record that we have addressed your list of concerns. I was very pleased to see the appearance of the property at a higher level than it has been at since 1979. We can also use this and subsequent video to help in our marketing efforts for the new development as well. Please come by at any time and walk the property. I promise you will be impressed. We do have two evictions in process and two that just got finished, so we still have some work to do, but if you can see past those units knowing that we will clean those ones up like we have done others, I think we can keep moving ahead.

Please let me know what you think after your inspection.

Thanks.

Steven

Glenn,

We will respond quickly. Please note that Waste Management comes on Thursdays, so the bulky discarded items you saw were "poised" for removal when you came out. Couldn't you tell....? Waste Management sometimes has a blind eye to things that require getting out of the truck, so we often need to point that out and call them back.

Because the California real estate market is in what the journalists love to call a "free fall", the bankers are in hibernation. We are in much better shape here in Oregon, but Boise is starting feel the effects too. We plan on moving forward on some aspects of designing the development, but until the bankers come out of their holes, we need to take it one month at a time.

Thanks.

Steven

**Cc:** noble\_investments@verizon.net  
**Subject:** Moreno Rose Place

Steve,

A follow-up inspection as conducted on Wednesday, March 12, 2008 and the following were the findings:

Three vehicles were posted for either parking violations or inoperative status.  
13890 Moreno Rose - Parking on front lawn.  
13927 Moreno Rose - Inoperative vehicle, parking on lawn.  
13890 Sarah St - Inoperative vehicles.

There is accumulation of outside storage beginning to occur on a few properties both Moreno Rose & Sarah. Tenants should be reminded to keep items in enclosed storage or remove them from public view.

Accumulation of discard household furnishings in the rear vacant lot across from 13890 Sarah St is evident. Due to the recent rains, anticipated heavy weed growth in the vacant lot and around the front and rear yards of residential units.

Basically everything is status quo and the residential buildings remain as first observed. Property manager remains on top of issues and addresses matters of code compliance upon notification or request.

No status of the plan submittals for the development of the property site. Case lingers in maintenance mode. Administrative cost continue to accrue due to open case file and pending action of owner to develop site.

**Subject:** RE: Moreno Rose Place

Glenn,

This predevelopment loan with WaMu relies entirely on the cash flow from the existing improvements, as the old buildings must remain in service while the new development is designed, entitled, and the first phase is built and sold/rented on the vacant portion of the property. Then, the existing buildings will be deconstructed and as much of the materials as possible are re-used for the construction of the second phase. I apologize if I assumed you were aware of the necessary sequence of events.

There is much work and expense involved in getting the design and entitlements finished, and the predevelopment loan is where the funds will come from. As long as the City retains the right to revert to the damaged title status, don't we both gain by allowing this project to proceed? This is an ideal time to get started on this landmark green community rather than wait until the market improves and then possibly miss the next cycle while we are in construction. If the "paperwork part" of the project can proceed during this poor market, why not do it now and start the clock on our common goal?

Thanks.

Steven

**Subject:** RE: Moreno Rose Place

Steve,

There is nothing more I would want than to see this project developed. However, I don't agree with your statements. The lender should realize that the removal of the buildings, as you have also noted, would improve the property. They (bank) are lending on the project, not the conditions of the property. The administrative proceedings the city has taken is to ensure compliance if you do not proceed with property restoration or the proposed improvements. An agreement can be entered into escrow to address any condition of title that appears. The lenders may be leery due to the what is happening in the market, but they created the market conditions.

Please keep in mind that (probably) the majority of the notices recorded were due to no action taken by the property owner's) and not by the city.

I continue to look forward to working toward compliance and submittal of your project.

**Subject:** RE: Moreno Rose Place

Glenn,

That is fine. We have applied with WaMu for the predevelopment loan. They are in the pre-underwriting phase of the application. My only concern is that they may choose to pass on the deal when they see all the detailed laundry. If that happens, we both loose. They are very shy right now, as are all lenders, but they say they should be able to do it. I'll have a discussion with the agent to see if it would kill the deal to have them see the preliminary title report as it appears today. Just a thought, is there any way we can clean the title through an escrow agreement so that if the development does not go ahead as we say, you can reserve the right to re-destroy the title report? We have the same goal, but we need to work together to bring this landmark green development to Moreno Valley.

I know a neighbor who is behind on his child support because of a layoff from a trucking company. He now has lost his driver's license because of the arrearage, so he cannot work to catch up on his payments for his kids.... I'm sure that preventing us from redeveloping the property is not the City's purpose for damaging the property's title, but that may end up being the effect if we cannot come up with a solution for our common goal.

It looks like my Independence Station project has a replacement lender ready to fund next week. Stay tuned!

Thanks.

Steven

Subject: Moreno Rose Place

Steve,

I received your voice mail message regarding the future of your proposed project and the efforts to move forward. This is certainly great news.

In regards to "any" lien or administrative action taken against the property, your lender can facsimile a demand for release of these liens to

(951) 413-3210 attention my name. I will then review property history and what the liens involve. I will then convey this information through our legal counsel for direction and recommendation. The response will be through the lender making the demand.

**Subject:** Moreno Rose Place - Inspection

Steve,

Can you believe that this case is now over four years old. This case began on August 4, 2004 and inspections continue under our agreement, along with accumulated administrative cost.

The 9/10/08 revealed that the property is in fair to good shape regarding overall general property maintenance. The landscape that Johnnie is trying to preserve is well managed with a few exceptions. I posted seven vehicles today at the following locations:

13975 Moreno Rose - Silver Ford 4BKC082 - parking on side yard areas.  
13891 Moreno Rose - Red Volkswagon - inoperable, no plates, cobwebs, debris.  
13900 Sarah St - Black Toyota 2XQJ694 - inoperable, expired tags, cobwebs, debris.  
13890 Moreno Rose - White Chevy 4PFC593 - Inoperable, no tags, cobwebs, debris.  
13925 Moreno Rose - Blue Ford 5KST032 - inoperable, flat tires, cobwebs, debris.  
13928 Sarah St - Red Ford 4LGK239 - inoperable, expired tags, cobwebs, debris.  
13951 Moreno Rose - Red Pontiac 5HMZ606 - parking in side yard, no current tags.  
(MVMC 11.24.200; 6.04.040C)

Other observations:

13915 Moreno Rose, landscape deteriorating, unkept premises.  
13591 Moreno Rose - junk, trash and debris accumulating along side yard garage wall.  
13927 Moreno Rose - junk, trash, debris, discarded household items along side yard.  
13880 Sarah - discarded sofa in front of house.  
(MVMC 6.04.040B)

Large mound of household debris in vacant lot, appears may have been from a recent eviction, but needs to be hauled away.

Thank you for your cooperation in addressing these issues. Any word on your project? The sign has been removed.

Glenn C. Waggoner, Jr.,  
Sr. Building Compliance Officer  
City of Moreno Valley

**To:** steven@stevenribeiro.com  
**Cc:** 'noble\_investments@verizon.net'  
**Subject:** Moreno Rose Place - Progress Inspection

Mr. Ribeiro,

A follow-up inspection was conducted this date with the following observations and/or findings:

Overall the property is fair in current onsite maintenance with the residential structures showing signs of distress due to lack of proper weather protection, i.e., paint or stucco repairs. Some bedroom windows have appliances through the operable windows and assurance has to be made that a second window unit meets required emergency egress-ingress.

There were a few inoperable vehicles parked at various sites - 13890 & 13915 Moreno Rose, along with 13890 Sarah, which violates Moreno Valley Municipal Codes. These vehicles need to be parked in enclosed facilities or removed from public view.

Some of the properties had vehicles parked in side yards or upon the landscapes areas - 13927 Moreno Rose; 13962, 13925 and 13880 Sarah. It was not determined if these vehicles were operational, all had current tags and appeared operational. Allowing these vehicles to park in side yards adds to the deterioration of the landscape that the onsite maintenance worker (Johnny) has worked hard to maintain.

Some of the front yard landscaped areas are showing significant signs of distress and lack of care by the occupants.

There were several properties were outside storage, junk, trash, debris, second-hand items, tires, containers were accumulating: 13920, 13927 and 13938 Moreno Rose; and 13890 Sarah.

You may or may not have heard that I will be retiring effective June 23, 2009 and this could very likely be my last inspection of this property. However, the fines or assessments have not been removed or addressed and will continue to accumulate. The case has never closed based upon the agreement to place the property in a maintenance mode pending development of the site. Understandably the economy, etc., may have postponed plans. We anticipate that the case will either be forwarded to code compliance of the city attorney's office.

Respectfully,

World Logistics Center (WLC)  
Highland Fairview

Attn: City Clerk

---

[Exempt From Recording Fee Per Gov. Code §6103]

**DEVELOPMENT AGREEMENT**

**(World Logistics Center)**

**HIGHLAND FAIRVIEW OPERATING CO., DEVELOPMENT AGREEMENT**

THIS DEVELOPMENT AGREEMENT (“Agreement”) is entered into as of this \_\_\_\_ day of \_\_\_\_\_, 2012, by and between the City of Moreno Valley, a California general law municipal corporation (“City”), and HIGHLAND FAIRVIEW OPERATING CO., a \_\_\_\_\_ general partnership f/k/a Highland Fairview Properties, LLC (“HF”). The City and Developer hereafter are referred to collectively as the “Parties” and individually as a “Party.” HF is hereafter also referred to alternatively as “Owner” or “HF.”

**RECITALS**

A. The City is authorized to enter into development agreements with persons having legal or equitable interests in real property for the development of such property pursuant to Article 2.5 of Chapter 4 of Division I of Title 7 of the California Government Code commencing with section 65864 (the “Development Agreement Law”), and Article XI, Section 7 of the California Constitution.

B. The City has enacted an ordinance, incorporated into the Moreno Valley Municipal Code as Title 9, Section 9.02.110 (the “Development Agreement Ordinance”) that establishes the procedures and requirements for its consideration of such development agreements upon application by, or on behalf of, persons having legal or equitable interests in real property pursuant to the Development Agreement Law.

C. HF represents that it has a legal or equitable interest in approximately \_\_\_\_\_ acres of real property located at \_\_\_\_\_, and as described in the legal description set forth in Exhibit “A-1” and as illustrated in the depiction set forth in Exhibit “A-2” (the “Subject Property”).

D. HF has proposed a Project for the Subject Property (and other property not owned by HF) consisting of approximately forty one million square feet of \_\_\_\_\_ ~~[CHECK]~~ square feet of hi-cube logistics warehouse and related distribution facilities space. The Project would involve a General Plan Amendment, adoption of the World Logistics Center Specific Plan ("WLCSP"), a Zone Change and annexation of an 85-acre parcel along Gilman Springs Road. The Project will also include a subdivision and a site development permit.

E. Development of the Subject Property is productive of certain public benefits to the City, its residents, property owners, taxpayers and surrounding communities. Among other public benefits, the Owner will implement the goals, objectives and policies of the City's General Plan which will provide logistics development, public utility and open space uses for the Subject Property and for the City. The Project will expand the City's property and sales tax base; will generate high paying construction employment and new permanent employment opportunities for Moreno Valley residents; and will reduce the severe jobs and housing imbalance that exists in the City currently. ~~construct public infrastructure and other public facilities to serve the City and its residents, property owners and taxpayers.~~ In exchange for such benefits, Owner will receive the vested right to develop the Subject Property in accordance with the Existing Land Use Regulations and Existing Development Approvals in existence on the Effective Date of this Agreement.

F. HF may attempt to acquire additional real property within the World Logistics Center Specific Plan area. Such additional real property may become subject to the terms of this Agreement pursuant to an addendum or amendment to this Agreement.

G. On \_\_\_\_\_, the Planning Commission of the City, at a duly noticed public hearing, recommended, in Resolution \_\_\_\_\_, that the City Council certify environmental impact report (SCH # \_\_\_\_\_). The Planning Commission also recommended that the City Council approve General Plan Amendment \_\_\_\_\_, the WLCSP, and Zone Change No. \_\_\_\_\_.

H. On \_\_\_\_\_, \_\_\_\_\_, the City Council of the City, at a duly noticed public hearing, adopted Resolution No. \_\_\_\_\_ certifying the Environmental Impact Report, SCH # \_\_\_\_\_ (the "EIR") for the Project and the related Mitigation Monitoring and Reporting Program and also (i) adopted Resolution \_\_\_\_\_ approving General Plan Amendment No. \_\_\_\_\_, (ii) introduced for first reading Ordinance No. \_\_\_\_\_ approving the WLCSP, and (iii) introduced for first reading Ordinance No. \_\_\_\_\_ approving Zone Change No. 2007-01. ] ("Project Approvals"). The WLCSP and Zone Change No. \_\_\_\_\_ were subsequently adopted on \_\_\_\_\_.

I. The Parties concur that all of the requirements of the California Environmental Quality Act, contained in Division 13 of the California Public Resources Code, commencing with Section 21000, and implemented by the Guidelines contained in Chapter 3 of Title 14, commencing with Section 15000, of the California Code of Regulations ("CEQA") have been satisfied with respect to the Project through the (i) City's certification of the EIR on \_\_\_\_\_, \_\_\_\_\_ and (ii) the City's determination that no substantial changes are proposed within the meaning of 14 Cal. Code of Regulations section 15162.

J. On \_\_\_\_\_, the Planning Commission of the City, at a duly noticed public hearing held pursuant to the Planning and Zoning Law and the City's Municipal Code, the City approved Site Plan No. \_\_\_\_\_ and Parcel Map \_\_\_\_\_. ~~[BASED ON OUR LAST MEETING IT IS UNCLEAR WHETHER WE ARE PROCEEDING WITH ANY SITE PLAN CONCURRENTLY WITH THE GPA, SP AND ZC OR NOT]~~

K. The Planning Commission of the City, at a duly noticed public hearing held pursuant to the Development Agreement Law and the Development Agreement Ordinance, recommended that the City Council find and determine, among other things, that this Agreement is consistent with the goals, objectives, policies, general land uses and programs specified in the City General Plan, as amended by the Project Approvals; is compatible with the uses authorized in and the land use regulations prescribed by the City in its Zoning Code; and will promote and encourage the development of the Subject Property by providing a greater degree of certainty with respect thereto, while also providing specified public benefits to the City.

L. On \_\_\_\_\_, 20\_\_\_, after a duly noticed public hearing held pursuant to the Development Agreement Law and the Development Agreement Ordinance, the City Council of the City approved the introduction of Ordinance No. \_\_\_\_\_ (the "Enacting Ordinance") that would approve and adopt this Agreement and authorize its execution on behalf of the City. On \_\_\_\_\_, 20\_\_\_, the City Council of the City adopted the Enacting Ordinance.

M. The Parties intend that Owner will be permitted to proceed with development of the Subject Property pursuant to the Existing Land Use Regulations and Existing Development Approvals in existence on the Effective Date of this Agreement; provided, however, that the Parties also understand that new or different regulations and other requirements for development of the Subject Property may be imposed by laws or regulations of the Federal and or State governments and or various regional governmental agencies or entities with regulatory jurisdiction over aspects of the Project or Subject Property, all of which may, or may not, supersede the provisions of this Agreement.

### AGREEMENT

NOW, THEREFORE, in consideration of the above recitals and of the mutual covenants hereinafter contained and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the City and Owner agree as follows:

#### **ARTICLE I. DEFINITIONS.**

The following terms when used in this Agreement shall, unless defined elsewhere in this Agreement, have the meanings set forth below:

1.1 The term "Agreement" shall mean this Development Agreement by and between the City and Owner and any subsequent amendments.

1.2 The term "City" shall mean the City of Moreno Valley, a municipal corporation, organized and existing under the general laws of the State of California.

1.3 The term "City Council" shall mean the governing body of the City.

1.4 The term "Development" shall mean the improvement of the Subject Property for the purposes of completing the structures, improvements and facilities comprising the Project, including but not limited to: grading; the construction of infrastructure related to the Project whether located within or outside the Subject Property; the construction of buildings and structures; construction of post-development storm drain related "best management practices" and the installation of landscaping and public facilities and improvements. "Development" also includes the maintenance, repair, reconstruction, modification, or redevelopment of any building, structure, improvement, landscaping, or facility after the construction and completion thereof on the Subject Property.

1.5 The term "Development Plan" shall mean the existing plan for Development of the Subject Property, which includes all of the plans, specifications, and conditions of approval for Owner's entitlement for Development of the Subject Property, the planning and zoning standards, regulations, and criteria for the Development of the Subject Property, including those set forth in this Agreement, and including the Offsite Improvements identified in Exhibit "C" attached hereto.

1.6 The term "Development Requirement" shall mean any requirement of the City in connection with or pursuant to any Development Approval for the construction or improvement of public facilities, the payment of fees or assessments in order to lessen, offset, mitigate or compensate for the impacts of Development.

1.7 The term "Effective Date" shall mean the date that is thirty (30) days after the date the City Council adopts the ordinance approving this Agreement.

1.8 The term "Existing Development Approvals" shall mean any and all permits, licenses, consents, rights and privileges, and other actions approved or issued by City in connection with Development of the Subject Property on or before the Effective Date of this Agreement, including but not limited to, general plans and general plan amendments, zoning and rezoning, site plans and parcel maps, and grading and building-related permits, as well as all associated environmental documentation and mitigation measures pursuant to the California Environmental Quality Act.

1.9 The term "Existing Land Use Regulations" shall mean all ordinances, resolutions, codes, rules, regulations and official policies of City, adopted and effective on or before the Effective Date of this Agreement governing Development and use of the Subject Property, including but not limited to the permitted use of land, the density or intensity of use, the maximum height and size of proposed buildings, and the architectural design, improvement and construction standards and specifications applicable to the Development of the Subject Property including but not limited to, the Development Plan.

1.10 The term "Mortgagee" shall mean a mortgagee of a mortgage, a beneficiary under a deed of trust or any other security device, a lender, or each of their respective successors and assigns.

1.11 The term "Off-Site Improvements" shall mean all off-site improvements required for the Project, including but not limited to intersection and roadway improvements, sewer lines and storm drains and any other off-site improvements contained within Exhibit "C."

1.12 The term "Owner" shall mean HIGHLAND FAIRVIEW OPERATING CO. and/or its successors or assigns to any portion of or all of the Subject Property.

1.13 The term "Project" shall mean the Development of the Subject Property pursuant to and consistent with the Development Plan and the provisions of this Agreement.

1.14 The term "Site Plan " shall mean the site plan attached hereto as Exhibit "B."

1.15 The term "Subject Property" shall mean that certain real property consisting of the Property more particularly described in Exhibit "A-1" attached hereto and depicted on Exhibit "A-2" attached hereto.

1.16 The term "Subsequent Development Approvals" shall mean any and all permits, licenses, consents, rights and privileges, and other actions approved or issued by City in connection with Development of the Subject Property after the Effective Date of this Agreement, including all associated environmental documentation and mitigation measures pursuant to the California Environmental Quality Act.

1.17 The term "Subsequent Land Use Regulations" shall mean any ordinances, resolutions, codes, rules, regulations and official policies of the City adopted and effective after the Effective Date of this Agreement.

1.18 The term "Term" shall mean the period of time during which this Agreement shall be in effect and bind the Parties, as set forth below in Section 3.4 of this Agreement, unless earlier terminated as provided in this Agreement.

**ARTICLE 2. EXHIBITS.**

The following documents are attached to, and by this reference made a part of, this Agreement:

Exhibit "A-1"	Legal Description of the Subject Property
Exhibit "A-2"	Depiction of the Subject Property
Exhibit "B"	Off Site Improvements
Exhibit "C"	Oversized Improvements and City Reimbursable Amount

**ARTICLE 3. GENERAL PROVISIONS.**

3.1 **Binding Effect of Agreement.** From and following the Effective Date of this Agreement, Development of the Subject Property and the City's actions on applications for

Subsequent Development Approvals affecting the Subject Property and the Development of the Subject Property shall be subject to the terms and conditions of this Agreement.

3.2 **Ownership of Subject Property.** The City and Owner acknowledge and agree that Owner has the requisite legal or equitable interest in the Subject Property, and thus Owner is qualified to enter into and be a party to this Agreement in accordance with Government Code section 65865(b).

3.3 **Assignment Rights.** Owner shall have the right to sell, transfer, or assign the Subject Property, or its equitable interest in the Subject Property, in whole or in part (provided that no such parcel transfer shall violate the Subdivision Map Act, Government Code Section 66410, *et seq.*) to any person, partnership, joint venture, firm or corporation at any time during the term of this Agreement; provided, however, that any such sale, transfer or assignment (collectively, "Assignment") shall include the Assignment and assumption of the rights, duties and obligations arising under or from this Agreement be made in strict compliance with the following conditions:

(a) No Assignment of any right or interest under this Agreement shall be made unless made together with the Assignment of all or a part of the Subject Property.

(b) Prior to any such Assignment, Owner shall provide City with an executed agreement, in a form reasonably acceptable to City, by the purchaser, transferee or assignee (collectively, "Assignee") and providing therein that the Assignee expressly and unconditionally assumes all the duties and obligations of Owner under this Agreement.

(c) Any Assignment of this Agreement will require the prior written consent of the City, which will not be unreasonably withheld or delayed. The City's approval will be based upon the financial status of the Assignee and the City's reasonable determination of such Assignee's financial strength to perform the obligations that Owner has described in this Agreement. Within thirty (30) days following receipt by the City of written notice regarding Assignment (such notice must include financial information regarding the Assignee sufficient to allow the City to make the above determination) the City will notify Owner regarding its approval or disapproval of such Assignment; provided, however, that if the City fails to respond in writing within such thirty (30) day period, the Assignment shall be deemed automatically approved.

Any Assignment not made in compliance with the foregoing conditions shall result in Owner continuing to be responsible for all obligations under this Agreement. Notwithstanding the failure of any Assignee to execute the Agreement required by subparagraph (b) above, the burdens of this Agreement shall be binding upon such Assignee, but the benefits of this Agreement shall not inure to such Assignee until and unless such Agreement is executed. The City, Owner and any Assignee will cooperate in the substitution by such Assignee of any letter of credit or other security for Owner's obligations, less completed obligations, pursuant to this Agreement.

3.3.1 Release of Transferring Developer. Notwithstanding any Assignment, a transferring Owner shall continue to be obligated under this Agreement unless such transferring

Owner is given a release in writing by City, which release shall be provided by City upon the full satisfaction by such transferring Owner of the following conditions:

- (a) Owner no longer has a legal or equitable interest in all or any part of the Subject Property.
- (b) Owner is not then in default under this Agreement.
- (c) Owner has provided City with the notice and executed agreement and other information required under subparagraphs (b) and (c) of Subsection 3.3 above.
- (d) The City has reviewed and approved the Assignee and the Assignment, such approval to include a determination by the City that the financial strength of the Assignee is equal to or greater than that of the Owner.
- (e) The Assignee provides City with security equivalent to any security previously provided by Owner to secure performance of its obligations hereunder.

3.3.2 Subsequent Assignment. Any subsequent Assignment after an initial Assignment shall be made only in accordance with and subject to the terms and conditions of this Section.

3.3.3 Partial Release of Purchaser, Transferee or Assignee of Parcel. A purchaser, transferee or assignee of a lot which has been finally subdivided and for which a site plan for development of the lot has been finally approved may submit a request, in writing, to City to release said lot from the obligations under this Agreement relating to all other portions of the Subject Property. Within thirty (30) days following such request, City shall review, and if the above conditions are satisfied, shall approve the request for release and notify the purchaser, transferee or assignee in writing thereof; provided, however, that if the City fails to respond in writing within such thirty (30) day period, the release shall be deemed automatically approved. No such release approved pursuant to this Section 3.3.3 shall cause, or otherwise effect, a release of HF from its duties and obligations under this Agreement.

3.3.4 Termination of Agreement With Respect to Individual Parcel upon Sale to Public and Completion of Construction. The provisions of Subsection 3.3 shall not apply to the sale or lease (for a period longer than one year) of any Parcel which has been finally subdivided and is individually sold or leased to a member of the public or other ultimate user. Notwithstanding any other provisions of this Agreement, this Agreement shall terminate with respect to any Parcel and such Parcel shall be released and no longer be subject to this Agreement without the execution or recordation of any further document upon satisfaction of both of the following conditions:

- (a) The Parcel has been finally subdivided and individually (and not in "bulk") sold or leased (for a period longer than one year) to a member of the public or other ultimate user; and,
- (b) A Certificate of Occupancy has been issued for a building on the Parcel, and the fees set forth under this Agreement have been paid.

For purposes of this Section 3.3.4, a transfer shall be deemed to be "in bulk" if it involves the conveyance of more than one Parcel and the transferee will not be the ultimate user of the Parcel. Notwithstanding the foregoing, Owner acknowledges that Owner is responsible for (i) ensuring the completion of all Project conditions and (ii) the payment of all applicable fees to the extent any conditions are not satisfied or any fees remain unpaid following the transfer or development of a parcel.

3.4 **Term.** Unless earlier terminated as provided in this Agreement, this Agreement shall continue in full force and effect until the earlier of (i) the date of completion of the last portion of the Development, or (ii) the date that is twenty-five (25) years from and after the Effective Date of this Agreement, subject to extension pursuant to Section 7.2 below.

3.5 **Time of the Essence.** The Parties expressly acknowledge and agree that time is of the essence in the performance of the provisions of this Agreement. Consistent with all applicable legal requirements, the City shall use its best efforts to expedite the planning and permitting process to facilitate the construction, completion, and operation of the Project, and each component thereof, as soon as possible. Notwithstanding the foregoing, Owner shall develop, or not develop, the Project at its sole and absolute discretion.

3.6 **Waiver of Estoppel Defenses by City.** Notwithstanding any legal authorities to the contrary concerning the doctrines of waiver and estoppel as applied to public entities and the actions or inactions of public agencies or public agency officers and officials, the City acknowledges and agrees that Owner and its successors and assigns to all or any interest in the Subject Property is relying upon the contents of this Agreement and the City's execution of this Agreement and the recordation hereof, and that in consideration of such material reliance, the City shall now and forever be estopped from denying the validity of this Agreement and the City knowingly and expressly waives any such claim or defense.

3.7 **City Cooperation.** City shall cooperate with HF and or its assigns with respect to implementing all aspects of the Project, including, without limitation: (i) processing all permits applications, plans, and subsequent environmental assessments as expeditiously as possible and (ii) cooperating and assisting HF in obtaining any inter-governmental or private party permits, approvals, consents, rights of entry, or encroachment permits, needed for Development of the Project or any other on or offsite improvements.

3.8 **No Obligations to Proceed with Project.** Nothing in this Agreement shall obligate Owner to proceed with any part of or the entirety of the Project. Owner maintains sole and absolute discretion over whether to commence and/or complete any portion of the Project or the Project in its entirety and nothing in this Agreement shall be construed to impose upon the Owner an obligation to commence the construction of and/or complete the Project.

#### **ARTICLE 4. DEVELOPMENT OF THE PROPERTY**

4.1 **Vested Right to Develop.** Subject to and during the term of this Agreement, Owner, its successor or its assignee, shall have a vested right to develop the Subject Property in accordance with the Development Plan and this Agreement.

4.2 **Effect of Agreement on Land Use Regulations.** Except as otherwise provided under the terms of this Agreement, the rules, regulations and official policies governing permitted uses of the Subject Property, the density and intensity of use of the Subject Property, the maximum height and size of proposed buildings, and the design, improvement, and construction standards and specifications applicable to Development of the Subject Property, shall be only the Existing Land Use Regulations and those contained in the Development Plan.

4.3 **Subsequent Development Approvals.** To the extent applicable, the City shall accept for processing, review and action all applications for Subsequent Development Approvals, and such applications shall be expeditiously processed. The City further agrees that, unless otherwise requested by Owner, the City shall not amend or rescind any Subsequent Development Approvals respecting the Subject Property after such approvals have been granted by the City.

4.4 **Timing of Development.** The Parties acknowledge that Owner cannot at this time predict when or the rate at which phases of the Subject Property will be developed. Such decisions depend upon numerous factors which are not within the control of Owner, such as market orientation of demand, interest rates, absorption, completion and other similar factors. Because the California Supreme Court held in *Pardee Construction Co. v. City of Camarillo* (1984) 37 Cal.3d 455, that the failure of the parties therein to provide for the timing of development resulted in a latter adopted initiative restricting the timing of development to prevail over such parties' agreement, it is the Parties' intent to cure that deficiency by expressly acknowledging and providing that Owner shall have the right to develop the Subject Property, or to not develop the Subject Property, in such order and such rate and at such time as Owner deems appropriate within the exercise of its subjective business judgment in its sole and absolute discretion. In addition, to the extent Owner or its assignee decide to proceed with a phase of the development of the Subject Property, City shall cooperate with Owner or its assignee with respect to the phasing of the development of the Subject Property. If Owner or its assignee determine, in their sole and absolute discretion, to develop portions or phases of the Subject Property, City shall allow the phasing of public improvements such that the public improvements required would only be those commensurate to that needed to serve the phase being constructed.

4.5 **Terms of Maps and Other Project Approvals.** Pursuant to California Government Code Sections 66452.6(1) and 65863.9, the term of any subdivision or parcel map that may be processed on all or any portion of the Subject Property and the term of each of the development approvals, including the Tentative Map and any future approvals, shall be extended for a period of time through the scheduled termination date of this Agreement, as set forth above.

4.6 **Changes and Amendments.** The Parties acknowledge that although Development of the Project may require Subsequent Development Approvals, such Development shall be in compliance with the Development Plan. The above notwithstanding, Owner may determine that changes are appropriate and desirable in the existing Development Approvals or Development Plan. In the event Owner finds that such a change is appropriate or desirable, Owner may apply in writing for an amendment to Existing Development Approvals or the Development Plan to effectuate such change. The Parties acknowledge that the City shall be permitted to use its sole and absolute discretion in deciding whether to approve or deny any such amendment request; provided, however, that in exercising the foregoing, the City shall not apply

a standard to Owner that is less favorable or different than applied by the City to any other commercial property development within the City. Any change in the Development Approvals or Development Plan made pursuant to Owner's application and deemed a material change by the City, shall require an amendment to this Agreement. Any such amendment shall be solely for the purpose of acknowledging the change to the Existing Development Approvals or Development Plan, as the case may be.

#### 4.7 Reservation of Authority.

4.7.1 Limitations, Reservations and Exceptions. Notwithstanding any other provision of this Agreement, the following Subsequent Land Use Regulations shall apply to the Development of the Subject Property:

(a) Processing fees and charges of every kind and nature imposed by the City to cover the estimated actual costs to the City of processing applications for Subsequent Development Approvals or for monitoring compliance with any Existing and/or Subsequent Development Approvals granted or issued.

(b) Procedural regulations consistent with this Agreement relating to hearing bodies, petitions, applications, notices, findings, records, hearing, reports, recommendations, appeals and any other matter of procedure.

(c) Changes adopted by the International Conference of Building Officials, or other similar body, as part of the then most current versions of the Uniform Building Code, Uniform Fire Code, Uniform Plumbing Code, Uniform Mechanical Code, or National Electrical Code, and also adopted by the City as Subsequent Land Use Regulations.

(d) Regulations that are not in conflict with the Development Plan and this Agreement and do not impede the Development, or add to the cost of the Development of the Project.

(e) Regulations that are in conflict with the Development Plan provided Owner has given written consent to the application of such regulations to Development of the Subject Property at Owner's sole and absolute discretion.

(f) Federal, state, county, and multi-jurisdictional laws and regulations which the City is required to enforce as against the Subject Property or the Development of the Subject Property.

(g) Payment of Development Impact Fees and Sewer Facility Development Fees in effect at the time that certificates of occupancy are issued for the development or any portion thereof.

(h) ~~[CONFIRM] Payment of a Traffic Mitigation Fee of \$\_\_\_\_\_ per each developed acre, or fraction thereof, at the time of issuance of certificates of occupancy for each completed phase of the Development.~~ Owner shall be entitled to a credit against the Traffic Mitigation Fee for offsite work constructed by Owner.

4.7.2 Future Discretion of City. This Agreement shall not prevent the City, in acting on Subsequent Development Approvals, from applying Subsequent Land Use Regulations that do not conflict with the Development Plan, nor shall this Agreement prevent City from denying or conditionally approving any Subsequent Development Approval on the basis of Existing Land Use Regulations or any Subsequent Land Use Regulation not in conflict with the Development Plan. Further, it is also understood and acknowledged by the Parties that the Project Approvals contemplate that the City may be required, in certain circumstances, to undertake further environmental review of Subsequent Development Approvals. If the circumstances set forth in CEQA Guideline 15162 occur in the context of the City considering Subsequent Development Approvals, or if otherwise required by the EIR, the City shall be authorized to exercise the maximum discretion authorized by law, consistent with the terms of CEQA and this Agreement.

4.7.3 Modification or Suspension by Federal, State, County, or Multi-Jurisdictional Law. In the event that federal, state, county, or multi-jurisdictional laws or regulations, enacted after the Effective Date of this Agreement, prevent or preclude compliance with one or more of the provisions of this Agreement, such provisions of this Agreement shall be modified or suspended as may be necessary to comply with such federal, state, county, or multi-jurisdictional laws or regulations, and this Agreement shall remain in full force and effect to the extent it is not inconsistent with such laws or regulations and to the extent such laws or regulations do not render such remaining provision impractical to enforce.

4.8 **Future Voter Actions.** It is the intent of the Parties that future voter actions adopting Subsequent Land Use Regulations shall not apply to the Project unless such voter actions promote, advance, or otherwise further the intent and expeditious development of the Project pursuant to and consistent with the terms and conditions of this Agreement.

~~4.9 **City Acquisition of Offsite Real Property Interests and Interim Facilities.** If Owner proceeds with the Project, Owner shall be required, subject to the terms of this Agreement, to construct the Off-Site Improvements [ADD OFF-SITE IMPROVEMENT DETAILS]\_\_\_\_\_. The parties acknowledge that Owner does not own this property [CHECK]. As such, if the land for the public rights of way for this property is not acquired by either Owner or the City, then Owner may be required to construct "Interim Facilities" subject to approval by the City.~~

4.10 **Financing District Formation.** The City and Owner agree to cooperate in the formation of a financing district in order to finance, at the Owner's sole election, some or all of certain on-site and/or Off-Site Improvements, and other improvements required of Owner pursuant to the Existing Development Approvals and this Agreement.

~~4.10.1 **City Reimbursement to Owner for Owner's Construction of Oversized Improvements.** The parties acknowledge that certain public infrastructure improvements to be constructed by Owner will benefit adjacent and/or non-adjacent real properties, which are not part of the Subject Property and/or which exceed Owner's fair share requirements (hereafter, "Oversized Improvement(s)"). The Oversized Improvements include all of the following: [DESCRIBE \_\_\_\_\_ OVERSIZED \_\_\_\_\_ IMPROVEMENTS HERE]\_\_\_\_\_ on the project perimeter or within the~~

property that are conditioned to be constructed larger than required by or do not directly benefit the needs of the project. The parties have attempted to estimate the scope and costs of each of the Oversized Improvements set forth above, including the percent of applicable reimbursement as shown in Exhibit "D", entitled, "Oversized Improvements and City Reimbursable Amounts". Upon receipt of final engineered street and utility plans, the Director of Public Works shall cooperate with the Owner to prepare an agreement for such Oversized Improvements and shall include the final estimated reimbursement of Development Impact Fee credit amount, subject to verification of actual scope and costs upon completion of improvements. When the City accepts such Oversized Improvements as final, the Director of Public Works, or his designee, at his reasonable discretion, shall determine the final amount of the fee credit and/or reimbursement. The fee credit/reimbursement amount shall be for the Owner's entire portion of the costs incurred by the Owner to construct the Oversized Improvements that exceed Owner's fair share obligation for the Oversized Improvements ("City Reimbursable Amount") and shall be based on Moreno Valley Municipal Code Chapter 3.42 (Commercial and Industrial Development Impact Fees Ordinance).

4.11 **Conditions of Approval for Site Approval No. \_\_\_\_\_.** The Owner shall comply with the project conditions of approval for Site Approval No. \_\_\_\_\_ as noted in Exhibit "E".  
**[UNCLEAR WHETHER WE ARE PROCEEDING WITH THIS OR NOT; CHECK]**

4.12 ~~**Open Space Areas.**~~ HF shall dedicate to the State of California **[CHECK]** (the "State") that certain portion of the open space areas described in the Specific Plan comprised of approximately \_\_\_\_\_ acres more particularly described in Exhibit \_\_\_\_\_ and depicted in Exhibit \_\_\_\_\_ (the "Open Space Areas"). In the event the State does not accept the dedicated Open Space Areas, HF shall dedicate the Open Space Areas to the City and the City shall immediately accept HF's offer of dedication. The City shall be responsible for all improvement, rehabilitation, maintenance and management of such Open Space Areas pursuant to all applicable governmental rules, regulations and requirements, including, without limitation any requirements of the United States Army Corps of Engineers and the United States Fish and Wildlife Service ("USFWS"). **[JOHN, PLEASE REVIEW THIS SECTION. I DRAFTED THIS WITH THE LIMITED INFORMATION THAT WAS PROVIDED IN NO. 17 OF DEVELOPER'S "SUGGESTED PROVISIONS".]**

4.13 ~~**Trail System.**~~ City shall construct and install those new trails and related improvements within that certain trail system on Redlands to the SJ Wildlife Area **[CHECK]** (the "Trail System") all as provided and shown in \_\_\_\_\_ of the Specific Plan **[CHECK]** and consistent with the \_\_\_\_\_ issued by the USFWS. **[JOHN, PLEASE REVIEW THIS SECTION. I DRAFTED THIS WITH THE LIMITED INFORMATION THAT WAS PROVIDED IN NO. 17 OF DEVELOPER'S "SUGGESTED PROVISIONS".]**  
**[DOES THE CITY OWN THAT PROPERTY NOW? OR WILL IT ACQUIRE IT IN THE FUTURE?]**

## **ARTICLE 5. REVIEW FOR COMPLIANCE**

5.1 **Periodic Review.** The City Council shall review this Agreement annually, on or before the anniversary of the Effective Date, in order to ascertain the good faith compliance by Owner with the terms of the Agreement. As part of that review, Owner shall submit an annual

monitoring review statement describing its actions in compliance with this Agreement, in a form acceptable to the Community Development Director or his/her authorized designee, within thirty (30) days after written notice therefrom requesting such a statement. The statement shall be accompanied by an annual review and administration fee sufficient to defray the estimated costs of review and administration of the Agreement during the succeeding year. The amount of the annual review and administration fee shall be set by resolution of the City Council. No failure on part of the City to conduct or complete the review as provided herein shall have any impact on the validity of this Agreement.

5.2 **Special Review.** The City Council may, in its sole and absolute discretion, order a special review of compliance with this Agreement at any time at City's sole cost. Owner shall cooperate with the City in the conduct of such special reviews.

5.3 **Procedure.** Each Party shall have a reasonable opportunity to assert matters which it believes have not been undertaken in accordance with the Agreement, to explain the basis for such assertion, and to receive from the other Party a justification of its position on such matters.

5.3.1 If on the basis of the Parties' review of any terms of the Agreement, either Party concludes that the other Party has not complied in good faith with the terms of the Agreement, then such Party may issue a written "Notice of Non-Compliance" specifying the grounds therefor and all facts demonstrating such non-compliance.

5.3.2 The Party receiving a Notice of Non-Compliance shall have thirty (30) days to cure or remedy the non-compliance identified in the Notice of Non-Compliance, or if such cure or remedy is not reasonably capable of being cured or remedied within such thirty (30) days period, to commence to cure or remedy the non-compliance and to diligently and in good faith prosecute such cure or remedy to completion.

5.3.3 If the Party receiving the Notice of Non-Compliance does not believe it is out of compliance and contests the Notice, it shall do so by responding in writing to said Notice within thirty (30) days after receipt of the Notice.

5.3.4 If the response to the Notice of Non-Compliance has not been received in the offices of the Party alleging the non-compliance within the prescribed time period, the Notice of Non-Compliance shall be presumed to be valid unless good cause exists for not responding within the time period.

5.3.5 If a Notice of Non-Compliance is contested, the Parties shall, for a period of not less than fifteen (15) days following receipt of the response, seek to arrive at a mutually acceptable resolution of the matter(s) occasioning the Notice. In the event that a cure or remedy is not timely effected or, if the Notice is contested and the Parties are not able to arrive at a mutually acceptable resolution of the matter(s) by the end of the fifteen (15) day period, the party alleging the non-compliance may thereupon pursue the remedies provided in Article 6 of this Agreement.

5.3.6 Neither Party hereto shall be deemed in breach if the reason for non-compliance is due to a "force majeure" as defined in, and subject to the provisions of, Section 11.9 below.

**5.4 Certificate of Agreement Compliance.** If, at the conclusion of a periodic or special review, Owner is found to be in compliance with this Agreement, City shall, upon request by Owner, issue a Certificate of Agreement Compliance ("Certificate") to Owner stating that after the most recent Periodic or Special Review and based upon the information known or made known to the City Council that (1) this Agreement remains in effect and that (2) Owner is in compliance. The Certificate, whether issued after a Periodic or Special Review, shall be in recordable form, shall contain information necessary to communicate constructive record notice of the finding of compliance, and shall state that the Certificate expires upon the earlier of (i) one (1) year from the date thereof, or (ii) the date of recordation of a Notice of Termination of Development Agreement. Owner may record the Certificate with the County Recorder. Additionally, Owner may at any time request from the City a Certificate stating, in addition to the foregoing, which obligations under this Agreement have been fully satisfied with respect to the Subject Property, or any lot or parcel within the Subject Property.

## **ARTICLE 6. DEFAULT AND REMEDIES**

**6.1 Specific Performance Available.** The Parties acknowledge and agree that specific performance is the preferred remedy available for the enforcement of this Agreement. However, nothing in the foregoing shall be construed to constitute a waiver of the right to obtain monetary damages from the other Party by reason of default of this Agreement. Subject to the cure rights set forth in Section 5.3 above, any material default by Owner or the City of the Agreement or any of the conditions of approval of any of the Development Approvals that is not timely cured by Owner or the City shall be deemed a material default by Owner or the City of this Agreement.

### **6.2 Termination of the Agreement.**

**6.2.1 Termination of Agreement for Default of Owner.** The City in its reasonable discretion may terminate this Agreement for any failure of Owner to perform any material duty or obligation of Owner hereunder or to comply in good faith with the terms of this Agreement (hereinafter referred to as "default" or "breach"); provided, however, the City may terminate this Agreement pursuant to this Section only after following the procedure set forth in Section 5.3.

**6.2.2 Termination of Agreement for Default of City.** Owner in its reasonable discretion may terminate this Agreement for any default by the City; provided, however, Owner may terminate this Agreement pursuant to this Section only after following the procedure set forth in Section 5.3 and thereafter providing written notice by Owner to the City of the default setting forth the nature of the default and the actions, if any, required by the City to cure such default and, where the default can be cured, the failure of the City to cure such default within thirty (30) days after the effective date of such notice or, in the event that such default cannot be cured within such thirty (30) day period, the failure of the City to commence to cure such default

within such thirty (30) day period and to diligently proceed to complete such actions and to cure such default.

6.2.3 Rights and Duties Following Termination. Upon the termination of this Agreement, no Party shall have any further right or obligation hereunder except with respect to (i) any obligations to have been performed prior to said termination, or (ii) any default in the performance of the provisions of this Agreement which has occurred prior to said termination.

6.3 **Institution of Legal Action.** Subject to notice of default and opportunity to cure under Section 5.3, in addition to any other rights or remedies, any Party to this Agreement may institute legal action to cure, correct, or remedy any default, to enforce any covenants or agreements herein, to enjoin any threatened or attempted violation hereof, or to obtain any other remedies consistent with this Agreement. If a legal action or proceeding is brought by any Party to this Agreement because of default, or to enforce a provision hereof, the prevailing Party shall be entitled to reimbursement of all costs and expenses, including attorneys fees, incurred in prosecuting such legal action or proceeding. This provision is separate and severable, and shall survive the merger of this Agreement into any judgment on this Agreement.

## **ARTICLE 7. THIRD PARTY LITIGATION**

7.1 **Notice, Defense and Indemnification of Third Party Litigation.** The City shall promptly notify Owner of any claim, action, or proceeding filed and served against the City to challenge, set aside, void, annul, limit or restrict the approval and continued implementation and enforcement of this Agreement. Owner agrees to fully defend and indemnify the City for all costs of defense and/or judgment obtained in any such action or proceeding. This indemnification clause shall only apply if Owner approves of the selection of defense counsel for the City, which approval shall not unreasonably be withheld. The City and Owner agree to cooperate in the defense of such action(s).

7.2 **Effect of Third Party Litigation on Term of Agreement.** If any third party litigation is filed referred to in Section 7.1, the Term of this Agreement shall be extended by the amount of time between the date the litigation was filed and the date of the final judgment if the law, regulation or action that was the subject of the litigation had the effect of preventing or suspending Development of the Subject Property for the Project and the final judgment allowed this Agreement to remain in full force and effect.

## **ARTICLE 8. MORTGAGEE PROTECTION**

8.1 The Parties hereto agree that this Agreement shall not prevent or limit Owner, in any manner, at Owner's sole discretion, from encumbering the Subject Property or any portion thereof or any improvement thereon by any mortgage, deed of trust or other security device securing financing with respect to the Subject Property. The City acknowledges that the lenders providing such financing may require certain Agreement interpretations and modifications and agrees upon request, from time to time, to meet with Owner and representatives of such lenders to negotiate in good faith any such request for interpretation or modification. Subject to compliance with applicable laws, the City will not unreasonably withhold its consent to any such

requested interpretation or modification provided the City determines such interpretation or modification is consistent with the intent and purposes of this Agreement.

8.2 Any Mortgagee of the Subject Property shall be entitled to the following rights and privileges:

(a) Neither entering into this Agreement nor a breach of this Agreement shall defeat, render invalid, diminish or impair the lien of any mortgage on the Subject Property made in good faith and for value, unless otherwise required by law.

(b) The Mortgagee of any mortgage or deed of trust encumbering the Subject Property, or any part thereof, which Mortgagee has submitted a request in writing to the City in the manner specified herein for giving notices, shall be entitled to receive written notification from the City of any default by Owner in the performance of Owner's obligations under this Agreement.

(c) If the City timely receives a request from a Mortgagee requesting a copy of any notice of default given to Owner under the terms of this Agreement, the City shall make a good faith effort to provide a copy of that notice to the Mortgagee within ten (10) days of sending the notice of default to Owner. The Mortgagee shall have the right, but not the obligation, to cure the default during the period that is the longer of (i) the remaining cure period allowed such Party under this Agreement, or (ii) thirty (30) days.

(d) Any Mortgagee who comes into possession of the Subject Property, or any part thereof, pursuant to foreclosure of the mortgage or deed of trust, or deed in lieu of such foreclosure, shall take the Subject Property, or part thereof, subject to the terms of this Agreement. Notwithstanding any other provision of this Agreement to the contrary, no Mortgagee shall have an obligation or duty under this Agreement to perform any of Owner's obligations or other affirmative covenants of Owner hereunder, or to guarantee such performance; except that (i) to the extent that any covenant to be performed by Owner is a condition precedent to the performance of a covenant by the City, the performance thereof shall continue to be a condition precedent to the City's performance hereunder, and (ii) in the event any Mortgagee seeks to develop or use any portion of the Subject Property acquired by such Mortgagee by foreclosure, deed of trust, or deed in lieu of foreclosure, such Mortgagee shall strictly comply with all of the terms, conditions and requirements of this Agreement and the Development Plan applicable to the Subject Property or such part thereof so acquired by the Mortgagee.

## **ARTICLE 9. INSURANCE [CHECK WITH CLIENT]**

9.1 **Requirements.** Owner, not later than three (3) business days after the Effective Date, shall submit to the City duplicate originals of policies and endorsements, or appropriate certificates of insurance, of public liability insurance and broad form property damage insurance policies in the amount of not less than Two Million Dollars (\$2,000,000), combined single limits, for death and injury to any person and property damage, naming the City and its officers, officials, employees, agents, and representatives as additional insureds. In addition, all such insurance:

(a) shall be primary insurance and not contributory with any other insurance the City or its officers, officials, employees, agents, and representatives may have;

(b) shall contain no special limitations on the scope of protection affordable to the City and its officers, officials, employees, agents, and representatives;

(c) shall be "date of occurrence" and not "claims-made" insurance;

(d) shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability;

(e) shall provide that the policy shall not be canceled by the insurer or Owner unless there is a minimum of thirty (30) days prior written notice to the City;

(f) shall be endorsed to include a waiver of subrogation rights against the City or its officers, officials, employees, agents, and representatives; and

(g) shall not require Owner to meet a deductible of more than One Hundred Thousand Dollars (\$100,000) unless approved in writing by the City's Community Development Director in his/her sole and absolute discretion.

9.2 **Workers Compensation Insurance.** Owner shall also furnish or cause to be furnished to the City evidence reasonably satisfactory to Owner that any consultant or contractor with whom Owner has contracted for the performance of any work on or about or with respect to the Subject Property carries worker's compensation insurance as required by the State of California.

## **ARTICLE 10. INDEMNITY**

Owner agrees to and shall indemnify, defend, and hold harmless the City and the City's officers, officials, members, employees, agents, and representatives, from and against any and all claims, liabilities, damages, and losses, including without limitation reasonable attorneys' fees and litigation expenses, including court and expert witness fees (collectively, "Claims"), due to the death or personal injury of any person, or physical damage to any person's real or personal property, caused by the construction of improvements by, or construction-related activities of, Owner or Owner's employees, agents, representatives, servants, invitees, consultants, contractors, or subcontractors (collectively, "Owner's Representatives") on the Subject Property, or for any construction defects in any improvements constructed by Owner or Owner's Representatives on the Subject Property or for any other work related to this Agreement; provided, however, that the foregoing indemnification shall not apply to the extent such Claims are proximately caused by the negligence or willful misconduct of the City, or the City's officers, officials, members, employees, agents, or representatives, subject to any immunities which may apply to the City with respect to such Claims. The foregoing indemnification provision shall survive the termination of this Agreement.

## **ARTICLE 11. MISCELLANEOUS PROVISIONS**

11.1 **Recordation of Agreement.** This Agreement shall be recorded with the County Recorder by the City Clerk within the period required by Government Code section 65868.5. Any amendments to this Agreement approved by the Parties, and any cancellation hereof, shall be similarly recorded.

11.2 **Entire Agreement.** This Agreement sets forth and contains the entire understanding and agreement of the Parties with respect to the subject matter set forth herein, and there are no oral or written representations, understandings or ancillary covenants, undertakings or agreements which are not contained or expressly referred to herein. No testimony or evidence of any such representations, understandings or covenants shall be admissible in any proceeding of any kind or nature to interpret or determine the terms or conditions of this Agreement.

11.3 **Severability.** If any term, provision, covenant or condition of this Agreement shall be determined invalid, void or unenforceable, the invalid provision shall be deemed to be severable from the remaining provisions contained within the Agreement. The Parties hereby state and acknowledge they would have adopted each provision contained within this Agreement notwithstanding the presence of an invalid provision.

11.4 **Interpretation and Governing Law.** This Agreement and any dispute arising hereunder shall be governed and interpreted in accordance with the laws of the State of California. This Agreement shall be construed as a whole according to its fair language and common meaning to achieve the objectives and purposes of the Parties, and the rule of construction to the effect that ambiguities are to be resolved against the drafting party or in favor of the City shall not be employed in interpreting this Agreement, all Parties having been represented by counsel in the negotiation and preparation hereof.

11.5 **Section Headings.** All section headings and subheadings are inserted for convenience only and shall not affect any construction or interpretation of this Agreement.

11.6 **Singular and Plural.** As used herein, the singular of any word includes the plural.

11.7 **Waiver.** Failure of a Party to insist upon the strict performance of any of the provisions of this Agreement by the other Party, or the failure by a Party to exercise its rights upon the default of the other Party, shall not constitute a waiver of such Party's right to insist and demand strict compliance by the other Party with the terms of this Agreement thereafter.

11.8 **No Third Party Beneficiaries.** This Agreement is made and entered into for the sole protection and benefit for the Parties and their successors and assigns. No other person shall have any right of action based upon any provision of this Agreement.

11.9 **Force Majeure.** Neither Party shall be deemed to be in default where failure or delay in performance of any of its obligations under this Agreement is caused by earthquakes, the acts of God, fires, wars, riots or similar hostilities, strikes and other labor difficulties beyond the party's control (including the Party's employment force), court actions (such as restraining

orders or injunctions), or other causes beyond the Party's reasonable control. If any such events shall occur, the term of this Agreement and the time for performance shall be extended for the duration of each such event, provided that the term of this Agreement shall not be extended under any circumstances for more than five (5) years.

**11.10 Mutual Covenants.** The covenants contained herein are mutual covenants and also constitute conditions to the concurrent or subsequent performance by the Party benefited thereby of the covenants to be performed hereunder by such benefited Party.

**11.11 Counterparts.** This Agreement may be executed by the Parties in counterparts, which counterparts shall be construed together and have the same effect as if all of the Parties had executed the same instrument.

**11.12 Litigation.** Any action at law or in equity arising under this Agreement or brought by any Party hereto for the purpose of enforcing, construing or determining the validity of any provision of this Agreement shall be filed and tried in the Superior Court of the County of Riverside, State of California, or such other appropriate court in said county, and the Parties hereto waive all provisions of law providing for the filing, removal or change of venue to any other court. Service of process on the City shall be made in accordance with California law. Service of process on Owner shall be made in any manner permitted by California law and shall be effective whether served inside or outside California. In the event of any action between the City and Owner seeking enforcement of any of the terms and conditions to this Agreement, the prevailing party in such action shall be awarded, in addition to such relief to which such party is entitled under this Agreement, its reasonable litigation costs and expenses, including without limitation its expert witness fees and reasonable attorney's fees.

**11.13 Covenant Not To Sue.** The Parties to this Agreement, and each of them, agree that this Agreement and each term hereof is legal, valid, binding, and enforceable. The Parties to this Agreement, and each of them, hereby covenant and agree that each of them will not commence, maintain, or prosecute any claim, demand, cause of action, suit, or other proceeding against any other Party to this Agreement, in law or in equity, or based on an allegation, or assert in any such action, that this Agreement or any term hereof is void, invalid, or unenforceable.

**11.14 Project as a Private Undertaking.** It is specifically understood and agreed by and between the Parties that the Development of the Subject Project is a private development, that neither Party is acting as the agent of the other in any respect hereunder, and that each Party is an independent contracting entity with respect to the terms, covenants and conditions contained in this Agreement. No partnership, joint venture or other association of any kind is formed by this Agreement. The only relationship between the City and Owner is that of a government entity regulating the Development of private property, on the one hand, and the holder of a legal or equitable interest in such property and as future holder of fee title to such property, on the other hand.

**11.15 Further Actions and Instruments.** Each of the Parties shall cooperate with and provide reasonable assistance to the other to the extent contemplated hereunder in the performance of all obligations under this Agreement and the satisfaction of the conditions of this Agreement. Upon the request of either Party at any time, the other Party shall promptly execute,

with acknowledgment or affidavit if reasonably required, and file or record such required instruments and writings and take any actions as may be reasonably necessary under the terms of this Agreement to carry out the intent and to fulfill the provisions of this Agreement or to evidence or consummate the transactions contemplated by this Agreement.

**11.16 Amendments in Writing/Cooperation.** This Agreement may be amended only by written consent of both Parties specifically approving the amendment and in accordance with the Government Code section 65868. The Parties shall cooperate in good faith with respect to any amendment proposed in order to clarify the intent and application of this Agreement, and shall treat any such proposal on its own merits, and not as a basis for the introduction of unrelated matters. Minor, non-material modifications may be approved by the Community Development Director in consultation with the City Attorney.

**11.17 Operating Memoranda.** The Parties acknowledge and agree that the provisions of this Agreement require a close degree of cooperation between the City and Owner, and Development of the Subject Property hereunder may demonstrate that refinements or clarifications are appropriate with respect to the details of performance of the City and Owner. If and when, from time to time, during the Term of this Agreement, the City and Owner agree that such refinements or clarifications are necessary or appropriate, they will effectuate such refinements or clarifications through operating memoranda approved by the City and Owner, which, after execution, will be attached to this Agreement as addenda and become a part hereof, and may be further refined or clarified from time to time as necessary with future approval by the City and Owner. No such operating memoranda will constitute an amendment to this Agreement requiring public notice or hearing. The Community Development Director, in consultation with the City Attorney, will be authorized to make the determination whether a requested refinement or clarification may be effectuated pursuant to this Section or whether the request refinement or clarification is of such a character to constitute an amendment hereof. The Community Development Director will be authorized to execute any operating memoranda hereunder on behalf of the City.

**11.18 Corporate Authority.** The person(s) executing this Agreement on behalf of each of the Parties hereto represent and warrant that (i) such Party are duly organized and existing, (ii) they are duly authorized to execute and deliver this Agreement on behalf of said Party, (iii) by so executing this Agreement such Party is formally bound to the provisions of this Agreement, and (iv) the entering into this Agreement does not violate any provision of any other agreement to which such Party is bound.

**11.19 Notices.** All notices under this Agreement shall be effective upon personal delivery, via facsimile so long as the sender receives confirmation of successful transmission from the sending machine, or three (3) business days after deposit in the United States mail, registered, certified, postage fully prepaid and addressed to the respective Parties as set forth below or as to such other address as the Parties may from time to time designate in writing:

**11.20 Nonliability of City Officials.** No officer, official, member, employee, agent, or representatives of the City shall be liable for any amounts due hereunder, and no judgment or execution thereon entered in any action hereon shall be personally enforced against any such officer, official, member, employee, agent, or representative.

**11.21 No Brokers.** The City and Owner represent and warrant to the other that neither has employed any broker and/or finder to represent its interest in this transaction. Each Party agrees to indemnify and hold the other free and harmless from and against any and all liability, loss, cost, or expense (including court costs and reasonable attorney's fees) in any manner connected with a claim asserted by any individual or entity for any commission or finder's fee in connection with this Agreement arising out of agreements by the indemnifying Party to pay any commission or finder's fee.

Hello Cindy,

I hope today brings a great day.

I talked to Mayor Owings; and he told me, to ask you, to put Cody Gonzales (age 20, RCC student) on the City's Youth Committee.

Cody's contact number is [REDACTED]

I would Like to add the following;

Alexandria Stewart (age 16, VVHS student). Her contact is [REDACTED]. I am mom.

Malik Wilson (age 18 MMHS student). His mothers number is [REDACTED] and myself.

Thank You,

JulieAnn Stewart-Cleaveland

Youth Entertainment and Arts Academy (non profit)

Hi Tom,

In regards to your request of all the Major Donor Contributions Form 461 for Palm Communities, Ridge Property Trust and/or Dennis Rice from 2008-2012; there was only one filing (attached).

In regards to Highland Fairview 2007-2008, I do not show a Major Donor Contribution Form 461, although I did find contributions for 2010 & 2011 (attached).

Per our recent conversation, I have copied the Major Donor Contribution files as well as attached those files electronically. The photocopies will be brought over to you shortly.

If there is anything else, please let me know.

Thanks,

*Kathy Gross*  
*Executive Assistant I*  
*City Clerk's Office*

# MORENO VALLEY: City manager's job on the line

**BY DEBRA GRUSZECKI and DAVID DANELSKI**  
**STAFF WRITERS**  
May 10, 2013; 03:58 PM

As investigators sift through seized documents and witness statements in a political corruption probe of Moreno Valley, the plot has thickened.

City Manager Henry Garcia's job is on the line.

The city council agenda for Tuesday, May 14, calls for Garcia's job performance to be discussed in closed session.

The dominos may tumble quickly. Two items on the agenda include his possible discipline, dismissal or release; and, finally, the appointment of a city manager.

Garcia came to Moreno Valley in January 2011 from a top administrative post in Rialto for a salary and benefits package worth more than \$400,000 per year. He could not be reached for comment Friday, May 10.

Moreno Valley City Hall is closed Fridays. Mayor Tom Owings' also could not be reached. The recording on his phone said the mailbox was full and could not take messages.

Councilman Richard Stewart said he spoke to Garcia late Thursday, May 9, and learned that, shortly before City Hall closed that day, Owings had put closed-session items on the agenda to review, dismiss and replace Garcia.

Garcia's performance review had been delayed since February, Stewart said.

Stewart said Owings added the agenda items after spending six hours testifying, at his insistence, before a federal grand jury probing political corruption in the city.

## MORENO VALLEY: Kiss (of death) for city manager

Posted on | May 16, 2013 | 11 Comments

To understand Tuesday night's production of the Mighty MoVal Council Players, watch this brief snippet in "Godfather II" in which Michael Corleone kisses his turncoat brother, Fredo, full on the mouth.

Fredo soon has a fishing accident involving a bullet.

Which brings us to Tuesday night, when MoVal Mayor Tom Owings told City Manager Henry Garcia: *"Speaking man to man, heart to heart, I love you, Henry."*

Gushed Councilwoman Victoria Baca: *"I'm very proud of you. You're a role model."*

An hour later, Garcia was out of a job. Unlike Fredo, Garcia took a severance deal instead of a bullet: a nice package in exchange for his silence (I mean service).

The curious and sudden demise of Henry Garcia is just the latest installment in this fast-moving hijinks:

**Tues., April 30:** FBI raids MoVal VIPS

**Wed., May 8:** Owings crashes RivCo grand jury.

**Thurs., May 9:** Beating a 5 p.m. deadline, Owings places items to review, dismiss and replace Garcia on May 14 meeting agenda. MoVal Councilman Richard Stewart believes Owings wanted to can Garcia because of something the mayor learned in the grand jury room.

But it never came to that. Garcia leaped (pushed?) into retirement, with love in the air: a press release issued that very May 14 night with a photo of Owings and Garcia shaking hands. You can't even see the knife!

The only question is why is Garcia gone? The FBI raided every elected's house — but not the city manager's. What did Owings learn in that grand jury room — that Henry could sing? Did Henry pull a Fredo?

Alas, Garcia and the city won't talk about it. Henry's good-bye package contains "no disparaging comments" clauses, suggesting both parties have loads of dirt on each other. If "authorities" dig up anything, maybe *they'll* go public.

What are we to assume right now? The worst, unfortunately. No obvious good guys here, just a cast of operators from the High Priest of Highland Fairview to council members bent on (choose one) bringing thousands of jobs to a high-jobless area or choking a region with more warehouses, diesel trucks and cancer than it can handle.

## Richard Stewart 460 Analysis

### 01/01/2008-06/30/2008

Shows cash balance on-hand of 427.64. Since there were no transactions, that should correspond exactly to the bank balance.

### 07/01/2008-12/31/2008

Has a Misc. Increase to Cash of \$580 put in the contribution box instead of the increases to cash box. States on Schedule I, Unknown error discovered over 1 year old. The only way this could happen is either intentionally failure to list a contribution or, complete failure to look at the bank statement when filling out the forms. Either way, it is a relatively large amount of money to be suddenly discovered after a year. His bank statements must have been showing \$1007.64 if the statement is accurate. It is hard to miss that kind of error, when there is no activity for 6 months.

### 01/01/2010-06/30/10

Another "suddenly discovered" error of \$116.33. For all of 2009 he shows a cash on-hand of 121.11. Again, did he fail to actually look at bank statements or what? For no activity, this is a lot of "errors".

### 07/01/2010-09/30/2010

Schedule A. 829.93 of un-itemized monetary contributions of less than \$100. That is a huge amount. Not a good idea to accept cash for a campaign and is uncharacteristic of the type of campaign Stewart was running there should be no cash.

**09/09/10 Donald Howard \$240 checked OTH. How is this an "Other"?**

**08/24/10 Steve Harmon is not an "Other." \$250**

**09/17/10 Nick Jones. Shows Calendar YTD of \$250.00**

Page 4 shows Nick Jones for \$250; Page 6 shows Nick Jones for \$250 and Page 7 shows Nick Jones for \$250.00.

**09/30/2010 Cash on hand 5320.02**

10/01/2010-10/16/2010

**Cash on Hand 6393.30**

Outstanding Debts \$3083.78

**10/17/2010-12/31/2010**

No reconciliation of what became of the \$3083.78 Loan Balance but it was probably listed in the payments section where he paid AFS 7353.66 although this is not clear.

Cash on Hand 7856.05

Loan From MVTA 8,000

**01/01/2011-06/30/2011**

Cash on Hand 7856.05

Loan From MVTA 8,000

**07/01/2011-12/31/2011**

Cash on Hand 6656.05

Loan to MVTA 8,000

**01/01/2012-06/30/2012**

Cash on Hand 6656.05

Loan From MVTA 8,000

**07/01/2012-12/31/2012**

**\$5,090.52 is MISSING? OR ARE THERE UNREPORTED EXPENSES?**

**The opening balance on Line 12 SHOULD BE 6,656.05. IT IS 1,565.53**

**In addition, the \$8,000 loan from MVTA was forgiven in this period and additional forms should be filed**

John R. Hawkins, Fire Chief  
Steve Curley, Deputy Chief  
Cal Fire/ Riverside County Fire Department  
210 West San Jacinto Avenue  
Perris, CA 92570

**Subject: Follow Up Regarding City of Moreno Valley Budget Update to Employees**

Chief Hawkins and Deputy Chief Curley:

This week I sent the attached memorandum to all City of Moreno Valley employees notifying them of the City's current budget situation. As the memo indicates, we are facing a \$6.3 million deficit which the City Council has directed us to close in the FY 2013/14 budget currently under development. The memo addressed a number of significant cost increases which we are struggling to fund.

The purpose of my letter to you is to correct/clarify two of those increases:

- "Public safety contract increases in FY 2012-13 and anticipated for FY 2013-14 which represent \$1.6 million and \$1.8 million respectively." This references only the contract rate increases for Police, not Fire, and we apologize for our lack of precision in suggesting that increases in the Fire contract were more significant than the approximately \$400,000 projection.
- "\$1.2 million annual costs of operating the new Morrison Park Fire Station." While these operational costs are significant, we did not remind employees that Fire gave up Truck 58 in Year 1. As you know, this was a budget cut included in the second year of the Council's approved 3-Year Deficit Elimination Plan which was accelerated to Year 1. Eliminating this truck company saved the City almost \$1.3 million in annual costs and we should have made reference in the memo that the elimination of the truck company essentially funded the Morrison Park Fire Station operations.

The City highly regards the Cal Fire/ Riverside County Fire team as an integral and valued partner in making our community safer and stronger. Mutual trust and cooperation are critical factors in our partnership, and we sincerely appreciate that we can count on both of these as work together to provide the highest quality public safety services to our residents.

Sincerely,

Henry Garcia  
City Manager

c: Mayor and Members of the City Council  
Abdul Ahmad, Fire Chief

CITY MANAGER'S OFFICE

## MEMORANDUM

---

To: City Employees  
From: Henry Garcia, City Manager  
Date: March 12, 2013  
Subject: **Budget Update**

---

The Budget Review Team has met with each of department and is finishing up the two-year draft budget proposal for Fiscal Years 2012/13 and 2014/15. Each department and division has once again been mindful of our ongoing fiscal challenges and the proposed budgets have been conservative and sparing with any new requests. I appreciate the effort of each department head, division manager, and City staff member in continuing to hold the line in spending.

Unfortunately the City's budget outlook remains poor. Revenues are increasing, but too slowly to keep pace with the City's cost to deliver services. Despite significant expenditure reductions that have reduced our General Fund spending from nearly \$100 million in 2007 to \$76.8 million in the current fiscal year, *our structural deficit is still projected to be \$6.3 million for the fiscal year starting July 1.* Our revenue growth rate is approximately 2-2.5% overall but just isn't enough to cover significant cost increases which include the following:

- Public safety contract increases in FY 2012-13 and anticipated for FY 2013-14 which represent \$1.6 million and \$1.8 million respectively;
- \$1.2 million annual costs of operating the new Morrison Park Fire Station;
- Employee COLAs (in 2012) which impacted our General Fund by \$650,000;
- The loss of Redevelopment Funds and Vehicle License Fees eliminated by the State represent over \$1 million in costs transferred to the General Fund;
- Public Employee Retirement System costs are escalating and will cost the General Fund an additional \$300,000 next fiscal year.

We have been utilizing our reserves or "savings" to help balance our budgets each of the last 5 years. As a result, General Fund reserves have decreased from \$44 million in FY 2009/10 to \$22 million as of this June 30. While reserves act as a "rainy day" fund, *we simply cannot continue to burn through one-time cash while spending more than we take in.* The City Council has directed us to present them with a balanced budget for FY 2013/14 without using reserves.

## Budget Update

March 12, 2013

Page 2

In light of the cuts made to the General Fund over the past four years, identifying another \$6.3 million in reductions will obviously be very difficult. I sincerely believe that we are operating the City with what amounts to a "skeleton crew" and yet our residents have felt minimal service level impacts as each of you continue to dedicate tremendous effort in performing your work.

We will use the \$2.8 million in cuts previously identified for Years 2 and 3 of the Council-approved Deficit Elimination Plan as the foundation for the budget plan, with some variations due to evolving circumstances and Council priorities. Some additional staff reductions will be necessary; specific proposals will affect management positions as well as line staff and are likely to be announced within the next week or two. We also anticipate that most of the reductions will need to come from public safety, where the City currently spends over 70% of its General Fund budget.

At a special study session workshop held last month, the City Council discussed the possibility of asking our residents to support a ballot measure to increase revenues through a sales tax or parcel tax increase. We cannot balance our budgets strictly through expenditure cuts; additional revenue is required. Staff recently presented information to the City Council regarding the slow growth in our major General Fund revenue sources. This presentation is posted on the intranet and I encourage you to review the data provided, including Moreno Valley's per capita revenue as compared with similar-sized communities.

As I work with the City Council to develop the two-year budget, I will provide you with detailed information as timely as possible. The following are some important dates for the budget process:

<u>Scheduled date</u>	<u>Action/Information</u>
March 25-28	Two-Year Budget proposal available for viewing by departments in LOGOS
April 30	Special Study Session: 2-Year General Fund Budget Proposal
May 7	Study Session: 2-Year Non-General Fund Budget Proposal
May	Staff to conduct public budget meetings in each Council District
June 11	City Council meeting: Approve Two-Year Budget

I value your continued dedication to the City of Moreno Valley, and will keep you informed as the budget process moves forward.

CITY COUNCIL

## MEMORANDUM

---

To: Mayor, Mayor Pro Tem, and Members of the City Council  
From: Michelle Dawson, Assistant City Manager  
Date: February 12, 2013  
Subject: Staff Follow Up on Consensus Items Identified at Council Workshop

---

Staff is following up on your items from the February 2 Council Workshop per the following timeframes:

Council item on future agenda to take action on Charter Subcommittee, with a Citizens Review Committee, 2014 election:

- **The City Manager's Office and City Attorney are preparing a staff report for the Feb. 26<sup>th</sup> regular Council meeting**

Directly-elected Mayor:

- **To be discussed as part of the Charter drafting process**

Efforts of city to focus on medical corridor:

- **This area is included in the 3-Year Economic Development Action Plan**

Highest/best use study for 60 acres on Nason owned by the City:

- **Initiating the RFP process in April to retain a planning consultant (note that we are already doing this for the SR 60 East overlay)**

Seek innovative measures to enhance Economic Development efforts:

- **Included in overall Economic Development effort**

Business incubators – higher priority:

- **Program idea will be presented at the April 11 Economic Development Subcommittee meeting**

Emphasize incentives for ecommerce fulfillment centers:

- **To be discussed at the June 13 Economic Development Subcommittee meeting**

Continue to emphasize residential development:

- **This is included in the 3-year Economic Development Action Plan**

Performing arts overlay:

- **To be discussed at the June 13 Economic Development Subcommittee meeting**

Mayor's council on education a priority:

- **The City Manager's Office is preparing a staff report for the Feb. 26<sup>th</sup> regular Council meeting**

Augment street maintenance budget in 1-2 yrs.:

- **Will be discussed as part of the budget development process**

More aggressive flood control enforcement:

- **First notifications to owners of privately-owned dirt channels were sent out in October; second notices pending.**

Develop neighborhood program:

- **To be discussed at the May 7 Economic Development Subcommittee meeting**

Balance General Fund budget in FY 13/14 (but also present a 2-yr option):

- **Options will be discussed with Council Members initially at their 1 on 1 meetings with the budget team April 22-29**

Discuss unfunded liabilities w/3 yr budget:

- **Scheduled for April 16 Study Session**

Study session: surplus properties:

- **Scheduled for March 19 Study Session**

Conduct Neighborhood budget meetings:

- **To be held in each Council District between May 6-30**

Include Sunnymead Blvd on Economic Development list:

- **This is included in the 3-year Economic Development Action Plan**

## Cindy Miller

---

**From:** Michelle Dawson  
**Sent:** Wednesday, January 30, 2013 1:26 PM  
**To:** Tom Owings  
**Cc:** Henry T. Garcia; Tom DeSantis; Cindy Miller; Richard Teichert  
**Subject:** Overtime Paid

Good afternoon Mayor. Tom DeSantis indicated that you had inquired as to how much the City has paid employees for overtime. That information is attached. Approximately \$150,000 in overtime was paid last Fiscal Year; please note that the overtime inspection services in CEDD are paid by developers.

--Michelle

To: Michelle Dawson

SUBJECT: Things to Do

Hi Michelle,

Thought you and I should sum up our first Month together with a "to do list" of sorts. These items are in no particular order.

1. Follow up with Col. Tim Smith concerning Best Western and the other hotels/motels that were taken off the billeting list. I have confirmed with Maria Lin that they have returned the survey and therefore should be back on the list. However, to date no guest or confirmation. We should send a letter thanking Col. McCoy and asking for confirmation that all concerned are back on the list.
2. On the same subject we need to draft a letter to the MV Chamber asking them to brief us on their efforts on behalf of their members (4 of the motels are Chamber Members) We should "sand bag" them so that we see what efforts they would normally go through in a case like this. Also, could you inform me of the City's total contribution to the Chamber and get me a complete list of the MV Chamber Board. I think you and I should have meetings with as many as possible.
3. We need to bring to a close the PE notices. I have attached a copy of a report to the City Council. I believe the staff should do this as a cost cutting measure however if Council action is required then let's do it...
4. We need to move up Paul's regarding squatters and civil action vs criminal action on code enforcement matters to a date prior to the study session or delay the study session.
5. I need a meeting with Rick to complete his update with me. You and I need to meet with him to get a complete list of the landmines we are facing and agree on schedule of study sessions to explain the extent of the problems to the council.

6. Please arrange for a regular report at council (2<sup>nd</sup> Tuesday of each Month) from Tom on the Kill rate for previous month. LA had a 0 kill rate in December. On this subject we need to calendar a study for 6 months out to review progress.
7. Also, could you arrange with Rick to brief me on the financing( before the 8<sup>th</sup>) on the Sunnymead overpass project funding.
8. I would like a copy of any Sierra Club v Ridge settlement agreement
9. Could you please provide data for economic development in December such as number of contacts to companies, emails, calls and other relevant data that would give us an idea of the level of effort going on our behalf? Also See attached
10. I would like a regular meeting with you if possible... when would be good for you... On the same subject I think a regular meeting with me and Suzanne would also be beneficial maybe twice a month and also a weekly meeting with Rick. I will talk to Jane about the usefulness of such a meeting.
11. Also, we need to set up meetings with Sunnymead business as soon as Jesse comes back. After we go through and organize the business into groups we will need to schedule meetings with you and Joel.

Please call if you have questions or concerns...

As Always,

Tom

**MEMORANDUM**

To: Tom Owings, Mayor  
 From: Michelle Dawson, Assistant City Manager  
 Date: January 21, 2013  
 Subject: Project/Work Item Update

13 JAN 22 AM 9:13

CITY COUNCIL  
 MORENO VALLEY  
 RECEIVED

Attached for your information is the "Things To Do" list you prepared on January 2. I have included my notations on the status/progress of those items. The following include my list of projects and work items that you and I have discussed since that time; I will provide you with status updates as we progress:

- List of developers from last 20 projects with the City; schedule meetings with Mayor Owings and City Manager/Assistant City Manager.
- Meet with Nef Cortez (*Cindy has scheduled this mtg.*) *Reschedule*
- Mayors Advisory Committees:
  - Utility; Education; Neighborhoods —
  - Formalize process/procedures; take to full Council
  - Business card info to Dr. White; press release announcing her as Chair/partnership w/City & businesses to address grad rate*o utility formation*
- "Green Sheet": other departments should use format to provide information.
- Meet with Anne Schneider and Al Brady. *reschedule -*
- History of Directly-Elected Mayor proposal (*staff report & attachments from when this last went to Council forwarded via e-mail on 1/18*).
- PD/City Attorney: can the City sue the homeowner to recoup costs to respond to recent gang party & shooting?
- Code: is the building previously used by Michael Geller for his office on Sunnymead now a medicinal marijuana shop?

FROM: Tom Owings

To: Michelle Dawson

SUBJECT: Things to Do

Hi Michelle,

Thought you and I should sum up our first Month together with a "to do list" of sorts. These items are in no particular order.

*letter sent  
1/4/13; at least  
2 hotels back  
in lodging  
program.*

1. Follow up with Col. Tim Smith concerning Best Western and the other hotels/motels that were taken off the billeting list. I have confirmed with Maria Lin that they have returned the survey and therefore should be back on the list. However, to date no guest or confirmation. We should send a letter thanking Col. McCoy and asking for confirmation that all concerned are back on the list.

*Info in  
e-mail dated  
1/5/13*

2. On the same subject we need to draft a letter to the MV Chamber asking them to brief us on their efforts on behalf of their members (4 of the motels are Chamber Members) We should "sand bag" them so that we see what efforts they would normally go through in a case like this. Also, could you inform me of the City's total contribution to the Chamber and get me a complete list of the MV Chamber Board. I think you and I should have meetings with as many as possible.

*TV Raffle  
2c - Dala*

*State or City address → website... ACT-*

*Direction to  
staff to switch  
P-E notices to  
Business Journal*

3. We need to bring to a close the PE notices. I have attached a copy of a report to the City Council. I believe the staff should do this as a cost cutting measure however if Council action is required then let's do it...

- ④ We need to move up Paul's regarding squatters and civil action vs criminal action on code enforcement matters to a date prior to the study session or delay the study session.

*Squatters - Jan. 15th Study Session; Civil v. Criminal moved to March*

5. I need a meeting with Rick to complete his update with me. You and I need to meet with him to get a complete list of the landmines we are facing and agree on schedule of study sessions to explain the extent of the problems to the council.

*Mtg w/ Rick was 1/11; "landmine" issues scheduled for  
Study Sessions through May.*

Info will be included on Council agenda ea. month starting 2/12; Animal Services Tactical Plan to be presented at 2/19 Study Session.

6. Please arrange for a regular report at council (2<sup>nd</sup> Tuesday of each Month) from Tom on the Kill rate for previous month. LA had a 0 kill rate in December. On this subject we need to calendar a study for 6 months out to review progress.

7. Also, could you arrange with Rick to brief me on the financing (before the 8<sup>th</sup>) on the Sunnymead overpass project funding. ?

Sunnymead Blvd. Improvements funded thru RDA bonds, no issues.

8. I would like a copy of any Sierra Club v Ridge settlement agreement  
We don't have this.

9. Could you please provide data for economic development in December such as number of contacts to companies, emails, calls and other relevant data that would give us an idea of the level of effort going on our behalf? Also See attached

Info provided by Barry @ 1/9/13 meeting.

10. I would like a regular meeting with you if possible... when would be good for you... On the same subject I think a regular meeting with me and Suzanne would also be beneficial maybe twice a month and also a weekly meeting with Rick. I will talk to Jane about the usefulness of such a meeting.

Recurring meetings scheduled.

11. Also, we need to set up meetings with Sunnymead business as soon as Jesse comes back. After we go through and organize the business into groups we will need to schedule meetings with you and Joel.

City staff team mtg. w/ PD, Code, CMgrs Office to form plan scheduled for 1/24

Please call if you have questions or concerns...

As Always,

Tom

• Barry-- didn't he have a company willing to take on the Sierra Club? Info provided @ 1/9/13 mtg.

• Patterson-- update her squatter memo/ follow up on visit to Temecula (Murrieta?)  
squatter issue discussed @ 1/15/13 study session.

• Contact Rusty Bailey: Hope 3<sup>rd</sup> benefit, involve MV; joint task force Econ Dev; put "our people" on Riv. committees & vice versa. Contact made w/ Bailey chief of staff; they are developing idea.

2013

Council/Staff Workshop 2/2/13

Owings, Tom

Council/Staff Workshop  
Council Chamber, February 2, 2013

Topic:        **Feasibility of a Revenue Measure**

Background/Process/Timing:

- Review the steps involved in a successful revenue measure ...
  - Develop transparency and trust in City financial data/financial management actions
  - Survey voters through telephone surveys/focus groups to determine the key issues for voters in the community, assess what type of tax measure they may be willing to support
  - Write a clear ballot measure that garners support for the measure
  - Provide a clear informational message for the community, actively provide this information to community groups and ballot measure support groups
- Present timing of issues
  - Hold during a general election with Council Candidates running, or must declare a fiscal emergency
  - Next City General Election is November 2014
    - provides time to establish community support for a measure
- Issue of General (majority vote) and Special (super-majority vote) Taxes

Discussion:

- Past Successes and Failures
  - City of Moreno Valley's history (handout)
  - See Michael Coleman's recent statewide information (handout)
- Possible Ballot Measures to Consider
  - Hotel Tax Increase (Transient Occupancy Tax )
    - Currently at 8%, neighboring cities are 11-12%
  - Street Lights Tax – Special Tax (sales tax or parcel tax)
  - Public Safety Tax – Special Tax (sales tax or parcel tax)
  - General Sales Tax – simple majority
  - Property Transfer Tax – simple majority
- Next Steps
  - Direct staff to proceed to plan and implement a strategy for a ballot measure(s)
  - Determine the date/timing of a potential ballot measure
  - Proceed to finalize voter survey/focus group study with Lew Edwards Group
  - Complete a plan with milestones and timeline for a Ballot Measure targeted toward an election date directed by City Council

# ECONOMIC DEVELOPMENT ACTION PLAN 2013-2016

An updated Economic Development Action Plan has been formulated to capitalize on near-term opportunities in eight geographic areas during a 3-year time frame. The focus of the updated Economic Development Action Plan includes the following goals and objectives in the nine recommended geographic areas:

## **Edgemont**

Pursue the revitalization of the Edgemont area through the adoption of a multi-faceted redevelopment strategy.

- Work towards the upgrading the water system to ensure sufficient water pressure to allow for new development projects in this area.
- Use Neighborhood Stabilization program funding to acquire and land bank foreclosed properties- both single-family and multi-family residential.
- Conduct quarterly Neighborhood Clean-up programs.
- Retain a planning consultant to evaluate land uses to establish the highest and best land use designations for redevelopment efforts.
- Pursue a master developer to assist with the planning for redevelopment in the Edgemont area.

## **TownGate**

Collaborate with the Fritz Duda Company and CW Capital towards stabilizing, upgrading and expanding retail and restaurant development opportunities in the TownGate area including the Moreno Valley Mall and the five shopping centers surrounding the regional mall including TownGate Center, TownGate Plaza, TownGate Crossing, TownGate Promenade and TownGate Square

- Continue to work with CW Capital-the owner of the Moreno Valley Mall in upgrading and attracting new users to the regional mall.
- Facilitate the planning and marketing for a 30,000 S.F. expansion project at the Moreno Valley Mall to include a new restaurant, retail and plaza area next to Harkins Theatres.
- Work with the Fritz Duda Company in the re-occupancy of vacant retail spaces and the overall stabilization of TownGate Center including new uses such as ULTA Beauty, BevMo and Planet Fitness.
- Assist in the processing of development plans for new projects in TownGate shopping centers including 24 Hour Fitness Sport, Miguel's Jr. Mexican Restaurant and Richie's Real American Diner.
- Cooperate with the Fritz Duda Company in pursuing the continued development of a 'Restaurant Row' area in TownGate Promenade.

## **Festival**

Cooperate with the Kodash Company and Miller Family Trust-the ownership of the Festival Center, to explore ways to redevelop or enhance the viability of the Festival Center including rehabilitation efforts and incorporating new appropriate land uses.

- Help facilitate attracting new users and the upgrade of the Festival Center.
- Explore developing a new residential component at the Festival Center.
- Explore possibilities with Moreno Valley Unified School District of developing new education facilities at Festival.
- Pursue an overlay study to consider other uses at Festival including possibly cultural & performing arts facilities, along with developing sports or recreation facilities for use by the community to create a mixed-use development concept.

## **Sunnymead Boulevard**

Work towards the further redevelopment of Sunnymead Boulevard, between Frederick Street to Perris Boulevard.

- Conduct a code compliance effort aimed at enhancing the image of Sunnymead Boulevard.
- Pursue new users and development projects for Sunnymead Boulevard.
- Market mixed-use development opportunities for Sunnymead Boulevard that combine new residential projects with retail and office uses.

## **Centerpointe Business Park**

Work with Ridge Property Trust and USAA Real Estate to expand development and business opportunities aimed at completing the Centerpointe Business Park.

- Assist Ridge Property Trust and Harbor Freight Tools (HFT) in the 507,720 S.F. expansion of HFT's Distribution Center at the NW corner of Cactus and Graham.
- Facilitate efforts for a user to occupy USAA's new 522,774 S.F. Centerpointe Logistics Center at the NW corner of Cactus and Frederick.
- Help advance the development of Ridge Property Trust's approved 607,960 S.F. industrial building at the NW corner of Brodiaea and Graham.
- Facilitate expansion plans for the Serta Mattress facility.
- Work with the owner of the Plaza Del Sol Center in stabilizing the center to provide needed shopping and restaurant opportunities in the Centerpointe Business Park area.

## **South Moreno Valley Industrial Area**

Work with seven developers (Alere Property Group, First Industrial Realty Trust, IDS Real Estate Group, Panattoni Development Co., Sares-REGIS Group, Trammell Crow Company & Western RealCo) on new business attraction and development projects in the South Moreno Valley Industrial Area.

- Work with IDS Real Estate Group in securing a business user for the new 769,320 S.F. Nandina Distribution Center.
- Facilitate the completion of Trammell Crow Company's 1,250,000 S.F. I-215 Logistics Center project, including securing a user.

- Cooperate with First Industrial Realty Trust and Panattoni Development Co. in pursuing the speculative development of two industrial buildings with a total of nearly 2 million S.F.
- Assist Sares-REGIS Group and Western RealCo in build-to-suit opportunities for two approved industrial building projects with a total of more than 3.6 million S.F.
- Work with Alere Property Group, First Industrial Realty Trust and Trammell Crow Co. in the planning and entitlements for several new industrial projects with a proposed 4 million S.F.

### **City Center Medical/Healthcare Corridor**

Cooperate with Riverside County Regional Medical Center (RCRMC), Kaiser Permanente, Moreno Valley College and Highland Fairview to help facilitate the further expansion of the City of Moreno Valley's Medical/Healthcare Corridor on Nason Street & Iris Avenue.

- Assist Riverside County with the implementation of the Master Plan for expanding the Riverside County Regional Medical Center including a new Trauma & Urgent Care, relocated & upgraded Operations Support building and facilities for the new UCR School of Medicine.
- Facilitate plans by Kaiser Permanente to expand the Moreno Valley Community Hospital with an expansion and upgrade of the Emergency Room facilities and development of a planned second tower.
- Cooperate with Moreno Valley College and Riverside Community College District in the development of a proposed 30,000 S.F. allied health sciences facility in the medical-healthcare corridor.
- Support the planning and marketing efforts of Highland Fairview to pursue the creation of a master planned 200-acre healthcare campus to be situated within the medical corridor and between the two existing hospitals-RCRMC and Kaiser's Community Hospital.
- Continue the planning and funding of capital improvement projects that will widen and construct the ultimate improvements on Nason Street from SR 60 to Iris Avenue to provide critical access to the two hospitals and the medical/healthcare corridor.
- The continued development of Medical/Healthcare corridor on Nason Street and Iris Avenue shall be the City's top priority for new medical and healthcare development.
- Undertake a study to determine highest and best land uses for the City-owned 60-acre property at the NW corner of Nason and Alessandro.

### **World Logistics Center at Rancho Belago**

Collaborate with Highland Fairview in the development of the World Logistics Center—a 41.6 million S.F. master planned corporate park proposed to be developed on 2,700 acres in the Rancho Belago area of eastern Moreno Valley.

- Process an Environmental Impact Report and preliminary development plans for the World Logistics Center in eastern Moreno Valley—south of SR 60 and east of Redlands Boulevard to Gilman Springs Road.
- Assist in the drafting of a Specific Plan that will guide the orderly development for of World Logistics Center.
- Cooperate with Highland Fairview in the formulation of a Development Agreement to create a public-private partnership to help facilitate the development of new public infrastructure in eastern

Moreno Valley associated with the World Logistics Center including roads, trails, utilities, storm water protection and fire protection facilities.

- Work with Highland Fairview in branding the World Logistics Center as one of the largest e-commerce focused development projects in the U.S.

### **SR 60 East Corridor**

Pursue new development opportunities along the SR 60 East corridor—from Nason Street to the easterly City limits.

- Prepare an Overlay Study to determine the 'highest and best' land uses along the SR 60 East Corridor.
- Assist property owners and developers in marketing development opportunities along the SR 60 East Corridor.
- Work on opportunities to expand the Moreno Valley Auto Mall.
- Facilitate the stabilization and further development of Stoneridge Towne Centre and Moreno Beach Plaza.

In addition to activities in the eight geographic areas, a series of objectives are being recommended to assist with overall economic development efforts to assist with Business Attraction, Business Retention and Business Expansion including the following:

- Continue to coordinate the Capital Program (CIP) with economic development efforts
- Expand the Development Ombudsman Program to provide a comprehensive range of business support services for developers and businesses
- Restart the Business Visitation Program, including the participation of the Mayor in 1 on 1 visits annually with the Top 50 with the major employers in the community
- Implement new software that will enable business owners, developers, contractors and residents to electronically submit and manage their plans with the City of Moreno Valley
- Utilize the Chambers of Commerce to expand participation in the Small Business Counseling Services provided by the Small Business Development Center (SBDC)
- Work with the Community Investment Corporation in a the development of a business incubator and micro-business loan program
- Pursue the reuse of vacant anchor retail spaces, including the use of the new ED-Retail Anchor Reuse Incentive Program
- Explore revising the scopes of work with the Agreements the Chamber of Commerce to better focus on business retention and expansion activities, including expansion of Shop MoVal, as well as establishing a program to promote more business to business transactions in Moreno Valley
- Utilize the Chambers of Commerce to undertake a survey of the small business community on ways to improve the business climate in Moreno Valley
- Use the Chambers of Commerce to assist with increasing high school graduation rates in the community through the development of mentor programs to link students with business leaders
- Pursue the creation of a Business Support Advisory Council comprised of major employers in Moreno Valley

- Seek ways to promote opportunities for more ties between cultural & performing arts in the community with economic development
- Explore creating an incentive program aimed at attracting development projects with e-commerce or fulfillment center users
- Continue to work with residential developers and the Building Industry Association (BIA) on ways to help facilitate new quality residential development in Moreno Valley

# ECONOMIC DEVELOPMENT ACTION PLAN

2011-2013

## SUMMARY OF INITIAL 15 MONTHS

### JOBS CREATED IN 5 EDAP AREAS

- Distribution/Manufacturing 1,522
  - Office/Healthcare 395
  - Automobile Dealerships 77
  - Retail/Restaurant 567
- Total 2,560

### CONSTRUCTION JOBS CREATED

- 5,736

### Harbor Freight Tools

- Opened new 779,016 S.F. Distribution Center
- Opened 2<sup>nd</sup> DC-691,960 S.F
- Employ 430
- 507,720 S.F. expansion approved

### Centerpointe & South MV Industrial & Logistics Development

- 3.23 million S.F. of Industrial Buildings started construction
- 3 million S.F. planned to start construction
- 10 million S.F. in planning process

### Eastern Moreno Valley Development

- Skechers USA Opens
- WestRidge approved/Negotiations Underway for 850,000 S.F. User
- World Logistics Center Planning Underway (EIR & SP)

### City Center Development

- \$75 million in CIP Projects
- Planning and Marketing for expansion of Medical/Healthcare Corridor
- RCRMC & Kaiser expansions
- Moreno Valley College Expansion
- Moreno Valley Auto Mall Expansion & Upgrade
- LA Fitness Coming to Moreno Beach Plaza

### TownGate

- Opening of New Retail Stores—TJ Maxx, HomeGoods, Rue 21
- Opening of New Restaurants—Buffalo Wild Wings, Five Guys Burgers, Chipotle
- Opening of Round 1

# Council/Staff Workshop

## Council Chamber February 2, 2013

### Topic: 3-Year Economic Development Action Plan

#### Background:

- In April 20011, Moreno Valley approved a 2-Year Economic Development (ED) Action Plan to capitalize on economic development opportunities in the short-term.
- The 2-Year ED Action Plan identified goal and objectives to advance economic development efforts in five geographic areas of the City including 1) TownGate, 2) Centerpointe Business Park, 3) South Moreno Valley Industrial Area, 4) City Center and 5) Eastern Moreno Valley-Rancho Belago.
- The 2-Year ED Action Plan also embraced the idea of strategically focusing the funding of projects within the Capital Improvement Program (CIP) to areas that can leverage economic development efforts.
- The advancement of a number of projects identified in the ED Action has been accomplished during the initial 15 months of the 2-Year ED Action Plan.

#### Discussion:

- A new 3-Year ED Action Plan has been drafted that would expand the focus of the ED Action Plan to eight geographic areas including 1) Edgemont, 2) TownGate, 3) Festival, 4) Centerpointe Business Park, 5) South Moreno Valley Industrial Area, 6) City Center & Medical/Healthcare Corridor, 7) World Logistics Center at Rancho Belago and 8) SR 60 East Corridor.
- The ED Action Plan is also recommended to include ten objectives aimed at increasing overall economic development efforts with 1) Business Attraction, 2) Business Retention and 3) Business Expansion.
- The preliminary schedule for the consideration and approval of the 3-Year ED Action Plan includes:
  1. Economic Development Subcommittee will review and evaluate the ED Action Plan on March 14
  2. ED Action Plan will be discussed at the April 2 City Council Study Session
  3. ED Action Plan will be considered for approval by the City Council on April 23

## City of Moreno Valley History of Revenue Measures

<b>June 1996</b>	<b>Utility User's Tax (UUT)</b>	<b>Failed</b>
	Retain the existing 6% UUT	
	<b>Measure P - Business License</b>	<b>Failed</b>
<b>November 1996</b>	<b>Utility User's Tax (UUT)</b>	<b>Passed</b>
	Retain the existing 6% UUT	
	<b>Measure BB - Business License</b> (reenacted the existing business license tax, which was subject to repeal as of December 31, 1996)	<b>Passed</b>
<b>November 1998</b>	<b>Measure U - Increase in the Annual Zone A Parcel Fee by \$8</b> (10,241 yes; 14,524 no)	<b>Failed</b>
<b>July 2001</b>	<b>Measure A – Library Services</b>	<b>Failed</b>
	Annual Parcel Fee not to Exceed \$20 for Zone L (Library Services) to construct and operate a library on Civic Center campus – failed (2027 yes; 2541 no)	
<b>November 2008</b>	<b>Utility User's Tax (UUT)</b>	<b>Passed</b>
	Modernization and rate reduction (from 6% to 5.75%)	
<b>November 2010</b>	<b>Hotel Tax (TOT)</b>	<b>Failed</b>
	Increase in TOT rate from 8% to 11%	
<b>November 2010</b>	<b>Increase in Streetlight Parcel Fee</b>	<b>Failed</b>
	Increase from \$22.00 to \$24.00 per parcel	

Council/Staff Workshop  
Council Chamber, February 2, 2013

- Return to Council in Study Session to discuss the results of the survey/focus groups and determine a ballot measure structure based on this information
- Conduct all City Business transparently, improve communication to the community to gain community trust and support in all actions of the City in support of a Ballot Measure

# Local Revenue Measures in California November 2012 Results

The November 6, 2012 presidential election featured 368 local measures in California on questions including land use development, government organization, bond authorizations and tax increases. Among these were 240 measures seeking approval for taxes, bonds or fees, including three by initiative. Three other measures sought by initiative to reduce previously approved taxes.

This volume of local measures is quite comparable to the number of local measures on each of the last two presidential election ballots in California. In November 2008, there were 233 revenue measures including 116 school bonds and taxes. In November 2004, there were 249 revenue measures including 86 school bonds or taxes.

K-12 schools districts and community colleges requested total of \$14.5 billion in 106 separate bond measure authorizations for school bonds to construct facilities, acquire equipment and make repairs and upgrades. There were 25 measures to increase or extend school parcel taxes.

Among the 109 non-school local revenue measures were seven general obligation bond measures and 36 special taxes and parcel taxes requiring two-thirds voter approval. There were 35 proposals to extend or increase transactions and use taxes (so-called add-on sales taxes) and 24 proposals to increase or extend non-school parcel taxes.

## Proposed Local Revenue Measures November 2012

© 2012 Michael Coleman

## Types of Non-School Local Tax Measures

\*Vacaville's Measure M combined a business license tax, parcel tax and hotel tax. It is counted here as a "General Tax - other"

© 2012 Michael Coleman

**Overall Passage Rates**

Following canvas updates by most county elections offices, the results of nearly all measures appear final. Since election night, the updated counts have four additional 55% school bond measures and one additional two-thirds vote school parcel tax passing. In addition, in Tuolumne County the Summerville Union High School District bond measure is undergoing a recount after falling just two votes short of 55% yes vote passage out of 4731 votes tabulated. This brings the total number of passing measures to 176 of the 240 tax/revenue measures proposed.

**Local Revenue Measures November 2012**

	Total	Pass	Passing'
City General Tax (Majority Vote)	60	48	80%
County General Tax (Majority Vote)	6	4	67%
City Special Tax or G.O. bond (2/3 Vote)	15	5	33%
County (Special Tax) 2/3 Vote	12	7	58%
Special District (2/3)	16	7	44%
School Parcel Tax 2/3	25	16	64%
School Bond 2/3 or 55%	106	89	84%
<b>Total</b>	<b>240</b>	<b>176</b>	<b>73%</b>
Redux by initiative	3	0	0%

The rate of passage of school measures slightly exceeded historic passage rates. Near final results indicate 89 of the 106 school bonds and 16 of the 25 school parcel taxes passed.

**School Tax & Bond Measures November 2012**

Local non-school majority vote tax measures did somewhat better this election than in prior years with 52 of 66 passing. Among the failing measures were three taxes proposed in San Diego County cities as a part of marijuana dispensary initiatives. These taxes on the sale of marijuana probably could not have been implemented had they passed.

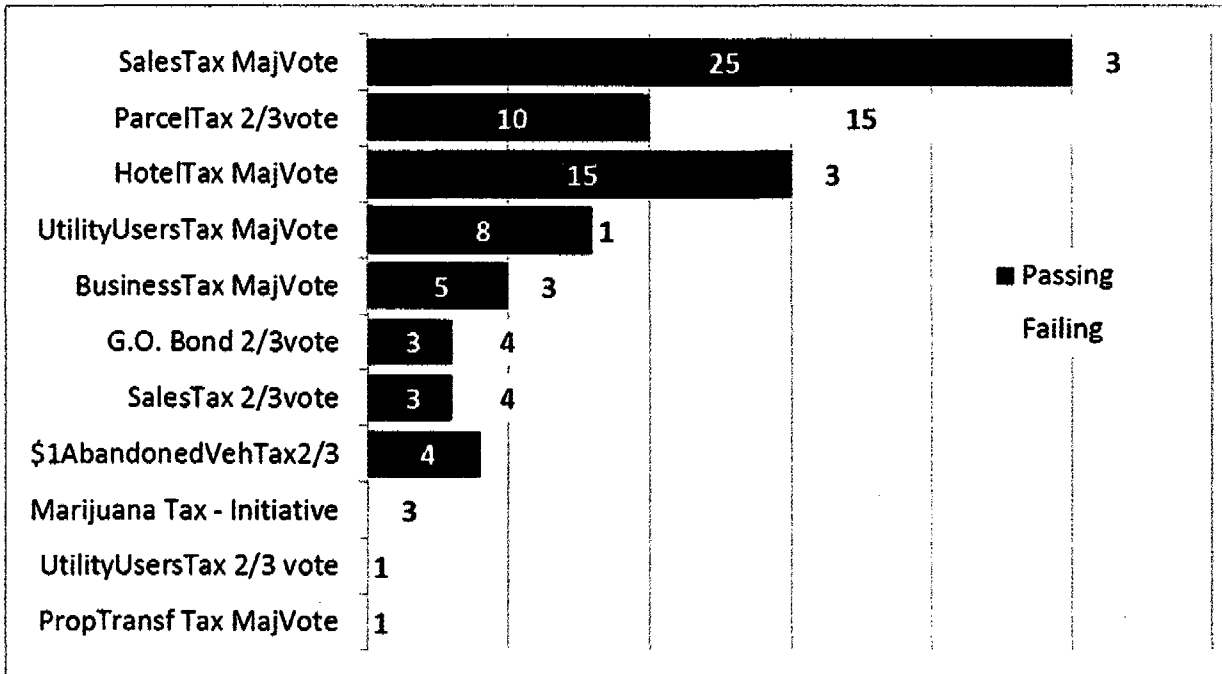

Among the 43 non-school special taxes, parcel taxes and bonds requiring two-thirds voter approval, 19 passed, a very similar passage rate compared to past elections.

**City / County / Special District Tax & Bond Measures November 2012**

General purpose tax measures fared especially well, especially add-on sales taxes (local transactions and use taxes). Parcel taxes and G.O. bonds had a much more difficult time, mostly, it appears, due to the two-thirds supermajority vote thresholds. Five of the 25 non-school parcel taxes failed to even garner 50% yes votes.

**Passing and Failing City / County / Special District Measures by Type November 2012**

**Local Add-On Sales Taxes (Transaction and Use Taxes)**

Twenty five cities and three counties proposed general purpose majority vote add-on sales tax rates ranging from 1/8 percent in Santa Clara County to one percent in several cities. Voters approved all but three of these measures.

**Transactions and Use Tax (Add-on Sales Tax) - General Tax - Majority Approval**

<u>Agency Name</u>	<u>County</u>	<u>Rate</u>	<u>Sunset</u>	<u>YES%</u>	<u>NO%</u>

There were seven add-on sales tax measures earmarked for specific purposes. Five of these were county-wide measures. All seven received over 60% yes votes, but four fell short of the two-thirds approval needed including transportation measures in Alameda and Los Angeles and two measures related to roads and water quality in Lake County.

**Transactions and Use Tax (Add-on Sales Tax) - Special Tax - Two-Thirds Approval**

\*measure is an "excise tax" also includes BLT, etc.

**Utility User Taxes**

Voters in ten cities considered measures to increase or expand utility user taxes. Several of the proposals were to modernize existing taxes on telecommunications and among these, five proposed a reduction in the tax rate as a part of effectively expanding the tax base to wireless communications. Chico is one of very few cities to have rejected this approach at the polls.

Among the ten measures, only Citrus Heights earmarked the tax for specific purposes. But voters rejected the proposed increase.

Voters in Arcata approved a novel UUT, a 45% tax on excessive electricity use aimed at home grow houses.

**Utility User Taxes**

**Business License Taxes**

There were eight business license tax measures, including two proposals to tax sugared beverages, a new idea among local measures in California. A proposal to increase local taxes on "businesses engaged in the manufacture, piping, refining, storage and wholesale distribution of petroleum products" failed in Rialto. The sugared beverage taxes were resoundingly rejected. Companion measures in both cities that expressed the preferred use of the funds for particular programs did not help. Six other measures passed easily.

**Business License Tax Measures: Majority Vote General**

Agency Name	County	Measure	Rate	YES%	NO%	
Vacaville*	Solano	Measure L		<b>80.1%</b>	19.9%	<b>PASS</b>
Rancho Cordova	Sacramento	Measure L	cardrooms	<b>79.3%</b>	20.7%	<b>PASS</b>

El Monte	Los Angeles	Measure H	23.2%	<b>76.8%</b>	<b>FAIL</b>

### Property Transfer Tax

A proposal to increase the property transfer tax in Pomona failed. Pomona pursued the ill-advised approach of placing multiple tax measures on the ballot at once: a hotel tax, a parcel tax (2/3 vote), and this property transfer tax. All failed.

#### **Property Transfer Taxes**

<u>Agency Name</u>	<u>County</u>	<u>Measure Na</u>	<u>Rate</u>	<u>YES%</u>	<u>NO%</u>	
Pomona	Los Angeles	Measure W	from \$1.10 to \$2.20	24.6%	75.4%	<b>FAIL</b>

### Parcel Taxes and Special Taxes (non-school)

There were 25 parcel taxes including 13 in special districts, ten in cities, and two in counties. Under a state constitutional provision included in Proposition 13 (1978), parcel taxes require two-thirds supermajority approval. Ten of 25 measures passed. Among these ten, six extended -- but did not increase -- existing parcel taxes.

An initiative measure to revise and reduce a fire parcel tax in Newcastle was rejected by voters in that community. The measure received 61% approval but required two-thirds approval.

#### **City, County and Special District Parcel Taxes (2/3 vote)**

<u>Agency Name</u>	<u>County</u>	<u>Measure</u>	<u>Amount</u>	<u>Purpose</u>	<u>YES%</u>	<u>NO%</u>

### Abandoned Vehicle Abatement Taxes

Four counties had measures to extend \$1 per motor vehicle charges to fund abandoned vehicle abatement programs. These charges were once imposed by the County Boards of Supervisors as fees without a vote of the people. The passage of Proposition 26 in 2010 requires voter approval as taxes of any extension of these charges. All four measures passed.

**Abandoned Vehicle Abatement Tax**

**(Fees prior to Prop26 of 2010) - 2/3 voter approval required**

County of Mendocino	Measure G	\$1/veh	78.8%	21.2%	<b>PASS</b>	extend
County of Butte	Measure H	\$1/veh	73.4%	26.6%	<b>PASS</b>	extend

County of Amador	Measure U	\$1/veh	68.8%	31.2%	<b>PASS</b>	extend

**General Obligation Bonds**

There were seven local general obligation bond measures in three cities and three special districts. The three passing measures are all in the San Francisco Bay Area. Voters in Berkeley approved a bond for critical drainage and water quality improvements but turned failed to garner the two-thirds approval needed for a parks improvement bond. A hospital bond in Fremont and a parks and environmental clean-up bond in San Francisco also passed.

**City, County and Special District Bond Measures (2/3 vote)**

<u>Agency Name</u>	<u>County</u>	<u>Amount</u>	<u>YES%</u>	<u>NO%</u>	
Berkeley	Alameda	Measure M \$30 million drainage/waterqua	73.3%	26.7%	<b>PASS</b>

Truckee Donner Recreation and Park Dist Nevada/Placer		Measure J \$8.52million parks/rec	54.1%	45.9%	<b>FAIL</b>

**School Parcel Taxes**

School parcel taxes fared better than non-school parcel taxes. The ballot included 25 local school parcel taxes. Sixteen passed. San Leandro USD's tax passed by 24 votes after training in the election night tally. Historically, around four out of five school parcel tax measures are approved.

**School Parcel Taxes (2/3 voter approval)**

<b>Agency Name</b>	<b>County</b>		<b>Rate</b>	<b>YES%</b>	<b>NO%</b>

Huntington Beach	Measure AA	retain taxes on annexed Sunset Beach area	84.0%	16.0%	PASS

**School Bonds**

There were 106 school bond measures on the ballot for a total of over \$14.5 billion in bonds. Most required 55% approval. Near final tabulations show 89 of the measures passing for bonds totaling \$13.267 billion, among these a \$2.8 billion bond in San Diego. In Tuolumne County the Summerville Union High School District bond measure is just two votes short of passage out of 4731 votes tabulated and is in recount.

**Observations**

At the local government level, voters can usually connect the direct consequences of the passage or failure of a tax measure to specific public services or facilities – rather than just dollar values. This confidence and understanding in what the money will do is essential to passing a measure. By contrast, a source of the failure of many statewide tax measures has been voter uncertainty about what the funds will truly be used for, that the government has done reasonably the best it can with the revenues it already receives, and what the consequences are of passage or failure in terms of specific important public services and facilities.

The success of most city majority vote general purpose tax proposals in this election demonstrates this. Most of the successful city or county measures were majority vote general purpose taxes in cities where a majority of the voters were apparently confident that the money is necessary and trusted their local elected leaders to use it well. They had seen enough of the city's efforts to balance their budgets with existing resources and believed those efforts were sincere and that the additional tax revenue is necessary and worth paying.

On the other hand, very few non-school super-majority taxes are passing these days except for extensions of existing taxes.

But supermajority vote parcel taxes for schools continue to pass – about two out of three succeed – consistent with what we have seen historically. As for school bonds, 89 of 106 bond measures passed, slightly exceeding historic passage rates.

# ECONOMIC DEVELOPMENT ACTION PLAN

2011-2013

## SUMMARY OF INITIAL 15 MONTHS

### JOBS CREATED IN 5 EDAP AREAS

- Distribution/Manufacturing 1,522
  - Office/Healthcare 395
  - Automobile Dealerships 77
  - Retail/Restaurant 567
- Total 2,560

### CONSTRUCTION JOBS CREATED

- 5,736

#### Harbor Freight Tools

- Opened new 779,016 S.F. Distribution Center
- Opened 2<sup>nd</sup> DC-691,960 S.F
- Employ 430
- 507,720 S.F. expansion approved

#### Ceterpointe & South MV Industrial & Logistics Development

- 3.23 million S.F. of Industrial Buildings started construction
- 3 million S.F. planned to start construction
- 10 million S.F. in planning process

#### Eastern Moreno Valley Development

- Skechers USA Opens
- WestRidge approved/Negotiations Underway for 850,000 S.F. User
- World Logistics Center Planning Underway (EIR & SP)

#### City Center Development

- \$75 million in CIP Projects
- Planning and Marketing for expansion of Medical/Healthcare Corridor
- RCRMC & Kaiser expansions
- Moreno Valley College Expansion
- Moreno Valley Auto Mall Expansion & Upgrade
- LA Fitness Coming to Moreno Beach Plaza

#### TownGate

- Opening of New Retail Stores—TJ Maxx, HomeGoods, Rue 21
- Opening of New Restaurants—Buffalo Wild Wings, Five Guys Burgers, Chipotle
- Opening of Round 1

"Riverside County Sheriff's Department and its contract agency (Moreno Valley) implemented a records management system mid-year 1999 and experienced technical problems with the system. Totals reported for 1999 were not valid and should not be used to make comparisons. Therefore, to maintain comparability of 2000 data with 1999 data, counts are shown but not included in the subtotals or total selected jurisdiction counts."

Note \* 2: Shown above is the approximate % change for 1999 using 1998 v 2000 comparison. Per Lt. Hill at Riverside County Sheriff's Technical Services Bureau (TSB): "The Riverside County Sheriff's Department implemented a new records management system in 1999 and experienced technical problems with the system. Totals reported for 1999 were not valid and should not be used to make comparisons." What is shown is an average decrease in crime for 1999 by percentages using 1998 as base year and 2000 as the comparison year and then divide the year 2000 percentages by 2 to show an average for each year, 1999 & 2000.

Council/Staff Workshop  
Council Chamber, February 2, 2013

Topic:        **Livability/Quality of Life Programming**

Background:

- Improving the quality of life for residents is a basic objective for local government officials.
- The long-standing "City Council Goals" generally speak to this focus:
  - Advocacy
  - Revenue Diversification and Preservation
  - Public Safety
  - Public Facilities and Capital Projects
  - Positive Environment
  - Community Image, Neighborhood Pride and Cleanliness
- In 1990 the Council established a "Blue Ribbon Committee for Moreno Valley Future Horizons"; applications were accepted but the Committee was never formed.
- Community Satisfaction Surveys
  - Performed annually; last one done in 2007:
    - 66% believed Moreno Valley was an "excellent" or "good place to live"
    - 40% believed the quality of life had improved over the previous few years
    - 59% gave positive ratings to the City for providing municipal services
    - The most important City services were "Fire and paramedic services," "police protection," "pick-up of garbage, yard waste, and recyclables," and "removal of graffiti."

Discussion

- How to define "Livability" and "Quality of Life"
  - Forbes measures the following factors:
    - Income growth
    - Current unemployment rate
    - Cost of living
    - Crime rate
    - Arts and culture
- Basic expectations (discuss City's efforts to date and planned initiatives for these):
  - Feel safe from crime
    - Crime stats
  - Live in affordable, well-maintained neighborhoods
    - Foreclosure strike team, squatter strike team
  - Access to quality education
    - Logistics training initiative
    - Mayor's Advisory Committee on Education: Goal of increasing grad rates
  - Access to quality employment
    - Economic Development Action Plan

Council/Staff Workshop  
Council Chamber, February 2, 2013

- Further define “Livability” and “Quality of Life” beyond the basic expectations
  - Arts and Culture
  - Recreation
  - Library

2013 - Incoming Correspondence

Owings, Tom

Community & Economic  
Development (CEDD)

**Job Creation**

Within the Economic Development Action Plan Areas, 2,530 more jobs created in the following business sections:

1487 ? <i>Details</i>	77 <i>Details</i>
Distribution/Manufacturing <i>actual is possible</i>	Automobile Dealership
399	567
Office/Healthcare	Retail/Restaurant

**Capital Projects**

The City is investing in a variety of major capital improvement projects that are currently between the design-phase or under construction. All the projects will improve traffic flow in the community and advance economic development efforts. Together the capital improvement projects will be supporting 3,916 jobs in FY 2012/13.

More information can be found on the Community & Economic Development Department webpage at [www.moval.org/CEED](http://www.moval.org/CEED).

**Speculative Development is Heating Up in Moreno Valley**

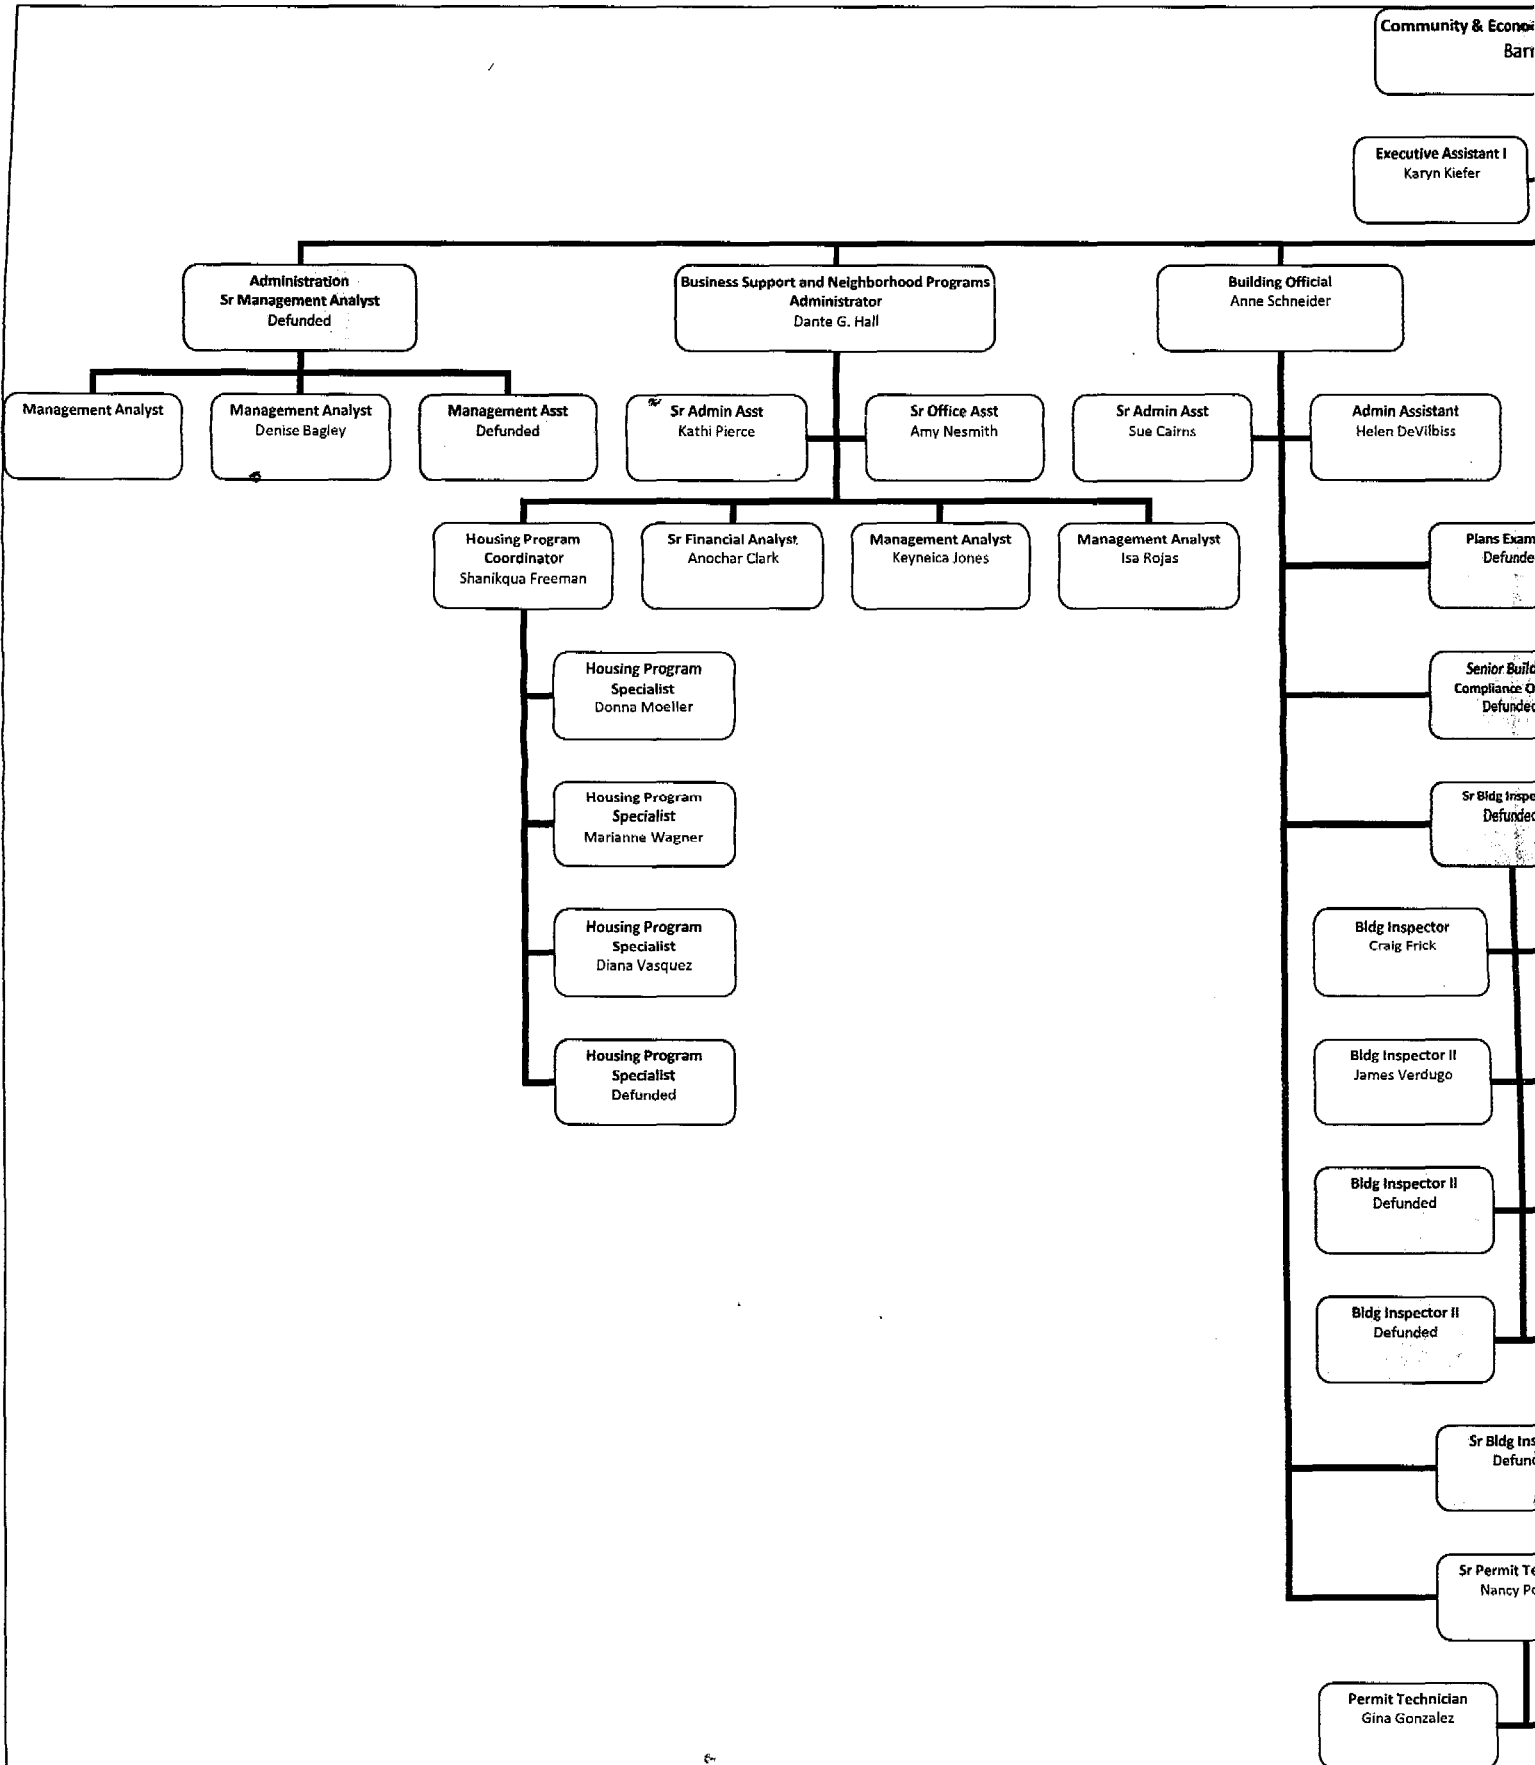

Interest in the Moreno Valley industrial market continues to heat up. Several major industrial development firms are pursuing speculative development projects to take advantage of the significant interest by business users. The following are just two examples of the development activity in Moreno Valley:

- The I-215 Logistics Center under development by

## Proposed Ordinance to Control or Eliminate "Squatting"

The City Council of Moreno Valley has determined that due to the large number of vacant homes in Moreno Valley, there is a serious problem with illegal tenants, squatters and vandals in empty homes and that this threatens the health and safety of all the residents. The City Council of Moreno Valley hereby orders the City Attorney to prepare an ordinance and the appropriate legal forms under the following guidelines:

An ordinance shall be drafted to assist in the prevention and apprehension of squatters and vandals in unoccupied homes within the City of Moreno Valley. The City shall create a voluntary list of vacant properties. It shall provide a method that owners can register their properties with the City of Moreno Valley as vacant and to prevent the takeover of the home by squatters, trespassers or illegal renters.

1. Any owner can sign a Affidavit of Unoccupied Property that is filed with the City:
  - a. Certifying that the named property is vacant;
  - b. Anyone living in the property is there illegally and can be arrested on sight;
  - c. No utilities are to be turned on without the written consent of the owner;
  - d. Positive identification will be required (this can be with a code word or other means as not to require someone to appear in person);
  - e. The document will require the owner to indemnify the City should the City take legal action against a tenant who is there legally;
  - f. Provide contact information to receive calls by the City on maintenance issues, landscaping issues and tenancy questions;
  - g. Require the owner to promptly notify the City in the event of a sale, rental or other occupancy by a lawful tenant to remove it from the list.
2. The owner can post sign(s) on the property that there is no trespassing and that trespassers can be arrested on sight;
3. The Moreno Valley Utility will not turn on any utility without clearing the address with the City Office of Coordination.
4. The owners that want to participate in this program should pay a minimal fee to cover administrative costs, not to exceed \$200 per property.
5. The police department should have access to the list in the event of any calls for service and, if they are not busy, they can check these properties and to verify trespass calls.
6. The owner is responsible to notify the City in the even that they rent or sell the property prior to anyone taking possession.
7. The City can ask for cooperation from Edison and EMWD and So Cal Gas in clearing homes prior to turn-on of utilities.

Street sweeping  
enforcement  
Permit parking areas

## Council District Neighborhood Budget Meetings

**District 3 Mayor Tom Owings**  
Thursday, May 16, 6:30 p.m.  
Moreno Christian Assembly

### Agenda

Welcome	Mayor Owings
Staff Introductions and Opening Remarks	City Manager Henry Garcia
Introduction to City Budget	Assistant City Manager Michelle Dawson
Proposed 2-Year Budget	Chief Financial Officer Rick Teichert
Review District CIP Projects	Public Works Director Ahmad Ansari
Question and Answer	

## **Council District Budget Meetings – Council Talking Points**

- Welcome to the Neighborhood Budget Discussion for District No. \_\_\_
- The City Council continues to work with staff to identify and provide for future opportunities in Moreno Valley.
- We are looking to the future of the City while dealing with the current realities of a difficult fiscal crisis that is threatening core service levels.
- Last February the City Council had a special workshop where we identified a list of action items and initiatives for staff to focus on in the next 18-24 months. (This information is posted on the City's web site)
- There are three main categories that encompass the action items from the Council Workshop:
  - Current Fiscal Crisis;
  - Quality of Life Initiatives;
  - Future Development and Revenue Diversification
- Since this meeting is focusing on the budget, I want to share with you what the consensus was among the Council Members at the February Workshop related to the current Fiscal Crisis; we are in agreement that we need to focus on the following:
  - Balance the General Fund budget in FY 2013/14
  - Identify and discuss unfunded liabilities as they affect the budget and present longer term financial challenges for the City; we have been discussing these long-term financial challenges at our study sessions meetings and those discussions are available for viewing on the City's web site and the presentation information is posted there as well
  - Review the need for surplus City owned property
  - Augment street maintenance budgets within 1-2 years
  - Conduct neighborhood budget meetings in each City Council district
  - Study the benefits and potential for a revenue ballot measure to fund reduced services, such as public safety

Introduce City Manager Henry Garcia

May 1, 2013

John Hawkins, Riverside County Fire Chief  
California Department of Forestry and Fire Protection  
210 W. San Jacinto Avenue  
Perris, CA 92570

Subject: Reduced Service Level for the Moreno Valley Fire Department

Dear Chief Hawkins:

Despite significant expenditure reductions implemented over the past few years, the City of Moreno Valley's budget deficit for the end of FY 2012/13 is projected to be \$8.3 million. To put this number into context, the City's General Fund expenditures for FY 2013/14 are projected at \$84.7 million. The City Council has directed staff to present a balanced budget for FY 2013/14; in order to fully address the deficit in one year we are proposing significant cuts to City services, including the Fire Department.

One of the options the City is choosing to implement is the closure of Station 99 (Morrison Park). We understand that this closure will result in the loss of the following: two (2) Fire Apparatus Engineers, two (2) Fire Captains, and (2) Firefighter II Paramedics. Please consider this as 120 days' notice as our effective date for this service level reduction is September 1, 2013. Please modify Exhibit "A" of the Cooperative Fire Protection Services Agreement to reflect this reduction in service.

As always, we appreciate the excellent fire protection services provided by the County/Cal Fire to the City of Moreno Valley.

Sincerely,

  
for Henry Garcia  
City Manager

## MEMORANDUM

---

To: Mayor and City Council  
Michelle Dawson, City Manager

From: Rick Teichert, Chief Financial Officer/City Treasurer 

Date: May 15, 2013

Subject: Monthly Investment Report – April 2013

---

Attached is the Monthly Investment Report (Treasurer's Cash and Investments Report) for the month ended April 30, 2013. All investments comply with California Government Code Section 53601 as to the types of investments allowed and the limits of each type. In addition, all investments comply with the City's annually adopted Investment Policy.

The investments managed by Chandler Asset Management totaled \$146,196,092 and achieved a Yield to Maturity (YTM) for April 2013 of 1.27%. This compares to a YTM in March 2013 of 1.28% and a YTM in April 2012 of 1.33%. In addition, the City maintained \$7,722,451 in the State Local Agency Investment Fund Pool with a YTM of 0.29%.

Rates of return on fixed income investments continue to remain soft, reflecting the current efforts by the Federal Reserve to energize the economy. Staff does not anticipate any significant increase in the near future. The Federal Reserve Board has recently stated that they intend to keep rates low for the next two years.

The March 2013 Quarterly Investment Report is scheduled to be presented at a regular City Council meeting on May 28, 2013. Submitting this April 2013 Monthly Investment Report by internal memorandum ensures that the Council and City Manager are kept apprised of the City's investments between the regular quarterly reports.

Please contact me (951-413-3024) or Brooke McKinney (951-413-3077) with any questions.

# Holdings Report Glossary

---

**CUSIP** (Committee on Uniform Securities Identification Procedures) – A unique identification number assigned to all securities.

**Security Description** - The issuer name, coupon (periodic interest payment rate) and maturity.

**Par Value/Units** - The face value or number of units held in the portfolio.

**Purchase Date** - The settlement date on which the security was purchased.

**Book Yield** - The YTM that equates the current amortized value of the security to its periodic future cash flows.

**Cost Value** - The value at which the securities were purchased, excluding purchased interest.

**Book Value** - The value at which an asset is carried on a balance sheet. To calculate, take the cost of an asset +/- net accretion/amortization.

**Mkt Price** - The current fair value market price.

**Mkt YTM** – The internal rate of return that equates the periodic future cash flows (interest payments and redemption value) to the market price, assuming that all cash flows are invested at the YTM rate.

**Market Value** - The current fair value of an investment as determined by transactions between willing buyers and sellers.

**Accrued Int.** - The interest that has accumulated on a bond since the last interest payment up to, but not including, the settlement date.

**% of Port.** - The % of the portfolio that the security represents based on market value, including accrued interest.

**Gain/Loss** – The unrealized gain or loss on the security, compared to either cost or amortized value, as of the date of the report.

**Moody** - The Moody's rating for the security.

## Holdings Report Glossary (continued)

---

**S&P** - The Standard and Poor's rating for the security.

**Term (yrs)** - The time, in years, until maturity.

**Duration** - The weighted average time to maturity of a bond where the weights are the present values of future cash flows. Duration measures the price sensitivity of a bond to changes in interest rates.

Since 1988, Chandler Asset Management has specialized in the management of fixed income portfolios. Chandler's mission is to provide fully customizable, client-centered portfolio management that preserves principal, manages risk and generates income in our clients' portfolios.

## Market Summary

Recent economic data has been somewhat lackluster, although job growth was better than expected in April. Nonfarm payrolls rose 165,000 in the month, exceeding the consensus forecast of 153,000. The net revisions in nonfarm payrolls for February and March were up 114,000. Average nonfarm payroll growth for the first four months of this year has been 195,000 per month. The unemployment rate remains elevated but improved to 7.5% in April from 7.6% in March. Meanwhile, recent manufacturing trends have decelerated and housing trends may have lost some momentum after a relatively strong start to the year. Consumer spending has held up pretty well in spite of this year's increase in payroll taxes, but trends may be softening. Overall, the economy is not showing much positive momentum, which may suggest that the impact of fiscal tightening has begun to trickle through the economy.

Yields declined in April, reflecting weaker than expected economic data. Yields also continue to be influenced by the Fed's accommodative monetary policy.

The Federal Open Market Committee left policy rates unchanged at its April 30-May 1 meeting, as expected. The Fed noted that the economy continues to grow at a moderate pace, but cautioned that fiscal policy has been restraining growth. The Fed also highlighted that the housing market has continued to strengthen, while the labor market has also shown some improvement, though unemployment remains unfavorably high. The Fed will continue to purchase mortgage-backed securities at a pace of \$40 billion per month and longer-term Treasury securities at a pace of \$45 billion per month. However, for the first time, the Fed officially stated that it may increase or reduce the pace of its asset purchases, depending on the outlook for the labor market and inflation. With the core inflation rate at just 1.9% in March (well below the Fed's trigger rate for policy action of 2.5%), we believe the Fed's current focus is primarily on growth.

### TREASURY YIELD CURVE FLATTENED IN APRIL

Yields declined in April, reflecting weaker than expected economic data.

TREASURY YIELDS	4/30/2013	3/31/2013	CHANGE
3 Month	0.05	0.07	(0.02)
2 Year	0.21	0.24	(0.03)
3 Year	0.31	0.35	(0.04)
5 Year	0.68	0.77	(0.09)
7 Year	1.11	1.21	(0.10)
10 Year	1.67	1.85	(0.18)
30 Year	2.88	3.10	(0.22)

# Economic Roundup

## Consumer Prices

In March, overall CPI inflation declined to 1.5% on a year-over-year basis from 2.0% in February. The year-over-year Core CPI (CPI less food and energy) edged down to 1.9% from 2.0%. The core inflation rate is slightly below the Fed's long-term goal of 2.0% and remains below the trigger rate for policy action of 2.5%.

## Retail Sales

In March, Retail Sales rose 2.8% on a year-over-year basis. However, on a month-over-month basis, Retail Sales declined 0.4% in March. Overall, recent consumer spending trends have held up well in spite of headwinds from higher payroll taxes, rising gas prices, a delay in tax refunds, and ongoing uncertainty about the government's fiscal policy. However, trends may be decelerating.

## Labor Markets

The April employment report showed that payrolls increased by 165,000 (better than the 153,000 consensus estimate). The unemployment rate fell to 7.5% from 7.6%. Private payrolls increased 176,000 (slightly ahead of expectations), while government jobs fell 11,000 in April. The net revisions in nonfarm payrolls for February and March were up 114,000. Overall, improvement in the labor market remains moderate.

## Housing Starts

Single-family housing starts declined 4.8% in March to 619,000 from 650,000 in February. Multi-family starts rose 31.1% in March. Housing permits dropped 3.9% in the month which was weaker than expected. Recent housing data suggests that the housing market may have lost some momentum after a relatively strong start to the year.

## Credit Spreads Were Tighter

CREDIT SPREADS	Spread to Treasuries (%)	One Month Ago (%)	Change
3-month top-rated commercial paper	0.11	0.10	0.01
2-year A corporate note	0.51	0.54	(0.03)
5-year A corporate note	0.81	0.83	(0.02)
5-year Agency note	0.17	0.17	0.00

# What Is The Fed's Next Move?

Investors' bias has shifted rather dramatically over the past month, as disappointing economic data has fueled speculation that the Fed may accelerate the pace of its asset purchases to provide additional stimulus to the economy. This notion is driven by the fact that the Fed has clearly linked its guidance for policy action to economic markers and moved away from its previous calendar-based guidance. The Fed has said since December that an exceptionally low fed funds rate will be appropriate as long as unemployment remains above 6.5% or until inflation looks set to exceed 2.5%. With unemployment currently at 7.5%, and core CPI at 1.9%, the economy appears ripe for further stimulus. However, just weeks ago, some market participants were beginning to think that the Fed would scale back its quantitative easing (QE) program before the end of this year. The recent deceleration of economic growth has made the outlook for QE uncertain.

Fed policymakers seem conflicted by the data. For example, in early April, Federal Reserve Bank of St. Louis President James Bullard said he favored reducing monthly asset purchases by \$10 to \$15 billion increments. However, just a few weeks later, Mr. Bullard spoke at a conference in New York and warned that inflation remained too low and suggested that the Fed could increase its rate of asset purchases. Richmond Fed President Jeffrey Lacker, who was strongly opposed to additional QE last September, said at the end of April that he would give serious thought to increasing stimulus if disinflation persists. Nevertheless, we believe current monetary policy is largely being steered by Fed Chairman Bernanke, Vice Chairman Yellen, and New York Fed President Dudley, who have all been supportive of QE.

As long as unemployment remains unfavorably high and consumer prices remain under control, the Fed is likely to remain focused on growth. The

statement from last week's Federal Open Market Committee meeting indicates that the Fed may increase or reduce the pace of its asset purchases, depending on the outlook for the labor market and inflation. For now, the Fed will continue to purchase mortgage-backed securities at a pace of \$40 billion per month and longer-term Treasury securities at a pace of \$45 billion per month. We believe this program is likely to remain on track through the end of this year, and that it is premature to speculate about a reduction in QE.

Why has investor rhetoric recently shifted toward increased QE? We believe the data speaks for itself. As reflected in the tables below, there was a rather dramatic reversal in economic data for March (which was released on a lagged basis throughout the month of April), after a string of positive data for February. Though one month does not necessarily indicate a trend, we believe the impact of fiscal tightening at home and abroad is beginning to negatively impact economic growth. Not only have we seen weaker economic data in the U.S., but fundamental concerns about the growth trajectory in Europe have increased

JANUARY ECONOMIC DATA (SIGNS OF IMPROVEMENT)		
Positive	Neutral	Negative
ISM Manufacturing up 3.1 points to 53.1.	Nonfarm payrolls advanced 148,000.	Consumer Confidence down 8.3 points to 58.4.
ISM Non-Manufacturing Index at 55.2.	Core CPI at 1.9%.	Housing Starts declined 8.1%.
Leading Economic Indicators up 0.5%.	PPI at 1.4%.	Chicago Fed National Activity Index at -0.56.
New Home Sales up 14.1%.		
Existing Home Sales up 0.8%.		
Retail sales rose 0.2%.		

FEBRUARY ECONOMIC DATA (MOSTLY POSITIVE)		
Positive	Neutral	Negative
ISM Manufacturing Index at 54.2.	Core CPI at 2.0%.	New Home Sales down 7.6%.
Consumer Confidence up 10 points to 68.0.	PPI 1.8%.	
Nonfarm payrolls up by 332,000.		
ISM Non-Manufacturing Index up 1 point to 56.0.		
Retail Sales up 1.0%		
Leading Economic Indicators up 0.5%.		
Existing Home Sales up 0.2%.		
Housing Starts up 7.3%.		
Chicago Fed National Activity Index at 0.76.		

MARCH ECONOMIC DATA (BELOW EXPECTATIONS)		
Positive	Neutral	Negative
Housing Starts up 7.0%.	PPI at 1.1%.	Nonfarm Payrolls up just 138,000.
New Home Sales rose 1.5%.	Core CPI at 1.9%.	ISM Non-Manufacturing Index fell 1.6 points to 54.4.
		ISM Manufacturing Index fell 2.9 points to 51.3.
		Consumer Confidence fell more than 6 points to 61.9.
		Retail Sales declined 0.4%.
		Leading Economic Indicators at -0.1%.
		Existing Home Sales fell 0.6%.
		Chicago Fed National Activity Index fell to -0.23.

Source: Bloomberg

with the ECB cutting policy rates last week and hinting at the possibility of providing additional credit measures to fuel growth. This week, the European Union warned that a recession in the euro zone is likely to continue through the rest of this year. In the U.S., we believe the impact of sequestration (which went into effect on March 1st) may have begun to ripple through the economy over the past two months. We also suspect that rising healthcare costs and the recent increase in payroll taxes have put pressure on consumer spending.

In addition to the deceleration in economic growth during the first quarter, corporate earnings results for the period were also somewhat disappointing. So far, more than 80% of companies in the S&P 500 Index have reported their first quarter 2013 earnings results. According to data compiled by Bloomberg, of those companies that have reported, more than half have posted lower than expected sales for the period. While first quarter earnings per share have been largely better than expected, we believe a lot of the upside has been driven by low-quality factors such as accounting adjustments and share repurchases. In addition, year-over-year earnings growth was generally weak in the first quarter, up just 2.4% on average (compared to 9.2% in the fourth quarter). Sales actually declined 1.4% year-over-year on average, according to Bloomberg data, compared to 3.6% growth in the fourth quarter. Weak topline results are particularly worrisome, considering that revenues are much more difficult than earnings to manipulate with accounting treatments. In addition, we believe management guidance has been more negative than prior quarters, and many companies continue to focus on cost-cutting rather than growth initiatives. Overall, we would characterize first quarter corporate earnings season as being rather lackluster, adding fuel to the speculation that the Fed could step in to provide further stimulus.

**We believe the impact of fiscal tightening at home and abroad is beginning to negatively impact economic growth.**

The Fed's most recent statement asserted that "fiscal policy is restraining economic growth." This language was more intense than the Fed's previous comment in March that fiscal policy had become "somewhat more restrictive." If fiscal tightening is to blame for the deceleration in March economic data, we believe economic growth is poised to decelerate further, considering that cost-cutting from sequestration still unfolding. However, there is also the possibility that the government will intervene and replace sequestration with a watered down package of spending cuts. We believe last week's better than expected jobs report for April (and the upward revision to payrolls for March and February) reduces the probability of the government making revisions to sequestration and reduces the probability of the Fed adding stimulus. In fact, we believe the rhetoric could shift back toward tapering of asset purchases if the employment report for May is strong.

Our base case scenario assumes that domestic economic growth remains slow and the Fed remains highly accommodative for at least the next 6 months. We also believe sequestration is likely to remain in place over the intermediate-term, and that restrictive fiscal policy will continue to be a drag on the economy. However, we expect that an ongoing recovery in housing through the second half of this year will provide a modest tailwind to economic growth.

- Shelly Henbest  
VP, Credit Analyst

**RISKS AND OTHER IMPORTANT CONSIDERATIONS**

This report is provided for informational purposes only and should not be construed as specific investment or legal advice. The information contained herein was obtained from sources believed to be reliable as of the date of publication, but may become outdated or superseded at any time without notice. Any opinions or views expressed are based on current market conditions and are subject to change. This report may contain forecasts and forward-looking statements which are inherently limited and should not be relied upon as an indicator of future results. Past performance is not indicative of future results. This report is not intended to constitute an offer, solicitation, recommendation or advice regarding any securities or investment strategy and should not be regarded by recipients as a substitute for the exercise of their own judgment.

Fixed income investments are subject to interest, credit, and market risk. Interest rate risk: the value of fixed income investments will decline as interest rates rise. Credit risk: the possibility that the borrower may not be able to repay interest and principal. Low rated bonds generally have to pay higher interest rates to attract investors willing to take on greater risk. Market risk: the bond market in general could decline due to economic conditions, especially during periods of rising interest rates.

## Council District Budget Meetings – Council Talking Points

- Welcome to the Neighborhood Budget Discussion for District No.
- The City Council continues to work with staff to identify and provide for future opportunities in Moreno Valley.
- We are looking to the future of the City while dealing with the current realities of a difficult fiscal crisis that is threatening core service levels.
- Last February the City Council had a special workshop where we identified a list of action items and initiatives for staff to focus on in the next 18-24 months. (This information is posted on the City's web site)
- There are three main categories that encompass the action items from the Council Workshop:
  - Current Fiscal Crisis; ✓
  - Quality of Life Initiatives; ✓
  - Future Development and Revenue Diversification ✓
- Since this meeting is focusing on the budget, I want to share with you what the consensus was among the Council Members at the February Workshop related to the current Fiscal Crisis; we are in agreement that we need to focus on the following:
  - Balance the General Fund budget in FY 2013/14 ✓
  - Identify and discuss unfunded liabilities as they affect the budget and present longer term financial challenges for the City; we have been discussing these long-term financial challenges at our study sessions meetings and those discussions are available for viewing on the City's web site and the presentation information is posted there as well
  - Review the need for surplus City owned property ✓
  - Augment street maintenance budgets within 1-2 years
  - Conduct neighborhood budget meetings in each City Council district
  - \* • Study the benefits and potential for a revenue ballot measure to fund reduced services, such as public safety

## Council District Neighborhood Budget Meetings

**District 1 Council Member Jesse Molina**  
Monday, May 13, 6:30 p.m.  
Faith Baptist Church

### Agenda

Welcome	Council Member Molina
Staff Introductions and Opening Remarks	City Manager Henry Garcia
Introduction to City Budget	Assistant City Manager Michelle Dawson
Proposed 2-Year Budget	Chief Financial Officer Rick Teichert
Review District CIP Projects	Public Works Director Ahmad Ansari
Question and Answer	

CITY COUNCIL  
MORENO VALLEY  
RECEIVED

13 MAY -2 PM 4: 45

**CITY OF MORENO VALLEY**

Community & Economic Development Department  
14177 Frederick Street, Moreno Valley, CA 92552

**AGENDA**

Economic Development Subcommittee

**Developer Workshop**

Thursday, May 9, 2013 - 2:00 p.m.

**Moreno Valley City Hall, Council Chambers**

14177 Frederick Street, Moreno Valley

1. Call to Order
2. Roll Call/Introductions
3. Public Comments

*Those wishing to speak should complete and submit a BLUE speaker slip to the Secretary. There is a three-minute time limit per person. All remarks and questions shall be addressed to the presiding officer or to the Economic Development Subcommittee of the City and not to any individual subcommittee member, staff member or other person.*

4. Approval of Minutes of April 11, 2013
5. 3-Year Economic Development Action Plan
6. CEQA Litigation Update
7. Developer Comments/Questions
8. Next Regular Economic Development Subcommittee Meeting – June 13, 2013
9. Next Developer Workshop – August 8, 2013
10. Adjournment

*Upon request, this agenda will be made available in appropriate alternative formats to persons with disabilities, in compliance with the Americans with Disabilities Act of 1990. Any person with a disability who requires a modification or accommodation in order to participate in a meeting should direct such request to Mel Alonzo, ADA Coordinator, at 951.413.3027 at least 48 hours before the meeting. The 48-hour notification will enable the City to make reasonable arrangements to ensure accessibility to this meeting.*

2013 - Financial & Administrative Services  
Development Impact Fee (DIF)  
Recommendations

## Examples of Fees if DIF is Increased

INDUSTRIAL (Assuming 750,000 s.f. Building)

Existing DIF	\$1,396,500	}
Possible	<u>4,220,820</u>	
Difference	\$2,824,720	

COMMERCIAL - REGIONAL (Assuming 500,000 s.f. Project)

Existing DIF	\$1,428,500
Possible	<u>6,051,860</u>
Difference	\$4,623,360

SINGLE FAMILY RESIDENTIAL (Assuming 30 Lots)

Existing DIF	\$ 412,350
Possible	<u>693,930</u>
Difference	\$ 281,580

MULTI-FAMILY RESIDENTIAL (Assuming 70 Units)

Existing DIF	\$ 720,020	}
Possible	<u>1,149,416</u>	
Difference	\$ 429,396	

## **Police Facilities**

### Considerations:

- The City currently has a contract for law enforcement services with the Riverside County Sheriff's Department.
- \* • In 2006, the City developed a Police Department Building Plan, which includes a full-service facility to support an independent Moreno Valley Police Department.
- The assumption is that the City is moving forward to form its own City police department.
- The City's estimated cost per square foot for the future police facilities is approximately 80% higher than the survey average.
- The updated DIF for this category has increased by nearly 100%.

***Suggestions for Discussion:*** Will the City have its own police department and unique comprehensive facilities? Should the per square foot cost for police facilities be reduced to match the survey average?

## Park Land and Park Improvements

### Considerations:

- The categories can include two legislative acts: the Quimby Act and the Mitigation Fee Act, to be used for the acquisition of parkland.
- The Quimby Act requires the City to have adopted in its General Plan a ratio of parkland to population, with a minimum ratio being 3-acres of parkland to a maximum of 5-acres of parkland per 1,000 population. Moreno Valley's General Plan policy on parklands is 3-acres.
- The Mitigation Fee Act (MVMC Chapter 3.38) permits the City to collect a fee from the development community for parkland and related improvements.
- The Colgan 2011 DIF Study has used the minimum ratio of 3-acres per 1,000 population as its basis for both the Quimby Act and Mitigation Fee Act – double paying. *CHANGE FOR 2*
- Only residential developments are required to pay this DIF category.
- This one capital facilities category represents over 40 percent of the total 2011 DIF for the Residential, Single-Family impact fee.

***Suggestions for Discussion:*** The DIF for the two categories is extremely high. It may be prudent to reevaluate the entire Park Land and Park Improvements capital facilities category by considering separating the Quimby Act portion from DIF since it has a unique set of regulations.

## Community/Recreation Centers

### Considerations:

- Included in this DIF category are: community centers for classes; day-care programs; social functions; gymnasiums for team sports, or just active play.
- The Colgan 2011 DIF Study allocates costs for 'Community/Recreation Centers' on a per capita basis to building area at build-out.
- The DIF is also based on the distribution of community centers and gymnasiums strategically placed throughout the community.
- The Colgan 2011 DIF Study incorporates costs for a number of already constructed facilities.
- Only residential developments are required to pay this DIF category.

**Suggestions for Discussion:** The impact fee for this capital facility includes facilities previously constructed (i.e., Senior Center, TownGate Community Center, March Field Park Community Center, and MV Conference & Community Center). As a rule, existing capital improvements should not be included in the need for "future" facilities unless the facilities were over-built to accommodate future needs of the City's residents. If the existing facilities are removed and not counted in the net building area, the cost per square foot would be approximately 50 percent less.

*CRC  
SENIOR  
CENTER  
DO NOT  
CHARGE*

## City Hall

### Considerations:

- The 'City Hall' capital facility category is for building area only and is based on the need for a building sized to support the needs of the community in general both administratively and directly (i.e., development services, business licenses, City Clerk's Office, etc.) and of the development community.
- The current City Hall building was purchased as a shell in 1994 and the tenant improvements were completed in 1995 to house most administrative support staff and development services.
- Over time, additional buildings have been acquired directly south of City Hall to accommodate an increase in staff to serve the community.

***Suggestions for Discussion:*** The future need for 'City Hall' facilities has changed significantly over the past few years. The City has 'downsized' its workforce and the need for additional building area is questionable based on City Council direction about contracting for certain services as the economy improves.

NO  
NEED  
FOR CITY  
HALL

## Arterial Streets

### Considerations:

- The 'Arterial Streets' DIF category is based on six (6) different arterial street classifications.
- The costs of the various street classifications, based on location, are allocated to future development based on vehicle trips generated and trip length associated with various types of development.
- The Colgan 2011 DIF Study uses a very complex formula to establish an impact fee.
- The formula is further complicated in that many of the City's arterial streets are included in the Western Riverside Council of Government (WRCOG) Traffic Uniform Mitigation Fee (TUMF) network and eligible for TUMF funds.

**Suggestions for Discussion:** An alternative to the DIF program concerning 'Arterial Streets' including the DIF Credit/Reimbursement Policy should be explored.

By standardizing the 'Arterial Street' segment, a developer's request for credits/reimbursements should be simplified. A reduced or standardized arterial street section should result in a reduction in the impact fee for 'Arterial Street' improvements.

6 Different  
Classes  
Calculated  
Make  
One

## Traffic Control

### Considerations:

- 'Traffic Control' is a DIF category that includes both signals and related traffic control improvements.
- Traffic signals and controls are directly related to the City's street classifications and locations as outlined in the Circulation Element of the City's General Plan.
- The Colgan 2011 DIF Study uses a weighted trip factor (i.e., length of trip and trip type), akin to the 'Arterial Street' DIF category, to establish the appropriate impact fee with traffic signals and controls spaced on a grid of one-quarter ( $\frac{1}{4}$ ) mile intervals.

***Suggestions for Discussion:*** The 'Traffic Control' impact fee is based on a very conservative traffic signal grid at one-quarter ( $\frac{1}{4}$ ) mile intervals. Recommendation is to increase the signal spacing to  $\frac{1}{2}$ -mile intervals.

25 MILE  
50 MILE

## Interchange Improvements

### Considerations:

- Interchanges serve a greater area than just the City of Moreno Valley. Therefore, defining the trips generated to interchange improvements can be problematic.
- The DIF Study allocates the costs of the improvements to future developments and the vehicles trips generated by the types of development.

**Suggestion for Discussion:** The cost of right-of-way should be considered in the costs of interchange improvements because the land cost can be significant for a development project.

DEVELOPER SHOULD  
BE COMPENSATED  
FOR RIGHT OF WAY

## Electrical Distribution (MVU only)

### Considerations:

- 'Electrical Distribution' has been considered as a new category in the 2011 DIF Study.
- The City created its own electric utility in 2004 (MVU).
- MVU constructed its only substation in 2008 to accept electricity it purchases through a number of funding sources.
- MVU has constructed or had constructed by developers, other infrastructure to support its projects and other improvements as needed for future growth.

***Suggestions for Discussion:*** MVU is presently working with a consultant to evaluate its service rates and to conduct a detailed review of its infrastructure needs to serve new development. Staff's recommendation is to not create a new DIF category for Electrical Distribution.

PROJECT  
BY PROJECT  
BASIS

## DIF Study Area and Future Development Potential

### Considerations:

- Recently, Highland Fairview filed a Specific Plan application to change the land-use pattern in the easterly portion of the City east of Redlands Boulevard and south of State Route 60.
- Highland Fairview's World Logistics Center is for an industrial/business park development rather than a multi use including a significant residential component.

***Suggestions for Discussion:*** It is recommended the City Council remove that portion of the City east of Redlands Boulevard from the DIF Study. A Development Agreement is the proper tool to identify needed infrastructure and DIF costs for this large scale area. Ontario and Corona are examples of other cities that have separated out large master-planned Specific Plan areas of the City from their overall DIF program (Ontario has the New Colony Specific Plan and Corona has the South Corona Specific Plan).

TREAT AS  
SEPARATE  
ENTITY

## **SUMMARY RECOMMENDATIONS**

Further discussion on the following Capital facilities categories should be undertaken:

1. Police Capital Facilities: Adjust the City's policy direction to acknowledge the contracting for police services and not pursue development of a full-service police department. Reduce the overall per square foot cost for police facilities to the survey average.
2. Park Land and Improvements Capital Facilities: Remove the Quimby Act in-lieu fee calculation from DIF and not double charge.
3. Community and Recreation Centers Capital Facilities: Remove already constructed centers and recreation facilities (i.e., Senior Center, TownGate Community Center, March Field Park Community Center, and MV Conference & Community Center) from this category.
4. City Hall Capital Facilities: Acknowledge a reduced City workforce and the future use of contract services, as well as validation that the existing City Hall is adequate for the size of future City Hall requirements.
5. Arterial Streets Capital Facility: Develop a more user friendly "typical" design standard for DIF qualifying streets to apply to all.
6. Traffic Control Capital Facilities: Increase spacing of traffic signals for City build out from one-quarter ( $\frac{1}{4}$ ) mile to one-half ( $\frac{1}{2}$ ) mile intervals.
7. Interchange Improvements Capital Facilities: Include cost of right-of-way in Interchange Improvement category.
8. Electrical Distribution (MVU area only) Capital Facilities: Do not create a new DIF category for electrical distribution, but rather allow for new infrastructure to be conditioned as part of the of future development projects impact mitigation.
9. DIF Study Area and Future Development Potential: Remove the area east of Redlands Boulevard and south of SR 60 (the proposed World logistics Center area) from the DIF study. The use of a Development Agreement is recommended as part of identifying the costs and method for building future infrastructure in this part of the City - based on future land uses.

Project	Building Area (Square Feet)	Construction Costs (Building Construction and Site Work)			Other Project Costs (Project Management, Plan Review, Permits, Environmental, Utilities, Advertise, Inspection and Testing, etc.)	Total Cost			Unit Cost (Per Square Foot)			Furniture, Fixtures, and Equipment (FEE)	FEE Cost Per Square Foot of Building Area	Remarks

## Report to City Council

**TO:** Mayor and City Council

**FROM:** Richard Teichert, Financial & Administrative Services Director  
Joel Ontiveros, Chief of Police

**AGENDA DATE:** August 28, 2012

**TITLE:** AWARD OF CITYWIDE CAMERA SURVEILLANCE PROJECT CONTRACT AND AUTHORIZATION FOR CITY MANAGER TO EXECUTE CONTRACT AND SUPPORT AGREEMENT WITH AVRIO GROUP SURVEILLANCE SOLUTIONS, LLC PROJECT NO. TS-CCSS 2012-02

### RECOMMENDED ACTION

The Public Safety Subcommittee recommends that the City Council take the following actions:

1. Authorize the award of the Citywide Camera Surveillance Project contract to Avrio Group Surveillance Solutions, LLC (Avrio), 3 N. Harrison Street, Suite 100, Easton, Maryland 21601 in an amount not-to-exceed \$1,800,000 for installation.
2. Authorize the City Manager to sign the contract with Avrio.
3. Authorize the City Manager to execute the support agreement with one-year of maintenance with additional one-year options for maintenance as follows:

Year 1 maintenance	Included - No Charge
Year 2 maintenance	\$98,000
Year 3 maintenance	\$112,000
Year 4 maintenance	\$125,000
Year 5 maintenance	\$145,000

### BACKGROUND

The Citywide Camera Surveillance System was first presented to the Public Safety Subcommittee in a meeting on June 27, 2011. The citywide camera surveillance system

was presented in a Study Session before City Council on September 20, 2011. The Public Safety Sub-Committee recommended that the Police Department continue to move forward with this project at their October 31, 2011 meeting. On November 23, 2011 a Request for Proposals (RFP) was issued for a Project Manager for this project; the RFP process successfully concluded on January 11, 2012. On April 2, 2012 the City issued a RFP concerning the camera surveillance system and eleven proposals were received on May 9, 2012.

Several cities in California, such as the Cities of Redlands, Compton, Bakersfield, Santa Monica, Lynnwood, Fresno, and Vallejo, have camera surveillance systems throughout their cities with varying degrees of coverage. These cameras contribute to the overall safety of the entire community and aid law enforcement's effort in crime prevention and solving crimes.

During the fourth quarter of 2011 and the first quarter of 2012, Police and City Staff reviewed surveillance systems and met with representatives from several Southern California cities concerning their camera system. After evaluating various camera systems, City Staff determined that a citywide camera surveillance system would enhance the law enforcement capabilities of the Moreno Valley Police Department. During this investigation phase, all City Council members expressed support for the citywide camera surveillance system.

### DISCUSSION

After eleven proposals were received on May 9, 2012, an evaluation committee was formed to choose a vendor to build the citywide camera surveillance system. The evaluation committee included a Police Lieutenant, a Police Sergeant, the Project Manager, and the City's Technology Services Division Manager. All proposals were read and scored by each member of the evaluation committee, resulting in a ranking of the proposals. The scoring revealed a natural break where four of the proposals were superior to the remaining proposals; these four vendors were considered finalists. A representative from another local city who manages that City's camera system was added to the evaluation committee when finalists were identified.

Proposals from the four finalists were further scrutinized in order to identify the company that staff would recommend to the City Council. A questionnaire, consisting of both common and customized questions, was sent to each finalist. Finalists were asked to both respond to the questionnaire in writing and in person in order to make a presentation to the evaluation committee. Each company was given 4 hours to make their presentation and engage the evaluation committee during the days of May 29 & 30, 2012. After the conclusion of the presentations, the evaluation committee met several additional times. Two of the finalists made proposals that fit the City's needs very well and addressed all of the evaluation criteria. Best and final offers were requested from these two companies. Based on the final offers the committee chose Avrio as the company that best fit the City's requirements.

Avrio submitted a proposal that covers all locations in the City, as identified by the Police Department, in project phases 1, 1a, and 2; the RFP also identifies phase 3 locations. Avrio's proposal covers a total of 67 locations throughout the City; each

location will include at least 3 cameras. The proposal also included 3 mobile camera systems which will be placed as the Police Department identifies an area in need of the use of these cameras.

In addition to cameras the complete system includes two other major components. One of these components is a wireless system to transmit the video images to City Hall and the Police Department. Avrio has proposed a collection of common, well-known wireless equipment placed throughout the city that establishes a network capable of transmitting high quality video images back to storage facilities at City Hall. The exact placement and height of the wireless radios required to be placed remains subject to site surveys, but the proposed system has been designed to require only minimal additions in the future.

The last major component of the system is called the Video Management System (VMS). The VMS is the software responsible for managing all the cameras, stored videos, user permissions, video clip exports, and many other features. Avrio has proposed a common, well-known VMS that has an outstanding list of features.

Avrio's final offer includes price guarantees to the City for any equipment and services that are purchased during the next three years to expand the system. These guarantees give the City a known cost for expanding the coverage of the system to additional locations at a known cost.

Police Department and City staff confidently recommends Avrio based on the merits of their proposal and the checking of several references. The Cities contacted as references for Avrio were very pleased with their camera system and with Avrio's customer service; several of the cities plan to expand their camera systems and view Avrio as the preferred vendor for those expansions.

#### Project Schedule

The project schedule includes milestones that will enable the Police Department to begin viewing live video from some locations by December of this year. A detailed project schedule is currently being developed and is being heavily influenced by the wireless radio system site surveys.

#### Project Budget

The City Council, on December 3, 2011, approved the total project funding of \$1.9 million, which includes \$95,000 for Project Management Services and \$1.8 million for the Citywide Camera Surveillance System.

### Annual Maintenance

Camera systems, like all hardware and software systems, require annual maintenance agreements in order to continue using the system, to receive enhancements and fixes, and to enable support calls when problems arise. Avrio has agreed to provide the first year of maintenance at no charge; the schedule for annual maintenance is shown below under Alternatives.

The City has budgeted asset depreciation (replacement costs) and annual maintenance for this system at a level that should ensure the success of this on-going system.

### ALTERNATIVES

1. Authorize the award of the Citywide Camera Surveillance Project contract to Avrio Group Surveillance Solutions, LLC (Avrio), 3 N. Harrison Street, Suite 100, Easton, Maryland 21601 in an amount not-to-exceed \$1,800,000 for installation.
2. Authorize the City Manager to sign the contract with Avrio.
3. Authorize the City Manager to execute the support agreement with one-year of maintenance with additional one-year options for maintenance as follows:

Year 1 maintenance	Included - No Charge
Year 2 maintenance	\$98,000
Year 3 maintenance	\$112,000
Year 4 maintenance	\$125,000
Year 5 maintenance	\$145,000

4. Do not authorize the Citywide Camera Surveillance System contract. ***This action would prevent the building of the Citywide Camera Surveillance System and hamper the plans of the Police Department to enhance public safety in the City.***
5. Provide staff with further direction.

**Staff recommends Alternative Nos. 1, 2 and 3.**

### FISCAL IMPACT

Funding for the \$1,900,000 Citywide Camera Surveillance System project budget is available in a Technology Services Capital Improvement Project account (7210-30-39-80010) due to the City Council's previous funding of this project.

Due to the availability of the funding source identified above, approval of the Citywide Camera Surveillance System project contract will have no further impact on the City's General Fund operating budget.

**CITY COUNCIL GOALS**

The Citywide Camera Surveillance System will contribute towards the City Council's goal of Public Safety, which states: Provide a safe and secure environment for people and property in the community, control the number and severity of fire and hazardous material incidents, and provide protection for citizens who live, work and visit the City of Moreno Valley.

**SUMMARY**

Following an extensive evaluation process, staff has selected Avrio RMS Group (Avrio) as the preferred vendor for a Citywide Camera Surveillance System through a competitively bid Request for Proposals (RFP) process. Avrio has submitted the proposal that best fits the City's needs from among a field of 11 proposals. The Citywide Camera Surveillance System is anticipated to begin in July 2012 and be completed by March, 2013 with the first cameras operational in December 2012. Avrio has also given the City a price guarantee on any equipment and services that are purchased during the next three years. Therefore, it is recommended that the City Council award the project to Avrio, authorize the Mayor to execute the contract, authorize the City Manager to execute a purchase order for one-time project costs not-to-exceed amount \$1,800,000, and authorize the City Manager to execute the one-year maintenance options related to the contract starting in year 2 of the contract.

***The proposed Citywide Camera Surveillance System has been reviewed and is supported by the Public Safety Subcommittee.***

**Attachments:** Storm Drain, Top 10 Needed Projects 3-19-13.pdf

Good afternoon Mayor-

In one of our recent CIP projects, you requested a more complete list of needed storm drain projects including status, estimates and available funding. The request became a Green Sheet task and is now completed and attached for your reference and use.

If you should need additional info or have any questions, please let me know.

Thank you,

**Ahmad R. Ansari, P.E.**

Councilmember Molina,  
 Here is a summary of solar rebates offered by MVU, Riverside Public Utilities, and SCE:

Additional rebates

	Residential	(X) Small Commercial System	Large Commercial System
MVU	\$2.25 per watt, capped at \$14,000 or 50% of cost of system	\$2.25 per watt, capped at \$50,000 or 50% of cost of system	\$0.06 per kWh produced, paid over 5 year period
Riverside*	\$2.00 per watt, capped at \$13,000 or 50% of cost of system	\$2.00 per watt, capped at either \$15,000 or \$45,000, depending on applicable electric rate	\$2.00 per watt, capped at \$100,000
SCE	\$0.25 per watt	(*) \$0.25 per watt X	\$0.05 per kWh produced, paid over a 5 year period

\*The city's website indicates that funding for solar rebates is depleted for this fiscal year; funds will be available July 1, 2013.

**Capital Improvement Plan - Project Details**  
 FY 2012-2017 and Beyond

<p><b>Project Title:</b> SR-60 / Moreno Beach Drive Interchange (Phase 2)</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p> <p><b>Fund . Business Unit :</b> 415.70024 415.UNF</p> <p><b>Project Description:</b>        This project consists of the replacement of the SR-60 / Moreno Beach two-lane bridge with a six-through-lane bridge and reconfiguration of the north side of SR-60 / Moreno Beach Interchange, associated auxiliary lane and construction of a portion of Line K-1 drainage facility on Ironwood Avenue. The ultimate SR-60 / Moreno Beach Drive interchange will have a diamond configuration on the south side, a cloverleaf on the northeast side, and a dedicated southbound Moreno Beach to westbound SR-60 on-ramp. The south side ramps and connection of Eucalyptus Avenue is a separately funded project (Phase 1). The project is completing design and acquiring right-of-way using existing limited TUMF funding.</p> <p>PS &amp; E Schedule: May 2008 to December 2012        Right of Way Schedule: May 2008 to December 2012*        Advertise, Bid, and Award: TBD*        Construction Schedule: TBD*</p> <p>*Subject to available TUMF funding. TUMF allocations are dependent upon the availability of funds from the Western Riverside Council of Governments (WRCOG).</p> <p><b>Justification or Significance of Improvement:</b>        Expansion of the current facilities will be needed due to the traffic demand resulting from development in the area. Carryover funds are needed to complete right of way acquisition and design through December 2012.</p>	<p><b>Project Status:</b></p> <p><input type="checkbox"/> New                    <input type="checkbox"/> Deleted</p> <p><input checked="" type="checkbox"/> In Progress        <input type="checkbox"/> On Hold</p> <p><input type="checkbox"/> Completed</p>	<p><b>Project Priority in CIP Category</b></p> <p><input checked="" type="checkbox"/> Essential (Start within 1 yr)</p> <p><input type="checkbox"/> Necessary (Start within 1 to 3 yrs)</p> <p><input type="checkbox"/> Desirable (Start within 3 to 5 yrs)</p> <p><input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)</p>

## Report to City Council

---

**TO:** Mayor and City Council

**FROM:** Chris A. Vogt, Public Works Director/City Engineer

**AGENDA DATE:** August 25, 2009

**TITLE:** ORDINANCE AMENDING SECTION 12.36.010 OF THE CITY OF MORENO VALLEY MUNICIPAL CODE RELATING TO THE DESIGNATION OF TRUCK ROUTES

---

### RECOMMENDED ACTION

Staff recommends that the City Council introduce Ordinance No. 794, amending Section 12.36.010 of Chapter 12.36 of Title 12 of the Municipal Code to remove Ironwood Avenue from Moreno Beach Drive to Theodore Street, as well as, Moreno Beach Drive from Ironwood Avenue to the SR-60 westbound on/off ramp as designated "Truck Routes."

### BACKGROUND

Ironwood Avenue between Moreno Beach Drive and Theodore Street, as well as, Moreno Beach Drive from Ironwood Avenue to the SR-60 westbound on/off ramps are currently designated as "Truck Routes" per the current Municipal Code. These areas are currently zoned RA2 and R1 consistent with the General Plan designations. In response to requests from residents and a local environmental advocacy group, staff reviewed the need of maintaining the "Truck Route" designations for the cited segments.

### DISCUSSION

The area located in the northeastern area of Moreno Valley is predominantly zoned for large lot single family residential units. The currently designated "Truck Routes" within this area include Redlands Boulevard from the City Limits to SR-60, Ironwood Avenue from Moreno Beach Drive to Theodore Street, Moreno Beach Drive from Ironwood Avenue to SR-60, and Theodore Street from Ironwood Avenue to SR-60. The Redlands Boulevard designation is necessary since it is a regional facility designated as a "Truck

Route” by neighboring jurisdictions. The Theodore Street segment is necessary to maintain direct access to the landfill located at the terminus of Theodore Street. However, the remaining segments on Ironwood Avenue and Moreno Beach Drive do not serve a regional or local need. With the Alessandro Boulevard designation as a “Truck Route” serving as a parallel route to the SR-60 freeway, Ironwood Avenue is not needed for this purpose.

The Transportation Engineering Division staff recommends deleting Ironwood Avenue between Moreno Beach Drive and Theodore Street, as well as, Moreno Beach Drive from Ironwood Avenue to the SR-60 westbound on/off ramp as designated “Truck Routes.” Removal of these segments should minimize the potential of trucks traveling through residential areas seeking an alternative route to their destination and will not impact regional continuity of truck routing.

### **ALTERNATIVES**

1. Approve the proposed introduction and the subsequent adoption of the ordinance that would remove Ironwood Avenue between Moreno Beach Drive and Theodore Street, as well as, Moreno Beach Drive from Ironwood Avenue to the SR-60 westbound on/off ramp as designated “Truck Routes.” *This should reduce the likelihood of trucks traveling through residential areas.*
2. Do not approve the proposed introduction and the subsequent adoption of the ordinance that would remove Ironwood Avenue between Moreno Beach Drive and Theodore Street, as well as, Moreno Beach Drive from Ironwood Avenue to the SR-60 westbound on/off ramp as designated “Truck Routes.” *This would retain segments of the arterial system as designated truck routes and potentially increase the likelihood of truck drivers seeking alternate routes to and from their destination through residential areas.*

### **FISCAL IMPACT**

Costs associated with any signing modifications required as part of this action are included in the annual budget of the Transportation Engineering Division for signing and striping maintenance (Account No. 121.55430).

### **CITY COUNCIL GOALS**

Upon approval of this staff report, the following City Council Goals would be furthered:

**PUBLIC SAFETY:** Provide a safe and secure environment for people and property in the community, control the number and severity of fire and hazardous material incidents, and provide protection for citizens who live, work and visit the City of Moreno Valley.

**PUBLIC FACILITIES AND CAPITAL PROJECTS:** Ensure that needed public facilities, roadway improvements, and other infrastructure improvements are constructed and maintained.

**POSITIVE ENVIRONMENT:** Create a positive environment for the development of Moreno Valley's future.

**SUMMARY**

Staff recommends that the City Council introduce and subsequently adopt this ordinance amending Section 12.36.010 of Chapter 12.36 of Title 12 of the Municipal Code to remove Ironwood Avenue between Moreno Beach Drive and Theodore Street, as well as, Moreno Beach Drive from Ironwood Avenue to the SR-60 westbound on/off ramp as designated truck routes.

## Report to City Council

---

**TO:** Mayor and City Council

**FROM:** Chris A. Vogt, P.E., Public Works Director/City Engineer

**AGENDA DATE:** April 26, 2011

**TITLE:** APPROVE THE CITY OF MORENO VALLEY'S FIVE-YEAR MEASURE "A" LOCAL STREETS AND ROADS CAPITAL IMPROVEMENT PLAN (CIP) AND MAINTENANCE OF EFFORT (MOE) CERTIFICATION STATEMENT FOR THE RIVERSIDE COUNTY TRANSPORTATION COMMISSION (RCTC) MEASURE "A" LOCAL FUNDS PROGRAM, FISCAL YEAR (FY) 2012-2016

---

### RECOMMENDED ACTION

Staff recommends that the City Council:

1. Approve the City of Moreno Valley's Five-Year Measure "A" Local Streets and Roads CIP and MOE for the RCTC Measure "A" Local Funds Program, FY 2012-2016.
2. Authorize submittal of the RCTC Measure "A" Local Streets and Roads CIP and MOE for the RCTC Measure "A" Local Funds Program, FY 2012-2016.
3. Authorize staff to submit an amended five-year plan to RCTC if changes are made by City Council to the listed Measure "A" projects as part of the upcoming FY 2011/12 budget approval process.

### BACKGROUND

The Riverside County Transportation Commission Ordinance No. 02-001, as enacted pursuant to the provisions of Division 25 of the Public Utilities Code, specifies that local cities and counties must submit an annual Five-Year CIP to receive Measure "A" funds. RCTC requires local agencies to submit their 2012-2016 Five Year CIP for Measure "A" by May 13, 2011. The program is subject to amendment after review and approval by RCTC.

The City of Moreno Valley has received Measure "A" funds (local sales tax) for expenditures on local streets since November 1989.

## **DISCUSSION**

Measure "A" is a major funding source for transportation infrastructure improvements. The total amount of funding received from FY 1989/90 through FY 2009/10 is \$59.8 million. The City is scheduled to receive \$2,461,000 in Measure "A" revenue by FY 2010/11 year-end and \$2,480,000 in funding for FY 2011/12. The City's Measure "A" Fund Balance also receives revenue from several supplementary sources:

- Interest income
- Federal-aid awards
- State grants
- County/Local grants
- Sale of plans and specs

The total revenue received from these integral funding sources since FY 1989/90 is in excess of \$28 million. Because Measure "A" funds are used to provide required City matching funds for federal, state and county transportation grant awards, the reimbursement from these grants is deposited into the Measure "A" Fund Balance. The sale of plans and specs for projects going out to bid is designated as an additional source of income although this revenue recoups the cost incurred in the printing and publishing of the documents. The income received from these supplemental revenue sources, combined with the annual Measure "A" revenue from RCTC provides the funding to construct multi-million dollar projects.

RCTC requires all local jurisdictions to submit an annual five-year CIP for continued receipt of Measure "A" Local Streets and Roads funds. As required by RCTC, the attached tables include the actual FY 2010/11 Measure "A" budget approved by Council, as well any budget appropriation adjustments during the fiscal year. Additional tables include proposed projects for FY 2011/12 and planned projects for FY 2012/13 through FY 2015/16. The listed projects are consistent with the City's Capital Improvement Program. All identified projects meet the criteria for Measure "A" funding.

The projects are included in the Measure "A" Five-Year CIP to satisfy RCTC Ordinance No. 02-001. Although RCTC requires this information by May 13, 2011, the City Council may make any changes to the list of projects as part of the City's annual budget approval process. City staff can forward the amended Measure "A" project list to RCTC once the City's budget is approved.

RCTC Ordinance No. 02-001 also requires the City to provide an executed MOE Certification Statement indicating that Measure "A" funds will not replace local discretionary funds used for the City's transportation issues, but will be in addition to the City's funds for transportation purposes.

## **ALTERNATIVES**

1. Approve the City of Moreno Valley's Five-Year Measure "A" Local Streets and Roads CIP and MOE for the RCTC Measure "A" Local Funds Program, FY

2012-2016, authorize submittal of the RCTC Measure "A" Local Streets and Roads CIP and MOE for the RCTC Measure "A" Local Funds Program, FY 2012-2016, and authorize staff to submit an amended five-year plan to RCTC if changes are made by City Council to the listed Measure "A" projects as part of the upcoming FY 2011/12 budget approval process. *This alternative supports a major funding source for roadway and other infrastructure improvements.*

2. Do not approve the City of Moreno Valley's Five-Year Measure "A" Local Streets and Roads CIP and MOE for the RCTC Measure "A" Local Funds Program FY 2012-2016, do not authorize submittal of the RCTC Measure "A" Local Streets and Roads CIP and MOE for the RCTC Measure "A" Local Funds Program, FY 2012-2016, and do not authorize staff to submit an amended five-year plan to RCTC if changes are made by City Council to the listed Measure "A" projects as part of the upcoming FY 2011/12 budget approval process. *This alternative eliminates Measure "A" funding.*

### **FISCAL IMPACT**

The timely approval and submittal of the Five-Year CIP by May 13, 2011, ensures continued receipt of Measure "A" funds for FY 2011/12. Measure "A" funds can only be used for transportation purposes.

### **CITY COUNCIL GOALS**

#### **PUBLIC FACILITIES AND CAPITAL PROJECTS:**

Ensure that needed public facilities, roadway improvements, and other infrastructure improvements are constructed and maintained.

### **SUMMARY**

The City of Moreno Valley is required to submit an annual Five-Year CIP for Measure "A" projects and a MOE certification for continued receipt of Measure "A" funds.

								<input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)			

**Project Description:**  
This project replaces the existing SR-60/Nason Street two-lane bridge with a four-lane bridge, completes the Nason Street improvements, installs a soundwall along Elder Avenue, and constructs associated work. Design and right-of-way will be completed by June 2012 with construction anticipated to start in November 2012, contingent upon Caltrans authorization. The project was funded through RDA funds. Successor Agency funds allow continued progress on the project. New requests of \$4.1 million in federal funding (STPL) are possible due to savings from the SR-60/Nason Street Interchange project, which frees up \$3.5 million of Successor Agency funds to be returned to fund balance for the SR-60/Moreno Beach Drive South Side of Interchange (Phase 1) project.  
PS & E: May 2008 to June 2012, Right of Way: May 2008 to April 2012  
Advertise, Bid, and Award: July 2012 to October 2012, Construction: November 2012 to March 2014

**Justification or Significance of Improvement:**  
Expansion of the current facilities is needed due to traffic demand resulting from development in the area. This is a key project in the City Manager's Economic Development Action Plan, in order to stimulate future economic development activity.

CITY OF MORENO VALLEY  
Capital Improvement Plan - Project Details  
FY 2012-2017 and Beyond

<p><b>Project Title:</b> Emergency Vehicle Pre-emption at 117 Traffic Signals</p> <p><b>Department / Division:</b> Public Works Department / Transportation Engineering Division</p> <p><b>Fund . Business Unit.:</b> 417.79129 417.79129</p> <p><b>Project Description:</b> The Transportation Engineering Division successfully applied for Highway Safety Improvement Program (HSIP) funds to retrofit 117 signalized intersections with Emergency Vehicle Pre-emption (EVP) equipment. This equipment allows fire trucks and ambulances to cause traffic signals to turn green for them as they approach, allowing for faster and safer response to incidents. The \$900,000 award has a 10% match requirement.</p> <p>Agreement with State of California: Completed March 2010 Design: Completed October 2011 Contract Award: January 2013 Construction: Complete June 2013</p>	<p><b>Project Status:</b></p> <p><input type="checkbox"/> New <input type="checkbox"/> Deleted</p> <p><input checked="" type="checkbox"/> In Progress <input type="checkbox"/> On Hold</p> <p><input type="checkbox"/> Completed</p>	<p><b>Project Priority in CIP Category</b></p> <p><input checked="" type="checkbox"/> Essential (Start within 1 yr)</p> <p><input type="checkbox"/> Necessary (Start within 1 to 3 yrs)</p> <p><input type="checkbox"/> Desirable (Start within 3 to 5 yrs)</p> <p><input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)</p>

<b>Project Title:</b> Nason Street / Riverside County Regional Medical Center Main Driveway Traffic Signal	<b>Project Status:</b>	<b>Project Priority in CIP Category</b>
<b>Department / Division:</b> Public Works Department / Transportation Engineering Division	<input type="checkbox"/> New <input checked="" type="checkbox"/> In Progress <input type="checkbox"/> Completed	<input checked="" type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<b>Fund . Business Unit :</b> 125.66829 417.79030	<input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	

**Project Description:**  
 This intersection satisfies warrants for signalization and Transportation Engineering Division staff recommends signalization as the most appropriate remedy. Traffic signal interconnect will be provided to the adjacent traffic signal to provide for synchronization along Nason Street. This signal will be designed and constructed as part of the Nason Street / Cactus Avenue to Fir Avenue project. Before project construction can commence, the DIF program must first be updated to include this intersection as a future DIF-funded traffic signal. The DIF program update is currently underway.

Design Complete: June 2013  
 Right of Way Complete: June 2015  
 Construction: October 2015 to January 2017

**Justification or Significance of Improvement:**  
 This intersection improvement is warranted based on traffic volumes.

**Project Description:**  
 The Dog Park is located at the Moreno Valley Equestrian Center. This project will add turf and other amenities associated with dog parks.  
  
 Construction: September 2012 to June 2013.

**Justification or Significance of Improvement:**  
 The Dog Park is fairly new, containing fencing and a place for citizens to exercise their dogs. The site contains the bare essentials of fencing, water and minimal shade. In order to attract more users, the site needs to become more user friendly.

<b>Fund . Business Unit :</b> 461.66229 461.66229		

<b>Project Description:</b> This project will install MUSCO Control Link automated lighting scheduling systems in sports fields throughout Moreno Valley. The MUSCO system tracks electrical usage and life expectancy of the lights, thus enabling the replacement of lights before they go past their useful life and put strain on the ballasts. The automated system includes a change out of the current lamps. Project sites include: Morrison Park, March Field Park, John F. Kennedy Park, Woodland Park, Badger Springs Middle School, and Vista Heights Middle School.  Construction: June - December 2012	<b>Project Location Map:</b>  <div style="text-align: center; font-size: 24px; font-weight: bold;">Citywide</div>
---	---

<b>Justification or Significance of Improvement:</b> Automated lighting systems are a benefit to City of Moreno Valley residents. The previous systems are outdated and often fail, requiring staff to manually turn the lights on and off.	<b>CIP Category</b> <input type="checkbox"/> Street Improvements <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage, Sewers & Waterlines <input type="checkbox"/> Electric Utility <input type="checkbox"/> Landscaping <input checked="" type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities

<p><b>Project Title:</b> MVU-0021 MoVal 115KV Substation WDAT Increase</p> <p><b>Department / Division:</b> Public Works Department / Electric Utility Division</p> <p><b>Fund . Business Unit :</b> 602.New</p> <p><b>Project Description:</b>        This project will consist of a Wholesale Distribution Access Tariff (WDAT) amendment to the MoVal 115 kV Substation load demand limit. The current WDAT contract with Southern California Edison specifies that load shall not exceed 24.4 MW at this location. In 2011, the peak non-coinciden demand was 23.9 MW, the average projected load is expected to exceed 100% in 2012 and increase to 39 MW. Therefore, this will exceed the WDAT contract demand for 2012 and MVU to apply for an increase.</p> <p>Design: May 2012 to August 2012        Bidding/Advertisement: TBD        Construction: TBD</p>	<p><b>Project Status:</b></p> <p><input checked="" type="checkbox"/> New      <input type="checkbox"/> Deleted  <input type="checkbox"/> In Progress      <input type="checkbox"/> On Hold  <input type="checkbox"/> Completed</p>	<p><b>Project Priority in CIP Category</b></p> <p><input checked="" type="checkbox"/> Essential (Start within 1 yr)  <input type="checkbox"/> Necessary (Start within 1 to 3 yrs)  <input type="checkbox"/> Desirable (Start within 3 to 5 yrs)  <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)</p>
<p><b>Justification or Significance of Improvement:</b>        This increase in load demand limit is required to serve new developments and opportunities.</p>	<p><b>Project Location Map:</b></p>  <p><b>CIP Category</b></p> <p><input type="checkbox"/> Street Improvements      <input checked="" type="checkbox"/> Electric Utility      <input type="checkbox"/> Parks  <input type="checkbox"/> Bridges      <input type="checkbox"/> Landscaping      <input type="checkbox"/> Traffic Signals  <input type="checkbox"/> Buildings      <input type="checkbox"/> Drainage, Sewers &amp; Waterlines      <input type="checkbox"/> Underground Utilities</p>

<b>Project Description:</b> This project replaces the existing SR-60/Nason Street two-lane bridge with a four-lane bridge, completes the Nason Street improvements, installs a soundwall along Elder Avenue, and constructs associated work. Design and right-of-way will be completed by June 2012 with construction anticipated to start in November 2012, contingent upon Caltrans authorization. The project was funded through RDA funds. Successor Agency funds allow continued progress on the project. New requests of \$4.1 million in federal funding (STPL) are possible due to savings from the SR-60/Nason Street Interchange project, which frees up \$3.5 million of Successor Agency funds to be returned to fund balance for the SR-60/Moreno Beach Drive South Side of Interchange (Phase 1) project. PS & E: May 2008 to June 2012, Right of Way: May 2008 to April 2012 Advertise, Bid, and Award: July 2012 to October 2012, Construction: November 2012 to March 2014					<b>Project Location Map:</b> 						
<b>Justification or Significance of Improvement:</b> Expansion of the current facilities is needed due to traffic demand resulting from development in the area. This is a key project in the City Manager's Economic Development Action Plan, in order to stimulate future economic development activity.					<b>CIP Category</b> <input type="checkbox"/> Street Improvements <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input checked="" type="checkbox"/> Bridges <input type="checkbox"/> Landscaping <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage, Sewers & Waterlines <input type="checkbox"/> Underground Utilities

<p><b>Project Title:</b> Gilman Springs Road Improvements</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p> <p><b>Fund . Business Unit :</b> 224.New</p> <p><b>Project Description:</b>        This project will provide street improvements that include new pavement, widened shoulders, and centerline / edgeline rumble strips for Gilman Springs Road from Kevin Road to Eucalyptus Avenue. The low Pavement Condition Index (PCI) rating of the existing pavement on Gilman Springs Road has triggered the need for pavement resurfacing. The project also includes the roadway realignment at the intersection of Alessandro Boulevard / Gilman Springs Road to provide a new left turn lane for northbound Gilman Springs Road onto Alessandro Boulevard as well as 500 feet of pavement widening on Alessandro Boulevard. The County of Riverside is going to improve the County owned section of Gilman Springs Road from Kevin Road to 2.3 miles south in Fiscal Year 2013-2014. The City has the opportunity to have the City owned section of Gilman Springs Road designed and constructed by the County at the same time to take advantage of low design and construction costs. The City would reimburse the County for the project's costs.</p> <p>Environmental Clearance: July 2012 to February 2013        Design: September 2012 to June 2013        Advertise / Award Contract: July 2013 to October 2013        Construction: November 2013 to June 2014</p> <p><b>Justification or Significance of Improvement:</b>        The purpose of this project is to improve the street pavement and enhance safety for drivers traveling on this route.</p>	<p><b>Project Status:</b></p> <p><input checked="" type="checkbox"/> New      <input type="checkbox"/> Deleted  <input type="checkbox"/> In Progress      <input type="checkbox"/> On Hold  <input type="checkbox"/> Completed      <input type="checkbox"/></p>	<p><b>Project Priority in CIP Category</b></p> <p><input checked="" type="checkbox"/> Essential (Start within 1 yr)  <input type="checkbox"/> Necessary (Start within 1 to 3 yrs)  <input type="checkbox"/> Desirable (Start within 3 to 5 yrs)  <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)</p>

**Project Description:**  
 This project consists of the ultimate width street improvements along Cactus Avenue between Lasselle Street and Nason Street, and along Nason Street between Cactus Avenue and Iris Avenue. The improvements include construction of street improvements, traffic signals and signal modifications, pavement striping, drainage improvements, and a simple span bridge. Included in the budget below are the following: Eastern Municipal Water District will fund approximately \$3.032 Million, Riverside County Flood Control and Water Conservation District will fund approximately \$565,000, and Moreno Valley Utilities will fund \$913,845. The project was funded through RDA funds.

Advertisement/Award: January to March 2012.  
 Construction: April 2012 to June 2013

**Justification or Significance of Improvement:**  
 According to the City Manager's Economic Development Action Plan presented on 4/26/11, this street upgrade will stimulate economic development activity in the City Center Area by providing a direct link and improving the traffic circulation for the area medical institutions such as Riverside County Regional Medical Center, Kaiser Hospital, Allied Health programs at Moreno Valley College and will further advance the City's planning concept of creating a medical corridor.

<b>Project Title:</b> Nason Street / Cactus Avenue to Fir Avenue	<b>Project Status:</b> <input type="checkbox"/> New <input checked="" type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<b>Project Priority in CIP Category</b> <input checked="" type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<b>Department / Division:</b> Public Works Department / Capital Projects Division		
<b>Fund . Business Unit :</b> 121.85820		

**Project Description:**  
 The project consists of approximately 9,200 linear feet of ultimate width street improvements along Nason Street from Cactus Avenue to Fir Avenue, including related storm drain facilities, upgrading of existing traffic signals, undergrounding of utility lines, and coordination with Eastern Municipal Water District for the relocation of an existing booster station and associated facilities. The current City General Plan Circulation Plan depicts different street classifications for Nason Street for the referenced segment. Consequently, the design scope of work includes revisiting this designation by conducting traffic analysis projections and alignment studies, which will result in the design of the remaining ultimate improvements consistent with good engineering principles, and concurrence from City officials.

Preliminary Engineering and Environmental Clearance Complete: November 2012  
 All Resource Agencies' Permits Obtained: November 2012  
 PS&E Complete: June 2013  
 Right of Way Acquisition and Utility Relocation Work Complete: June 2015  
 Advertise and Award of Construction: October 2015  
 Complete Construction: January 2017

**Justification or Significance of Improvement:**  
 This project is part of the City Council's adopted Economic Development Action Plan. On July 26, 2011, the City Council authorized using California Communities Gas Tax Revenue Certificates of Participation (COPS), Series 2011B (TRIP - Total Road Improvement Program) to fund this project and authorized the addition of the Nason Street Project from Cactus Avenue to Fir Avenue in the FY 2011-12 CIP and the appropriation of up to \$15 million for the project.

---	--	--

**Project Description:**  
 The project consists of the reconfiguration of the two eastbound ramps (on- and off-ramps) to SR-60, the addition of an eastbound auxiliary lane, connection of Eucalyptus Avenue (west leg) to Moreno Beach Drive, addition of a traffic signal at the eastbound ramps/Moreno Beach Drive intersection, associated utility relocations, and related improvements. The improvements are considered Phase 1 of the ultimate interchange improvements (Project No. 415.70024). The funding for FY 2012-13 is anticipated from net savings realized on the Nason Overcrossing project. Design and right-of-way acquisition will be completed by May 2012 with construction anticipated in November 2012, contingent on Caltrans approval to advertise. The project was funded through RDA funds. Successor Agency funds allow continued progress on the project. A new request of \$3.5 million of Successor Agency funds is possible due to a return to fund balance of the same amount from the SR-60/Nason Street Overcrossing Bridge project.

PA&ED / PS&E: Complete May 2012  
 Right of Way: Complete May 2012  
 Advertise, Bid, and Award: June 2012 to October 2012  
 Construction: November 2012 to October 2013

**Justification or Significance of Improvement:**  
 Reconfiguration of the current ramps is needed to complete the connection of Eucalyptus Avenue to Moreno Beach Drive. This is a key project in the City Manager's Economic Development Action Plan, in order to stimulate economic development activity.

**Project Description:**  
 The project's construction will be completed in June 2012. The improvements consisted of new diamond interchange ramps on the south side and modified cloverleaf ramps on the northeast side of the SR-60 / Nason Interchange. Federal funds had been programmed through TEA 21, including CMAQ (already received), STPL discretionary funds, and Demonstration funds. Federal matching funds (STPL Toll Credits and Demo Toll Credits) for local match provided 100% federal funding for construction. As a result of federal funding savings, \$4.1 million are being returned to fund balance for use on the SR-60 Nason Street overcrossing Bridge Project.

Construction: Completed June 2012

**Justification or Significance of Improvement:**  
 The objective of the project was to reduce traffic congestion, enhance access, and improve traffic circulation along Nason Street. This is a key project in the City Manager's Economic Development Action Plan, in order to stimulate economic development activity. This project received federal funds and matching funds for the construction phase.

---	--	--

**Project Description:**  
 This project consists of replacement interchanges, including bridge replacements. Highland Fairview is taking the lead by funding the Project Study Report (PSR) phase and has hired a consultant to prepare the necessary design documents. Caltrans requires all such work to be approved and processed through the City of Moreno Valley prior to submittal to Caltrans for approval. Highland Fairview has provided a funding deposit for City staff to review the PSRs. Due to State budget constraints, Caltrans was unable to spend funds on the PSR phase for FY 11/12, but may have funds for FY 12/13.

**Estimated total costs per interchange:**  
 Redlands Boulevard / SR-60 - \$52,000,000, Theodore Street / SR-60 - \$52,000,000, and Gilman Springs Road / SR-60 - \$70,000,000.

The listed schedule is dependent upon available funding.  
 PSRs: July 2012 to June 2013  
 Preliminary Engineering / Environmental: July 2013 to December 2014  
 Design and Right of Way: January 2015 to December 2016  
 Construction: January 2017 to January 2019

**Justification or Significance of Improvement:**  
 The existing interchanges require modification to meet future traffic demands.

OF THE  
**MARCH JOINT POWERS AUTHORITY**

***MJPA Operations - Consent Calendar***  
***Agenda Item No. 7a (2)***

**Meeting Date:** May 1, 2013

**Action:** **APPROVE FIRST AMENDMENT TO RESTATED AND AMENDED EXECUTIVE DIRECTOR EMPLOYMENT AGREEMENT AND ADOPT AN AMENDED SALARY SCALE**

**Motion:** Move to approve the First Amendment to Restated and Amended Executive Director Employment Agreement, adopt an Amended Salary Scale and authorize the Chairman to execute the First Amendment.

**Background:**

The March Joint Powers Authority Agreement authorizes the Authority to employ staff and personnel. On May 2, 2007, the March JPA retained the Executive Director pursuant to an Employment Agreement. The Executive Director's last merit increase was September 17, 2008. On November 21, 2012, the Commission approved an Amended and Restated Employment Agreement (Agreement) with the Executive Director. In accordance with Section 6 of the Agreement, the Executive Director's performance was evaluated in December 2012. Based on that evaluation, a subsequent merit increase of 3%, retroactive to January 1, 2013, was recommended by a majority of the Commission. This First Amendment and amended Salary Scale reflect these changes.

**Attachments:**

- 1) First Amendment to Restated and Amended Employment Agreement.
- 2) Amended Salary Scale.

**FIRST AMENDMENT  
TO  
RESTATED AND AMENDED  
EXECUTIVE DIRECTOR EMPLOYMENT AGREEMENT**

THIS FIRST AMENDMENT is made and entered into on May 1, 2013, by and between the MARCH JOINT POWERS AUTHORITY (hereinafter "Authority"), a governmental entity created pursuant to Article 1, Chapter 5, Division 7, Title 1 (commencing with Section 6500) of the Government Code, and LORI M. STONE (hereinafter "Employee").

**RECITALS**

WHEREAS, the Authority's Joint Powers Agreement entered into on or about September 7, 1993 authorized Authority to employ such staff and support personnel as may be necessary; and

WHEREAS, Authority previously retained Employee pursuant to an Employment Agreement (hereinafter "Agreement") effective May 2, 2007, as Executive Director of Authority to perform the duties and functions as may be specified by Authority's Joint Powers Agreement and to perform such other legally permissible and proper duties and functions as the Authority from time to time may assign; and

WHEREAS, Authority and Employee amended and restated the Agreement effective November 21, 2012 (hereinafter "Amended and Restated Agreement"); and

WHEREAS, Authority has reviewed Employee's performance in accordance with Section 6 of the Amended and Restated Agreement; and

WHEREAS, Employee desires to continue to serve as Authority's Executive Director, and Authority, pursuant to Section 9 of the Agreement, wishes to adjust Employee's salary and certain other supplemental benefits by amending Section 4 of the Amended and Restated Agreement; and

WHEREAS, except as provided in this First Amendment, all other terms and provisions of the Amended and Restated Agreement remain the same.

NOW, THEREFORE, in consideration for the mutual covenants herein contained, the parties agree to amend Section 4 of the Amended and Restated Agreement as follows:

**AGREEMENT**

REVISED SECTION 4

SECTION 4. SALARY.

Effective January 1, 2013, Authority agrees to pay Employee a yearly salary of Two Hundred Six Thousand Three Hundred Fourteen Dollars (\$206,314) in accordance with Employer's regularly established policies and the terms of the Agreement.

IN WITNESS WHEREOF, Authority and Employee have executed this Amendment to the Agreement on May 1, 2013.

**MARCH JOINT POWERS COMMISSION**  
OF THE  
**MARCH JOINT POWERS AUTHORITY**

***MJPA – Reports, Discussions and Action Items***  
***Agenda Item No. 7c (1)***

**Meeting Date:** May 1, 2013

**Report:** WASHINGTON, DC LEGISLATIVE TRIP

**Motion:** Move to receive and file report or take any other action the Commission deems appropriate.

**Background:**

Annually, the March Joint Powers Authority representatives travel to DC to further the agency's legislative agenda. Following is a list of meetings attended and topics discussed.

**Tuesday, April 16, 2013**

**9:30 AM** **Brigadier General Bruce Prunk**  
**Special Assistant to the Director, Air National Guard**

- Brigadier General Prunk identified:
  - 163d will grow with an additional 18 slots in September or October.
  - There are many competing interests for the RC-26B.
  - 20% - 30% mission reset with the Air National Guard nationwide which is similar in scope to the BRAC but without the attrition.
  - Sequestration is causing an 11.5% cut this FY and an additional 11.5% next FY.
- Advocated for the 163d to receive the MQ9s (Predator).
- Discussed the impact on the 163d if the tower at SCLA closes.

**10:00 AM** **Donald Schregardus (Mr. Leary)**  
**Deputy Assistant Secretary for the Environment, Dept. of the Navy**

- Updated Mr. Leary on the status of the land swap with the Navy.
- President Obama's FY 2014 budget includes \$11,086,000 to construct a new Naval Operations Support Center (NOSC) on March Air Reserve Base.
- Discussed the required GSA screening process for the Navy parcel to expedite transfer to the March Joint Powers Authority.
- Discussed Naval impacts of the Presidential mandate to 'freeze the footprint' of the federal government.
  - Navy is unconcerned with respect to facility space; however warehouse space will become an issue.

**1:00 PM** **Steve Muro**  
**Under Secretary for Memorial Affairs**

- Discussed the need for a secondary access point off of Nandina.

Preparation date: April 26, 2013

Item 7c(1) Page 100.

- Discussed 1/215/Van Buren Interchange and Van Buren widening.
- Mr. Muro will ensure the entrance is programmed into the Phase V development plan for Riverside National Cemetery.
  - Funding for master plan is in the FY 2014 budget and construction funding will be in the FY 2015 or FY 2016 budget.
- VA is getting ready to open 18 new cemeteries.
- VA is exempt from sequestration.

**2:30 PM      Holly Woodruff Lyons**  
**Staff Director (Majority), House Transportation and Infrastructure Aviation Subcommittee**

- Discussed the importance of removing the SCLA tower from the list of FAA closures.
- Gave an overview of the joint use airport at March.
  - Reiterated the need to remain in the Military Airports Program.
- Provided an update on the Joint Land Use Study.

**3:15 PM      Tyler Rushforth**  
**Senate Environment and Public Works Committee**

- Discussed ramifications of the Cactus/Heacock ditches on March Air Reserve Base. Specifically, how MARB can participate in improving the ditches located on base property.
- Discussed the importance of removing the SCLA tower from the list of FAA closures.

**4:00 PM      Congressman Mark Takano**

- Identified the need for a community based outpatient clinic to serve veterans in Riverside County.
- Updated Congressman Takano on the status of the land swap with the Navy.
- President Obama's FY 2014 budget includes \$11,086,000 to construct a new Naval Operations Support Center (NOSC) on March Air Reserve Base.
- Discussed the impact on the 163d if the tower at SCLA closes.
- Discussed ramifications of the Cactus/Heacock ditches on March Air Reserve Base.
- Provided an update on the Joint Land Use Study.
- Discussed the ranking of March with respect to basing the KC-46A.
- Discussed Department of Defense's request for future BRAC rounds.
  - JPA delegation reiterated the desire to grow the mission at March. Discussed March JPA's willingness to be part of "lessons learned" from past BRAC actions.

**Wednesday, April 17, 2013**

**9:00 AM      Dennis Milsten**  
**Associated Executive Director, Office of Programs and Planning, Veterans Health Administration**

- Identified the need for a community based outpatient clinic to serve veterans in Riverside County.
- Mr. Milsten stated strategic planning starts at the local level. Need to talk to Loma Linda.
  - Planners in the network office use national criteria for determining facility locations.
  - There is no central funding for clinics; it is funded locally.

- Next funding cycle starts April 2014.

**11:00 AM Richard Swayze  
Senate Commerce Committee (Majority)**

- Discussed the importance of removing the SCLA tower from the list of FAA closures.
- Provided an update on the Joint Land Use Study.
- Discussed the need to remain in the Military Airports Program.

**1:00 PM General Haddad  
Deputy to Chief, Office of the Air Force Reserve**

- Discussed the basing of the KC-46A at March. He stated Active and Reserve Command associations are complicated because the commands are competing for the same scarce human resources.
- Discussed ramifications of the Cactus/Heacock ditches on March Air Reserve Base. Specifically, how MARB can participate in improving the ditches located on base property.
  - General Haddad indicated Operations and Maintenance funds are being cut due to sequestration.
- The furlough days for 22 Technicians may be reduced to 14 days.

**2:00 PM Congressman Ken Calvert**

- Discussed Department of Defense's request for future BRAC rounds.
  - JPA delegation reiterated the desire to grow the mission at March. Discussed March JPA's willingness to be part of "lessons learned" from past BRAC actions.
- Discussed importance of Perris Valley Line and the \$75M from the Department of Transportation that is at risk should the judge's ruling be unfavorable to the project.
  - March JPA delegation will work with Congressman Takano's office to generate bipartisan support for the project.
- Congressman Calvert stated is the potential for four additional C-17s to be based at March.
- Discussed the importance of removing the SCLA tower from the list of FAA closures.
- Updated Congressman Calvert on the status of the land swap with the Navy.
  - Discussed the importance of maintaining the \$11M identified in the budget for the NOSC.
- Requested the scoring sheet for basing the KC-46A at March. Specifically questioned why the March ranked in the bottom third.
- Discussed the need to allocate MQ9s to replace MQ1s for the 163d.
- Provided an update on the Joint Land Use Study.

**4:00 PM Timothy Bridges  
Deputy Assistant Secretary of the Air Force for Installations, Environment  
and Logistics, Department of the Air Force**

- Discussed ramifications of the Cactus/Heacock ditches on March Air Reserve Base. Specifically, how MARB can participate in improving the ditches located on base property.
- Inquired about the status of the Joint Use Agreement.
- Discussed Demand Receiver Model for basing KC-46As at March.

- MARB scored low on air quality, encroachment, runway landing weight, ramp space and proximity to refueling tracks used in the most recent war.
- Mr. Bridges identified that there is no plan to phase out MQ1s.
- Discussed the importance of removing the SCLA tower from the list of FAA closures.
- Provided an update on the Joint Land Use Study.

**Thursday April 18, 2013**

**9:00 AM Ben DeLeon**

**Director, Airport Planning and Programming, FAA, Military Airports Program**

- Informed the FAA that March Inland Port Airport is no longer prior permission required to land. It is truly open to the public.
  - MARB Airport Operations is not concerned about joint use.
- Discussed the growth of Riverside County. Specifically discussed the growth in and around the former MARB.
- Discussed the efforts to attract general aviation.
- Discussed the desire to remain in the Military Airports Program.
  - Identified future construction plans, if reinstated in MAP.
- Discussed the importance of removing the SCLA tower from the list of FAA closures.
- Provided an update on the Joint Land Use Study.

**10:30 AM Rich Harper (Senator Dianne Feinstein)**

- Discussed the importance of removing the SCLA tower from the list of FAA closures.
- Updated Mr. Harper on the status of the land swap with the Navy.
  - Discussed the importance of maintaining the \$11M identified in the budget for the NOSC.
- Discussed the need to allocate MQ9s to replace MQ1s for the 163d.
- Provided an update on the Joint Land Use Study.
- Discussed Department of Defense's request for future BRAC rounds.
  - JPA delegation reiterated the desire to grow the mission at March. Discussed March JPA's willingness to be part of "lessons learned" from past BRAC actions.

**Since the trip the following has occurred:**

- JPA received the draft Amended Joint Use Agreement from the Air Force. There are remaining questions regarding the Air Force's changes and staff will submit the questions to the Air Force and have a conference call with the Air Force to seek resolution.
- JPA received an inquiry from the Base regarding the Heacock channel and discussions at the Pentagon.

**The JPA further discussed the following issues with the Air Force and was informed the following issues are currently being worked:**

- The KC-46A ranking and methodology.
- Heacock Channel funding.
- MQI (Predator) status.
- FAA tower closure issue (SCLA).
- Aircraft for March Field Museum.

**Attachment:** None.

Absent: None  
Abstain: None

**8. Matters Subsequent to Posting Agenda**

*Approval of Agenda Additions or Corrections, as Necessary.*

None.

**9. Public Comments**

*Any person may address the Commission on any subject pertaining to the March Joint Powers Authority, March Inland Port Airport Authority, the Successor Agency to the March Joint Powers Redevelopment Agency, and March Joint Powers Utilities Authority business not listed on the Agenda during this portion of the Meeting. A limit of three (3) minutes shall be set for each person desiring to address the Commission. The JPC may not act on these matters except to refer the matters to staff or schedule the matters for a future agenda.*

None.

**10. Consent Calendars**

**a. MJPA - Operations**

- 1) Report: Financial Status Report
- 2) Report: Update on JPC Actions, Legislation, Property Transfers and Staff Activities
- 3) Report: Update on Planning Activities
- 4) Report: Technical Advisory Committee Meeting - Cancelled (December 3, 2012)
- 5) Action: Approve the Annual Audit for FY 2011/2012 for the March Joint Powers Authority and the March Inland Port Airport Authority
- 6) Action: Approve a Grant of Easement to Southern California Edison
- 7) Action: Approve an Agreement between the County of Riverside and the March Joint Powers Authority for Van Buren Boulevard/I-215 Interchange Improvements
- 8) Action: Approve an Amendment to the Contract Services with Bemus Landscape, Inc.

A motion was made approving MJPA Consent Calendar Items 10a (1-8) inclusive.

Motion: Melendrez  
Second: Stewart  
Ayes: Stewart, Buster, Melendrez, Co, Yarbrough, Ashley, Busch, Gardner  
Noes: None  
Absent: None  
Abstain: None

**11. Reports, Discussions and Action Items – MJPA**

**a. Report: March Joint Powers Authority (JPA) Year in Review**

Executive Director, Lori Stone presented the year end review. All necessary steps were taken during the confidential real estate negotiations to bring UCR into the Intellicenter building.

This will be a good use of the Metrolink site directly next door. Staff facilitated the Kaiser purchase of the office building across the street from UCR.

A major issue was resolved between Southern California Edison (SCE), LNR and Sysco regarding the above ground power poles. The Meridian Specific Plan only allows underground power poles. Above ground power poles were installed to expedite the Fresh & Easy project. SCE not wanting to remove the above ground power poles agreed to removal of the poles as part of the Sysco project.

Fresh & Easy announced its withdrawal from the United States. Fresh & Easy is the largest employer in Meridian, employing about 1,700 in the Business Park alone and is the largest taxpayer in the JPA area.

Chairman Gardner asked for the tax split between the buildings and the contents. Ms. Stone stated she did not currently have the requested information available but can provide the data as the tax billing is itemized.

She went on to report after several years, the Stephens' Kangaroo Rat (SKR) issue on the West Campus is resolved which will allow development of other areas that were held up due to the litigation. The JPA is required to construct a Least Bell's Vireo habitat and the conservation easement is near completion. Upon completion of the conservation easement, this will allow improvements to Van Buren Boulevard and also allow development of lots in Meridian's South Campus. The JPA prevailed on the Cy Pres Motion with the judge ruling the endowment in excess of the \$1.5 million going to Department of Fish and Game will go to the JPA for maintaining the habitat.

Ms. Stone stated using grant funding, the JPA demolished six structures on the Northeast Corner making way for the March LifeCare Campus, which reduces the JPA's participation investment in the March HealthCare infrastructure on a dollar for dollar Basis.

The JPA was successful in negotiating an amendment to the March HealthCare Disposition and Development Agreement (DDA) resulting in a \$400,000 payment to the JPA in June 2012, and an additional \$412,000 in June 2013, if the developer does not close any land deals.

She stated AMRO Fabricating is up and running at March Inland Port (MIP). AMRO currently has 58 employees and anticipates 126 when fully staffed. In January, AMRO is scheduling a facility tour and the actual loading operation of the plane and the JPC will be invited.

The former Philips building's zoning was approved this year. When the building was constructed the property was under lease from the Air Force so zoning was not applied.

The MIP received FAA grant funding for the Airport Layout Plan (ALP). This year the airport officially opened to the public. Pilots no longer need prior permission for requesting a landing permit, pilots now communicate directly with the tower via radio five miles out.

The Airport Director created and launched the MIP website earlier this year. MIP was approved for the Military Airports Program (MAP) for two years which assists with the general aviation facility construction. The MAP program allows the airport to construct facilities other than infrastructure. The Airport Improvement Plan (AIP) funding allows building of the flat work and the MAP allows building of hangars, fencing and security enhancements. Also, a

FAA grant for approximately \$1.2 million was received for continuing the design of the general aviation facility.

She stated to date MIP has had 29 General Aviation (GA) operations, including three life flights giving three children another chance at life.

The JPA successfully defended the \$20 million bond funding for the Van Buren Interchange improvement project with the State of California and construction has commenced.

The Economic Development Agency (EDA) approved re-allocating grant funds from the Arnold Heights Demolition to the Van Buren Boulevard widening improvements. Staff is working with the County on this project.

After eight years an MOU for the Heacock Channel is near completion. The JPA, Riverside County Flood Control (RCFC) and City of Moreno Valley (MoVal) are moving forward without March Air Reserve Base, at this time, for the design and environmental.

Atty. Brown asked what the depth of the Channel is. Ms. Stone stated the depth varies throughout the Channel. Planning Director, Dan Fairbanks stated north of Meyer Drive the Channel is probably 12-14 feet deep.

In 2012 the March JPA complied with all state requirements dissolving the RDA. The JPA was the first in the state to submit a ROPS. The Low/Mod Agreed-Upon Procedures was completed with \$950,000 rejected from the state resulting in a payment of \$340,000 to the taxing entities. JPA staff requested a Meet & Confer with the State of California Department of Finance which took place on December 18<sup>th</sup>. Staff feels the meeting went well but the understanding is the state will reject the request for reconsideration. Legal Counsel, John Brown stated all adopted legislation specifies Sacramento for the venue of all suits being filed. Primarily the same judge is reviewing all lawsuits. Of the 29 lawsuits 26 were dismissed summarily and two cases were settled with discussions ongoing in the third.

Ms. Stone explained the Low/Mod Agreed-Upon Procedures (AUP) means the JPA has reserve funds in the Low/Mod account. The funds were held for the relocation of US Vets and Path of Life Ministries, making way for the March LifeCare Campus. In the initial six months JPA staff was apprehensive of spending any funds. She stated because the process is so unclear, the JPA did not know to list the funds on ROPS III, so the State views the money as available and instructed the JPA to split the money amongst the JPA taxing entities. The JPA considers this as a clerical error and is trying to explain the issue. The AUP is what brought this up and the JPA's accounting firm recommended amending the ROPS III. The ROPS III was amended, the JPC adopted it, the Successor Agency Oversight Board approved it and the ROPS III was submitted to DOF. The DOF rejected the Amended ROPS III because of it being submitted past the due date.

She stated the JPA established an Oversight Board (OSB) and was the first in the State to hold an OSB meeting. The addition of the OSB added one to two packets, reports and meetings per month for staff.

In regards to the Department of Finance (DOF) Review – The JPA successfully defended the Van Buren Interchange project funding, successfully defended the \$3.5 million repayment to the

general fund, but was denied \$390,000 in grant matches and is continuing to defend the AUP issue.

Staff implemented an incentive program in Green Acres, providing either a month or two-weeks free rent to gain additional interest in the available homes for rent. JPA advertises in rental magazines along with signage (banners) placed in various locations. The signage is receiving the best response. GA had a 10% vacancy rate in December 2011, 13% in July 2012, and currently is down to 5% in December. She stated capital improvements made in Green Acres this year included replacing all 91 garage doors. Green Acres is considered historic property and has to comply with the historic nature of the buildings requiring approval for any major exterior project.

The General Old Clubhouse renovation was complete in early June and the management agreement with Donovan Bros. was extended and revised to include participation with the repayment of the renovation loan. This will result in \$450,000 savings over the life of the loan for the JPA. Unfortunately last year Western MWD found an in-house billing error which resulted in a large water payment. The JPA paid the billing error invoice from money taken out of reserves and will be paid back through the golf course. All of this is reflected on the books. Also, diminishing revenue caused by the remodel, the economy and the extended heat wave during the summer has caused the JPA to advance funds for debt service on the loan. Revenue from the golf course has severely diminished since June.

She stated the Foreign Trade Zone (FTZ) is still doing whatever possible to help boost the western Riverside county economy. Skechers Subzone and Flexsteel Zone activations were completed. Corona, Moreno Valley and Riverside have interested parties.

The JPA adopted a three-year budget. In March, the JPA employees were converted to paying their own PERS portion. The long standing Hill v. MJPA litigation was resolved. The JPC adopted an updated Development Code which cleaned up the code language and eliminated the Planning Commission, which will speed up the development process at the JPA. She stated the JPA renewed contracts with the engineering contractor and the building and safety contractor. The Navy and March ARB agreed on a site within the cantonment area. The Navy has military construction funding to 2014 for an expected move of 2015/16. Last week staff from JPA and Navy toured the proposed site.

She reported the JPA participates in and is involved in many community outreach programs. Staff attends events and serves on committees at the base and at the member jurisdictions' Chambers, along with sponsoring and/or donating to various events. This year's Holiday Harvest had a tremendous turnout for the Thanksgiving dinner provided to the March homeless assistance participants. The Christmas for Kids gifts will be delivered immediately following the meeting to the March shelter children.

She stated looking ahead to 2013 staff will assist with the Fresh & Easy transition, fill up vacant buildings and push to accelerate development. The interest in Meridian has picked up. JPA will look at the regional park and Barton Road extension now that the SKR issue is resolved. The Barton Road project will be a City of Riverside project but the JPA will support the City in any way it can.

Member Stewart stated the JPA may have a good possible tenant for the Fresh & Easy building and operation. This particular company is in the process of negotiations to take over some of

the retail stores along with the food facilities. Ms. Stone stated Fresh & Easy has state-of-the-art facilities and most grocery stores do not process their own food such as the meat campus. It will be interesting to see what can be done but there is a very viable grocer that is considering coming to the area.

Member Stewart also reported Wal-Mart decided over a year ago to go into the same market as Fresh & Easy.

Ms. Stone stated there is a lot of activity at the airport and staff will keep the projects moving forward, increase marketing efforts and try to quickly resolve the March Globalport litigation.

The JPA will focus on March LifeCare and assist however possible to accelerate the development.

She stated the JPA is still seeking legislation for Military Base Reuse funding. The JPA does not have the necessary tools to reuse the existing property because the infrastructure is antiquated or non-existent. JPA will work on amending the Municipal Services Agreement with the County to recapture additional funds caused by the RDA dissolution.

**12. Consent Calendar – MJPUA – Operations**

- a. Report: Financial Status Report
- b. Action: Approve the Annual Audit for FY 2011/2012 for the March Joint Powers Utility Authority

A motion was made approving March JPUA Consent Calendar Items 12 a & b, inclusive.

Motion: Stewart  
Second: Melendrez  
Ayes: Stewart, Melendrez, Co, Yarbrough, Busch, Gardner  
Noes: None  
Absent: None  
Abstain: Ashley, Buster

**13. Commission Members Oral Reports/Announcements**

Member Stewart announced Harbor Freight's expansion. He reported located at Cactus and Graham, Harbor Freight will expand into the vacant building next to them, expanding their presence and adding jobs. Harbor Freight will relocate their truck parking to Joy Street by blocking off the street. After completion of the expansion, Harbor Freight will exceed 2 million square feet which will exceed Skechers.

He stated a window manufacturer is closing escrow on the vacant building at Elsworth and Cactus. The manufacturer will produce and retail sale special windows, adding 125 jobs. The company expects to add an additional shift creating up to 100 additional jobs.

The City of Moreno Valley and March ARB resolved the Cactus widening issue so the project can move forward.

All Members wished everyone a happy holiday season.

# MID COUNTY PARKWAY PROJECT

## PUBLIC NOTICE

Notice of Availability of a Recirculated Draft Environmental Impact Report/Supplemental Draft Environmental Impact Statement and  
Notice of a Public Hearing

CITY COUNCIL  
MORENO VALLEY  
RECEIVED

13 JAN 21 PM 2: 12

### WHAT IS BEING PLANNED?

The Riverside County Transportation Commission (RCTC), the Federal Highway Administration (FHWA), and the California Department of Transportation (Caltrans) are proposing a project to improve west-east transportation in western Riverside County between Interstate 215 (I-215) in the west and State Route 79 (SR-79) in the east. RCTC is the lead agency under the California Environmental Quality Act (CEQA) and FHWA is the Lead Agency under the National Environmental Policy Act (NEPA), in cooperation with Caltrans. The Mid County Parkway (MCP) project is a proposed 16-mile transportation corridor designed to relieve local and regional traffic congestion between the cities of Perris and San Jacinto and surrounding Riverside County communities. The corridor was identified as part of the Riverside County Integrated Project, a region wide planning effort to ensure mobility and protect the environment and quality of life as the area continues to grow. The project alternatives consist of three Build Alternatives (4 Modified, 5 Modified, and 9 Modified) and two No Build Alternatives (1A and 1B).

### WHY THIS NOTICE?

The Recirculated Draft Environmental Impact Report/Supplemental Draft Environmental Impact Statement (RDEIR/SDEIS), that was prepared pursuant to Federal and State environmental laws, examines the potential environmental impacts of the alternatives being considered for the proposed MCP project. The document describes why the project is being proposed, the project alternatives, the existing environment that could be affected by the project, the potential environmental impacts of each of the proposed alternatives, and the proposed avoidance, minimization and/or mitigation measures. Potential benefits from future implementation include increased accessibility for residents and businesses and relieving traffic congestion on the regional and local transportation network. Key issues include impacts to community character and cohesion, land use, farmlands, growth-related effects, biological resources, aquatic resources, cultural resources, aesthetics, park lands, open space, residential relocations, business relocations, traffic, noise, air quality, climate change, and temporary construction effects. The proposed work involves sites on a list enumerated under Section 65962.5 of the Government Code to hazardous wastes. One or more of the alternatives being evaluated will have an effect on the historic properties eligible for the National Register of Historic Places. The United States Army Corps of Engineers is a Cooperating Agency under NEPA and intends to use the MCP EIS as the supporting documentation for its future Section 404 permitting action.

The RCTC is hosting a public hearing to provide the community with information about the RDEIR/SDEIS. The public hearing will be held on February 20, 2013, at Lakeside Middle School located at 27720 Walnut Street, Perris, CA 92571. At this open house style meeting, you may attend anytime between 5 p.m. and 8 p.m. There will be no formal presentation at this meeting, however the public is invited to make oral comments to a court reporter or talk with staff about the project. Written comments will be accepted at the meeting and through the public comment period ending March 11, 2013.

### WHAT IS AVAILABLE?

The RDEIR/SDEIS and technical studies are available for viewing at the following locations during regular business hours: 1) RCTC, 4080 Lemon Street 3rd Floor, Riverside, CA 92501; 2) FHWA, 650 Capitol Mall, Suite 4-100, Sacramento, CA 95814; 3) Caltrans District 8 Office, 464 W. 4th Street, San Bernardino, CA 92401; 4) Perris Public Library, 163 E. San Jacinto Avenue, Perris, CA 92507; 5) San Jacinto Public Library, 500 Idyllwild Drive, San Jacinto, CA 92583; and 6) Moreno Valley Public Library, 25480 Alessandro Boulevard, Moreno Valley, CA 92553. You may also view and comment on the RDEIR/SDEIS at [www.midcountyparkway.org](http://www.midcountyparkway.org).

### WHERE YOU COME IN

The RDEIR/SDEIS is available for public review and comment between January 25, 2013 and March 11, 2013. The purpose of the public review and comment period is to give interested parties the opportunity to provide their input on the proposed project and the environmental analysis for the project. Public and agency comments previously submitted for the October 2008 Draft EIR/EIS will be included in the MCP Administrative Record, but no formal responses will be prepared. Any comments received during the public review period of the RDEIR/SDEIS will be formally responded to in the Final EIR/EIS. Comments may be submitted in person at the public hearing, online at [www.midcountyparkway.org](http://www.midcountyparkway.org), or mailed to: Ms. Cathy Bechtel, RCTC, P.O. Box 12008, Riverside, CA 92502. All comments must be received no later than 5 PM on March 11, 2013.

### CONTACT/SPECIAL ACCOMMODATIONS

For individuals who require special accommodations (American Sign Language or other lingual interpreter, documentation in alternate formats, etc.), please call (951) 787-7141 or write to: Ms. Cathy Bechtel, RCTC, P.O. Box 12008, Riverside, CA 92502, before March 11, 2013.

The document describes why the project is being proposed, the project alternatives, the existing environment that could be affected by the project, the potential environmental impacts of each of the proposed alternatives, and the proposed avoidance, minimization and/or mitigation measures. Potential benefits from future implementation include increased accessibility for residents and businesses and relieving traffic congestion on the regional and local transportation network. Key issues include impacts to community character and cohesion, land use, farmlands, growth-related effects, biological resources, aquatic resources, cultural resources, aesthetics, park lands, open space, residential relocations, business relocations, traffic, noise, air quality, climate change, and temporary construction effects. The proposed work involves sites on a list enumerated under Section 65962.5 of the Government Code to hazardous wastes. One or more of the alternatives being evaluated will have an effect on the historic properties eligible for the National Register of Historic Places. The United States Army Corps of Engineers is a Cooperating Agency under NEPA and intends to use the MCP EIS as the supporting documentation for its future Section 404 permitting action.

This notice is to advise the public that the review and comment period for the RDEIR/SDEIS has been extended 30 days to April 10, 2013. In addition, the project technical studies have been posted on the project website.

### WHAT IS AVAILABLE?

The RDEIR/SDEIS and technical studies are available for viewing at the following locations during regular business hours: 1) RCTC, 4080 Lemon Street 3rd Floor, Riverside, CA 92501; 2) FHWA, 650 Capitol Mall, Suite 4-100, Sacramento, CA 95814; 3) Caltrans District 8 Office, 464 W. 4th Street, San Bernardino, CA 92401; 4) Perris Public Library, 163 E. San Jacinto Avenue, Perris, CA 92507; 5) San Jacinto Public Library, 500 Idyllwild Drive, San Jacinto, CA 92583; and 6) Moreno Valley Public Library, 25480 Alessandro Boulevard, Moreno Valley, CA 92553. You may also view the RDEIR/SDEIS and technical studies at [www.midcountyparkway.org](http://www.midcountyparkway.org).

### WHERE YOU COME IN

The RDEIR/SDEIS is available for public review and comment between January 25, 2013 and April 10, 2013. The purpose of the public review and comment period is to give interested parties the opportunity to provide their input on the proposed project and the environmental analysis for the project. Public and agency comments previously submitted for the October 2008 Draft EIR/EIS will be included in the MCP Administrative Record, but no formal responses will be prepared. Any comments received during the public review period of the RDEIR/SDEIS will be formally responded to in the Final EIR/EIS. Comments may be submitted online at [www.midcountyparkway.org](http://www.midcountyparkway.org), or mailed to: Ms. Cathy Bechtel, RCTC, P.O. Box 12008, Riverside, CA 92502. All comments must be received no later than 5 PM on April 10, 2013.

### CONTACT/SPECIAL ACCOMMODATIONS

For individuals who require special accommodations (documentation in alternate formats, etc.), please call (951) 787-7141 or write to: Ms. Cathy Bechtel, RCTC, P.O. Box 12008, Riverside, CA 92502, before April 10, 2013.

# Q&A

# MID COUNTY PARKWAY

13 JAN 31 PM 4: 18

## WHAT IS THE MID COUNTY PARKWAY PROJECT?

The Mid County Parkway project is a proposed 16-mile transportation corridor designed to relieve local and regional traffic congestion between the cities of San Jacinto and Perris and surrounding Riverside County communities. The corridor was identified as part of the Riverside County Integrated Project (RCIP), a regionwide planning effort to ensure mobility and protect the environment and quality of life as our area continues to grow.

## WHY IS THE MID COUNTY PARKWAY NEEDED?

In western Riverside County, another east-west transportation link such as the Mid County Parkway is essential to reduce congestion and maintain and enhance the quality of life. The Mid County Parkway will provide logical connections with north-south corridors including the SR-79 and the I-215. It will also provide more convenient access to multimodal bus and rail facilities in the city of Perris, including the new Perris Valley Line, Metrolink service that will connect Perris to Riverside.

Without the Mid County Parkway, travel times from SR-79 to I-215 are expected to be more than 44 minutes in 2040. With the Mid County Parkway, those travel times will be 15 minutes.

## WHAT'S NEXT FOR THE MID COUNTY PARKWAY PROJECT?

The studies for the Mid County Parkway are now complete. The Recirculated Draft Environmental Impact Report/Supplemental Draft Environmental Impact Statement (Recirculated Draft EIR/Supplemental Draft EIS) describes alternatives for the project, the impacts from each of the alternatives, and the proposed avoidance, minimization and/or mitigation measures for these impacts. During the public circulation of the environmental document, the studies are available on-line at [www.midcountyparkway.org](http://www.midcountyparkway.org) and at a number of public libraries and government offices (see page 4).

## PUBLIC HEARING:

An open house style public hearing on the Recirculated Draft EIR/Supplemental Draft EIS is scheduled for February 20, 2013. There will be no formal presentation at this meeting, however, the public is invited to make oral comments to a court reporter. Written comments will be accepted at the meeting and throughout the public comment period ending on March 11, 2013.

**February 20, 2013, 5:00 - 8:00 p.m.**  
Lakeside Middle School  
27720 Walnut Street, Perris, CA 92571

After comments are received from the public and the participating agencies, FHWA, Caltrans, and RCTC will prepare a Final EIR/EIS. The Final EIR/EIS will include responses to the comments received on the Recirculated Draft EIR/Supplemental Draft EIS.

# ALTERNATIVES UNDER CONSIDERATION

Environmental evaluation of projects like the Mid County Parkway requires the development of alternative approaches to the design and construction of the project. These different scenarios for building a project are then studied and compared, their environmental effects are documented, and solutions to any impacts are specified. Project alternatives must also include an evaluation of the effects of not building the project at all, called a "No Build" alternative.

The alternatives for building the project all propose a divided highway with on and off ramps and three lanes in each direction. There are also freeway-to-freeway type interchanges at I-215 and at SR-79. The I-215 will also be improved in the area to avoid congestion as a result of the new connection.

All of the alternatives share a common alignment from Evans Road to SR-79, identified in green on the map above. In areas where the alignment is located on the Ramona Expressway, the Ramona Expressway is replaced by the Mid County Parkway. All of the alternatives also include two design variations: the *San Jacinto River Bridge Design Variation* and *San Jacinto North Design Variation*.

Under the *San Jacinto Bridge Design Variation*, a different bridge configuration is considered at the San Jacinto River in the Lakeview-Nuevo area. Under the *San Jacinto North Design Variation*, the route diverges from the proposed alignment near Warren Road and proceeds east approximately 1,000 feet north of the existing Ramona Expressway.

The differences in the alternatives are shown on the map in orange above and are described further below:

**Alternative 4 Modified: North Perris (Drain)** is approximately 16.3 miles long and follows a northern alignment through the city of Perris adjacent to the Perris Drain with an approximately 1.8-mile bridge along the Perris Valley Storm Drain.

**Alternative 5 Modified: South Perris (Rider Street)** is approximately 15.2 miles long and follows a central alignment through the city of Perris along Rider Street.

**Alternative 9 Modified: Placentia Avenue** is approximately 14.3 miles long and follows a southerly alignment through the city of Perris along/near Placentia Avenue and includes a depressed section approximately 1 mile long between Barrett Avenue and Wilson Avenue.

## MODIFICATIONS TO THE MID COUNTY PARKWAY PROJECT

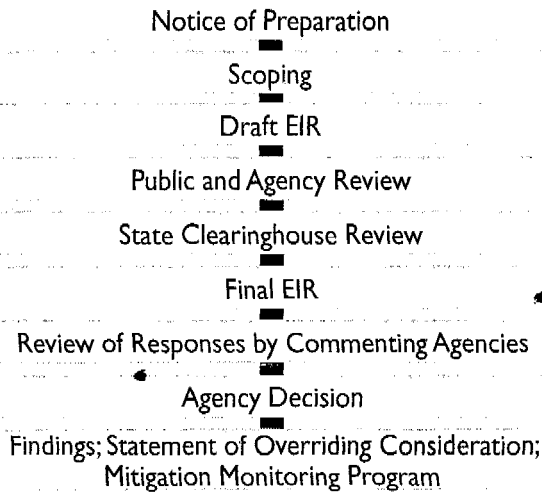

In October 2008, a Draft EIR/EIS was released evaluating the alternatives for the Mid County Parkway, originally proposed as a 32-mile corridor stretching from San Jacinto through Perris to Corona. Public information open houses and public hearings were held in October and November 2008 to collect comments on the Draft EIR/EIS. Public comments submitted on the Draft EIR/EIS raised environmental and community concerns regarding the portion of the project between I-15 and I-215.

These comments helped focus the project to make the best use of limited transportation dollars while addressing the most immediate traffic needs. In response to the comments, RCTC took action on July 8, 2009 to reduce the length of the project and focus improvements between I-215 and SR-79. The *Mid County Parkway project* is now a proposed 16-mile transportation corridor intended to relieve local and regional traffic congestion in the San Jacinto and Perris areas and surrounding Riverside County communities.

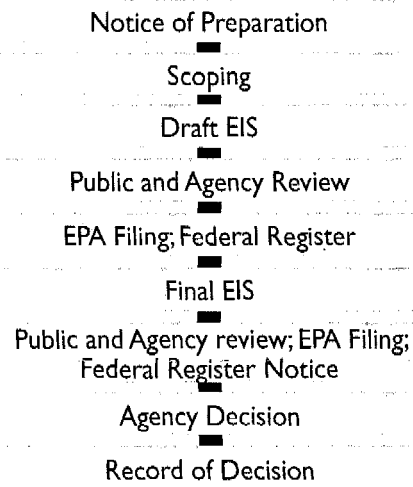

# WHAT IS THE ENVIRONMENTAL PROCESS?

The California Environmental Quality Act (CEQA) and the National Environmental Policy Act (NEPA) require agencies to prepare environmental assessments of proposed projects with significant environmental effects and to circulate these documents to other agencies and the public before making decisions. The steps for each process are shown in the charts below.

## CEQA—ENVIRONMENTAL IMPACT REPORT

## NEPA—ENVIRONMENTAL IMPACT STATEMENT

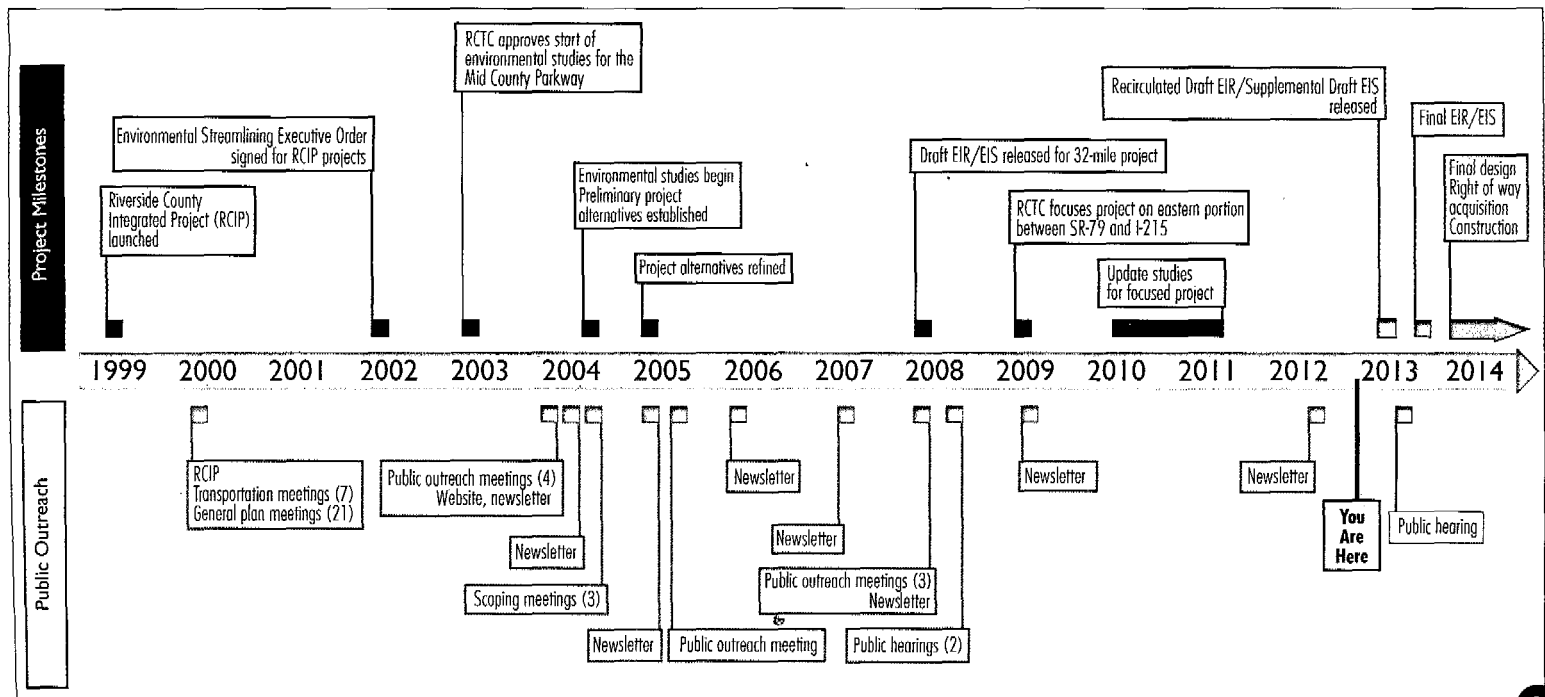

## DEFINITION OF A PARKWAY:

A parkway is a divided highway with on and off ramps. The "facility" is designed to freeway/expressway standards as defined in Caltrans Highway Design Manual (HDM).

The photo at right shows an example of what the parkway may look like. The number of lanes for the Mid County Parkway would be three in each direction, and includes a wide open median.

## WHAT IS THE HISTORY OF THE MID COUNTY PARKWAY PROJECT?

# Q&A

# MID COUNTY PARKWAY

13 JAN 31 PM 4: 18

## WHAT IS THE MID COUNTY PARKWAY PROJECT?

The Mid County Parkway project is a proposed 16-mile transportation corridor designed to relieve local and regional traffic congestion between the cities of San Jacinto and Perris and surrounding Riverside County communities. The corridor was identified as part of the Riverside County Integrated Project (RCIP), a regionwide planning effort to ensure mobility and protect the environment and quality of life as our area continues to grow.

## WHY IS THE MID COUNTY PARKWAY NEEDED?

In western Riverside County, another east-west transportation link such as the Mid County Parkway is essential to reduce congestion and maintain and enhance the quality of life. The Mid County Parkway will provide logical connections with north-south corridors including the SR-79 and the I-215. It will also provide more convenient access to multimodal bus and rail facilities in the city of Perris, including the new Perris Valley Line, Metrolink service that will connect Perris to Riverside.

Without the Mid County Parkway, travel times from SR-79 to I-215 are expected to be more than 44 minutes in 2040. With the Mid County Parkway, those travel times will be 15 minutes.

## WHAT'S NEXT FOR THE MID COUNTY PARKWAY PROJECT?

The studies for the Mid County Parkway are now complete. The Recirculated Draft Environmental Impact Report/Supplemental Draft Environmental Impact Statement (Recirculated Draft EIR/Supplemental Draft EIS) describes alternatives for the project, the impacts from each of the alternatives, and the proposed avoidance, minimization and/or mitigation measures for these impacts. During the public circulation of the environmental document, the studies are available on-line at [www.midcountyparkway.org](http://www.midcountyparkway.org) and at a number of public libraries and government offices (see page 4).

Subj: **January 28, 2013 Central Zone 5-Year Transportation Improvement Program  
Administrative Amendment**

13 JAN 31 PM 4: 44  
CITY COUNCIL  
MORENO VALLEY  
RECEIVED

Attached please find the January 28, 2013 Central Zone 5-Year Transportation Improvement Program (TIP) Administrative Amendment to the February 2012 adopted TIP that was approved in accordance with the Western Riverside Council of Governments (WRCOG) Executive Committee action, authorizing the WRCOG Executive Director to approve administrative amendments to the Zone TIPs.

This January 28, 2013 Central Zone 5-Year TIP Amendment is effective immediately. The next full 5-Year TIP review and adjustment process is scheduled to commence in September 2013, and be considered by the WRCOG Executive Committee no later than February 3, 2014.

If you have any questions regarding these amendments, please contact Ruthanne Taylor Berger at (951) 955-8304 or by e-mail at [berger@wrcog.cog.ca.us](mailto:berger@wrcog.cog.ca.us) or Donna Dean at (951) 955-8309 or by e-mail [dean@wrcog.cog.ca.us](mailto:dean@wrcog.cog.ca.us).

Solid Waste Technical Committee**	Bi-Monthly 3 <sup>rd</sup> Mon.	1:00 p.m.	-	27	-	15	-	18	-	20	-	15	-	17
Western Riverside County Clean Cities Coalition	Bi-Monthly 3 <sup>rd</sup> Wed.	1:00 p.m.	-	20	-	17	-	19	-	21	-	16	-	18

\*September 2013 Executive Committee meeting scheduled for 2<sup>nd</sup> Monday (September 9<sup>th</sup>) due to Labor Day.

\*\*February 2013 Solid Waste Technical Committee meeting scheduled for the 4<sup>th</sup> Monday (February 27<sup>th</sup>) due to Presidents Day.

- Executive Committee meetings are held in the Riverside County Administrative Center, 1<sup>st</sup> floor Board Chambers.
- Administration & Finance Committee meetings are held in the Riverside County Administrative Center, 4<sup>th</sup> floor, Conference Room A.
- Technical Advisory Committee meetings are held in the Riverside County Administrative Center, 5<sup>th</sup> floor, Conference Room C.
- Planning Director's Technical Advisory Committee meetings are held at various City Halls throughout the WRCOG region.
- Public Works Committee meetings are held at the Transportation 14<sup>th</sup> St. Annex, 2nd floor, Conference Room 3.
- TUMF Finance Subcommittee meetings are held at the City of Moreno Valley, 14177 Frederick Street, Council Chambers.

Agendas are available at [www.wrcog.cog.ca.us](http://www.wrcog.cog.ca.us) approximately seven (7) days prior to the meeting. This schedule is subject to change by action of the committees.

### What are Councils of Governments (COGs)?

COGs are voluntary associations that represent member local governments, mainly cities and counties, that seek to provide cooperative planning, coordination, and technical assistance on issues of mutual concern that cross jurisdictional lines. In this sense, COGs serve to develop consensus on many municipal issues that need to be addressed in a subregional or regional context. If properly structured, COG duties complement and do not duplicate jurisdictional activities, and serve to unify jurisdictions and agencies on matters of mutual concern, but independent of the responsibilities traditionally exercised by the individual members within their own communities.

### What are WRCOG's origins?

WRCOG was formed in 1990 and consists of the County of Riverside, 17 cities, 2 regional water districts, and the Riverside County Superintendent of Schools, in the western portion of the county. WRCOG unifies member agencies to speak with a collective voice in important regional and subregional issues. Working together and sharing resources through WRCOG's committee structure, WRCOG is cost-effective by reducing duplication of effort, sharing information, and enabling strong advocacy which augments its standing in southern California and the state.

### What are WRCOG's major program areas?

WRCOG created and is the administrator for the nation's largest developer fee program for transportation improvements. The Transportation Uniform Mitigation Fee (TUMF) Program will result in approximately \$4 billion in future improvements to arterials, intersections, interchanges and railroad crossings. WRCOG is currently implementing California's largest energy-retrofit program, providing \$325 million in financing to local home and business owners to upgrade properties with energy efficient and water conservation retrofits. WRCOG also undertakes solid waste planning / reporting activities on behalf of member jurisdictions, assists in the development of demographic projections, organizes alternative fuel and clean air efforts, implements other regional energy efficiency programs, and performs other tasks as assigned by its members. Recent focus by the Executive Committee is on the development of a regional Sustainability Plan that prioritizes economic development, education, and healthcare.

---

**Respect local control...**

**Provide regional perspective**

REGIONAL TRANSPORTATION PLAN  
**2012-2035 RTP**  
 SUSTAINABLE COMMUNITIES STRATEGY  
 Towards a Sustainable Future

S O U T H E R N C A L I F O R N I A A S S O C I A T I O N O F G O V E R N M E N T S

## BENEFITS OF THE 2012-2035 RTP/SCS FOR Riverside County

The Southern California Association of Governments (SCAG) undertakes a variety of planning and policy initiatives on behalf of the region. Member cities and counties benefit from SCAG's advocacy and leadership, as well as its planning services, data and mapping assistance and funding opportunities. SCAG worked with the Riverside County Transportation Commission (RCTC), Western Riverside Council of Governments, Coachella Valley Association of Governments, elected officials and local jurisdictions in Riverside County to develop the 2012-2035 Regional Transportation Plan and Sustainable Communities Strategy (RTP/SCS), a long-range plan that improves overall mobility, reduces greenhouse gases and enhances the quality of life for the region's residents. Approved by state and federal agencies in June 2012, the plan includes \$27.1 billion in transportation projects for Riverside County. The 2012-2035 RTP/SCS is guided by and incorporates projects and programs from RCTC's planning efforts. The list below features major transportation projects from a total of 1,114 Riverside County-specific projects contained in the 2012-2035 RTP/SCS.

### RTP PROJECTS\*

- ▶ New Mid-County Parkway between I-215 in Perris and SR-79 in San Jacinto; Cost: \$1.7 billion; Estimated completion: 2020
- ▶ Add HOT lanes on I-15 from San Bernardino County line to SR-74, mixed-flow lanes from San Bernardino County line to SR-74 and HOV lanes from SR-74 to I-15/I-215 interchange; Cost: \$1.7 billion; Estimated completion: 2020
- ▶ SR-91 HOT lane conversions from Orange County line to I-15, adding direct connectors at I-15 and mixed-flow lanes from SR-241 to Pierce St.; Cost: \$1.5 billion; Estimated completion: 2035
- ▶ Realign and widen SR-79 from near Domenigoni Pkwy. to Gilman Springs Rd.; Cost: \$1.4 billion; Estimated completion: 2018
- ▶ Service expansion of Metrolink Riverside, 91, and Inland Empire-Orange County lines; Cost: \$690 million; Estimated completion: 2035
- ▶ New Metrolink Perris Valley Line from Riverside to Perris; Cost: \$247 million; Estimated completion: 2014
- ▶ Metrolink Perris Valley line extension from Perris to Temecula; Cost: \$450 million; Estimated completion: 2035
- ▶ Metrolink Perris Valley line extension from Perris to San Jacinto; Cost: \$202 million; Estimated completion: 2035
- ▶ Widen N. Indian Canyon Dr. from Tramview Rd. to the Railroad Crossing, including bridge at Whitewater River; Cost: \$304 million; Estimated completion: 2030
- ▶ Add HOV lanes on SR-91 from Adams St. to the SR-60/I-215 interchange, extend mixed-flow lanes from the interchange to the Central Ave. and 14th St. off-ramps, add auxiliary lanes from Madison St. to Central Ave., widen and replace bridge and other improvements; Cost: \$278 million; Estimated completion: 2018
- ▶ Construct SR-79 (Eastern Bypass) arterial from near Scott Rd. to I-15; Cost: \$260 million; Estimated completion: 2030
- ▶ Add mixed-flow lanes on I-215 between Scott Rd. to Nuevo Rd. exits; Cost: \$191 million; Estimated completion: 2018

### RIVERSIDE COUNTY AT-A-GLANCE

#### Projected Population Growth

#### Projected Household Growth

#### Projected Improvements in Person Delay per Capita

Implementation of the 2012-2035 RTP/SCS is expected to reduce delay below 2008 levels, mitigating traffic congestion in light of increasing population growth.

## EMPLOYMENT IMPACT OF 2012-2035 RTP/SCS\*

## RIVERSIDE COUNTY RTP PROJECTS\*

Total RTP Investments in Riverside County:

**\$27.1 Billion**

## RTP PROJECTS (continued)

- ▶ I-10 new interchange at Da Vall Dr., adding auxiliary lanes from Date Palm Dr. to Da Vall Dr. and Da Vall Dr. to Ramon Rd.; Cost: \$133 million; Estimated completion: 2023
- ▶ Add mixed-flow lanes on I-10 from Monterey Ave. to Dillon Rd.; Cost: \$127 million; Estimated completion: 2030
- ▶ Widen Ramon Rd. from S. Indian Canyon Rd. to Sunrise Way, including Baristo Storm Channel crossing; Cost: \$120 million; Estimated completion: 2020
- ▶ Widen Avenue 52 from Highway 111 to SR-86S; Cost: \$115 million; Estimated completion: 2020
- ▶ New interchange on I-10 at Landau Blvd., between Palm Dr. and Date Palm Dr. exits; Cost: \$112 million; Estimated completion: 2035
- ▶ Widen Avenue 50 from Highway 111 to SR-86S; Cost: \$103 million; Estimated completion: 2020
- ▶ Replace low water crossing on Vista Chino at Whitewater River with new 4-lane bridge; Cost: \$95 million; Estimated completion: 2021
- ▶ Highway 111 bus rapid transit service; Cost: \$12 million; Estimated completion: 2018
- ▶ Construct 4 new Coachella transit centers; Cost: \$11 million; Estimated completion: 2013
- ▶ Express bus service to connect commuters to Metrolink service in Riverside and express bus service along I-10; Cost: \$3 million; Estimated completion: 2018

### Regional Projects

- ▶ California High Speed Rail – Phase 1 (includes Metrolink AVL and LOSSAN corridor speed upgrades); Cost: \$47.7 billion; Estimated completion: 2035
- ▶ Regional Bike Route Network; Cost: \$42 million; Estimated completion: 2035
- ▶ Regional Express/HOT Lane Network; Cost: \$9.5 billion; Estimated completion: 2035

\* For modeled projects, the estimated completion year represents the Plan network year for which the project was analyzed for the RTP modeling and regional emissions analysis.

## SUSTAINABLE COMMUNITIES STRATEGY BENEFITS

For the first time, SCAG has integrated land use, housing and environmental strategies with transportation planning to help meet emissions reduction targets by the California Air Resources Board. This Sustainable Communities Strategy provides an alternative to "business as usual" development. It encourages community revitalization and neighborhoods that are bike and pedestrian friendly, with convenient access to transit. By implementing these strategies, Riverside County will benefit from:

**40%**

**Reduction in Greenfield Land Consumed**

(the plan preserves 123 square miles of undeveloped land in Riverside County)

## Household Costs Savings

(includes Fuel, Auto Operating, Energy, and Water Costs per Household, 2011 dollars)

**\$22,600** – **\$20,800**

Business as Usual – SCS Adopted Plan

**\$1,800**

Annual Household Savings

On April 4, 2012, the Regional Council of the Southern California Association of Governments (SCAG) adopted the 2012-2035 Regional Transportation Plan/ Sustainable Communities Strategy (RTP/SCS): Towards a Sustainable Future. The RTP/SCS is the culmination of a multi-year effort involving stakeholders from across the SCAG Region.

## ARE WE STAYING IN TOUCH WITH ATTITUDES ON CLIMATE CHANGE AND THE ECONOMY?

by  
**Rick Bishop**  
Western Riverside Council of Governments

*"Public opinion in this country is everything."  
- Abraham Lincoln*

In a world in which we try to quantify nearly everything, perhaps nothing remains as valuable in shaping policies in our nation, state and locally as the measures of public opinion. The reasons we value public opinion are simple. Surveys provide snapshots that portray community perceptions and preferences. They can report on what people know, or on what they want to know. They can test whether a plan, or a component of a plan, is acceptable to the public. And if repeated after an interval of time, surveys can indicate to us whether opinions are changing. In short, whether we deem them "right" or "wrong" and whether or not we agree with the results, public opinion often establishes the cornerstones for public policy.

Historically, members of the public and government leaders have tended to view economic and environmental issues as being mutually exclusive. Environmental issues advance during times of economic prosperity, and take a back seat during times of economic uncertainty or recession. It is common to hear blame cast on excessive environmental regulation as a strong contributor to California's economic woes.

But a recent survey of 2,500 California adult residents conducted by the Public Policy Institute of California (PPIC) suggests that despite lagging economic conditions, concerns about global warming/climate change remain strong, and actions and potential actions to curb CO2 emissions are supported. For example, 78% believe the world's temperature has been going up over the past 100 years, and 45% consider global warming a very serious threat to California's future. Respondents also convey that the candidate positions on global warming and energy policy are important determinants in how they will vote for President of the United States.

## INLAND EMPIRE

# QUARTERLY ECONOMIC REPORT

RIVERSIDE & SAN BERNARDINO COUNTIES, CALIFORNIA

VOL. 24 NO. 4

OCTOBER 2012

\$5.00

## INLAND EMPIRE CITY PROFILE 2012

*John E. Husing, Ph.D.*

**W**hat is the relative economic strength of each of the Inland Empire's 52 cities? The annual Inland Empire City Profile (*Exhibits 1 & 2*) provides information to answer this question. The sources are the most recently available data for population, taxable sales, assessed valuation, bank deposits, housing prices and volumes, and income. [*Note: Jurupa Valley omitted in cases where data is not yet available.*]

**Population.** From 2000-2012, the CA Finance Department reports that the Inland Empire added 1,035,970 people to reach 4,291,496, up 31.8% including 21,846 people from 2011-2012. This occurred despite the Census Bureau's downward adjustments. Twelve cities have over 100,000 people, led by Riverside (308,511) and San Bernardino (211,674) followed by Fontana (199,898) and Moreno Valley (196,495). The newest cities are Eastvale (55,602) and Jurupa Valley (96,456). The smallest cities were Needles (4,894), Big Bear Lake (5,088) and Indian Wells (5,035). Five cities added over 50,000 people from 2000-2012: Fontana (70,970), Murrieta (60,703), Victorville (55,030), Moreno Valley (54,116) and Riverside (53,345). Four cities have added under 1,000 people: Needles (64), Grand Terrace (531), Canyon Lake (737), Calimesa (859). Two cities shrank: Big Bear Lake (-350) and Blythe (-65).

Of California's 482 cities, the Inland Empire's five largest places ranked (*not shown*): Riverside (12<sup>th</sup>), San Bernardino (17<sup>th</sup>), Fontana (20<sup>th</sup>), Moreno Valley (21<sup>st</sup>), Rancho Cucamonga (26<sup>th</sup>). The housing slowdown reduced population growth from 2011-2012. The area had four of the state's 20 fastest growth rates (*not shown*): Eastvale (2.8%, 6<sup>th</sup>), Beaumont (2.1%, 14<sup>th</sup>), Twentynine Palms (2.1%, 17<sup>th</sup>) and Victorville (1.9%, 20<sup>th</sup>). Four ranked in the top 20 in absolute growth: Riverside (2,442, 13<sup>th</sup>), Fontana (2,112, 18<sup>th</sup>), Moreno Valley (2,044, 19<sup>th</sup>) and Victorville (2,202; 20<sup>th</sup>).

**Taxable Retail Sales.** Taxable sales are a major city revenue source that is now recovering from the steep downturn. The CA Board of Equalization reports the data quarterly, a year after they occur. Hinterliter DeLlamas provides data within three months. In calendar year 2011, San Bernardino County's sales rose 10.2% to \$27.2 billion. Riverside County's sales increased 10.1% to \$25.5 billion (*Exhibit 1*). Inland Empire (10.2%) growth was well above California (8.7%). In the first half of 2012, inland sales expanded by another 9.5% versus 8.0% for the state. If that continues for all of 2012, the inland area will reach \$57.7 billion in sales, putting it within 5.6% of its 2006 maximum of \$61.1 billion.

All but two Inland Empire cities had gains in 2011 retail sales. Ontario (\$5.34 billion) and Riverside (\$4.04 billion) had the most sales, followed by Corona (\$2.74 billion), Temecula (\$2.34 billion) and San Bernardino (\$2.30 billion). Fontana (\$2.25 billion) was sixth followed by Rancho Cucamonga (\$2.17 billion). Victorville (\$1.45 billion) was eighth ahead of Chino (\$1.43 billion) and Palm Desert (\$1.40 billion). Declines occurred in Adelanto (-5.8%) and Canyon Lake (-9.7%). Of the 48 cities with expanding sales, the largest gains were in Desert Hot Springs (24.9%), Hesperia (22.4%), Indian Wells (18.4%), Grand Terrace (14.2%) and Menifee (13.9%).

Per capita sales reveal how well sales taxes finance city services for each resident. In 2011, the leaders were Ontario (\$32,257), Big Bear Lake (\$31,467), Palm Desert (\$28,499). Barstow (\$26,854) moved up to fourth passing Montclair (\$24,928). Canyon Lake (\$1,188), Adelanto (\$2,910), Highland (\$3,402) and Wildomar (\$3,536) were the weakest [*Note: prison populations not in per capita calculations*].

*Continued on page 2*

**Assessed Valuation.** Assessed valuation is important since property taxes are also a major municipal revenue source with values now beginning to turnaround. On July 1, 2012, San Bernardino County's valuation was \$162.7 billion, up 0.8%. Riverside County's was \$197.8 billion, down -0.3%. For cities, assessed valuation tends to follow industrial and housing development. The top five cities saw small growth or were unchanged from 2011: Riverside (\$22.2 billion), Rancho Cucamonga (\$19.6 billion), Ontario (\$18.5 billion), Corona (\$15.8 billion) and Fontana (\$13.6 billion). Though San Bernardino is second in population and has an industrial base, its low home values put its valuation (\$10.3 billion) at just ninth. 20 of 50 cities saw their FY 2012 assessed valuation decline, down from 37 cities in 2011. The weakest area was the Coachella Valley with declines in six of nine cities. Interestingly, of the 30 cities with increases, Indio (+5.9%) led, followed by Eastvale (3.3%).

Assessed value per capita measures the ability of property taxes to support city services for each resident. Here, five Coachella Valley cities continued to be the strongest led by Indian Wells (\$909,127) and third ranked Rancho Mirage (\$408,437) followed by La Quinta (\$269,862), Palm Desert (\$242,456) and Palm Springs (\$193,961). Two smaller cities did well: 2<sup>nd</sup> ranked Big Bear Lake (\$572,262) and 7<sup>th</sup> ranked Canyon Lake (\$123,773). Ranked 8<sup>th</sup> to 10<sup>th</sup> were cities near Los Angeles County: Chino (\$122,345), Chino Hills (\$119,541) and Rancho Cucamonga (\$117,821). Three East SB Valley cities were weak: Highland (43<sup>rd</sup>, \$50,677), Colton (45<sup>th</sup>, \$49,284) San Bernardino (46<sup>th</sup>, \$49,031). Outlying desert cities ranked in the bottom tier: Blythe (48<sup>th</sup>, \$45,222), Desert Hot Springs (50<sup>th</sup>, \$41,161), Twentynine Palms (51<sup>st</sup>, \$31,754) and Coachella (52<sup>nd</sup>, \$30,973). The exception was San Jacinto (49<sup>th</sup>, \$44,909).

**Financial Deposits.** Financial deposits are the only available indicator of local wealth since there is no local measure of stock market investments. In 2011, Thomas Reuters Bank Insight showed Inland Empire's deposits up 3.4% to \$43.9 billion. Riverside County's deposits rose 9.1% to \$24.3 billion; San Bernardino County's rose 0.5% to \$19.6 billion.

Riverside (\$5.38 billion) had the most deposits followed by Palm Desert (\$2.82 billion). Temecula (\$2.47 billion) was next, ahead of Redlands (\$2.19 billion), Corona (\$2.17 billion) and Ontario (\$2.04 billion). San Bernardino (\$2.01 billion) fell to 7<sup>th</sup> from 3<sup>rd</sup> in 2010. Coachella Valley cities had the highest deposits per capita led by Indian Wells (\$67,355) and Palm Desert (\$57,821). Big Bear Lake (\$56,611) ranked 3<sup>rd</sup>, Rancho Mirage (\$43,584) passed Redlands (\$31,754) followed by Palm Springs (\$26,508).

**Home Sales Volumes.** Dataquick provides home deed recordings by zip code using county recorders' data. In 2011, sales again declined due to the fear in the marketplace despite low rates and prices plus high affordability. San Bernardino County's 2011 existing home sales recordings fell -5.6% to 25,505 units; Riverside County decreased by -6.3% to 32,725 sales (Exhibit 2). Except for Ontario (1,096, 20<sup>th</sup>), the largest cities had the most existing home sales. The five leaders were Riverside (4,333), San Bernardino (3,084), Moreno Valley (2,785), Corona (2,938) and Fontana (2,876). Sixteen of 52 inland cities saw existing home sales growth with small markets dominant. Blythe grew the most (46.7%; \$93,000) yet led with very low prices, while Yucca Valley ranked fourth (12.0%; \$87,000). Calimesa was next (36.8%, \$140,250) with modest prices. Rancho Mirage (16.0%; \$465,000) was next with higher prices, followed by Upland (10.0%, \$364,926). Sales declines occurred 36 of 52 inland cities. Except for Montclair (-21.6%), the biggest sales declines were in former housing "hot spots:" Hemet (-29.7%), Hesperia (-22.6%), San Jacinto (-16.5%).

Riverside County's 2011 new home sales fell -25.6% to 3,233 units; San Bernardino County saw a drop of -30.7% to 1,199. Sales exceeded 300 in Coachella (579), San Jacinto (465), Desert Hot Springs

(413) and La Quinta (342). Twenty-two of 52 cities had increased new homes indicating some life in the markets. They were led by Yucaipa (283.0% to 46), Perris (167.0% to 16), Colton (133.0% to 7), Redlands (46.2% to 38) and Hesperia (36.4% to 30).

**Home Prices.** From second quarter 2011-2012, Riverside County's median existing home price fell -2.9% to \$189,614; San Bernardino County's fell -0.7% to \$148,962. The highest 2012 prices were in Indian Wells (\$865,000), Rancho Mirage (\$465,000), Chino Hills (\$415,000), Upland (\$364,926) and Palm Springs (\$355,772). Three outlying desert cities again saw the lowest prices: Adelanto (\$80,000), Barstow (\$55,000), Twentynine Palms (\$60,000) and Needles (\$29,500). Prices increased in 10 of 51 cities led by: Indian Wells (34.1% to \$865,000), Palm Springs (15.4% to \$355,772), Yucca Valley (12.0% to \$87,000) and Upland (10.0% to \$364,000).

San Bernardino County's median new home price fell -10.3% to \$249,773; Riverside County's increased 2.4% to \$287,325. The highest prices were in Indian Wells (\$1,500,000), Chino Hills (\$705,000), Rancho Cucamonga (\$560,538), Palm Springs (\$531,000) and La Quinta (\$475,000). At \$130,000 or less were: Banning (\$105,000), Desert Hot Springs (\$110,000), Colton (\$120,750), Yucca Valley (\$126,500), and Hesperia (\$130,000).

Lower prices and mortgages mean Inland Empire homes cost less per month in 2012. Using 3% down, 30-year FHA financing at a 3.40% interest rate, Exhibit 2 shows each city's median existing home payment in second quarter 2012, including points, fees, taxes and insurance. In San Bernardino County, payments were \$633 on its \$148,962 median existing home versus \$694 in 2011. In Riverside County, they were \$806 on its \$189,614 median existing home versus \$874 in 2011. These homes were affordable to 78% of San Bernardino County residents and 65% of those in Riverside County. In part, the Inland Empire's housing markets are having difficulties because Zillow finds that 51% of the region's single family homes are underwater on their mortgages. The range is from 19% in Indian Wells to 74% in Adelanto.

**Income.** The income levels for 21 cities of 65,000 or more are from the 2011 American Community Survey (ACS). Another 22 cities with 20,000-64,999 people are from the 2008-2010 American Community Survey. The eight cities under 20,000 people are from 2006-2010 data. The highest median incomes were in Indian Wells (\$131,250), Eastvale (\$104,758), Chino Hills (\$93,736), Canyon Lake (\$83,845) and Corona (\$80,557). For comparison, Irvine was \$87,484. Total personal income was led by Riverside (\$6.00 billion), Rancho Cucamonga (\$4.71 billion) and Corona (\$4.08 billion). Fontana (\$3.51 billion) passed Moreno Valley (\$3.29 billion).

**Most Prosperous?** Which Inland Empire cities are the most economically prosperous? Summing city rankings for per capita retail sales, per capita assessed value, per capita financial deposits, as well as absolute population growth, median income and median price of all homes, jobs:housing balance could yield a perfect score of 7 for seven first places or a worst score of 364 from seven 52<sup>nd</sup> places. In 2012, the best 10 scores on these criteria were: Temecula (50), Palm Desert (53), Rancho Mirage (58), Indian Wells (61), La Quinta (73), Palm Springs (74), Big Bear Lake (75), Chino (80), Corona (88) and Rancho Cucamonga (89). ■

## INLAND EMPIRE EMPLOYMENT... Job Growth Continues!

In September 2012, the CA Employment Development Department estimated that the Inland Empire gained 16,700 jobs or 1.5% from September 2011 (*Exhibit 3*) continuing the positive trend this year (*Exhibit 4*). This included 23,300 private sector jobs minus the loss of -5,500 public sector positions. The area's September 2012 unemployment rate of 11.6% was down from 13.5% last year. The decline of -34,600 unemployed people included 28,300 who found jobs but -6,300 who quit looking.

### CLEAN WORK, GOOD PAY: -1,300 JOBS (-0.7%)

For the Inland Empire, the weakest group was again its higher paying sectors. Since September 2011, they lost -1,300 jobs (-0.7%). Higher education gained 300 public and 200 private college positions (3.5%) as adults went back to school. Utilities added 100 jobs (1.7%), while mining and local government were flat. Management and the professions are growing nationally but shrank by -200 jobs (-0.4%). Budget difficulties shrank federal and state government by -1,700 (-4.3%).

### CLEAN WORK, MODERATE PAY: +7,900 JOBS (2.5%)

Sectors paying moderate incomes to white collar workers were the Inland Empire's strongest group, adding 7,900 jobs (2.5%). Administrative support firms performing routine activities for the day-to-day operations of other organizations added 8,100 positions (17.2%). Health care continued growing, up 4,000 jobs (3.7%) almost entirely due to growth by out-patient operations. The financial sector gained 900 people (2.4%) as it moved beyond the impact of the mortgage crisis. Publishing/information were up 100 jobs (0.7%) as its long term decline halted. K-12 education had the inland area's worst performance losing 5,200 positions as the state budget crisis hit it hard (-4.9%).

### DIRTY WORK, MODERATE PAY: +4,400 (1.7%)

From September 2011-2012, the Inland Empire's blue collar sectors that fundamentally drive its economy added 4,400 jobs (1.7%). Distribution and warehousing gained 5,000 jobs (4.4%) as handling of trade from Southern California's ports boosted the area. Construction fell by 200 jobs (-0.3%) as the mortgage crisis continued to limit housing production. Manufacturing was off 400 positions (-0.5%) as firms paused, waiting for Congressional action on the "Fiscal Cliff."

### LOWER PAYING JOBS: +5,700 (1.5%)

With the private sector job growth strengthening, there was an increase in population serving jobs, up 5,700 (1.5%). This group normally lags behind growth in the sectors bringing money to the area. Employment agencies added 5,500 jobs (14.9%), a sign that recovery is gaining momentum. Accommodation (1,000; 7.4%) and amusement (800; 6.0%) surged as the Coachella Valley's resorts gained strength. Agriculture added 300 jobs as a weak dollar boosted food exports (2.3%). Eating and drinking grew by 1,300 positions (1.4%) as consumers became more active. Social assistance was off -100 jobs (-0.7%) despite many families still needing help. Oddly, retailing lost -1,500 positions (-1.0%) and other services lost -1,600 (-4.0) despite increase in retail spending by consumers.

### COMMENT

Clearly, 2012 is a stronger year than 2011. The average increase has been 23,111 private sector jobs which is approaching a normal year, despite the lack of construction. Unfortunately, public sector losses have averaged -5,033 jobs, dampening the recovery. ■

**5 HIGH SCHOOL OR LESS vs. BA OR HIGHER**  
Inland Empire, 2000 vs. 2011

**Education Trend.** From 2000-2011, the Inland Empire's education profile has improved. In Riverside County, the share of adults 25 & over with a high school or less education has fallen -3.3% from 49.7 to 46.4%. San Bernardino County's share is down -2.3% from 50.8% to 48.5%. Simultaneously, the percent of Riverside County adults with bachelor's or higher degrees rose 3.7% from 16.6% to 20.4%. San Bernardino County's share is up 2.3% from 15.9% to 18.2%. Unfortunately, these small changes have taken too long and still leave both counties with marginally educated workforces.

**6 SHARES OF KEY AGE GROUPS**  
Hispanics vs. Non-Hispanics, 2011

**Hispanic Age Level.** In 2011, Hispanics represented 49.9% of San Bernardino County's residents and 46.1% in Riverside County. As this ethnic community approaches majority status, it will be of growing importance to the Inland Empire's labor force. Currently, 64.7% of the baby boomer age groups 45-64 are non-Hispanics versus just 35.3% of Hispanics. They are the economy's most experienced workers and managers and the oldest are starting to retire. Ultimately, they must be replaced by 20-45 year olds, where 52.8% are Hispanic and 47.2% are not. Behind them are those under 20 who will be the newest labor force entrants. They are 60.6% Hispanic and 39.4% of all others.

**7 JOB CREATION OR DESTRUCTION**  
U.S., 1998-2012, Seasonally Adjusted (000)

**U.S. Job Growth.** The U.S. economy began adding jobs in March 2010. Since then the gain has been 4,642,00 jobs. That represents 52.9% of the 8,779,000 lost during the Great Recession. The pace has been steady but slow. In part, this is largely due to the fact that the recession was caused by consumers, homeowners, businesses and government running up too much debt. Unwinding that debt is a long process, hence the slow pace of economic expansion. That said, allowing for the -518,000 public sector jobs lost since March 2010, the private sector has added 5,160,000 positions in the recovery phase.

**8 DIRECT INVESTOR PURCHASE OF FORECLOSURE SALES**  
Inland Empire, 2007-2012

**Investor Direct Foreclosure Purchases.** When lenders decide to take foreclosed homes, they put a price on what they believe they are worth and offered them for sale at that price. If no group offers more, the lender takes the property as Real Estate Owned (REO). These properties are later offered for sale. If an investor group offers more money, they acquire the property directly and it never hits the market. The trend of such purchases is increasing. It was 44.8% in Riverside County and 34.0% in San Bernardino County in September 2012. These are the most likely homes to bring rentals into detached single family neighborhoods.

**HOME MARKETS: FINALLY SOME PRICE MOVEMENT!**

In third quarter 2011, the Inland Empire recorded 14,243 *seasonally adjusted* existing and new home sales. Volume has been relatively flat the past nine quarters since reaching the 20,717 sales in the first quarter 2009 (*Exhibit 11*). For the first nine months of 2012, the inland region was responsible for 35.2% of all home sales in Southern California (*Mexican border to Ventura County*). Meanwhile, the median existing home price in

the two county area moved up to \$187,825, roughly equal to the first quarter 2003 level. The new home price moved to \$295,422, roughly equal to the fourth quarter 2003 level (*Exhibit 12*).

**SALES**

Riverside County had 8,256 existing home sales in third quarter 2012, down -5.6% from 2011. As recordings come at the end of escrow, this included many second quarter sales. Corona, Norco, Eastvale had the only percentage gain (974 units; 10.8%). The South 1-215 area was the volume leader (1,705 sales; -7.8%). The county's 927 new home sales were up 9.1% from 2011 (*Exhibit 10*). Riverside-Jurupa Valley led had the fastest growth (65 units; 71.1%). Southwest county was the volume leader (302 sales; 11.9%).

San Bernardino County's existing home sales fell -5.1% to 5,987. Mountain areas had the fastest growth (732 sales, 19.4%). The Westend led in volume (1,297 sales; 8.4%). New home sales rose 23.1% to 416 units. Fontana, Rialto, Colton had the best performance (73 sales; 69.8%). The Westend led in volume (147 sales; 51.5%).

**PRICES**

Riverside County's third quarter median new home price was \$292,500, up slightly from \$291,500 in the prior quarter and up 0.9% from 2011 (\$290,000) (*Exhibit 9*). The median existing home price was \$206,000, up 9.0% from \$189,000 in 2011 and above the prior quarter's \$200,000. San Bernardino County's median new home price was \$302,000, up 16.2% from 2011 (\$260,000) and above second quarter's \$291,500. Its existing median home price of \$165,000 was 10.0% above 2011 (\$150,000) up from second quarter's \$155,000. Southern California's new home price of \$389,600 was up 1.8% from 2011 (\$382,700). The region's existing home price of \$328,300 was up 3.0% from \$318,800 in 2011. ■

# WESTERN RIVERSIDE COUNCIL OF GOVERNMENTS

Continued from front page

The survey results don't really come as much of a surprise. In November 2010 nearly 63 California voters defeated Proposition 23, which would have halted implementation of California's landmark Global Warming Solutions Act (also known as AB 32) until unemployment levels reached historic lows. In fact, just before Governor Schwarzenegger signed the law in 2006 (during a time of relative economic prosperity), 65 percent of adults were in favor. Today, in a far worse economic climate where the shrill among those who see such regulations as job-killers, 71% say they favor the law. In fact, state support for AB 32 may reflect a belief among residents that state action to curb global warming will positively impact jobs. 42 percent of survey respondents say AB 32 implementation would create more jobs compared to just 25 percent who say fewer jobs will result.

Californian's support for the state's climate policies is strong, evidenced by the following survey results:

<u>Issue</u>	<u>% Favor (all adults)</u>
Global Warming Solutions Act of 2006.....	71
Emission standards for new passenger vehicles .....	78
Increasing use of renewable energy .....	82
Requiring local governments to change land-use patterns so people drive less .....	77
Requiring increased energy efficiency for buildings .....	77
Requiring industrial plants, oil refineries, and commercial facilities to reduce emissions .....	82

Other survey findings are compelling. Nearly two in three Californians (64%) indicate that air pollution is a "big" or "somewhat" of a problem. Residents in Los Angeles and the inland counties are more likely than those in coastal counties to say air pollution is a big

regional problem. About half (49%) view air pollution in their region as a "very" or "somewhat" serious health threat to them and their immediate family. Given these responses, again, it is not surprising that 65% of adults support stricter emission standards on new passenger automobiles.

The PPIC Survey can be downloaded by clicking on the link below:

[PPIC Statewide Survey: Californians & the environment, July 2012](#)

What is there to take away from the survey results? For one, it appears that those long-standing impressions regarding economy vs. environment dynamics are eroding. In Western Riverside County they are. WRCOG's Executive Committee, in identifying economic development as a priority focus for the region in the future, has also acknowledged that improvements in the areas of environment, energy supply, education, healthcare and water supply will be key to attaining economic prosperity and quality of life objectives. It's simple. Improve the environment and fix the economy. Improve public education and fix the economy. Improve healthcare services and fix the economy. And so on, and so on.

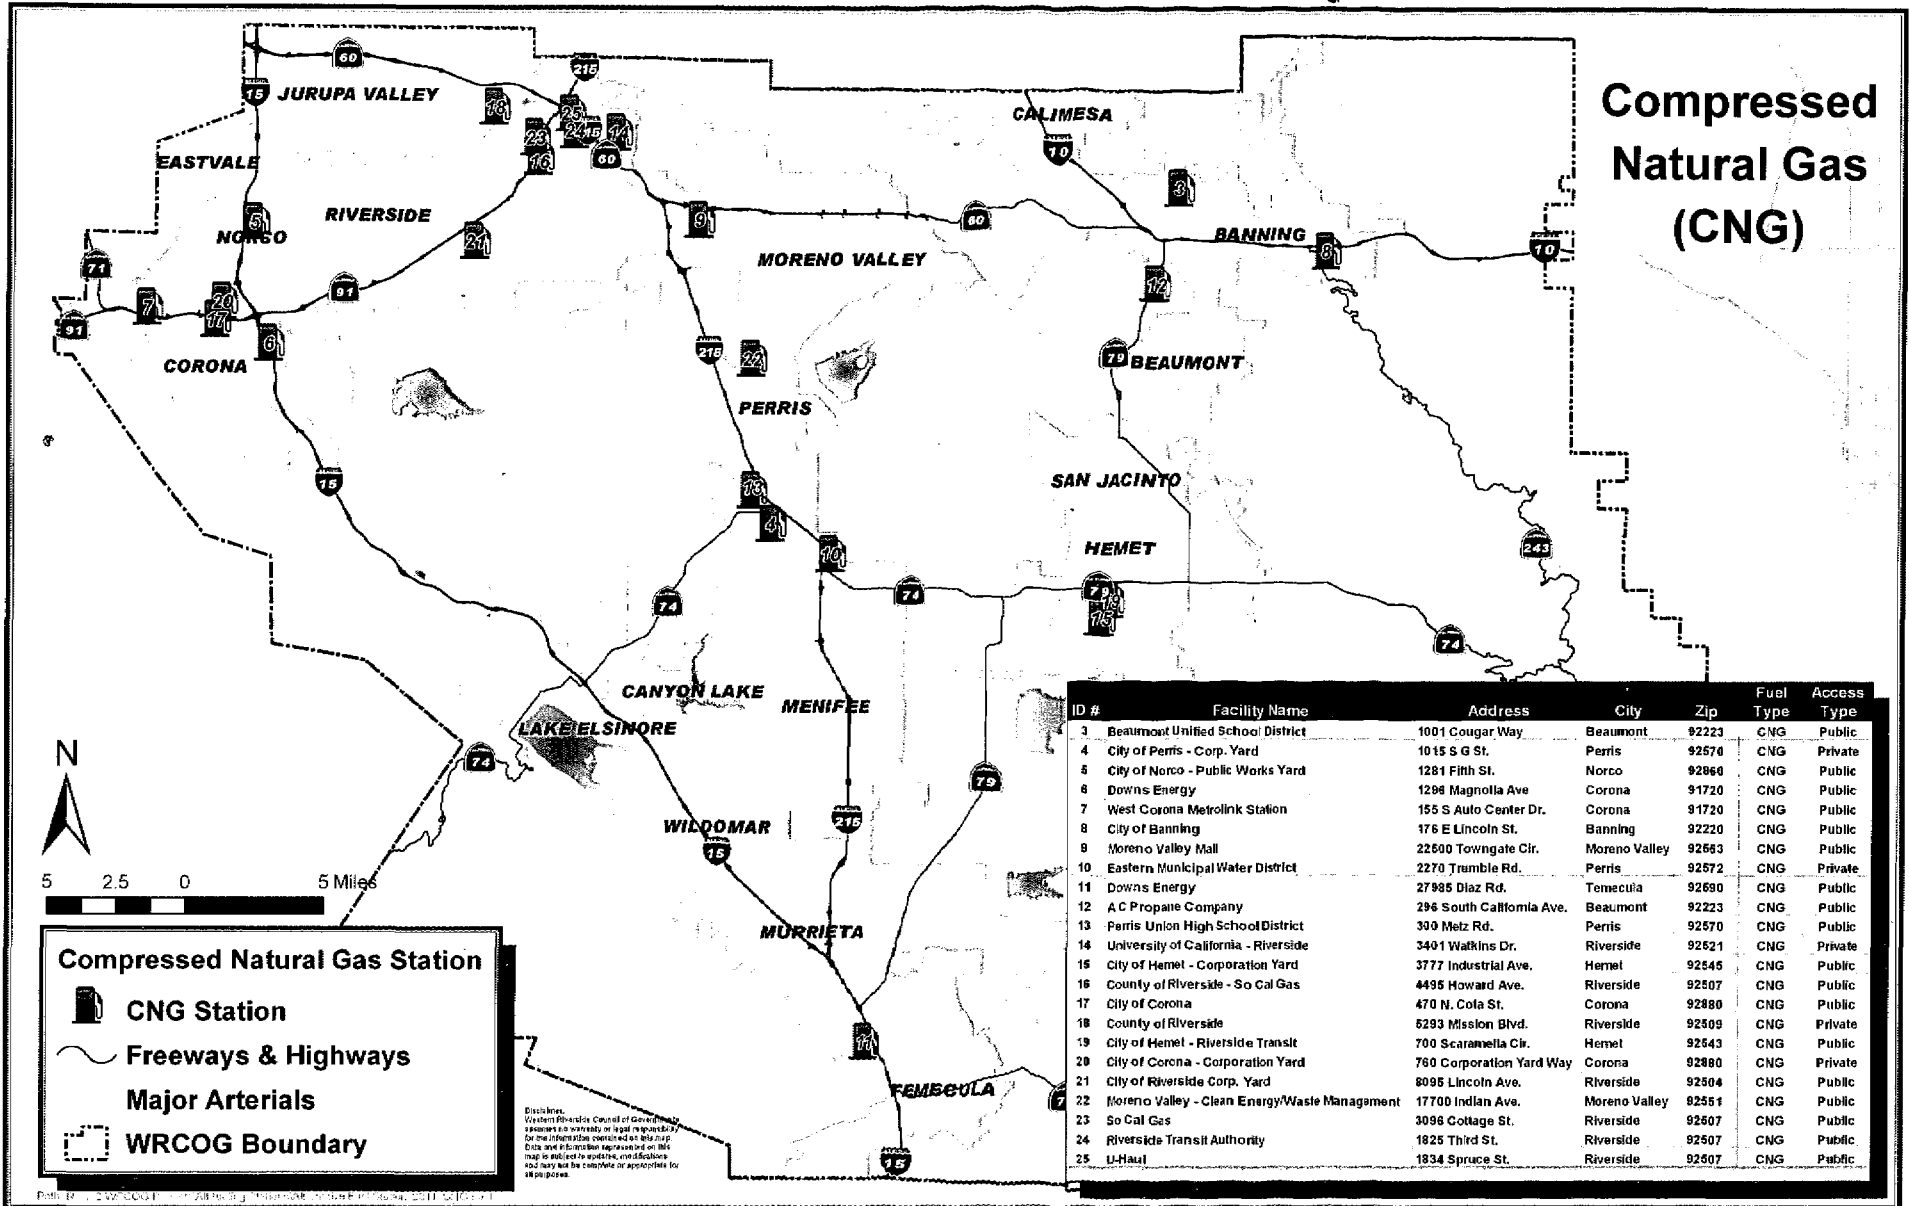

WRCOG's Sustainability Framework, a two-year effort that is close to completion, is the beginning point of what will hopefully be a process to establish and implement a subregional Sustainability Plan that integrates regional issues that have for too long been examined singularly. The Plan will clearly define economic development as a priority, but it will be readily apparent that the region's future economic viability will depend on achieving successes in these other areas. The intersections of Western Riverside County's regional economic development and its social and cultural characteristics, opportunities and challenges has never been fully examined until now, but it is a positive sign that thoughtful discussion regarding economic development is occurring in such a comprehensive manner.

Summer 2012

## “Sharing the Road” with Marine Mammals

Humpback (Delta/Dawn) breaching in Sacramento River. Photo by S. Wilkin/NOAA OPR  
Contributing Author: Mary Jane Schreier, Media specialist for San Francisco-based Gulf of the Farallones National Marine Sanctuary

All along California’s coast, from late spring through autumn, hungry humpback whales target our exceptionally nutrient-rich waters for a seafood feast. Though open-ocean by nature, whales and dolphins sometimes stray into bays and inlets. In 1985 and 1990, Humphrey, a humpback, made two legendary San Francisco Bay appearances. In spring 2007, a female humpback and her calf, nicknamed Delta and Dawn, swam all the way upriver to Sacramento. Shoals of baitfish at the Golden Gate may have induced the female to enter the bay, calf in tow. Sadly, both suffered injuries from boat strikes.

Each winter and spring, gray whales migrate near shore between Arctic feeding and Mexican breeding grounds. In spring, especially, gray whales wander into San Francisco Bay, San Diego’s Mission Bay, and into Tomales Bay – a shallow arm of Gulf of the Farallones National Marine Sanctuary.

While here they face dangers from disturbance, shipstrike, disorientation, entanglement in fishing gear, stress from harassment, and skin disease.

To prevent disturbance, the Farallones National Marine Sanctuary advises watching for a whale’s blow, or exhalation, which looks like a puff of smoke. Humpback and gray whale blows are bushy, and rise to about 10 feet. Be aware there may be whales nearby that you do not see! Boaters, including paddle boarders and kayakers, should not approach a whale within 300 feet (the length of a football field); cut across its path, make sudden speed or directional changes, or get between a cow and her calf: if separated, the calf could starve. Marine mammals – whales, dolphins, porpoise, seals, sea lions and otters – are covered under the Marine Mammal Protection Act, and some, additionally, under the Endangered Species Act. Disturbance to them could result in significant fines and penalties.

Entangled whales should be reported immediately to the National Oceanic and Atmospheric Administration (NOAA’s) Whale Entanglement Hotline: 1-877-SOS-WHALE. Never attempt to free a whale yourself. Injured marine mammals should be reported to the Marine Wildlife Rescue regional agencies. Check this information at <http://www.coastal.ca.gov/ccbn/educationmaterials.html#EMERGENCY> (under MARINE WILDLIFE RESCUE).

Should you have an encounter with marine mammals, make sure you “share the road” and maintain a respectful distance from our amazing marine wildlife.

## Sewage Pumpouts Upgrade with Remote Sensing

With all the pleasures of boating in California's picturesque waterways, sometimes boaters must "take care of business." One obstacle to managing boat sewage are non-operational sewage pumpout stations. To address this challenge and to promote the reliability of amenities for boaters, the California Department of Boating and Waterways (DBW) launched a pilot project to install wireless remote monitoring systems at several pumpout stations in San Diego Harbor.

Attributes of remote monitoring units provide early problem detection and automatically alerts responsible parties of equipment failure, in real time. The pilot project was so successful, it is now a new requirement under DBW's Clean Vessel Act Grant Program, which funds the construction,

renovation, operation, and maintenance of pumpout and dump stations, to include installation of remote monitoring systems with the installation of pumpout stations.

There are currently two companies that provide this new technology, MarineSync and Pumpwatcher. Remote monitoring hardware is installed on site and web-based software can be used to monitor various aspects of the pumpout station. Marina managers can use remote monitoring to access information about their units' runtime and cycles that tell how many boaters used the equipment and for how long, volume pumped, power loss events, early leak detection, early alarm function that indicates a potential clog or engine malfunction, and tank levels.

The remote monitoring also automatically shuts the pumpout off if there is even a small leak detected. Notifications about the pumpout station can be sent directly as an email or text to the responsible parties. Talk about immediate gratification!

For more information, contact Grace Lee at (213) 576-6757.

COMMUNITY  
INDICATORS  
REPORT

The Community Foundation  
Serving Riverside and San Bernardino Counties

This report was produced by The Community Foundation  
for the benefit of Riverside County.

**The Community Foundation**  
Serving Riverside and San Bernardino Counties

Tel: 951-684-4194 | Fax: 951-684-1911  
[www.thecommunityfoundation.net](http://www.thecommunityfoundation.net)

A publication of The Community Foundation.

The Community Foundation Serving Riverside and San Bernardino Counties is a public, nonprofit COF-accredited community foundation dedicated to "enhancing the quality of life in the communities we serve". This is accomplished through building permanent endowments, making prudent grants, acting as a catalyst to address important regional issues and strengthening the nonprofit sector. In 2010, The Community Foundation raised \$5.4 million in charitable contributions and currently manages and invests over 300 funds that exceed \$60 million in assets. The Community Foundation has realized a total investment performance return of 40% of all of its pooled endowment assets over the past two years.

In May 2011, The Community Foundation formed a strategic alliance with the Inland Empire Economic Partnership (IEEP) and its chief economist, John Husing, Ph.D., devoted to developing economic prosperity and quality of life improvements for the 4.2 million residents of the two county region.

Economic Development Subcommittee

Owings, Tom

AGENDA

Economic Development Subcommittee  
Thursday, March 14, 2013 - 2:00 p.m.  
Moreno Valley City Hall, 2<sup>nd</sup> Floor Training Room  
14177 Frederick Street, Moreno Valley

1. Call to Order
2. Roll Call/Introductions
3. Public Comments

*Those wishing to speak should complete and submit a BLUE speaker slip to the Secretary. There is a three-minute time limit per person. All remarks and questions shall be addressed to the presiding officer or to the Economic Development Subcommittee of the City and not to any individual subcommittee member, staff member or other person.*

4. Approval of Minutes of February 14, 2012, Developer's Workshop
5. Renewal of Business Visitation Program, including having the Mayor participate.
6. Include both ED Subcommittee members in the Business Roundtable Program

Denise (7) Discussion of the City's Ombudsman Program.

8. 3-Year Economic Development Action Plan

5. <Comments/Questions>

6. Next Regular Economic Development Subcommittee Meeting – April 11, 2013

7. Next Developer Workshop – May 9, 2013

8. Adjournment

*Upon request, this agenda will be made available in appropriate alternative formats to persons with disabilities, in compliance with the Americans with Disabilities Act of 1990. Any person with a disability who requires a modification or accommodation in order to participate in a meeting should direct such request to Mel Alonzo, ADA Coordinator, at 951.413.3027 at least 48 hours before the meeting. The 48-hour notification will enable the City to make reasonable arrangements to ensure accessibility to this meeting.*

**AGENDA**

Economic Development Subcommittee  
Thursday, March 14, 2013 - 2:00 p.m.  
**Moreno Valley City Hall, 2<sup>nd</sup> Floor Training Room**  
14177 Frederick Street, Moreno Valley

1. Call to Order
2. Roll Call/Introductions
3. Public Comments

*Those wishing to speak should complete and submit a BLUE speaker slip to the Secretary. There is a three-minute time limit per person. All remarks and questions shall be addressed to the presiding officer or to the Economic Development Subcommittee of the City and not to any individual subcommittee member, staff member or other person.*

4. Approval of Minutes of February 14, 2012, Developer's Workshop
5. Renewal of Business Visitation Program, including having the Mayor participate.
6. Include both ED Subcommittee members in the Business Roundtable Program
7. Discussion of the City's Ombudsman Program
8. 3-Year Economic Development Action Plan
5. Comments/Questions
6. Next Regular Economic Development Subcommittee Meeting – April 11, 2013
7. Next Developer Workshop – May 9, 2013
8. Adjournment

*Upon request, this agenda will be made available in appropriate alternative formats to persons with disabilities, in compliance with the Americans with Disabilities Act of 1990. Any person with a disability who requires a modification or accommodation in order to participate in a meeting should direct such request to Mel Alonzo, ADA Coordinator, at 951.413.3027 at least 48 hours before the meeting. The 48-hour notification will enable the City to make reasonable arrangements to ensure accessibility to this meeting.*

# ECONOMIC DEVELOPMENT ACTION PLAN 2013-2016

An updated Economic Development Action Plan has been formulated to capitalize on near-term opportunities in eight geographic areas during a 3-year time frame. The focus of the updated Economic Development Action Plan includes the following goals and objectives in the nine recommended geographic areas:

## Edgemont

Pursue the revitalization of the Edgemont area through the adoption of a multi-faceted redevelopment strategy.

- Work towards the upgrading the water system to ensure sufficient water pressure to allow for new development projects in this area.
- Use Neighborhood Stabilization program funding to acquire and land bank foreclosed properties- both single-family and multi-family residential.
- Conduct quarterly Neighborhood Clean-up programs.
- Retain a planning consultant to evaluate land uses to establish the highest and best land use designations for redevelopment efforts.
- Pursue a master developer to assist with the planning for redevelopment in the Edgemont area.

## TownGate

Collaborate with the Fritz Duda Company and CW Capital towards stabilizing, upgrading and expanding retail and restaurant development opportunities in the TownGate area including the Moreno Valley Mall and the five shopping centers surrounding the regional mall including TownGate Center, TownGate Plaza, TownGate Crossing, TownGate Promenade and TownGate Square

- Continue to work with CW Capital-the owner of the Moreno Valley Mall in upgrading and attracting new users to the regional mall.
- Facilitate the planning and marketing for a 30,000 S.F. expansion project at the Moreno Valley Mall to include a new restaurant, retail and plaza area next to Harkins Theatres.
- Work with the Fritz Duda Company in the re-occupancy of vacant retail spaces and the overall stabilization of TownGate Center including new uses such as ULTA Beauty, BevMo and Planet Fitness.
- Assist in the processing of development plans for new projects in TownGate shopping centers including 24 Hour Fitness Sport, Miguel's Jr. Mexican Restaurant and Richie's Real American Diner.
- Cooperate with the Fritz Duda Company in pursuing the continued development of a 'Restaurant Row' area in TownGate Promenade.

## **Festival**

Cooperate with the Kodash Company and Miller Family Trust-the ownership of the Festival Center, to explore ways to redevelop or enhance the viability of the Festival Center including rehabilitation efforts and incorporating new appropriate land uses.

- Help facilitate attracting new users and the upgrade of the Festival Center.
- Explore developing a new residential component at the Festival Center.
- Explore possibilities with Moreno Valley Unified School District of developing new education facilities at Festival.
- Pursue an overlay study to consider other uses at Festival including possibly cultural & performing arts facilities, along with developing sports or recreation facilities for use by the community to create a mixed-use development concept.

## **Sunnymead Boulevard**

Work towards the further redevelopment of Sunnymead Boulevard, between Frederick Street to Perris Boulevard.

- Conduct a code compliance effort aimed at enhancing the image of Sunnymead Boulevard.
- Pursue new users and development projects for Sunnymead Boulevard.
- Market mixed-use development opportunities for Sunnymead Boulevard that combine new residential projects with retail and office uses.

## **Centerpointe Business Park**

Work with Ridge Property Trust and USAA Real Estate to expand development and business opportunities aimed at completing the Centerpointe Business Park.

- Assist Ridge Property Trust and Harbor Freight Tools (HFT) in the 507,720 S.F. expansion of HFT's Distribution Center at the NW corner of Cactus and Graham.
- Facilitate efforts for a user to occupy USAA's new 522,774 S.F. Centerpointe Logistics Center at the NW corner of Cactus and Frederick.
- Help advance the development of Ridge Property Trust's approved 607,960 S.F. industrial building at the NW corner of Brodiaea and Graham.
- Facilitate expansion plans for the Serta Mattress facility.
- Work with the owner of the Plaza Del Sol Center in stabilizing the center to provide needed shopping and restaurant opportunities in the Centerpointe Business Park area.

## **South Moreno Valley Industrial Area**

Work with seven developers (Alere Property Group, First Industrial Realty Trust, IDS Real Estate Group, Panattoni Development Co., Sares-REGIS Group, Trammell Crow Company & Western RealCo) on new business attraction and development projects in the South Moreno Valley Industrial Area.

- Work with IDS Real Estate Group in securing a business user for the new 769,320 S.F. Nandina Distribution Center.
- Facilitate the completion of Trammell Crow Company's 1,250,000 S.F. I-215 Logistics Center project, including securing a user.

- Cooperate with First Industrial Realty Trust and Panattoni Development Co. in pursuing the speculative development of two industrial buildings with a total of nearly 2 million S.F.
- Assist Sares-REGIS Group and Western RealCo in build-to-suit opportunities for two approved industrial building projects with a total of more than 3.6 million S.F.
- Work with Alere Property Group, First Industrial Realty Trust and Trammell Crow Co. in the planning and entitlements for several new industrial projects with a proposed 4 million S.F.

### **City Center Medical/Healthcare Corridor**

Cooperate with Riverside County Regional Medical Center (RCRMC), Kaiser Permanente, Moreno Valley College and Highland Fairview to help facilitate the further expansion of the City of Moreno Valley's Medical/Healthcare Corridor on Nason Street & Iris Avenue.

- Assist Riverside County with the implementation of the Master Plan for expanding the Riverside County Regional Medical Center including a new Trauma & Urgent Care, relocated & upgraded Operations Support building and facilities for the new UCR School of Medicine.
- Facilitate plans by Kaiser Permanente to expand the Moreno Valley Community Hospital with an expansion and upgrade of the Emergency Room facilities and development of a planned second tower.
- Cooperate with Moreno Valley College and Riverside Community College District in the development of a proposed 30,000 S.F. allied health sciences facility in the medical-healthcare corridor.
- Support the planning and marketing efforts of Highland Fairview to pursue the creation of a master planned 200-acre healthcare campus to be situated within the medical corridor and between the two existing hospitals-RCRMC and Kaiser's Community Hospital.
- Continue the planning and funding of capital improvement projects that will widen and construct the ultimate improvements on Nason Street from SR 60 to Iris Avenue to provide critical access to the two hospitals and the medical/healthcare corridor.
- The continued development of Medical/Healthcare corridor on Nason Street and Iris Avenue shall be the City's top priority for new medical and healthcare development.
- Undertake a study to determine highest and best land uses for the City-owned 60-acre property at the NW corner of Nason and Alessandro.

### **World Logistics Center at Rancho Belago**

Collaborate with Highland Fairview in the development of the World Logistics Center—a 41.6 million S.F. master planned corporate park proposed to be developed on 2,700 acres in the Rancho Belago area of eastern Moreno Valley.

- Process an Environmental Impact Report and preliminary development plans for the World Logistics Center in eastern Moreno Valley—south of SR 60 and east of Redlands Boulevard to Gilman Springs Road.
- Assist in the drafting of a Specific Plan that will guide the orderly development for of World Logistics Center.
- Cooperate with Highland Fairview in the formulation of a Development Agreement to create a public-private partnership to help facilitate the development of new public infrastructure in eastern

Moreno Valley associated with the World Logistics Center including roads, trails, utilities, storm water protection and fire protection facilities.

- Work with Highland Fairview in branding the World Logistics Center as one of the largest e-commerce focused development projects in the U.S.

### **SR 60 East Corridor**

Pursue new development opportunities along the SR 60 East corridor—from Nason Street to the easterly City limits.

- Prepare an Overlay Study to determine the 'highest and best' land uses along the SR 60 East Corridor.
- Assist property owners and developers in marketing development opportunities along the SR 60 East Corridor.
- Work on opportunities to expand the Moreno Valley Auto Mall.
- Facilitate the stabilization and further development of Stoneridge Towne Centre and Moreno Beach Plaza.

In addition to activities in the eight geographic areas, a series of objectives are being recommended to assist with overall economic development efforts to assist with Business Attraction, Business Retention and Business Expansion including the following:

- Continue to coordinate the Capital Program (CIP) with economic development efforts
- Expand the Development Ombudsman Program to provide a comprehensive range of business support services for developers and businesses
- Restart the Business Visitation Program, including the participation of the Mayor in 1 on 1 visits annually with the Top 50 with the major employers in the community
- Implement new software that will enable business owners, developers, contractors and residents to electronically submit and manage their plans with the City of Moreno Valley
- Utilize the Chambers of Commerce to expand participation in the Small Business Counseling Services provided by the Small Business Development Center (SBDC)
- Work with the Community Investment Corporation in a the development of a business incubator and micro-business loan program
- Pursue the reuse of vacant anchor retail spaces, including the use of the new ED-Retail Anchor Reuse Incentive Program
- Explore revising the scopes of work with the Agreements the Chamber of Commerce to better focus on business retention and expansion activities, including expansion of Shop MoVal, as well as establishing a program to promote more business to business transactions in Moreno Valley
- Utilize the Chambers of Commerce to undertake a survey of the small business community on ways to improve the business climate in Moreno Valley
- Use the Chambers of Commerce to assist with increasing high school graduation rates in the community through the development of mentor programs to link students with business leaders
- Pursue the creation of a Business Support Advisory Council comprised of major employers in Moreno Valley

- Seek ways to promote opportunities for more ties between cultural & performing arts in the community with economic development
- Explore creating an incentive program aimed at attracting development projects with e-commerce or fulfillment center users
- Continue to work with residential developers and the Building Industry Association (BIA) on ways to help facilitate new quality residential development in Moreno Valley

**MEETING MINUTES  
CITY OF MORENO VALLEY  
ECONOMIC DEVELOPMENT SUBCOMMITTEE  
DEVELOPER WORKSHOP  
February 14, 2013 - 2:00 P.M.**

**CALL TO ORDER**

Meeting of the Economic Development Subcommittee- Developer Workshop called to order at 2:15 p.m. in the Council Chambers at Moreno Valley City Hall. Copies of the Agenda and Minutes from December 10, 2012 were made available to the public.

**ROLL CALL**

Council Subcommittee:

- Mayor Tom Owings
- Council Member Victoria Baca

Public:

Attendance Sheet attached

Staff:

- Barry Foster, Community & Economic Development Director
- John Terell, Planning Official
- Randy Metz, Fire Marshal
- Anne Schneider, Building Official
- Mark Sambito, Land Development Division Manager
- Dante Hall, Business Support & Neighborhood Programs Division Manager
- Denise Bagley, Management Analyst
- Karyn Kiefer, Executive Assistant
- Kathi Pierce, Sr. Administrative Assistant

**PUBLIC COMMENTS**

No speaker slips submitted.

**APPROVAL OF MINUTES**

Minutes of December 10, 2012 were approved. Owings/Baca.

**Introduction of New Council Member and Subcommittee Members**

Foster introduced Mayor Owings and Victoria Baca to the attendees. Both took a few minutes to address the group; the Subcommittee members followed by introducing themselves and stating their title and Division to the group.

**NAIOP – Public Partner of the Year for 2012**

Foster announced receiving the Public Partner of the Year Award for 2012 and acknowledged the award was possible by working, not only with the staff, but with the Developers to reduce DIF's and by bringing in contractors.

### **New DIF Rates Effective January 2013**

Foster reviewed DIF rates (Handouts made available to the public) – The City did not just pick and choose where to reduce but took a comprehensive look at what could be reduced, resulting in cutting the DIF's in half. DIF rates are in place and going in the right direction.

#### Comments/Questions

- Mayor Owings: Asked the group if they were all aware that fees could be deferred.
- Foster: Stated that DIF and TRUMP Fees can be deferred and that DIF Credits can also transfer to other projects.
- Tommy Thompson, BIA: Stated that he was aware and feels the “The word is spreading” that this can be done.
- Mayor Owings: Asked whether the group felt the city was doing enough to get the word out.
- Tom Breitkreuz: Stated that he feels the city is doing a very good job in letting the developers know that the fees can be deferred.
- John Abel: Stated that he has a great working relationship with Barry Foster and the City and he feels the DIF Reduction makes a huge impact on their projects.

### **Economic Development Action Plan**

Barry Foster reviewed the New Economic Development Action Plan (handouts were made available to the public), each area was reviewed. The new 3-Year Plan was brought to the Council Workshop on February 2, and will be brought to the next Economic Development Meeting on March 14, then to the City Council Study Session in March, and to City Council for approval.

#### Comments/Questions

- Foster: Edgemont area and the water issue -- Solutions are being looked into. Foster has already spoken to Council Member Baca about some options.
- Mayor Owings: Working with staff regarding Sunnymead Blvd.; Code on the illegal sign issues, and the Police Department on the crime issues and lowering traffic speed. Mayor Owings and staff will speak to every business on Sunnymead Blvd. He stated that it will take a collaborative effort but in the next 2-3 years drastic change will be seen – the area will be cleaned up.
- Foster: South Moreno Valley has a lot of approved entitlements and is in a good spot for more short-term development.
- City Center/ Healthcare - Temporary Occupancy has been approved and Kaiser will be moving people in the new expansion on Monday, February 18.

Mayor Owings: The focus of the council to support the City's own Medical Corridor was unanimous at the last Study Session.

Foster: World Logistics Center EIR / Technical Studies - A 40,000 page document was produced as a result of the study. The document was broken into 17 components and is available on the website. Foster is excited to bring it to Planning Commission and see it evolve.

Foster: Overall Objectives -- Dante Hall and Denise Bagley will bring the Ombudsman Program to a new level.

### **CEQA Litigation**

Barry Foster discussed ongoing lawsuits brought against the city which causes delays or halts development.

### Comments/Questions

Mayor Owings: Asked who present was a member of the Chamber of Commerce and if there would be any interest in discussing the possible formation of an Industrial Development Advisory Committee? This committee would better represent the Developer Community and more specifically work at their pace and direction.

Barry Foster: Asked if anyone present would be interested and/or willing to participate in a committee?

### Response

Larry Cochran FR: He is interested and would bring it to his board.

Tom Breitreuz,  
IDS Real Estate: Interesting, but before he could comment or commit, due to time constraints, the committee would have to be organized with a plan, but he would like to hear the proposal if Mayor Owings had it.

Mayor Owings: Would like to discuss this option further with the group.

Foster: If there is some interest Foster would follow-up and schedule the meeting to discuss it further.

### Comments/Questions

Larry Cochran: Asked if Barry Foster would be interested in talking to the NAIOP on this proposal.

### Response

Foster: Both he and Mayor Owings would be available to speak to NAIOP.

## DEVELOPER QUESTIONS/COMMENTS

### Comments/Questions

Tom Breitzkreuz,  
IDS Real Estate:

Commented that Time and Materials program is working fine, but if a procedure could be put in place that would enhance the current fee payment process by allowing companies to deposit enough monies in one place to cover all fees for a project that could then be distributed to the separate divisions as needed. He explained that when larger companies have to cut an individual check for each division for the same project, the time it takes to have the check issued can take weeks- causing long delays.

### Response

Randy Metz: States that as a group, they are working towards his concept, as it has come up.

Mayor Owings: Asked Randy Metz if there was a time frame to a solution for this.

Randy Metz: Discussions with the finance department are in process. Discussions with the Finance Department and the divisions would have to continue in order to coordinate how the procedure could be set up.

Mayor Owings: Would like to postpone the answer/solution to this until June 2013.

Foster: Looking into electronic planning reviews that would enable reviews of the project until the very end when a wet signature is needed. Building & Safety and Land Divisions are currently using this for Plan Check.

Also, looking into software upgrades for the system that would enable payments to be made online as well as tract the process of the project – this would require budgeting funds prior to implementation.

## FUTURE MEETINGS

The next Economic Development Subcommittee meeting is March 14, 2013.

The next Economic Development Subcommittee/Developer Workshop is May 9, 2013.

## ADJOURNMENT

The City Council Economic Development Subcommittee/Developer Workshop adjourned at 3:50 p.m.

# ECONOMIC DEVELOPMENT ACTION PLAN 2013-2016

An updated Economic Development Action Plan has been formulated to capitalize on near-term opportunities in eight geographic areas during a 3-year time frame. The focus of the updated Economic Development Action Plan includes the following goals and objectives in the nine recommended geographic areas:

## **Edgemont**

Pursue the revitalization of the Edgemont area through the adoption of a multi-faceted redevelopment strategy.

- Use Neighborhood Stabilization program funding to acquire and land bank foreclosed properties- both single-family and multi-family residential.
- Conduct quarterly Neighborhood Clean-up programs.
- Retain a planning consultant to evaluate land uses to establish the highest and best land use designations for redevelopment efforts.
- Pursue a master developer to assist with the planning for redevelopment in the Edgemont area.

## **TownGate**

Collaborate with the Fritz Duda Company and CW Capital towards stabilizing, upgrading and expanding retail and restaurant development opportunities in the TownGate area including the Moreno Valley Mall and the five shopping centers surrounding the regional mall including TownGate Center, TownGate Plaza, TownGate Crossing, TownGate Promenade and TownGate Square

- Continue to work with CW Capital-the owner of the Moreno Valley Mall in upgrading and attracting new users to the regional mall.
- Facilitate the planning and marketing for a 30,000 S.F. expansion project at the Moreno Valley Mall to include a new restaurant, retail and plaza area next to Harkins Theatres.
- Work with the Fritz Duda Company in the re-occupancy of vacant retail spaces and the overall stabilization of TownGate Center including new uses such as ULTA Beauty, BevMo and Planet Fitness.
- Assist in the processing of development plans for new projects in TownGate shopping centers including 24 Hour Fitness Sport, Miguel's Jr. Mexican Restaurant and Richie's Real American Diner.
- Cooperate with the Fritz Duda Company in pursuing the continued development of a 'Restaurant Row' area in TownGate Promenade.

## **Festival**

Cooperate with the Kodash Company and Miller Family Trust-the ownership of the Festival Center, to explore ways to redevelop or enhance the viability of the Festival Center including rehabilitation efforts and incorporating new appropriate land uses.

- Help facilitate attracting new users and the upgrade of the Festival Center.
- Explore developing a new residential component at the Festival Center.
- Explore possibilities with Moreno Valley Unified School District of developing new education facilities at Festival.
- Pursue an overlay study to consider other uses at Festival including possibly cultural & performing arts facilities, along with developing sports or recreation facilities for use by the community to create a mixed-use development concept.

## **Sunnymead Boulevard**

Work towards the further redevelopment of Sunnymead Boulevard, between Frederick Street to Perris Boulevard.

- Conduct a code compliance effort aimed at enhancing the image of Sunnymead Boulevard.
- Pursue new users and development projects for Sunnymead Boulevard.
- Market mixed-use development opportunities for Sunnymead Boulevard that combine new residential projects with retail and office uses.

## **Centerpointe Business Park**

Work with Ridge Property Trust and USAA Real Estate to expand development and business opportunities aimed at completing the Centerpointe Business Park.

- Assist Ridge Property Trust and Harbor Freight Tools (HFT) in the 507,720 S.F. expansion of HFT's Distribution Center at the NW corner of Cactus and Graham.
- Facilitate efforts for a user to occupy USAA's new 522,774 S.F. Centerpointe Logistics Center at the NW corner of Cactus and Frederick.
- Help advance the development of Ridge Property Trust's approved 607,960 S.F. industrial building at the NW corner of Brodiaea and Graham.
- Facilitate expansion plans for the Serta Mattress facility.
- Work with the owner of the Plaza Del Sol Center in stabilizing the center to provide needed shopping and restaurant opportunities in the Centerpointe Business Park area.

## **South Moreno Valley Industrial Area**

Work with seven developers (Alere Property Group, First Industrial Realty Trust, IDS Real Estate Group, Panattoni Development Co., Sares-REGIS Group, Trammell Crow Company & Western RealCo) on new business attraction and development projects in the South Moreno Valley Industrial Area.

- Work with IDS Real Estate Group in securing a business user for the new 769,320 S.F. Nandina Distribution Center.
- Facilitate the completion of Trammell Crow Company's 1,250,000 S.F. I-215 Logistics Center project, including securing a user.

- Cooperate with First Industrial Realty Trust and Panattoni Development Co. in pursuing the speculative development of two industrial buildings with a total of nearly 2 million S.F.
- Assist Sares-REGIS Group and Western RealCo in build-to-suit opportunities for two approved industrial building projects with a total of more than 3.6 million S.F.
- Work with Alere Property Group, First Industrial Realty Trust and Trammell Crow Co. in the planning and entitlements for several new industrial projects with a proposed 4 million S.F.

### **City Center Medical/Healthcare Corridor**

Cooperate with Riverside County Regional Medical Center (RCRMC), Kaiser Permanente, Moreno Valley College and Highland Fairview to help facilitate the further expansion of the City of Moreno Valley's Medical/Healthcare Corridor on Nason Street & Iris Avenue.

- Assist Riverside County with the implementation of the Master Plan for expanding the Riverside County Regional Medical Center including a new Trauma & Urgent Care, relocated & upgraded Operations Support building and facilities for the new UCR School of Medicine.
- Facilitate plans by Kaiser Permanente to expand the Moreno Valley Community Hospital with an expansion and upgrade of the Emergency Room facilities and development of a planned second tower.
- Cooperate with Moreno Valley College and Riverside Community College District in the development of a proposed 30,000 S.F. allied health sciences facility in the medical-healthcare corridor.
- Support the planning and marketing efforts of Highland Fairview to pursue the creation of a master planned 200-acre healthcare campus to be situated within the medical corridor and between the two existing hospitals-RCRMC and Kaiser's Community Hospital.
- Continue the planning and funding of capital improvement projects that will widen and construct the ultimate improvements on Nason Street from SR 60 to Iris Avenue to provide critical access to the two hospitals and the medical/healthcare corridor.
- The continued development of Medical/Healthcare corridor on Nason Street and Iris Avenue shall be the City's top priority for new medical and healthcare development.
- Undertake a study to determine highest and best land uses for the City-owned 60-acre property at the NW corner of Nason and Alessandro.

### **World Logistics Center at Rancho Belago**

Collaborate with Highland Fairview in the development of the World Logistics Center—a 41.6 million S.F. master planned corporate park proposed to be developed on 2,700 acres in the Rancho Belago area of eastern Moreno Valley.

- Process an Environmental Impact Report and preliminary development plans for the World Logistics Center in eastern Moreno Valley—south of SR 60 and east of Redlands Boulevard to Gilman Springs Road.
- Assist in the drafting of a Specific Plan that will guide the orderly development for of World Logistics Center.
- Cooperate with Highland Fairview in the formulation of a Development Agreement to create a public-private partnership to help facilitate the development of new public infrastructure in eastern

Moreno Valley associated with the World Logistics Center including roads, trails, utilities, storm water protection and fire protection facilities.

- Work with Highland Fairview in branding the World Logistics Center as one of the largest e-commerce focused development projects in the U.S.

### **SR 60 East Corridor**

Pursue new development opportunities along the SR 60 East corridor—from Nason Street to the easterly City limits.

- Prepare an Overlay Study to determine the 'highest and best' land uses along the SR 60 East Corridor.
- Assist property owners and developers in marketing development opportunities along the SR 60 East Corridor.
- Work on opportunities to expand the Moreno Valley Auto Mall.
- Facilitate the stabilization and further development of Stoneridge Towne Centre and Moreno Beach Plaza.

In addition to activities in the eight geographic areas, a series of objectives are being recommended to assist with overall economic development efforts to assist with Business Attraction, Business Retention and Business Expansion including the following:

- Continue to coordinate the Capital Program (CIP) with economic development efforts
- Expand the Development Ombudsman Program to provide a comprehensive range of business support services for developers and businesses
- Restart the Business Visitation Program, including the participation of the Mayor in 1 on 1 visits annually with the Top 50 with the major employers in the community
- Implement new software that will enable business owners, developers, contractors and residents to electronically submit and manage their plans with the City of Moreno Valley
- Utilize the Chambers of Commerce to expand participation in the Small Business Counseling Services provided by the Small Business Development Center (SBDC)
- Work with the Community Investment Corporation in a the development of a business incubator and micro-business loan program
- Pursue the reuse of vacant anchor retail spaces, including the use of the new ED-Retail Anchor Reuse Incentive Program
- Explore revising the scopes of work with the Agreements the Chamber of Commerce to better focus on business retention and expansion activities, including expansion of Shop MoVal, as well as establishing a program to promote more business to business transactions in Moreno Valley
- Utilize the Chambers of Commerce to undertake a survey of the small business community on ways to improve the business climate in Moreno Valley
- Use the Chambers of Commerce to assist with increasing high school graduation rates in the community through the development of mentor programs to link students with business leaders
- Pursue the creation of a Business Support Advisory Council comprised of major employers in Moreno Valley

- Seek ways to promote opportunities for more ties between cultural & performing arts in the community with economic development
- Explore creating an incentive program aimed at attracting development projects with e-commerce or fulfillment center users
- Continue to work with residential developers and the Building Industry Association (BIA) on ways to help facilitate new quality residential development in Moreno Valley

**MEETING MINUTES  
CITY OF MORENO VALLEY  
ECONOMIC DEVELOPMENT SUBCOMMITTEE  
December 10, 2012, 2:00 P.M.**

**CALL TO ORDER**

Meeting of the Economic Development Subcommittee was called to order at 2:02p.m. in the Training Room at Moreno Valley City Hall. Copies of the Agenda and Minutes from October 11, 2012 were made available to the public.

**ROLL CALL**

Council Subcommittee:

- Council Member Jesse L. Molina
- Council Member Marcelo Co

Staff:

- Barry Foster, Community & Economic Development Director
- Denise Bagley, Management Analyst
- Karyn Kiefer, CEDD

**PUBLIC COMMENTS**

No speaker slips submitted.

**APPROVAL OF MINUTES**

Minutes of October 11, 2012 were approved. Molina/Co.

**ED- RETAIL ANCHOR REUSE INCENTIVE PROGRAM**

1. Budget \$50,000.00/year. The program would provide incentives to developers when utilizing vacant properties 20,000 sq. ft. or larger. The city will subsidize one half of the cost for planning fees, building permits and costs (approximately \$7,500.00 to \$10,000.00)
2. Foster met with shopping center use and reports getting close to agreeing on a lease or purchase of existing building (former Albertsons). Plans are to fast-track the project with a projected opening in March or April 2013. 3.8 million dollar budget established by the user to remodel the store, strongly believing that store presentation is important and have found this to increase sales.

**NEW 3-YEAR PLAN ECONOMIC DEVELOPMENT PLAN**

New Economic Development Action Plan

Foster outlined the new Proposed 3-year ED Action Plan. The New Proposed 3-year ED Action Plan will expand the areas of focus from five to eight with the following areas proposed to be included:

- **Edgemont**-Pursuing the redevelopment of the Edgemont area through a multi-faceted revitalization strategy of 1) upgrading the water system, 2) using Neighborhood Stabilization Program (NSP) funding to acquire and land bank foreclosed properties, 3) conduct frequent neighborhood clean-ups and code compliance efforts, and 4) evaluating appropriate land uses in conjunction with the possible use of an Overlay Zone.
- **Towngate**-Continue to work with CW Capital and the Fritz Duda Company with efforts to stabilize, upgrade and expand the Moreno Valley Mall and the five shopping centers in

Towngate that surround the MV Mall including Towngate Center, Towngate Plaza, Towngate Crossing, Towngate Promenade and Towngate Square.

- **Festival Center**-Work with the owner of the Festival Center to explore ways to cooperate on efforts to redevelop Festival including rehabilitation projects, along with incorporating new land use possibilities such as education facilities and sport/recreation facilities for community use.
- **Centerpointe Business Park**-Cooperate with USAA Real Estate and Ridge Property Trust to expand development and business opportunities at the Centerpointe Business Park including 1) the expansion of the Harbor Freight Tools DC campus and 2) the opening of the Centerpointe Logistics Center.
- **South Moreno Valley Industrial Area**-Facilitate new business attraction and more development activity in the South MV Industrial Area including 1) the leasing of the new 770,000 S.F. Nandina Distribution Center, 2) beginning construction of two approved/entitled projects with 2 million S.F. and 3) assist in the planning approval process for three projects that at proposing another 2.7 million S.F. of industrial buildings.
- **City Center Medical/Healthcare Corridor**-Work with Highland Fairview, Riverside County Regional Medical Center (RCRMC), Kaiser Permanente and Moreno Valley College to help facilitate the further expansion of the City's medical/Healthcare Corridor on Nason/Iris including 1) the processing of Highland Fairview's development plans for the creation of a world class healthcare campus at Aquabella, 2) expansion of the RCRMC medical campus including facilities for the new UCR Medical School, 3) further development of Kaiser's Moreno Valley healthcare campus and 4) assist in the development of Moreno Valley College's planned 25,000 S.F. building on Oliver that will be used for the Allied Health Science program.
- **World Logistics Center-Rancho Belago**-Collaborate with Highland Fairview on a Specific Plan and Development Agreement to assist in the development of the World Logistics Center-a master planned 41 million S.F. business park that will be branded as 'one of the largest e-commerce focused business locations in the U.S. Included with the Specific Plan and Development Agreement will be forging a public-private partnership to help facilitate the development of new public infrastructure facilities in the Rancho Belago area including roads, trails, utilities, water & sewer lines, storm water protection and fire facilities.
- **SR 60 East Corridor**-Plan for new development opportunities along the SR 60-East corridor from Nason Street easterly to the City limits, with a goal of achieving the 'highest and best' land uses.

The Goal is to have the draft of the new 3-year Action Plan to Council in January, to bring back in February.

Comments/Questions

Council Member Molina

Commented that the highest sales tax produced in the area was collected in Moreno Valley – will mention this at the next City Council Meeting.

Council Member Co

Commented that he would like to see the Edgemont area adjacent to the 215 freeway developed because of the proximity to Riverside.

Response:

Foster indicated that he agrees but would have to consider MAFB flight pattern and population density in the area.

## **FUTURE MEETINGS**

Developer Workshop is February 14, 2013, as part of the next Economic Development Subcommittee Meeting.

The following Economic Development meeting is March 14, 2013

## **ADJOURNMENT**

The City Council Economic Development Subcommittee adjourned at 3:12 p.m.

/kk

2013 Public Safety Subcommittee

Owings, Tom

City of Moreno Valley  
**PUBLIC SAFETY SUBCOMMITTEE**

Monday, March 18, 2013 ♦ 10:00 A.M.  
City Hall – Training Room

  - B. Office of Emergency Management Report
9. Other Items of Interest
10. Future Agenda Items

Upon request, this agenda will be made available in appropriate alternative formats to persons with disabilities, in compliance with the Americans with Disabilities Act of 1990. Any person with a disability who requires a modification or accommodation in order to participate in a meeting should direct such request to **Mel Alonzo** at **951.413.3027**, at least 48 hours before the meeting. The 48-hour notification will enable the City to make reasonable arrangements to ensure accessibility to this meeting.

## Public Safety Sub Committee Meeting - 02/11/13

**PARTICIPANTS:** T. Owings, J. Molina, M. Patterson, S. Bryant, J. Ontiveros, A. Ahmad, C. Owens, R. Metz, M. Smith  
**GUESTS:** B. Foster, A. Brady

### Follow-up

#### 1. INTRODUCTIONS – 10:05 am

#### 2. PUBLIC COMMENTS

No public present.

#### 3. APPROVAL OF MINUTES

Minutes of January 17, 2013 were approved as written.

**ACTION: Molina-motioned, Patterson-seconded**

### AGENDA ITEMS

#### 4. Cost Share Cooperative Agreement

A draft of the Cost Share Cooperative Agreement was distributed, and Fire Chief Ahmad reviewed the revisions as follows:

- a. The purchase of the KME 100' aerial ladder truck to be offset quarterly w/payments from the City of Moreno Valley towards the City of Perris's obligations until paid in full.
- b. \$675,000 to be paid to offset the cost. Thereafter, any balance due for that quarter and any remaining quarter shall be the responsibility of the City of Perris.
- c. Possession of the truck upon execution of the Agreement, and the transfer of the title upon satisfaction of the \$675,000 offset.
- d. Should the Agreement terminate, the City of Moreno Valley shall continue to make quarterly payments to the City of Perris in an amount calculated as the average of all previous quarterly payments until the entire purchase price of \$675,000 for the truck is paid in full.

Staff recommended the following:

- a. Staff recommends the above referenced revisions to the Agreement.
- b. Staff recommends meeting with the City of Perris and the County of Riverside to begin the negotiation process. (FIRE)

**ACTION: Owings-motioned to approve recommendations, Molina-seconded**

Tasks following discussion:

- 1) Verify engine warranty. (FIRE)

#### 5. Multi-Family Housing Inspection Fee Update

Randy Metz, Fire Marshal, provided a PowerPoint presentation on the Multi-Family Residential Housing Inspection Program Fee Proposal, to be included in the mid-March Fee Proposal to Finance. This proposal suggests a per unit fee that is most equitable.

Staff recommended the following:

- a. Transition from pilot program to full-time permanent program.
- b. Convert staffing from part-time temporary to full-time permanent.
- c. Revise fee schedule to allow for full cost recovery of program.

**ACTION: Owings-motioned to approve recommendations, Molina-seconded**

The City is geographically concentrated, where unic area is not. Backup is much further away in the County than they are in the City... even @ .79

Tasks following discussion:

- 1) PSSC requested that Staff look at using this methodology for hotels/motels. (FIRE)

6. Civil Collection and Cost Recovery for PD Nuisance Cases

PSSC requested that staff implement training/procedures for investigating other possible violations at crime scenes beyond the primary violation.

Tasks following discussion:

- 1) Following all nuisance calls, MVPD will provide details (that are not of confidential nature) to the City Attorney's Office. (MVPD/C.A.Office)

7. Surveillance Camera System Update

Police Chief Ontiveros reported that community advisory meetings have been held to inform attendees of the history, purpose, benefits, and progress of the project, including an open forum for community input, questions, and answers. He stated that installation of the cameras will be in early March and functional by early April. In addition, they are recruiting for volunteers.

Tasks following discussion:

- 1) Keep statistics and track AB109 cases. (MVPD)
- 2) Following AB109 cases, send letter to legislators. (Mayor)

8. Target Sunnymead Blvd. (Heacock-Indian) for Code Enforcement

Create a partnership with Code and MVPD to address issues on Sunnymead Blvd., such as signage issues. Mr. Foster suggested holding public meetings to inform business owners that citations will be given to business owners that do not comply with City Codes.

Tasks following discussion:

- 1) Schedule meetings to inform the business owners about possible citations. (CodeMVPD)
- 2) Explore traffic modifications to make area more shopper-friendly (i.e., speed bumps). (PW)

9. Update on Hope 365 Project

Hope 365 is a collaborative effort with the Red Cross and United Way to collect donations for the Sandy tragedy victims. The City of Riverside will be providing an update later this week. (CM Office)

**REPORTS**

10. Police

A. The February 2013 Police Personnel Status Report was reviewed by Police Chief Ontiveros.

11. Fire

A. The January 2013 Fire Service Report was reviewed by Fire Chief Ahmad.

**FUTURE AGENDA ITEMS**

1. Police Services Agreement Review at Moreno Valley Mall ✓ CM Office
2. Update on Hope 365 Project ✓ CM Office
3. Review Inspection Fee for Hotels/Motels — FIRE
4. Shopper-friendly Modifications to Sunnymead Blvd. (Heacock-Indian) PW

Meeting adjournment: 12:30 pm. Next Meeting: March 18, 2013

## **Report to City Council**

---

**TO:** Public Safety Subcommittee

**FROM:** Michelle Dawson, Assistant City Manager

**AGENDA DATE:** March 18, 2013

**TITLE:** DISCUSSION OF LAW ENFORCEMENT SERVICES PROVIDED AT THE MORENO VALLEY MALL

---

### **RECOMMENDED ACTION**

Staff recommends that the Subcommittee review and discuss information provided regarding the law enforcement services provided at the Moreno Valley Mall.

### **BACKGROUND**

When Moreno Valley Mall was developed, the police department reviewed the levels of law enforcement and security at a number of regional malls. As a result of that review, a contract for full-time law enforcement services was made a condition of approval for the Mall.

The Mall opened in 1992 after the City issued a conditional certificate of occupancy pending resolution of the enforcement of the condition of approval requiring the Mall to pay for law enforcement services. At that time the Mall was contending that this requirement was illegal. The City continued to issue extended temporary certificates of occupancy but filed a declaratory relief action in Riverside Superior Court in September, 1993. On December 14, 1993 the City Council directed the City Attorney to file a dismissal with prejudice of that action and approved a contract with the Mall for law enforcement services. The effective date on that agreement is October 12, 1992.

### **DISCUSSION**

The Moreno Valley Police Department provides an officer at the Mall for a 10-hour shift 7 days per week. The Mall is charged the same rate that the City pays the Riverside County Sheriff for a fully supported patrol deputy, which is currently \$126.74 per hour. This equates to \$8,872 per week or \$461,333 annually. The City has been notified that

the Sheriff's rate is increasing to \$132.69, a 4.69% increase for FY 2012/13. For the Mall, the rate increase will cost nearly \$22,000 more per year.

Over the years the City and representatives of the Mall have had several discussions regarding the required funding of law enforcement services. The most recent discussion at the City Council level was in 2004 when a proposal to reduce the required number of service hours at the Mall was considered. The proposal at that time was to reduce each 10-hour shift by 2 hours on weekdays and maintaining the 10-hour shifts on weekends. Since Sheriff's deputies work 10-hour shifts per their MOU, the remaining 2 hours per shift would have been completed on patrol or other duties not related to the Mall. The cost of the non-Mall service hours would have been paid by the City. At that time, the annual fiscal impact of this to the City's General Fund would have been approximately \$48,000. The City Council did not include this expenditure in the budget and the proposed change was not implemented.

In January, 2012, the Mall provided the City with a report (attached) prepared by consultant i3 security services which included the following recommendations:

- The elimination of the Mall law enforcement coverage on Monday through Thursday and reduce hours Friday through Sunday.
- That the Police Department "institute a new beat that includes the Mall and many surrounding retail and residential areas."
- That the Mall replace the deputy hours reduced above with the same number of hours of a security officer.

The Police Department reviewed the report submitted by the Mall and prepared an analysis (attached) summarized by the following:

- The Mall police services contract did not completely off-set the demand within the Mall reporting district.
- Continued expansion, including the introduction of alcohol sales with the opening of Round One, will increase the law enforcement demand.

### **FISCAL IMPACT**

The Moreno Valley Mall is a valued partner of the City as a shopping destination for the region, a provider of jobs for our residents, and a generator of much-needed revenues for the General Fund. With taxable sales of \$73,500,000, the Mall provided \$735,000 in sales tax revenue to the City in FY 2011/12. However, the Mall generated 2,487 calls for service in 2012. If the City eliminated the dedicated police services at the Mall, the demand would continue but existing patrol officers would be required to respond, pulling them away from calls for service not related to the Mall. With an on-going General Fund budget deficit (projected at over \$6 million for FY 2013/14), the City is not in a position to fund these services in lieu of the existing agreement with the Mall. Additionally, the Council-approved Deficit Elimination Plan includes significant budget reductions in the Police Department which will already require a reduced level of service Citywide.

## Introduction

This report is predicated upon a portion of the agreement between the City of Moreno Valley and Moreno Valley Mall. This particular portion allows the Mall to request an audit of the law enforcement services provided to it by the City, utilizing the Riverside County Sheriff's Department which is in turn contracted by the City for provision of its law enforcement needs.

The report summarizes the review or audit by the writer of these services, including cost factors, performance issues, effectiveness and deployment/assignment scheduling. In order to conduct this review, the writer utilized the following methodology:

- Review of documents, including crime statistics and analyses, deployment schedules, invoices for services rendered, sign-in sheets, contracts, prior reviews and the Agreement itself.
- Interviews of key stakeholders including Mall Management, Security personnel, Sheriff's Department representatives, and tenant employees or managers.
- Observation of Deputy activities.
- General review of Security operations as they relate to law enforcement deployment, presence and activity.

As a result of these procedures, the writer generally consolidated information into three major categories as they relate to the Agreement's operation at the Mall:

1. Cost information. This includes an examination of the cost per hour for each Deputy, cost of the overall program, and comparison with other such provisions elsewhere.
2. Deployment review. This examines the use of Deputy hours in light of the Mall's needs, appraised in light of crime and disorder issues, Security operations, and comparisons with similar Malls and retail districts.
3. Efficacy, or cost-effectiveness. This determination combines the results of the above items; that is, does the money and time spent result in quantifiable results such as lower crime rates, positive customer and tenant perception of safety and security, and decreased incidents of disorder and incivility. This determination also includes evaluating the quality of service provided by assigned Deputies, appraising their performance of duties at the Mall.

While much of the data examined is strictly factual, its application, relevance and appropriateness are subjectively evaluated by the writer. These evaluations are based upon the writer's thirty-six years of experience as a police officer, security director, senior security company manager and consultant. Twenty of these years have specialized in shopping center security with security assessments, program development and administration, and law enforcement liaison playing significant roles. While there are no specific standards for amount of law enforcement and security operation at shopping centers, the writer relies on evaluating these factors in context of their existence. That is, every facility and location is different, and requires application of training and experience to properly and uniformly evaluate such matters at the individual place.

It should be noted, therefore, that these evaluations cannot guarantee safety or security at or of the Mall, and the writer makes no such guarantee of their absolute effectiveness or that changing circumstances would not alter opinions and statements made in the report. It may, however, be assumed that appropriate benchmarks interpreted by the writer are utilized in making recommendations and observations.

Appended to the report is the writer's *Curriculum Vitae*.

### Cost Information

The Riverside County Sheriff's Office has determined an overall cost of the hour of a Deputy's assignment. This cost includes the salary and benefits of the Deputy, as well as the support of the entire Office. This includes portions of the cost of supervision, training, equipment, administrative operations, dispatching, insurances, special unit participation, and other related expenses.

It was determined that this cost figure is universally applied to all Sheriff Deputy deployment at this and other locations contracted. That is, the cost per hour is the same for any number of Deputies, and does not reflect any variation in the largest component of the total figure—Deputy labor and benefit costs. Instead, the total reflects an average or typical cost, which may relate to lower or higher-paid personnel. As a practical matter, this is entirely understandable as the alternative would be hundreds of different cost calculations per the entire Deputy force.

Indeed, the rate passed on to the Mall is a direct pass-through. The County bills the City, which in turn bills the Mall without additional fees or costs added. This particular rate is referred to as the "supported" rate, meaning that a Deputy will always fill the required commitment of hours, even if a relief or non-regular person is sent to replace the missing hours of the regular Deputy. While there is theoretically a "non-supported" rate, this does not provide a replacement Deputy to provide hours missed.

As a result, the writer does not recommend that a non-supported concept be utilized. From a liability standpoint, it is crucial to have coverage for committed periods at all time, irrespective of the cost or effort. This does not mean that a rate closer to the non-supported one, which is clearly lower than the supported one, cannot be sought. It is noted, however, that the supported rate is indeed strongly customary, and could only be reduced if other financial considerations are included. That is, it is entirely proper that the Mall should have a rate lower than the supported one because it provides financial support to the City in many other ways including sales and use tax revenues. While this other financial support may be difficult to quantify, it is clearly an amount that would be sorely missed if the Mall were to become non-viable or close. Thus, the writer advocates that the City modify the hourly rate paid by the Mall by including the consideration that the passed-through cost has been treated as standalone revenue, and not the only source of funding that the Mall generates.

The overall, total cost to the Mall on a yearly basis must also be considered. Indeed, this cost effectively doubles the cost for overall security at the center. It therefore makes the Mall less

competitive with other locations in attracting and retaining tenants. By having high rates of Common Area Maintenance ("CAM") the Mall is at a distinct disadvantage in obtaining local businesses. The major stores, such as Macy's, are minimally affected by this cost, particularly since they pay only a very small part of CAM. Ironically, these stores are responsible for a disproportionate amount of Deputy time, as they usually have Loss Prevention personnel who interdict substantial numbers of shoplifting and fraud suspects and require law enforcement participation in processing those people. Thus, while these stores pay less, they use more. This has a direct effect on the Mall's bottom line, requiring that the Mall absorb much of this cost to the detriment of other desirable expenditures.

Further, in the writer's experience the hourly and total cost to malls similar to Moreno Valley Mall are substantially less. Of course, some of this may be due to lower pay rates, but is largely due to the jurisdiction taking other financial contributions into the equation that produces a rate. Several such malls in the greater Los Angeles area pay less than one-third what Moreno Valley does for similar levels of service.

The writer therefore believes that the hourly and total cost of the provision of a Deputy are onerous and unusual ones. While the cost figure itself may well be accurate in terms of quantifying the actual cost of a Deputy's hour, it fails to acknowledge both the fact of the Mall's other financial contributions to the City and County, as well as failing to recognize the impact the cost has on the Mall's ability to do business. It is strongly recommended that significant consideration of these impacts should be factored into the rate charged for a Deputy.

### Deployment

It is in this area that the costs are generated. While the Mall may have at one time required the level of law enforcement presence still in place and required by the Agreement, it is more relevant to note that the entire context of the mall and its operation have changed during its existence. That is, when first opened the Mall was the only thing in its large neighborhood, and was thus more likely to see a concentration of both negative and positive use. It was the only place that youth exhibiting negative behavior could exhibit it. While this remains the major issue at this and almost every large mall in the United States, its concentration at Moreno Valley Mall has diminished over the almost twenty years of its existence. The Mall is now surrounded by other venues that have security, safety and perception issues. None of these other, similar venues are required to have significant law enforcement presence.

Moreover, in this time frame, mall security in general has been entirely transformed. At the opening of this Mall, the standard operation of mall security was only to observe and report. Officers were not to venture into tenant spaces except on extraordinary matters, their training was minimal, the number and qualification of officers was minimal, equipment was rudimentary and management unprofessional and inexperienced. Since then, however, mall security (and much of the private security industry) has raised hiring standards, instituted massive additions of training in First Aid, self defense, conflict resolution, report writing, professional standards of line and supervisory roles, tenant relations, law enforcement liaison and numerous other components. Thus, qualified security operations, such as the Mall now supports, are radically

improved and capable of and expected to perform much higher levels of proactive and reactive security, customer care and relations, and indeed many law enforcement roles. In fact, this Mall's operation includes armed officers at appropriate times, a sophisticated training and operation plan, experienced management and a much more professional appearance than that of mall security five years, let alone twenty years, ago.

Because of these changes, Mall Security performs much of the work previously done by law enforcement. The writer wrote a White Paper entitled "*The Changing of the Guard*" describing this transformation of observe-and-report security to a Para Policing concept. (See the attached paper at the end of this report).

In addition to this very great change in the quality and performance of mall security, use of technology has burgeoned in general and specifically at Moreno Valley mall. Consider how much technology has transformed personal and business life, and one can see how it is applicable to the Mall's security. The sophisticated camera system now in place at the Mall provides an expanded view of it and is a "force multiplier," providing Security with increased ability to observe activity and to record incidents as appropriate.

The typical call for service is responded to and handled by Security which may only call on a Deputy for a final arrest or reporting purposes. In many comparable malls, law enforcement is only available to the mall as if it were any single business in the jurisdiction. While the writer certainly recognizes and recommends the presence of law enforcement, the real issue here is the amount of such presence.

Several factors should (and do) contribute to the decision of how many law enforcement personnel and how often they are on site. One certainly is the state of crime at the site. This Mall can be categorized as low in Crimes Against Persons, the most dangerous and undesirable form, and about average in Crimes Against Property, which in this context generally involves shoplifting fraud and the like. In most cases the latter form is not even known to patrons, and generally the Deputy is merely taking a report or taking into custody a person who has already been detained by the store or even Security.

In this respect, then, the Mall does not need Deputies to deal with above average or extensive crimes; most of the very few cases are handled in other ways anyway.

Another need for sworn law enforcement in general is the need for the position in order to validate or impose authority on people engaged in undesirable conduct. While this can be a very real need, it is minimized by the nature of the Security operation, including its former law enforcement officers, who project the necessary authority.

The potential of deterring crime by the mere presence of uniformed Deputies is often pointed to as a reason for deployment. This effect is tenuous at best, as deterrence only occurs at the fairly specific location of the Deputy. Numerous studies about the actual deterrent effect of law enforcement patrol have pointed out its limited effect. (For example, the well-known *Kansas City Patrol Experiment*). The writer, again, does not advocate the entire removal of Deputies from the Mall, but rather a consideration of the need for them on specific days and specific

times. The Mall's Security Director furnished the writer an analysis of the day and time of crimes occurring at the Mall. The analysis shows that crimes are heavily concentrated on Friday and Saturday, with Monday and Wednesday very low and the other weekdays almost as low. Yet, Deputy deployment is the same for all days of the week, a clearly unjustified use of staff.

The writer proposes a specific change in this deployment, along with a potential way of achieving reduction without significantly reducing the effectiveness of law enforcement presence at the Mall and in the City in general. There may actually be some increased benefit to this reduction, in addition to a more appropriate level of deployment. It should be noted that previous audits of the Agreement's implementation recommended similar reductions in Deputy deployment for similar reasons. The recommendations are:

1. Eliminate Deputy time on Monday, Tuesday, Wednesday and Thursday. The crime on these days is so low as to not require law enforcement presence constantly at the Mall. Further, slight cuts could be made on the hours worked on the other days, perhaps having the Deputy come on duty slightly later and leaving slightly earlier; these cuts are particularly applicable to Sunday's reduced Mall hours. This is also supported by the analysis of crimes, as well as the nature of the activity at the Mall.

While the argument might be made that if this time is eliminated, it may mean the actual elimination of a Deputy position. In fact, this may be a highly desirable way of reducing the Sheriff Department's budget. In these harsh economic times affecting civil services, elimination of this almost-fulltime position by attrition would provide reduction of one entire Deputy's cost, without affecting the overall service offered to the community. Rather than remove a Deputy from City duties, reducing approximately forty hours of service at the Mall would allow a budgetary reduction without any pain to either the Department, the City or its residents.

During the times the Mall would be without a Deputy, normal Sheriff's Department response would take the same form as any other entity within the City—a normal call for service would be dispatched for beat Deputies. This is in fact what occurs now when a regular Deputy is not scheduled to be at the Mall.

2. Alternatively, institute a new beat that includes the Mall and many surrounding retail and residential areas. This would provide an additional Deputy for general street duty and allow for the cost of this Deputy to be partially supported by each or many of the beat's "customers." The negative of this approach is that it would leave the Mall without the dedicated coverage on its busiest days, Friday and Saturday. An analysis of sources of support for this concept, financially and otherwise, might show it feasible to actually leave the dedicated Deputy on duty at the Mall on those days, in addition to the continuing new beat officer. Many businesses might be overjoyed to have even a small part of a dedicated Deputy's time and interested in contributing to his cost.
3. The writer recommends to the Mall that it replace this lost full time coverage with the same number of hours of an additional Security officer. While this is not intended to

replace the functions of a sworn Deputy, it would allow additional flexibility to the Security Director's already active program.

### **Cost Effectiveness of Law Enforcement Presence**

In light of the afore-mentioned crime analysis and low level of activity requiring sworn law enforcement presence, it is appropriate to quantify the effectiveness of the program in relation to its cost. For the Mall, these costs are not merely directly incurred, but have a significant impact on the Mall's ability to attract and retain tenants of all types. Because of the high costs involved, there have actually been incidents of existing tenants having to leave the Mall to remain competitive.

It is therefore important to determine whether the expense is justified by the need. The main measure of this is the Mall's crime rate; if it is low, not as much presence is required. While Deputy presence may have some impact upon actual crime rates, this cannot, by definition, be as significant as the presence of three times as many Security personnel.

The writer has observed and been told of the fact that Deputies are not highly visible, do not interact extensively with tenants and customers, and are often to be found in the substation office. The argument cannot be made, then, that they have had a great impact on crime at the center when they are only minimally involved in crime prevention activities. It is also true that the general function of the Deputies has been to pick up a situation after it has been resolved by Security.

It was noted that with a change in supervision, the requirements of active duties is being reinforced. However, it may be seen that the Agreement's only slightly specific list of Deputy duties is not wholly met. For instance, the agreement calls for investigations by the Deputies as well as for them to be the liaison between the parties to the Agreement. Neither of these duties is effectively performed.

With an improvement in the quality of service, it might be expected that more impact on crime and disorder might be accomplished, but there is sufficient evidence that Security and regular beat Deputies as well as special units within the Department are largely responsible for the low crime and improvement in order at the Mall.

### Conclusions

- 1) The hourly and cumulative costs of service to the Mall are burdensome to the Mall itself, its ability to be competitive, and prohibitive to many tenants. The hourly cost is arrived at solely by considering it a complete pass-through, without consideration of other financial contributions by the Mall. However, the hourly rate in and of itself appears to be very unchangeable, as it is applied universally by the Sheriff's Department. It is therefore the second area that has the potential to reduce the cumulative costs.
- 2) Deployment hours for Deputies at the Mall are excessive in light of low crime and disorder levels. This conclusion is based on those statistics, as well as comparison with similar malls. Further, very substantial components of law enforcement operations are competently borne by the Security Department of the Center.
- 3) Additionally, the actual service provided has not been seen to be of a quality expected by both parties to the Agreement. This would suggest that contribution to the Mall's low crime rate by the assigned Deputies has been minimal, with more contribution by Mall Security and specialized Sheriff's Department units.

In summary, the writer cannot conclude that the amount of service time provided by on-site Deputies can be justified either in terms of its cost and cost effectiveness, or by the simple need of this significant presence in light of the activities at the Mall.

**“The Changing of the Guard”**  
(ParaPolicing in the Shopping Center)

An IPC International Corporation  
White Paper  
On Contemporary Security Issues

If the terrorist attacks of September 11, 2001 did not change the security world entirely, they were certainly a culmination, a focusing of the need for more and better security measures throughout the world. In the shopping center environment, they constituted another, and massive, element in a lengthening list of increased demands on mall security. Since the earliest security guards unlocked the mall in the morning, to the most recent work of Public Safety Officers, the shopping center, like the outside world, has become more complex, more diverse in its threats, and has required a much higher level of involvement and performance on the part of those who secure them.

It's appropriate to wonder where this has taken us, and where it might take mall security in the near future. As with most incremental change, we may not realize how radically different its role is today from just twenty, ten or even five years ago. Our perception of how security meets its challenges changes all the time, but the changes in demands have been so complex that we may not have examined the fundamental basis of responses to those challenges.

At the same time that mall security has evolved, changes in the public sector and in the security industry (if it is one) have both complicated and simplified responses to change. Shrinking law enforcement budgets with expanded responsibilities, along with increased population densities and increases in violence, have changed the landscape for public policing and produced a new paradigm—the Parapolice.

With this White Paper, we will examine the parallel changes of private mall security and public law enforcement, as well as where security and policing have met in this new middle ground. While not proposing that Parapolicing is inevitable, mandatory or even desirable, it is important to look at how this new paradigm is so similar to the place mall security finds itself in the twenty-first century.

### *Two Parallel Histories.....*

At the very beginning of the shopping center, enclosed or not, security was performed by a guard. He (and it was always “he”) locked the center at night, and unlocked it in the morning, probably spending the night in the abject boredom of the night watchman’s world. Crime at the center, if there was any, was the sole bailiwick of the local police, who were not challenged by violent

crimes, or very much crime at all. Youth did not hang out; there were no video games. There were no video surveillance cameras either, or bicycle patrols, Segways, or even security cars on patrol. The guard was rarely called upon for customer service, and hardly encountered a tenant.

As the shopping center became more of a main street, and as crime increased and center managers wanted a visible relationship with their customers, the guard became a blazer-clad ambassador, smiling, greeting and deterring the occasional property crime that found its way onto the grounds. There actually was some training for the guard, in law and public service. But the demands remained minimal and easily handled by casually uniformed, and casually trained, guards.

But it became clear that customers had more to fear as time went on. The presence of a crisply uniformed person, who could do all the guard could do and also provide a visible deterrence, became a necessity. The need to protect the customer, project a visible deterrence, provide for safety and the perception of security evolved the guard into the Public Safety Officer. The Officer, (now "he" AND "she") became a jack of many trades, deterring crime, giving directions, locking the doors, and even answering radio calls for assistance. Training needs jumped from none to substantial; states imposed requirements of basic learning in the components of the work. Job seekers became interested in a career in private Public Safety, a career that had become legitimate and not the last resort.

Once this quantum leap occurred, it seemed that shopping center managers suddenly realized they had an asset, a program, a component of their center's success or failure in the marketplace. No longer hidden from the public, security presence needed to become the center's most visible entity. The Public Safety Officer now faced more duties, a more complex environment, and even provided a component of competition among owners—who's got the best? Steadily, and not so slowly at times, the Public Safety Officer position was now one that required weeks of training, professional regulation and management; conferences, seminars, classes and certifications burgeoned. Whole companies and departments were devoted to the improvement of the personnel, the job and even the technology of security.

Along the lines of technology, video systems went from non-existent to essential. Callboxes, remote monitoring, exotic patrol vehicles, Personal Digital Assistants, radio systems, Automated External Defibrillators (AED), watchtour systems, appeared at centers, and continue to proliferate.

The expertise needed to incorporate and operate these systems yet again increased the demands on Public Safety Officers.

Premises and security liability cases became more focused on shopping centers, which rose on the list of most-exposed facilities. Training in this area paralleled its increased cost, for awards and insurance. Liability became a teacher, a driver of policy and a consideration in managing operations.

Pay rates increased. Costs of equipment became significant, and could not always be recovered from tenants or after litigation. Officers faced more violence, committed against tenants, customers and themselves.

And then, September 11. Suddenly, along with the attention being paid increasingly to natural disaster preparedness, Public Safety became the designated manager of the threats of terrorism to the mall. Another quantum leap in training, selection, backgrounding and performance took place. Budgets, too, jumped, although settling again after the initial shock wore off.

In short, the role of the guard became that of a highly sophisticated, well-trained Public Safety Officer challenged by everything from potential acts of terrorism to delivering memos to tenants. Whether it is reality or perception, the expectation for Public safety is to be the optimum blend of customer service provider, crime preventer/deterrent, fire protection specialist, police officer, mall directory, linguist, blood-borne pathogen technician, paramedic, babysitter, legal expert, weapons-of-mass-destruction expert, gang recognition expert, risk manager, statistician, electronic technology operator and defender of the homeland, one wonders if today's Public Safety Officer's uniform should bear a large "S" and include a cape. Perhaps the most significant expectation is the requirement of changing their personality, behavior and posture from friendly to authoritarian ... instantly (and back again). And oh, by the way, multi-lingual, culturally diverse and adolescent psychology skills are a huge plus.

While this revolution, or at least wholesale evolution, was taking place, the world of law enforcement was changing too. Training levels for police officers increased; liability became a major concern and driver of policy for them too. Very few law enforcement departments have grown along with their jurisdictions in these twenty years. In fact, population densities have

increased while in many cases police departments have shrunk, or even disappeared in the loss of budget and the increase of costs.

At about that twenty-year-ago mark, crime rates were in the midst of unprecedented increases. Accompanied by the cocaine epidemic, almost every category of crime doubled and more over a thirty-year period. Police departments struggled with their old models of reactive law enforcement and saw them ineffective against the tide. New models of proactive crime prevention came into vogue; these, with several other factors, finally became effective, as our most recent ten years' crime statistics have shown steady and significant declines. Some of these techniques came to be applicable to private security efforts, such as Community Policing and Problem Oriented Policing, and found their way into the toolbox of shopping centers<sup>1</sup>.

But a certain kind of damage had been done to society's perception of crime. As crime rates have come down, the fear of crime has steadily increased. Because violence has moved out of the inner city, and crime has become pervasive, people fear crime everywhere as never before. Thus, the provision of safety has become mandatory while police have been largely unable to provide it everywhere. The Supreme Court has found repeatedly that citizens are not owed an individual right of police protection.

So, while the shopping center's Public Safety Officers have needed the police more, and have been confronted with higher expectations of themselves and of the center's security, public law enforcement has been largely unable to meet the increased needs of every sector of society.....*and how they converge*

In the world outside of the shopping center, several solutions to these parallel and mutually contradictory histories were being developed. In Canada, the term *Parapolice* began to define a convergence of private security's assumption of many of public law enforcement's roles, and even of whole territories.

A 2002 study of the phenomenon examined both the theories of Parapolicing as well as its practice in one company's operations in Toronto<sup>2</sup>.

---

1. "Cops, Pops—Perfect for Today's Malls", CARLSON REPORT, October, 1998

2. Rigakos, George S.: *The New Parapolice: Risk Markets and Commodified Social Control*. University of Toronto Press, 2002

Very simply put, the study showed that a private organization had taken over both the private security and law enforcement needs of specific properties or facilities. The company acted assertively in crime prevention, customer relations, and life safety areas as would be typical of any Public Safety function, but also assumed the sometimes aggressive business of "cleaning up" crime ridden areas of housing projects, protecting valuable assets and generally preserving the peace.

The study, often mired in academic questions and terminology, does point out the effectiveness of Parapolicing in terms of its ability to apply needed solutions. It theorizes about the effect of privatizing public policy, and delves into the dangers and risks of private entities applying such policy.

Parapolicing has become a "new" trend in thinking about private security. Various industries have recognized the convergence of the two parallel histories and are seeking solutions. But, after all, is this concept so different from the role that Public Safety now plays at shopping centers? At some, political jurisdictions have passed legislation literally creating private police forces, with all the authority, powers, and training requirements of a public agency<sup>3</sup>. As law enforcement agencies shrink and become unable to provide the increased needs of shopping centers, Public Safety steps up: more and more involvement with tenants, more equipment, more assaults on Officers.

Perhaps the convergence should make us think about just how far mall security has come, and where it needs to go. More specifically, recognizing that Public Safety Officers are a long way towards being Parapolice Officers would help us to put our needs and theirs into a new perspective. Mall security can no longer be thought of as casual, performed by underpaid part time employees. We have already called for much more than this from security personnel and operations; we should be thinking about dropping the other shoe, and empowering Public Safety to step up to the rest of the job. Recognizing the professionalism of the task and including the Public Safety component as critical planning piece would entail increased training, widened budgets and assumed risks, but there may already be a gap between the perception of what is required of Public Safety and the tools and authority we grant to accomplish those goals. The need to further professionalize is not met only with budget, but also with appreciation of the philosophical commitment to the totality of the Public Safety mission, outside of mere deployment.

---

<sup>3</sup> See Michigan's Public Act 330, for an example

Noting that Public Safety Officers have incrementally become closer to Parapolice, it is well to realize that the process has been largely inadvertent. More responsibility and more complexity have been placed on security over a relatively short time, and largely without a strategic plan. Perhaps we should now be looking at how to construct a development strategy that takes Public Safety farther along the road to Parapolicing and the concomitant professionalizing that implies. We should recognize that while Public Safety is doing much more than ever, it is doing it with smaller resources, and certainly without enough resources to expand its role both philosophically and operationally. It may not be enough to continue to load the camel until the straw breaks its back. Revising the philosophy of the security role into that of Parapolicing requires major changes in how broad that role should be, as well as in how that role is fulfilled.

Perhaps one change might be in the authority to arrest. Since many jurisdictions allow private security officers to obtain essentially the same arrest powers local police have, might we not want to obtain those powers to replace the missing police presence. Of course, the training for this function would need to be increased. Concerns about liability for these actions are certainly realistic, but training and active supervision can minimize such concerns.

In order that we continue to increase abilities to forecast and prevent crime, we might be looking at the use of crime mapping and analysis tools in wide law enforcement use. Involving Public Safety in planning facilities can have a great impact on crime prevention, too.

To physically equip Officers for these roles, equipment would be a necessity. If we have them assume more assertive arrest roles, restraining devices and even detention facilities should be considered. If we expect sophisticated thinking and crime analysis, better software, hardware and *education*, not just *training* will be a must.

Of course, the overall implication is the concept of *upgrading*. In this context, we would mean that the role and performance expectations of Public Safety Officers who transition to a Parapolicing role must be upgraded in training, pay, supervision, appearance, equipment – really in every aspect of the job and its incumbents. We would have the right to expect higher levels of general education (just as many police agencies have required years of college completion); we would assume physical standards must be met; supporting policy and procedure manuals would reflect changes in

philosophy. These changes would of course mandate that budgets increase to compensate for more qualified and trained personnel; the actual changes would depend on market forces.

While we have discussed some possible changes of Public Safety to Parapolicing, we have not discussed specifics of budget, and other numbers. Such analyses are truly the work of the individual shopping center or portfolio. Understanding the philosophical shift that accompanies the transition leads to discussion of what parts are right for each center. Only with these conceptual determinations can real numbers be placed on the changes.

We see more organized criminal attacks on retail tenants, more domestic violence occurring at the centers, more Officers equipped with handcuffs and chemical agents, and yet less police in the center. Our budgets cannot meet the costs of police presence, even if it is available. It may just be the time to look at Parapolicing as a logical and not-so-huge progression of what the Public Safety Officer already is doing in the shopping center.

### About IPC International

**Jonathan G. Lusher**, Senior Vice President Domestic & International Consulting Services, is the primary contributing author for this white paper. Mr. Lusher is a highly respected and international authority on security and security design issues. He is a founding member and a Director of the International Crime Prevention Through Environmental Design (CPTED) and is an active member of organizations including the International Society of Crime of Criminology. Mr. Lusher is a former Chief State Regulator and he was a Detective with the Baltimore, Maryland Police Department. He has written numerous pieces on security issues and design, and he is frequently quoted in the shopping center industry press.

**IPC International Corporation** is the industry leader of security services for owners, developers and managers of shopping centers in North America. IPC serves over 375 shopping centers in 300 U.S. communities and provides security services to centers on the isle of Puerto Rico. IPC has been the leader in this specialized security field since 1978.

**Moreno Valley Police Department  
Patrol Operations Division**

**MEMORANDUM**

---

To: Capt. Anderson  
From: Lt. Ford  
Date: May 8, 2012  
Subject: Moreno Valley Mall Police Services Contract

---

On December 1, 2011, Sergeant Eric Briddick and I met with the Moreno Valley Mall General Manager, Donna Farrell (Cushman & Wakefield) and her security consultant, Jonathan Lusher to discuss the Mall Police Services contract. Ms. Farrell requested the meeting to exercise an annual option to evaluate the contract. During the meeting, Sergeant Briddick and I explained our law enforcement philosophy and discussed the level of police service they received; however, we informed Ms. Farrell that we had no authority to discuss the terms of the contract. At the conclusion of the meeting, we agreed to provide Ms. Farrell with Calls for Service (CFS) data for the Mall and other comparable reporting districts within Riverside County. On December 14, 2011, Sergeant Briddick e-mailed Ms. Farrell the requested data.

In February of 2012, Ms. Farrell submitted Mr. Lusher's report in support of reducing the Mall's police services contract. Mr. Lusher's opinion was largely supported by his theory that much of the law enforcement demand associated with the Mall could be more cost effectively addressed by reducing sworn police services, increasing non-sworn police services, and increasing the use of an extended function civilian security force.

On April 3, 2012, Sergeant Briddick, Assistant City Manager, Michelle Dawson, Chief Financial Officer, Rick Teichert, and I met with Ms. Farrell to discuss her company's desire to reduce or eliminate their contractual obligation for police services. During the meeting, Ms. Farrell expressed her belief that Mr. Lusher's report justified the reduction of police service; but offered no additional information in support of the requested reduction.

After the April 3, 2012 meeting, Nicole Epps prepared a report that presented the Mall's law enforcement demand in comparison to the entire City's demand for a six month time frame. The report showed that between October 1, 2011 and March 31, 2012 the whole City of Moreno Valley generated 65,111 CFS. In comparison, the Moreno Valley

Mall CFS totaled 1,234, or 1.9%, of the City's total law enforcement demand.

During the time frame of the report, the City of Moreno Valley contracted for roughly 60 deputies over a 24 hour period. Based on the total call volume, each deputy on average was responsible for 1,085 CFS, or 1.7% of the total call volume. (NOTE: Because the contract hours delivered fluctuate from day to day and combined with the fact that not all the police service units work 24 hours every day, the number of deputies referenced here is an estimate and only includes sworn personnel assigned to Patrol, SET, POP, Traffic, BST, and RST. Furthermore, because Patrol is the only division that consistently staffs deputies for a full 24 hours, the estimate is liberally high.)

During the period of the report, the Moreno Valley Mall management contracted for one deputy, for one ten hour shift per day; which equaled .42 deputies over a 24 hour period. The Moreno Valley Mall CFS volume accounted for 1.9% of the total call volume or law enforcement demand. The Mall law enforcement demand was 12% more than the workload carried by one full deputy over a 24 hour period (a minimum of 3 actual deputies). If the Mall reduced or eliminated their police services contract, the entire law enforcement demand would fall on the City's existing police resources. The impact of the increased demand could be absorbed by the surrounding patrol beats; but not without a correlating strain.

Of the 65,111 CFS reported, roughly 5% of those calls were handled by non sworn law enforcement personnel. It would be fair to conclude that the same percentage of CFS in the Mall reporting district were handled or could have been handled by non-sworn personnel.

This analysis shows the Mall police services contract did not completely off-set the law enforcement demand within the Mall reporting district. Additionally, based on the fact the Mall is expanding their buildings and businesses and will include the sales of alcohol, it is reasonable to conclude the law enforcement demand will increase in the months and years to come.

## Report to City Council

**TO:** Mayor and City Council

**FROM:** Joel Ontiveros, Chief of Police

**AGENDA DATE:** March 26, 2013

**TITLE:** AUTHORIZE THE APPLICATION AND ACCEPT THE AWARD OF "IT'S UP TO ALL OF US" PEDESTRIAN SAFETY PUBLIC EDUCATION CAMPAIGN GRANT

### RECOMMENDED ACTION

Recommendations:

1. Approve the grant application and authorize acceptance (if granted) of the "It's Up to All of Us" Pedestrian Safety Public Education Campaign Grant in the amount of \$3,600 for the period beginning April 15, 2013 and ending September 15, 2013.
2. Authorize the revenue and expense budgets in the California Department of Public Health – Police Fund (Fund 2705) for the "It's Up to All of Us" Grant in the amounts of \$3,600, respectively, upon approval and acceptance of the grant from the California Department of Public Health, Pedestrian Safety Program.

### ADVISORY BOARD/COMMISSION RECOMMENDATION

The California Department of Public Health, Pedestrian Safety Program announced this grant opportunity on February 14, 2013. Due to a number of conflicts, we were unable to present the grant opportunity to the Public Safety Sub-Committee or the City Council before the application deadline of March 8, 2013. Additionally, the award will be announced on March 21, 2013, which is five days before the next City Council meeting on March 26, 2013. Because the Police Department has historically enjoyed City Council approval to apply for and accept this grant, and to avoid missing the grant funding opportunity, we submitted the grant application on March 8, 2013. This grant is on the agenda for the PSSC meeting on March 18, 2013 and the City Council Meeting on March 26, 2013.

## **BACKGROUND**

The California Department of Public Health (CDPH), Pedestrian Safety Program is pleased to solicit applications to fund community projects for local implementation of the "It's Up to All of Us" pedestrian safety education campaign. It is California's effort to create and disseminate educational templates that provide consistent statewide messaging regarding pedestrian safety. Some of the designs have a norm change focus, since the most effective form of pedestrian safety education is that which influences cultural shifts. The target audiences include pedestrians, drivers and communities.

## **DISCUSSION**

On February 14, 2013, staff received notice of a competitive grant program offered by the California Department of Public Health. All service activities awarded through this application will be for promotion and implementation of a local educational campaign using "It's Up to All of Us" materials. The materials for the "It's Up to All of Us" campaign consist of several high resolution educational templates that can be promoted through the internet, community outreach and educational forums.

Awardees will have roughly five months to complete the campaign, from April 15, 2013 – September 15, 2013. This is a reimbursement program. Selected applicants must use their own funds first and at the conclusion of the campaign period, submit a final invoice on their agency letterhead to CDPH/PedSafe. The invoice must be submitted by September 20, 2013, for reimbursement along with a report of the project activities that took place during the award period.

We are planning to kick off our campaign with a press release informing the citizens of Moreno Valley that we are serious about pedestrian safety. Pedestrian safety is a collaborative effort between pedestrians, drivers and our community. We would like to produce "It's Up to All of Us" campaign posters and flyers to display and disseminate at our school campuses, community centers, government buildings, parks, DUI checkpoints, high risk locations such as senior care facilities, etc. We will utilize the city website and work with our city local cable access channel to produce a Public Service Announcement.

Our Traffic Division will coordinate assemblies with some of our local schools. The assemblies will be conducted by law enforcement personnel and the purpose will be to educate the students on the dangers of crossing the street while distracted and inattentive. We will also instruct students on how to properly cross the street. Another operation we plan on conducting is pedestrian decoy programs. During these operations, motorists are cited for not yielding to our "decoy", who is an undercover police officer dressed in a costume such as Santa Claus or an oversized traffic cone.

We are currently working with "Safe Routes to Schools" and will continue to partner with them during the grant period.

**ALTERNATIVES**

The Council has the following alternatives:

- 1) Approve the application and award acceptance (if awarded) of the CDPH/PedSafe Grant titled "It's Up to All of Us": A Pedestrian Safety Public Education Campaign Grant in the amount of \$3,600 and authorize the revenue and expense budgets in the California Department of Public Health – Police Fund (Fund 2705) for the "It's Up to All of Us": A Pedestrian Safety Public Education Campaign Grant in the amount of \$3,600, respectively, upon approval and acceptance of the grant from CDPH/PedSafe. **Staff recommends this alternative.**
- 2) Not approve the application or award for the CDPH/PedSafe Grant titled "It's Up to All of Us": A Pedestrian Safety Public Education Campaign Grant not authorize the revenue and expense budgets in the California Department of Public Health – Police Fund (Fund 2705) for the "It's Up to All of Us": A Pedestrian Safety Public Education Campaign Grant in the amount of \$3,600, respectively, upon approval and acceptance of the grant from CDPH/PedSafe. **Staff does not recommend this alternative.**

**FISCAL IMPACT**

There is no requirement to match funds associated with this grant. All expenses are reimbursed by the grant. Therefore, this is cost neutral to the City and there is no impact to the General Fund.

Budget appropriations are as follows upon approval and acceptance of the grant:

<b><u>FUND</u></b>	<b><u>BUSINESS UNIT</u></b>	<b><u>TYPE</u></b>	<b><u>AMOUNT</u></b>
CDPH - POLICE FUND (2705)	60-65-XXXXX-485000 (Fed Grant Oper. Rev.)	REV	\$3,600
CDPH - POLICE FUND (2705)	60-65-XXXXX-630214 (Printing & Binding)	EXP	\$3,600

**CITY COUNCIL GOALS**

To provide a safe and secure environment for people and property in the community, and provide protection for citizens who live, work and visit the City of Moreno Valley. The City-wide camera surveillance system will aid in this goal by helping to reduce crime, identify criminals who do commit crimes, and make a safer and more secure environment for the citizens in our community.

**SUMMARY**

The City Council is requested to approve the application and acceptance (if awarded) of the CDPH/PedSafe Grant titled "It's Up to All of Us": A Pedestrian Safety Public Education Campaign Grant in the amount of \$3,600 and authorize the revenue and expense budgets in the California Department of Public Health – Police Fund (Fund

2705) for the "It's Up to All of Us": A Pedestrian Safety Public Education Campaign Grant in the amount of \$3,600, respectively, upon approval and acceptance of the grant from CDPH/PedSafe.

## Report to City Council

---

**TO:** Mayor and City Council

**FROM:** Abdul Ahmad, Fire Chief

**AGENDA DATE:** April 9, 2013

**TITLE:** APPROVE THE COOPERATIVE AGREEMENT WITH THE RIVERSIDE COUNTY FIRE DEPARTMENT FOR FIRE PROTECTION, FIRE PREVENTION, RESCUE, AND MEDICAL EMERGENCY SERVICES

---

### **RECOMMENDED ACTION**

Recommendations:

1. Approve the Cooperative Agreement with the Riverside County Fire Department for Fire Protection, Fire Prevention, Rescue and Medical Emergency Services (Attachment A).
2. Authorize the Mayor to execute the Cooperative Agreement.

### **ADVISORY BOARD/COMMISSION RECOMMENDATION**

The Cooperative Agreement with the Riverside County Fire Department for Fire Protection, Fire Prevention, Rescue and Medical Emergency Services was presented on March 18 to the Public Safety Subcommittee. The Subcommittee reviewed the Agreement and recommended that it be presented to City Council for approval.

### **BACKGROUND**

Since 1985, the City of Moreno Valley has received fire protection services through a Cooperative Agreement with the Riverside County Fire Department. This Agreement has been renewed on five separate occasions: 1990, 1993, 1997, 2002, and 2009. The current Agreement between the City and the County expired on June 30, 2012; however, per Section IV, Sections C and D, the County of Riverside notified the City on

June 21, 2012 that an extension of that agreement was granted for one full year due to negotiation delays between the County of Riverside and the State of California.

### **DISCUSSION**

The new Cooperative Agreement for Fire Protection, Fire Prevention, Rescue and Medical Emergency Services between the City of Moreno Valley and the County of Riverside has been reviewed by the City Attorney's Office and Riverside County Counsel's Office and has been approved by both legal counsels. The agreement will be effective from July 1, 2013 through June 30, 2016. The salient provisions of the Agreement are as follows:

1. The Agreement expires on June 20, 2016. One (1) year prior to the end of the Agreement, the City shall give the County written notice if they intend to enter into a new Agreement.
2. Either party may terminate the Agreement by providing written notice of termination to the other party no less than one (1) year prior to the expiration date of the Agreement. In no event shall this Agreement be terminated by either party after June 30, 2015.
3. In the event that the City requires a reduction of services or CAL FIRE employees, the city shall provide one hundred twenty (120) days written notice to the County.
4. As provided in Health and Safety Code Section 13009, the County may bring an action for collection of suppression costs of any fire caused by negligence, violation of law, or failure to correct noticed fire safety violations. When using City equipment and personnel under the terms of this Agreement, the County may, on request of the City, bring such an action for collection of costs incurred by the City. In the event of recovery, the County shall apportion to the City its pro-rata proportion of recovery, less the reasonable pro-rata costs including legal fees.

### **ALTERNATIVES**

1. Approve and authorize the recommended action as presented in this staff report. *This alternative will update the existing Fire Services Cooperative Agreement between the City of Moreno Valley and the County of Riverside.*
2. Do not approve and authorize the recommended actions as presented in this staff report. *This alternative would require City Council to provide direction to staff.*

**FISCAL IMPACT**

Funds for this Agreement are allocated each fiscal year as part of the City Council budget adoption process. No additional funds are being requested to support this agreement.

**CITY COUNCIL GOALS**

1. Public Safety. Provide a safe and secure environment for people and property in the community, control the number and severity of fire and hazardous material incidents, and provide protection for citizens who live, work and visit the City of Moreno Valley.
2. Positive Environment. Create a positive environment for the development of Moreno Valley.

**ATTACHMENTS**

Attachment 1: Cooperative Agreement for Fire Protection Services

Prepared By:  
Cynthia Owens  
Management Assistant

Department Head Approval:  
Abdul Ahmad  
Fire Chief

Council Action	
Approved as requested:	Referred to:
Approved as amended:	For:
Denied:	Continued until:
Other:	Hearing set for:

**A COOPERATIVE AGREEMENT  
TO PROVIDE FIRE PROTECTION, FIRE PREVENTION, RESCUE  
AND MEDICAL EMERGENCY SERVICES FOR THE CITY OF MORENO VALLEY**

THIS AGREEMENT, made and entered into this \_\_\_\_\_ day of \_\_\_\_\_, 2013, by and between the County of Riverside, a political subdivision of the State of California, on behalf of the Fire Department, (hereinafter referred to as "COUNTY") and the City of Moreno Valley, a duly created city, (hereinafter referred to as "CITY"), whereby it is agreed as follows:

**SECTION I: PURPOSE**

The purpose of this Agreement is to arrange for COUNTY, through its Cooperative Fire Programs Fire Protection Reimbursement Agreement ("CAL FIRE Agreement") with the California Department of Forestry and Fire Protection ("CAL FIRE") to provide CITY with fire protection, disaster preparedness and response, fire prevention, rescue, hazardous materials mitigation, technical rescue response, medical emergency services, and public service assists (hereinafter called "Fire Services"). This Agreement is entered into pursuant to the authority granted by Government Code Sections 55603, 55603.5, 55606, 55632 and 55642, and will provide a unified, cooperative, integrated, and effective fire services system. COUNTY's ability to perform under this Agreement is subject to the terms and conditions of the CAL FIRE Agreement.

**SECTION II: DESIGNATION OF FIRE CHIEF**

A. The County Fire Chief appointed by the Board of Supervisors, or his designee, (hereinafter referred to as "Chief") shall represent COUNTY and CITY during the period of this Agreement and Chief shall, under the supervision and direction of the County Board of Supervisors, have charge of the organization described in Exhibit "A", attached hereto and made a part hereof, for the purpose of providing Fire Services as deemed necessary to satisfy the needs of both the COUNTY and CITY, except upon those lands wherein other agencies of government have responsibility for the same or similar Fire Services.

B. CITY may budget for the position of a Deputy Chief or a Division Fire Chief or COUNTY may assign an existing Chief Officer as the Contract City representative ("City Representative"). The Chief may delegate certain authority to the City Representative, as the Chief's duly authorized designee and the City Representative shall be responsible for directing the Fire Services provided to CITY as set forth in Exhibit "A".

C. COUNTY will be allowed flexibility in the assignment of available personnel and equipment in order to provide the Fire Services as agreed upon herein.

D. CITY provides Fire Protection and Planning Services through the City Fire Marshal. The City Fire Marshal is under the supervision of and reports to the City Fire Chief.

### SECTION III: PAYMENT FOR SERVICES

A. CITY shall annually appropriate a fiscal year budget to support the Fire Services designated at a level of service mutually agreed upon by both parties and as set forth in Exhibit "A." This Exhibit may be amended in writing by mutual agreement by both parties in the event of an increase and/or decrease of salary or expenses or when CITY requests an increase and/or decrease in services.

1. Any changes to the salaries or expenses set forth in Exhibit "A" made necessary by action of the Legislature, CAL FIRE, or any other public agency with authority to direct changes in the level of salaries or expenses, shall be paid from the funds represented as set forth in Exhibit "A." There shall be no obligation on the part of CITY to expend or appropriate any sum in excess of Exhibit "A" which exceeds the yearly appropriation of CITY for the purposes of this Agreement. If within thirty (30) days after notice, in writing, from COUNTY to CITY that the actual cost of maintaining the services specified in Exhibit "A" as a result of action by the Legislature, CAL FIRE or other public agency will exceed the total amount specified therein, and CITY has failed to agree to make available the necessary additional funds, COUNTY shall have the right to unilaterally reduce the services furnished under this Agreement by an appropriate amount and shall promptly notify CITY, in writing, specifying the services to be reduced. Personnel reductions resulting solely due to an increase in employee salaries or expenses occurring after signing this Agreement and set forth in Exhibit "A" to this Agreement shall not be subject to relocation expense reimbursement by CITY, as outlined in Section III, B. If CITY desires to add funds to the total included herein to cover the cost of increased salaries or services necessitated by actions described herein, such increase shall be accomplished by an amendment to Exhibit "A" and approved by the parties hereto.

2. In the event CITY requests an increase in services and paragraph A.1. of this Section is not applicable, an amendment to Exhibit "A" may be approved by the parties hereto.

B. COUNTY provides fire personnel, equipment and services through its CAL FIRE Agreement. In the event CITY desires a reduction in CAL FIRE or COUNTY civil service employees or services assigned to CITY as provided for in Exhibit "A," when paragraph A.1. of this Section is not applicable, CITY shall provide one hundred twenty (120) days written notice of the requested reduction. Proper notification shall include the following: (1) The total amount of reduction; (2) The effective date of the reduction; and (3) The number of employees, by classification, affected by the proposed reduction. If such notice is not provided, CITY shall reimburse COUNTY for relocation costs

incurred by COUNTY because of the reduction, in addition to any other remedies available resulting from the reduction in services.

C. CITY shall pay COUNTY actual costs for Fire Services pursuant to this Agreement in an amount not to exceed that set forth in Exhibit "A," as amended. COUNTY shall make a claim to CITY for the actual cost of contracted services, pursuant to Exhibit "A," on a quarterly basis. CITY shall pay each claim within thirty (30) days after receipt thereof.

D. Chief may be authorized to negotiate and execute any amendments to Exhibit "A" of this Agreement on behalf of COUNTY as authorized by the Board of Supervisors. CITY shall designate a "Contract Administrator" who shall, under the supervision and direction of CITY, be authorized to execute amendments to Exhibit "A" on behalf of CITY.

E. \_\_\_\_\_ [ ] (Check only if applicable, and please initial to acknowledge) Additional terms as set forth in the attached Exhibit "B" are incorporated herein and shall additionally apply to this agreement regarding payment of services.

F. \_\_\_\_\_ [ X ] (Check only if applicable, and please initial to acknowledge) Additional terms as set forth in the attached Exhibit "C" are incorporated herein and shall additionally apply to this agreement regarding payment for the Fire Engine Use Agreement. In the event that a fire engine which was initially purchased by the CITY and then the CITY elects to have the COUNTY take responsibility of said fire engine(s), the following will apply. All capital improvements and/or betterments to the fire engine(s) will be the responsibility and paid for by the owner of said engine(s). All other maintenance and repairs to the fire engine(s) listed in the attached Exhibit "C" will be the responsibility and paid for by the COUNTY under this Agreement. The insurance responsibility will be dependant upon the CITY'S option to maintain or transfer title of said fire engine(s).

G. Notwithstanding Paragraph F herein if applicable, additional terms as set forth are incorporated herein and shall additionally apply to this agreement regarding payment of services. In the event that fire engine, owned and maintained by the CITY has a catastrophic failure, the COUNTY Fire Chief may allow use of a COUNTY fire engine, free of charge up to one hundred twenty (120) days. After the initial one hundred twenty (120) days, a rental fee will be applied to the CITY invoice for use of said COUNTY fire engine. The rental fee shall be Nine Hundred Forty Four Dollars (\$944.00) per day, or Six Thousand Six Hundred Eight Dollars (\$6,608.00) per week.

#### SECTION IV: INITIAL TERM AND RENEWAL

A. The term of this Agreement shall be from July 1, 2013, to June 30, 2016. Either party to this Agreement may terminate this Agreement by providing a written notice of termination to the other party hereto no less than one (1) year prior to the

expiration of the term hereof. If such notice is given unilaterally by COUNTY except any notice issued because of actions of CAL FIRE or CITY, COUNTY agrees to continue to provide Fire Services to CITY until such time as CITY has a reasonable opportunity to implement alternative Fire Services. In no event shall this Agreement be terminated by either party after June 30, 2015.

B. One (1) year prior to the date of expiration of this Agreement, CITY shall give COUNTY written notice of whether CITY intends to extend this Agreement or enter into a new agreement with COUNTY for Fire Services and, if so, whether CITY intends to change the level of Fire Services provided under this Agreement.

C. If CITY fails to provide such notice, as defined in paragraph B above, COUNTY shall have the option to extend this Agreement for a period of up to one (1) year from the original termination date and to continue providing services at the same or reduced level as COUNTY determines would be appropriate during the extended period of this Agreement. Six (6) months prior to the date of expiration of this Agreement, or any extension hereof, COUNTY shall give written notice to CITY of any extension of this Agreement and any changes in the level of Fire Services COUNTY will provide during the extended period of this Agreement. Services provided and obligations incurred by COUNTY during an extended period shall be accepted by CITY as services and obligations under the terms of this Agreement.

D. The cost of services provided by COUNTY during the extended period shall be based upon the amounts that would have been charged to CITY during the fiscal year in which the extended period falls, had a new agreement been extended under this Section IV. Payment by CITY for services rendered by COUNTY during the extended period shall be in accordance with Exhibit "A," of this Agreement.

#### SECTION V: TERMINATION

Either party to this Agreement may terminate this Agreement by providing a written notice of termination to the other party hereto no less than one (1) year prior to the expiration of the term hereof. This Agreement may be terminated by the voters of either the COUNTY or the CITY pursuant to Government Code §55603.5.

#### SECTION VI: COOPERATIVE OPERATIONS

All Fire Services contemplated under this Agreement shall be performed by both parties to this Agreement working as one unit; therefore, personnel and equipment belonging to either CITY or COUNTY may be temporarily dispatched elsewhere from time to time for mutual aid.

#### SECTION VII: MUTUAL AID

Pursuant to Health and Safety Code Sections 13050 et seq., when rendering mutual aid or assistance, COUNTY may, at the request of CITY, demand payment of

charges and seek reimbursement of CITY costs for personnel, equipment and operating expenses as funded herein, under authority given by Health and Safety Code Sections 13051 and 13054. COUNTY, in seeking said reimbursement pursuant to such request of CITY, shall represent the CITY by following the procedures set forth in Health and Safety Code Section 13052. Any recovery of CITY costs, less actual expenses, shall be paid or credited to the CITY, as directed by CITY.

In all such instances, COUNTY shall give timely notice of the possible application of Health and Safety Code Sections 13051 and 3054 to the officer designated by CITY.

#### SECTION VIII: SUPPRESSION COST RECOVERY

As provided in Health and Safety Code Section 13009, COUNTY may bring an action for collection of suppression costs of any fire caused by negligence, violation of law, or failure to correct noticed fire safety violations. When using CITY equipment and personnel under the terms of this Agreement, COUNTY may, on request of CITY, bring such an action for collection of costs incurred by CITY. In such a case CITY appoints and designates COUNTY as its agent in said collection proceedings. In the event of recovery, COUNTY shall apportion to CITY its pro-rata proportion of recovery, less the reasonable pro-rata costs including legal fees.

In all such instances, COUNTY shall give timely notice of the possible application of Health and Safety Code Section 13009 to the officer designated by CITY.

#### SECTION IX: PROPERTY ACCOUNTING

All personal property provided by CITY and by COUNTY for the purpose of providing Fire Services under the terms of this Agreement shall be marked and accounted for in such a manner as to conform to the standard operating procedure established by the County Fire Department for the segregation, care, and use of the respective property of each.

#### SECTION X: FACILITY

City shall provide Fire Station(s), strategically located to provide standard response time within the City of Moreno Valley from which fire operations shall be conducted. If the Fire Station(s) are owned by the City, the City shall maintain the facilities at its cost and expense. In the event City requests County to undertake repairs or maintenance costs or services, the costs and expenses of such repairs or maintenance shall be reimbursed to County through the Support Services Cost Allocation, or as a direct Invoice to the City.

///

///

## SECTION XI: INDEMNIFICATION AND HOLD HARMLESS

To the fullest extent permitted by applicable law, COUNTY shall and does agree to indemnify, protect, defend and hold harmless CITY, its agencies, districts, special districts and departments, their respective directors, officers, elected and appointed officials, employees, agents and representatives (collectively, "**Indemnitees**") for, from and against any and all liabilities, claims, damages, losses, liens, causes of action, suits, awards, judgments and expenses, attorney and/or consultant fees and costs, taxable or otherwise, of any nature, kind or description of any person or entity, directly or indirectly arising out of, caused by, or resulting from (1) the Services performed hereunder by COUNTY, or any part thereof, (2) the Agreement, including any approved amendments or modifications, or (3) any negligent act or omission of COUNTY, its officers, employees, subcontractors, agents, or representatives (collectively, "**Liabilities**"). Notwithstanding the foregoing, the only Liabilities with respect to which COUNTY's obligation to indemnify, including the cost to defend, the Indemnitees does not apply is with respect to Liabilities resulting from the negligence or willful misconduct of an Indemnitee, or to the extent such claims do not arise out of, pertain to or relate to the Scope of Work in the Agreement.

To the fullest extent permitted by applicable law, CITY shall and does agree to indemnify, protect, defend and hold harmless COUNTY, its agencies, departments, directors, officers, agents, Board of Supervisors, elected and appointed officials and representatives (collectively, "**Indemnitees**") for, from and against any and all liabilities, claims, damages, losses, liens, causes of action, suits, awards, judgments and expenses, attorney and/or consultant fees and costs, taxable or otherwise, of any nature, kind or description of any person or entity, directly or indirectly arising out of, caused by, or resulting from (1) the services performed hereunder, by CITY, or any part thereof, (2) the Agreement, including any approved amendments or modifications, or (3) any negligent act or omission of CITY its officers, employees, subcontractors, agents, or representatives (collectively, "**Liabilities**"). Notwithstanding the foregoing, the only Liabilities with respect to which CITY's obligation to indemnify, including the cost to defend, the Indemnitees does not apply is with respect to Liabilities resulting from the negligence or willful misconduct of an Indemnitee, or to the extent such claims do not arise out of, pertain to or relate to the Scope of Work in the Agreement.

## SECTION XII: AUDIT

COUNTY and CITY agree that their designated representative shall have the right to review and to copy any records and supporting documentation of the other party hereto, pertaining to the performance of this Agreement. COUNTY and CITY agree to maintain such records for possible audit for a minimum of three (3) years after final payment, unless a longer period of records retention is stipulated or as required by law, and to allow the auditor(s) of the other party access to such records during normal business hours and to allow interviews of any employees who might reasonably have

information related to such records. COUNTY and CITY agree to a similar right to audit records and interview staff in any subcontract related to performance of this Agreement. (Gov. Code §8546.7, Pub. Contract Code §10115 et seq., CCR Title 2, Section 1896).

### SECTION XIII: DISPUTES

CITY shall select and appoint a "Contract Administrator" who shall, under the supervision and direction of CITY, be available for contract resolution or policy intervention with COUNTY, when, upon determination by the Chief that a situation exists under this Agreement in which a decision to serve the interest of CITY has the potential to conflict with COUNTY interest or policy. Any dispute concerning a question of fact arising under the terms of this Agreement which is not disposed of within a reasonable period of time by the CITY and COUNTY employees normally responsible for the administration of this Agreement shall be brought to the attention of the Chief Executive Officer (or designated representative) of each organization for joint resolution. For purposed of this provision, a "reasonable period of time" shall be ten (10) calendar days or less. CITY and COUNTY agree to continue with the responsibilities under this Agreement during any dispute. Disputes that are not resolved informally by and between CITY and COUNTY representatives may be resolved, by mutual agreement of the parties, through alternate forms of dispute resolution, including, but not limited to, mediation or non-binding arbitration. The costs associated with the selected form of dispute resolution such as mediation or non-binding arbitration shall be shared equally among the participating parties. If the alternate form of dispute resolution does not resolve the issue(s), the parties reserve the right to seek remedies as provided by law or in equity. Venue for litigation shall be in Riverside County.

Any claims or causes of actions, whether they arise out of unresolved disputes as specified in this Section or claims by third parties that are made against the COUNTY, shall be submitted to the Office of the Clerk of the Board for the County of Riverside in a timely manner.

### SECTION XV: DELIVERY OF NOTICES

Any notices to be served pursuant to this Agreement shall be considered delivered when deposited in the United States mail and addressed to:

COUNTY  
County Fire Chief  
210 W. San Jacinto Ave.  
Perris, CA 92570

CITY OF MORENO VALLEY  
City Manager  
City of Moreno Valley  
Post Office Box 88005  
Moreno Valley, CA 92552-0805

Provisions of this section do not preclude any notices being delivered in person to the addresses shown above. Delivery in person shall constitute service hereunder, effective when such service is made.

SECTION XVI: ENTIRE CONTRACT

This Agreement contains the whole contract between the parties for the provision of Fire Services. It may be amended or modified upon the mutual written consent of the parties hereto. This Agreement does NOT supplement other specific agreements entered into by both parties for equipment or facilities, and excepting those equipment or facilities agreements, this Agreement cancels and supersedes any previous agreement for the same or similar services.

EXHIBIT "C"

TO THE COOPERATIVE AGREEMENT  
TO PROVIDE FIRE PROTECTION, FIRE PREVENTION, RESCUE  
AND MEDICAL AID FOR THE CITY OF MORENO VALLEY  
DATED \_\_\_\_\_, 2013

PAYMENT FOR SERVICES  
ADDITIONAL SERVICES  
FIRE ENGINE USE AGREEMENT

Station 2

Engine 02, RCO No. 08-868 \$ 19,200.00

Station 58

Engine 58, RCO No. 06-800 \$ 19,200.00

Station 65

Engine 65, RCO No. 94-826 \$ 19,200.00

\$ 57,600.00

The Fire Engine Use Agreement is utilized in the event that a fire engine(s) which was initially purchased by the CITY, and then the CITY elects to have the COUNTY take responsibility of said fire engine(s). The Fire Engine Use Agreement guarantees the CITY the use of this fire engine(s), the COUNTY network of equipment, and resources of the COUNTY.

This fire engine(s) shall be used as an integrated unit for Fire Services as set forth in this Cooperative Agreement between the COUNTY and CITY, and shall be stationed primarily in the CITY. The change in ownership of the fire engine does not waive or supersede any responsibilities of the CITY pursuant to this agreement. This exhibit is strictly to further detail for the CITY, the responsibilities and costs associated within the Cooperative Agreement between the COUNTY and CITY; therefore, the Fire Engine Use Agreement is inseparable.

The CITY will have the option of transferring title of said fire engine(s) to the COUNTY. If the CITY transfers title of said fire engine(s) to the County, the County will take ownership of the said fire engine(s), and the County will maintain insurance on said fire engine(s). If the CITY opts to maintain ownership and title of said fire

engine(s), the CITY will maintain insurance on said fire engine(s). Proof of Insurance is to be provided to the COUNTY.

The COUNTY will ensure a working fire engine(s) is available for the CITY at all times under this agreement. All capital improvements and/or betterments to the fire engine(s) listed above, will be the responsibility and paid for by the COUNTY under this Agreement.

When the Riverside County Fire Department Fleet personnel determine the fire engine(s) listed above is due for replacement, the COUNTY will purchase a new fire engine(s); and, survey the old fire engine(s).

The annual cost for this service is calculated at 1/20 of the replacement cost. The current replacement cost is \$384,000.00. If this Agreement is entered into mid-year, the annual cost will be prorated accordingly.

**Fire Department  
Fire Prevention  
Bureau**

**MEMORANDUM**

---

To: Public Safety Sub Committee  
From: Randall Metz, Fire Marshal  
Date: March 6, 2013  
Subject: Sunnymead Blvd. Hazard Abatement

---

On February 21, 2013, the City of Moreno Valley began a six day abatement process at Parcel # 292-250-012, located on the North side of Sunnymead Blvd. between Frederick St. and Graham St. This parcel had long been a drain on city fire & police services due to the presence of homeless encampments, criminal activity, and unauthorized campfires. The police department's POP Team has long listed this property on its daily list of problem locations.

Due to the unmaintained riparian vegetation that has been present on the parcel for many years, these activities were able to occur on the property out of the public eye from Sunnymead Blvd. due to the depth of the property and the time of day that the activities occurred. The property has not been maintained by the property owner to remain in compliance with city vacant parcel standards. Due to the presence of the riparian vegetation and a blue line stream on the parcel, development of the parcel can't occur without approval from various state and federal agencies. The Moreno Valley Fire Department made inquiry with the California Department of Fish & Wildlife to determine what permits would be necessary to perform routine maintenance of the riparian vegetation that is protected by state environmental regulations. The DFW required that the city obtain a Streambed Alteration Permit before any work could be performed. This process is a minimum 90 day waiting period once application has been submitted and paid for. The city received our permit on February 21, 2013 with a mandatory completion date of March 1,

2013. This is the date specified by DFW as the opening of the nesting season for any protected species that may be present on the parcel.

Bids were sought from both of our city approved abatement contractors and the lowest bidder was selected. Due to the environmental regulations, we were not able to utilize any machine equipment on the property and all work was required to be done by hand. Work was performed over a 6 day period which was monitored by a Moreno Valley Fire Inspector. The Fire Prevention Bureau has prepared a Statement of Cost report for the property owner to recover all costs paid for by the city. If the parcel owner does not voluntarily make payment to the city by April 1, 2013, we will be submitting this parcel as part of the Property Assessment List that will come before council on April 23, 2013.

The following is a breakdown of our costs:

Fee Break Down:

Department of Fish & Wildlife:	Agreement for Routine Maintenance	\$1,345.25
	Fee per project /calendar year	\$112.00
	Notice of Exemption Filing Fee	\$64.00
Hazard Reduction Contractor:	Labor & Haul Off	\$17,995.00
City of Moreno Valley:	Administrative Fee	\$240.00
	Monitoring Fire Inspector	
	(47 Hours @ \$106 per hour)	\$4,982.00
	Special Districts Fee	\$13.80
	<b>Total:</b>	<b>\$24,752.05</b>

Please let me know if you would like any additional information regarding this process.

Any person with a disability who requires a modification or accommodation in order to participate in a meeting should direct such request to **Mel Alonzo** at **951.413.3027**, at least 48 hours before the meeting. The 48-hour notification will enable the City to make reasonable arrangements to ensure accessibility to this meeting.

## Public Safety Sub Committee Meeting - 01/17/13

**PARTICIPANTS:** T. Owings, J. Molina, M. Patterson, P. Early, B. Ford, S. Lanzas, C. Owens, R. Metz, L. Coletta

---

### INTRODUCTIONS

1. Molina agrees to Chair Public Safety Sub Committee Meetings.

**Follow-up**

(Molina)

### PUBLIC COMMENTS

1. No public present.

(Molina)

### APPROVAL OF MINUTES

1. Minutes of July 30, 2012 were approved as written. (Coletta-motioned, Metz-seconded)
2. Use "Green Sheet" format for Agenda & Minutes. (Parada)
3. Minutes to be distributed to Executive Team to be shared with Staff. (Parada)

(Molina)

### PRESENTATIONS

1. PowerPoint presentation and handout was provided to PSSC regarding the **Cost Share Agreement and Ladder Truck Purchase** from the City of Perris. Discussion points were as follows:
  - Fiscal accountability
  - History of cost share, current cost share, and cost share agreement
  - Proposed cost share based on calls for service/agency
  - Potential use for savings: upgrade personnel at Station 91: Basic life safety (CERT) to advanced life safety (paramedics)
  - Calls for service, coverage territory (to Nuevo Road)
  - Proposed replacement of Truck 2
  - Options for purchasing Truck from City of Perris:
    1. Recommend that the City tie execution of the cost share cooperative agreement to the sale of the ladder truck.
    2. Negotiate cost share financing (via a side agreement/MOU): City of Perris takes payment for the truck out of the cooperative agreement. City of Moreno Valley funds City of Perris' share until truck acquisition price is recovered by City of Perris.

(Lanzas)

#### Tasks following discussion:

1. Provide map of stations/trucks/coverage area (Fire/Lanzas)
2. Verify in writing that the truck warranty starts first day of service. (Fire/Lanzas)
3. Verify if sales tax is required even if truck has not been used. (Fire/Lanzas)
4. Draft MOU between City of Moreno Valley and City of Perris (Early)

### REPORTS

#### 1. Police

- A. Police Personnel Status Report presented by Lt. Brandon Ford

(Police/Ford)

#### Tasks following discussion:

1. Staff to create training procedures for investigation of civil litigation of additional violations when responding to nuisance calls. (Police/City Atty. Office/Code)
2. Code Enforcement staff to attend next PSSC meeting to discuss proactive 100% violation enforcement in "Dead Zone" – Sunnymead Blvd (Heacock – Indian).

(Early/Code)

3. MVPD/Volunteers to consider "field report" process in Dead Zone – stop and talk to vagrants/lookouts. (Police)

2. Fire

A. Office of Emergency Management Report presented by LeAnn Coletta.

Tasks following discussion:

1. Staff to follow up with City of Riverside regarding the "Hope 360" Project for City of Moreno Valley's participation. (CM Office)
2. Recognition at Council Meeting of Staff Responders, Red Cross, and Salvation Army for their assistance of the displaced families of the Stone Gate Apartment Fire. (FIRE/EOC)

**COOPERATIVE AGREEMENT FOR THE COST SHARE OF AERIAL LADDER  
TRUCK PERSONNEL BETWEEN THE CITY OF MORENO VALLEY, THE CITY OF  
PERRIS, AND THE COUNTY OF RIVERSIDE**

This Agreement is made and entered into by and between the City of Moreno Valley, the City of Perris, and the County of Riverside, California on this \_\_\_\_\_ day of \_\_\_\_\_, 2012. The purpose of the Agreement is to set forth the parties' understanding of and responsibilities for the cost sharing of aerial ladder truck personnel, consisting of three (3) Fire Captains, three (3) Fire Apparatus Engineers, and six (6) Firefighter II's as well as the administrative/operational per staff charge by the County of Riverside. The total cost of these twelve (12) positions, including the associated administrative charges, will be apportioned amongst all three (3) jurisdictions with the City of Moreno Valley funding 60% of the total personnel costs, the City of Perris funding 20% of the total personnel costs, and the County of Riverside funding 20% of the total personnel costs.

All parties acknowledge that the City of Moreno Valley is in the process of converting both aerial ladder truck companies to Paramedic staffing, which will consist of (3) Fire Captains, three (3) Fire Apparatus Engineers, three (3) Firefighter II Paramedics, and three (3) Firefighter II's per truck company. The City of Perris and the County of Riverside will receive written notice sixty (60) days prior to the date of this implementation. When this occurs, the twelve (12) positions associated with this Agreement will be adjusted to (3) Fire Captains, three (3) Fire Apparatus Engineers, three (3) Firefighter II Paramedics, and three (3) Firefighter II's and will include the allocation of the associated administrative/operational per staff charge by the County of Riverside and the medic program per medic charge by the County of Riverside. The City of Moreno Valley will fund 60% of the total personnel costs, the City of Perris will fund 20% of the total personnel costs, and the County of Riverside will fund 20% of the total personnel costs of those twelve (12) positions.

**All parties further acknowledge that as part of this Agreement, the City of Moreno Valley desires to purchase, and the City of Perris desires to sell, a KME 100' aerial ladder truck with the costs of such purchase to be offset quarterly with payments made by the City of Moreno Valley towards The City of Perris's obligations under this Agreement until paid in full. The total purchase price for the KME 100' aerial ladder truck shall be \$675,000. The City of Moreno Valley shall be solely responsible for any sales tax due to the State of California.**

**SECTION I: PURPOSE**

A. The County of Riverside has contracted with the City of Moreno Valley, individually pursuant to that certain Cooperative Agreement to provide fire protection, disaster preparedness and response, fire prevention, rescue, hazardous materials mitigation, technical rescue response, medical emergency services, and public service assists for the City of Moreno Valley, dated November 23, 2009, by and between the

City of Moreno Valley and the County of Riverside (the "Moreno Valley Cooperative Agreement").

B. The County of Riverside has contracted with the City of Perris, individually pursuant to that certain Cooperative Agreement to provide fire protection, disaster preparedness and response, fire prevention, rescue, hazardous materials mitigation, technical rescue response, medical emergency services, and public service assists for the City of Perris, dated November 20, 2007, by and between the City of Perris and the County of Riverside (the "Perris Cooperative Agreement").

C. The City of Moreno Valley, City of Perris, and the County of Riverside desire to enter into a cost sharing agreement for the aerial ladder truck personnel which will be of mutual benefit for all involved agencies. The City of Moreno Valley, City of Perris, and the County of Riverside agree that the aerial ladder truck provides service to the City of Moreno Valley as well as to the City of Perris and unincorporated territory of the County of Riverside.

## SECTION II: BACKGROUND

On January 17, 2003, the City of Moreno Valley, the City of Perris, and the County of Riverside entered into a cost share agreement for three (3) Fire Captains at Fire Station 91 due to the proximity of that Fire Station to the City of Perris and the unincorporated areas of Riverside County. The City of Perris terminated their participation in that agreement on January 20, 2005 as they were purchasing an aerial ladder truck and would provide their own aerial ladder truck services to citizens of Perris. In February 2006 the County of Riverside agreed to pay the full cost of three (3) Fire Captains in order to continue to receive the benefit of an aerial ladder truck for responses into the unincorporated areas of the County of Riverside that are adjacent to Moreno Valley.

In April 2012, the City of Perris contacted the City of Moreno Valley to re-enter into a cooperative, cost share agreement for aerial ladder truck services as the City of Perris was not able to staff their aerial ladder truck due to current economic conditions. Staff from the Moreno Valley Fire Department researched the calls for service for both Moreno Valley Fire Department aerial ladder trucks as well as examined the cost of associated with having an aerial ladder truck available to respond to calls in all three (3) jurisdictions to determine the actual cost of providing this service and to establish the appropriate share that each jurisdiction should be fiscally responsible for. After a thorough review of the available information, staff determined that the total personnel cost of one (1) aerial ladder truck, consisting of three (3) Fire Captains, three (3) Fire Apparatus Engineers, and six (6) Firefighter II's as well as the administrative/operational per staff charge by the County of Riverside should be cost shared amongst all three (3) jurisdictions, with the City of Moreno Valley funding 60% of the total personnel costs, the City of Perris funding 20% of the total personnel costs, and the County of Riverside funding 20% of the total personnel costs.

## SECTION III: ROLES AND RESPONSIBILITIES

Upon adoption of this Agreement, the City of Perris and the County of Riverside each agree to pay the City of Moreno Valley 20% of the total personnel costs associated with one (1) aerial ladder truck, consisting three (3) Fire Captains, three (3) Fire Apparatus Engineers, and six (6) Firefighter II's as well as the administrative/operational per staff charge by the County of Riverside, for a total of 40% of the costs. The roles of each party are defined as follows:

A. As the lead agency, the City of Moreno Valley agrees to maintain a minimum daily staffing level of one (1) Fire Captain, (1) Fire Apparatus Engineer, and two (2) Firefighter II's, seven (7) days a week, twenty four (24) hours a day on the aerial ladder truck which requires a standard staffing level of three (3) Fire Captains, three (3) Fire Apparatus Engineers, and six (6) Firefighter II's to provide this daily coverage. Currently, the City of Moreno Valley contracts with the County of Riverside for fire protection services and the County has the day-to-day operational responsibilities for fire services within the City which includes the administrative and operational function of the aerial ladder truck personnel.

B. The City of Perris agrees to fund 20% of the total personnel costs for one (1) aerial ladder truck, consisting of three (3) Fire Captains, three (3) Fire Apparatus Engineers, and six (6) Firefighter II's as well as the administrative/operational per staff charge by the County of Riverside. Personnel costs are identified annually in Exhibit A of the Fire Protection Services Agreement between the City of Moreno Valley and the County of Riverside. Actual costs for these positions will be invoiced by the County of Riverside to the City of Perris on a quarterly basis. The City of Moreno Valley shall be responsible for each of these payments until the entire balance of \$675,000 has been paid to offset the cost of the KME 100' aerial ladder truck. Thereafter, any balance due for that quarter and any remaining quarter shall be the responsibility of the City of Perris. The County of Riverside will then credit this amount in the quarterly invoice issued to the City of Moreno Valley.

C. The County of Riverside agrees to fund 20% of the total personnel costs for one (1) aerial ladder truck, consisting of three (3) Fire Captains, three (3) Fire Apparatus Engineers, and six (6) Firefighter II's as well as the administrative/operational per staff charge by the County of Riverside. Personnel costs are identified annually in Exhibit A of the Fire Protections Services Agreement between the City of Moreno Valley and the County of Riverside. The County of Riverside will invoice the City of Perris on a quarterly basis for 20% of the actual personnel costs associated with one (1) aerial ladder truck and credit that amount to the quarterly invoice issued to the City of Moreno Valley. The County of Riverside will credit their 20% of the actual personnel costs associated with one (1) aerial ladder truck to the quarterly invoice issued to the City of Moreno Valley.

#### SECTION IV: OWNERSHIP OF THE FIRE ENGINE

The City of Moreno Valley owns the existing aerial ladder truck and will pay the engine maintenance costs through the cost allocation plan. Possession of the newly purchased KME 100' aerial ladder truck purchased by the City of Moreno Valley pursuant to this Agreement shall be transferred to the City of Moreno Valley upon execution of this Agreement. The City of Perris shall transfer title to the City of Moreno Valley upon satisfaction of the \$675,000 offset contemplated under this Agreement.

#### SECTION V: INDEMNIFICATION

The indemnification provisions as provided in the respective Cooperative Agreements referenced above, as they are currently in effect or hereafter entered into, shall apply to this Agreement.

#### SECTION VI: INITIAL TERM AND RENEWAL

This Agreement shall be from July 1, 2012 through June 30, 2017. One (1) year prior to the end of this Agreement, the City of Moreno Valley will contact the City of Perris and the County of Riverside to determine whether the City of Perris and the County of Riverside intend to enter into a new agreement. Terms and conditions of the new agreement can be renegotiated at that time.

#### SECTION VII: GENERAL PROVISIONS

A. ALTERATION OF TERMS. No addition to, or alteration of, the terms of this Agreement, whether by written or verbal understanding of the City of Moreno Valley, City of Perris, the County of Riverside, their officers, agents, or employees, shall be valid unless made in the form of a written amendment to this Agreement, which is formally approved and executed by the City of Moreno Valley, City of Perris, and the County of Riverside.

B. JURISDICTION AND VENUE. This Agreement is to be construed under the laws of the State of California. The City of Moreno Valley, City of Perris, and the County of Riverside agree to the jurisdiction of the appropriate courts in the County of Riverside, State of California.

C. WAIVER. Any waiver by the City of Moreno Valley, City of Perris, or the County of Riverside, separately or collectively, of any breach of any one or more of the terms of this Agreement shall not be construed to be a waiver of any subsequent or other breach of the same or of any other term thereof. Failure on the part of the City of Moreno Valley, City of Perris, or the County of Riverside to require exact, full and complete compliance with any terms of this Agreement shall not be construed as in any manner changing the terms hereof, or estopping the City of Moreno Valley, City of Perris, or the County of Riverside from enforcement hereof.

D. SEVERABILITY. If any provision in this Agreement is held by a court of competent jurisdiction to be invalid, void or unenforceable, the remaining provisions will nevertheless continue in full force without being impaired or invalidated in any way.

E. ADMINISTRATION

1. The COUNTY Fire Chief shall administer this Agreement on behalf of the County of Riverside.

2. The City of Moreno Valley and City of Perris respective City Managers shall administer this Agreement on behalf of its own City.

F. ENTIRE AGREEMENT.

This Agreement is intended by the City of Moreno Valley, City of Perris, and the County of Riverside hereto as a final expression of their understanding, with respect to the subject matter hereof and as a complete and exclusive statement of the terms and conditions thereof and supersedes any and all prior and contemporaneous agreements and understandings, oral or written, in connection therewith.

SECTION VIII: TERMINATION

Any party of this Agreement may terminate this Agreement by providing a written notice of termination to the other two parties of this Agreement no less than 365 days prior to July 1 each fiscal year. The termination of this Agreement by either the City of Perris or the County of Riverside only nullifies that jurisdiction's commitment to paying for their 20% allocation of the total personnel costs associated with one (1) aerial ladder truck. The City of Moreno Valley will then be responsible for that jurisdiction's cost. Termination notices will be mailed to all parties at the following addresses:

City of Moreno Valley  
P.O. Box 88005  
Moreno Valley, CA 92552  
Attn: City Manager

City of Perris  
101 N. D Street  
Perris, CA 92570  
Attn: City Manager

County of Riverside  
4080 Lemon Street  
Riverside, CA 92501  
Attn: Chief Executive Officer

In the event of a termination of this Agreement, The City of Moreno Valley shall continue to make quarterly payments to the City of Perris in an amount calculated as the average of all previous quarterly payments until the entire purchase price of \$675,000 for the KME 100' aerial ladder truck has been paid in full.

This Agreement does not affect any other agreements entered into by or among any or all parties for equipment or facilities.

IN WITNESS WHEREOF, the duly authorized officials of the parties hereto have, in their respective capacities, set their hands as of the date first hereinabove written.

---

---

---

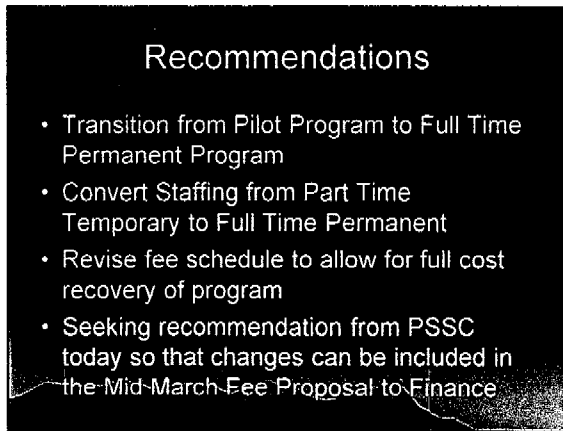

---

---

---

---

4

**History**

- Pilot Program approved in 2010 using existing staff in one target area of the city
- In 2011, PSSC approved to expand the pilot program to city wide
- PSSC approved the hiring of 4 Part Time Temporary Fire Prevention Technicians
- Technicians were assigned to work two days a week

4 vs ?  
PT TEMP PT

---

---

---

---

---

---

---

---

5

**Staffing**

- Four Fire Prevention Technicians (FPT) hired in 2011
- Pilot Program intended to use Retired Annuitant (RA) and Entry Level Inspectors
- AB1028 eliminated the use of RA staff
- FPT's have become a revolving door/training ground for full time employment outside of Moreno Valley
- FPT's require continual supervision by career Moreno Valley Fire Inspector

"1028" → entry level → Fire RA staff

A ←

M ←

---

---

---

---

---

---

---

---

6

**Staffing**

- Use of part time temporary employees has not provided consistency in program
- Use of part time temporary employees has resulted in issues regarding professional delivery of customer service
- Use of part time temporary employees has proven difficult for apartment building owners to contact their inspector
- Once FPT has reached their maximum hours they are released from program

---

---

---

---

---

---

---

---

(1)

2.

inspect

How many - have we done last year?

**Moreno Valley Building Information Overview**

- 943 building addresses currently subject to the annual inspection program
- Buildings range from 3 to 285 units
- All units in the city total 10,288 at this time
- On average, most addresses will require at least one reinspection
- Conducting an inspection plus one reinspection per address will result in at least 1,886 inspections per year

1250 inspections

∞    ⊗    (?) →

maybe more

How did you determine

**Inspection Time Accounting**

- Pre-Inspection Admin Time:
  - File Review      5 minutes
  - Research          10 minutes
  - Permits Plus Activity (creating permit, data entry, scheduling) 15 minutes
- Initial Inspection Time:
  - Drive Time        20 minutes
  - Inspection        30 minutes

---

---

---

---

---

---

---

---

9

**Inspection Time Accounting**

- Re-Inspection Time:
  - Drive Time        20 minutes
  - Re-Inspection    20 minutes
- Post Inspection Admin Time:
  - Permits Plus Notes 15 minutes
  - Invoice Creation & Payment Receipt Processing

---

---

---

---

---

---

---

---

10

**Inspection Time Accounting**  
(Typical 4 Unit Complex)

- Pre-Inspection Admin Time: 30 minutes
- Initial Inspection Time: 50 minutes
- Re-Inspection Time: 40 minutes
- Post Inspection Admin Time: 30 minutes

Total Time: 150 minutes = 2 ½ hours of staff time

2

---

---

---

---

---

---

---

---

11

**Staffing Recommendation**

- Convert 4 Part Time Temporary Fire Prevention Technician positions to 2 Full Time Permanent Fire Inspector I positions. Proposed in FY 13/14 budget
- Fund an Administrative Assistant position to serve all administrative and billing needs of the Apartment Inspection Program. Not Currently proposed in FY 13/14 budget.
- We do not recommend continued use of Part Time Temporary employees

---

---

---

---

---

---

---

---

12

**State Mandate – Health & Safety Code**

- Non Funded Mandate
- Allows for cost recovery

California Health & Safety Code, Section 13146.2  
"A city, county, or district which inspects a structure ... may charge and collect a fee for the inspection from the owner of the structure in an amount as determined by the city, county or district, sufficient to pay its costs of that inspection."

---

---

---

---

---

---

---

---

13

**Current Cost Recovery**

- 2005 – Council approved fee study conducted by Maximus which set a generic annual inspection cost recovery fee for all inspection types.
- Inspections that are conducted are billed at the rate set in 2005 with minimal increases based on CPI.
- No consideration was given to apartment buildings or the number of units. All properties pay same fee.

---

---

---

---

---

---

---

---

14

**Current Cost Recovery Fee Structure**

Apartments & R-1 Condominiums	Hotels, Motels, Senior Facilities	
\$157 fee per building (includes 1 reinspection - additional reinspections will result in additional fees) \$0/unit fee	1-30 Units	\$157
	31-80 Units	\$157
	Over 80 Units	\$157

---

---

---

---

---

---

---

---

15

**Cost Recovery Projections**

- Total Projected cost recovery from the Multi Family Residential Housing Inspection program:

**\$148,051.00**

(As based on 943 inspectable buildings in the program.)

---

---

---

---

---

---

---

---

16

### Scheduling & Billing Process

- All scheduling inquiries received by Fire Prevention Administrative Assistant
- Invoices generated by Administrative Assistant after inspection completed
- Administrative Assistant manages all accounts receivable processes and is responsible for 30-60-90 day late invoices including collections referrals

---

---

---

---

---

---

---

---

17

### Part Time Cost Recovery

---

18

### Full Time Cost Recovery

Cost Recovery	
Fire Inspector I (2 FTE)	172,131
Admin. Asst. (1 FTE)	67,434
Office Supplies/Printing	2,000
Postage	2,000
Fire Training	1,000
Equipment - Uniforms, Vehicles, Computers, Cell Phones, Gas	40,000
Program Oversight (1FTE FI2 @ 25%)	24,907
Program Management (1 FTE FM @ 20%)	34,832
<b>Total Program Costs</b>	<b>344,304</b>
<b>Cost Recovery Proposed</b>	<b>148,051</b>
<b>Difference</b>	<b>-196,253</b>

---

---

---

---

---

---

---

---

19

## Alternative Methods of Cost Recovery

---

---

---

---

---

---

---

---

20

Based on Square Footage of Buildings

- Accurate data does not exist for many of these properties
- To determine accurate square footage data it would require substantial additional staffing and would be cost-prohibitive

---

---

---

---

---

---

---

---

21

Based on Actual Minutes per Inspection

- Record actual minutes of every inspection and multiply by hourly rate for Inspector and Admin time in conducting inspections, data entry, billing, etc.
- Require extensive labor to calculate and track
- Cannot accurately predict cost of inspection from year-to-year

---

---

---

---

---

---

---

---

22

### Based on Tiered Fee Schedule Rate

- Determine an average inspection/administrative process length and multiply by hourly cost recovery rate, which would include vehicle costs, indirect costs, etc.
- Establish a tiered fee schedule for a range of units (ex. 1-10, 10-20, 20-50 50-100, etc.)
- Fee per unit will vary (larger complexes will be able to spread the fee over more units, thus reducing the cost per unit.)
- Can accurately predict cost of inspection from year-to-year

---

---

---

---

---

---

---

---

23

### Based on Per Unit Fee

- Determine per unit rate for Inspector's time in conducting inspections, which would include vehicle costs, indirect costs, etc.
- All complexes pay the same fee per unit
- Can accurately predict cost of inspection from year-to-year

---

---

---

---

---

---

---

---

24

### Comparison Fee Schedules

- Rialto Fire – Program modeled after Moreno Valley program. Fee Schedule of \$55 per unit.
- When applying Rialto Fee Schedule to Moreno Valley building Information, cost recovery would be:

**\$565,840**

---

---

---

---

---

---

---

---

25

**Comparison Fee Schedules**

- Ontario City Fire & Code Enforcement - Fee Schedule of \$36 per unit.
- When applying Ontario Fee Schedule to Moreno Valley building Information, revenue would be:

**\$370,368**

---

---

---

---

---

---

---

---

26

**Comparison Fee Schedules**

- San Bernardino City Fire - Fee Schedule range from \$178 for 4 units (\$44 per unit) to \$17,562 for 544+ units (\$32 per unit).
- When applying San Bernardino City Fee Schedule to Moreno Valley building Information, cost recovery would be:

**\$397,710**

---

---

---

---

---

---

---

---

27

**Comparison Fee Schedules**

- Riverside City Fire – Fee Schedule of \$78 for 3-10 units up to \$316 for 31+ units (inspections performed by Engine Company).
- When applying Riverside City Fee Schedule to Moreno Valley building Information, cost recovery would be:

**\$101,831.00**

---

---

---

---

---

---

---

---

28

Comparison Fee Schedules

- City of Hemet - Moreno Valley Fire Marshal has met with the City of Hemet in the past year to provide assistance as they develop their own program.
- Program is awaiting implementation.
- Fee schedule has not been proposed pending fire services RFP for city.

---

---

---

---

---

---

---

---

29

Comparison Fee Schedules

- Riverside County Fire Department hopes to address an Apartment Inspection Program in the near future.
- San Bernardino County Fire Department is currently exploring creation of an Apartment inspection program.

---

---

---

---

---

---

---

---

30

Proposed Cost Recovery

OPTION #1

---

---

---

---

---

---

---

---

31

### Proposed Fees (Tiered Schedule)

- Uses the Typical 4 unit complex as the model (150 minutes) and applies the fully burdened cost recovery rate (\$106) from the city fee schedule for a Fire Inspector.
- Establishes a 5 tier fee schedule based on a range of units in a given complex.
- Inspection time and reinspection time doubled for each tier. Pre and Post inspection times remain constant.

---

---

---

---

---

---

---

---

32

### Proposed Tiered Fees

( Fee x # of Buildings = Total)

- 3 to 9 Units = \$265 x 656 = \$173,840
- 10 to 20 Units = \$335 x 200 = \$67,000
- 21 to 50 Units = \$494 x 67 = \$33,098
- 51 to 100 Units = \$883 x 8 = \$7,064
- 101+ Units = \$1,660 x 12 = \$19,920

Total Projected Cost Recovery = \$300,922

---

---

---

---

---

---

---

---

33

### Proposed Cost Recovery

OPTION #2

---

---

---

---

---

---

---

---

34

### Proposed Fees (Per Unit Fee)

- Establishes a \$36 per unit fee (methodology – Approximately 1 hour of inspection/reinspection/drive time for standard Tri-Plex = \$106 of Cost Recovery based on current fee schedule. \$106 rounded up to \$108 to establish a whole figure rate of \$36 per unit annually. This equates to \$3 per month per unit.
- Initial inspection fee will cover cost of initial inspection, 1 reinspection, and all administrative costs
- Additional reinspections will be billed in accordance with adopted fee schedule
- This option is the most equitable for all apartment tenants as everyone pays the same fee per unit

---

---

---

---

---

---

---

---

35

### Revenue Projections

- Total Projected cost recovery from the Multi Family Residential Housing Inspection program utilizing a per unit fee of \$36:

**\$370,368**

(As based on 10,288 inspectable units in the program.)

---

---

---

---

---

---

---

---

36

### Option #1 & #2 Comparison

- |   |  |
|---|--|
| • Option #1   | • Option #2  |
| • Cost for 3 unit complex = \$265 (monthly cost per unit = \$7.36)    | • Cost for 3 unit complex = \$108                        |
| • Cost for 285 unit complex = \$1660 (monthly cost per unit = \$0.48) | • Cost for 285 unit complex = \$10,260                   |
|   | • Monthly cost per unit regardless of complex size = \$3 |

---

---

---

---

---

---

---

---

37

### Recommendation

- The Fire Department recommends Option #2.
- Option #2 is the most equitable cost recovery fee for all tenants and landlords.
- Smaller complexes will not be negatively impacted disproportionately as compared to larger complexes.
- Smallest complexes will pay a smaller fee as compared to Option #1.
- Option #2 will fully fund Fire Inspector and Administrative-Assitant positions.

---

---

---

---

---

---

---

---

38

**Subject:** Fire Department Response Maps

Good afternoon,

I have attached two PDF's which are the current Fire Department Response maps. The first map shows our current fire station locations with response boundaries drawn for the NFPA 1710 standard which states we are to arrive on scene to 90% of our calls for service within 5 minutes of dispatch. The five minutes of dispatch provides the firefighters 1 minute to don their turnouts and 4 minutes of drive time.

The second map is our fire truck response map. NFPA 1710 also has a requirement to have a full first alarm assignment on scene within 8 minutes of dispatch. As our fire trucks are part of that response, we had GIS create a map showing the 8 minute response boundary for Truck 2 and Truck 91.

Should you have any questions, please don't hesitate to contact Chief Ahmad.

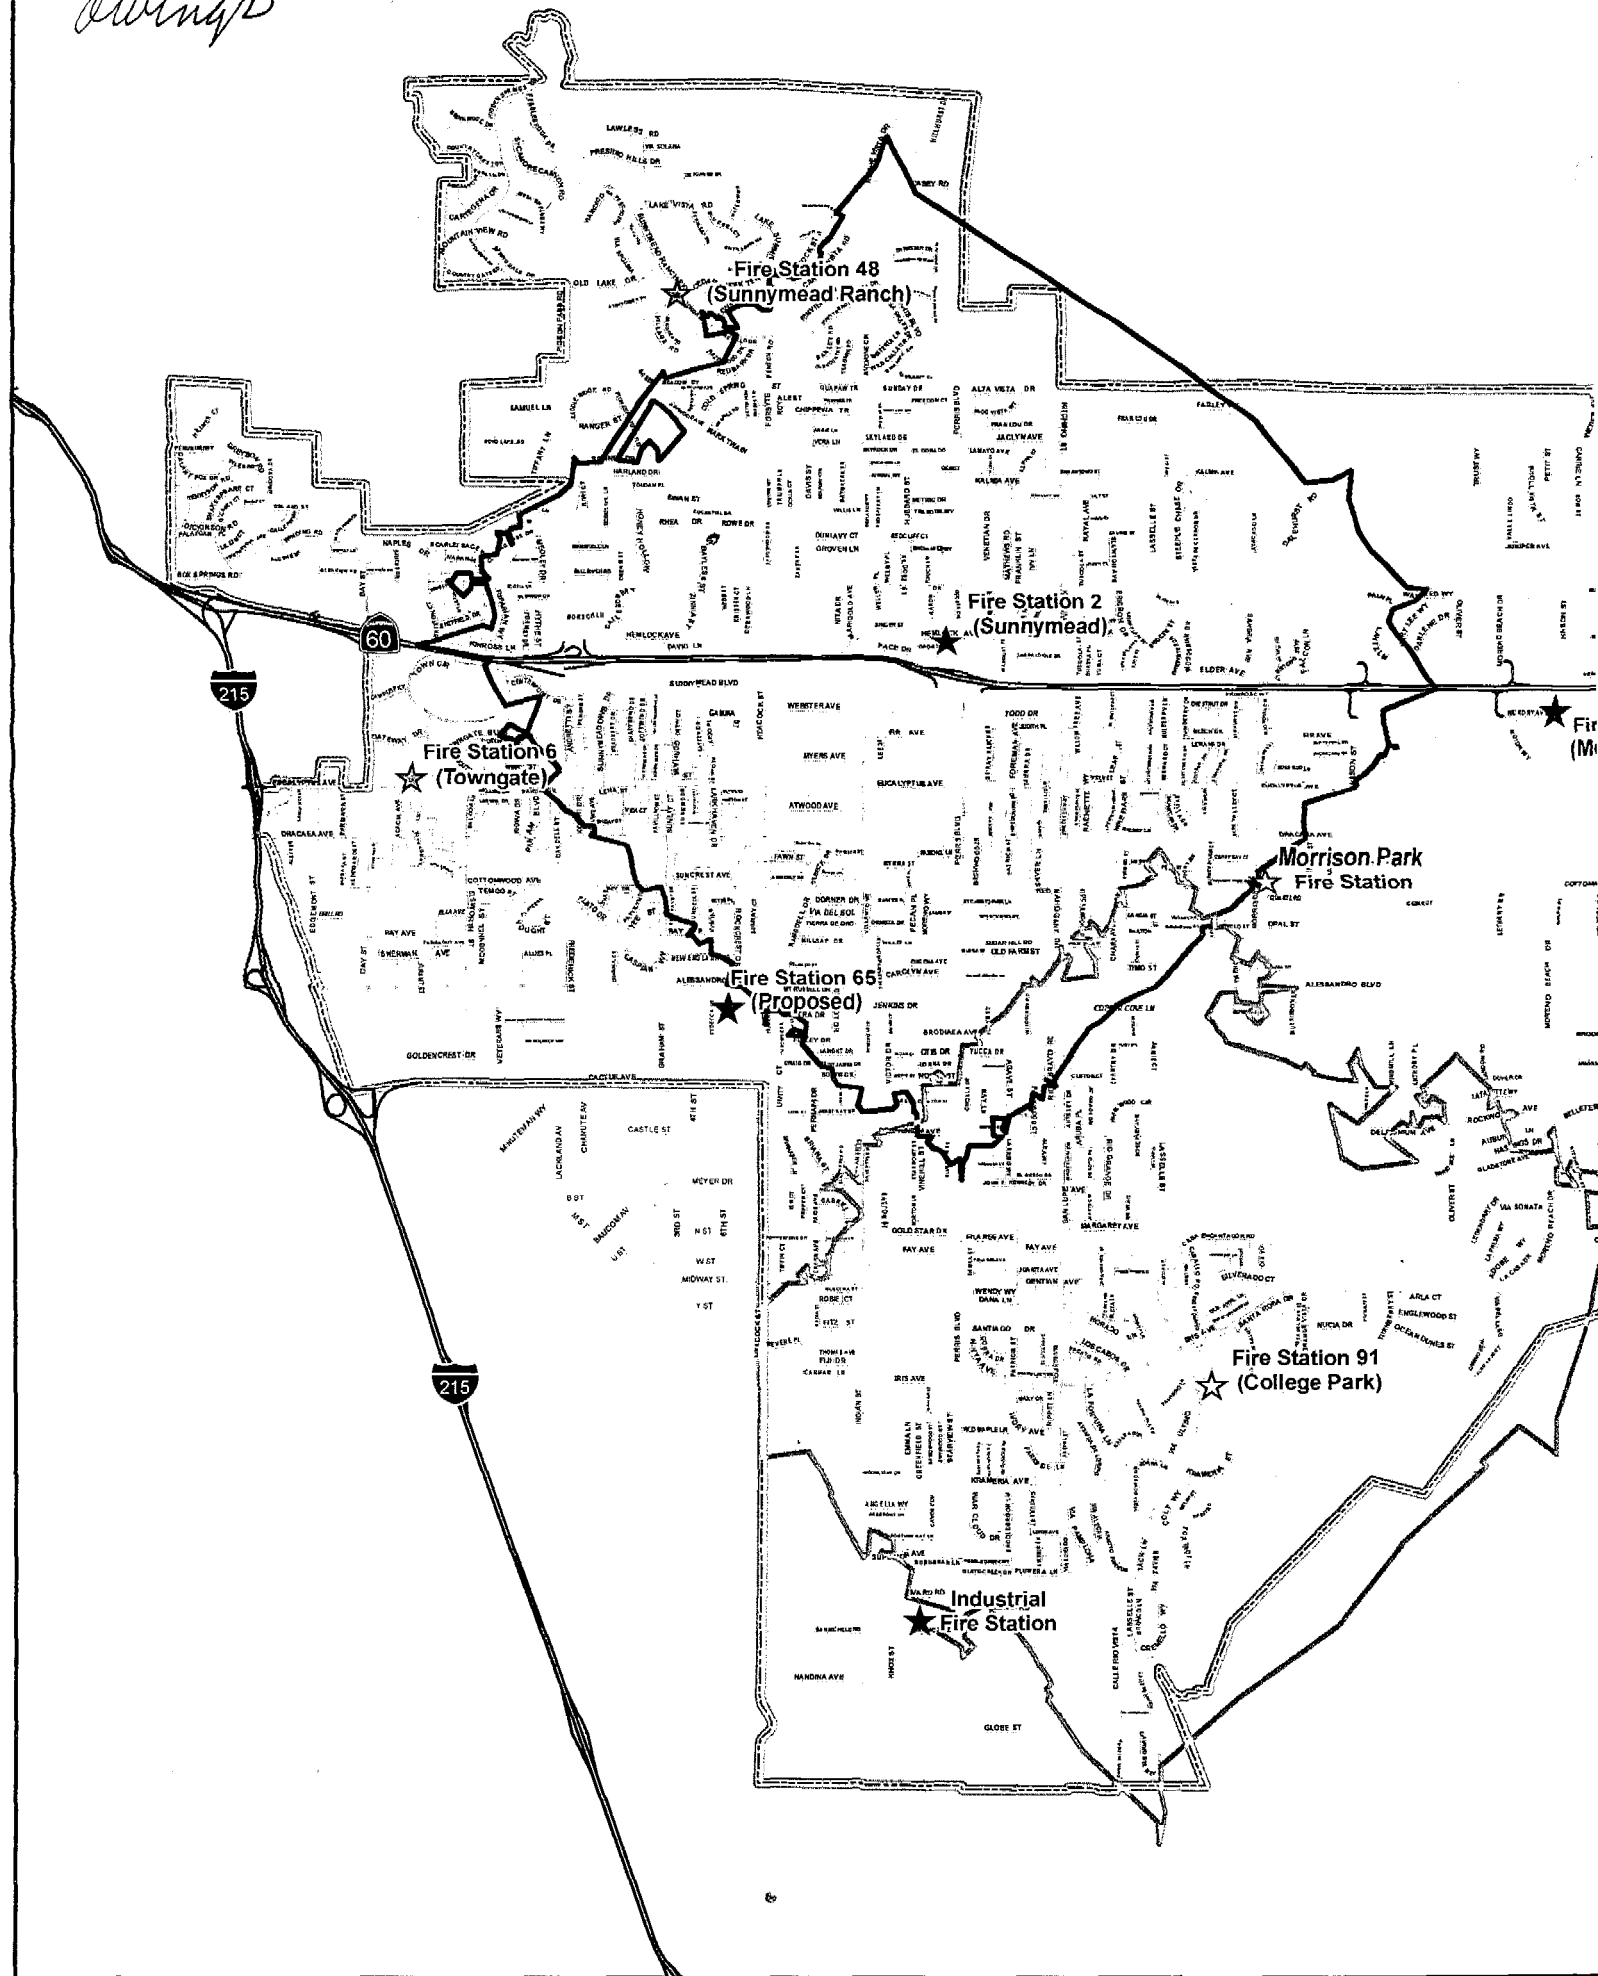

RA\_24mph\_Curr... RA\_24mph\_8min...

Sincerely,

*Cynthia Owens  
Management Assistant

## **EXECUTIVE SUMMARY**

Moreno Valley enjoys a good public safety and traffic safety record, verified by State and Federal crime and traffic safety audits. Most recently, Moreno Valley was ranked 3<sup>rd</sup> in the Nation for traffic safety and Moreno Valley has seen a decline in crime over the last three years. Policing services are currently delivered to the City through a contract with the Riverside County Sheriff's Department. The purpose of this study is to examine the feasibility, possible structure, and cost if the City were to create and maintain a City operated police department.

For Fiscal Year 2011/2012 the City has budgeted \$41,261,770 for police services which includes 181 sworn positions and 52.5 non-sworn positions from the Sheriff's Department. This cost represents the direct cost of the police contract and other budgeted items, but does not include any City overhead costs such as contract management and financial administration. The City operated police department described in this study would have an estimated first year cost of \$49,250,353 with a staff of 199 sworn positions and 106.5 non-sworn positions. Additionally, the City would need to increase staff in other City departments, such as Human Resources, in order to sufficiently support a City operated police department. The cost for the additional City staff, including overtime pay, holiday pay, and standby pay is \$1,365,916 with another 17 non sworn positions added to the various City departments. **This brings the total cost for a City operated police department to \$50,616,269.**

As this study will explain, there are certain first year costs that can not be estimated at this time. For instance, the City does not require the full time services of an emergency services team (more commonly known as a special weapons and tactics team, SWAT), however, the City would need to consider either contracting for this service with another jurisdiction or consider training its own police officers to act in this capacity on a part time basis. Furthermore, there is the expense of purchasing specialized equipment for this team as well as the cost for the additional training for the members of the team. Another expense that can not be estimated is the cost of a City operated criminal laboratory. As these costs can not be predicted they have been excluded from the budget, however, the City could expect to see the budget increase \$350,000 to \$750,000 for just these two items.

As is explained in the "Police Staffing" section, the staff numbers for a City police department are higher since a City police department would need to have sufficient staff to cover absences that are now covered under the constant staffing provided in the contract with the Riverside County Sheriff's Department. Rather than contract for a particular number of people, the City contracts for a particular number of hours of service with the County. Consequently, if a deputy assigned to Moreno Valley is absent, another deputy will fill his place.

The City operated police department budget also includes the cost of a City operated police communications/dispatch center. Of the \$50,616,269 total budget for a City operated police department, \$2,630,388 is for personnel costs associated with operating a communications center. This amount includes overtime, shift differential, holiday pay, and standby pay. The cost does not include workman's compensation, training costs, internal service fees, and other budgetary costs associated with operating a communications center.

Minimally the City should expect to spend \$34,144,562 in start up costs to establish its own police department. Major components would include vehicles and vehicle equipment; communications, dispatch and computer aided dispatch systems; records management and information technology; a telephone system; and transition costs. Of these start up costs, the most expensive component are the items required to effectively establish a communications and

dispatch center, which totals \$10,416,050 and includes the cost for telecommunication towers. It should be noted that \$10.4 million is considered a minimum cost for dispatch and communications. The cost for dispatch and communications could increase to over \$17 million dollars depending on final quotes for purchasing equipment, purchasing land, constructing the radio towers, and other expenses. These start up costs are outlined in Table 7 on page 19; however, not included in these start up costs is the expense of expanding the Public Safety Building to accommodate evidence and property storage, vehicle impoundment for criminal investigations, a dispatch center, and a criminal laboratory as well as the expansion of City Yard for the maintenance of police vehicles.

The City recently completed a master plan for the incremental growth of the Public Safety Building. In that incremental plan the evidence, property and logistics expansion is included in Phase 3 along with a parking structure. The cost for that phase was estimated at \$27.9 million dollars with a total cost of the expansion \$104.4 million. To some extent, the City would need to revisit this master plan and potentially reprioritize the phases in order to add space to the building to accommodate a larger police force, criminal laboratory, evidence storage, property storage, vehicle impoundment, and a dispatch center. The costs mentioned here are not included in the start up costs but do need to be considered in the overall strategy for implementing a City operated police department should that be the desire of City Council.

This study will begin with an examination of patrol staffing and the number of officers needed for calls for service response and self initiated police work. It describes the number of officers needed for special units such as traffic, problem oriented policing, and special enforcement teams which provide a vital supplement to patrol.

Additional sections will describe investigative support, administrative support, and other components that are required for a City operated police department. There will then be a brief overview of the facility and equipment as well as communications and information technology. Based on the information in those sections, City staff will then outline a first year operating budget. Finally, there will be a brief discussion on the start up costs involved for creating a City operated police department.

## **POLICE STAFFING**

In order to determine the number of police officers required to staff a City operated police department it is necessary to understand that there are two primary workload indicators for patrol operations, which are calls for services and self initiated activity.

Calls for service occur when someone contacts the police department and requests assistance. They can contact the police department by calling 9-1-1, calling the non-emergency phone number for the police department, walking into the police station, or by stopping a police officer on the street. Calls for service can be managed to some extent by separating urgent, life threatening calls from non-life threatening calls, however, the number of calls for service cannot be directly controlled by the police department.

Self initiated activity occurs at an individual officer's discretion whereby they initiate a traffic stop due to a vehicle code violation, check on parked vehicle due to suspicious circumstances, stop a pedestrian, check on a building, or perform other tasks. Self initiated work is generally started by the police officer and is not in response to a citizen request. Self initiated work can be deferred by the police officer to when the calls for service workload is lighter,

however, this type of activity does depend on legitimate opportunities being available which can coincide with peak times for calls for service.

To determine the number of patrol officers needed to respond for calls for service as well as to perform self-initiated work, City staff examined 12 months of data supplied by the Riverside County Sheriff's Department from their data warehousing system (April 1, 2010 - March 31, 2011). The data warehousing system utilizes information from the computer aided dispatch (CAD) system to generate information on each dispatch event. The resulting data was composed of 129,255 useable calls for service and 27,466 self initiated records for that time period.

Data obtained from the Riverside County Sheriff's Department only contains information for the primary unit that responded to a call for service or performed a self initiated activity; however, the total time consumed by an event includes not only the primary unit assigned but also the time spent on the call for service by the backup units. The amount of time spent on a call by backup units will typically be less than that of the primary unit. Backup units tend to be dispatched after the primary unit is assigned and will oftentimes clear the scene sooner than the primary unit. In order to account for the backup unit's time consumed by an event, City staff increased the average total time consumed by calls for service by 40%, which is the number MAXIMUS used in their 2004 police feasibility study.

### **MEASURING CALLS FOR SERVICE WORKLOAD**

In order to determine how many patrol officers are needed to meet the demand for police services in the community City staff measured how much time needs to be devoted to call responses by hour of the day and day of the week. The amount of time spent on a call was measured from the time the officer was dispatched to the call to when the call for service was closed out by the officer.

Each record was broken into the time spent on the call for service by the hour of day and the appropriate day of the week. For example, a call that began at 11:45 p.m. on a Tuesday night and concluded at 1:00 a.m. on Wednesday morning was broken into 15 minutes for the 11:00 p.m. to 12:00 a.m. block of time on Tuesday with the remaining 60 minutes placed in the Wednesday 12:01 a.m. to 1:00 a.m. block.

Utilizing staff from the City's Technology Services Division, all calls for service were broken up into their appropriate day of the week and hour of day. This time was then increased by 40% to account for the time back up units may have spent on the activity and then converted from minutes to hours. The total number of hours for the day of the week and the hour of day was then averaged for the year to produce the number of hours per day of week and per hour of day that the City could expect the patrol division of the police department to spend responding to calls for service. The information in the table below reflects this information.

<b>Hour</b>	<b>Mon</b>	<b>Tues</b>	<b>Wed</b>	<b>Thurs</b>	<b>Fri</b>	<b>Sat</b>	<b>Sun</b>	<b>Totals</b>

Table 1: Time Spent on Call for Service by Patrol Units in Moreno Valley April 2009 to March 31, 2010 (includes 40% assumption of time spent by back up units)

Moreno Valley experiences its highest call volume on weekdays from 1800 hours to 2000 hours. The single busiest period is from 1500 hours through 2300 hours on Fridays. Given that Moreno Valley is a suburban community, this is to be expected.

Each block of time in Table 1 can be interpreted as the amount of personnel hours needed to handle calls for service only during that time on that day. For example the 12.80 figure on Friday night from 2300 hours until midnight means that at least 13 officers are needed on average to handle the calls for service generated by citizens. However, staffing cannot be only for calls for service. Having sufficient time available for self initiated activity is important if the department wants to work proactively to solve crime, violence, and disorder problems through community policing. The best self initiated work involves not only vehicle stops and pedestrian checks but also time for officers to work with residents and business to solve the problems of underlying crime, violence, and disorder. Time spent in these endeavors can reduce calls for service as the conditions causing the problems improve.

Staff could not locate a universally accepted standard for how much patrol time should be consumed by calls for service. A common assumption, prior to the establishment of community oriented policing, was that a third of an officer's time should be spent on calls for service, a third of their time on self initiated activity, and a third of the time on uncommitted patrol activities.

Departments have a varying degree of time spent on patrol ranging from 30% to 65% of an officers time.

The percent of time an officer should spend responding to calls for service is a policy decision based on how the department and the community would like to see an officer spend their patrol hours. Having a large amount of time consumed by calls for service may increase response time as officers will frequently be busy on other calls. It will also reduce the time available to spend on problem solving and community policing by police officers. The department can counteract a portion of this by assigning officers, on a rotating basis, to special assignments such as problem oriented policing, burglary task force, special enforcement teams, etc.

When determining patrol staffing levels it is important to consider that in a police department, as with any other City department or organization, the number of personnel available and actually working will vary daily. Not everyone comes to work every day. Patrol officers are absent from work for a variety reasons including training, vacation, illness, court time, and special assignments. Over time, schedules may vary due to transfers, promotions, long-term injury leave and general vacancies within the police department.

For an agency the size of Moreno Valley, the City can expect to see a show up rate between 75% to 85% for patrol officers. Variables affecting sick leave usage include: the seniority of employees since more senior employees typically accrue more leave than those who are newly hired; department sick leave policies; other available leave such as compensation time in lieu of paid overtime; and work schedules. The later factor, work schedules, has an impact on the show-up rate in that if an officer perceives that they can never have a "favorable" day off then sick leave abuse may occur. There are various models of scheduling that can be reviewed to provide a greater variety of favorable shifts, however, the final shift schedule should be determined by the initial Chief of Police hired by the City should the City elect to form its own police department.

### ***DETERMINING THE NUMBER OF OFFICERS FOR CALLS FOR SERVICE RESPONSE***

Table 1 accounts for an average of 1,412 hours per week that the Moreno Valley Police Department will spend on calls for service regardless of whether the City continues to contract with the Riverside County Sheriff's Department or if the City decides to operate its own police department. Table 2 below shows the number of patrol officers needed given the current hours spent on calls for service, for dedicating 35% of a patrol officers time to calls for service, 50% of their time to calls for service and 65% of their time handling calls for service. The table also estimates the show-up rate for officers at 85%, which equates to 34 hours per week per officer based on a 40 hour work week, or of the 2,080 hours an officer is scheduled to work, he/she will attend work 1,780 hours in a given year.

<b>Hours Per Week Spent on Calls for Service</b>	<b>Percent Time Spent Handling Calls For Service</b>	<b>Officers Needed for an 85% Show Up Rate</b>
1,412	35%	119
1,412	50%	83
1,412	65%	64

Table 2: Number of Officers Needed to Respond to Calls for Service

For the remainder of this study the mid-range of percent time spent handling calls for service will be used for determining costs and other factors for establishing a City operated police department resulting in a requirement of 83 patrol officers to handle calls for service throughout a typical week. To match the changes in workload over the course of a day, the staffing levels for the police department should vary to allow for more officers to be on duty when the calls for service from City residents is highest. The Sheriff's Department currently has officers working 10 hour shifts with 4 shifts per day to allow for greater flexibility in covering those times of day when there are higher calls for service. Those shifts currently are:

- Watch 1: 2200 hours to 0800 hours
- Watch 2: 0600 hours to 1600 hours
- Watch 3: 1300 hours to 2100 hours
- Watch 4: 1700 hours to 0300 hours

At this time, the Riverside County Sheriff's Department has 82 deputies, including two K-9 Officers, assigned to the patrol division with ten sergeants and two lieutenants for supervision, giving a ratio of 8.2 deputies per sergeant (Note, due to the Deficit Elimination Plan, the number of patrol officers was reduced from 87 to 82. The City has not received the 4<sup>th</sup> amendment for the Contract to verify this, however, this is the change that is expected to occur). The ratio of sergeants to patrol officers does vary amongst other police departments and ranges from one sergeant per six officers to one sergeant per ten officers. The 2004 Maximus study suggested that since the City's own police department would most likely be lesser experienced that a patrol officer to sergeant ratio closer to one sergeant per six officers would provide for better supervision in the field. The Maximus study final allocation for patrol had 1 sergeant per 5.4 deputies as they allocated on additional sergeant to the 1:6 ratio for covering vacation, illness, or training. While staff is not suggesting that the City operated department be quite that aggressive in providing supervision for a lesser experienced workforce, it may be in the City's best interest to consider increasing the number of sergeants assigned to patrol in the first few years from the current level of 1:8.2 officers to 1:7 officers. However, for the purposes of generating a first year budget, City staff has kept the current number of sergeants as listed in the contract with the Riverside County Sheriff's Department.

The Riverside County Sheriff's Department provides two lieutenants to oversee patrol functions. These two lieutenants typically work Monday – Friday, however, they do adjust their schedules for special assignments, warrant sweeps, special holidays that adversely affect patrol such as New Years Eve, and are on call should an event arise requiring their expertise. Numerous police departments provide one lieutenant per patrol shift with one Captain overseeing the patrol division. This was the recommendation of the Maximus study that was performed in 2004 for the City. As the City is satisfied with the current level of staffing at the police department, this report will reflect only two lieutenants with patrol being placed under one captain in charge of the Field Operations Division.

### ***SUPPLEMENTING PATROL***

Currently the Riverside County Sheriff's Department supplements patrol services with traffic enforcement, problem oriented policing, community services, special enforcement team,

burglary suppression team, robbery suppression team, and a gang task force. The number of personnel assigned to these teams does vary depending on what is occurring within the City and is provided for within the hours contracted for with the Sheriff's Department. Additionally, the City specifically contracts for dedicated positions above the contract hours which includes:

- the captain (Police Chief)
- one lieutenant
- two sergeants
- ten motorcycle trained deputy sheriffs
- two K-9 deputy sheriffs
- three crime prevention officers
- one gang task force deputy
- one graffiti prevention officer
- one school resource officer

As of the third amendment for law enforcement services entered into by the City and the County on November 10, 2010 the additional personnel needed to supplement patrol were broken out as follows:

**Traffic Unit:** one lieutenant, two sergeants, 18 deputies, five community service officers, and one Management Analyst (City employee)

**Problem Oriented Policing Team:** two sergeants, nine deputies and two community service officers

**Special Enforcement Team (SET):** one lieutenant, two sergeants, one K-9 officer, and 14 deputies

**Burglary Suppression Team:** four deputies

**Robbery Suppression Team:** two deputies

**Towngate Mall:** two deputies (Note the Moreno Valley Mall pays the fully supported rate of 70 hours a week to have a deputy at the Mall 10 hours each day. These deputies work a combined 10 hours a week on patrol that is paid for by the City.)

**Police Grant C-CAT:** two deputies and one Sheriff's Service Officer II (all positions are currently 100% funded through a grant) who are in addition to the staffing listed for SET.

Overall, the City is satisfied with the performance of these teams at their current staffing levels. Due to this, the study has incorporated these positions in their entirety into the final staffing report.

In order to transport prisoners to the Riverside County Jail it is recommended that a City operated police department continue to primarily utilize Community Service Officers to fulfill this role so that sworn personnel can continue to handle calls for service in a timely manner. In addition to transporting prisoners, the Community Service Officers would be assigned calls for service where there is no suspect information available, such as a runaway juvenile or a burglary

where the resident does not know who may have committed the crime. This would allow for the patrol officers to handle call for service where crimes are in progress, take reports where there is suspect information as they may contact the suspect, or to perform proactive activities such as traffic stops.

Finally, Moreno Valley would lose access to a special weapons and tactics team (known as the emergency services team (EST) in the Sheriff's Department), hazardous device team (HDT, commonly referred to as the bomb squad), and assistance from the Riverside County Sheriff's Department helicopter as these services are provided as part of the contract with the County.

Currently, Moreno Valley does not have the frequency of calls for service that requires these specialized teams/units full time. Part-time emergency services teams, where officers have collateral duties, could be something for the City to consider as well contracting with either the Riverside County Sheriff's Department or the City of Riverside for EST services. Ideally, the City operated police department would deploy staff to stabilize the scene and hold a perimeter until such a specialized unit could be assembled and arrive on scene. This service, along with the Hazardous Device Team (HDT) and helicopter services, are currently provided to the City through the contract as part of the deputy hourly rate. Without entering into negotiations with either the County of Riverside, City of Riverside, or another local jurisdiction, it is difficult to estimate what contract costs might be for access to EST, HDT, or helicopter services.

City staff highly recommends that the City minimally contracts for helicopter services as the Riverside County Sheriff's helicopter does spend a considerable amount time patrolling the City during peak demand times for police services by the public. Again, without entering into negotiations with the County, it is difficult for City staff to determine an exact cost for helicopter services. However, in order to provide an idea of what a contract might cost the City, staff examined the aviation program costs for the City of Riverside and the City of Ontario.

The City of Riverside's Aviation program cost \$1,886,899 in FY 10/11 operate, whereas in Ontario their aviation program cost \$2,522,383. For the purposes of developing an estimated first year budget for a City operated police department, City staff assumed that the City could expect to pay approximately 20% of the costs associated with the City of Riverside's program which would be \$377,380 per year. Cost estimates for EST and HDT can not be accurately estimated at this time and therefore are not included in the budget.

## **INVESTIGATIONS**

The Riverside County Sheriff's Department, in their contract rate for a deputy sheriff, allocates one detective per 7.33 deputies paid for by a contract city. This has created a detective bureau at the Moreno Valley Police Department that is currently staffed with one lieutenant, two sergeants, 17 detectives, two deputies for burglary suppression, two forensic technicians, and one sheriff's service officer II. The Investigations Bureau also has three support staff consisting of one clerical position and two crime analysts, one of which is a City employee. As the homicides that occur in the City are handled by the Riverside County Sheriff's Department Criminal Homicide Unit, the City would need to consider adding two to three additional officers at the detective rank to address not only homicides but also the more violent crimes that occur in the City due to the length of time it takes to perform an in depth investigation. For the purposes of this study, City staff has allocated three additional officers to the Riverside County Sheriff's

Department current staffing level in order to ensure violent crimes are properly investigated in a timely manner.

City staff is proposing to eliminate the detective rank and assign patrol officers to conduct criminal investigations for prosecution by the District Attorney. Patrol officers assigned to the detective bureau would receive an additional pay incentive to work in this special assignment while allowing the City operated police department greater flexibility in transferring staff around to patrol, special operations, and other assignments without losing rank. This will further allow the department the ability to establish a rotation policy amongst patrol, problem oriented policing, special enforcement team, and the investigations bureau in order to provide for greater career development and job enrichment to the employee without creating entitled positions.

Since it is traditional in many Riverside and San Bernardino County police agencies to have an investigator rank the City may need to consider granting bonuses or supplemental pay to lateral transfers that have investigative experience in order to create a competent detective bureau in the beginning stages of the City operated police department. The cost for granting these bonuses has not been included in the proposed first year budget or in the start up costs section.

Another consideration, for operational reasons, would be to locate the forensic unit within the Investigation Bureau for ease of communication between those that collect the criminal evidence and those that are pursuing criminal cases. The City already contracts specifically for two forensic technicians. This unit would need to be expanded to include hiring additional forensic technicians and supervisors who have the experience of handling major crime scenes as the current forensic technicians the City contracts for are specifically assigned to handle burglaries and vandalisms.

As previously noted, all homicides are handled by the Riverside Sheriff's Department Criminal Homicide Unit as well as their technicians, so additional forensic technicians are necessary to provide forensic support for the more complex crimes such as armed robberies, assaults with a deadly weapon, and homicides. Forensic support is needed 24 hours a day so on call pay would need to be a consideration during employee negotiations. This unit would consist of four forensic technicians, one senior forensic technician, and one forensic supervisor.

Finally, the City needs to consider adding additional officers to the Investigations Bureau to conduct internal affairs investigations. Presently, all personnel investigations that are not criminal in nature, and do not involve officer involved shootings are handled at the station level. As part of the City's contract with the Riverside County Sheriff's Department, personnel investigations that are more serious in nature are referred to the Administrative Investigations Department within the Sheriff's Department. After consulting with the Sheriff's Department, City staff is recommending that an additional two officers be added to the Investigations Bureau for the purposes of conducting the more serious personnel investigations

## **ADMINISTRATION AND SUPPORT**

In order for a police department to operate effectively it needs administrative support and community programs. The Administrative Support Division would be overseen by one Captain who would oversee the Community and Administrative Services Division, Fiscal Administration, and Communication Center. The Community and Administrative Services Section would be overseen by a lieutenant and would consist of:

- Logistics Unit: Six Community Service Officers would be required to manage issues related to the building, fleet, weapons maintenance, and the issuance of radios and equipment. The unit would be responsible for tracking all equipment and uniform issuance. Additionally, a Police Fleet Maintenance Coordinator would need to be hired in order to coordinate all fleet maintenance issues with the City's Maintenance and Operations Division.
- Community Services Unit: would consist of two sergeants, five deputies, and three community service officers to keep staffing level equivalent to what the City contracts for with the County.
- Training Unit: would ensure that all training records for employees are accurate and would be in charge of scheduling employees for training. This unit would consist of a sergeant, one officer, and one office assistant.
- Records and Data Processing Unit: would process all police reports, input information into the records management system, and provide front office clerical support. The Riverside County Sheriff's Department currently has one supervising office assistant II, one supervising office assistant I, two office assistant III's, and fourteen office assistant II's who provide this support. While the Riverside County Sheriff's Department does most of the records management tasks at the Moreno Valley Police Station, records management does involve offsite Riverside County Sheriff personnel. The costs for those personnel are recovered through the deputy hourly rate that the County charges the City. As such, the City would need to consider additional staffing which should include a Police Administrative Services Supervisor, two Senior Administrative Assistants, and three more office assistants.

The Fiscal Administration Section would consist of a senior management analyst to monitor the various police department budgets and oversee the grants administered throughout the police department, one senior accountant, one accounting technician, and 2.5 accounting assistant II's to continue to provide the same level of accounting services that the police department currently has.

The Communications Center would consist of the City's Dispatch Center. Issues regarding the telephone system, computer aided dispatch system, and the radio system would be reported to, and handled by, the City's Technology Services Division. Additional staffing for Technology Services is accounted for in Table 5 on page 14. Through a review of other cities who staff their own police dispatch centers, and in consultation with the Moreno Valley Police Department's Administrative Lieutenant, it was determined that a total of 31 personnel would be required to effectively run a communication center. Personnel would consist of:

- One Public Safety Communications Manager
- Four Public Safety Communications Supervisors
- Two Senior Public Safety Communications Dispatchers
- 24 Public Safety Communication Dispatchers

### **OFFICE OF THE CHIEF**

The Office of the Chief would include the Chief of Police, Executive Assistant, and an Administrative Sergeant. Some of the responsibilities of the Administrative Sergeant would

include acting as the public information officer for the police department, overseeing the reserve deputy program, and coordination of facility maintenance with Community Services.

**ORGANIZATION CHART**

The person hired by the City to act as the first Police Chief and establish a new police department will most likely change the organization chart presented here to fit their needs and the goals they have for the department, however, in order to give City Council, City staff, and the public an idea of how the police department might be organized, a chart was prepared and can be seen below.

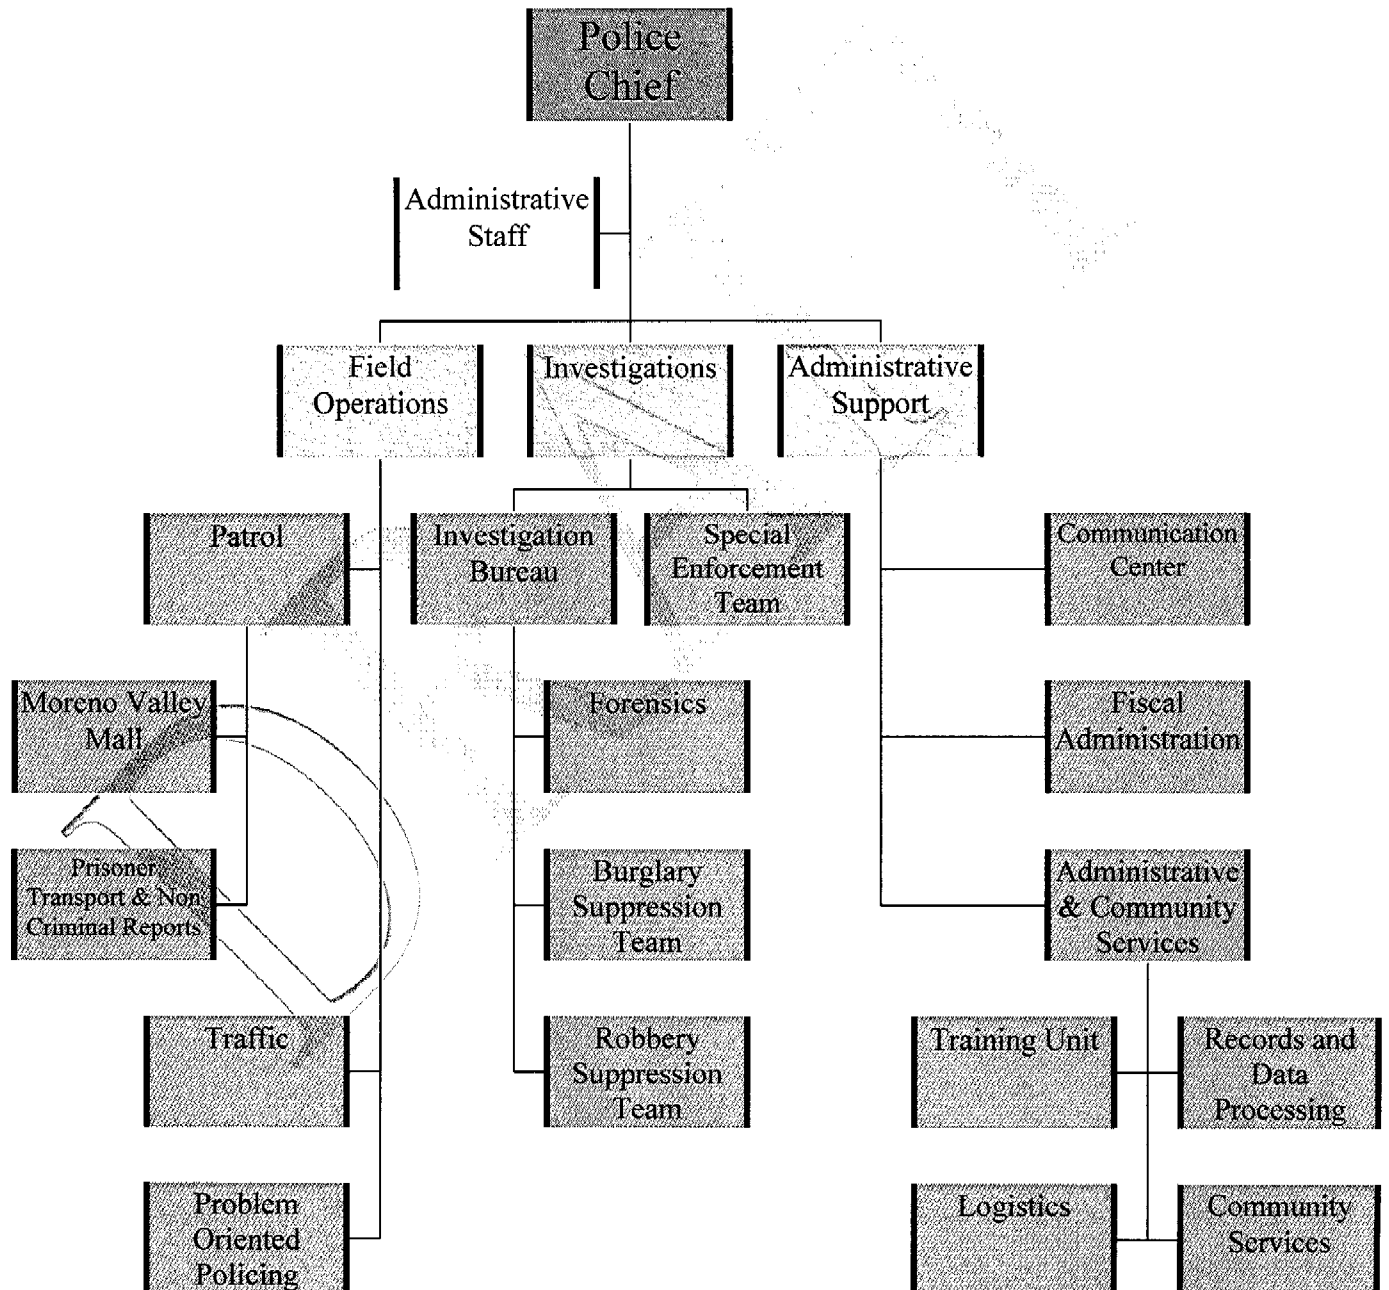

Chart 1: Proposed Organization Chart for a City Operated Police Department

**SUMMARY OF STAFFING FOR MORENO VALLEY POLICE DEPARTMENT**

A summary of staffing within each organizational unit of the organization chart above is shown below.

<b>Title</b>	<b>Number Personnel</b>
<b>Office of the Chief</b>	
Chief of Police	1
Executive Assistant	1
Administrative Sergeant	1
<b>Field Operations</b>	
Captain	1
Lieutenants – 2 Patrol, 1 Traffic	3
Sergeants	16
Officers - includes 2 K-9's, 2 Mall Officers, and 2 grant Officers	113
Community Service Officers – 16 Patrol, 5 Traffic, 2 POP	23
Management Analyst - Traffic	1
<b>Investigations</b>	
Captain	1
Lieutenant -- 1 Investigations, 1 SET	2
Sergeants	4
Officers - includes Investigator Rank and K-9	46
Crime Analyst	2
Community Service Officer - Property	2
Office Assistant	1
Forensic Supervisor	1
Senior Forensic Technician	1
Forensic Technician	4
<b>Administrative Support</b>	
Captain	1
Lieutenants	1
Sergeants	3
Officers	6
Community Service Officers	9
Police Fleet Maintenance Coordinator	1
Public Safety Communications Manager	1
Public Safety Communications Supervisor	4
Senior Public Safety Communications Officer	2
Public Safety Communications Officer	24
Senior Management Analyst	1
Accounting Assistant II	2.5
Senior Accountant	1
Accountant Technician	1
Police Administrative Services Supervisor	1
Senior Administration Assistant	2
Office Assistant	22

Table 3: Staffing Summary Chart by Organizational Unit

The next table shows the number of employees for each position as well as salary, and benefits for personnel costs for a City of Moreno Valley Police Department. It excludes overtime, holiday pay, shift differential, and standby pay as well as additional City Hall staff.

Position Description	Number of Positions	Salary	Benefits	Total Personnel Costs
Police Chief	1	\$193,042	\$86,869	\$279,911
Police Captain	3	\$138,686	\$62,409	\$603,284
Police Lieutenant	6	\$103,878	\$46,745	\$903,739
Police Sergeant	24	\$85,849	\$38,632	\$2,987,545
Police Officer - Lateral	132	\$73,410	\$33,035	\$14,050,674
Police Officer - Entry*	33	\$72,494	\$32,622	\$3,468,838
<b>Total Sworn =</b>	<b>199</b>			<b>\$22,293,991</b>
Accountant II	2.5	\$63,410	\$22,194	\$214,009
Accounting Technician	1	\$45,064	\$15,773	\$60,837
Community Service Officer I	13	\$37,112	\$12,989	\$651,316
Community Service Officer II	17	\$42,496	\$14,874	\$975,283
Executive Assistant II	1	\$54,776	\$19,172	\$73,948
Forensic Supervisor	1	\$68,049	\$23,817	\$91,866
Forensic Technician	4	\$49,749	\$17,412	\$268,645
Management Analyst (Crime Analyst)	3	\$63,410	\$22,194	\$256,811
Office Assistant	22	\$33,628	\$11,770	\$998,739
Police Administrative Services Supervisor	1	\$81,411	\$28,494	\$109,905
Police Fleet Maintenance Coordinator	1	\$66,945	\$23,431	\$90,376
Public Safety Communications Manager	1	\$84,391	\$29,537	\$113,928
Public Safety Communications Dispatcher I	6	\$46,499	\$16,275	\$376,642
Public Safety Communications Dispatcher II	18	\$53,293	\$18,653	\$1,295,020
Public Safety Communications Supervisor	4	\$65,717	\$23,001	\$354,872
Senior Accountant	1	\$66,581	\$23,303	\$89,884
Senior Administrative Assistant	2	\$45,064	\$15,773	\$121,674
Senior Community Service Officer	4	\$47,168	\$16,509	\$254,707
Senior Forensic Technician	1	\$58,748	\$20,562	\$79,310
Senior Management Analyst	1	\$73,405	\$25,692	\$99,097
Senior Public Safety Communications Dispatcher	2	\$54,082	\$18,929	\$146,021
<b>Non Sworn</b>	<b>106.5</b>			<b>\$6,722,888</b>
<b>Total Positions &amp; Costs=</b>	<b>305.5</b>			<b>\$29,016,878</b>

Table 4: Summary of First Year Salary and Benefit Cost for the Police Department Excluding Additional City Hall Staff

The information in Table 4 excludes costs for overtime, shift differential, holiday pay, and special duty pay. Those amounts are included in a simulated first year operating budget in Table 6 on page 16. Additionally, City personnel that will need to be hired as a result of creating the City's own police department can be found in Table 5 on the next page.

For positions that the City does not currently have in its salary schedule a salary survey was completed utilizing information from the current salaries paid by the Riverside County Sheriff's Department, the City of Riverside, and several other local agencies. A median of the minimum and maximum salaries for those jurisdictions was utilized to determine a midrange salary that the City could expect to pay experienced law enforcement personnel for both sworn and non sworn positions. The figures used to project salary costs overall pays 1.6% higher than the County, however, the figures are approximately 9% lower than the average salary for the City of Riverside.

The new Moreno Valley Police Department would need to hire both experienced and inexperience police employees. It would be preferable if at least 85% of the city operated police department's personnel had previous law enforcement experience. The City would need to pay salaries and benefits that reflect this accumulated knowledge, skill and abilities of a predominately veteran staff. The salaries reflected in the table above reflect a mid range for all positions in order to estimate the cost of hiring an experienced work force.

A fringe benefit rate of 35% was utilized for non sworn personnel while a 45% fringe benefit rate was used for sworn personnel due to the fact the City would be offering all sworn personnel 3% at 55 for their retirement, known as PERS (California Public Employee Retirement System). Workman's Compensation has not been calculated into the benefit rate and is accounted for separately in the first year budget (Table 6).

**ADDITIONAL CITY STAFF**

In order to support a City operated police department, it is imperative that the City recognizes the need to expand staffing in other City Departments and Divisions for services that were previously covered by the County as well as the demand for services that the additional 305.5 positions will create for other departments such as Human Resources and Finance. Below is a table listing the names and number of positions needed as well as a cost estimate for the salary and benefits of these positions.

Position Description	Number of Positions		Total Personnel Costs	
	Salary	Benefits	Salary	Benefits
Deputy City Attorney I	1	\$89,224	\$31,229	\$120,453
Human Resource Analyst	1	\$63,410	\$22,194	\$85,604
Human Resource Technician	1	\$45,064	\$15,773	\$60,837
Information Technology Technician	1	\$52,168	\$18,259	\$70,426
Legal Secretary	1	\$49,684	\$17,389	\$67,073
Network Administrator	1	\$89,224	\$31,229	\$120,453
Payroll Technician	1.5	\$45,064	\$15,773	\$91,256
Risk Management Analyst	1	\$63,410	\$22,194	\$85,604
Senior Application Analyst	1	\$73,405	\$25,692	\$99,097
Telecommunications Technician	2	\$52,168	\$18,259	\$140,853
Vehicle Equipment Technician	5.5	\$45,064	\$15,773	\$334,604
<b>Subtotal</b>	<b>17</b>			<b>\$1,276,257</b>
Overtime				\$45,000

Standby & Holiday Pay				\$44,659
<b>Total Personnel Costs</b>				<b>\$1,365,916</b>

Table 5: Summary of First Year Salary and Benefit Cost for Additional City Hall Staff to Support Police Department

**FACILITY AND EQUIPMENT**

The Moreno Valley Police Department would occupy the current City owned facility used by the Riverside County Sheriff's Department. The Public Safety Building (PSB) is owned by the City and was built specifically to be the headquarters for both the Police and Fire Departments. The City and Riverside County would need to jointly conduct a complete inventory of the building to determine what is owned by the City and what is owned by the County. Start up costs, which are listed on page 19, contain estimates for equipment the City might have to acquire to replace County owned equipment and/or purchase new equipment for the dispatch center.

While the City had initially allocated space for a dispatch center to be located in the PSB when it was constructed, that space had been temporarily converted into an emergency operations center (EOC) following the terrorist attacks in September 11, 2001 in New York. With the City's new EOC opening in September of 2010, this space became available for the reconfiguration of the PSB to accommodate a police department that has been outgrowing the current facility. Funding for that space to be converted into an area to accommodate the traffic division was approved in the Fiscal Year 2011/2012 Capital Project Budget and the conversion of this space is expected to be completed in Fiscal Year 2012/2013.

A master plan for the reconfiguration of the PSB was completed in 2010 however, while it included building an area for the secure storage of property and evidence as well as a vehicle impound area, it excluded building a criminal laboratory area for forensic technicians to utilize in order to process photographs, fingerprints, and other crime scene evidence as well as an area for a communications/dispatch center. This master plan would need to be updated and the City would need to be prepared to expand the PSB immediately in order to accommodate a dispatch center, a criminal laboratory for the forensic technicians to use, and an area for evidence and property storage as well as an area for vehicle impoundment. Currently, all of the property and evidence seized by deputies assigned to Moreno Valley is stored at the Riverside County Sheriff's Department Perris Station due to the lack of space at the PSB. Of the 4,400 square feet of evidence and property storage at the Perris Station, Moreno Valley occupies approximately 80% of that space. Due to these factors the City should consider moving forward on the PSB expansion as soon as possible should the City Council elect to start up a City operated police department.

Unfortunately, it is too difficult to estimate at this time what the cost for expanding the PSB to accommodate these new areas would cost. In the incremental growth plan completed for the City by Roesling Nakamura Terada Architects, the PSB is expanded over three phases for a total cost of \$104.4 million dollars. The evidence, logistics, and property area, which included a parking structure of 871 stalls, was listed in Phase 3 of this plan at a cost of \$27.9 million dollars. Again, this expansion excluded the addition of a criminal laboratory and a dispatch center.

Finally, the City would also need to ensure that there is adequate locker room space for the expanded size of the police department and the City would need to reexamine whether or not there was adequate space in the building for the sworn and non-sworn staff to utilize in the performance of their duties.

**COMMUNICATIONS, INFORMATION TECHNOLOGY, AND DISPATCH**

While the City can definitely consider contracting for dispatch services, ideally a City operated police department would want control over its own dispatching and information technology operations in order to ensure local priorities are being met. While it is not unheard of for a City to have its own police department and yet contract for police dispatch services (the City of Pacifica on June 27, 2011 decided to contract dispatch services with South San Francisco), it is highly unusual. Some of the concerns the need to be considered when examining whether or not to contract police dispatch services while maintaining a local police department includes: loss of local control, conflict resolution between police officers and dispatchers, and the ability to have immediate access to 9-1-1 tapes and radio transmissions. For the purposes of this study, City staff has assumed that the City will operate its own dispatch and communications center.

Personnel costs for a communications center is estimated at \$2,630,388 for the first year of operation. Other costs that have been considered for a first year operating budget for a City police department include office supplies, training, recruitment costs, and internal service fund transfers to cover technology and facility maintenance costs. An additional budget item to consider for the future would be uniforms for dispatchers as several jurisdictions do provide uniforms for dispatchers to create a more professional environment and reinforce the idea that they are working for a paramilitary department.

**FIRST YEAR OPERATING BUDGET**

A potential first year operating budget for the first year for a City operated police department is shown on the next page. Of note, there are no costs listed for either contracting emergency services team (EST) services and hazardous device team (HDT) services or providing equipment, training, and supplemental pay to City police officers to provide this service. Additionally, it is difficult to determine the costs associated with operating a criminal laboratory and therefore no cost estimate has been made for supplies for a criminal laboratory. Included in the first year operating budget below is the costs for outside legal services, general liability, workmen's compensation, property damage insurance, and employment practices insurance.

Description	Cost
<b>Salaries and Benefits</b>	
Salaries - Sworn (199)	\$15,375,166
Benefits - Sworn	\$6,918,825
<b>Salaries &amp; Benefit Cost Sworn</b>	<b>\$22,293,991</b>
Overtime - Sworn	\$2,121,420
Standby / Call Back Pay @ 0.5%	\$111,470

Maintenance & Operational Costs	\$3,322,280
Insurance - Subtotal	\$5,761,805
ISF - Subtotal	\$6,975,343
<b>Annual Costs</b>	<b>\$49,250,353</b>

Table 6: Proposed First Year Operating Budget Excluding Additional City Staff

In addition to the first year operating costs listed above, the City would need to augment other City departments with staff to support to the Police Department at a cost of \$1,365,916 (from Table 5) in order to support a police department that operates seven days a week, 24 hours a day. *This would bring the total first year costs associated with a City operated police department to \$50,616,269.*

City staff created the first year budget based on what the City allocated to the police department for Fiscal Year 2011/2012 and then supplemented the budget with additional funding for items such as contracting out helicopter services, additional funding for outside legal expenditures to address lawsuits, funding for replacing uniforms, and other such costs that are not currently in a separate line item budget for the police department and are currently provided as part of the contract with the Riverside County Sheriff's Department.

This first year budget is experimental to some extent as some costs can not be accurately predicted until a few budget cycles have passed, such as the cost for recruitment, replacement uniforms, and training. Items that are easier to predict, such as salary and benefits, are reliable as these are set costs that increase or decrease based on contracts with the various City unions.

The City, in FY 11/12, has budgeted \$41,261,770 for 181 sworn positions and 52.5 non sworn positions. The proposed City operated police department would have 199 sworn positions with 106.5 non sworn positions for a cost of \$49,250,353 plus an additional \$1,365,916 to cover the costs of 17 new City positions for a total first year operating budget of \$50,616,269. This is an increase of \$8,969,529 or 22.7% for the City to operate its own police department.

**START UP COSTS**

The start up costs for a City operated police department include patrol cars, uniforms, background checks, dispatch equipment, information technology equipment, initial reserve fund money for general liability and workman's compensation, and capital outlay for radio towers and fueling station. The start up costs provided below is for items minimally required to begin

operating a City police department. As mentioned previously, it is quite possible that the start up costs listed for the communications/dispatch center could cost an additional \$7 million dollars, bringing the total cost for communications and dispatch to over \$17 million dollars.

Excluded from these start up costs is the expense to expand City Yard in order to provide routine service to police vehicles. While the City of Corona was able to expand their current City Yard as a cost of \$1.5 million dollars to accommodate performing maintenance on police vehicles with their staff, it is quite possible that such an expansion could run \$4 million to \$6 million dollars should the City need to purchase land to build a police vehicle only facility that could be expanded to accommodate fire engines and fire trucks in the future.

Also not included in the start up costs is the cost to expand the Public Safety Building (PSB). As previously discussed, the incremental grown plan for the PSB would need to be reexamined to ensure there is adequate space for the proposed City operated police department as well as enough space for property and evidence storage, vehicle impoundment, a dispatch center, and a criminal laboratory. The project was last estimated in 2010 to have a total cost of \$104.4 million dollars, with the phase 3 expansion that includes adequate space for property, evidence, and vehicle impoundment at a cost of \$27.9 million dollars.

Finally, the City currently owns a few vehicles utilized by the Riverside County Sheriff's Department, such as the motorcycles for traffic enforcement, the traffic reconstruction truck, and the forensic technician's vehicle. These items have been excluded from the start up costs listed below.

Description	Cost	Units	Total Cost
<b>Patrol Cars</b>			
Patrol - Black and White - Crown Victoria	\$26,000	122	\$3,172,000
Patrol - K9 - Crown Victoria	\$26,000	3	\$78,000
Unmarked - Make/Model Varies	\$20,000	45	\$900,000
Transport Van	\$30,000	2	\$60,000
<b>Subtotal Vehicle Cost =</b>			<b>\$4,210,000</b>
<b>Vehicle Equipment</b>			
Equipment for Patrol Vehicle (includes K-9)	\$32,920	125	\$4,115,000
Equipment for Detective Vehicle	\$23,920	45	\$1,076,400

<b>Subtotal Of Start Up Costs =</b>			<b>\$28,243,868</b>
Contingency at 20%			\$5,648,774
<b>Total Costs =</b>			<b>\$33,892,642</b>

Table 7: Start Up Costs – Excludes the Cost to Expand the Public Safety Building and City Yard.

The City would require at least two years to build the communications infrastructure required to support its own police department. A large part of this two year process is the length of time it would take to work with the Federal Communications Commission to obtain radio frequencies, hiring project managers to ensure the project is completed in a timely manner, and the purchasing of land in order to build radio towers as well as the construction of those towers. As the Riverside County Sheriff's Department requires 12 months notice from the City in order to terminate the contract, this process would need to start one year prior to notifying the County that the City intends to operate its own police department.

New police officers, as opposed to lateral transfers from other jurisdictions, will require training at a Peace Officer Standards and Training (POST) certified academy which would be a cost incurred by the City as well as the salary and benefits paid to the employee during their training period. The cost at the Ben Clark Training Center for a basic POST certificate for law enforcement is minimally \$5,579.62. *As it is difficult to determine how many new officers the City can expect to hire, the cost for an employee to attend the police academy, has been excluded*

from the start up costs. City staff can provide a rough estimate of the cost, which would assume 75% of the sworn staff hired would have previous law enforcement experience. Therefore, of the 199 sworn staff, 50 of the personnel hired by the City would require a basic POST certified academy, increasing the start up costs by \$278,981. However, this amount could be much higher or lower, based on who is hired.

All employees within the police department would need to undergo an in depth background check and polygraph test. Additionally, all sworn staff would be required to pass a psychological evaluation. Based on information provided by other jurisdictions, the City can expect to spend \$445 per officer for a psychological evaluation, \$500 per person for a polygraph test, and approximately \$3,250 per background investigation (estimated at \$65.00 per hour at 50 hours per investigation). The line item was then increased by 40% to account for those individuals who will not pass their background check. As a side note, this could be extremely conservative as some jurisdictions see a failure rate higher than 40% when completing background investigations on police officers.

Finally, City staff has included overlap coverage between the Riverside County Sheriff's Department and a City operated police department. For example, the Police Chief would need to be hired six to nine month in advance of the desired start date for the police department. The Chief would then begin the process of hiring personnel, establish policy and procedures, and coordinating a smooth transition with the Sheriff's Department. There will also be a period of overlap between the deputies from the Sheriff's Department patrolling Moreno Valley and the officers from the City operated police department patrolling the City to give the new officers time to learn the City and meet key community members. These costs have been accounted for in the transition costs.

## **CONCLUSION**

The City, in FY 2011/2012, has budgeted \$41,261,770 for 181 sworn positions and 52.5 non sworn positions. The proposed City operated police department would have 199 sworn positions with 106.5 non sworn positions for a cost of \$49,250,353 plus an additional \$1,365,916 to cover the costs of 17 new City positions for a total first year operating budget of \$50,616,269. This is an increase of \$9,354,499 or 22.7% for the City to operate its own police department.

When comparing this to the Maximus study of 2004, the City had budgeted \$23,030,031 for police services in Fiscal Year 2003/2004 which included 144 sworn positions and 43.5 non-sworn positions. The police department described by Maximus in that study would have had a first year operating cost of \$28,756,493 with a staff of 166 sworn positions and 90.5 non-sworn positions. Maximus' proposed first year budget was a 24.9% increase over what the City had budgeted for police services.

City staff did expect to see a slight decrease in the percentage between what a City operated police department would cost compared to contracting with the Riverside County Sheriff's Department due to budget reductions to the police department's budget over the last few years. It is therefore not surprising to see a slight difference between the Maximus study and the City's own in house feasibility study.

The Maximus study in 2004 had an estimated start up cost of \$19 million compared to the \$33,892,642 of this study. In looking at their study it appears they may have underestimated the costs for communications in dispatch. They also allocated funding for 119 vehicles, both new and used, whereas this study assumes the City will need to buy all new vehicles as there is no

guarantee that there will be any serviceable used police vehicle that would fit the City's needs. The Maximus study also under allocated funding for background investigations and vehicle equipment.

Determining the exact size and cost of a City operated police department will depend on providing a satisfactory level of service to the residents of Moreno Valley. The size and cost recommendations made in this report are a low to mid range mix of personnel and functions designed to provide at least equivalent services to those currently being provided under contract. Adjustments can be made, based on policy preferences, by City Council or the City Manager. However, without a substantial decrease in personnel, the annual cost of providing police services that are equivalent to what the City is currently receiving will remain in the vicinity of \$50,616,269, which includes the additional City staff needed in other departments to support a City operated police department.

## Report to City Council

---

**TO:** Mayor and City Council

**FROM:** Barry D. McClellan, Assistant City Manager

**AGENDA DATE:** February 19, 2002 (Study Session)

**TITLE:** City Dispatch Center

---

### RECOMMENDED ACTION

The purpose of this report is to provide information regarding the feasibility and costs of providing an in-house dispatch center.

### SUMMARY

This report examines the start-up and annual operating costs associated with providing an in-house dispatch center. The study examines the County Sheriff's proposal and addendum, the DMG Maximus review, and a comparative analysis performed by City staff. This study concludes that operating costs will increase by \$500,000 or more and start-up costs will be in the range from \$380,000 if sheriff's equipment is used and \$3 million or more if sheriff's equipment is not utilized. From a cost perspective, it would appear establishing a stand-alone dispatch center is not feasible at this time given the financial requirements of the proposal and the lack of available operating funds in the general fund.

### BACKGROUND

The City of Moreno Valley contracts for police and fire services with the County of Riverside. All police and fire support services are included in both the police and fire service contracts, including dispatch services. The City's fire services are provided by the California Division of Forestry, which contracts with Riverside County. The City Council has asked staff to review the feasibility and costs of implementing a city-operated dispatch center at the City's public safety building. A consultant study was planned to be performed, but the costs for doing so were determined to be too much for the levels of review required at this time. Alternatively, staff conducted a survey and comparative analysis of other dispatch centers. The City also has at its disposal two previous reports and an addendum report related to providing police dispatch services. The first report, from the Riverside County Sheriff's Department dated May 1999 includes an addendum report dated July 2000, and the second report by DMG Maximus

STUDY SESSION ITEM NO. 4.

MV00228140

was dated November 1999. This data, taken in whole, has provided adequate information about the probable range of costs that could be anticipated if a City operated dispatch center is established.

Dispatch or communication center functions include the following:

- Handling calls for service and information from the public, other agencies and patrol.
- Classifying, prioritizing, and assigning calls for service to patrol.
- Receiving, monitoring and transmitting radio messages.
- Data entry into the various law enforcement computer systems.
- Maintenance of audio logs of phone calls and radio communications.

## DISCUSSION

### **Riverside County Sheriff's Study**

The Riverside County Sheriff's Department provided a stand-alone dispatch services proposal to the City of Moreno Valley in May of 1999. The July 2000 addendum to this report only provided new estimates related to dispatch personnel costs. The figures have been updated to account for cost increases since 1999 and 2000, respectively.

Currently, the County charges the City approximately \$1,183,100 annually for its pro-rata share of dispatch center costs. According to this study, the costs of operating an in-house dispatch center would be an additional \$1,139,585 annually to the City (Table 1). In addition to these annual recurring costs would be a one-time start-up cost of \$386,201 (Table 3). The current cost estimates are:

**Table 1: County Sheriff's Proposal: Annual Operating Costs**

<b>Description</b>	<b>Estimated Costs</b>
Personnel Costs	\$1,848,584
Supplies/Services/Equipment Costs	\$474,101
<b>Subtotal of Cost:</b>	<b>\$2,322,684</b>
Less Dispatch Recovered through Contract Rate	\$1,183,099
<b>Estimated Net Increase in costs</b>	<b>\$1,139,585</b>

The addendum proposal by the County Sheriff's Department decreases personnel costs for a dispatch center by approximately \$100,000 or to \$1,749,700, as adjusted per inflation for three years or 9% (Table 2).

**Table 2: County Sheriff's Addendum Proposal: Annual Operating Costs**

<b>Description</b>	<b>Estimated Costs</b>
Personnel Costs	\$1,749,701
Supplies/Services/Equipment Costs (as listed in original report)	\$474,101
<b>Subtotal of Cost:</b>	<b>\$2,223,802</b>
Less Dispatch Recovered through Contract Rate (original report)	\$1,183,099
<b>Estimated Net Increase in costs</b>	<b>\$1,084,217</b>

Table 3: County Sheriff's Proposal: Initial Start-up Costs

Description	Estimated Costs
Equipment costs	\$210,783
Vesta System (911 costs)	\$175,418
<b>Total Estimated Start Up costs</b>	<b>\$386,201</b>

### DMG Maximus Study

The DMG Maximus study, *Analysis of the Operating and Start-up Costs for Establishing an In-House Police Department* was produced in November of 1999. This study is a summary review of public safety and dispatch service costs for providing in-house police services and is by no means an in-depth study. It provides basic service level data such as dispatch staffing requirements and it provides some basic formula assumptions derived from comparative analysis of California public safety agencies. The reported data and assumptions allows for the extrapolation of operating costs for an in-house dispatch center. The City of Moreno Valley's expected net increase in dispatch services according to the DMG Maximus study is \$584,162. See Tables 4 and 5 below.

Table 4: DMG Maximus Table for Personnel Cost

Position Title and Number of Employees	Base salary	(Base Salary) x (Number of Positions)	Overtime (5%)	Benefits and Payroll costs (50% Sworn and 42% Non-Sworn)	Total Personnel Cost
Lieutenant (.25)	\$66,348	\$16,587	\$0	\$8,294	\$27,866
Lead Dispatcher (3)	\$37,460	\$112,380	\$5,619	\$49,560	\$187,666
Dispatcher (18)	\$32,574	\$586,332	\$29,317	\$258,573	\$979,129
Comm. Supervisor (1)	\$51,365	\$51,365	\$0	\$21,573	\$81,691
Records Clerk (3)	\$25,198	\$75,594	\$3,780	\$33,337	\$126,236
Sub-totals	\$212,945	\$842,258	\$38,715.95	\$389,003	\$1,402,588
Add Personnel Costs @ 26%					\$364,673
<b>Total</b>	<b>\$212,945</b>	<b>\$842,258</b>	<b>\$38,715.95</b>	<b>\$389,003</b>	<b>\$1,767,261</b>

Table 5 provides a calculation for the estimated cost for the stand-alone dispatch center.

Table 5: DMG Maximus: Annual Operating Costs

Description	Costs (Inflation adjusted)
Personnel cost	\$1,402,588
Non-personnel cost	\$364,673
<b>Sub-total of Cost</b>	<b>\$1,767,261</b>
Less Current Dispatch Cost	1,183,099
<b>Estimated Net Increase in Costs</b>	<b>\$584,162</b>

## **Study Comparisons**

The 1999 Riverside County Sheriff's study estimated that the number of full-time equivalent (FTE) dispatchers needed to operate a stand alone dispatch center for the City of Moreno Valley would be 25, but the addendum study indicated only 21.5 (FTE) would be required. The Sheriff's study and its addendum also provide a list of four comparative dispatch agencies and their staffing levels. However, these agencies do not provide a good indicator for Moreno Valley's staffing needs. For example, the City of Ontario is reported to have a population of 150,000 and to have a staffing of 24 (FTE) dispatchers. The City of Santa Rosa's dispatch services include both police and fire. The City of Ontario serves both Police and Fire and four additional cities whose names and population are omitted here, and yet the recommended staffing of dispatchers is one less than the recommended staffing for the City Moreno Valley. In fact, they are not comparable because their service level is much greater than would be required for police dispatch services for Moreno Valley's population. The 1999 DMG-Maximus study estimated that the total number of (FTE) dispatchers for a City of Moreno Valley run stand alone dispatch center would be 18. There are several standard formulas for determining the number of staffing requirements based on the number of peak calls and total calls being received, but the County was unable to provide those numbers for calls originating from the City of Moreno Valley, but in the addendum report there were some estimated call numbers provided.

The reason that additional study was needed is because of the large difference in staff resources recommended by the two studies.

## **Comparative Survey Analysis**

To provide more information on the subject, staff examined other comparative cities within California with populations of 100,000 to 200,000 that provide police only dispatch services, to benchmark staffing levels and project costs. It appears from this review that the DMG Maximus study's costs and staffing are more realistic than the County's original report but that the County's addendum report narrowed this cost difference (See table 6). It should be cautioned, however, that the information obtained by staff may not be complete since it is often the case that all costs are not accounted for in cities' program budgets.

It should also be noted that dispatch centers' costs are affected by economies of scale that might skew the costs somewhat. Everything else being equal, per capita costs of large dispatch centers should be less than the per capita costs of smaller ones. For instance, they all must have certain technological capabilities and minimum staff levels regardless of call volumes.

Table 6: Survey of Cities with Dispatch Services

City/ Population	Call volume	Total Dispatch #Personnel	Annual \$Personnel	Annual \$Non- personnel	Total DPC Budget	Total PD Budget	DPC Cost Per Capita
Moreno Valley (DMG) 146,500	120,894 (total)	(.5 Lt) 1 Supr, 3 Lead dps, 3 clrks, 18 FT dps. (25.5)	\$1,402,588 <sup>1</sup>	\$364,673 <sup>1</sup>	\$1,767,261 <sup>1</sup>	\$19.1 Million	\$12.06

Median/ Average (w/o M.V.)	N/A	24 ( FTE) Dispatch Staff 23.2 (FTE) Dispatch Staff	\$1,200,000 \$1,253,597	\$358,246 \$355,621	\$1,566,730 \$1,578,322	\$30.9 \$28.1	\$10.64 \$11.27

<sup>1</sup>Adjusted for inflation for 4 years (12%). <sup>2</sup>Information not available.

Table 7, shows a comparison of the findings from the various reports in staffing levels, per capita costs for dispatch services, and the likely net cost results for the City of Moreno Valley.

**Table 7: Comparative Analysis Table**

Source	Dispatch staffing levels	Per Capita Cost for Providing Dispatch Services	Net Increase in Operating Costs
Riverside County Sheriff's Department	33.3	\$15.85	\$1,139,585
Riverside Addendum	25.5	\$15.17 <sup>1</sup>	\$1,084,217 <sup>1</sup>
DMG Maximus Study	25.5	\$12.06	\$584,162
Comparative City Survey (Average)	23.2	\$11.27	\$467,956

<sup>1</sup>Projection made from original operational costs provided in the County Sheriff's May 1999 report.

### **Combined Police/Fire Dispatch Centers**

About 20% of communication centers nationwide are shared facilities. Of the 44 cities in the State of California with populations ranging from approximately 100,000 to 200,000, eleven or 25% of them contain shared fire and police dispatch centers. In the Inland Empire, the cities of Ontario, Corona, and Riverside all provide shared dispatch services. The City of Ontario provides police and fire dispatch services for four cities, the City of Corona provides fire dispatch services for the City of Norco, and the City of Riverside provides both police and fire dispatch services.

There are a number of ways to approach having a combined police and fire dispatch center. Some questions that need to be answered include:

- Should the police and fire dispatchers be housed together?
- Should the police and fire dispatchers work separately or be cross-trained?
- Should the police and fire dispatchers be administered independently or be administered by either the police or fire department?

Some of the benefits of having a combined police and fire dispatch center may include all of the following:

- It is more cost effective to house both dispatch centers together because the City has to pay for infrastructure for only one communication center.
- There is a faster response time because no calls need to be transferred. This is especially true if police and fire dispatchers are cross-trained.
- Pay and benefits stay the same for cross-trained personnel.
- Dispatchers can vary workload and a variety of duties within their workday.
- Both police and fire response get additional information that would otherwise be provided for only the fire or for the police.
- The Fire Department would benefit from police grant monies providing basic infrastructure for dispatch centers such as CAD/RMS/AVL/Mapping allowing Fire to put up only a small amount of dollars to reap a large amount of service.

Some of the added costs for housing fire and police dispatch centers together could include:

- More upfront training time and costs for new dispatchers.
- According to all four combined dispatch centers surveyed, there have been issues regarding police and fire departments vying for control of dispatch activities.

The contrast in duties between police and fire dispatching services include legal, liability, and procedural issues that can be difficult to understand for the other department.

The median and average personnel costs within a combined police and fire dispatch center are significantly greater than for police-only dispatch centers. Since the City of Moreno Valley contracts with the County for fire services, dispatch services are included within the contract. The Fire Chief's estimate of \$37,000 for annual dispatch costs to the City is so small that there would be a significant cost disadvantage for the City of Moreno Valley to combine police and fire since more costs would need to be added than would be recovered through a cost reduction in the contract rate. Furthermore, the County Fire Department does not support the separation of fire and dispatch services, which could prove to be problematic for the City in taking over those services.

### **ALTERNATIVES**

1. Maintain current contract for Dispatch Services with Riverside County Sheriff's Department.
2. Direct staff to secure consultant to provide feasibility study on an in-house dispatch center.

### **FISCAL IMPACT**

Alternative 1, would have no financial impact.

Alternative 2, would cost approximately \$75,000.

### **CONCLUSION**

This study was directed at a establishing the fiscal feasibility of establishing an in-house dispatch center in the Public Safety facility. Based upon all of the information obtained by staff – the County, DMG-Maximus and staff survey -- it would probably cost \$500,000 or more annually to provide in-house dispatch service for police dispatch. Start-up costs might be in the \$350,000-\$400,000 range. If Council wants to pursue this further, a detailed dispatch study should be performed.

**NOTIFICATION**

Publication of the agenda.

## A MESSAGE FROM THE SHERIFF

Ladies and Gentlemen:

The Riverside County Sheriff's Department is pleased to present this proposal for dispatch services to the City of Moreno Valley. We have a proud tradition of contract service in Riverside County, and we believe that our dispatch services are second to none.

We would be pleased to respond to any questions you may have about this proposal. We look forward to hearing from you.

Sincerely,

A handwritten signature in cursive script that reads "Larry D. Smith".

LARRY D. SMITH, SHERIFF

**TABLE OF CONTENTS**

**Proposal Summary ..... 1 - 2**

**Estimated Personnel Costs ..... 3**

**Dispatch Center Comparisons ..... 4**

**Estimated Supplies/Services/Equipment Costs ..... 5 - 6**

**Estimated Vesta System Costs ..... 7 - 8**

**Proposed Shift Schedule ..... 9**

**RIVERSIDE COUNTY SHERIFF'S DEPARTMENT  
MORENO VALLEY STAND-ALONE DISPATCH PROPOSAL**

**MAY 1999**

**Contract Term:** Minimum three-year commitment

**Coverage:** 24 hours per day

**Services:** Police dispatching  
 9-1-1 (emergency) telephone answering  
 Calls for police service (non-emergency)  
 Response to police officer-initiated California Law Enforcement  
 Telecommunications System (CLETS) and warrant inquiries  
**Services would not include:** Records filing  
 Non-field CLETS inquiries  
 Routine business telephone call answering

**Costs:** Billings would include costs for personnel (including overtime, shift differential and training costs) and equipment, which would be updated each fiscal year to reflect actual costs to the Sheriff's Department for providing this service.

<u>Annual Recurring Costs</u>	
Personnel Costs (0.3 Sheriff's Communication Manager, 4 Communication Supervisors, 2 Senior Public Safety Communication Officers, 25 Public Safety Communication Officer II's, 1 Office Assistant II, 0.5 Communications Technician II and 0.5 LAN Administrator III)- (See page 3 for itemization of costs)	\$1,650,521
Supplies/Services/Equipment Costs-(See pages 5-6 for itemization of costs)	\$423,304
<b>Subtotal:</b>	<b>\$2,073,825</b>
Less Dispatch Costs Recovered Through the FY 1998/99 Rate (@ 84 patrol deputies)	<sup>13,926</sup> <sub>1,183,091</sub> <b>\$1,056,338</b>
<b>Estimated Net Increase in Cost:</b>	<sup>13,926</sup> <sub>1,183,091</sub> <b>\$1,017,487</b>

**Initial Start-Up Costs**

Equipment Costs	\$188,199
Vesta System (State approved 9-1-1 equipment)- (See pages 7-8 for itemization of costs provided by GTE)	<u>\$156,623</u>
<b>Total Estimated Start Up Costs:</b>	<b>\$344,822</b>

The City may seek reimbursement through the State of California for costs associated with the Vesta System.

The above costs are estimates only and subject to change based on fluctuations to actual costs. The equipment costs reflects the Department's recommendation to lease two (2) 800 MHZ handie talkie radios, a 32 channel dictaphone, telephone equipment, computer equipment, computer supplies, seven (7) radio/PSAP consoles, office equipment, and office supplies.

**Assignments:**

The Department recommends the following Moreno Valley Dispatch assignments:

Always:

- 2 Primary radios
- 1 Back-up radio
- 2 PSAP
- 1 Supervisor radio/console

During Peak Hours a Minimum of:

- 2 Primary radios
- 1 Back-up radio
- 3 PSAP
- 1 Supervisor radio/console

With cover shifts PSAP positions are increased.

For your convenience a sample schedule of proposed staff is attached as page 9. See page 4 for a comparison of proposed staffing level with that of other agencies.

It is estimated that an average of 120 hours of overtime per pay period would be required to adequately and effectively operate a stand-alone dispatch operation in Moreno Valley.

Due to the recruitment and hiring process, a time period of three to five years is anticipated in order to reach full staffing levels.

**MORENO VALLEY POLICE DEPARTMENT STAND-ALONE DISPATCH CENTER  
ESTIMATED PERSONNEL COSTS FY 1998-99 (Full Year Costs)**

Cost Component	Average Salary <sup>1</sup>	Average Benefits <sup>1</sup>	Average Salary and Benefits <sup>1</sup>	Number of Positions	Total Salary and Benefit Costs	Training Costs (FTO) <sup>2</sup>	Bilingual Pay <sup>3</sup>	Overtime-Holiday <sup>4</sup>	Overtime-Regular <sup>5</sup>	Pay Differential <sup>6</sup>	Total Cost

<b>Total Annual Estimated Costs:</b>	<b>\$273,107</b>	<b>\$77,686</b>	<b>\$350,793</b>	<b>33.3</b>	<b>\$1,411,322</b>	<b>\$4,320</b>	<b>\$1,582</b>	<b>\$52,074</b>	<b>\$146,501</b>	<b>\$34,722</b>	<b>\$1,650,521</b>

**Footnotes:**

- <sup>1</sup> Average costs are used for all positions except for 12 Public Safety Communication Officer II (PSCO II) positions, which are based at \$14.11 per hour (step one) and budgeted benefits of 27.66%. Costs for the remaining 13 PCSO II positions assume average salary and budgeted benefits at \$41,500.
  - <sup>2</sup> Reimbursement for trainer's additional salary is based on \$0.50 per hour for 720 hours of comprehensive training for 12 PSCO II positions.
  - <sup>3</sup> Estimated costs for bilingual pay is based on a per position cost allocated through the proposed fully supported patrol deputy rate for FY 1998/99.
  - <sup>4</sup> Estimated costs for overtime-holiday is based on a per position cost allocated through the proposed fully supported patrol deputy rate for FY 1998/99.
  - <sup>5</sup> Estimated costs for overtime-regular is based on a per position cost allocated through the proposed fully supported patrol deputy rate for FY 1998/99.
  - <sup>6</sup> Estimated costs for pay (shift) differential is based on a per position cost allocated through the proposed fully supported patrol deputy rate for FY 1998/99.
- These costs are attributable to a shift that falls between 3:00 PM and 7:00 AM.

## Dispatch Center Comparisons (Support Staff not Included)

FUNDED FOR	Pomona PD	Santa Rosa	Ontario PD	EAST COUNTY DISPATCH	Proposed*** Moreno Valley
Number of Dispatchers	18.0	22.0	24.0	21.0	25.0
Number of Part Time Dispatchers	(9 @ 0.5) 4.5	0.0	(8 @ 0.5) 4.0	(1 @ 0.5) 0.5	0.0
Team Leaders/Trainers	3.0	4.0	4.0	1.0	2.0
Number of Supervisors	6.0	1.0	4.0	1.0	4.0
<b>Total Distpatch Staff</b>	<b>31.5</b>	<b>27.0</b>	<b>36.0</b>	<b>23.5</b>	<b>31.0</b>
Sworn Officers	174	165	200	209	149*
911 calls per year	50,000	23,526	77,549	46,383	70,431
Non Emergency Calls per year	200,000	93,506	93,734	43,803	70,523
Calls for Services**	250,000	117,032	171,283	90,186	93,000
POPULATION	140,000	135,000	150,000	119,732	140,000

\* Includes all funded sworn at MVPD.

\*\* Estimate only; actual data not available due to differences in statistical tracking systems between agencies.

\*\*\* Current rate-supported staff level not comparable to above scenarios because of economy of scale realized through pooling staff resources at Central Dispatch. Currently, MVPD contract accounts for 29% of Central Dispatch's work load, which in staffing equates to 24.1 dispatchers, 1.7 team leaders, and 3.5 supervisors for a total of 29.3 staff.

<b>TOTAL CALLS</b>	<b>220,000</b>	<b>114,375</b>	<b>104,000</b>	<b>201,984</b>	<b>90,186</b>	<b>108,521</b>	<b>108,521</b>
POPULATION	140,000	146,000	185,000	120,000	119,732	140,000	140,000
NUMBER OF CONSOLES	8	9	11	8			7

\* Includes all funded sworn at MVPD

\*\* Estimate only: actual data not available due to differences in statistical tracking systems between agencies

\*\*\* Current rate-supported staff level not comparable to above scenarios because of economy of scale realized through pooling staff resources at Central Dispatch. Currently, MVPD contract accounts for 29% of Central Dispatch's work load, which in staffing equates to 24.1 dispatchers, 1.7 team leaders, and 3.5 supervisors for a total of 29.3 staff.

## PSAP - Call Processing Formula

CPH = Calls Per Hour equals (20) or 1 call for every three minutes is processed by each (PSAP) Dispatcher. Dispatcher works an average of 240 days annually. \*

$1 \times 3 \times 1.7 = 5.1$  people needed to staff one PSAP position 24/7

Two PSAP positions required for Moreno Valley Dispatch = 10.2 people  
(relief position would be shared with radio)

\* Taken from NENA News, December, 1999. Author is Bill Weaver 9-1-1 Product Manager for Nortel Networks. He has more than 25 years of law enforcement experience, with more than 16 years in operations and management in public safety communication centers.

## RADIO - Position Staffing Formula

P = positions required

S = shifts

RF = Relief Factor of 1.7 takes into account holidays, vacations, days off, sick time, etc.

Calculation expression:  $P \times S \times RF = \text{Number of bodies needed}$

2 Radio positions = 1 Primary Dispatch 1 Back-up Dispatch  
1 Relief position (to be shared with PSAP)

$(2 + 1) \times 3 \times 1.7 = 15.3$  people are needed to staff 2 radio positions on each of three eight-hour shifts.

\* Taken from NENA News, December, 1999. Author is Bill Weaver 9-1-1 Product Manager for Nortel Networks. He has more than 25 years of law enforcement experience, with more than 16 years in operations and management in public safety communication centers.

1. This formula is based on 8-hour shifts 5 days per week. Any alternative scheduling would increase positions needed.
2. This formula is based on a reasonable standard of telephone calls received and relates to "production positions" – fully trained and proficient employees.
3. This scenario eliminates 2 of the 4 supervisors recommended in initial proposal and uses the 2 supervisors and seniors as working dispatchers/call takers instead of supervisors. They may be able to answer some supervisor-related questions but will not be available for other duties (Evaluations, complaints, telephone calls, etc.)
4. We are unable to track actual telephone calls received (other than 911) for Moreno Valley. These calls include: non-emergency calls, calls from CDF, allied agencies, deputy line, and other business lines.
5. We do know that our telephone calls and incidents for this year have increased and February and March 2000 have reached an all-time high.
6. Annual overtime for the Desert is estimated at 6007 hours (based on first 5 pay periods of this year).

Helping Government Serve The People

RECEIVED

OCT 25 1999

October 22, 1999

TO: Gene Rogers  
City Manager  
City of Moreno Valley

FROM: John Heiss

SUBJECT: Final Version of Up-Date of City Police Department Cost Estimate

I have revised the September draft to reflect the projected budget cost for FY 1999 - 2000 as well as changes resulting from answers to questions submitted with the previous draft. Principal modifications are as follows:

- Salary costs have been projected under the Inland Empire market scenario plus 5 % as done originally, and I have also included a projection based on an average of City of Riverside and Riverside County Sheriff sworn compensation as you previously requested. All projections reflect salary levels for the surveyed departments as of August, 1999 including most recent adjustments under MOU's.
- Civilian staff cost estimates have been adjusted to reflect Moreno Valley's current compensation plan and non-sworn benefits estimated at 42% based on information provided by Steve Chapman.
- I have added an attachment which shows how expenses were estimated and provides a line item breakdown which shows the composition of the 26 % of salaries used to project/estimate Departmental operating expense. As you will note, this includes a provision for liability insurance at the \$ 250,000 level. This is generally consistent with a study we did three years ago during which we actually talked with brokers and got estimates.

Hope this provides the information you need. I will plan to be in Moreno Valley for the meeting on November 15 as requested. Give me a call if you need any further changes to this document, or to let me know how many bound copies you need.

Gene Rogers  
City Manager  
City of Moreno Valley  
14177 Frederick Street  
Moreno Valley, CA 92552 - 0805

Dear Mr. Rogers:

The letter which follows provides our estimate of the cost of establishing and operating a City Police Department in Moreno Valley, and compares operating costs with the cost of contracting for service with the Riverside County Sheriff's Department. All data are based on:

- Information about current police services as provided by Captain Coz of the Riverside County Sheriff's Department in his capacity as the City's Chief of Police.
- Review and analysis of various staffing schedules and other documents related to current police services in Moreno Valley.
- Review and analysis of the 1999 - 2000 operating budget; the current law enforcement services contract with Riverside County as well as previous amendments; and other relevant financial documents provided by the City.

The report is focused on the cost to the City of replicating services currently provided through the contract and did not include detailed analysis of workload and service levels of the scope completed during the initial law enforcement feasibility study conducted in 1990.

1. **CURRENT LAW ENFORCEMENT SERVICES STAFFING AND COSTS.**

As noted above, fiscal year 1999 - 2000 was employed as the base year for comparing contract service costs with the potential costs of a City operated Police Department. The table which follows on the next page shows law enforcement service costs projected for 1999 - 2000.

Burlingame Office Center  
1633 Bayshore Highway, Suite 380 • Burlingame, CA 94010 • 650.259.1200 • FAX 650.259.0546

**Law Enforcement Service Costs  
Fiscal Year 1999 - 2000  
City of Moreno Valley**

Cost Component	Amount
Sheriff's Contract	\$ 14,310,175
<b>Other City Staffing and Operating Costs</b>	
Other Direct Operating Costs	2,236,220
Fixed City Charges	413,655
Facility Rental	167,500
<b>Sub-Total Annual Operating</b>	<b>\$ 17,127,550</b>
Fixed Assets	90,850
<b>TOTAL BUDGET</b>	<b>\$ 17,218,400</b>

For the purposes of this analysis, base annual operating costs of \$ 17.1 million will be compared to the projected costs of an in-house Police Department. This excludes fixed assets purchases as budgeted for 1999 - 2000 but includes all other annual operating costs including City fixed charges allocated to the law enforcement services.

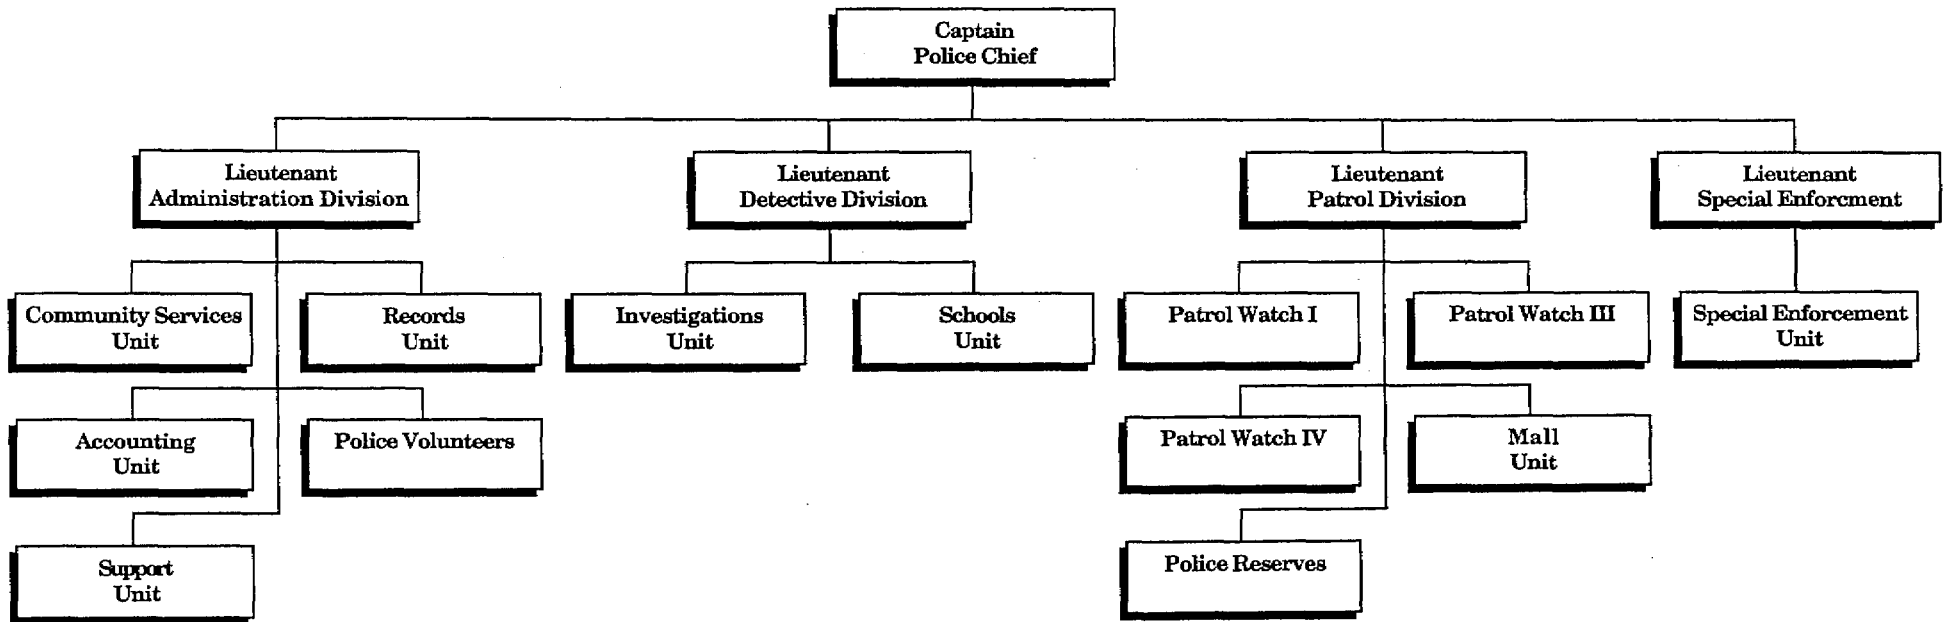

The expenditure of \$ 17.1 million supports deployment of the law enforcement organization shown in Exhibit I, which follows this page. Staff resources assigned to the current organization are as shown in the next table.

Unit/Position	Number	Function
<b>Department Management</b>		
Captain	1	Overall management of law enforcement program. Serves as the Moreno Valley Chief of Police.
Chief's Secretary	1	
<b>Administration Division</b>		
Lieutenant	1	Manages administrative services and community services/crime prevention programs.
<b>Community Services Unit</b>		
Sergeant	1	Crime prevention and related program services.
Deputies	4	
Community Service Officers	5	
<b>Support Unit</b>		
Crime Analyst	1	Crime analysis in support of all department programs.

**EXHIBIT I**

City of Moreno Valley

**CURRENT POLICE DEPARTMENT ORGANIZATION**

Unit/Position	Number	Function
<b>Business Office and Records</b>		
Supervisors	2	Front counter service and report processing. Some records support (e.g. warrants, records maintenance, archives) provided by Sheriff's Department Headquarters in Riverside.
Records Clerks	11	
<b>Accounting Unit</b>		
Supervising Accountant	1	Payroll, billing, contract maintenance.
Account Clerks	2	
<b>Detective Division</b>		
Lieutenant	1	Management of investigative and school programs staff. Also has management responsibility for the Sheriff's Department Security Unit which is at the Riverside County Medical Center. This unit is not included in the contract or the organizational and staffing description in this report.
<b>Investigations</b>		
Sergeant	1	Follow-up investigation. Includes five investigators assigned to crimes against persons; six investigators assigned to property crimes; and one investigator who backs-up other investigative staff and conducts background investigations.
Investigators	13	
Sheriff's Support Officer	1	
<b>School Programs</b>		
Sergeant	1	Three officers assigned to the DARE program and seven officers who are assigned as School Resource Officers. The two involved school districts are reimbursed by the City for the costs of the staff assigned to these two programs.
Officers	10	
<b>Patrol Division</b>		
Lieutenant	1	The lieutenant manage field enforcement programs including patrol, traffic enforcement, and problem oriented policing units, and the Department's Reserve Program.
<b>Field Patrol</b>		
Sergeants	8	Patrol is organized and deployed in four watches. Three primary watches (I -- III) and Watch IV which functions as an overlap shift. Patrol officers work the 4/10 schedule and sergeants function as both watch commanders and field supervisors. Community Service Officers provide
Officers	55	
Community Service Officers	8	

Unit/Position	Number	Function
		report taking and other support to sworn officers. Two officers are assigned to the Mall and the Mall reimburses the City for the cost of this service.
<b>Special Enforcement Unit</b>		
Lieutenant	1	Targeted enforcement unit. Provides pro-active enforcement throughout the City. Includes the bike team; anti-gang unit of four officers; a two officer unit focused on career criminals/high risk parolees; and one officer who is assigned to the regional West County Narcotics Task Force.
Sergeants	2	
Officers	13	
Sheriff's Support Officer	1	
<b>Traffic Enforcement Unit</b>		
Sergeant	2	City-wide traffic enforcement including eight motor officers and five officers who serve as accident investigators and also provide traffic enforcement. Motorcycles used in this program are owned by the City.
Officers	13	
Community Service Officer	1	
<b>Problem Oriented Policing Unit</b>		
Sergeant	1	The Department's POP unit serves as the community oriented policing focus of the current law enforcement program. The City has been divided into five geographic areas and assigned officers have responsibility for one of these areas involving identifying problems; developing programs/approaches to address identified problems; work with other Department, City, and other agency resources to address priority problems.
Officers	9	
Community Service Officers	2	
<b>Telephone Report Unit</b>		
Community Service Officers	3	Take telephone reports for lower priority calls for service.

The service programs described in the preceding table have been employed as the basis for projecting the staffing requirements for an in-house Police Department in the subsequent sections of this report.

**2. ESTIMATED ANNUAL COSTS OF OPERATING AN IN-HOUSE POLICE DEPARTMENT.**

This section estimates the annual operating cost of an in-house Police Department. The sections which follow outline a proposed staffing plan; describe assumptions employed to project staffing costs; present a set of pro-forma operating budgets for an in-house department; and also

estimate the impact of an in-house department on City administrative and support costs. The section opens with a description of the projected staffing plan for an in-house department.

**(1.) The Projected Staffing Plan Would Replicate Services Currently Provided Under Contract by the Sheriff's Department.**

As noted above, the basic assumptions employed to project the costs of an in-house Police Department include replicating the current programs and services currently provided to Moreno Valley through contract by the Riverside County Sheriff's Department. This includes the same basic field patrol staffing; staff allocations to such special programs as the SET, POP Team, and Community Services; and level of field deployment for traffic enforcement. Based on these assumptions, we have prepared a projected plan of organization which is shown as the chart following this page. The matrix which follows shows the assumptions employed to develop the organization and staffing plan by unit and function.

Unit/Position	Number of Positions	Planning Assumptions
<b>Top Management/Command</b>		
Chief	1	Overall command and management.
Captain	2	One Captain for support services and investigations, and one Captain for operations. Two division organization which could increase to three captains if patterns in similar Police Departments employed.
Executive Secretary	1	Administrative/clerical support to chief and captains.
<b>Top Management Support</b>		
Management Analyst	1	Prepares/coordinates budget preparation. Special studies as necessary. Oversees financial management and purchasing. Reports to Support Services Captain.
Account Clerk	1	Payroll and miscellaneous financial and administrative document processing and reporting.
Crime Analyst	1	Civilian position. Evaluation of crime incidents and other statistics to support program planning. Could be assigned to the POP unit or Patrol.

CINDY MILLER  
Executive Assistant to the  
Mayor/City Council

EXHIBIT II  
 City of Moreno Valley  
 PROJECTED POLICE DEPARTMENT  
 ORGANIZATION

Unit/Position	Number of Positions	Planning Assumptions
<b>Top Management Support (continued)</b>		
Sergeant	1	Handles internal affairs and provides back-up assistance on background investigations.
Property/Evidence CSO	1	Maintains property and evidence storage and inventory.
<b>Training</b>		
Sergeant	1	Sergeant dedicated to training program coordination including off-site program scheduling; maintenance of training records; ensuring staff meet POST requirements; and coordination and development of in-house training programs.  Officer position handles background investigations for new hires, and supports training program development and coordination and pro-active recruiting and selection activities.
Officer	1	
Clerk	1	
<b>Records</b>		
Records Supervisor/Manager	1	Manage all aspects of the Department's records and information program. Includes direct management and supervision of records staff assigned to records services as described below.
Records Lead Clerk	2	Working lead workers assigned to central records processing unit. Would provide shift supervision when Record Manager not available, but would also handle direct day-to-day records processing responsibilities at the Records Unit.
Records Clerk	14	Plan provides for a central record processing unit and staff sufficient to handle current workload accomplished in Moreno Valley and activities accomplished by Sheriff's Central Records in Riverside. Staff assignments are as follows: (1) One Warrants Clerk; (2) One Court Liaison Clerk; and (3) Twelve Central Records

Unit/Position	Number of Positions	Planning Assumptions
<b>Records (continued)</b>		
Records Clerk (continued)		Clerks. These staff, in conjunction with the Records Lead Clerks described above, would staff the central records section on a seven day per week basis. Total Records staffing is above current contract levels to reflect assumption of some activities currently accomplished by Sheriff's Department Central Records.
<b>Communications</b>		
Communications Supervisor	1	Overall management and supervision of the dispatch/communications unit.
Lead Dispatcher	3	Shift supervisors and working dispatchers (for vacation and sick leave relief). Responsible for shift supervision, training, staff scheduling, and the like for their respective shifts. Treated as .5 dispatcher equivalents (one half-time to supervision, one half time to dispatcher relief in vacation and sick-leave situations).
Report Taker Clerks	3	Provides for continuation of the telephone report unit.
Dispatcher	18	<p>Dispatcher staffing projected based on estimated call for service volume. Estimate that average required daily staffing by time period would be as follows.</p> <p>2300 - 0700: 3            0700 - 1500: 5            1500 - 2300: 4            Total Daily Dispatcher Shifts: 12</p> <p>Total shifts needing to be covered annually would be 12 X 365 = 4,380.</p> <p>As noted above, lead dispatchers would provide the equivalent of .5 dispatcher each since they would both handle shift supervision and provide "on-console" time in the vacation and sick-leave relief role.</p> <p>Assuming 226 net shifts annually for both lead and line dispatchers, the three leads would contribute 113 shifts each toward actual dispatching for a total of 339 shifts.</p>

Unit/Position	Number of Positions	Planning Assumptions
<b>Communications (continued)</b>		
Dispatcher (continued)		Line dispatcher staffing requirements would then be as follows:  Total Shifts Required: 4,380 Less Shifts Covered by Leads: (339) Net Shifts to be Covered by Line Dispatchers: 4,041 Net Shifts Per Dispatcher: 226 Dispatch Positions Required: 17.9
<b>Community Services</b>		
Sergeant	1	Same staffing and role as current unit.
Police Officer	4	
Community Services Officer	5	
<b>School Programs</b>		
Sergeant	1	Same staffing and role as current unit.
Police Officer	10	
<b>Investigations</b>		
Lieutenant	1	Reports to Operations Captain. Overall investigative management and shares direct supervision of investigations with Investigative Sergeant.
Sergeant	1	In conjunction with Lieutenant, serve as investigative supervisor.
Police Officer	14	Crimes against persons and crimes against property investigations. One position added to reflect investigative support provided by Sheriff's Department central investigative unit(s) in Riverside.
Clerical	1	One to handle general telephone and in-person reception and clerical support, and one to provide direct support to person and property crimes investigators in such areas as data entry; checking pawn shop lists; and other data search activities required to support investigations.
Community Service Officer	1	

# MAXIMUS

Helping Government Serve The People

Unit/Position	Number of Positions	Planning Assumptions
<b>Patrol</b>		
Lieutenant	3	Provide watch command and overall field command during 20 hours per day. Low activity period (from 0200 to 0600) would not be staffed with a Watch Commander. Each would have additional responsibilities, backed-up by additional responsibilities assigned to patrol sergeants, for such programs as reserve program management.
Sergeant	8	Same as current patrol supervision. Would also function as watch commanders during those hours when watch command lieutenants not on duty.
<b>Patrol</b>		
Police Officer	55	Staffed to replicate current deployment under contract services.
Community Service Officers	8	
<b>Traffic Enforcement</b>		
Lieutenant	1	Same as current operations. One sergeant position replaced by Lieutenant. Would serve as program manager with Sergeant providing field supervision.
Sergeant	1	
Police Officers	13	
Community Service Officer	1	
<b>Special Enforcement</b>		
Lieutenant	1	Manage pro-active field enforcement unit(s) and the community oriented policing resources.
<b>POP Team</b>		
Sergeant	1	Same as current staffing.
Police Officer	9	
Community Service Officers	2	
<b>SET Team</b>		
Sergeants	2	Same as current staffing.
Police Officer	13	
Clerk	1	
<b>TOTAL SWORN</b>		
	145	
<b>TOTAL NON-SWORN</b>		
	67	
<b>TOTAL DEPARTMENT</b>		
	212	

The staffing plan outlined above includes the assumption that the new Department would employ a 4/10 work schedule as the Riverside County Sheriff's Department currently employs to serve Moreno Valley. Since most law enforcement agencies in the area use the 4/10 schedule, this approach would probably be important to

attract trained officers from either the Sheriff's Department or other agencies if an in-house Police Department were established. The 4/10 plan, however, does have an impact on the number of staff required, especially in the field patrol area. If the City opted to deploy patrol staff under a 5/8 schedule, the following impact would result:

- Fewer total patrol officers would be required to maintain the same average daily deployment provided by the Sheriff's Department. Our estimate is that 7 fewer patrol officer positions would be required to maintain the same level of actual average daily deployment in the field as currently provided by the Sheriff's Department if an in-house Police Department utilized a 5/8 work schedule.
- Conversely, the same number of total patrol officer positions would generate slightly higher actual average daily deployment in the field (compared to current average daily deployment under the Sheriff's Department 4/10 work schedule). We estimate that the increase would be the equivalent of a net additional 4.1 actual officers to deploy on average daily basis.

For the purposes of the cost projection analysis which follows, we have assumed that the City would continue to use the 4/10 work schedule, but have noted that cost reduction impact of employing the 5/8 plan for patrol at appropriate points in the report.

**(2.) Compensation Costs for An In-House Department Were Developed Based on Two Different Sets of Assumptions.**

Compensation costs for sworn and non-sworn staff would represent a major component of costs for an in-house Police Department. To project the cost of a City Police Department, it was necessary to develop a variety of assumptions related to compensation policies and costs. The key assumption is that a Moreno Valley Police Department compensation plan would need to be structured to attract trained law enforcement personnel from the Sheriff's Department and other law enforcement agencies for the following reasons:

- The proposed department would want to "retain" as many positions as possible to avoid the costs of training new staff.
- The Department would need to attract managers and supervisors from other departments, and to ensure

quality staff and the ability to select from multiple qualified applicants, compensation will need to be sufficient to attract highly qualified applicants.

Because the compensation assumption drives the estimated cost of an in-house Police Department, we approached developing compensation cost estimates two ways:

- **Inland Empire Market Assumption:** This approach assumed that, to attract qualified and trained personnel, a competitive compensation package would probably have to be least slightly above market for the area, which would include greater Riverside and San Bernardino counties. Based on a recent survey of salaries in this area, we developed a possible compensation plan based on the following assumptions:
  - Market averages were based on sworn salaries for the Riverside and San Bernardino County Sheriff's Departments and the San Bernardino and Riverside City Police Departments. Salaries as of the end of August, 1999 were employed to calculate "market average" for each sworn position.
  - We assumed that compensation levels would need to be at levels sufficient to attract "laterals" who have been trained and POST certified for most if not all sworn positions. This would include attracting deputies from the Sheriff's Department.
  - As a result, salary costs for sworn staff (Captain through officer) and Community Service Officers were projected at about 5 % above market average.
  - Salary costs were projected at 95 % of top step for all positions. While it is unlikely that all staff would be at top step in the first year of the department, we believe this is a conservative approach which incorporates the assumption that the department would need to attract experienced personnel.
  - Finally, other civilian staff costs were projected based on the current 1999 - 2000 City of Moreno Valley compensation plan. Salaries are projected

at the "D" step of the current compensation schedule (effective 7-9-99).

The table which follows shows salary costs projected employing the assumptions noted above and the staffing plan previously described.

**Projected Salary Costs for  
An In-House Police Department  
For Moreno Valley Based  
Above In-land Empire Market  
Average Assumption**

Unit/Position	No. of Positions	Salary per Position	Total Salary
<b>Top Management/ Command</b>			
Chief	1	\$ 110,000	\$ 110,000
Captain	2	89,586	179,172
<b>Other Sworn Staff</b>			
Lieutenant	6	80,759	484,554
Sergeant	17	67,723	1,151,291
Officer	119	52,276	6,220,844
<b>Other Non-Sworn Staff</b>			
Management Analyst II	1	46,084	46,084
Crime Analyst	1	46,084	46,084
Records Supervisor	1	46,695	46,695
Communications Supervisor	1	51,365	51,365
Community Service Officers	18	34,322	617,796
Lead Dispatcher	3	37,460	112,380
Account Clerk	1	29,483	29,483
Lead Records Clerks	2	29,539	59,078
Record Clerks	14	25,198	352,772
Dispatchers	18	32,574	586,332
<b>General Clerical</b>			
Executive Secretary	1	41,822	41,822
Clerk - Typist	6	24,058	144,348
<b>TOTAL SWORN</b>	<b>145</b>		<b>\$ 8,145,861</b>
<b>TOTAL CIVILIAN</b>	<b>67</b>		<b>2,134,239</b>
<b>TOTAL DEPARTMENT</b>	<b>212</b>		<b>\$ 10,280,100</b>

The salary cost estimate shown in the table above would be reduced by about \$ 366,000 if it is assumed that the Department would employ a 5/8 work schedule for Patrol

and maintain the same actual deployment in the field as that currently provided by the Sheriff's Department.

- Riverside City and Riverside County Market Assumption:** Under this assumption, it was assumed that the City could be competitive and attract officers from the Sheriff's Department or other local agencies if the compensation plan was comparable to sworn staff salaries (captain through officer) currently paid to sworn officers of the City of Riverside Police Department and the Riverside County Sheriff's Department. Again, the assumption that salaries would be the equivalent of 95 % of top step, based on average compensation for the Riverside Police Department and the Riverside Sheriff's Department, was employed to project compensation costs to reflect: (1) The fact that experienced officers would need to be recruited to avoid start-up training costs; and (2) That the "typical" law enforcement agency compensation plan usually involves from 85 % to 95 % of sworn personnel being at the top step since turnover in most agencies is relatively limited. Non-sworn staff costs were projected, as under the previous assumption, based on Moreno Valley's current compensation plan. The next chart shows projected compensation costs under this assumption.

**Projected Salary Costs for  
An In-House Police Department  
For Moreno Valley Based  
Average of City of Riverside and  
Riverside County  
Assumption**

Unit/Position	No. of Positions	Salary per Position	Total Salary
<b>Top Management/ Command</b>			
Chief	1	\$ 110,000	\$ 110,000
Captain	2	88,860	177,720
<b>Other Sworn Staff</b>			
Lieutenant	6	80,052	480,312
Sergeant	17	66,348	1,127,916
Officer	119	49,670	5,910,730
<b>Other Non-Sworn Staff</b>			
Management Analyst	1	46,084	46,084
Crime Analyst	1	46,084	46,084

Unit/Position	No. of Positions	Salary per Position	Total Salary
Records Supervisor	1	46,695	46,695
Communications Supervisor	1	51,365	51,365
Community Service Officers	18	34,322	617,796
Lead Dispatcher	3	37,460	112,380
Account Clerk	1	29,483	29,483
Lead Records Clerks	2	29,539	59,078
Record Clerks	14	25,198	352,772
Dispatchers	18	32,574	586,332
<b>General Clerical</b>			
Executive Secretary	1	41,822	41,822
Clerk - Typist	6	24,058	144,348
<b>TOTAL SWORN</b>	<b>145</b>		<b>\$ 7,806,678</b>
<b>TOTAL CIVILIAN</b>	<b>67</b>		<b>2,134,239</b>
<b>TOTAL DEPARTMENT</b>	<b>212</b>		<b>\$ 9,940,917</b>

The salary cost estimate shown in the table above would be reduced by about \$ 348,000 if it is assumed that the Department would employ a 5/8 work schedule for Patrol and maintain the same actual deployment in the field as that currently provided by the Sheriff's Department.

\* \* \*

As can be seen from comparison of the two tables, projected annual compensation costs under the two alternatives are relatively close -- differing by about \$ 339,000 or 3.3 % when the high and low range estimates are compared.

**(3.) A Projected Annual Operating Budget for an In-House Moreno Valley Police Department Could Be Expected to Be About \$ 18.4 to \$ 19 Million.**

Over the last several years, we have reviewed and analyzed operating budgets of a number of California Police Departments of various sizes to identify relationships between staff salaries and benefits and other components of operating expenses so that these relationships can be employed to project operating costs for new police departments.

- These relationships have been employed to estimate non-salary costs for the Moreno Valley Police Department

based on the staffing plan as developed and costed in above. These relationships were as follows:

- Overtime: 5 % of total salaries.
  - Benefits and Payroll Costs:
    - .. Sworn: 50 % of sworn salaries.
    - .. Non-Sworn: 42 % of non-sworn salaries (reflects current Moreno Valley benefit costs for other City employees based on information provided by City staff).
  - Operating Expense: 26 % of total salaries to estimate direct operating expenses for an in-house Police Department. This excludes major fixed assets (except for annual allowances for vehicle replacement) and City indirect or allocated overhead costs. The attachment to this report shows how the expense budget was estimated and outlines line item composition.
- Because these costs exclude facility costs, the projection added current facility rental costs as projected in the 1999 - 2000 budget.
  - Other or allocated City charges and support costs, as represented by "Fixed Charges" in the current budget, have been added to the direct costs projected for an in-house Police Department

This analysis yields the pro-forma annual operating budget shown in the table which follows on the next page. High and low ranges are based on the different compensation cost estimates as outlined in the previous section. High range reflects compensation costs based on paying about 5 % above the "Inland Empire" average for sworn staff, and the low range reflects compensation costs projected based on sworn staff compensation equivalent to the average of the City of Riverside and Riverside County.

**Pro-Forma Annual Operating Budget  
for a Moreno Valley City Police Department**

Cost Item	High Range Amount	Low Range Amount
Sworn Staff - Salaries	\$ 8,145,861	\$ 7,806,678
Non-Sworn Staff Salaries	2,134,239	2,134,239
<b>Sub-total Salaries</b>	<b>\$ 10,280,100</b>	<b>\$ 9,940,917</b>
Sworn Benefits (50 % of salaries)	\$ 4,072,931	\$ 3,903,339
Non-Sworn Benefits (38 % of salaries)	896,380	896,380
Overtime (5 % of salaries)	514,005	497,046
Direct Operating Expense (26 % of salaries)	2,672,826	2,584,638
Fixed City Charges	413,655	413,655
Facility Rental	167,500	167,500
<b>TOTAL ANNUAL COST</b>	<b>\$ 19,017,397</b>	<b>\$ 18,403,475</b>

Based on the differing compensation cost assumptions, projected annual operating costs for an in-house Police Department are projected to fall in the \$ 18.4 to \$ 19 million dollar range.

It should be noted that if the City opted to use a 5/8 work schedule for patrol and targeted the same average daily patrol deployment as is currently provided by the Sheriff's Department, the projected costs outlined above would be reduced by about from \$ 522,000 (low range salaries) to \$ 549,000 (high range salaries) annually when salaries and benefits for sworn staff are considered.

**(4.) Requirements Associated with Supporting an In-House Police Department Could Be Expected to Increase City General Administrative and Support Costs By About \$ 327,000 Annually.**

In addition to the direct costs of operating an in-house Police Department, the City administrative structure would be required to support an organization totaling over 200 additional employees. This could be expected to require some additional staffing in the various administrative and support functions which would be influenced by the addition of a large function like an in-house Police Department. The table which follows on the next page shows the estimated additional City staff positions, external to the Police Department, which would probably need to be added, and the extra costs associated with those additions.

**Incremental City  
Support Positions Required If An  
In-House Police Department  
Were Established**

<b>Position</b>	<b>Reason Required</b>	<b>Cost - Salary at "D" Step</b>
Personnel Analyst II	Recruiting/selection/personnel administration for Police Department. Represents more than 60 % increase in City staff supported.	46,085
Accountant I -- Finance	Handle incremental workload involving payroll and payables generated by the Police Department.	39,096
Buyer I -- Purchasing	Handle expanded purchasing generated by the Police Department.	35,115
Mechanic II Mechanic I	Required to handle maintenance of police vehicles and equipment. Includes preventive and non-warranty maintenance and vehicle shuttling.	36,529 32,511
.5 Deputy or Assistant City Attorney or Equivalent in Contract Legal Fees	Increased legal workload related to Police personnel matters and citizen complaints.	41,266
<b>TOTAL SALARIES</b>		<b>\$ 230,602</b>
<b>FRINGE BENEFITS</b>	Estimated at 42 % of salaries based on current City costs.	<b>96,853</b>
<b>COST TOTAL</b>		<b>\$ 327,455</b>

- (5) **The Projected Total Annual Costs of an In-House Police Department Would Be From \$ 1.6 Million to \$ 2.2 Million More than the Costs of the Current Contract Approach.**

The table which follows on the next page shows the total projected cost of an in-house Moreno Valley Police Department including direct annual operating costs; facility rental costs; and incremental City staff costs for administration and support. Again, high and low ranges are presented based on the different compensation assumptions previously described.

**Projected Full Annual  
Costs for an In-House  
Police Department**

<b>Cost Component</b>	<b>High Range</b>	<b>Low Range</b>
Police Department Annual Operating Budget	\$ 19,017,397	\$ 18,403,475
Incremental City Support Cost	327,455	327,455
<b>ANNUAL TOTAL</b>	<b>\$ 19,344,852</b>	<b>\$ 18,730,930</b>

Again, as previously discussed, use of the 5/8 work schedule for patrol could reduce the above amounts by from \$ 522,000 to about \$ 549,000 per year under low and high range salary assumptions for sworn staff.

These costs would compare to the cost of the current contract law enforcement service approach as shown in the table which follows:

**Comparative Annual Operating Costs  
In-House Police Department Versus  
Contract Law Enforcement**

<b>High Range Projection for In-House Department</b>		<b>Low-Range Projection for an In-House Department</b>	
In-House Department Full Cost	\$ 19,344,852	In-House Department Full Cost	\$ 18,730,930
Current Full Annual Operating Cost for Contract Service	17,127,550	Current Full Annual Operating Cost for Contract Service	17,127,550
<b>In-House Versus Contract Service</b>	<b>+ \$ 2,217,302</b>	<b>In-House Versus Contract Service</b>	<b>+ \$ 1,603,380</b>

As can be seen from the table, annual operating costs for an in-house Police Department would exceed the current contract approach by \$ 1.6 million to \$ 2.2 million annually with the difference depending on the assumption employed to project compensation costs for sworn staff for an in-house Police Department. This reflects an in-house Police Department providing essentially the same service level as measured by field patrol staffing; staff allocated to special enforcement and community oriented policing programs; crime prevention; and investigative services.

If the 5/8 schedule for patrol were utilized and the same average daily deployment of patrol officers maintained as currently provided under contract, the cost of the in-house Department would exceed current contract costs by from \$ 1.1 million to \$ 1.7 million annually.

3. **START-UP COST ESTIMATES.**

Because the City is moving forward to develop a law enforcement facility, one major component of the capital costs faced by many cities considering establishing in-house Police Departments is already being addressed. Nevertheless, the City would still face the need to purchase vehicles (beyond the motorcycles already owned by the City), and other equipment necessary to support an in-house department such as communications equipment and software. There would also be one-time transition costs including the need to acquire equipment, recruit staff, and provide training prior to start-up and assumption of policing responsibility from the Riverside County Sheriff's Department. The sections which follow provide estimates of these one-time costs.

(1.) **Capital Equipment Costs for an In-House Police Department Are Projected to Cost About \$ 6.1 Million.**

Exhibit III, which follows this page, shows a breakdown of capital cost projections. They are projected as at least \$ 6.1 million. These include costs for acquiring and equipping vehicles; purchasing hardware and software to support communications and records/information processing needs of the Police Department; and providing basic equipment for sworn officers. Of that total, an estimated \$ 2.6 million for police vehicles could be eliminated as a one-time start-up cost if vehicles were leased. Under this approach, basic equipment (radios, light bars, etc.) would be purchased, but vehicles would be leased. This approach, however, would increase annual operating costs by about \$ 611,000 for annual lease costs.

(2.) **Transition Costs Would Be Dependent On the Number of Sworn Staff Which Could Be Recruited from the Sheriff's Department.**

As noted above, establishment of an in-house Police Department would also involve some transition costs involving overlap between staff for the new in-house department and contract costs for law enforcement services provided by the Sheriff. Transition costs, which would be one-time costs, would involve the following types of costs:

**EXHIBIT III****Major Capital Costs for an  
In-House Police Department**

<b>Item</b>	<b>Amount</b>
Vehicles including marked and unmarked vehicles. Projection includes both vehicle and on-vehicle equipment (radio, light bars for marked vehicles, etc.) costs for marked and unmarked vehicles. Assumes purchase of new vehicles. Start-up costs could be reduced through leasing and/or purchase of used vehicles (e.g. rental cars) for unmarked and administrative vehicles. Estimate 97 total vehicles.	\$ 3,375,000
Property/evidence Control Equipment including Bar Code System	21,760
Personal Equipment for 145 sworn officers including uniforms, weapons, vests, and the like.	437,100
Personal equipment for CSO's.	36,750
Hardware and software for communications center including radio equipment, consoles, and computer aided dispatch system.	1,208,000
Records management system software.	250,000
Miscellaneous radio and electronic equipment for patrol, investigations, and pro-active units.	160,000
SWAT equipment.	63,000
<b>Sub-Total</b>	<b>\$ 5,551,610</b>
<b>Contingency at 10 %</b>	<b>555,161</b>
<b>CAPITAL TOTAL</b>	<b>\$ 6,106,771</b>

- Salary costs associated with bringing the Chief and other managers on board before the termination of the contract to develop and implement plans for the transition; to handle equipment acquisition; and work with the Sheriff's Department related to transfer of responsibility.
- Salary costs associated with bringing line staff (both sworn and non-sworn) aboard prior to termination of the contract for orientation to the community and basic training in the policies and procedures of the Department so that they could be deployed and assume field and other law enforcement responsibilities on the day the contract was cancelled.

Transition costs would be dependent on the number of officers and other staff, who currently serve the City as members of the Sheriff's Department, who could be attracted to the in-house Moreno Valley Police Department.

Exhibit IV, which follows this page, provides a "worst case" transition scenario which assumes that all staff for the new Department would be on board prior to transfer of responsibility from the Sheriff's Department and this would include a two week training period for all sworn and most civilian staff prior to assumption of operating responsibility by the new Department. Under this scenario, transition costs are projected to fall in the range of \$ \$ 1.56 million, and of that total, about \$ 470,000 is associated with two week training overlap period noted above.

Clearly, these costs could be reduced depending on the number and level of sworn and civilian staff who would be selected from the Sheriff's Department who currently serve Moreno Valley. As this number increased, the \$ 470,000 in training overlap time would be directly reduced. However, we believe the other transition costs as outlined in the Exhibit represent reasonable estimates for time and skills required to plan for and manage the transition. As a result, prudent projections suggest that at least \$ 1 million in transition costs for the staff indicated should be considered as part of the one-time costs for establishing an in-house Police Department.

\* \* \*

Given the estimates noted above, start-up or one-time costs could be expected to total up to \$ 7.7 million.

## Transition Requirements for an In-House Police Department

1. TRANSITION ACTIVITY.

Transition Requirement	Staff Required	Length of Time
Recruit Chief — including background investigations, interviews, and hiring.	A professional Recruiting/Search firm could be engaged.	3 months — completed approx. nine months prior to start-up.
Manage Implementation	Chief	9 months
Recruit and Hire Key Command and Support Staff, including: <ul style="list-style-type: none"> <li>• Captain (2)</li> <li>• Lieutenant (1)</li> <li>• Executive Secretary</li> </ul>	Completed by Chief with assistance of Recruiting/Search firm.	2 months — completed seven month prior to start-up.
Recruit Lieutenant (3), Sergeants (6), and a Civilian Clerk (1), to perform the following functions: <ul style="list-style-type: none"> <li>• Prepare recruiting plan and materials</li> <li>• Advertise</li> <li>• Interview and Test</li> <li>• Select and Background</li> </ul>	Under the direction of the Chief and Captains, performed by City Human Resources and Lieutenant.	2 months — completed five months prior to start-up.
Develop, write, and prepare training on policies, procedures, and operating directives. This includes manuals, forms, and preparation of orientation and training in their use.	One Captain, two Lieutenants and three sergeants.	3 months.
Recruit Records Supervisor and (2) Lead Records Clerks.	One Captain and one Lieutenants.	2 months — completed three months prior to start-up.
Train trainers and prepare for orientation and training program for all staff.	One Captain and two Lieutenants, along with the Records Supervisor will oversee training six sergeants.	2 months — completed three months prior to start-up.

**EXHIBIT IV (2)**

<b>Transition Requirement</b>	<b>Staff Required</b>	<b>Length of Time</b>
Recruit and hire (8) Sergeants, (4) officers, one Accountant, (2) clerks and one Vehicle Coordinator.	Captain, Lieutenant, Human Resources Manager and Human Resources Clerk.	2 months — completed three months prior to start-up.
Set-up and purchase vehicles and equipment.	Captain, Lieutenant, and City Purchasing.	On-going, starting approximately three months prior to start-up.
<p>Transition active investigative cases. Sheriff handles cases until closed because transfer to new staff would be difficult given witness relationships, evidence, familiarity with evidence, district attorney contacts on cases, testimony, etc.</p> <p>Evaluate cases for solvability joint - Sheriff and Investigative Lieutenant. High solvability remain with Sheriff until closed. Others to department.</p>	Provision to compensate sheriff for closing out cases generated and under investigation prior to start-up. Otherwise, four investigative officers.	2 months
Recruit and Hire all remaining sworn and CSO positions.	Lieutenant, two Sergeants, City Human Resources.	On-going — to be completed 2 weeks prior to start-up.
Plan for two week pre-start-up orientation. Training in new policies and procedures; report writing; internal services and systems; external services and systems (e.g. booking policy at jail; County juvenile procedures; field orientation for all sworn; etc. Mix classroom with field. Conduct seven days per week; relate to shift to which assigned; etc. Patrol sergeants train own teams.	Managed by Captains, Lieutenants and Sergeants — to impact all sworn and CSO positions.	Assume two week orientation for all remaining sworn officers. Overlap with Sheriff during this period. Assumes all hires trained laterals from either Sheriff's Department or other law enforcement agencies.

Transition Requirement	Staff Required	Length of Time
Hire remaining civilian positions in Records and Administration.	Lieutenant, two Sergeants, HR Manager and HR Clerk.	On-going — to be completed 2 weeks prior to start-up.
Civilian orientation records and other unique positions. Includes transfer of records (need to be able to access Sheriff's records and/or transfer to own in-house system -- alpha files, etc.) plus training in new procedures for department records and information management operation. Plus specialty orientation (court liaison, warrants, etc.)	Ten records clerks and one Property and evidence CSO for two weeks	On-going — to be completed 2 weeks prior to start-up.
Dispatch -- This analysis assumes that dispatch would be provided with in-house staff. An alternative would be to contract initially with the Sheriff's Department and phase in if appropriate after one to two years to avoid the potential disruption associated with developing an in-house dispatch service at the same time as transitioning to an in-house Police Department.	Dispatch Supervisor to manage equipment and systems acquisition and develop basic dispatch procedures six months prior to start-up.  Three Lead Dispatchers to assist with procedures development and development of training/ orientation program for dispatchers four months prior to start-up.	Timing by position type as noted at the left.
18 Dispatchers for training and orientation one month prior to start-up.		

## 2. TRANSITION COSTS.

Salary and benefit costs are projected under the low range scenario which is based on the average of Riverside City and Riverside County for sworn positions with salary costs projected at 95 % of top step as previously employed and explained in the text. Non-sworn positions are projected at "D" step of the City's compensation plan. The matrix which follows on the next page shows projected transition costs.

EXHIBIT IV (4)

Transition Position	No. of Pos.	Cost per Position		No. of Months	Total Costs
		Salary	Benefits		
Chief	1	\$ 9,167	\$ 4,583	9	\$ 123,750
Captain	2	7,405	3,703	7	155,512
Lieutenant	1	6,671	3,336	7	70,049
Executive Secretary	1	3,485	1,464	7	34,643
Lieutenant	3	6,671	3,336	5	150,105
Sergeant	6	5,529	2,765	5	248,820
Records Supervisor	1	3,891	1,634	3	16,575
Leads Records Clk.	2	2,462	1,034	3	20,976
Dispatch Supv.	1	4,280	1,798	6	36,468
Lead Dispatchers	3	3,122	1,311	4	53,196
Dispatchers	18	2,715	1,140	1	69,390
Officers	4	4,139	2,070	3	74,508
Clerk	2	2,005	842	3	17,082
Officer	115	4,139	2,070	0.5	357,108
Lieutenant	2	6,671	3,336	0.5	10,007
Sergeant	11	5,529	2,765	0.5	45,617
CSO	18	2,860	1,201	0.5	36,549
Records Clerk	14	2,100	882	0.5	20,874
<b>Sub -Total</b>					<b>\$ 1,541,229</b>
Recruitment for Chief (if conducted by consultant)					15,000
<b>TOTAL</b>					<b>\$ 1,556,229</b>

**ATTACHMENT**

**Explanation of Approach  
Employed to Project  
Operating Expenses**

---

## **Attachment**

### **Explanation of Approach Employed to Project Operating Expenses**

To develop an approach for estimating operating expenses for a new City Police Department, we have developed a standard which relates operating expenses to staff salaries. This approach was taken because, in estimating the costs of establishing an in-house police department, staffing levels and staffing costs can be exactly determined but it would be difficult to develop a detailed line item expense budget. To develop a standard for estimating the expense budget for a new department, we analyzed the budgets of ten comparably sized or larger police departments, compared major line items to total staff salaries (exclusive of overtime or benefit costs), excluded those line items which reflected different budgeting and accounting approaches (e.g. some cities include central service charges as part of department budgets and some do not); and calculated each line item as a percent of total salaries. We found that total line item expenses averaged 26 % of total salaries and have employed that amount to project estimated operating expenses for a City Police Department for Moreno Valley. The table which follows on the next page shows the composition of the expense budget for the low range cost estimate as used in the main body of the report.

*Attachment -- Expense Budget  
Assumptions and Calculations*

Expense Item	Compared to Total Staff Salaries	Projected Amount
Telephone	.014	\$ 139,173
Utilities	.011	109,350
Vehicle Maintenance and Replacement	.099	586,514
Other Equipment Rental	.003	29,823
Office and Other Equipment Maintenance and Repairs	.003	29,823
Special Investigations	.001	9,941

## Report to City Council

**TO:** Mayor and City Council

**FROM:** Barry D. McClellan, Assistant City Manager

**AGENDA DATE:** April 6, 2004 (Study Session)

**TITLE:** Presentation of Police Study Report

### RECOMMENDED ACTION

Staff recommends that the City Council receive and discuss the report and PowerPoint presentation.

### ADVISORY COMMITTEE RECOMMENDATION

The Public Safety Subcommittee recommended that the report be presented to City Council when it was completed.

### SUMMARY

Since the city's incorporation in 1984, law enforcement services have been provided by contract with the County of Riverside Sheriff's department. From time to time, the city has conducted several studies to analyze whether it remains cost effective to contract for police services rather than to have a city police department. To date, each analysis has found that it is cost effective to contract for police services. The last complete study was conducted in 1991, and several updates were conducted to that study, the last of which was in 1999. This report is the first in-depth analysis since the 1991 report. This report also finds that it remains more cost effective to contract for police services as opposed to having a city police department.

### BACKGROUND

The analysis is broken into two primary components to provide costs: annual operating costs and initial capital expenditures (start up costs), which are necessary to equip a new police department. To arrive at the annual budget, an analysis is conducted of the demands for service and existing service levels. This study is a comparison of what

STUDY SESSION ITEM NO. 2

MV00228202

staffing would be necessary to maintain a similar level of service currently provided by the Sheriff's department.

The analysis is broken into the various operational areas such as patrol, investigation, traffic, community policing, and so forth. Also, staffing for the chief of police and his administrative section is analyzed and included. To complete the analysis for an annual operating budget, non-personnel items, other than initial capital outlay, were estimated. A line item operating budget is provided in pages 28-29 of the report. Some vehicle and equipment replacement funding is included in the model operating budget, because these would be ongoing expenses each year after the initial capital acquisition. That is \$760,000 in the annual operating budget (page 29).

For the initial capital expenditures portion of the report, a review was conducted of the needed equipment to outfit a police department, such as vehicles, safety equipment, uniforms, technology, communications, facilities, and insurance reserve funds. The report provides a detailed list of these types of items on pages 32-33. The capital budget does not include expansion of the Public Safety Building that would be necessary to accommodate the increased staffing levels. Those cost estimates from the city's 10-year Capital Improvement (\$3.8 million) plan are shown on page 27. However, the cost to expand the locker area has not yet been determined.

## DISCUSSION

The first part of the study was to conduct an analysis of all data regarding calls for service, investigations, and staffing levels to determine an acceptable and comparable staffing level for a stand-alone police department that would not have all of the services available from the sheriff's department. The analysis and cost estimates did not include costs for a forensics lab, SWAT team, or helicopter. Because of the high costs involved, the report recommends that arrangements be made with the county or a larger city to provide these services.

First, it should be understood that the city contracts for hours of service from the Sheriff as opposed to a fixed number of deputies, sergeants, command, and administrative staff. While it can be said that a fixed number of deputies are assigned to the city, whenever a deputy is off work due to court, vacation, administrative leave, injury, or illness, the Sheriff provides the hours of staffing to fill that assignment. Therefore, the city does not have to be concerned with those types of absences.

However, a city police department must factor the time when an officer is not available for duty or the "non-duty" rate into their staffing requirements. For the reasons cited above, research shows the typical "non-duty" rate for a municipal police department is approximately 20%. When an officer is absent, a city department does not have the ability to draw upon a substitute officer from another police department. Therefore, the study analyzed the calls for service and work loads per officer, factored the 20% "non-duty" rate into staffing and arrived at recommended staffing levels. Consequently, the report recommends a staff of 166 sworn for a city department, which is 22 more than

the existing 144 sworn officers (including investigators, sergeants, and command staff). The comparative table of positions is shown on page 30 of the report.

There would also be a need to significantly increase the staffing level of non-sworn staff from 43.5 to 90.5. However, this is primarily because many of these positions, which are paid for through the fully supported deputy contract rate, would need to be replaced and augmented. Some of the additional positions include dispatchers, crime evidence technicians, and community service officers. If the city initially contracted with the Sheriff for dispatch services, there would be that cost to replace the cost of the dispatch unit. The comparative table for non-sworn positions is on pages 30 and 31 of the report.

In conclusion, the report finds that an annual operating budget, in current dollars, would be approximately \$28,756,493 compared to \$23,245,031 (including \$215,000 from CDBG funds) for the current contract and all other related costs. Also, the number of all sworn officers would increase from 144 to 166, and the number of non-sworn staff would need to increase from 43.5 to 90.5. This assumes that all of the consultant's recommendations are implemented.

### **ALTERNATIVES**

1. Receive the report and PowerPoint presentation by the consultant.
2. Provide further direction to staff.

### **FISCAL IMPACT**

The current budget for police services is \$23,245,031, which includes approximately \$360,000 for the Moreno Valley Mall contract that is mostly reimbursed by the Mall. In addition, \$215,000 is budgeted in CDBG Social Services Program for a portion of the Problem Oriented Policing program and included in the above figure. The budget for the Sheriff's contract is \$19.9 million, and the balance of approximately \$3 million is for training, supplies, depreciation, and administrative overhead. The estimated first year budget for a city police department is \$28,756,493, which is over \$5 million compared to the current budget for police services. In addition, the initial capital expenditure (start up costs) is \$19,073,902.

### **STAFF RECOMMENDATION**

Staff recommends that the City Council receive and discuss the report and PowerPoint presentation.

## **SUMMARY**

The City of Moreno Valley was incorporated in 1984, merging the communities of Moreno, Sunnymead and Edgemont. It is a rapidly growing community of 50 square miles, located in the western portion of Riverside County. The current population is now over 150,000 with many young families. The average Moreno Valley family consists of two parents (ages 38 and 40) and two children (ages 9 and 13). Most families own their own home and the average new home value is \$217,201 and rising.

Ethnically the city is diverse. According to the 2000 U.S. Census, the city's population is 38% Hispanic, 32% White, 19% African-American, 6% Pacific Islander/Asian-American and 5% other. The city's fast growth is attributed to affordable housing, family-oriented lifestyle, good schools, and quality-of-life amenities. Employment has been rising in Moreno Valley with distribution centers, government and corporate offices and light manufacturers all choosing to locate in the city. With more people moving to the city, the retail and services sectors are expanding.

Moreno Valley has had good public safety and traffic safety records, verified by State and Federal crime and traffic safety audits. Policing services are currently delivered to the city through a contract with the Riverside County Sheriff's Department. The purpose of this study is to examine the feasibility, possible structure, and cost if the city were to create and maintain a Moreno Valley city operated police department.

In FY 03/04 the city budgeted \$23,030,031 for police services including 144 sworn positions and 43.5 non-sworn positions from the Sheriff. This cost represents the direct cost of the police contract and other budgeted items, but does not include any city overhead costs such as contract management and financial administration. The city police agency described in this study would have a first year cost of approximately \$28,756,493 with a staff of 166 sworn positions and 90.5 non-sworn positions. The cost includes the direct costs of police operations as well as the added costs of administrative overhead and other related costs that would need to be budgeted that are currently assumed by the Sheriff including risk management/liability, personnel administration and legal support.

As is explained in the following text, the staff numbers for a city department are significantly higher since a city department would have to have sufficient staff to cover absences that are now covered under the constant staffing provided in the contract with the Sheriff. Rather than contract for a particular number of people, the city contracts for a number of hours. Consequently, if a deputy assigned to the Moreno Valley Police Department is absent, another deputy fills his place.

The city police budget also includes the cost of a city operated police communications and dispatching operation, adding some 24 non-sworn positions to the

city police department. This expense is now recovered by the Sheriff as part of the contract rate per deputy hour.

The city could expect to spend some \$19,000,000 in start up costs to establish its own police department. Major components would include vehicles and vehicle equipment; communications, dispatch and computer aided dispatch systems; records management and information technology systems; a telephone system; and transition costs.

The report begins with an examination of patrol staffing and the number of officers needed for calls for service response and self initiated police work. It describes the number of officers needed for special units such as traffic and problem solving which provide a vital supplement to patrol. A section describes investigative staffing and included a methodology to determine the number of investigators that are needed given the crimes reported in Moreno Valley.

Additional sections describe the administrative and support components that would be needed for a city police department. They are followed by summary tables that show the total number of positions, by type and unit, for the proposed department and a first year budget for the new department.

A comparison, position by position of the current staff with the proposed staff is then offered. This is followed by a section on start up costs.

The impact of city growth on the demand for police services is described. The study then explores funding options and concludes with general recommendations for start up and implementation tasks if the city were to create its own department.

## **PATROL STAFFING**

There are two primary sources of patrol work: Calls for Service (CFS) and Self Initiated Activity (SI). Calls for service are those episodes which the public initiates with the police when they request police service by making a telephone call (either emergency or non emergency), by stopping a officer on the street, appearing at a police station, or by some other means.

Self initiated tasks occur when individual officers, on their own initiative, stop and check on vehicles—either because of suspicious circumstances or because of traffic or license violations, stop pedestrians, check on buildings, follow-up earlier incidents, write reports, or perform other discrete tasks. Self-initiated work is, generally, composed of those episodes the officer starts. Self-initiated activities may include tasks that officers perform at certain times during their shift such as school zone patrol or traffic enforcement.

Both sources of work are important to patrol operations. However, a police agency can have less impact on when calls for service take place than on the timing of self initiated activity. A call for service begins when a citizen makes a request for service usually with the expectation that the police will respond immediately to that request. Although it is possible to manage this workload somewhat—separating urgent calls for immediate priority from non-urgent calls for delayed response—the times that calls originate cannot be controlled by the police.

Self-initiated activity is to a large extent discretionary. Officers can initiate encounters when they have time to do so, and when there are targets of opportunity. Much of this activity can be deferred to times when calls for service workload is lighter. But, self-initiated activity does depend on legitimate opportunities being available and such times often coincide with high calls for service times. Car stops and checks of suspicious activities frequently result from peak times of human movement and interaction.

To determine the number of patrol officers needed to respond to calls for service and perform self-initiated work in Moreno Valley, MAXIMUS analyzed 12 months of data supplied by the department from the county's computer-aided dispatch (CAD) system (July 1, 2002 – June 30, 2003). From the CAD data, records were generated for each dispatch event.

Riverside County's dispatch system provided a summary of each call that records the primary unit that responded to a call. The times recorded in these summaries are only for the primary unit. However, the total time consumed by an event includes not only the primary unit assigned but also the time committed by backup units. Some calls can be

handled by a single unit and do not require any backup units. Other calls, because of their perceived severity, may require one backup unit, and sometime more.

The time consumed on a call by backup units will usually be less than that for the primary unit. Backup units are usually dispatched after the primary unit and usually clear the scene sooner than the primary unit who may have some interviews or paperwork to complete before going back in service. In order to account for back-up time consumed by an event, MAXIMUS increased the average total time consumed by 40%. The study team's experience in police studies for cities similar to Moreno Valley indicates that this estimation is reasonable.

The resulting database was composed of 79,994 usable calls for service records and 23,611 self-initiated records for the a year (July 1, 2002 through June 30, 2003.)

## **MEASURING CALLS FOR SERVICE WORKLOAD**

The method used in this study to examine how many patrol officers are needed to meet the demand for police resulting from citizens requests for service focuses on measuring how much time needs to be devoted to call response by hour of the day and day of the week. Time consumed is measured from the time that an officer begins to travel to the location a calling citizen specifies, for calls for service. For self initiated work, time consumed begins when the officer notifies communications that he/she has initiated an event on their own volition. In both cases the ending point is when the officer lets the dispatch center know that he/she has completed the activity and is ready to handle another assignment.

>> Each record was broken into the time consumed by hour of the day and by the appropriate day of the week. For example, an activity that began at 11:45 p.m. on Saturday and which concluded at 12:30 a.m. Sunday was broken into the 15 minutes consumed in the 11:00 p.m. to 12 midnight block on Saturday and 30 minutes in the midnight to 1:00 a.m. block on Sunday.

>> All of the records for the year were so broken up, distributed over the course of a week by day and hour and then averaged by the number of days in the study period. Minutes were then converted to hours to produce a matrix that is composed of the seven days of the week across and 24 hours down. Such a matrix then shows the average amount of time consumed, for the year, by hour of the day and day of the week.

Calls for service were separated from self-initiated activity. Calls for service time was incremented by 40% to account for backup units as described above. The resulting calls for service matrix which shows in Moreno Valley, the average amount of time consumed, in hours, by calls for service activity is shown below.

**Time Consumed by Call For Service By Patrol Units in Moreno Valley with Back-Ups July 2002 = June 2003**

HOUR	MON	TUE	WED	THU	FRI	SAT	SUN	TOTALS

The busiest periods in Moreno Valley are on weekdays from 1800 hours through about 2100 hours. The single busiest period is from 1500 through 2100 hours on Fridays. Given the suburban nature of most of Moreno Valley, this is a pattern typical of such cities.

There is a substantial jump in time consumed from 0700 hours to 0800 hours. This is accounted for by increases in certain types of calls as people start their day. For example, as people go outside to leave for work they may discover that their vehicle has

been broken into or stolen, or that there has malicious mischief or vandalism. 911 calls with no further information also increase due to accidental cell phone 911 key activations.

The table below shows the top ten call types for Moreno Valley in the year study period.

Rank	Call Type	Count
1	Alarm	9,329
2	Disturbance	7,406
3	911 Call/ No details	5,939
4	Disturbance Noise	3,472
5	Suspicious Circumstances	3,144
6	Assist Other Department	3,057
7	Public Assist	2,102
8	Runaway Juvenile	2,065
9	Disturbance – Domestic Violence	1,602
10	Traffic Collision, Non Injury, No Road Blockage	1,558

Each time block in the “Time Consumed” table can be interpreted as the amount of personnel hours needed to handle calls for service only during that time on that day. For example, the 9.3 figure on Friday night from 2300 hours until midnight means that at least 10 officers are needed, on the average, to deal with the work generated by citizens’ calls for service.

However, staffing cannot be only for calls for service. Having sufficient time available for self initiated activity is important if a department wants to work to proactively solve crime, violence, and disorder problems through community policing. The best self-initiated police work involves not only car stops and pedestrian checks but also time for officers to work with residents and businesses to solve the problems underlying crime, violence, and disorder. Time spent in this regard, when appropriately directed, can have the benefit of reducing calls for service as the conditions causing the problems residents call about are improved.

There are no universally accepted standards for how much patrol time should be consumed by calls for service. A common assumption, established before community policing became prevalent, was that 1/3 of the time should be spent on calls for service, 1/3 on self initiated activity and 1/3 on uncommitted patrol time. Many departments have only vague standards for the amount of time consumed. Some departments set, as a rule of thumb, a target time consumed by calls for service from 30-40%. Others set a target at 50%; still other may allow patrol time to be consumed by calls for service to average as high as 65%.

The amount of time consumed figure should be a policy decision based on how the department and the community want patrol officer time used. Having a large amount of time consumed by calls for service may increase response times, as officers will frequently be busy on other calls. It will reduce the time available to be devoted to problem solving and community policing by patrol officers. However, many departments use officers assigned as specialists to work on problems and to perform the bulk of community policing duties.

When determining patrol staffing levels it is important to consider that in a police department, as with any organization, the number of personnel available and actually working will vary over time. Not every one comes to work every day. Patrol officers are absent due to vacation, illness, training, court time, special assignments, and other leave time. Over time schedules may vary because of transfers, promotions, long-term injury leave, and vacancies.

Of those patrol officers scheduled, a "show-up" rate of between 75% and 85% is typical for police agencies in cities the size of Moreno Valley. Variables include the seniority of employees since more senior employees usually accrue more leave than those newly hired, sick leave policies, other leave available, and work schedules. The latter factor, work schedules, has an impact on the show-up rate in that, if employees perceive that they can almost never get favorable days off, sick leave may be abused.

### DETERMINING THE NUMBER OF OFFICERS FOR CALLS FOR SERVICE RESPONSE

The table above accounts for an average of 1,222 hours per week consumed by calls for service. The following shows the number of patrol officers needed, given the current workload, at each of three calls for service time commitments—35%, 50%, and 65%. The table also uses a mid-range show-up rate of 80%, which equates to 32 hours per week per officer (based on a 40 hour week).

Weekly CFS Hours Consumed	% Time CFS Target	Officers Need at 80% Show-up
1,222	35%	109
1,222	50%	76
1,222	65%	59

From this point, the mid-range call for service target (50%) will be used, resulting in a requirement that 76 patrol officers be assigned for calls for service response for a Moreno Valley city police department. To match the changes in workload over the course of the day, they should be divided into three shifts that match, approximately, the time consumed on midnights, days, and evenings.

Dividing the 24 hour period into three segments would result in the approximate workload divisions and personnel assignments shown in the next table. Although eight-hour segments were used, this is not intended to imply that an eight-hour shift structure should be used. Workload peaks in Moreno Valley could best be dealt with through a four-day a week, ten hours per day shift system. This could be both a good match of personnel to work and a recruitment incentive as opposed to five, eight-hour days.

Time Period	Avg CFS Hrs/Week	% Time Consumed	Officers Assigned	Sergeants Assigned
0000-0759	203.7	17%	13	3
0800-1559	442.7	36%	27	5
1600-2359	576.0	47%	36	6
Totals	1222.4	100%	76	14

The table above also includes the number of sergeants assigned to each shift. Ratios of sergeants to patrol officers should be from one-to-six up to one-to-ten. During the start-up period in a new department the lower ratio is preferable because of the department's lack of complete knowledge about the performance characteristics of the new patrol officers. Close supervision will help the new department achieve best

performance. (One additional sergeant is allocated to the midnight shift to provide a relief factor to ensure that two sergeants are available continuously.) As the department becomes familiar with the work characteristics of its officers, and as officers become familiar with work expectations, the ratio may be increased so that some growth in patrol can be accomplished without having to maintain a one-to-six ratio.

A lieutenant should command each shift. To ensure around the clock coverage, two additional lieutenants should be assigned to watch command to provide a relief factor. A captain should command the patrol division.

**SUPPLEMENTING PATROL**

Typically, cities similar in size to Moreno Valley supplement their patrol officers with specialized units devoted to traffic enforcement and collision investigation, special enforcement issues, and community policing/problem solving. The number of personnel assigned to these specialized units is somewhat arbitrary since their work (with the exception of collision investigation) is largely self-initiated. Residents may complain to the police about neighborhood speeding, pockets of disorder, or similar problems but decisions to devote resources to traffic enforcement, special enforcement (often to address gangs and street level drug issues), and community policing/problem solving are based on perceptions of how important these issues are to a community and its police agency.

One gauge of community preferences for these units in Moreno Valley is the current level of resources devoted to these units. At the time of the study, two sergeants, 15 deputies, and one community services officer were assigned to traffic enforcement; one sergeant, nine deputies and two community services officer were assigned to a problem-oriented policing unit, and a lieutenant, two sergeants, and 11 deputies (including one assigned to a regional narcotics task force) comprised the special enforcement team.

The traffic team during the year study period accounted for about 11,700 citations of the approximated 14,700 issued by the department. The team also was the lead in investigating approximately 1,370 traffic collisions in Moreno Valley. The table below shows the number of these events accounted for by the traffic team, the average number per day for the 365 days in the year, the number per year per deputy based on 15 deputies, and the number per deputy per day based on 178 working days per year per deputy.<sup>1</sup>

Traffic Unit	#	# Traffic Deputies	Per Day (365 days)	Per Deputy Per Year	Per Deputy Per Day
Cites	11,731	15	32	782	4.4
Collision CFS	1,367	15	4	91	0.5

Traffic team members also were the primary unit in 915 non-collision calls for service (of 79,994), made over two-thirds of the 363 driving under the influence arrests recorded by the department, and served as back up to patrol officers in other instances.<sup>2</sup>

<sup>1</sup> The Sheriff's office calculates approximately 1780 productive hours of a deputy's 2080 hours per year for a show-up rate of 85.6%. This equates to 178 day per year of the total of 208 days per deputy on a four ten schedule.

<sup>2</sup> Back-up numbers were not available.

If a Moreno Valley city police department had a traffic unit with slightly improved productivity such that each traffic officer averaged just over one additional citation per ten-hour shift, the number of traffic officers could be reduced. Although establishing such standards risks being perceived as quota setting, such relatively low benchmarks seem quite reasonable for the time expended, based on the experience of other police departments. Traffic unit size could be two sergeants, 12 officers, and four community service officers. As is the case in many Southern California police departments, civilian community service officers could respond to collisions that do not involve fatalities or major injuries (98%) during their shifts. Collision investigations and reports often take an hour or more to complete. By using CSOs to handle the bulk of these functions, traffic officers will have an average of at least 30 minutes more per day. Using the same annual citation data from above but with a traffic squad size of 12 officers the following ratios would result.

Traffic	#	# Traffic Officers	Per Day (365 days)	Per Officer Per Year	Per Officer Per Day
Cites	11,731	12	32	978	5.5

By using two squads—each composed of a sergeant, six officers, and two community service officers—each day of the week and many evenings could be covered.

The Problem Oriented Policing Unit focuses on areas of the city where a series of incidents, taken together, make up a persistent problem. Such problems should be addressed by a response based on a thorough analysis of the contributing factors and consequences derived from internal data and from meeting with community members. The best responses will usually involve collaborations between the police, other governmental agencies, and the neighborhood most affected by the problem. The results of problem solution efforts should be collected and fed back to both unit members and the community to improve problem solution efforts.

A problem oriented policing unit should be large enough so that more than one problem at a time can be addressed and so that special efforts can be exerted at different times and through out the week. A unit of eight officers, led by a sergeant, and supported by a civilian analyst to help analyze problems and measure results, would be able to provide such coverage. Flexible scheduling would be important so that squad members will be able to work when a problem is at its worst. Eight officers working a four-ten schedule would produce some 26 shifts per week (at an 80% show-up rate), enough to staff one problem area with three officers a day seven days a week.

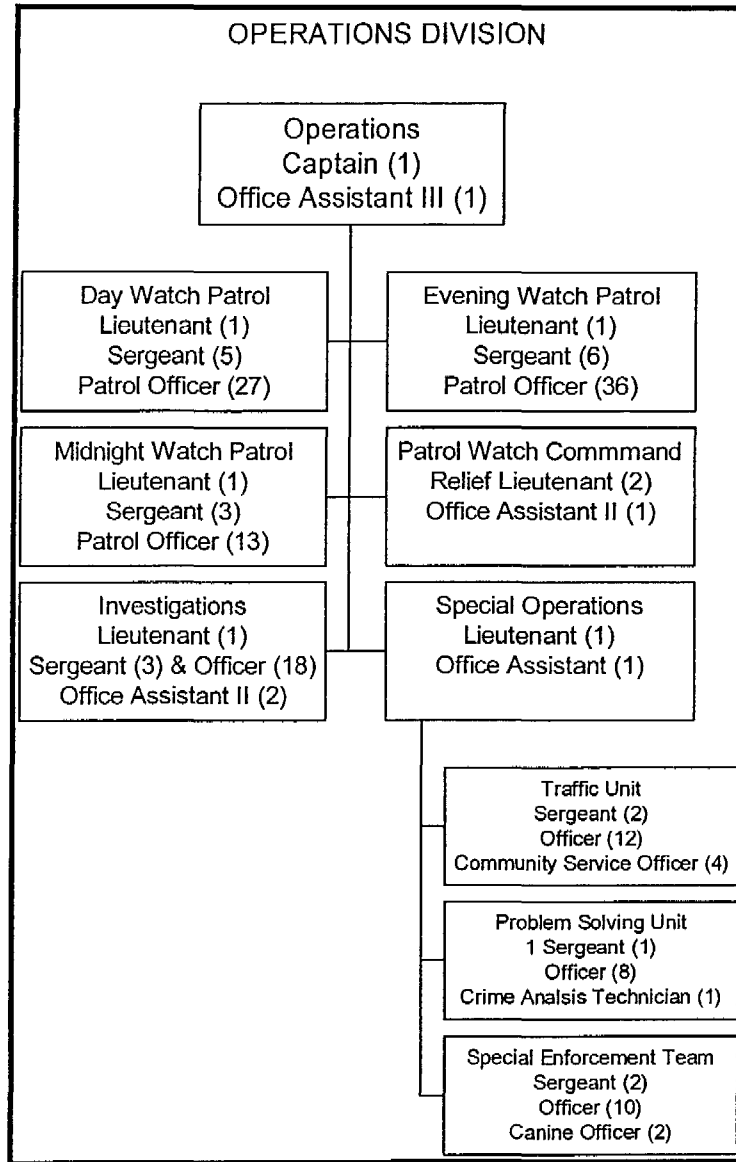

Cities the size of Moreno Valley usually allocate resources to deal with crime problems such as gangs, street level drug sales, short-term surveillances, and high risk warrant service. The size of such units is partially dependent on the number of officers that need to be involved in such actions as entering premises to serve warrants when resistance on the part of the subject can be expected. A team of ten officers provides enough officers for both an entry team and a perimeter security team. To ensure adequate supervision, two sergeants are needed. All members of the team need to be cross-trained so that the team can still function if a member is absent. By assigning two sergeants, the team can be split into squads so that they can work on more than one issue at a time. Two canine officers should also be part of the Special Enforcement Team although they will primarily work with the patrol shifts.

The Special Enforcement Team is not a special weapons and tactics (SWAT) team. A city the size of Moreno Valley is not likely to have frequent enough need to justify a full-time team. Part-time teams, where officers have collateral duties, must make substantial resource commitments to training and equipment. Perhaps, as Moreno Valley approaches build out, a full time team may become necessary, but relying on assistance from the Sheriff or the City of Riverside will be more cost effective in the interim. The Special Enforcement Team could serve to stabilize a situation and hold a perimeter until a S.W.A.T. can be assembled. (Currently, the Sheriff provides S.W.A.T. services at no cost.)

Several clerical support positions should be part of the Operations Division. One position should be allocated to the captain's office, a second to the patrol group, and a third to the special operations group.

The basic structure of the Operations Division should include Investigations (described below) and would look as follows.

## RATIONALE FOR INVESTIGATIONS STAFFING

Most U.S. police agencies do not have a systematic method to determine how many investigators are needed. The average caseload per investigator also varies widely from agency to agency. Typically as long as the investigative units show satisfactory rates of case closure for the cases they investigate, departments assume that their detective staffing is adequate.

Cases are reviewed and assigned in a similar fashion from department to department. On weekday mornings, since few investigative units maintain regular weekend work hours, unit supervisors review the cases that have been sent to investigations. In some departments pre-screening takes place by patrol supervisors. More frequently investigative unit supervisors review all cases. Each report is examined to determine whether it contains the necessary information to document that a crime has occurred. This review also contains an assessment, either formally or informally of potential solvability.

Solvability factors include such things as a named or identifiable suspect, significant evidence, an identifiable vehicle, witnesses to the crime, or traceable property. Cases in which sufficient solvability factors are noted are assigned for follow up. Cases with low solvability may be assigned but with a lower priority unless they have a particular public interest or notoriety attached to them. Cases with no leads to follow are usually closed immediately or sent to a "pending" file although some departments have the victim's contacted by telephone, both as a courtesy and to see whether any additional information has become available since the report was taken.

Previous research conducted in similar studies by study team members shows that typically, for crimes against persons:

- 20% of the crimes against persons cases assigned are followed up via telephone consuming an average of 30 minutes;
- 20% of the crimes against persons cases assigned require relatively little further investigation to close and consume an average of six hours to close;
- 10% of the crimes against persons cases assigned are difficult to close and consume an average of 23 hours to close; and
- The remaining 50% of the crimes against persons cases assigned are of average difficulty to close and consume an average of nine hours to close.

The parallel crimes against property figures are as follows:

- 35% of the crimes against property cases assigned are followed up via telephone consuming an average of 30 minutes;
- 15% of the crimes against property cases assigned require relatively little further investigation to close and consume an average of four hours to close;

- 10% of the crimes against property cases assigned are difficult to close and consume an average of 11 hours to close; and
- The remaining 50% of the crimes against property cases assigned are of average difficulty to close and consume an average of 6 hours to close.

From July 2002 through June 2003, deputies assigned to patrol Moreno Valley generated some 42,400 reports. Of these, about 14,500 dealt with significant crime types. Although the rate at which crime reports are reviewed by investigations varies from city to city, a typical figure is 35%. In Moreno Valley, then, approximately 5,075 cases would be assigned for investigation at the 35% rate. About 20% of the reports allege crimes against persons; the remaining 80% are crimes against property. This ratio is very similar to Moreno Valley's Uniform Crime Report ratio of persons to property crimes. Therefore, about 1,015 crimes against persons' cases and 4,060 crimes against property cases would be subject to investigation.

Like patrol officers not all investigators will show-up for work every day. They will be absent for vacation, illness, court, training, and for other leave. Investigators are usually more senior employees than patrol officers and accrue more leave time. They also spend time drawing up and serving warrants, tasks most patrol officers do not perform. Consequently, where an 80% show-up rate was assumed for patrol officers, a show-up rate of 75% is assumed for investigators. Of the 2,080 hours per detective per year, 1,560 hours will be available to conduct investigations.

The following tables show the number of investigators that would be needed based on the discussion above.

Persons cases = 1015								
	Phone Follow-up	Least Difficult		Most Difficult		Average Difficulty		
Cases	20%	203	20%	203	10%	102	50%	508
Time in Hours	0.5	101.5	6	1218	23	2,335	9	4,568
Total Hours								8,222
Investigators Needed at 75% show-up								5
Property Cases = 4060								
Cases	30%	1,218	15%	609	10%	406	50%	2,030
Time in Hours	0.5	609	4	2,436	11	4,466	6	12,180
Total Hours								19,691
Investigators Needed at 75% show-up								13

In this proposed staffing arrangement, investigative positions are considered to be special assignments for officers. No separate investigator rank is proposed. This provides the department with enhanced flexibility since investigators can be transferred

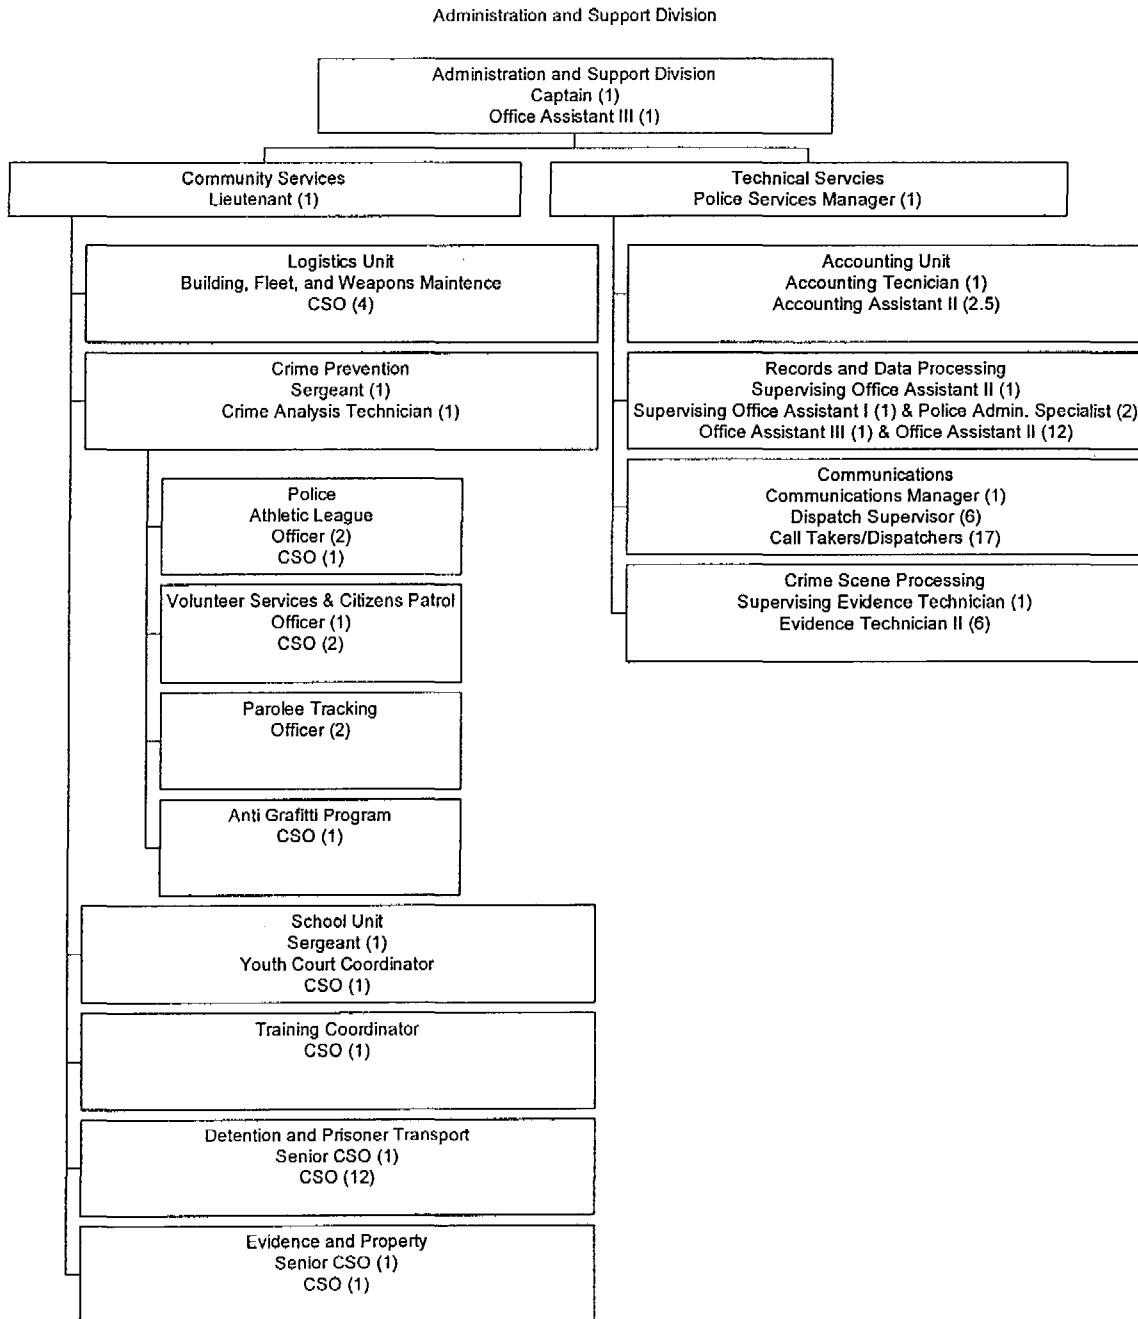

to patrol, special operations, or other special assignment without losing rank and being "demoted". It also allows the department to establish a rotation policy that can provide greater career development and job enrichment without having to deal with "entitled" investigator positions. Since the norm in Riverside County is to have a separate rank and pay grade for investigators, a new Moreno Valley Police Department may need to pay lateral transfers with investigative experience a bonus or supplement to make these MVPD positions attractive.

A total of 18 investigators would be needed with one sergeant for crimes against persons and two sergeants in crime against property to maintain adequate supervisor-subordinate ratios. In addition two office assistants should be assigned to help with clerical tasks. A Lieutenant should supervise the unit.

Because of the relatively small size of the Investigations Unit, organizationally it should form part of the Operations Division. This will encourage closer interaction between patrol, special operations, and investigations. The Operations captain will then have seven lieutenants directly reporting to him or her, well within a normal span of control.

**ADMINISTRATION AND SUPPORT**

In order for a police department to operate effectively it needs administrative and support operations. The chart below displays the functions and units that would make up this division:

The Administration and Support Division should be headed by a Captain and composed of a Community Services Section and a Technical Services Section. A lieutenant should command the Community Services Section and a civilian Police Services Manager should command the Technical Services Section.

The Community Services Section would be composed of the following units:

- **Logistics Unit:** Four CSOs would be assigned to the Logistics Unit to deal with issues related to building, fleet, and weapons maintenance. The unit would also be responsible for equipment and uniform issuance and tracking.
- **Crime Prevention Unit:** The Crime Prevention Unit would be headed by a sergeant and staffed with a crime analysis technician. Sub units would include the Police Athletic League staffed by two officers and one CSO, Volunteers Services and Citizen's Patrol staffed by one officer and two CSOs; Parolee Tracking staffed by two officers, and an Anti Graffiti Program staffed by a CSO.
- **School Unit:** The School Unit would be headed by a Sergeant and would include the Youth Court Coordinator, a CSO.
- **Training Coordinator:** This would be staffed with one CSO.
- **Detention and Prisoner Transport Unit:** To maintain 24 hour a day coverage, this unit should be composed of a senior CSO in charge and 12 CSOs with the expectation that the normal staffing would be two CSOs around the clock. These CSOs would have collateral duties to make sure that property and evidence is properly booked into the evidence storage facility if Evidence and Property personnel are unavailable. If not occupied with detention or transport duties they could also respond to minor calls for service.
- **Evidence and Property Unit:** A senior CSO would be in charge of the evidence and property functions, assisted by a CSO.

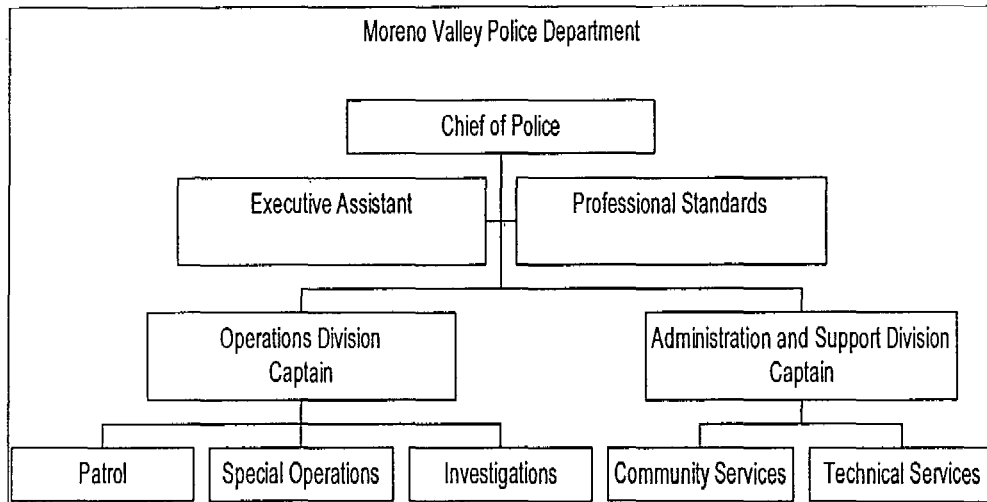

The Technical Services Section would be composed of the following units:

- **Accounting Unit:** This unit would handle the department's accounting and purchasing processes. It would be staffed by one accounting technician and 2.5 accounting assistants to perform the same functions as are performed by the current allocation from the Sheriff.

- **Records and Data Processing:** This unit would have responsibility for the department's data entry and records management functions including public interactions. Staffing would include a supervising office assistant III and a supervising office assistant II as well as two police administration specialists, one office assistant III, and 12 office assistant II positions. This mirrors the current staffing for this function.
- **Communications:** If the City were to establish its own police communications operation a total of 24 positions would be needed: one Communications Manager, 6 Dispatch Supervisors, and 17 Call takers/dispatchers. Two supervisors would be assigned to each of the three shifts. Assuming an 80% show-up rate and a schedule of five eight hour work days followed by two days off, four call taker/dispatcher positions would be assigned to the midnight shift (to ensure a two position minimum staffing), five to day shift to ensure a three position minimum, and eight to evening shift to ensure that six positions are always filled. All personnel should be cross trained so that each can act as a call taker, dispatcher, or information channel operator. The shift minimums were established taking into account the number of calls for service generated and the number of officers on the street during each shift.
- **Crime Scene Processing:** The department will need personnel available to process crime scenes and to package evidence to be sent for further processing. The unit should be composed of a supervising evidence technician and six evidence technicians to provide coverage for at least two shifts each day. There would be an on-call rotation such that an evidence technician can be called out when necessary. A department the size of that proposed for Moreno Valley would rely on larger area agencies or the state for most analysis of evidence, rather than have its own crime laboratory facilities.

**OFFICE OF THE CHIEF**

The Office of the Chief would include the Chief of Police, an executive assistant, and two sergeants assigned to Professional Standards and internal affairs. A high level organization chart would then appear as follows:

**SUMMARY: STAFFING FOR A MORENO VALLEY POLICE DEPARTMENT**

The table below shows by each organizational unit the number of persons to be assigned and position titles for each unit that would compose the MVPD.

POSITION SUMMARY BY UNIT

FUNCTION	TITLE	#	
OFFICE OF THE CHIEF	Chief of Police	1	
	Executive Assistant	1	
	Professional Standards	Sergeant	2
OPERATIONS	Captain	1	
	Office Assistant III	1	
	Office Assistant II	4	
	Lieutenant	7	
	Sergeant	22	
	Officer	124	
	Crime Analysis Technician	1	
	CSO	4	
ADMINISTRATION & SUPPORT	Captain	1	
	Office Assistant III	1	
	Community Services	Lieutenant	1
	-Logistics Unit	CSO	4
	-Crime Prevention	Sergeant	1
		Crime Analysis Technician	1
	-Police Athletic League	Officer	2
		CSO	1
	-Volunteers Services and Citizen's Patrol	Officer	1
		CSO	2
	-Parolee Tracking	Officer	2
	-Anti Graffiti Program	CSO	1
	-School Unit	Sergeant	1
	-Youth Court Coordinator	CSO	1

-Training Coordinator	CSO	1
-Detention and Prisoner Transport	Senior CSO	1
	CSO	12
-Evidence and Property	Senior CSO	1
	CSO	1
Technical Services	Police Services Manager	1
-Accounting Unit	Accounting Technician	1
	Accounting Assistant II	2.5
-Records and Data Processing	Police Admin. Specialist	2
	Supervising Office Assistant II	1
	Supervising Office Assistant I	1
	Office Assistant III	1
	Office Assistant II	12
-Communications	Communications Manager	1
	Communications Supervisor	6
	Call Taker/Dispatcher	17
-Crime Scene Processing	Supervising Evidence Technician	1
	Evidence Technicians	6

The next table shows the number of each position, salary and fringes for the position and the total personnel costs for a Moreno Valley city police department.

POSITION TITLE	#	SALARY	FRINGES (35%)	TOTAL
<b>SWORN POSITIONS</b>				
Chief of Police	1	\$150,000	\$52,500	\$202,500
Captain	2	\$113,647	\$39,777	\$306,848
Lieutenant	8	\$103,984	\$36,394	\$1,123,026
Sergeant	26	\$86,648	\$30,327	\$3,041,344
Officer	129	\$61,573	\$21,551	\$10,722,994
<b>TOTAL SWORN</b>	<b>166</b>			<b>\$15,396,712</b>

CIVILIAN POSITIONS				
Accounting Assistant II	2.5	\$30,600	\$10,710	\$103,275
Accounting Technician	1	\$41,702	\$14,596	\$56,297
Call Taker/Dispatcher	17	\$43,000	\$15,050	\$986,850
Communications Manager	1	\$72,138	\$25,248	\$97,387
Community Service Officer	27	\$33,092	\$11,582	\$1,206,198
Crime Analysis Technician	2	\$51,471	\$18,015	\$138,972
Dispatch Supervisor	6	\$55,759	\$19,516	\$451,650
Evidence Technician II	6	\$39,200	\$13,720	\$317,520
Executive Assistant	1	\$45,500	\$15,925	\$61,425
Office Assistant II	16	\$24,090	\$8,432	\$520,352
Office Assistant III	3	\$28,191	\$9,867	\$114,173
Police Admin. Specialist	2	\$31,000	\$10,850	\$83,700
Police Services Manager	1	\$97,500	\$34,125	\$131,625

Supervising Evidence Technician	1	\$47,500	\$16,625	\$64,125
Supervising Office Assistant I	1	\$32,500	\$11,375	\$43,875
Supervising Office Assistant II	1	\$35,639	\$12,474	\$48,112
TOTAL CIVILIAN	90.5			\$4,529,211
TOTAL POSITIONS	256.5			\$19,925,923

Salaries were determined by examination of current salaries in the Riverside County Sheriff's Department (as of January 29, 2004) and the City of Riverside (as of July 4, 2003) as well as other area agencies. The figures used to project salary costs for a Moreno Valley Police Department are, in general about 2% above comparable figures for the Riverside County Sheriff's Department and above midrange for the City of Riverside. Creating a new police department will require that Moreno Valley recruit a significant number of lateral transfers—both sworn and civilian—from the Sheriff's Department as well as from other agencies. Consequently, competitive salaries will be necessary.

The new Moreno Valley Police Department would hire both experienced and inexperienced police employees, although most should have prior police experience. At least 85% to 90% of the new department's personnel should have prior police experience. The department will need to pay salaries that reflect the accumulated knowledge, skills and abilities of a predominantly veteran staff.

A fringe benefit rate of 35% was used since current rates for similar positions in the county vary from 31% to 37%. If the City chooses to have the new police department participate in the California Public Employee Retirement System (CALPERS) this fringe rate is needed as the state increases the required CALPERS employer contributions. Workmen's compensation insurance for each employee is included in the fringe benefit figure.

## **FACILITY AND EQUIPMENT**

A Moreno Valley city police department would occupy the current city owned facility used by the Riverside County Sheriff. This city owned building was purpose built as a police headquarters and contains most of the space and equipment needed by a city police department. The City and County should conduct a complete inventory of all the buildings contents to determine who owns what. The start-up budget displayed later in this reports includes \$100,000 for equipment that the City might have to acquire to replace County owned equipment.

Additionally, the City may have to move forward building expansion plans currently listed in its 10-Year Capital Plan. The following elements currently in the plan are:

- FY 05/06 \$800,000 Expansion – Forensic Area/Dark Room
- FY 06/07 \$1,500,000 Expansion – Evidence/Property Room
- FY 07/08 \$1,000,000 Emergency Disaster Center Expansion
- FY 08/09 \$500,000 Vehicle Impound/Support Police Facility

The most immediate expansion needs would include insuring that there is adequate locker room space for the expanded size of the police department and that the space for property and evidence storage is expanded. Currently, all of property and evidence seized by deputies assigned to police Moreno Valley is stored at the Perris Station because of a lack of space in the Moreno Valley police building. It is estimated that about 80% of the 4,400 square feet of property and evidence storage at the Perris Station is occupied by material from Moreno Valley.

## **COMMUNICATIONS/DISPATCHING AND INFORMATION TECHNOLOGY**

Ideally, a Moreno Valley police department would control its own dispatching and information technology operations. This would ensure that local priorities could be set and maintained. Personnel costs for the dispatch operation, as detailed above, would equal \$1,535,887 for the first year of full operation. Support for the police department's information technology maintenance and support would come from the city's information technology and be funded through an annual budget transfer payment, estimated at \$325,000.

**FIRST YEAR OPERATING BUDGET**

An operating budget for the first year for a City police agency is shown below:

PROJECTED BUDGET - MORENO VALLEY POLICE DEPARTMENT		
<b>Salaries and Benefits</b>		
Salaries and Fringes- Sworn		\$15,396,712
	Positions = 166	
Salaries and Fringes- Civilian		\$4,529,211
	Positions = 90.5	
	<b>Total Salaries And Wages</b>	<b>\$19,925,923</b>
Overtime @ 5%		\$996,296
Standby / Callback Pay @ 0.5%		\$19,246
Holiday Pay		\$1,068,576
Shift Differential Pay @ 1.5%		\$76,214
Special Duty Pay @0.5%		\$19,246
	<b>Personnel Costs - Sub-total</b>	<b>\$22,105,501</b>
<b>Maintenance and Operations</b>		
Materials and Supplies		\$30,000
Maintenance Contracts Inc. Communications, CAD, RMS		\$225,000
Building Repairs and Maintenance		\$25,000
Printing and Advertising		\$17,500
Dues / Subscriptions / Periodicals		\$4,500
Office Supplies & Expenses		\$25,000
Automotive Repairs and Maintenance		\$125,000
Gas and Oil @ \$1,200 Vehicles =	117	\$140,400
Vehicle Towing Services		\$9,000
Telephone		
T-1 Cost @ \$2,500/month		\$30,000
Long Distance MCI/ATT/Sprint @ \$1,200/month		\$14,400
Local Exchange Services @\$7,000/month		\$84,000
Cellular @ \$70/month for 203 field personnel		\$170,520
Total Telephone Cost		\$298,920
Telephone supplies, maintenance, shop, moves etc		\$42,000
Utilities		\$75,000

Books / Manuals		\$7,500
Conferences and Training		\$85,000
Travel and Meetings		\$12,500
Uniform Cleaning / Repairs / Replacement @\$250		\$41,500
Professional Services		\$75,000
County Booking Charges		\$273,000
Insurance		
General Liability Premium	\$500,000	
Property Damage (Self Insured)	\$100,000	
Workmen's Compensation with self insured retention	\$700,000	
Claims Administration and Adjusting		
Workmen's Compensation	\$28,800	
Liability Adjusting	\$30,000	
		\$1,358,800
Annual Payment to General Liability & Workmen's Compensation Reserves		\$600,000
	<b>M&amp;O Sub-total</b>	<b>\$3,215,620</b>
<b>Capital Outlay</b>		
Equipment		
-New		\$50,000
-Replacement		\$10,000
Vehicle Replacement		
- Marked @\$30,000	20	\$600,000
- Unmarked @ \$20,000	5	\$100,000
Depreciation: Communications Equipment (5 yrs)		
Portable radios CAD, RMS (5 yrs)		\$1,147,986
Depreciation: Vehicle Equipment (3 yrs)		\$440,640
Depreciation: Building (50 yrs)		\$161,746
Depreciation: Telephone System (5 yrs)		\$100,000
	<b>Capital Sub-total</b>	<b>\$2,610,372</b>
<b>City Transfer Payments</b>		
Information Technology		\$325,000
Legal Services, Risk Management, Human Resources		\$500,000
	<b>Transfer Payments Sub-Total</b>	<b>\$825,000</b>
<b>TOTAL ANNUAL COST (First Year)</b>	<b>Total</b>	<b>\$28,756,493</b>

Many figures above are based on the study team's analysis for similar departments. Figures such as the County Booking Fee is derived from apportioning what the City of Riverside pays for the smaller number of arrests likely in Moreno Valley.

A police department needs to have continuing support for capital expenditures to provide for necessary updating of facilities and major equipment. Therefore, new and replacement equipment costs have been included in the annual budget. Additionally, vehicle replacement monies are allocated based on a four year turn over of the patrol fleet. Depreciation/Replacement costs are also included in the budget.

An annual transfer payment of \$500,000 for city services provided by the city attorney's office, risk management, and human resources would fund outside legal counsel, an additional city attorney to specialize in police issues, legal and risk management support personnel, and an additional human resources position. Funding for additional IT personnel and other IT costs to maintain and operate MVPD information systems is included in the \$325,000 IT transfer payment.

The first year budget will be somewhat "experimental." Although the staffing numbers and resulting personnel costs can be predicted based on the work that needs to be performed (at current levels), the operating, maintenance, and capital costs will become more precise with several years of departmental experience with operational needs.

The next table compares the current police staffing and the FY 03 / 04 cost to the proposed staffing and total cost of the first year operation for a Moreno Valley city police department.

CURRENT STAFFING		PROPOSED STAFFING	
		Chief of Police	1
Captain (Chief)	1	Captain	2
Lieutenant	4	Lieutenant	8
Sergeant	18	Sergeant	26
Deputy	107	Officer	129
Investigator	14		
<b>Total Sworn</b>	<b>144</b>	<b>Total Sworn</b>	<b>166</b>
Accounting Technician	1	Accounting Technician	1
Accounting Assistant II	2.5	Accounting Assistant II	2.5
Sheriff's Service Officer	5		
Supervising Office Assistant II	1	Supervising Office Assistant II	1
Supervising Office Assistant I	1	Supervising Office Assistant I	1
Office Assistant III	2	Office Assistant III	3

Office Assistant II	13	Office Assistant II	16
Community Service Officer II	12	Community Service Officer	27
Community Service Officer I	6		
		Crime Analysis Technician	2
		Executive Assistant	1
		Police Admin. Specialist	2
		Senior CSO	2
		Communications Manager	1
		Dispatch Supervisor	6
		Call Taker/Dispatcher	17
		Police Services Manager	1
		Supervising Evidence Tech	1
		Evidence Technician II	6
Additional Civilian Positions Supplied by the City	2		
<b>Total Non-Sworn</b>	<b>45.5</b>	<b>Total Non-Sworn</b>	<b>90.5</b>
Total Personnel	189.5	Total Personnel Proposed for a City Police Department	256.5
Total Cost: Personnel and Operations	\$23,030,031	Total Cost: Personnel and Operations	\$28,756,493

Currently the city budgets \$23,030,031 for 144 sworn positions and 45.5 non-sworn positions plus operational costs. The proposed city police agency would have a first year cost of approximately \$28,756,493 to staff and support a staff of 166 sworn positions and 90.5 non-sworn positions.

**START-UP BUDGET**

Displayed below is a budget containing start up costs for a Moreno Valley Police Department.

Initial Expenses For Implementing the Moreno Valley Police Department					
Patrol Cars		Cost	Units		
	* Marked - New	\$30,000	40	\$1,200,000	
	* Marked - Reconditioned	\$17,500	41	\$717,500	
	* Unmarked -New	\$20,000	6	\$120,000	
	* Unmarked - Used	\$12,500	13	\$162,500	
	**"Unmarked" CSO	\$17,500	7	\$122,500	
	* Transport Vans	\$30,000	4	\$120,000	
	* Motorcycles	\$12,000	8	\$96,000	
Sub-total					\$2,538,500
Patrol Car Equipment					
	* Equipment for each car	\$20,240	104		\$2,104,960
Uniforms					
	* Each officer\100	\$5,875	166		\$975,250
Additional Equipment					\$100,000
Communications/Dispatch					
	Frequency Acquisitions & Licenses			\$1,500,000	
	Base Stations/Controllers/ Central Electronics Bank			\$1,000,000	
	Towers/Repeaters/Land Purchase	\$125,000	6	\$750,000	
	Consoles/Furniture/Electronics	\$175,000	5	\$875,000	
	Computer Aided Dispatch (CAD)				
	Console Hardware	\$5,700	5	\$28,500	
	CAD Servers, Other hardware			\$250,000	
	CAD Software			\$650,000	
					\$5,053,500
Non-911 Telephone System: PBX, Voicemail, digital voice recorders					\$500,000
Information Technology					
	Records Management System (RMS)				
	Servers, Other Hardware			\$125,000	
	RMS Workstations	\$1,750	100	\$175,000	
	RMS Software			\$750,000	
					\$1,050,000
Reserve Funds					
	General Liability				\$1,200,000

	Workmen's Compensation				\$1,200,000
	Contingency Fund @ 20%				\$2,254,442
	Recruitment, selection and background investigations				\$300,000
	Transition Costs				\$1,797,250
				Total	\$19,073,902

The total fleet size for the MVPD would be 117 vehicles, allocated as follows:

Vehicles		
Chief's Office	Unmarked	2
Patrol	Marked	46
	Unmarked	3
Traffic	Marked	6
	Motorcycles	6
	CSO	3
PSU	Marked	9
SET	Marked	14
INV	Unmarked	14
Adm& Support	Marked	6
	CSO	4
Pris Trans	Van	4
		117

Unmarked vehicles would be ordinary sedans with some police equipment but without "police packages." These vehicles should not be used in pursuits or as emergency response vehicles. This will help to limit the department's potential liability from collisions during such episodes. CSO vehicles would have markings on them and be equipped with yellow caution lights for visibility. CSO vehicles would not be equipped with "police packages." The specific items to equip each marked vehicle are in a table in the Appendix. (Specific uniform items also appear in the Appendix.)

Costs for a communications system are estimates only. More specific radio systems needs should be ascertained through a detailed communications study, which is beyond the scope of this report. Creating a communication and dispatch operation from the ground up will consume several years and be expensive. Acquiring the needed radio frequencies is a time consuming process and frequencies may be difficult to get because there is so much competition for any available frequencies.

Computer Aided Dispatch (CAD) costs are also estimates based on recent costs incurred by cities similar to Moreno Valley. Actual costs for both communications equipment and a CAD system would depend on competitive bids resulting from the issuance of a detailed request for proposals.

The precise cost of a Records Management Systems (RMS) would depend on the scope of the system and optional modules the city would choose to purchase. Again, precise costs would result from bids from the issuance of a detailed request for proposals.

Transition costs and the line item for recruitment, selection, and background investigations are for the expenses that would be incurred while creating the Moreno Valley Police Department. New police officers (as opposed to lateral transfers) will need to be trained in a certified police academy and paid as recruits during their training period. Overlap coverage would be necessary between the Sheriff's Office and the MVPD as the Moreno Valley department is being established. For example, the Chief should be hired six to nine months in advance of the "cut-over" date. The exact amount of this transition cost will depend on how quickly the City and the Chief can hire qualified employees, secure the necessary equipment, and provide needed orientation training. Two to three weeks of patrol overlap should occur to give Moreno Valley officers the opportunity to learn the city and meet key community members. The monies provided for "Transition" includes funds to cover both contract overlap costs and MVPD personnel and other operating costs.

## GROWTH AND THE DEMAND FOR POLICE SERVICES

Moreno Valley's Annual Community Conditions Report indicates that the city's population is expected to grow by almost 2,000 persons per year for the next five years. By 2008, the population of Moreno Valley may reach almost 160,000 if the current conditions fueling growth continue. (Some recent trends indicate the population could reach closer to 165,000.)

Expectations are that this growth will continue to be dominated by families with children. Family size in Moreno Valley is substantially higher than the national average and the city has a high percentage of its population composed of children under 18. The city expects that this large, young population will generate growth in demand for many retail/service businesses and for city services including parks and recreation and libraries.

Another likely condition may be an increase in juvenile crime. With many parents making long commutes to Orange and Los Angeles Counties, juveniles are likely to be unsupervised for fairly long periods from the end of the school day until parents return after the long afternoon commute. When children are on vacations from school, they may well be unsupervised for almost the entire day.

The table below shows the trend in serious crime—defined by the FBI's Uniform Crime Reports (UCR) as murder, rape, robbery, aggravated assault, burglary, larceny theft, and motor vehicle theft—for Moreno Valley from 1995 through 2002.

From a peak in 1995, reported crime in Moreno Valley dropped steadily until 1999. Since then there have been annual increases. Increases may be driven in part by population increases but the city was rapidly growing from 1995 through 1999 as well as from 1999 through 2002. The tables below show the trends in violent crimes (murder, rape, robbery, and aggravated assault) and property crimes (burglary, larceny theft, and motor vehicle theft) for 1995-2002.

Both of these trends show similar patterns, with increases each year since 1999. From 2000 through 2002 most of the increase in violent crime is in the aggravated assault category, while larceny theft and motor vehicle theft account for most of the increase in property crimes. These crimes—aggravated assault, larceny theft, and motor vehicle theft—are the serious crimes that young people most often commit. Assault may be the result of serious fights or gang violence, larceny theft are crimes of opportunity and often involve shop lifting and stealing of items from unlocked garages or yards, and motor vehicle theft includes vehicles stolen for joy rides.

An increase in these types of problems will generate a need for more investigators with expertise in juvenile crime investigation and more personnel assigned to juvenile crime prevention. Officers assigned to schools not only can help make the campuses safer but they also can gather information that will help to solve crimes committed by juveniles and in which juveniles are victims.

Another impact of growth will be an increase in calls for service and in traffic. If the time consumed by calls for service increases at the same 2% annual rate as the

population, the average time consumed per week will be about 1304 hours by 2008. To maintain a target of 50% patrol time consumed by calls for service the number of patrol officers would need to increase from 76 to 82. Without an increase in officers the time consumed by CFS would increase to 54%.

The impact of population growth on calls for service is not usually straightforward. The number and duration of calls may vary depending on the demographics of the new population. New dwellings with parents gone on long commutes during long periods of the day are likely to be a source of alarm calls. More unsupervised youth may generate more after school disturbance calls. A large number of construction projects may result in calls about theft from construction sites and vandalism. The re-use of March Air Force Base land will be another key factor in the type of police services required.

As the population increases, so will traffic. One key factor determining the impact on a Moreno Valley Police Department is whether the California Highway Patrol will continue to assume responsibility for patrol of the freeways that traverse Moreno Valley in light of the state's current financial position. Traffic patrol and collision investigation by Moreno Valley officers on the freeways would consume a substantial amount of their time, diverting resources from city streets.

**FUNDING ISSUES**

Police departments typically allocate the largest portion of their budget to personnel. The proposed budget for a Moreno Valley Police Department is:

Personnel	\$22,105,501	77%
Other Direct Costs	\$3,215,620	11%
Capital Outlays	\$2,610,372	9%
Transfers	\$825,000	3%
Total	\$28,756,493	

Personnel costs represent 77% of the total budget and 87% of the operating budget (personnel and other direct costs combined). Other direct costs and/or capital outlays might be reduced somewhat, but substantial savings can be achieved only by reducing personnel costs, resulting in a smaller agency.

One way to gauge the adequacy in size of a police department is to compare it to other cities. The table below shows data for 16 California cities roughly similar in size to Moreno Valley. The population range is from 171,000 for Garden Grove to 130,000 for Corona and Fullerton. In addition to population, the numbers of sworn and civilian personnel are included as well as the number of Part 1 2002 crimes (excluding arson.) The source for the data is the FBI's 2002 Uniform Crime Report. The sworn and civilian personnel numbers for Moreno Valley are those recommended earlier in this report.

RANKED BY POPULATION						Part 1 Crimes 2002
	CITY	POP	SWORN	CIVILIAN	TOTAL	
1	Garden Grove	171,000	165	73	238	5,430
2	Oceanside	167,000	178	85	263	6,964
3	Ontario	164,000	214	110	324	8,296
4	Salinas	157,000	159	56	215	6,834
5	Pomona	154,000	165	129	294	6,132
6	Santa Rosa	153,000	174	88	262	6,531
7	Moreno Valley	150,000	166	90.5	256.5	6,902
8	Irvine	148,000	142	70	212	3,624
9	Hayward	145,000	205	118	323	5,508
10	Torrance	143,000	234	125	359	4,541
11	Pasadena	139,000	248	139	387	4,881
12	Escondido	138,000	161	66	227	5,495
13	Fontana	137,000	141	61	202	4,312
14	Orange	133,000	153	71	224	3,872
15	Corona	130,000	153	83	236	4,430
16	Fullerton	130,000	151	71	222	4,774

When the cities are ranked by population, Moreno Valley is about in the middle, with the seventh highest population of the 16 cities. The next table ranks the cities by the number of UCR Part 1 crimes reported in 2002.

Ranked By Part 1 Crimes- 2002						Part 1 Crimes	Crimes per 1000 persons
	CITY	POP	SWORN	CIVILIAN	TOTAL		
1	Ontario	164,000	214	110	324	8,296	50.6
2	Oceanside	167,000	178	85	263	6,964	41.7
3	Moreno Valley	150,000	161	58.5	219.5	6,902	46.0
4	Salinas	157,000	159	56	215	6,834	43.5
5	Santa Rosa	153,000	174	88	262	6,531	42.7
6	Pomona	154,000	165	129	294	6,132	39.8
7	Hayward	145,000	205	118	323	5,508	38.0
8	Escondido	138,000	161	66	227	5,495	39.8
9	Garden Grove	171,000	165	73	238	5,430	31.8
10	Pasadena	139,000	248	139	387	4,881	35.1
11	Fullerton	130,000	151	71	222	4,774	36.7
12	Torrance	143,000	234	125	359	4,541	31.8
13	Corona	130,000	153	83	236	4,430	34.1
14	Fontana	137,000	141	61	202	4,312	31.5
15	Orange	133,000	153	71	224	3,872	29.1
16	Irvine	148,000	142	70	212	3,624	24.5

Moreno Valley had the third highest number of Part 1 crimes reported in 2002, regardless of population. Its ranking in terms of crimes per 1000 persons is second. The following table shows how Moreno Valley would rank if the city employed the number of sworn officers recommended in this study.

Ranked By Sworn Personnel						Part 1 Crimes
	CITY	POP	SWORN	CIVILIAN	TOTAL	2002
1	Pasadena	139,000	248	139	387	4,881
2	Torrance	143,000	234	125	359	4,541
3	Ontario	164,000	214	110	324	8,296
4	Hayward	145,000	205	118	323	5,508
5	Oceanside	167,000	178	85	263	6,964
6	Santa Rosa	153,000	174	88	262	6,531
7	Moreno Valley	150,000	166	90.5	256.5	6,902
8	Pomona	154,000	165	129	294	6,132
9	Garden Grove	171,000	165	73	238	5,430
10	Escondido	138,000	161	66	227	5,495

11	Salinas	157,000	159	56	215	6,834
12	Corona	130,000	153	83	236	4,430
13	Orange	133,000	153	71	224	3,872
14	Fullerton	130,000	151	71	222	4,774
15	Irvine	148,000	142	70	212	3,624
16	Fontana	137,000	141	61	202	4,312

Moreno Valley would rank seventh of the 16 departments in terms of sworn strength<sup>3</sup>. Of the cities with fewer officers, only Salinas and Garden Grove have more residents.

The number of officers varies widely and is not necessarily directly related to city size or number of crimes. Pasadena has 139,000 residents, Fontana 137,000. Pasadena had 4,881 crimes reported and has 248 sworn officers; Fontana had 4,312 crimes reported but only 141 officers, over 100 fewer than Pasadena.

In many instances the size of the department and its crime rate are a function of the demographics of the city and the city's location. Policy choices have an impact on policing strategies and personnel allocation, also. For example, a city may choose to limit the number of patrol officers responding to calls for service thus having more of their time consumed by CFS. Fewer patrol officers may be needed if substantial civilianization is in place to handle collision investigations and crime scene processing. A jurisdiction will make policy choices to determine what types of special units it needs, and what work they will perform versus what patrol officers are expected to do with the time they are not on a call for service. A department may expect its patrol officers to be engaged in problem solving and community policing and traffic enforcement in some cities while others form special units to perform such functions. Other jurisdictions may decide that special efforts in problem solving and community policing and in traffic enforcement are not needed.

The final table in this set shows how Moreno Valley would rank in terms of total police personnel for the 16 cities.

Ranked By Total Personnel						Part 1 Crimes
	CITY	POP	SWORN	CIVILIAN	TOTAL	2002
1	Pasadena	139,000	248	139	387	4,881
2	Torrance	143,000	234	125	359	4,541
3	Ontario	164,000	214	110	324	8,296

<sup>3</sup> Ranking by officers or civilian employees per population is not useful because of the wide variation in assignment policies by different jurisdictions. Also departments vary widely in their use of civilian employees to supplement sworn officers in such roles as collision investigation and crime scene processing.

4	Hayward	145,000	205	118	323	5,508
5	Pomona	154,000	165	129	294	6,132
6	Oceanside	167,000	178	85	263	6,964
7	Santa Rosa	153,000	174	88	262	6,531
8	Moreno Valley	150,000	166	90.5	256.5	6,902
9	Garden Grove	171,000	165	73	238	5,430
10	Corona	130,000	153	83	236	4,430
11	Escondido	138,000	161	66	227	5,495
12	Orange	133,000	153	71	224	3,872
13	Fullerton	130,000	151	71	222	4,774
14	Salinas	157,000	159	56	215	6,834
15	Irvine	148,000	142	70	212	3,624
16	Fontana	137,000	141	61	202	4,312

In terms of total size, Moreno Valley would rank eighth. Comparability is difficult here since under the proposed structure, Moreno Valley would not have a city jail. Pasadena, for example, has its own jail. These tables show that the proposed size of a Moreno Valley Police Department is not very different from other, similarly sized, California cities.

Under the current contractual arrangement with the Riverside County Sheriff, 57 deputies are assigned to patrol to respond to calls for service in Moreno Valley. In the earlier analysis, an 80% show up rate was used to forecast patrol staffing needs. The Sheriff indicates that deputies are available 1,780 hours a year (of the potential 2,080 annual hours) for a show-up rate of 85.6%. But, under the contract, if a patrol deputy is not available for work, the Sheriff supplies a replacement at no additional cost to the City. Therefore, each patrol deputy position assigned to patrol equates to 40 hours per week of patrol time. As a result, the 57 full time equivalent deputy positions compared to the 1,222 average hours per week calls for service time, show a CFS average weekly time consumed percent of 53.6%.

A substantial reduction in the number of patrol officers from the 76 recommended to achieve a 50% CFS time consumed target could result in a decreased level of service. Seventy-one patrol officers at an 80% show up rate would result in a CFS time consumed percent of 53.8%, pretty much the same as now. Personnel cost saving would be about \$400,000.

Reductions in other proposed staffing recommendations could be achieved if the city were to decide that its own department would provide a different service mixture than is currently being provided by the Sheriff. For example, having civilians perform the bulk of traffic collision investigations, charging patrol officers with traffic

enforcement, and continuing to rely on the California Highway Patrol to patrol the freeways might eliminate the need for a dedicated traffic unit. Eliminating the two sergeants and 12 officers currently recommended would save approximately \$1,200,000 in personnel costs.

In 1999, the Sheriff, at the request of the City, submitted a proposal to establish a dedicated Moreno Valley dispatch center in space designed for that purpose in the Moreno Valley police building. The estimate provided for the annual cost of operation was incremented by 20% to project the likely cost to contract such services. The current estimate is \$2,400,000 compared to an annual operating cost of approximately \$2,800,000 in the proposed MVPD budget.

A parallel situation exists with respect to records management and information technologies. The difficulty and costs to establish an independent system for a Moreno Valley police department are high. The ability to have countywide access and to have an integrated system would be impaired. If the City were to decide to establish an independent department but retain police information services from the Sheriff the city would need to ask the Sheriff for a precise quote.

Funds for the needed radio systems and information technology may be available through grant funds. Although this will have little impact on annual operations, it could lower the amount of start-up funding needed.

Another area that could result in cost savings is in pension contributions. The City could opt for a different retirement system than CALPERS. One advantage is that the City might be able to attract more lateral transfers if people chose to retire from a PERS department and continue working for Moreno Valley. Financially they would have both their retirement income plus their Moreno Valley salary. This option would probably be more attractive to employees at the higher ranks since those who have spent a career as a patrol officer are often ready to retire from street policing altogether.

Determining the exact size and cost of a Moreno Valley Police Department will depend on providing a satisfactory level of service to the residents of Moreno Valley. The size and costs recommended here are a mid-range mix of personnel and functions designed to provide at least equivalent services to those currently being provided under the contract. Adjustments can be made, based on policy preferences, but without substantial decreases in personnel the annual cost of providing first rate police services through a Moreno Valley city police department will remain in the vicinity of \$28,800,000.

## START UP TASKS AND IMPLEMENTATION APPROACH

The community and the police must work together to create an effective police department for Moreno Valley. City residents and city government should be active participants in helping to form the new department. The City Council will need to provide city management with clear expectations of what they and their constituents want from their own department and how they think the city should be policed.

The following steps should be taken to implement the new agency.

1. Establish budget authority, financial procedures, and allocate start up funds.
2. Develop a job description for the Chief of Police, including personal and professional characteristics.
3. Create a background investigation process to be used for all police employees. Consideration should be given to hiring an outside contractor to assist in this process.
4. Begin the recruitment process for the chief. Prior to final selection, complete background investigations on the three leading candidates.
5. In conjunction with chief, locate temporary space, either in a temporary location or in underutilized space in the police building.
6. Recruit for, and select, senior staff. Complete background checks before final selection.
7. The chief and his/her senior staff should:
  - 7.1. Develop a practical and realistic mission statement, a set of organizational values, and a vision for the future of policing in Moreno Valley.
  - 7.2. Complete a general order manual and design training on the policies and procedures (the general order manual may be from another agency which is then suitably revised for the specific circumstances of Moreno Valley).
  - 7.3. Assess the current crime prevention and public education programs to adopt, expand and/or revise.
  - 7.4. Begin a transition for the current volunteer program to the new department.
  - 7.5. Develop an orientation training plan for newly hired officers to ensure they understand the department's vision, mission and values; policies, procedures, and regulations; and, local ordinances.
  - 7.6. Create standards for supervision and employee performance measurement to both facilitate supervisor consistency and high quality employee performance. Develop and implement a set of supervisory standards.
  - 7.7. Develop a transition plan to transfer the partnerships that have been formed between the deputies now assigned to police Moreno Valley and its neighborhoods, businesses, and schools.

8. Conduct introductory meetings with civic, public, community, and neighborhood association groups and leaders to form good working relationships and to open channels for the communication of community concerns.
9. Begin the purchasing process for capital items and for non-sized specific uniform items.
10. Purchase vehicles and have them equipped.
11. Recruit officers and sergeants. Complete background checks prior to final selection.
12. Recruit civilian staff and supervisors. Complete background checks prior to final selection.
13. Work with the appropriate City departments to create the needed system for police payroll, benefits administration, and personnel records keeping.
14. Create all needed police report formats by modifying comparable forms from a similar California agency.
15. Work with the City's public information office to inform Moreno Valley residents of the change in police service from the Riverside County Sheriff's Office to the Moreno Valley Police Department.
16. Update/revise as necessary disaster and evacuation plans.
17. Establish mutual aid agreements with adjacent law enforcement agencies.
18. Create memorandums of understanding with the appropriate agencies re: specialized services including, S.W.A.T., search and rescue, specialized investigations, county/regional drug task forces, and evidence processing.
19. Locate firearms range for quarterly firearms qualifications.
20. Develop in-service training schedule for legal updates and skills refreshers.
21. Develop liaison with local fire and EMS agencies.
22. Establish transition/overlap plan with the Sheriff's Office so that there is a period of joint patrolling and Moreno Valley officers can learn the city.

## APPENDIX

### POLICE VEHICLE / EQUIPMENT

Radio	\$2,800

City of Riverside Board of Public Utilities  
Attn: Justin Scott-Coe, Board Chair  
3901 Orange St.  
Riverside, CA 92501

Subject: Potential partnership between the City of Moreno Valley Electric Utility and Riverside Public Utilities

Dear Chairman Scott-Coe:

I'm writing to acquaint you with an effort underway at the Moreno Valley Utility, and to request your support of further dialogue between MVU and RPU staff to explore potential partnership opportunities.

As you may be aware, the City of Moreno Valley formed an electric utility in 2001, with the goals of capturing the success of municipal utilities during the energy crisis, gaining local control over the provision of electric service to the community, and creating an economic development tool to attract businesses to the City.

Moreno Valley Utility (MVU) began serving customers in February 2004, and currently has over 5,600 customers with a peak load of 32.5 MW. MVU serves all new development in the City; at build-out, MVU has the potential to triple its service delivery.

In October 2003, the City entered into a long-term agreement with ENCO Utility Services, which installs, operates, and maintains Moreno Valley's electric distribution system. These services include design, engineering, construction management, operations and maintenance, meter reading, customer billing, and related consulting services. There are currently seven ENCO employees on-site with MVU staff; customer billing and remittance is handled in an office outside our City.

As part of the long-range planning process for Moreno Valley Utility, staff has begun exploring options for operations and maintenance services, outage management, meter reading, and customer billing upon expiration of the agreement between ENCO and the City on December 31, 2020, or perhaps even prior to 2020. Our staff made preliminary contact with Riverside Public Utilities to explore the feasibility of contracting with another public utility for the range of services currently provided by ENCO.

CITY MANAGER'S OFFICE

MV00228272

We sincerely hope that your Board is supportive of our request to engage in further dialogue with RPU staff regarding potential collaborative opportunities.

Thank you for your consideration. If you would like to discuss this with me, please call me at [REDACTED]. Should your staff wish to discuss our request in greater detail, they are encouraged to call Jeannette Olko, Electric Utility Division Manager at [REDACTED].

We look forward to your reply.

Respectfully,

Michelle Dawson  
City Manager

Good afternoon Mayor-

In one of our recent CIP projects, you requested a more complete list of needed storm drain projects including status, estimates and available funding. The request became a Green Sheet task and is now completed and attached for your reference and use.

If you should need additional info or have any questions, please let me know.

Thank you,

**Re: SCAG Sustainability Planning Grant Award**

To Hon. Tom Owings:

Congratulations! On behalf of the Regional Council, I am pleased to inform you that the City of Moreno Valley submittal for the Nason Street Corridor Plan project has been approved at the meeting on September 12th. The City of Moreno Valley has been awarded a Sustainability Program grant valued at approximately \$150,000 in planning services. The Southern California Association of Governments' (SCAG) looks forward to partnering with the City on this planning grant and appreciates your interest.

This project is another step towards implementing the approved 2012-2035 Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS) that was developed with a bottom-up partnership for a livable and prosperous Southern California through 2035. The Sustainability grant program enables SCAG to partner directly with our members by providing financial assistance to local planning initiatives that help implement the 2012-2035 RTP/SCS and, at the same time, support local priorities. The City's proposal is consistent with the Sustainability Program's goals of improving livability, mobility, prosperity and sustainability and moves us one step closer to realizing our shared vision.

SCAG is pleased to be able to offer you consultant services, free of charge, to implement your project. The next step will be to work from the project proposal to develop a scope of work and "Request for Proposals" (RFP) for bid by a qualified consultant team to support your effort.

SCAG staff will be in touch shortly to discuss this process. In the meantime, if you have any questions please do not hesitate to contact Peter Brandenburg, Program Manager, at (213) 236-1937 or by email at [brandenb@scag.ca.gov](mailto:brandenb@scag.ca.gov). Thank you again for your interest in partnering with SCAG to plan for a better future for your community and the entire SCAG region.

Sincerely,

Greg Pettis  
President

Ms. Bagley:

Ms. Wagoner and Mr. Gragg are LLU students preparing a Community Analysis and Report for their MSW program at Loma Linda University. Following their meeting with Mayor Owings today, I provide them your telephone number as a staff contact if they have additional questions regarding economic development and demographics.

I provided them the packet of information you gave me this a.m.

Attached is an overview of their project.

# Outline Report Week 1

Double Space

## SOCIAL WORK - 519 MINI COMMUNITY ANALYSIS & REPORT

Headings  
Sub Headings

### Introduction and Overview

As professional social workers engaged in macro practice, we must view the geographical community as a dynamic and diverse entity embracing individuals, families, groups, organizations, institutions, cultures, and values in ever changing patterns of relationships.

When working in the community and attempting to involve the community in the planning, development, and implementation of human service programs, or to take social action to address and identify community concerns or needs, we must be thoroughly be knowledgeable on the specific characteristics of the community and the various diverse views of its residents.

The data and information gathered from responding to this outline and questions will be beneficial for a **“quick identification and assessment”** of the major characteristics and general functions of the community. However, it must be noted, that this brief report is not intended to be a more detailed, comprehensive, elaborate community research study!

As an important reference, please read the article in your notebook, Fellin, P., *Understanding American Communities*. It is expected that this article and other material from Kirst-Ashman & Rothman, et al will be utilized in completing your analysis and preparing your report.

**You must follow the outline and format below in preparing your assignment.** Include in the appendix any references, charts, graphs, statistical reports, maps, pictures, interviews, and any other reference material used in completing your analysis and report.

### I. Identification and Description of Your Community:

- A. Name of the community or neighborhood area.
- B. Identify State, county, city where the community is located.
- C. What are the major geographical characteristics of the community?
- D. What are the major population characteristics of the community?
- E. What are the principle economic characteristics of the community?
- F. What is the socioeconomic profile of the community?
- G. What is the “political structure” of the community; how is the community governed? Who has the most influence?
- H. What is the educational level of the community?
- I. What is the poverty and unemployment rate of the community?
- J. What is the health status of the community?

Title Page

Table of Contents

Text

Appendix

- K. How would you classify this type of community: urban, suburban, rural, metropolitan, industrial, etc.; be specific?
- L. What are the housing patterns within the community; what is the median price of homes?
- M. What is the role of local community based organizations and civic organizations & institutions?
- N. What are the means of communication and/or sharing of information in the community? Is there "neighborhood associations" in the community?
- O. Identify the various community and social resources (note any specific items of interest to the following types).
  1. Educational;
  2. Health & Medical; Emergency Services
  3. Law Enforcement & Fire
  4. Recreation and Leisure Time;
  5. Human Services;
  6. Businesses/Industry; Shopping Areas
  7. Labor Unions/Employee Associations
  8. Religious
  9. Community Utilities (transportations, water& Sewer, electrical)
  10. Charity Organizations & Foundations; local planning councils

**II. Identify the Community Social Issues & Concerns:**

- A. If any, what are the social problems within the community 9e.g., poor housing, lack of community resources, crime, gang activity, drugs, Aids, poor health, etc.)?
- B. If any, what are the social issues and concerns within the community? (e.g., poverty, low income, unemployment, affordable housing, lack of access to health and social services, homelessness, lack of political influence, lack of law enforcement, discrimination, etc.)?
- C. Are these social issues and concerns linked to any specific? population group or as identified by Bruce Jansson, "out groups"=*people discriminated against* within the community (e.g., aged, mentally disabled, physical, racial and ethnic groups, sexual orientation, gangs, children and families, homeless, etc.)?
- D. If any, what are the major the economic issues, concerns, and problems within the community.

- E. If any, are there any significant conflicts or tension situations affecting the community; internally or externally? Identify the major "stakeholders" involved in these situations.
- F. If any, identify the key local leaders involved in addressing these situations; is there a community mechanism to handle these conflicts and tensions? Is the local governing body or city council involved in addressing these issues and concerns? Identify any local community organizations involved in addressing these situations.

**III. Community Analysis and Comments**

- A. What is the overall profile of this community; summarize its major characteristics?
- B. What are the social norms and values within this community?
- C. Do the community and its residents have a positive or negative attitude, identity, loyalty, pride, tradition, commitment, and belonging?
- D. What are the major community's strengths, weaknesses, opportunities, and challenges?
- E. Is this community characterized by having a great deal, a fair amount, or hardly any autonomy or influence over its specific institutions and future? Does the community leaders engage the residents in a "collaborative" process to address social issues and concerns?

**IV. Conclusion:**

- A. What is your overall impressions of this community?
- B. From a "Macro Practice" perspective, do you have any recommendations for this community?

**Prepared by Allan G. Rawland, MSW, ACSW**

CITY COUNCIL  
MORENO VALLEY  
RECEIVED

13 OCT 21 PM 5: 13

October 11, 2013

Mayor Tom Owings  
The City of Moreno Valley  
14177 Frederick Street  
Moreno Valley, CA 92553

Dear Mayor Owings:

***Congratulations!*** The The City of Moreno Valley has been chosen to receive a **2013 Project of the Year** award from the Southern California Chapter of the American Public Works Association (APWA). This award is for the following City project:

1. Cactus Avenue/Nason Street Improvement Project

APWA is the professional association of Public Works leaders throughout the United States and Canada. The Southern California Chapter covers Los Angeles, Orange, Riverside and San Bernardino Counties and there are over 1,400 members in the Chapter. The purposes of the Chapter's awards program are to recognize public agencies for their outstanding projects and programs, and to share the wealth of good ideas.

The 2013 awards ceremony and presentation will be held at the APWA Southern California Chapter's 14th Annual Awards Luncheon on:

Tuesday, December 10, 2013  
11:30 a.m. – 1:30 p.m.

— declined

The Centre at Sycamore Plaza, Lakewood Civic Center.

We hope that you and your staff, including any consultants or contractors, will attend this important event to receive your plaque personally. Attached is a reservation form with additional instructions. You may also wish to reserve a display table for showcasing information or photos of your worthy project.

Congratulations again and we look forward to recognizing your City.

Sincerely,

A handwritten signature in black ink that reads 'B Teaford'.

Bonnie Teaford  
APWA President

Enclosure

Re: Demand to Cure Violations of the Ralph M. Brown Act and  
Government Code Section 34882

Dear City Councilmembers Owings, Molina, Baca, and Stewart:

On behalf of Basil Kimbrew, Radine Ramos Hiers, Deanna Reader, and numerous other Moreno Valley voters represented by our office, we write to demand that the City Council of Moreno Valley (the "Council") take immediate action to cure and correct the violations of the Ralph M. Brown Act, Government Code section 54950 et seq. (the "Brown Act"), and the California Elections and Government Code committed by members of the Council on and around September 24, 2013. The Council's abrupt and evidently predetermined appointment of Yxstian Gutierrez to complete the unexpired term of office of former councilmember Marcelo Co was accomplished without adequate public notice and without any meaningful opportunity for public comment; indeed, there was not even any opportunity provided for the Council itself to deliberate on Dr. Gutierrez's unexpected appointment. By its conduct, the Council majority demonstrated a disturbing contempt for democratic participation in a community already plagued by distrust of its public officials.

The Council's action in appointing Dr. Gutierrez to the city council violated both the spirit and the letter of the Brown Act, California's open meetings law. The Brown Act is intended "to facilitate public participation in local government decisions and to curb misuse of democratic process by secret legislation by public bodies." (*Cohan v. City of Thousand Oaks* (1994) 30 Cal.App.4th 547, 555.) These protections are founded on the precept that "[t]he people, in delegating authority, do not give their public servants the right to decide what is good for the people to know and what is not good for them to know. The people insist on remaining informed so that they may retain control over the instruments they have created." (Gov. Code, § 54950.) The Council majority's handling of the appointment of Dr. Gutierrez to fill the vacancy in the District 4 seat made a mockery of these fundamental principles of democracy.

Moreover, it has come to light that Dr. Gutierrez does not live in the council district from which Mr. Co was elected and whose unexpired term he was appointed to fill. Accordingly,

MV00230363

under established California law, Dr. Gutierrez was ineligible to be appointed to that office or to continue to hold the position of Council representative for District 4. If his appointment is not rescinded, every action that the Council takes with his participation will be of questionable legality, and judicial action will be necessary to compel his removal from office.

We therefore request, pursuant to Government Code sections 54960.1 and 34882, that the City Council immediately take action to remedy its illegal conduct. Specifically, the Council must rescind its unlawful appointment of Dr. Gutierrez and address the vacancy on the Council through a properly noticed, open public meeting that permits full public discussion and council deliberation of this important issue and that results in a decision that conforms with all applicable provisions of law.

#### Violations of the Brown Act

(1) *A majority of the Council engaged in an unlawful secret meeting to discuss appointing a replacement for Mr. Co.* The cornerstone of the Brown Act is its requirement that meetings of legislative bodies to discuss public business must be properly noticed and, with narrow exceptions not relevant here, open to the public. It is therefore illegal for a majority of the members of the Council, outside of a properly noticed public meeting, to “use a series of communications of any kind, directly or through intermediaries, to discuss, deliberate, or take action on any item of business that is within the subject matter jurisdiction of the legislative body.” (Gov. Code, § 54952.2, subd. (b)(1).) Our clients are aware of at least two nonpublic communications that occurred between councilmembers concerning whether to appoint someone to fill the District 4 seat left vacant by Mr. Co’s resignation. Together, these conversations constituted an unlawful secret meeting by a majority of the members of the City Council in violation of the Brown Act.

The issue of whether to appoint someone or, alternatively, to hold a special election to fill former Councilmember Co’s 4th District seat is indisputably an item of public business within the Council’s jurisdiction. Indeed, this precise issue was agendaized for discussion at the September 24, 2013, Council meeting. Prior to the council meeting, however, Mayor Owings contacted Councilmember Stewart to express his preference for appointing someone to fill the unexpired portion of Mr. Co’s term. During the Council’s abbreviated discussion of this issue, Councilmember Stewart explicitly referred to this communication with Mr. Owings, and he subsequently elaborated on the contents of his conversation with Mr. Owings in a newspaper article later that week. (See S. Hurt, “Moreno Valley: Naming of Councilman May Have Violated Law, Expert Says,” *Riverside Press-Enterprise* (Sept. 27, 2013).)

Mr. Owings also evidently engaged in pre-meeting deliberations with Councilmember Baca regarding the same issue. The two discussed not only the proposal to fill Mr. Co’s seat by appointment rather than to hold an election, but apparently went so far as to agree on the appointment of Dr. Gutierrez. The September 24th Council meeting includes the following

exchange between Mr. Owings and Ms. Baca, which makes their pre-meeting collusion unmistakable:

- Mr. Owings: "... This council should exercise its ... State of California constitutional authority and make the decision to fill this vacancy. So I would entertain a motion."
- Ms. Baca: "I would like to use the first option, which is to appoint someone to serve out the remainder of the unexpired term until December 8th – I'm sorry, 9th – 2014. ... So moved."
- Mr. Owings: "Let's just do one motion. Do you have someone in mind?"
- Ms. Baca: "I do."
- Mr. Owings: "All right, let's read the motion and let's get – let's just put it out."

As the *Riverside Press-Enterprise* observed in its editorial lambasting the City Council the next day, "unless council members have suddenly developed telepathic powers, the majority had to have conferred on the issue and settled on a choice in private before the meeting." For example, Mr. Owings could not possibly have known that Ms. Baca had "someone in mind" for the appointment to fill Mr. Co's unexpired term had they not previously discussed the matter.<sup>1</sup> Mr. Owings's previous comments had related only to whether the Council should exercise its authority to fill the seat by appointment rather than election, and Ms. Baca's initial motion responded only to that narrow issue. As Mr. Stewart observed, the Council's past practice had been to invite applicants and to publicly interview them before making appointments to city positions. Particularly in light of that history, nothing in Ms. Baca's suggestion to "use the first option, which is to appoint someone," implied that she also had a specific candidate in mind for the appointment that evening. Yet Mr. Owings not only was somehow aware that Councilmember Baca was ready to appoint a particular person at that time, but he expressed no surprise, made no comment, and displayed no visible reaction when she announced who that person was. Instead, Mayor Owings — somehow knowing that Dr. Gutierrez just happened to be present at the council meeting that night — asked Ms. Baca to amend her motion to have him sworn in immediately, even somehow divining that Dr. Gutierrez had prepared and wanted to deliver a written "acceptance speech" following his swearing-in ceremony.<sup>2</sup>

---

<sup>1</sup>Indeed, Ms. Baca acknowledged to the press that she had introduced Dr. Gutierrez to Mayor Owings in a meeting between the three of them the weekend before the City Council's vote on September 24th, but claimed — incredibly — that they did not discuss his possible appointment. (S. Hurt, "Moreno Valley: Naming of Councilman May Have Violated Law, Expert Says," *Riverside Press-Enterprise* (Sept. 27, 2013).)

<sup>2</sup>We are confident that discovery will reveal the full extent of the pre-meeting secret collaboration among members of the council regarding this issue. For example, Councilmember Stewart indicated at the meeting that he had seen Ms. Baca give Mr. Owings a document prior to

The conversation between Mr. Owing and Mr. Stewart, together with the communications between Mr. Owing and Ms. Baca, comprise serial meetings involving three members of the Council – a majority – to discuss whether the Council would exercise its statutory authority to fill the vacant District 4 Council seat by appointment or would instead call a special election to let the voters of the District decide who their representative should be. It is immaterial whether or not Mr. Stewart actually reached a consensus with Mr. Owing and Ms. Baca to proceed with the appointment of Dr. Gutierrez: the Brown Act prohibits *secret deliberation and discussion*, regardless of whether such communications result in an agreement to take specified action. (*Frazer v. Dixon Unified School Dist.* (1993) 18 Cal.App.4th 781, 796; see also 84 Cal. Ops. Atty. Gen. 30, at \*2.) It was unlawful under the Brown Act to discuss this matter *at all* outside of a noticed public meeting, and the secret serial discussions, spearheaded by Mr. Owings and including a majority of council members, renders the resulting action taken by the Council unlawful.

(2) *The council's action to appoint Dr. Gutierrez was not adequately noticed on the meeting agenda.* The Brown Act requires every legislative body, at least 72 hours in advance of its regular meeting, to “post an agenda containing a brief general description of each item of business to be transacted or discussed at the meeting.” (Gov. Code § 54954.2, subd. (a).) “No action or discussion shall be undertaken on any item not appearing on the posted agenda.” (*Id.*, subd. (b).) The agenda for the Council’s September 24, 2013, meeting stated only that the council would “consider the procedural options to fill the vacancy on the council in District 4 and take possible action to fill the vacancy.” This statement was legally insufficient to notify members of the public that the Council actually planned to appoint someone to fill the unexpired portion of Mr. Co’s term at the September 24th meeting.

While the description provided by the agenda is permitted by the Brown Act to be “brief” and “general,” it must nevertheless give interested members of the public functional notice of the action the Council will take at the meeting. A description that is “inadequate to show the whole scope of the [Council’s] intended plans” is unlawful. (*Carlson v. Paradise Unified Sch. Dist.* (1971) 18 Cal.App.3d 196, 200 [applying analogous provision of Education Code].) In particular, when multiple decisions relate to the same topic, each item involving a “separate action or determination” by the Council must “be expressly disclosed on the agenda.” (*San Joaquin Raptor Rescue Center v. County of Merced* (2013) 216 Cal.App.4th 1167, 1176.) Whether the Council should fill the vacancy in the 4th District seat by appointment or by special

---

the meeting (but which the Mayor refused to show Mr. Stewart), which was quite likely a copy of what she read from in proposing to appoint Dr. Gutierrez to the Council and which undoubtedly was what led Mr. Owings to invite Ms. Baca to “read the motion.” The failure of Councilmembers Baca and Owings to make that document publicly available may well have constituted a violation of the Brown Act, in and of itself. (See Gov. Code, § 54957.5, subds. (b) & (c).)

election is an entirely distinct decision from the issue of what particular person should be appointed to the position, and both topics must be separately noticed on the agenda.

The term “take possible action to fill the vacancy” in no way satisfied Government Code section 54954.2’s disclosure requirement. The agenda’s phrasing was entirely too vague to give the public meaningful notice that the Council might actually vote to appoint a specific individual to the City Council on September 24, much less to notify residents that Dr. Gutierrez was a candidate for such appointment. The agenda suggests, at most, an intent to discuss and vote on the *procedures* for making a “potential” appointment if the Council were to decide to go that route rather than to hold an election. This inference is strengthened by the placement of this item in the “Reports” section of the agenda, rather than under “Legislative Actions” — thereby suggesting that no actual *action* would be taken at the meeting — and by the Council’s past practice, as described by Mr. Stewart, of inviting applicants and publicly debating their qualifications before voting on an appointment. In view of these facts and giving the agenda a common sense reading, “the agenda was not an adequate specification or description of the business that was transacted at the [September 24th] meeting.” (*Moreno v. City of King* (2005) 127 Cal.App.4th 17, 26 [holding that agenda item stating “public employee (employment contract)” was inadequate to notify public of discussion of dismissal of a public employee].)<sup>3</sup>

(3) *The Council failed to allow any opportunity for public comment on Dr. Gutierrez’s appointment.* Although the Council purported to permit the public to comment on the agenda item relating to filling the vacancy in Council District 4, the only meaningful public comment that was actually allowed related solely to the question of whether the seat should be filled by an appointment or by an election. Due to the way in which the agenda combined the two separate issues into a single agenda item, there was *absolutely no opportunity for public comment* on the critical issue of whether the Council should appoint *Dr. Gutierrez* or someone else to fill the vacant seat representing District 4. By failing to permit any meaningful public comment on *Dr. Gutierrez’s* appointment, the Council violated Government Code section 54954.3, which requires “an opportunity for members of the public to directly address the legislative body on any item of interest to the public, *before or during the legislative body’s consideration of the item*, that is within the subject matter jurisdiction of the legislative body.” (Emphasis added.)

---

<sup>3</sup>It is no surprise, then, that given the inadequate notice of this issue in the agenda, not a single member of the public spoke to the qualifications of any particular individual for appointment to fill Mr. Co’s unexpired term. Rather, *all of the public comment* addressed the predicate issue of whether the Council should fill the 4th District vacancy by appointment or by an election. Indeed, as noted in the following paragraphs, the agenda and handling of this item by the Council was structured in a manner that *rendered it impossible* for any member of the public to provide — and for any Council member to receive — *any input whatsoever* regarding the qualifications of *Dr. Gutierrez* for appointment to the Council — an independent violation of the Brown Act pursuant to Government Code section 54954.3.

The only opportunity that the Council provided for the public to comment on the District 4 vacancy issue occurred before the meeting attendees had any reason to believe that the Council would act on an appointment that evening, much less that it would appoint Dr. Gutierrez to the seat. The only material included with the agenda for this item was the City Attorney's report, which focused entirely on the procedural options available to the Council — that is, whether to fill the vacancy by appointment or by calling a special election. Before this item was called and opened up for public comment, neither the Mayor nor any of the other council members (including those who clearly intended to move for and to vote for Dr. Gutierrez's appointment at this meeting) gave any indication that the ensuing Council deliberations or action might encompass the appointment of a particular individual to the District 4 seat. And the agenda, as discussed above, likewise failed to refer to any specific candidates or even to disclose that the Council might proceed to make an appointment that night without first at least inviting applicants to express their interest in being considered to fill the vacancy created by Mr. Co's resignation.

It was only after the public comment session on this agenda item had been closed that Councilmember Baca made her motion to appoint Dr. Gutierrez to fill the vacancy, the first inkling that any member of the public could possibly have had that the Council was considering taking such an action. And rather than re-opening the public comment session at that point so that the citizens of Moreno Valley could express their views, opinions, and questions regarding this sudden turn of events, Mayor Owings instead immediately "called for the question" on Ms. Baca's motion, squelching any opportunity for public discussion and only grudgingly allowing *even Councilmember Stewart* to speak on the matter. Thus, none of the citizens who attended the Council meeting had any occasion to address Dr. Gutierrez's qualifications for office *before or during* the Council's consideration of his appointment, because at the time they were permitted to speak, they could not have had any knowledge of his existence as a candidate for appointment to the District 4 Council seat.

Government Code section 54954.3 requires "an opportunity for public comment on *each specific agenda item* as it is taken up by the body." (*Galbiso v. Orosi Public Utility Dist.* (2008) 167 Cal.App.4th 1063, 1079 [emphasis added].) As discussed above, the procedural issue of whether to proceed by appointment or special election is distinct from the question of whom should actually be appointed to fill the vacant District 4 seat. An opportunity for public comment was required to be provided *after* the identity of Dr. Gutierrez as a candidate for appointment was revealed by the Council. Only by providing such an opportunity could the citizens of Moreno Valley exercise their right under section 54954.3 "to directly address the legislative body on any item of interest to the public, *before or during the legislative body's consideration of the item,*" and only after providing such an opportunity for public comment could the Council legally vote on Ms. Baca's motion to appoint Dr. Gutierrez to fill the District 4 seat on the Council.

Violation of Government Code Section 34882

The City Council's action in appointing Dr. Gutierrez to fill the unexpired term of Mr. Co for the District 4 seat on the Council must be rescinded for an independent substantive reason: Dr. Gutierrez does not reside within the boundaries of District 4 as the District was constituted when Mr. Co was elected and as it exists for purposes of filling the vacancy in his unexpired term of office. Consequently, Dr. Gutierrez was not eligible to be appointed to fill the vacancy in that office and he continues to be ineligible to serve as a member of the City Council representing District 4 pursuant to Government Code section 34882.

As you are undoubtedly aware, the dispute regarding Dr. Gutierrez's eligibility to hold office stems from the circumstance that in 2011, subsequent to Mr. Co's election in 2010 for a four-year term of office representing District 4, the city council boundary lines were redrawn. Dr. Gutierrez resides in and is registered to vote at an address that was *not* within District 4 at the time Mr. Co was elected to office (the "old" boundary lines), but which *is* within District 4 under the redistricted boundaries (the "new" boundary lines). The critical issue is whether, for the purpose of filling a vacancy in the unexpired term to which Mr. Co was elected, the "old" or the "new" boundary lines apply in determining who resides in District 4.

Not surprisingly, this is not the first time that this issue has arisen in California. Indeed, the issue arises with some regularity following every decennial redistricting for Congressional and state legislative offices, when inevitably — as a result of the resignation, death, or recall of the incumbent officer — an election must be held to fill the vacancy in an office whose boundary lines were redistricted subsequent to the previous incumbent's election but prior to the expiration of the office's term. Earlier this year, for example, special elections were held to fill vacancies created by the resignations of the incumbent officeholders in State Senate Districts 26 and 32, for terms that began in December 2010 and were not due to expire until December 2014, but whose boundary lines had been changed as a result of the 2011 statewide redistricting statute.

The established law in California is that under these circumstances, *the old district boundary lines* are to be used to fill the vacancy in the unexpired term of office, and thus *only those individuals who reside in the district as it was constituted at the time of the former incumbent's election are eligible to vote in an election to fill the vacancy or to be appointed to hold the office for the remainder of the unexpired term*. The leading case is the California Supreme Court's decision in *Sloan v. Donoghue* (1942) 20 Cal.2d 607. In that case, Lee Geyer had been elected to Congress to represent the 17th Congressional District in November 1940. Geyer died in October 1941, creating a vacancy in the office for the remainder of his unexpired term, through December 1942. Between Geyer's election and death, however, the Legislature redistricted the boundaries of the 17th Congressional District. The Governor called for a special election to fill the vacancy using the boundary lines of the 17th Congressional District *as it existed when Geyer was elected* in 1940. The Supreme Court unanimously held that this was the proper district to use for the special election.

The question considered by the Court in *Sloan v. Donoghue* is identical to that presented by the current circumstances in Moreno Valley: “The issue presented by this proceeding is whether the election was properly proclaimed to be held in the 17th Congressional District as it existed when Geyer was elected [o]r, conversely, should the election have been proclaimed to be held in the enlarged district as it existed when the governor issued his proclamation.” (20 Cal.2d at p. 609.) The Court’s unequivocal answer is equally applicable here: “We are satisfied that under the circumstances of this case the proclamation of the governor properly called for the election to be held in the old district.” (*Ibid.*)

The Court in *Sloan* noted that “it is not the first time the problem has arisen in this state,” that “similar problems have arisen with the adoption of each Apportionment Act by the Legislature,” and that the Attorney General’s office “uniformly has advised that the special election should be held in the old district,” citing five such prior opinions so holding. (*Id.*, p. 611.) The Supreme Court also observed that its ruling was consistent with established law elsewhere, citing both *McCrary on Elections* [“The true rule, therefore, must be that a district once created, and having elected a Representative in Congress, should be allowed to continue *intact* for the purpose of filling any vacancy which may occur, until the end of the Congress in which it is represented.”] and *Corpus Juris* [“If after a congressional election the state is redistricted and a vacancy then occurs, such vacancy should be filled by the suffrage of the electors of the old district and not by that of the electors of the new district.”]. (20 Cal.2d at pp. 609-610.)<sup>4</sup>

The Supreme Court applied the same ruling to vacancies that occur in state legislative offices in *Legislature v. Reinecke* (1973) 10 Cal.3d 396. In that case, the Court considered whether elections for State Senate had to be held in all Senate districts after a decennial census and delayed reapportionment, or only in the 20 new even-numbered districts that were normally scheduled for that year. Citing *Sloan v. Donoghue* (among other cases), the Court held that “those senators elected from odd-numbered districts in 1972 are entitled to serve four-year terms or until after the 1976 general election, and *if vacancies occur in their offices they will be filled by elections in the districts in effect in 1972.*” (10 Cal.3d at p. 404 [emphasis added].) The Court in *Reinecke* fully recognized that “to give continuing effect to the old odd-numbered districts for the purpose of allowing the incumbents therein to serve their full terms and for the purpose of filling any vacancies in such districts” would result in some voters having to wait six

---

<sup>4</sup>Significantly, the Court held that the old district boundaries should be used for the purpose of filling the vacancy in office even while acknowledging that those boundaries had expressly been repealed and replaced by new boundary lines under the intervening 2011 Apportionment Act. (*Id.*, p. 608.) The Court nevertheless ruled that “the only practical and sound conclusion is that regardless of the repeal of the act creating and delineating the old district, the special election to fill the vacancy now existing should be held in the old district.” (*Id.*, p. 612 [citation omitted].)

years between senatorial elections and “be[ing] represented by no senator in whose election they could participate for two years following reapportionment” (*id.*, p. 405) — the same circumstance that Dr. Gutierrez apparently finds himself in with respect to Moreno Valley City Council elections following the 2011 redistricting. But the Supreme Court found that this result was merely “the inevitable byproduct of reapportioning a legislative body whose members are elected for staggered four-year terms.” (*Ibid.*)

In conformance with the Supreme Court’s decisions in *Sloan v. Donoghue* and *Legislature v. Reinecke*, the California Secretary of State — the state’s chief elections official — issued a directive to all county clerks and registrars of voters on August 15, 2011, instructing them that although the newly drawn boundaries adopted by the Citizens Redistricting Commission in August 2011 are effective and should be used beginning with the June 2012 Presidential Primary election, “it is critical that you preserve the current maps and other data necessary to hold an election using the current district lines” because for “any recall election involving a member of the Legislature or Board of Equalization, or a special vacancy election to fill a legislative vacancy, the existing (in this case, the 2001) — not the proposed — district lines would be used for that election.” (Memorandum from Jana M. Lean, Chief, Elections Division, California Secretary of State’s Office to All County Clerks/Registrars of Voters, dated Aug. 15, 2011 [emphasis in original] [citations omitted].)<sup>5</sup>

In sum, *it is beyond dispute* that California law requires that elections to fill vacancies in unexpired terms be held in the “old” electoral districts, not the new districts that would be applicable in the next general election following redistricting. (See, e.g., *Gaona v. Anderson* (9th Cir. 1993) 989 F.2d 299, 301 [Secretary of State’s and county registrars’ decision to hold special election to fill vacancy using the boundaries of the “old” state senate district instead of the newly configured district following reapportionment “was based on established California law”].) Indeed, just as the special elections held earlier this year to fill the vacancies in State Senate Districts 26 and 32 were conducted using the old, pre-2011-redistricting boundaries for those districts, if the Riverside County Registrar of Voters were to conduct a special election to fill the vacancy in the District 4 Council seat for Mr. Co’s unexpired term, the Registrar would be compelled under California law to use the city council district boundaries for District 4 as they existed when Mr. Co was elected, prior to the 2011 redrawing of those district lines. And because Dr. Gutierrez would not be eligible to *vote* in that election, he is likewise ineligible to be *appointed* to fill the vacancy for that office under Government Code section 34882.

For the reasons set forth above, the City Council’s action in appointing Dr. Gutierrez to fill the unexpired term of office for the District 4 Council seat resulting from Mr. Co’s resignation was manifestly illegal. We thereby demand that the Council immediately rescind its unlawful action and instead call for a special election to be held as soon as legally possible to fill

County Clerk/Registrar of Voters (CC/ROV) Memorandum # 11062

TO: All County Clerks/Registrars of Voters

FROM:

  
Jana M. Lean  
Chief, Elections Division

RE: Redistricting Maps: 2011 Congressional, Legislative, and BOE Districts

Today, August 15, 2011, the Citizens Redistricting Commission (CRC) certified the final maps for the Congressional, Legislative, and Board of Equalization districts to the Secretary of State.

We will be placing the certified final maps in equivalency and shape file formats (CDF, DBF, and SHP) in your county's CalVoter in-box. For your convenience, we have also provided a statewide jurisdiction table outlining the districts within each county.

Please promptly begin preparing your precincts with the new lines for the upcoming June 5, 2012, Presidential Primary Election. However, it is critical that you preserve the current maps and other data necessary to hold an election using the current district lines, should those lines be required for use in the event of a special election, a recall election, a court order, or should a referendum challenging one or more of the CRC maps qualify for the ballot.

Pursuant to previous court decisions, any recall election involving a member of the Legislature or Board of Equalization, or a special vacancy election to fill a legislative vacancy, the existing (in this case, the 2001) – not the proposed – district lines would be used for that election. (See *Gaona v. Anderson* (9th Cir. 1993) 989 F.2d 299; and *Sloan v. Donoghue* (1942) 20 Cal.2d 607.)

Under California Constitution article XXI, section (3)(b), a registered voter is permitted to file a challenge in the California Supreme Court to the CRC maps within 45 days after they have been certified by the CRC. The 45-day period ends on September 29, 2011.

Each certified map is also subject to referendum. Pursuant to California Constitution article XXI, section 2(i), any voter may file a referendum petition on any map or portion

CCROV # 11062  
August 15, 2011  
Page 2

of a map within 90 days of the final certification of the maps. The 90-day period to request a title and summary from the California Attorney General and collect the requisite signatures for filing with county elections officials ends on November 13, 2011.

If you have any questions regarding the CalVoter transmission of the final certified maps, please contact the CalVoter Help Desk at (888) 868-3225. For other non-CalVoter related questions, please contact Diane Hinkle at [REDACTED]

Re: Demand to Cure Violations of the Ralph M. Brown Act and  
Government Code Section 34882

Dear City Councilmembers Owings, Molina, Baca, and Stewart:

On behalf of Basil Kimbrew, Radine Ramos Hiers, Deanna Reader, and numerous other Moreno Valley voters represented by our office, we write to demand that the City Council of Moreno Valley (the "Council") take immediate action to cure and correct the violations of the Ralph M. Brown Act, Government Code section 54950 et seq. (the "Brown Act"), and the California Elections and Government Code committed by members of the Council on and around September 24, 2013. The Council's abrupt and evidently predetermined appointment of Yxstian Gutierrez to complete the unexpired term of office of former councilmember Marcelo Co was accomplished without adequate public notice and without any meaningful opportunity for public comment; indeed, there was not even any opportunity provided for the Council itself to deliberate on Dr. Gutierrez's unexpected appointment. By its conduct, the Council majority demonstrated a disturbing contempt for democratic participation in a community already plagued by distrust of its public officials.

The Council's action in appointing Dr. Gutierrez to the city council violated both the spirit and the letter of the Brown Act, California's open meetings law. The Brown Act is intended "to facilitate public participation in local government decisions and to curb misuse of democratic process by secret legislation by public bodies." (*Cohan v. City of Thousand Oaks* (1994) 30 Cal.App.4th 547, 555.) These protections are founded on the precept that "[t]he people, in delegating authority, do not give their public servants the right to decide what is good for the people to know and what is not good for them to know. The people insist on remaining informed so that they may retain control over the instruments they have created." (Gov. Code, § 54950.) The Council majority's handling of the appointment of Dr. Gutierrez to fill the vacancy in the District 4 seat made a mockery of these fundamental principles of democracy.

Moreover, it has come to light that Dr. Gutierrez does not live in the council district from which Mr. Co was elected and whose unexpired term he was appointed to fill. Accordingly, under established California law, Dr. Gutierrez was ineligible to be appointed to that office or to continue to hold the position of Council representative for District 4. If his appointment is not rescinded, every action that the Council takes with his participation will be of questionable legality, and judicial action will be necessary to compel his removal from office.

We therefore request, pursuant to Government Code sections 54960.1 and 34882, that the City Council immediately take action to remedy its illegal conduct. Specifically, the Council must rescind its unlawful appointment of Dr. Gutierrez and address the vacancy on the Council through a properly noticed, open public meeting that permits full public discussion and council deliberation of this important issue and that results in a decision that conforms with all applicable provisions of law.

#### Violations of the Brown Act

(1) *A majority of the Council engaged in an unlawful secret meeting to discuss appointing a replacement for Mr. Co.* The cornerstone of the Brown Act is its requirement that meetings of legislative bodies to discuss public business must be properly noticed and, with narrow exceptions not relevant here, open to the public. It is therefore illegal for a majority of the members of the Council, outside of a properly noticed public meeting, to “use a series of communications of any kind, directly or through intermediaries, to discuss, deliberate, or take action on any item of business that is within the subject matter jurisdiction of the legislative body.” (Gov. Code, § 54952.2, subd. (b)(1).) Our clients are aware of at least two nonpublic communications that occurred between councilmembers concerning whether to appoint someone to fill the District 4 seat left vacant by Mr. Co’s resignation. Together, these conversations constituted an unlawful secret meeting by a majority of the members of the City Council in violation of the Brown Act.

The issue of whether to appoint someone or, alternatively, to hold a special election to fill former Councilmember Co’s 4th District seat is indisputably an item of public business within the Council’s jurisdiction. Indeed, this precise issue was agendized for discussion at the September 24, 2013, Council meeting. Prior to the council meeting, however, Mayor Owings contacted Councilmember Stewart to express his preference for appointing someone to fill the unexpired portion of Mr. Co’s term. During the Council’s abbreviated discussion of this issue, Councilmember Stewart explicitly referred to this communication with Mr. Owings, and he subsequently elaborated on the contents of his conversation with Mr. Owings in a newspaper article later that week. (See S. Hurt, “Moreno Valley: Naming of Councilman May Have Violated Law, Expert Says,” *Riverside Press-Enterprise* (Sept. 27, 2013).)

Mr. Owings also evidently engaged in pre-meeting deliberations with Councilmember

Baca regarding the same issue. The two discussed not only the proposal to fill Mr. Co's seat by appointment rather than to hold an election, but apparently went so far as to agree on the appointment of Dr. Gutierrez. The September 24th Council meeting includes the following exchange between Mr. Owings and Ms. Baca, which makes their pre-meeting collusion unmistakable:

Mr. Owings: "... This council should exercise its ... State of California constitutional authority and make the decision to fill this vacancy. So I would entertain a motion."

Ms. Baca: "I would like to use the first option, which is to appoint someone to serve out the remainder of the unexpired term until December 8th – I'm sorry, 9th – 2014. ... So moved."

Mr. Owings: "Let's just do one motion. Do you have someone in mind?"

Ms. Baca: "I do."

Mr. Owings: "All right, let's read the motion and let's get – let's just put it out."

As the *Riverside Press-Enterprise* observed in its editorial lambasting the City Council the next day, "unless council members have suddenly developed telepathic powers, the majority had to have conferred on the issue and settled on a choice in private before the meeting." For example, Mr. Owings could not possibly have known that Ms. Baca had "someone in mind" for the appointment to fill Mr. Co's unexpired term had they not previously discussed the matter.<sup>1</sup> Mr. Owings' previous comments had related only to whether the Council should exercise its authority to fill the seat by appointment rather than election, and Ms. Baca's initial motion responded only to that narrow issue. As Mr. Stewart observed, the Council's past practice had been to invite applicants and to publicly interview them before making appointments to city positions. Particularly in light of that history, nothing in Ms. Baca's suggestion to "use the first option, which is to appoint someone," implied that she also had a specific candidate in mind for the appointment that evening. Yet Mr. Owings not only was somehow aware that Councilmember Baca was ready to appoint a particular person at that time, but he expressed no surprise, made no comment, and displayed no visible reaction when she announced who that person was. Instead, Mayor Owings — somehow knowing that Dr. Gutierrez just happened to be present at the council meeting that night — asked Ms. Baca to amend her motion to have him sworn in immediately, even somehow divining that Dr. Gutierrez had prepared and wanted to

---

<sup>1</sup>Indeed, Ms. Baca acknowledged to the press that she had introduced Dr. Gutierrez to Mayor Owings in a meeting between the three of them the weekend before the City Council's vote on September 24th, but claimed — incredibly — that they did not discuss his possible appointment. (S. Hurt, "Moreno Valley: Naming of Councilman May Have Violated Law, Expert Says," *Riverside Press-Enterprise* (Sept. 27, 2013).)

deliver a written "acceptance speech" following his swearing-in ceremony.<sup>2</sup>

The conversation between Mr. Owing and Mr. Stewart, together with the communications between Mr. Owing and Ms. Baca, comprise serial meetings involving three members of the Council – a majority – to discuss whether the Council would exercise its statutory authority to fill the vacant District 4 Council seat by appointment or would instead call a special election to let the voters of the District decide who their representative should be. It is immaterial whether or not Mr. Stewart actually reached a consensus with Mr. Owing and Ms. Baca to proceed with the appointment of Dr. Gutierrez: the Brown Act prohibits *secret deliberation and discussion*, regardless of whether such communications result in an agreement to take specified action. (*Frazer v. Dixon Unified School Dist.* (1993) 18 Cal.App.4th 781, 796; see also 84 Cal. Ops. Atty. Gen. 30, at \*2.) It was unlawful under the Brown Act to discuss this matter *at all* outside of a noticed public meeting, and the secret serial discussions, spearheaded by Mr. Owings and including a majority of council members, renders the resulting action taken by the Council unlawful.

(2) *The council's action to appoint Dr. Gutierrez was not adequately noticed on the meeting agenda.* The Brown Act requires every legislative body, at least 72 hours in advance of its regular meeting, to "post an agenda containing a brief general description of each item of business to be transacted or discussed at the meeting." (Gov. Code § 54954.2, subd. (a).) "No action or discussion shall be undertaken on any item not appearing on the posted agenda." (*Id.*, subd. (b).) The agenda for the Council's September 24, 2013, meeting stated only that the council would "consider the procedural options to fill the vacancy on the council in District 4 and take possible action to fill the vacancy." This statement was legally insufficient to notify members of the public that the Council actually planned to appoint someone to fill the unexpired portion of Mr. Co's term at the September 24th meeting.

While the description provided by the agenda is permitted by the Brown Act to be "brief" and "general," it must nevertheless give interested members of the public functional notice of the action the Council will take at the meeting. A description that is "inadequate to show the whole scope of the [Council's] intended plans" is unlawful. (*Carlson v. Paradise Unified Sch. Dist.*

---

<sup>2</sup>We are confident that discovery will reveal the full extent of the pre-meeting secret collaboration among members of the council regarding this issue. For example, Councilmember Stewart indicated at the meeting that he had seen Ms. Baca give Mr. Owings a document prior to the meeting (but which the Mayor refused to show Mr. Stewart), which was quite likely a copy of what she read from in proposing to appoint Dr. Gutierrez to the Council and which undoubtedly was what led Mr. Owings to invite Ms. Baca to "read the motion." The failure of Councilmembers Baca and Owings to make that document publicly available may well have constituted a violation of the Brown Act, in and of itself. (See Gov. Code, § 54957.5, subds. (b) & (c).)

(1971) 18 Cal.App.3d 196, 200 [applying analogous provision of Education Code].) In particular, when multiple decisions relate to the same topic, each item involving a “separate action or determination” by the Council must “be expressly disclosed on the agenda.” (*San Joaquin Raptor Rescue Center v. County of Merced* (2013) 216 Cal.App.4th 1167, 1176.) Whether the Council should fill the vacancy in the 4th District seat by appointment or by special election is an entirely distinct decision from the issue of what particular person should be appointed to the position, and both topics must be separately noticed on the agenda.

The term “take possible action to fill the vacancy” in no way satisfied Government Code section 54954.2’s disclosure requirement. The agenda’s phrasing was entirely too vague to give the public meaningful notice that the Council might actually vote to appoint a specific individual to the City Council on September 24, much less to notify residents that Dr. Gutierrez was a candidate for such appointment. The agenda suggests, at most, an intent to discuss and vote on the *procedures* for making a “potential” appointment if the Council were to decide to go that route rather than to hold an election. This inference is strengthened by the placement of this item in the “Reports” section of the agenda, rather than under “Legislative Actions” — thereby suggesting that no actual *action* would be taken at the meeting — and by the Council’s past practice, as described by Mr. Stewart, of inviting applicants and publicly debating their qualifications before voting on an appointment. In view of these facts and giving the agenda a common sense reading, “the agenda was not an adequate specification or description of the business that was transacted at the [September 24th] meeting.” (*Moreno v. City of King* (2005) 127 Cal.App.4th 17, 26 [holding that agenda item stating “public employee (employment contract)” was inadequate to notify public of discussion of dismissal of a public employee].)<sup>3</sup>

(3) *The Council failed to allow any opportunity for public comment on Dr. Gutierrez’s appointment.* Although the Council purported to permit the public to comment on the agenda item relating to filling the vacancy in Council District 4, the only meaningful public comment that was actually allowed related solely to the question of whether the seat should be filled by an appointment or by an election. Due to the way in which the agenda combined the two separate issues into a single agenda item, there was *absolutely no opportunity for public comment* on the critical issue of whether the Council should appoint *Dr. Gutierrez* or someone else to fill the

---

<sup>3</sup>It is no surprise, then, that given the inadequate notice of this issue in the agenda, not a single member of the public spoke to the qualifications of any particular individual for appointment to fill Mr. Co’s unexpired term. Rather, *all of the public comment* addressed the predicate issue of whether the Council should fill the 4th District vacancy by appointment or by an election. Indeed, as noted in the following paragraphs, the agenda and handling of this item by the Council was structured in a manner that *rendered it impossible* for any member of the public to provide — and for any Council member to receive — *any input whatsoever* regarding the qualifications of Dr. Gutierrez for appointment to the Council — an independent violation of the Brown Act pursuant to Government Code section 54954.3.

vacant seat representing District 4. By failing to permit any meaningful public comment on Dr. Gutierrez's appointment, the Council violated Government Code section 54954.3, which requires "an opportunity for members of the public to directly address the legislative body on any item of interest to the public, *before or during the legislative body's consideration of the item*, that is within the subject matter jurisdiction of the legislative body." (Emphasis added.)

The only opportunity that the Council provided for the public to comment on the District 4 vacancy issue occurred before the meeting attendees had any reason to believe that the Council would act on an appointment that evening, much less that it would appoint Dr. Gutierrez to the seat. The only material included with the agenda for this item was the City Attorney's report, which focused entirely on the procedural options available to the Council — that is, whether to fill the vacancy by appointment or by calling a special election. Before this item was called and opened up for public comment, neither the Mayor nor any of the other council members (including those who clearly intended to move for and to vote for Dr. Gutierrez's appointment at this meeting) gave any indication that the ensuing Council deliberations or action might encompass the appointment of a particular individual to the District 4 seat. And the agenda, as discussed above, likewise failed to refer to any specific candidates or even to disclose that the Council might proceed to make an appointment that night without first at least inviting applicants to express their interest in being considered to fill the vacancy created by Mr. Co's resignation.

It was only after the public comment session on this agenda item had been closed that Councilmember Baca made her motion to appoint Dr. Gutierrez to fill the vacancy, the first inkling that any member of the public could possibly have had that the Council was considering taking such an action. And rather than re-opening the public comment session at that point so that the citizens of Moreno Valley could express their views, opinions, and questions regarding this sudden turn of events, Mayor Owings instead immediately "called for the question" on Ms. Baca's motion, squelching any opportunity for public discussion and only grudgingly allowing *even Councilmember Stewart* to speak on the matter. Thus, none of the citizens who attended the Council meeting had any occasion to address Dr. Gutierrez's qualifications for office *before or during* the Council's consideration of his appointment, because at the time they were permitted to speak, they could not have had any knowledge of his existence as a candidate for appointment to the District 4 Council seat.

Government Code section 54954.3 requires "an opportunity for public comment on *each specific agenda item* as it is taken up by the body." (*Galbiso v. Orosi Public Utility Dist.* (2008) 167 Cal.App.4th 1063, 1079 [emphasis added].) As discussed above, the procedural issue of whether to proceed by appointment or special election is distinct from the question of whom should actually be appointed to fill the vacant District 4 seat. An opportunity for public comment was required to be provided *after* the identity of Dr. Gutierrez as a candidate for appointment was revealed by the Council. Only by providing such an opportunity could the citizens of Moreno Valley exercise their right under section 54954.3 "to directly address the legislative body on any

item of interest to the public, *before or during the legislative body's consideration of the item,* and only after providing such an opportunity for public comment could the Council legally vote on Ms. Baca's motion to appoint Dr. Gutierrez to fill the District 4 seat on the Council.

Violation of Government Code Section 34882

The City Council's action in appointing Dr. Gutierrez to fill the unexpired term of Mr. Co for the District 4 seat on the Council must be rescinded for an independent substantive reason: Dr. Gutierrez does not reside within the boundaries of District 4 as the District was constituted when Mr. Co was elected and as it exists for purposes of filling the vacancy in his unexpired term of office. Consequently, Dr. Gutierrez was not eligible to be appointed to fill the vacancy in that office and he continues to be ineligible to serve as a member of the City Council representing District 4 pursuant to Government Code section 34882.

As you are undoubtedly aware, the dispute regarding Dr. Gutierrez's eligibility to hold office stems from the circumstance that in 2011, subsequent to Mr. Co's election in 2010 for a four-year term of office representing District 4, the city council boundary lines were redrawn. Dr. Gutierrez resides in and is registered to vote at an address that was *not* within District 4 at the time Mr. Co was elected to office (the "old" boundary lines), but which *is* within District 4 under the redistricted boundaries (the "new" boundary lines). The critical issue is whether, for the purpose of filling a vacancy in the unexpired term to which Mr. Co was elected, the "old" or the "new" boundary lines apply in determining who resides in District 4.

Not surprisingly, this is not the first time that this issue has arisen in California. Indeed, the issue arises with some regularity following every decennial redistricting for Congressional and state legislative offices, when inevitably — as a result of the resignation, death, or recall of the incumbent officer — an election must be held to fill the vacancy in an office whose boundary lines were redistricted subsequent to the previous incumbent's election but prior to the expiration of the office's term. Earlier this year, for example, special elections were held to fill vacancies created by the resignations of the incumbent officeholders in State Senate Districts 26 and 32, for terms that began in December 2010 and were not due to expire until December 2014, but whose boundary lines had been changed as a result of the 2011 statewide redistricting statute.

The established law in California is that under these circumstances, *the old district boundary lines* are to be used to fill the vacancy in the unexpired term of office, and thus *only those individuals who reside in the district as it was constituted at the time of the former incumbent's election are eligible to vote in an election to fill the vacancy or to be appointed to hold the office for the remainder of the unexpired term.* The leading case is the California Supreme Court's decision in *Sloan v. Donoghue* (1942) 20 Cal.2d 607. In that case, Lee Geyer had been elected to Congress to represent the 17th Congressional District in November 1940. Geyer died in October 1941, creating a vacancy in the office for the remainder of his unexpired term, through December 1942. Between Geyer's election and death, however, the Legislature

redistricted the boundaries of the 17th Congressional District. The Governor called for a special election to fill the vacancy using the boundary lines of the 17th Congressional District *as it existed when Geyer was elected* in 1940. The Supreme Court unanimously held that this was the proper district to use for the special election.

The question considered by the Court in *Sloan v. Donoghue* is identical to that presented by the current circumstances in Moreno Valley: “The issue presented by this proceeding is whether the election was properly proclaimed to be held in the 17th Congressional District as it existed when Geyer was elected [o]r, conversely, should the election have been proclaimed to be held in the enlarged district as it existed when the governor issued his proclamation.” (20 Cal.2d at p. 609.) The Court’s unequivocal answer is equally applicable here: “We are satisfied that under the circumstances of this case the proclamation of the governor properly called for the election to be held in the old district.” (*Ibid.*)

The Court in *Sloan* noted that “it is not the first time the problem has arisen in this state,” that “similar problems have arisen with the adoption of each Apportionment Act by the Legislature,” and that the Attorney General’s office “uniformly has advised that the special election should be held in the old district,” citing five such prior opinions so holding. (*Id.*, p. 611.) The Supreme Court also observed that its ruling was consistent with established law elsewhere, citing both *McCrary on Elections* [“The true rule, therefore, must be that a district once created, and having elected a Representative in Congress, should be allowed to continue *intact* for the purpose of filling any vacancy which may occur, until the end of the Congress in which it is represented.”] and *Corpus Juris* [“If after a congressional election the state is redistricted and a vacancy then occurs, such vacancy should be filled by the suffrage of the electors of the old district and not by that of the electors of the new district.”]. (20 Cal.2d at pp. 609-610.)<sup>4</sup>

The Supreme Court applied the same ruling to vacancies that occur in state legislative offices in *Legislature v. Reinecke* (1973) 10 Cal.3d 396. In that case, the Court considered whether elections for State Senate had to be held in all Senate districts after a decennial census and delayed reapportionment, or only in the 20 new even-numbered districts that were normally scheduled for that year. Citing *Sloan v. Donoghue* (among other cases), the Court held that “those senators elected from odd-numbered districts in 1972 are entitled to serve four-year terms

---

<sup>4</sup>Significantly, the Court held that the old district boundaries should be used for the purpose of filling the vacancy in office even while acknowledging that those boundaries had expressly been repealed and replaced by new boundary lines under the intervening 2011 Apportionment Act. (*Id.*, p. 608.) The Court nevertheless ruled that “the only practical and sound conclusion is that regardless of the repeal of the act creating and delineating the old district, the special election to fill the vacancy now existing should be held in the old district.” (*Id.*, p. 612 [citation omitted].)

or until after the 1976 general election, and *if vacancies occur in their offices they will be filled by elections in the districts in effect in 1972.*" (10 Cal.3d at p. 404 [emphasis added].) The Court in *Reinecke* fully recognized that "to give continuing effect to the old odd-numbered districts for the purpose of allowing the incumbents therein to serve their full terms and for the purpose of filling any vacancies in such districts" would result in some voters having to wait six years between senatorial elections and "be[ing] represented by no senator in whose election they could participate for two years following reapportionment" (*id.*, p. 405) — the same circumstance that Dr. Gutierrez apparently finds himself in with respect to Moreno Valley City Council elections following the 2011 redistricting. But the Supreme Court found that this result was merely "the inevitable byproduct of reapportioning a legislative body whose members are elected for staggered four-year terms." (*Ibid.*)

In conformance with the Supreme Court's decisions in *Sloan v. Donoghue* and *Legislature v. Reinecke*, the California Secretary of State — the state's chief elections official — issued a directive to all county clerks and registrars of voters on August 15, 2011, instructing them that although the newly drawn boundaries adopted by the Citizens Redistricting Commission in August 2011 are effective and should be used beginning with the June 2012 Presidential Primary election, "it is critical that you preserve the current maps and other data necessary to hold an election using the current district lines" because for "any recall election involving a member of the Legislature or Board of Equalization, or a special vacancy election to fill a legislative vacancy, the existing (in this case, the 2001) — not the proposed — district lines would be used for that election." (Memorandum from Jana M. Lean, Chief, Elections Division, California Secretary of State's Office to All County Clerks/Registrars of Voters, dated Aug. 15, 2011 [emphasis in original] [citations omitted].)<sup>5</sup>

In sum, *it is beyond dispute* that California law requires that elections to fill vacancies in unexpired terms be held in the "old" electoral districts, not the new districts that would be applicable in the next general election following redistricting. (See, e.g., *Gaona v. Anderson* (9th Cir. 1993) 989 F.2d 299, 301 [Secretary of State's and county registrars' decision to hold special election to fill vacancy using the boundaries of the "old" state senate district instead of the newly configured district following reapportionment "was based on established California law"].) Indeed, just as the special elections held earlier this year to fill the vacancies in State Senate Districts 26 and 32 were conducted using the old, pre-2011-redistricting boundaries for those districts, if the Riverside County Registrar of Voters were to conduct a special election to fill the vacancy in the District 4 Council seat for Mr. Co's unexpired term, the Registrar would be compelled under California law to use the city council district boundaries for District 4 as they existed when Mr. Co was elected, prior to the 2011 redrawing of those district lines. And because Dr. Gutierrez would not be eligible to *vote* in that election, he is likewise ineligible to be *appointed* to fill the vacancy for that office under Government Code section 34882.

---

<sup>5</sup>A copy of the Secretary of State's August 15, 2011, directive is attached hereto.

Moreno Valley City Council  
October 4, 2013  
Page 10

For the reasons set forth above, the City Council's action in appointing Dr. Gutierrez to fill the unexpired term of office for the District 4 Council seat resulting from Mr. Co's resignation was manifestly illegal. We thereby demand that the Council immediately rescind its unlawful action and instead call for a special election to be held as soon as legally possible to fill the vacancy in the office of City Councilmember for Council District 4.

Sincerely,

Fredric D. Woocher

County Clerk/Registrar of Voters (CC/ROV) Memorandum # 11062

TO: All County Clerks/Registrars of Voters

FROM:

  
Jana M. Lean  
Chief, Elections Division

RE: Redistricting Maps: 2011 Congressional, Legislative, and BOE Districts

Today, August 15, 2011, the Citizens Redistricting Commission (CRC) certified the final maps for the Congressional, Legislative, and Board of Equalization districts to the Secretary of State.

We will be placing the certified final maps in equivalency and shape file formats (CDF, DBF, and SHP) in your county's CalVoter in-box. For your convenience, we have also provided a statewide jurisdiction table outlining the districts within each county.

Please promptly begin preparing your precincts with the new lines for the upcoming June 5, 2012, Presidential Primary Election. However, it is critical that you preserve the current maps and other data necessary to hold an election using the current district lines, should those lines be required for use in the event of a special election, a recall election, a court order, or should a referendum challenging one or more of the CRC maps qualify for the ballot.

Pursuant to previous court decisions, any recall election involving a member of the Legislature or Board of Equalization, or a special vacancy election to fill a legislative vacancy, the existing (in this case, the 2001) – not the proposed – district lines would be used for that election. (See *Gaona v. Anderson* (9th Cir. 1993) 989 F.2d 299; and *Sloan v. Donoghue* (1942) 20 Cal.2d 607.)

Under California Constitution article XXI, section (3)(b), a registered voter is permitted to file a challenge in the California Supreme Court to the CRC maps within 45 days after they have been certified by the CRC. The 45-day period ends on September 29, 2011.

Each certified map is also subject to referendum. Pursuant to California Constitution article XXI, section 2(i), any voter may file a referendum petition on any map or portion

CCROV # 11062  
August 15, 2011  
Page 2

of a map within 90 days of the final certification of the maps. The 90-day period to request a title and summary from the California Attorney General and collect the requisite signatures for filing with county elections officials ends on November 13, 2011.

If you have any questions regarding the CalVoter transmission of the final certified maps, please contact the CalVoter Help Desk at (888) 868-3225. For other non-CalVoter related questions, please contact Diane Hinkle at [REDACTED]

Dear Mayor,  
Thank you for being with us,  
Wann

Thank you for celebrating with us  
and we are grateful for your contributions.  
With your support, we look forward to  
25 more years of fulfilling our mission in  
building homes, communities and hope.

Sincerely, Riverside Habitat  
Team ♡

Re: Riverside Transit Agency *Forward 10-Year Transit Plan* Public Open Houses

Dear Mayor Owings:

On behalf of the Riverside Transit Agency (RTA), I would like to update you on the *RTA Forward 10-Year Transit Plan* and invite you to attend an upcoming public open house.

At RTA, our goal is to provide an efficient, well-performing transit system that responds to the demands of our continuously growing region. To make sure we meet this goal, we are preparing the *RTA Forward 10-Year Transit Plan*. This planning process includes a Comprehensive Operational Analysis (COA) and an extensive public involvement program to assess the changing transit needs of western Riverside County residents, workers, student, and visitors.

The *RTA Forward 10-Year Transit Plan* is focused on RTA's bus services. It will identify RTA's strengths and weaknesses as well as potential opportunities to improve service efficiency, cost effectiveness, and increase ridership. Through this effort, RTA will be able to better understand how well the existing transit system is performing, the demands of new and future customers and the key locations where customers wish to travel. Transit agencies across the U.S. typically conduct a comprehensive review of their services, like this one, every 5 - 10 years. RTA last conducted a similar study in 2007.

To learn more about the *RTA Forward 10-Year Transit Plan* and provide feedback on RTA's existing service and the region's future transit needs, I would like to invite you and your staff to attend one of the following **public open houses**:

- **Monday, Oct. 7, 2013, 4 to 7 p.m.**  
Mission Trail Library – Community Room  
34303 Mission Trail  
Wildomar, CA 92595
- **Wednesday, Oct. 9, 2013, 4 to 7 p.m.**  
San Jacinto Community Center – Cafeteria  
625 S. Pico Ave.  
San Jacinto, CA 92583

MV00230391

- **Thursday, Oct. 10, 2013, 4 to 7 p.m.**  
Cesar Chavez Community Center – Auditorium  
2060 University Ave.  
Riverside, CA 92507

If you have any questions or would like additional information about the *RTA Forward 10-Year Transit Plan*, please contact me at [REDACTED] or [grobinson@riversidetransit.com](mailto:grobinson@riversidetransit.com) or visit the project web site at [www.riversidetransit.tmdinc.net](http://www.riversidetransit.tmdinc.net).

I hope to hear from you at one of the open houses in October.

Best regards,

Gordon Robinson  
Director of Planning  
Riverside Transit Agency

Re: Request for Consideration of Modification of your Film and Television Ordinance

Dear Mayor Owings:

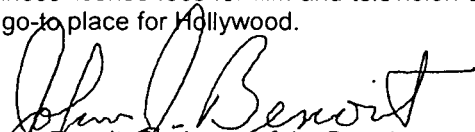

We are writing to encourage you and your city council to revise your film and television ordinance. As you may know, we recently revised our film and television ordinance in order to make Riverside County more attractive to international and domestic film and television production, and we'd like all the cities in Riverside County to join us in this effort.

What makes our film and television ordinance unique in California and appealing to this important industry? It was written with help from producers, directors, and executives from the industry. With input from Lee Fraser of Warner Brothers and the Canada California Business Council and Hollywood Studios International CEO Steve Saxton along with entertainment attorney Tom Ara, of Reed Smith, LLP, we have a new ordinance that offers great potential to bring film and TV production to Riverside County.

California has lost a tremendous amount of television and film business over the years. In fact, Riverside County could have been the host of one of the nation's top television series, "Breaking Bad." However, the State of New Mexico offered incentives that we could not.

Executives from the film and television industry tell us that a single one-week location shooting of a sitcom brings a weekly payroll and community investment of \$3 million and 160 jobs. It also helps fill hotels and restaurants and creates local purchases of goods and equipment.

To assist you, we have attached our ordinance for your review and consideration. We are asking you to consider elimination of film permit fees and collection of transient occupancy taxes for this industry cluster. We also request that you join us in using a one-stop process for film permitting and eliminate business license fees for film and television companies so that together we can make Riverside County the go-to place for Hollywood.

  
John J. Benoit, Chairman of the Board  
Serving the 4<sup>th</sup> District

  
Jeff Stone, Vice-Chairman  
Serving the 3rd District

and are broadcast within twenty-four (24) hours after the event.

- B. Strike and preparation days shall mean activities required to make superficial alterations as specified in the script prior to movie on-location filming and following filming, to restore such location to its original condition. Such alterations may include placement of temporary architectural features, alterations in landscaping, changes in furniture or other decorative elements, placement of temporary lighting equipment and similar activities. "Strike and preparation days" shall not include time periods when cameras and actors are present and/or filming is occurring.
- C. Issuing Authority shall mean the County Executive Officer (CEO) and/or his or her designee. The CEO is designated by this Board of Supervisors as its authorized representative to administer the provisions of this Ordinance.
- D. Studio shall mean a fixed place of business where filming or photography activities are regularly conducted upon the premises.
- E. Private Property shall mean any property not owned by the County, and on which filming would not interfere with public right of way, access or safety.

Section 3. PERMIT REQUIREMENT.

- A. No person shall use any public or private property, facility or residence within the unincorporated area of Riverside County for the purpose of taking commercial motion pictures, television pictures, commercials, electronic media or commercial still photography without first applying for and receiving a permit from the Issuing Authority. No fee shall be charged for such a permit.
- B. Any requirement for a business license is hereby waived due to the temporary nature of the film activities. The County shall condition the issuance of a permit on such terms and conditions regarding the time, place and manner of utilizing county roads or other property which are necessary and appropriate under the circumstances.

1 C. Upon reasonable notice to the County by applicant in advance of any filming  
2 activity, the Issuing Authority is authorized to change the date for which the permit  
3 has been issued without requiring a new application or permit.

4  
5 Section 4. EXEMPTIONS. The provisions of this Ordinance shall not  
6 apply to or affect:

7 A. News Media: reporters, photographers or camerapersons in the employ of a  
8 newspaper, news service, or similar entity engaged in on-the-spot print media,  
9 publishing or broadcasting of news events concerning those persons, scenes or  
10 occurrence which are in the news and of general public interest.

11 B. Personal/Family Video: the recording of visual images (motion or still photography)  
12 solely for private personal use, and not for commercial use.

13 C. Studio Filming: Filming activities (motion or still photography) conducted at a  
14 Studio.

15 D. Filming activities conducted for use in a criminal investigation or criminal court  
16 proceeding.

17 E. Filming activities conducted by or on behalf of the County of Riverside.

18  
19 Section 5. USE OF FACILITIES. The Issuing Authority may approve  
20 temporary free usage of property owned by or held under the control of the County, by issuance  
21 of a filming permit, provided:

22 A. Such issuance will not result in a frequency of usage likely to create incompatibility  
23 between such temporary use and the surrounding area.

24 B. Such issuance does not interfere with performance of the intended governmental  
25 function of the site in question.

26 C. Movie on-location filming does not exceed ten (10) consecutive days per production  
27 at any one location. Computation of such time period shall not include strike and  
28 preparation time. Extensions may be granted by the CEO at his/her discretion.

1 D. County may provide, at its discretion, and as may be available, vacant office and/or  
2 parking lot space for use by an applicant.

3 E. Applicant shall be charged, for purposes of cost recovery only, all actual and  
4 reasonable costs incurred by County, the amount of which shall be determined by  
5 the CEO or his/her designee, for County personnel or equipment provided to or for  
6 the applicant for the purpose of assisting or providing security, protection, traffic  
7 control, public safety or other County services to or for the applicant or members of  
8 the general public for activities under the permit.

9  
10 Section 6. LIABILITY PROVISIONS. As a condition of approval to  
11 issuance of a permit, a certificate of insurance will be required to include, but not limited to  
12 \$1,000,000 naming County as a co-insured for protection against claims of third party personal  
13 injuries, wrongful deaths and property damage. Where aircraft is used in any production, either  
14 fixed wing or rotary, the limit shall be no less than \$5,000,000 per occurrence. County officers,  
15 agents and employees shall be named as additional insureds and a certificate of insurance shall  
16 not be subject to cancellation or modification without thirty (30) days written notice to County.  
17 A copy of the certificate shall remain on file with the County.

18 A. An applicant shall conform to all applicable federal and state requirements for  
19 Workers' Compensation Insurance as to all persons operating under a permit.

20 B. To ensure cleanup and restoration of the site, an applicant may be required to  
21 post a security deposit as a condition to approval of an application.

22  
23 Section 7. DUTIES OF THE ISSUING AUTHORITY. The County  
24 Executive Officer shall designate a County Department or Agency ("Designated Department") to  
25 coordinate with county departments and special districts the approval and issuance of all facility  
26 usage permits required to film on county or district property at no cost. The Designated  
27 Department shall:

28 Coordinate with county departments and special districts for the approval and

- 1 issuance of all regulatory permits for on-location filming;
- 2 A. Coordinate the approval with the necessary county departments and districts as
- 3 required by county or special district policy;
- 4 B. Create a one stop permit processing center, design, and operate a website that offers
- 5 online permitting and promote the County to market the local region for film
- 6 production and may conduct such in cooperation with the Inland Empire Film
- 7 Commission or its successors;
- 8 C. Appoint a key liaison and back-up liaison for coordinating permits. The liaison will
- 9 keep him/herself aware of any and all film production within the County and remain
- 10 sensitive to local citizens' concerns. The liaison will have the authority to make
- 11 decisions as the County representative prior to and during any filming;
- 12 D. Through its liaison, provide service and support to each production company
- 13 applicant from the initial contact to the close of production, including problem
- 14 solving on film-related matters, including coordination between film companies,
- 15 local residents, businesses and the County;
- 16 E. Through its liaison, investigate all complaints and assist in the resolution of minor
- 17 disputes between the film industry and county agencies, cities, and emergency
- 18 service providers concerning filming in Riverside County;
- 19 F. Develop and administer programs to promote the development of the filming
- 20 industry in Riverside County;
- 21 G. Cooperate with other governmental agencies seeking to promote the development of
- 22 the film industry in Riverside County;
- 23 H. Periodically review and recommend, if necessary, changes in fees and use and
- 24 service charges to fully recover all county costs involved in the operations of this
- 25 function;
- 26 I. Consult with and advise other county departments, districts and the Board in all
- 27 matters relating to filming, including, but not limited to, recommended changes and
- 28 improvements in legislation, tax credits, fee waivers, policies, procedures and
- methods;

1 J. Coordinate with county agencies the periodic review of the county's filming permit  
2 processing system and make recommendations to the Board regarding ways to  
3 increase the system's efficiency and effectiveness;

4 K. Review, approve and issue permits for on-location filming on private property in the  
5 County.

6  
7 Section 8. RULES, REGULATIONS AND FEES. Under the guidelines of  
8 Government Code Section 14999.30 et seq., (Uniform Film Permit Act) the Issuing Authority is  
9 authorized and directed to promulgate rules and regulations, subject to approval by Resolution of  
10 the Board of Supervisors. The Permit shall set forth the County's rules and regulations regarding  
11 public property use, hours of permitted filming activity, and requirements for security deposits, if  
12 any, and other County conditions and restrictions. Transient occupancy taxes are hereby waived  
13 for applicants for forty-eight (48) months from the date of the adoption of this Ordinance in the  
14 unincorporated areas of the county in the interest of job creation.

15  
16 Section 9. VIOLATIONS OF PERMIT. If an applicant violates any  
17 provision of this ordinance or a permit issued pursuant thereto, the County may provide the  
18 applicant with verbal or written notice of such violation. If the applicant fails to correct the  
19 violation the County may revoke the permit and all activity must cease. The liaison will provide  
20 notice and an opportunity to be heard prior to cancellation of any permit.

21  
22 Section 10. SEVERABILITY. If any provision or clause of this ordinance  
23 or the application thereof to any person or circumstance is held to be unconstitutional or to be  
24 otherwise invalid by any court of competent jurisdiction, such invalidity shall not affect other  
25 ordinance provisions or clauses or applications thereof which can be implemented without the  
26 invalid provisions or clause or application and to this end, the provisions and clauses of the  
27 ordinance are declared to be severable.

28

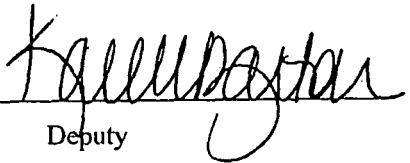

1            Section 11.       SECTION HEADINGS.     The section headings herein are for  
2 convenience only and shall not be deemed to govern, limit, modify or in any manner affect the  
3 scope, meaning or intent of the provisions or language of this ordinance.

4            Section 12.       EFFECTIVE DATE.     This ordinance shall take effect thirty (30)  
5 days after its adoption.

CITY COUNCIL  
MORENO VALLEY  
RECEIVED  
13 SEP - 6 AM 7:56

Dear Hon. Tom Owens:

We will be conducting a Public Rosary Crusade on October 12-20 13, at the time and place as noted above.

This Public Rosary Crusade will consist of people holding pro-life signs on the sidewalks of the intersection mentioned. We expect it to be a peaceful, prayerful demonstration for the Culture of Life. There will be no blocking of driveways or interference of business.

I will be in-charge of the event. If you have any questions, you may call my home phone noted below.

I would like to thank you in advance for your kind consideration on this request. We thank you also and the entire police force for working so hard to keep our city and the citizens of Moreno Valley safe.

Sincerely,

Gil Revoir (Local Public Square Rosary Crusade Chairperson)  
13876 Flaming Arrow St.  
Moreno Valley, CA 92553

*Announcing the 2013*

# PUBLIC SQUARE ROSARY CRUSADE

America is at a historic crossroad. Secularists are trying to push God from the public square. They reject His beneficial action upon society. But without God, where will our leaders get the wisdom to solve the great problems we face?

We must stop the secularist advance and pray to God for help. He will hear us, if we pray through the intercession of His Blessed Mother. That's why we're launching the 2013 Public Square Rosary Crusade.

In *The Secret of the Rosary*, Saint Louis de Montfort said: "Public prayer is far more powerful than private prayer to appease the anger of God and call down His mercy, and Holy Mother Church, guided by the Holy Ghost, has always advocated public prayer in times of public tragedy and suffering."

MORENO VALLEY  
RECEIVED

13 MAR -6 PM 4: 08

Dear Mayor Richard Stewart / Mr. Tom Owings

I moved here to Moreno Valley some time ago from Los Angeles in hopes of a better life for my family

Due to the contents of this letter, I'd rather remain anonymous. The person this is about is crazy in my book. He owns many weapons as he has mentioned many times at the bars according to some of his neighbors. It has rumoured he has PTSD (Post Traumatic Stress Disorder) and is 75 years old. Neighbors have known this guy many years ....mainly at the bar, i.e., VFW but also at Brass Rail/Rene's/Shananigans in Riverside. He has bragged about how he pointed his guns at his son and shot him in garage, and almost shot his wife to show them he was boss! His oldest son was a member of the local church, St. Christopher's, as were his mother and brothers. This guy tried everything to get rid of them, i.e., abused his sons, and wife, cheated on her with women at the bars, molested his daughter, and kicked his dogs around. He has bragged about various things at these bars in front of several people. I am a retired from the regular military. Because he is retired from the Reserves as yourself, Mayor Stewart, also are, he has claimed to be "Untouchable" as some of the cops and some judges that drink with him are all in the Reserves. This guy also finds hookers on the computer and gets them to come to the house in your residential area of Ironwood Avenue and Helga Lane (where and my family just bought a home)! (Like in a place called "City Sex" in Moreno Valley!)

This guy's name is Caron Neal Armour and lives at 26675 Ironwood Avenue. I have heard this guy has a record for insurance fraud and for stealing. I understand that with his hot temper he can be quite dangerous. I've been told that this creep has also molested his teenage daughter. I am seriously concerned for my own teenage girls safety as they have to walk by his house to get to school. I understand that his guns were taken from him and then returned because he was retired Reserve???. I also understand he has a real arsenal of guns in his house! I also understand that he has never had a California driver's license, and only an Oregon driver's license which is sent to him by his son who lives there. A neighbor claims he saw him abusing his dog.

In your position as mayor of this community, isn't there anything you can do about this guy???? I am really worried about my teenagers having to walk by this pervert living in this otherwise nice Moreno Valley neighborhood.

Thanking you in advance for your attention to this matter, I remain, a new resident of your city.

**Subject:** visit of students from France

Dear Mayor Owings,

Moreno Valley High School is going to host ten students and two teachers from our sister high school in Caen, Normandy from February 20 to March 5. This is the 7<sup>th</sup> visit of students and teachers from our sister school, the Lycée Malherbe. The students are hosted by students and their families of our school. They will attend our classes and participate in school activities. My French Club students will be in Normandy over spring break and attend classes at our sister school. They will also live with French families.

Every time, we host students and teachers from France, they get the chance to meet with the Mayor of Moreno Valley at City Hall. They spent an hour with our mayor and learned how an American city is run and what the job of a mayor consists of. Being a mayor of a French city is very different. When I am in France with my students, we are also welcomed at City Hall in Caen. I attached a picture of my students and their French host brothers and sisters in front of city Hall in Caen.

Would you be so kind and meet with the students from France in February or March? We still have Monday, February 25, Tuesday, February 26 or Wednesday, February 27, or Monday, March 4, available. We can be at City Hall during school time between 8 a.m. and 3 p.m.

I am attaching the program we have prepared for our sister school students for your information.

Please let me know if you might have time to meet for an hour with our sister school students and teachers from France. The students all speak English and are very interested in Moreno Valley.

HUMAN RIGHTS CAMPAIGN

CITY COUNCIL MORENO VALLEY RECEIVED

13 JUL 11 PM 4: 27

Office of Tom Owings  
14177 Frederick Street  
Moreno Valley, CA 92553

July 1, 2013

Dear Mayor Owings,

10/28/13

conference call  
scheduled w/ Mayor  
and Asst City Mgr

I am writing to invite you to participate in the Human Rights Campaign's Municipal Equality Index. The Human Rights Campaign (HRC) is the largest civil rights organization working to achieve equality for lesbian, gay, bisexual and transgender (LGBT) Americans. Now in its second year, the Municipal Equality Index (MEI) is the first nationwide evaluation of municipal laws affecting the LGBT community. In 2013, the MEI will expand its scope by scoring 291 municipalities, more than double the number assessed in our first publication.

HRC has been inspired by the large number of cities with scores that have increased since 2012. These rising scores mean that cities are acting to adopt new ordinances and policies to protect their LGBT citizens. You are receiving this letter because Moreno Valley, CA has been selected as one of the cities to be rated in the 2013 MEI. HRC has already conducted preliminary research on each of the cities selected, but we would like to confirm our research with you and extend to you an opportunity to correct or refute any point upon which you believe we are in error. The preliminary scorecard for your city is enclosed, as well as an explanation of the scoring system.

This year, we are again rating the cities we rated in 2012 – the fifty state capitals, the fifty largest U.S. cities, and those cities with a large percentage of same sex couples – as well as cities that fall into three new criteria: the three largest cities in each state, the 50 to 150 largest U.S. cities, and the city with the largest university in each state.

Looking to the future, HRC's upcoming 2014 index will increase the number of cities scored and more strictly apply the standards of the forty seven assessment criteria used in our current scorecard. We will also be making trans-inclusive health benefits standard (not bonus) points. Each of these changes aims to more accurately identify local benefits and protections available to the LGBT community, focusing on availability as well as whether cities provide adequate notice to residents of a particular service. This change recognizes that even the best programming will fail to make a difference if the target community does not know to take advantage of it.

HUMAN  
RIGHTS  
CAMPAIGN

If you have any corrections to make to your city's scorecard please contact me by email at [cathryn.oakley@hrc.org](mailto:cathryn.oakley@hrc.org) or by telephone at (202) 572-8974. I am also happy to answer questions about the scoring process or how your city may improve its score before the 2013 MEI. In order for me to incorporate your feedback into the final publication, I ask that I receive your revisions by July 29, 2013. Please be sure to include documentation for any portion of the score which you would like to be amended.

Thank you for your participation.

Sincerely,

A handwritten signature in black ink that reads "Cathryn M. Oakley".

RIGHTS  
CAMPAIGN®

### Explanation of Scoring in 2013 Municipal Equality Index

The maximum possible score for the Municipal Equality Index (MEI) is 100 points: there are 100 standard points on the scorecard, plus an additional 20 bonus points. However, no city will score higher than 100 points. Bonus points are awarded for items that are commendable but for which, at this time, it would not be reasonable to hold all cities accountable – therefore, cities with these services are awarded points, and cities without them are not penalized. Points fall into one of the following six categories:

- I. **Non-Discrimination Laws – 18 points.** Points are awarded if there is a non-discrimination law (state or local) that applies to the municipality's constituents; if both a state and local law exist this will be reflected on the scorecard but the city will only receive points once (this is one of the ways that the MEI neutralizes the influence of state-level legislation and focuses on work the *city* has done). A city is awarded three points for protections based on sexual orientation, and three more for protections based on gender identity, in each of the following three categories: employment, housing, and public accommodations.
- II. **Relationship Recognition – 12 points.** Because this is an evaluation of municipalities, not states, and marriage is a state-level policy, this section is weighted so that an equal number of points are awarded for marriage (or other state relationship recognition) and municipal domestic partner registries. There are also two bonus points available if a city had a form of relationship recognition that was subsequently preempted by state action.
- III. **Municipality as Employer – 26 points.** This section is the most heavily weighted because it is an area in which almost every municipality will have extensive control and the power to do much good. This category includes employee protections from discrimination on the basis of sexual orientation and gender identity, equal benefits ordinances, contractor non-discrimination policies, and equality in employee benefits. It also includes bonus points for transgender-inclusive health care benefits and for a city's "grossing up" to ameliorate the increased federal tax burden imposed on the benefits of a domestic partner. While these two categories are bonus in this year's MEI, they will be incorporated into the standard 100 points in future years. Further, bonus points are awarded where the municipality creates a welcoming place for LGBT employees to work; this is measured by whether it has an LGBT employee affinity group, makes a specific effort to recruit LGBT employees or offers diversity training to its employees.
- IV. **Municipality's Services and Programs – 18 points.** This section assesses the efforts of the city to include LGBT constituents in city services and programs. Points are awarded for the existence of: a Human Rights Commission or similar program (even if that Commission does not currently do work

HUMAN  
RIGHTS  
CAMPAIGN®

related to LGBT equality) whose purpose is to identify and eliminate discrimination in the city; an LGBT liaison or task force in the Mayor's office; and for an enumerated policy (at state or local level) prohibiting bullying in schools. Bonus points are awarded where the municipality offers services to vulnerable LGBT populations (such as youth, the elderly, homeless, and HIV+).

- V. **Municipality as Law Enforcement – 18 points.** Here a city can earn points in one of two categories: whether it reports its hate crimes statistics to the FBI, and whether the police force has an LGBT liaison or task force. Partial credit will also be awarded if the entire police force underwent LGBT-specific sensitivity training.
- VI. **Municipality's Relationship with the LGBT Community – 8 points.** This category measures the commitment of the city to include the LGBT community and to advocate for equality. It is a category which values efforts – even small or unsuccessful efforts – to advance LGBT equality, and it particularly rewards city leadership that pushes for equality in the face of substantial adversity. Points are awarded for city resolutions or mayoral declarations in opposition to bad state or federal policy, for example.

Finally, this section also includes two opportunities to earn bonus points: first, bonus points will be awarded if there are openly LGBT people holding elected or appointed office in the municipality; second, points will be awarded for active engagement with LGBT constituents through participation in Pride or partnership with LGBT advocacy groups to serve the LGBT community.

If you have any questions about the scoring system or any feedback to offer about the preliminary research, please contact Cathryn Oakley at [cathryn.oakley@hrc.org](mailto:cathryn.oakley@hrc.org) or at (202) 572-8974. The Human Rights Campaign sincerely appreciates your assistance in ensuring that the MEI reflects complete and correct data, and hopes you find the Municipal Equality Index to be a helpful tool. Should you have suggestions for how to improve the MEI in coming years, please send those suggestions to Cathryn as well.

June 25, 2013

Mr. Owings

This letter is just to confirm the details of our meeting together with you, Barry Foster, Gary Kyle, my wife and I and 4 other members of my family on May 16, 2013 at the City Hall office.

My family and I got together and wrote down everything that was decided on at that meeting by you and Mr. Foster and everything that was requested that we do. I have enclosed a copy of what we discussed for your review. If you have any problems or concerns about this please contact me so we can discuss it

Yours Truly

Norman Fisher

MV-14669-P356

ON MAY 16, 2013 A MEETING WAS HELD AT MORENO VALLEY, CA CITY HALL OFFICES  
THOSE PRESENT WERE

REPRESENTING MORENO VALLEY

TOM OWINGS – MAYOR

BARRY FOSTER – HEAD OF ECONOMIC DEVELOPEMENT DEPT.

GARY KYLE – INSPECTOR FROM BUILDING AND SAFETY

REPRESENTING THE FISHER FAMILY

NORMAN FISHER

BEVERLY FISHER

CHRIS FISHER

MICHAEL FISHER

JENNIFER FISHER

CHEY ANNE FISHER

DURING THE COURSE OF THIS MEETING A NUMBER OF THINGS WERE DISCUSSED  
AND DECISIONS MADE

THE 1000 SQ FOOT REAR ADDITION TO THE HOUSE AT 13850 BELIA CT, MORENO  
VALLEY CAN CONTINUE AS A LIVING AREA

PEOPLE CAN LIVE IN IT. WHEN THE MAYOR WAS ASKED THAT QUESTION HE  
SAID "ABSOLUTELY"

THE FISHER'S CANNOT RENT THE ADDITON OUT BUT CAN RECEIVE COMPENSATION  
FOR ITS USE

THE FISHER'S DO NOT HAVE TO TEAR UP ANY PART OF THE ADDITION NOR BRING  
ANY OF IT UP TO TODAY'S CODE

AN OVEN CANNOT BE PLACED IN THE ADDITION BUT A COOKTOP, MICROWAVE, HOT  
PLATE ARE ALLOWED

THE FISHER'S HAVE TO HAVE A LICENSED ELECTRICAL CONTRACTOR CHECK OUT  
THE EXISTING ELECTRICAL WIRING INSIDE THE ADDITION AND CERTIFY THAT IT IS  
SAFE AND IN WORKING ORDER

THE INSPECTOR, GARY KYLE, NEEDS TO COME AND LOOKED AT THE INTERIOR  
WALLS AND GIVE HIS OKAY

THE FINE LEVIED ON THE FISHER'S BY INSPECTOR DALE BROSE, MR FOSTER SAID  
THAT THE FINE WILL BE LIFTED. THEY DO NOT HAVE TO PAY IT.

WHEN THE MAYOR WAS QUESTIONED BY BEVERLY FISHER REGARDING OUR  
COMPLAINT AGAINST DALE BROSE HE SAID "OUR COMPLAINT DID NOT FALL ON  
DEAF EARS. WE HAVE HAD OTHER COMPLAINTS AGAINST HIM. THERE HAVE BEEN  
SOME PERSONNEL CHANGES"

WHEN THE MEETING CONCLUDED, MR. OWINGS ASSURED THE FISHER'S THAT THE  
MATTER IS ENDED

Re: Fines

Mr. Owings

During our meeting on May 16th with you, Barry Foster, Gary Kyle and 6 members of my family we were assured that the fines levied against myself and my wife would be removed. We would not have to pay them. Well someone did not get the memo. We received these notices yesterday

You once told us the problem was that one department in not communicating with another. Can you please let whoever needs to know that the fines have been lifted and the addition in question can continue as a living space.

We were told at the end of that meeting that the matter is ended. Well someone just does not want to let it end.

Thank You

Norman Fisher

### Notice of Administrative Citation – Notice of Failure to Correct

As per City of Moreno Valley Ordinance # 639, the Building & Safety Division has issued a 2nd **Penalty - Administrative Citation** (enclosed) due to your failure to comply in the time prescribed by law under the 1st Penalty – Administrative Citation dated **27 November 2012**. You must adhere to the instructions on the reverse side of the citation.

The violations must be corrected by **10 July 2013** to avoid a 3<sup>rd</sup> citation. In addition, an administrative citation can be issued every day the violations exist or the property is in non-compliance.

The issuance of a civil citation does not prohibit the City's limit to utilize any other remedy, civil or criminal, for such violations. Including, but not limited to, judicial or administrative proceedings to abate the nuisance.

The City of Moreno Valley to recover delinquent civil fines; interest, penalties, re-inspection fees or administrative charges may file a lien and special assessment, along with any other action to enforce collection or compliance.

Questions concerning this matter should be directed to the undersigned in writing, or by telephone at [REDACTED]

Sincerely,

Dale Brose

Mr Ownings

I first wrote you in December concerning a problem we are have with an addition to our house You were good enough to come out to our house to meet with us to help us solve the problem. During that meeting I brought up the issue that we are being fined and that fine is increasing. We were told that the problem was that one department was not communicating with another department and the problem would be corrected. While you and Barry Foster were leaving I again expressed my concern about the fine. Mr. Foster assured me that the fine would stop and I don't have to worry about it. Well yesterday we received 3 more letters from the Citation Processing Center. One addressed to me, one to my wife and one to my father who passed away 15 years ago. The original \$100 fine has been increased to \$200. In that letter we were told that we have 30 days to pay or the matter will be turned over to the Franchise Tax Board.

Why are we being fined for converting the back addition to a livable place? We did not convert anything. As we told you during the meeting it was built back in 1995 just the way it is today. Every thing was inspected and approved. My wife, son and I all know that is true. It was built for my father to live in. We have a copy of the permit and job card that both clearly state that it is a guest house. The addition has been in existence for about 20 years. We inherited from my father. We were told that we cannot rent out a guest house. I have searched the city's web site concerned what a guest house can be used for. I have found nothing. In fact when I typed guest house in the search box it comes back nothing found

When you first came out to our house and spoke to my son and wife, they told me that you mentioned to them that you found evidence that it is listed as a 1000 sq foot livable place. What ever became of that? If you did we would like to see a copy of that. It is quite possible that the city dropped the ball when the permit was issued. I am listed as the owner of the property, which I was not and never claimed to be. The tax papers will prove that. It also lists me as the contractor and I never built it as a contractor.

The inspectors demand to gut the inside is unreasonable. How can 1 man demand someone to tear down walls, cabinets, plumbing, etc after everything was inspected and approved and do it 20 years after the fact. To us that is clearly absurd.

Again any help you can give us will be greatly appreciated. We just want to get this over with and get on with our lives

Yours Truly

Norman Fisher

Subject: Cancellation of the Pre-Mother's Day Jubilee Event at the Senior Center In Moreno Valley on May 4<sup>th</sup>, 2013.

I, Jearlin Ball president of the Riverside neighborhood Reunion is sending you this written notice and requesting kindly canceling of our Pre-Mother's Day Jubilee on May 4<sup>th</sup>, 2013, at the Moreno Valley Senior Center.

Due to the matter of a death in the family, health reason and the development of the bombing in Boston, apparent factor; we received scales of responses from many sold ticket holders in their decision of canceling and requesting refunds. Has such, hamper our finances to provide monetary required to hold our event for our senior mothers at this time.

The committee members is requesting if the City of Moreno Valley will consider extending our deposited (retainer) received of \$300 (economic reasons) with regard to the event postponement an opportunity to reschedule our event with consideration to arrange a new date in the future at the center or refund formality information that needs to be completed back from the City Hall.

Please feel free to contact us.

I sincerely thank you for past service and personalized attention.

Sincerely;

Mrs. Ball - President

From: Mayor Tom Owings

To: Michelle Dawson, City Manager

Subject: The "Forgotten" Priorities of the MV Citizens' Majority

FYI

The July 9<sup>th</sup> City Council (CC) Report on the \$2,000,000 funding for Theodore Street Interchange at SR 60 is a total travesty and a tremendous dis-service to the citizens that live and work in Moreno Valley. This is another ploy for the entire corrupt CC to appease Iddo Benzevi, the Sketchers owner (Greenburgs') and the cronies of Jerry Stephens at their behest by using the \$2,000,000 in realized savings from the other Iddo benefiting \$25,000,000 Cactus/Nason project. The CC back in April 26, 2011 took this money away from previously funded and "construction-ready" street improvement projects like Kitching Street, Reche Vista Drive, Heacock Avenue and Perris Boulevard realignment projects to fund the Cactus/Nason Project.

We are well aware of the Mayor's corrupt relationship with the Sketchers' owner and his cozy relationship with the political association headed by Jerry Stephens, Michael Geller, Doug Whitney and David Slawson. In 2011 & 2012, "Slump Lord" Co, "Plain Dumb" Molina and "Past his Prime" Stewart of the CC at the guidance of the corrupt Henry Garcia and Barry Foster, voted to take existing funding away (they used big words like "re-sequencing") from very important projects to the City majority/citizens to benefit Iddo's Cactus/Nason project. Henry and the corrupt CC even agreed to offer the contractor a \$100,000 bonus to finish the project two months early because Iddo was going to build a "jobs, jobs, jobs" medical facility; which we all now call new Nason; a "road to nowhere" (right Molina?) because there is nothing there or planned in the near future. Do you know that Iddo will not have to pay any Development Impact Fees if he develops that property according to the City-Highland Fairview Development Agreement because he was supposed to pay and build Cactus and Nason (Agreement dated January 2006 page 49 & 52)? Now, the corrupt CC is taking the \$2,000,000 in savings to fund another Iddo project (the World Logistic Center directly benefits) out in nowhere while we citizens suffer without the necessary upkeep of our existing streets. What a mockery!!!

You currently have a key bunch of Department Heads that were hand-picked by Henry to make "things happen" on behalf of Iddo, the Sketchers owner and the Jerry Stephens' political association. Did you know Henry and the corrupt CC checks with "City Hall West" (Iddo's Office at Veterans and Calle San Juan) before they make any decisions? Henry hired "Riverside's Chief Crook" Desantis to concoct a biased Audit of the Public Works Department so that Henry and the current City Manager, Michelle Dawson fired the previous Public Works Director at the behest of Iddo and corrupt Barry in order to hire Henry's hand-picked Public Works Director, Ahmad Ansari from Henry's former job at City of Rialto. Did you know that even the Western Riverside Council of Government staff is questioning the City of Moreno Valley's request to add the Theodore Interchange into the previously approved TUMF network? They know this corrupt City's blatant actions are to benefit Iddo; which is an illegal action in accordance with their Administrative Plan. Apparently, it was corrupt Henry's directive to his hand-picked Public Works Director to get this done at the behest of Iddo and Sketchers. He was apparently directed to request removing Redlands Interchange to add the Theodore Interchange to the TUMF network if necessary!!! If you ask the citizens of Moreno Valley, Redlands Interchange needs the fix sooner than Theodore Interchange.

Henry also fired the former Human Resources Director and made Desantis the "interim" then subsequently permanent Director (isn't non-competitive recruitment illegal for City Government?) so they could hand pick recruit "behind closed doors" the "pawns of their game". Why do you think Desantis is now the Assistant City Manager!! The morale of staff is extremely low and they function in fear. There are many City staff that know the corrupt ways of the Department Heads (past and present) but they are very scared that they will be fired or laid off under the pretense of economic budget cuts like the former Public Works Director, City Attorney, Human Resources Director, the Building Official, the Code Enforcement Officer, the Deputy City Attorney, and many others. These people and the present key employees should be deposed by the US Attorney General with protection from disclosure and impunity. However, the CC and key Department Heads hand-picked by Henry must be prosecuted to the fullest extent possible.

MV00230439

For God, Country, City, Justice and plain Fairness, please use the taxpayers' money not to benefit developers but to fund the much needed repairs to Kitching Street, Reche Vista Drive including a traffic signal and the realignment of Heacock Avenue and Perris Boulevard, and so many other streets that badly needs new pavement.

On behalf of the MV Citizens' Majority,

A handwritten signature in black ink, consisting of a large, stylized capital letter 'Q' followed by a smaller, cursive signature.

Mr. Owings

I just thought I would sent this short note to thank you for your help. My family and I are grateful for what you did for us. Now we can leave that back house just as it was when we built it for my father, a livable addition.

I had a friend of mine come out and look at the electrical. He said everything is good. Mr. Kyle came out Monday and walked around and he also gave the okay. He told us it is a state law that the unit cannot have a oven.. Everything else is okay. Strange law to me.

We have lived in Moreno Valley for about 33 years and during that time we have had many dealings with the city's planning and building department. For the most part employees of the city have not gone out of their way to be helpful so I really did not expect much when I first wrote you. But you proved me wrong. You went out of your way to see what you can do for us despite all your other duties and for that we are very grateful

I do hope things work out for you as well

Yours Truly

daustin@trammellcrow.com  
www.trammellcrow.com

Dear City Council Members of Moreno Valley,

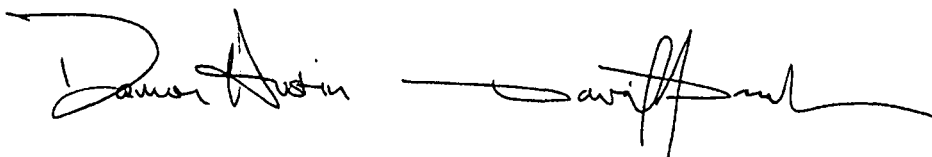

We are writing to address tonight's session and the evaluation of the Development Services Group. We consider the City of Moreno Valley to be an outstanding partner of the Trammell Crow Company. We are consistently impressed with the quality, competence and professionalism of the City personnel. Development Services has been terrific to work with throughout the last two years. We hope this perspective helps in tonight's evaluation.

Trammell Crow Company's Southern California Development and Investment Group has worked closely with the City of Moreno Valley's Development Services team over the past two years on our most recent development project, The I-215 Logistics Center, located in the City's core south industrial zone. This project is currently under construction and slated for completion early this fall. We are still seeking a high quality tenant to utilize this facility – a critical task that we are working with the City of Moreno Valley to achieve. Beyond its large size at approximately 1,250,000 SF, our project is designed with state-of-the-art specifications including significant LEED sustainability features. Our project is being built specifically to cater to large, high quality tenants, particularly those with changing needs due to streamlined supply chain and logistics trends including e-commerce. We chose to locate our project in Moreno Valley due to the outstanding location and infrastructure, but also because of the quality of the City leadership and staff.

In our opinion, the City of Moreno Valley Development Services group has one of the most professional and competent teams among the many municipalities we do business in. The MoVal Development teams from City Council and Planning Commission to City Manager, Building /Planning group, Engineering Division, Fire, and Economic Development have all taken on problem solving and tenant pursuits with focus and with pride. It is apparent that they care about the future of the City, which is an indication of the positive culture fostered within Moreno Valley Development Services. We were not surprised to see that Moreno Valley won NAIOP's Public Partner of the Year award in 2012.

We look forward to successfully completing our current project and developing future projects within Moreno Valley.

Damon Austin / David Drake and the TCC SoCal team

The image shows two handwritten signatures in black ink. The first signature on the left is 'Damon Austin' and the second signature on the right is 'David Drake'. Both signatures are written in a cursive, flowing style.

From: Mayor Tom Owings  
To: City Council Members  
Michelle Dawson  
Tom DeSantis

FYI

Dear Mayor Owings:

While it is the intent of the Moreno Valley Unified School District to collaborate with the City Council on mutually agreed topics, it is necessary for me to withdraw my participation on the Mayor's Ad Hoc Committee on Increasing Graduation Rates at this time. Due to three recent events including the declaration of a vacancy on the School Board, passage of the Governor's Local Control Funding Formula, and the decision of the Board to go after a General Obligation Bond, my time will be focused on these time sensitive issues. The Local Control Funding Formula, alone, requires an extensive plan.

My goal as Superintendent is to provide a world class education for each and every student in the Moreno Valley Unified School District. We have continued to set goals, meet state targets and improve the quality of education for the students. Our journey to improving graduation rates started upon the new administrative team's arrival in the Spring of 2011. Since that time we have offered additional credit recovery opportunities including online, before-school, and after-school sessions. Each high school principal was required to submit a graduation plan of action that addresses the needs of their students, and a monitoring system was put into place. Growth in the AVID and Career Technical Education programs is a significant contributor to academic progress and college readiness. Over 1,000 additional students are scheduled to participate in AVID in 2013 as compared to Fall of 2011. Moreno Valley Unified School District graduating seniors of 2013 have received more than 4 million dollars in scholarships and grants.

I thank you for the invitation to serve on your committee; however, I will not be able to participate in 2013. Should you decide to delay the committee I would be available after January of 2014. As a District, we will continue to aggressively accelerate the educational experiences for our students as evidenced by continued improvement on test scores, graduation rates, college going rates and dropout rates.

Sincerely,

A handwritten signature in cursive script that reads "Judy D. White".

To: Michelle Dawson  
John Terell  
Isa Rojas  
Council Members

Dear Mayor Owings:

FYI

SUBJECT: Offer of Informal Consultation  
Noncompliance with Timely Expenditure Requirements  
Community Development Block Grant (CDBG) Program

Pursuant to a review, HUD has determined that Moreno Valley is not carrying out its CDBG program in a timely manner. A grantee is allowed, under the CDBG regulations at 24 CFR 570.902, *Review to determine if CDBG-funded activities are being carried out in a timely manner*, to have a balance no greater than one and one-half (1.5) times its annual grant remaining in the line-of-credit 60 days prior to the end of the program year. HUD has a longstanding policy of reducing the future year's grant of a grantee that continues to be untimely.

The 60-day ratio for Moreno Valley, as measured on May 2, 2012, was 1.74. The last 60-day test conducted for Moreno Valley on May 2, 2013, indicated a balance remaining in the city's line-of-credit amounting to 1.54 times its Fiscal Year (FY) 2012 grant and, therefore, the city was again in non-compliance with the 1.5 performance standard. The failure to meet the 1.5 standard may result in a reduction of the city's FY2013 grant by 100 percent of the amount in its line-of-credit in excess of 1.5. Based on the new 60-day ratio of 1.54, the amount of this reduction is \$74,339, as shown in the enclosure. The city may avoid a sanction if it demonstrates to HUD's satisfaction that its untimeliness resulted from factors beyond the city's reasonable control.

Under the provisions of 24 CFR 570.911, *Reduction, withdrawal, or adjustment of a grant or other appropriate action*, Moreno Valley is entitled to an informal consultation prior to the actual reduction of its FY2013 grant. Therefore, I am inviting you and members of your staff knowledgeable in this issue to attend a meeting at HUD Headquarters, 451 Seventh Street, SW, Washington, DC, at a date and time convenient for you and your staff. If you prefer, this meeting may be held by teleconference. The Department would like for the informal consultation to take place no later than June 12, 2013. Please contact Sarah Rodkey, Entitlement Communities Division, with the date and time the city would like the informal consultation to be held. Ms. Rodkey can be reached at (202) 402-3878.

The purpose of the consultation is to provide Moreno Valley an opportunity to demonstrate that factors beyond its reasonable control caused delays in program implementation that affected timely performance or to demonstrate that HUD's finding of noncompliance is incorrect.

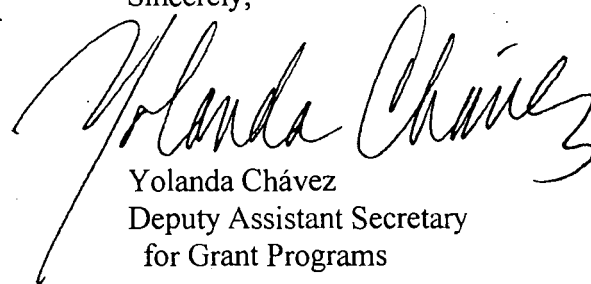

Please be prepared to address **in detail** the factors related to the action(s)/activity(ies) that caused the noncompliance, or, if applicable, the factors that demonstrate compliance. These issues should include:

- The problem, as defined by the specific factor(s) beyond the city's control, why it was beyond Moreno Valley's control, and how it caused untimely performance and/or affected the timeliness of expenditures for other parts of the city's CDBG program over the affected time period.
- The duration of the problem: when it began and when it is expected to end.
- The CDBG amount of each activity affected by the problem; explain, if applicable, why these funds were not reprogrammed after the problem occurred.
- Other actions implemented to ameliorate the effects this problem had on project-specific and program-wide timely performance, when the city undertook them, and what effect they have had and/or will have on timely performance (including the extent to which CDBG funds on hand have been obligated for specific activities).
- If the "factor(s) beyond the city's control" had not happened and funds were drawn down at the anticipated rate, would Moreno Valley have met the 1.5 standard? Provide the calculation and the information the city used to reach that conclusion.

Please provide a written response to the factors that you deem relevant to the city's performance, no later than three business days before the informal consultation date, with a copy to Bill Vasquez, Community Planning and Development Division Director, HUD Los Angeles Field Office, so HUD will be in a better position to discuss this matter with you. The response should be emailed to [Sarah.L.Rodkey@HUD.gov](mailto:Sarah.L.Rodkey@HUD.gov) and [William.G.Vasquez@hud.gov](mailto:William.G.Vasquez@hud.gov). Following this informal consultation, HUD will advise you in writing of its decision. Should Moreno Valley decline to participate in the informal consultation, the city's FY2013 CDBG entitlement award will be reduced by \$74,339 at the time of grant award.

Please feel free to contact Ms. Rodkey or Steve Johnson, Director, Entitlement Communities Division, at [REDACTED], if you have any questions regarding the informal consultation.

Sincerely,

Yolanda Chávez  
Deputy Assistant Secretary  
for Grant Programs

Enclosure

MORENO VALLEY, CA  
COMPLIANCE WITH 1.5 TIMELINESS STANDARD  
60-DAY RATIO ON MAY 2, 2013

Line of Credit Balance as of May 2, 2013:

FY 2011 Grant Balance:	\$ 998,411
FY 2012 Grant Balance:	<u>+ 1,858,467</u>
Total Grant Balance	\$ 2,856,878

New 60-Day Ratio Calculation:

60-Day Ratio =  $\frac{\text{Total Grant Balance}}{\text{FY 2012 Grant Authorized Amt.}}$  =  $\frac{\$2,856,878}{\$1,858,467}$  = 1.54

Amount Over Timeliness Threshold:

Amount in Excess = (New 60-Day Ratio - 1.5) (FY 2012 Grant Authorized Amount)  
= (1.54 - 1.5)(\$ 1,858,467) = \$74,339

FY 2013 Potential Reduction: \$74,339

Mayor Owings

On behalf of The Salvation Army Advisory Board and leadership team I would like to say a big THANK YOU for attending and supporting our 2nd Annual Appreciation Luncheon today. It was a great time to show our appreciation to the Moreno Valley Optimist Club, SuperTarget Moreno Valley & Second Harvest Food Bank for their continued generosity. The event was well attended and full of celebration, great food, good music & warm fellowship.

You will be pleased to note that through sponsorships and tickets this event has grossed about \$9,250. The proceeds will benefit The Salvation Army's summer youth programs. Thank you for helping us make a difference in a child's life this summer.

Especially thank you for the kind words, tribute to The Salvation Army and the city's Certificate of Recognition.

Have a great summer & Happy National Doughnut Day.

Sincerely,

Julius & Shannon Murphy, Captains  
Corps Officers

### CAL STATE HONORS ALUMS

Five individuals, including Cal State San Bernardino alumni and retired faculty, make up the Class of 2013 inductees into the university's College of Social and Behavioral Sciences' Hall of Fame. They will be honored at the "Celebration of Excellence" event at the Santos Manuel Student Union Events Center on Friday.

The inductees for the Class of 2013 Hall of Fame are Patrick Ainsworth, retired assistant superintendent of secondary education for the California Department of Education; Cheryl Marshall, president of Crafton Hills Community College; Andrew Melendrez, Riverside City Council

# Building a launching pad

The Innovation Economy Expo in Ontario seeks to put people with ideas in touch with the investors who can back them

BY JACK KATZANEK  
STAFF WRITER  
jkatzanek@pe.com

Success in business is based largely on whom you know and how you react to the people around you, all of which has to start somewhere.

One of those launching pads could have been at the Ontario Convention Center on Thursday, May 9, at the first Innovation Economy Expo, an event designed to put people with good business ideas on the track to success and,

more importantly, put some of those success-starved men and women in the same room with the entrepreneurs who can make it happen.

The event was hosted by Innovation Economy Konnect, a company started about a year ago to bring together various stakeholders in Southern California with a goal of increasing economic development. Several hundred people attended the all-day event.

One of them was James Coats, a 29-year-old freelance Web designer, graphics artist and photographer who attended Cal Poly Pomona and will soon enroll in Cal State San Bernardino's entrepreneurship program. In his short career,

Dear Mayor Dwing -

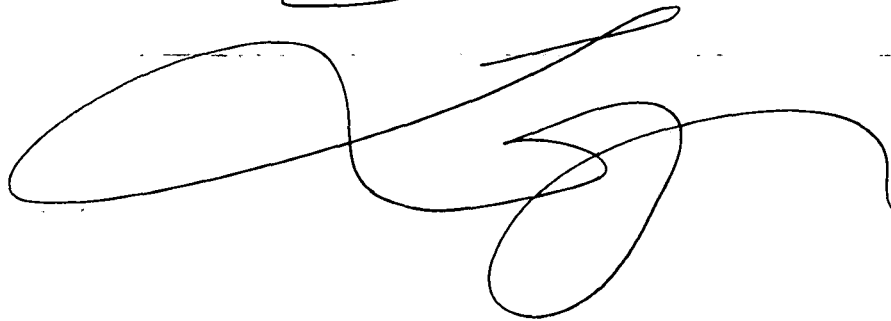

I was shocked to see that your town had the cruel and inhumane Famos Bros Circus / They are violating federal laws / their license was canceled by the USDA to exhibit animals, without this license it is illegal to have animals - They did the same in Corona last year, who took swift action ordering the circus to remove the animal immediately -

Please be humane and do

the same - by having them  
you are condoning this illegal  
behavior - I would be most  
grateful and would appreciate  
a kind reply.

Sincerely

J. Rene

# MORENO VALLEY: Circus told not to use exotic animals in show

BRIAN ROKOS/STAFF PHOTO

The Ramos Bros. Circus on Perris Boulevard in Moreno Valley is shown on April 5, 2013. The operator's permit for exotic animals such as zebras and camels expired, so they will not be part of this weekend's performances, which will go on as scheduled.

The show will go on in Moreno Valley, minus a few zebras and camels.

The Ramos Bros. Circus' federal license for exotic animals is no longer valid, so the shows Saturday, April 6, and Sunday at 13250 Perris Blvd. will not include those animals.

It's not clear why the license is not valid.

David Perle, a spokesman for the People for the Ethical Treatment of Animals, wrote in an email that the U.S. Department of Agriculture canceled the circus' license on April 2.

Alex Ramos, one of the brothers who operate the circus, said outside the red and white big top Friday that the license expired after the renewal paperwork he sent was lost in the mail. He said he spoke with the USDA on Friday about resubmitting the paperwork.

PETA had complained to Moreno Valley officials that the circus was illegally exhibiting the exotic animals because the license had lapsed, and Ramos said a city official told him Thursday not to perform them. The animals were still being displayed in a pen Friday.

Moreno Valley city offices were closed Friday and no one could be reached for comment. A USDA spokesman could not be reached after hours.

Ramos acknowledged that when he set up in Corona last year, he was forced to move his exotic animals out of the city because the municipal code there does not allow them to be exhibited.

Ramos denied Perle's assertion that his circus "regularly abuses animals." The circus also features llamas, horses and ponies.

"They are in good health. We treat them the best we can — better than my wife," Ramos said.

The Ramos Bros. Circus is on the road 10 months a year in California, Arizona and Nevada, Ramos said. Performances this weekend are at 5 and 8 p.m. Saturday and 2, 5 and 7:30 p.m. Sunday.

HONORABLE MAYOR:

BLACK DIAMOND COMMUNITY OUTREACH ENT. & WHITE HATS SOCIETY

BLACK DIAMOND BOARD OF DIRECTORS NOMINATES QUEENS & KINGS TO REPRESENT THE COMMUNITIES IN OUR CITIES IN THIS STATE OF CALIFORNIA, TO BECOME COMMUNITIES ADVOCATES, TO UNDERSTAND THE NEEDS OF OUR CONSUMERS, BRIDGING THE GAP & BRINGING AWARENESS TO THEIR HEALTH WHETHER THEY CAN AFFORD INSURANCE OR NOT.

BLACK DIAMOND BRING ENTERTAINMENT TO VENUES FOR THEIR ENJOYMENT, WHILE BRINGING THE COMMUNITY TOGETHER THUR THE CHURCHES IN THE COMMUNITY. OUR MISSION IS TO UNITE THE CHURCHES IN THE MORENO VALLEY & THE SURROUNDING CITIES TO HAVE KNOWLEDGE, BECOMING CONCERN ABOUT THEIR OWN HEALTH, TO KNOW WHAT PROBLEMS THEY HAVE & WHERE THEY CAN GO TO GET TREATMENTS, TO RESOLVE THEM BEFORE THEY GET OUT OF HAND.

WE NETWORK WITH MANY HEALTH FACILITIES IN CALIFORNIA TO SUPPORT OUR EFFORTS, AND WE WILL CONTINUE DOING SO, BY KEEPING OUR COMMUNITY HEALTHY WE WILL BE ABLE TO SUPPORT WHERE WE THE PEOLPE CAN HELP!

IN MORENO VALLEY WE HAVE THE VENUES THAT CAN ACCOMENDATE A LARGE VOLUME OF FRIENDS AND GUESTS IN THE SURROUNDING CHURCHES TO COME TOGETHER TO HONOR OUR LEADERS IN THE CHURCHES.

ON SATURDAY MAY 18, 2013, BLACK DIAMOND COMMUNITY OUTREACH WILL HOST, THE MORENO VALLEY UNITED CHURCHES GOSPEL HEALTHY AWARENESS FESTIVAL, FEATURING "THE 5 BLIND BOYS OF MISSISSIPPI GOSPEL GROUP, PLUS OTHER GOSPEL SINGERS, AND A WEDDING FASHION SHOW. WE ARE LOCATED AT 23750 ALESSANDRO BLVD. BUILDING K, MORENO VALLEY BANQUET HALL MORENO VALLEY CA. 92553, FROM 4:00PM-8:00PM \$15 PER PERSON, \$150 PER TABLE. A HOST BUFFET IS AVAILABLE FOR \$10. A % OF PROCEED WILL

· SUPPORT THE "WORLD OF FOSTER CHILDREN & THE "ERIC HARMOND WILKINSON AUTISUM FOUNDATION.

WE ARE ASKING FOR SPONSORSHIP TO SUPPORT OUR EFFORTS, WE ARE NETWORKING WITH OTHER INDEPENDENT PROMOTERS WITH OUR SAME VISIONS TO REACH THE PEOPLE & SHARE PROFITS.

AS THE COMMUNITY AVOCATE IN MANY CITIES I'M CONCERN ABOUT THE HEALTH AND SAFETY OF OUR COMMUNITY AND THE FUTURE OF OUR NEW GENERATION.

PLEASE SUPPORT OUR EFFORTS!!

THANK YOU  
DR. ANNICE DEVEAUX--FOUNDER/ CEO/ PRESIDENT.

**PANETTA IS DEAD BY  
THE HANDS OF THE CHINESE.**

THE NEXT CHINESE SET DATE IS:

**DEMPSEY MUST BE ARRESTED,  
INCARCERATED, AND SEQUESTERED.**

MAY 11, 2013 - EARLY A.M.

**SEVEN OTHERS SHOULD ALSO  
BE ARRESTED OR GIVEN LENIENCY  
FOR THEIR TESTIMONIES AGAINST  
OBAMA AND DEMPSEY.**

[GODSAYSSS.BLOGSPOT.COM](http://GODSAYSSS.BLOGSPOT.COM)

**OBAMA MUST BE ARRESTED,  
INCARCERATED, AND SEQUESTERED.  
ASK GOD FOR YOURSELF.**

**HOW MANY NEW LIES AND STORIES CAN OBAMA AND DEMPSEY THINK UP? OBAMA AND HIS PEOPLE KNOW AND ABSOLUTELY 100% KNEW THAT THEY WERE COMMITTING TREASON AT THE FIRST WHEN THEY FIRST DECIDED TO DO IT IN 2010.**

**THEY KNOW WHAT IS GOING TO HAPPEN, 99% CHANCE THAT THE CHINESE ARE GOING TO DO NOTHING BUT ANNIHILATE THE ENTIRE U.S.A. POPULATION.**

**THEY CARE SO LITTLE THAT THEY WILL NOT EVEN SERIOUSLY CONSIDER CHANGING THEIR DIRECTION. THEY EVEN KNOW THAT THEIR RETIREMENT IN CHINA WILL BE FULL OF HYPNOTIC DRUGS AND CHINESE YOUNG GIRLS ONLY UNTIL THEY ARE OF NO FURTHER USE. THEN THEY WILL END UP IN A CONCENTRATION CAMP OR WORSE. CHINESE KILLED PANETTA ON FEB. 16, 2013.**

**THEY MAKE FUN OF THE IDEA THAT ANYONE WOULD SUGGEST TO ANYONE THAT THEY DID WHAT THEY DID, AND THAT THEY REALLY ARE THAT PETTY. BUT IN FACT WE ALL KNOW THAT IS EXACTLY WHAT THEY HAVE DONE, EVEN WORSE, THEY ARE ATTEMPTING TO KILL ANYONE THAT IS ATTEMPTING TO STOP THEM FROM HELPING THE CHINESE BLOW UP EVERY LAST U.S.A. MILITARY BASE ON THE INITIAL ATTACK.**

**THEY SUGGEST THAT THEY REALLY DID PRETEND THAT IF THEY SURRENDERED THAT THE CHINESE WOULD MAYBE SOMEHOW CHANGE THEIR MINDS. (EVEN KNOWING THAT THE CHINESE HAVE SPENT 100% MILITARY DRIVE, FOR OVER 40 YEARS, TO PREPARE MENTALLY AND MILITARILY TO COMPLETELY ELIMINATE ALL OTHER RACES OF PEOPLE ON THE PLANET). ONLY A FOOL WOULD PRETEND THAT THEY WOULD ACTUALLY CHANGE IT. THE CHINESE GENERALS ARE NOT GOING TO CHANGE THEIR STRIPES INTO SPOTS. FROM GRADE SCHOOL, THIS WAS WHAT THEY WERE BROUGHT UP TO ACCOMPLISH. EVEN STILL, IN THE CHINESE ELITE, A FULL THREE GENERATIONS OF CHINESE CHILDREN ARE BEING BROUGHT UP IN THE CHINESE SCHOOLS TO BE SUPER PREJUDICE AGAINST ALL OTHER RACES, WITH THE PROPAGANDA THAT ONE DAY THE WORLD WILL BE CHINESE ONLY. (TO SAVE THE PLANET FOR THEIR OWN RACE. FOR THE NEXT TEN THOUSAND YEARS).**

**WHAT DO YOU EXPECT THEM TO SAY? THEY WILL LIE AND DENY IT UNTIL WE HANG THEM. THEY LIVE IN THEIR IMAGINATION, NOT IN THE REAL WORLD. OBAMA AND HIS TOP GENERALS ARE MORE SCREWED UP THAN MOST PEOPLE WILL BELIEVE. THEY ARE DENYING FACTS THAT THEY KNOW, AND KNEW.**

**THEY PLANNED OUT AND SANK OUR NUCLEAR SUBMARINES, ON PURPOSE, IS THE PROVE OF THAT. THEY WILL LIE TO YOUR FACE, THEN THEY WILL STAB YOU IN THE BACK AND LAUGH ABOUT IT. YOU REALLY NEED TO TALK TO GOD ABOUT THESE GENERALS AND OBAMA. THEY ARE NOT THE SAME PERSON TO YOUR FACE, AS THEY ARE TO YOUR BACK. FOR THE U.S.A. TO SURVIVE AS A NATION OBAMA AND DEMPSEY MUST BOTH BE INCARCERATED. ALSO, AT THIS TIME OBAMA IS NOT EVEN LEGALLY IN POWER, AND HE IS ORDERING OUR NUCLEAR SUBMARINES SANK AND GIVEN AWAY.**

**GOD WILL TELL YOU TO YOUR FACE THAT WE ARE GOING TO HAVE A NUCLEAR WAR. THREE PARTS. APX. ONE TO TWO YEARS IN EACH PART. WITH APX. TWELVE AND FIFTEEN YEARS IN-BETWEEN PARTS. ALL PARTS WILL BE NUCLEAR. U.S.A. IN ALL PARTS. CHINA IN ONLY PARTS ONE AND TWO. RUSSIA TAKES OVER CHINA.**

## SYNOPSIS OF EVENTS OF OBAMA'S TREASON

October 2009- Found Chinese mobile missiles in Canada along U.S.A. boarder. Told China to move them out or else. They moved them out.

November 2009- U.S.A. intelligence found 23 Chinese atomic bomb triggers, which had been discarded, after new satellite settable digital triggers were installed on the thirty five year old Chinese atomic bombs, that we knew that the Chinese had placed in 23 privately owned houses inside the largest U.S.A. cities in the U.S.A.

December 2009- Found very large warehouse in California full of Chinese military personnel and Chinese munitions, and arms, equipment, and a nuclear bomb on a truck.

December 2009- Increased search, nationwide, for Chinese owned houses that held in place atomic bombs and for other caches of Chinese military and weapons.

September 1 thru 5, 2010- Busted Chinese water poisoning in several major U.S.A. cities. There were U.S.A. citizens deaths. Found and busted another large warehouse of Chinese munitions and nuclear bombs on trucks in several U.S.A. cities. China declared war against the U.S.A., China fired a missile over Los Angeles. Obama on the phone with the Chinese dictator attempting to find a way out of a nuclear war with China was told to surrender. He was told that it was the only way. Unconditionally, with no guarantees of anyone's lives given.

September 2010 thru November 2010- Obama was offered his package of protection and a life of luxury in China for him and his top military personnel if they would help him turn over all of the U.S.A. nuclear weapons and military. In order to save his own life Obama decided to pull one over on Congress, and on the Justice Department and on all of the U.S.A. population, and surrender to the Chinese all of the U.S.A. defenses and military.

January 20, 2011- Chinese dictator visits U.S.A. to address Congress. Contract to surrender the entire U.S.A. to the Chinese was signed behind closed doors. By Obama and his joint chief staff generals. They did not inform Congress, they did not inform the Justice Department, or anyone. It was a top secret surrender deal, It was a Que-de-graw type military maneuver, executed by the executive branch of our government. That is also when the Chinese dictator issued certificates to Obama and nine other U.S.A. generals, granting them protective life's of luxury, and young Chinese girls of all ages, and fat Swiss bank accounts if, and when they turned over the U.S.A. nuclear arsenal and all of its military capabilities.

February 2011- U.S.A. found all **23 plus** privately owned Chinese houses, in U.S.A. cities, **that are still housing Chinese atomic bombs**. They hid it from all of their own generals and military personnel, and continued with their secret surrender deal. They ordered the departments involved in finding all of the Chinese nuclear weapons to not admit it to anyone.

March 2011 thru December 2011- Multiple incidents, and loss of military equipment, between the Chinese and the U.S.A. militaries were put on for a show, by Obama and his top generals to try to build a case of necessity to explain the U.S.A. surrender to the Chinese. The show was for the lower U.S.A. generals, and for Congress, and for the Justice Department, and for other personnel that were becoming aware of the **needless, stupid, cowardly surrendering**.

Throughout 2012- Against common sense, the drug addicted Obama and his top generals gave away almost all of the U.S.A. defenses. In a progressive schedule.

November 2012- Obama and the Chinese dictator put their heads together to try to figure out how to turn over the U.S.A. submarine fleet to the Chinese.

Obama Quote "Just sink some of our nuclear submarines, and that should do it".

January 1, 2013- The Chinese submarine fleet sank one of the U.S.A. nuclear submarines. The rest of the submarines went into safe harbor.

Obama was still faced with the same problem, so he lied to the naval submarine commanders. Obama and his top Naval General told them that we had a treaty with the Chinese, and that all would be safe. Obama ordered the submarines course, and they ordered no evasive maneuvers, and no self defense.

**Our most expensive piece of defensive equipment, fully manned, was sank by orders of Obama and the Chinese dictator, on January 26, 2013. Our most powerful nuclear submarine was sank by Obama and the U.S.A. general in charge of the Navy. It was an act of first degree murder, treason, and part of an overall plan to overthrow the U.S.A. and its Constitution and to set up for annihilation the entire U.S.A. population.**

The command of the remaining U.S.A. submarines were turned over to the Chinese on February 8, 2013. Now the Chinese can use U.S.A. submarines and their original crews to sink the U.S.A. allies battleships, right inside the allies harbors, with the orders of Dempsey and the U.S.A. Naval general to the crews to obey the orders of their onboard Chinese admirals. By February 14, 2013 there will be total Chinese crews in the U.S.A. submarines.

Every single Chinese nuclear weapon, in houses and on trucks, internationally, can be fixed to not explode when triggered. Without even notifying the Chinese that it has been tampered with, or without even changing the trigger set time mechanism. It is at this time the only item left that the U.S.A. and its allies have to try to make the Chinese not attack immediately. If the U.S.A. and all of its allies dismantled all of the Chinese nuclear weapon that they can find and get their hands on, the Chinese would be pressed to take pause, to try to figure out how to gain back their lost ground, while we take back over our government and our military defense equipment. There is no reason to not dismantle the Chinese nuclear weapons.

Obama may need to be hunted down and tried for crimes against humanity after the Chinese initial attack on the U.S.A. and on all of its allies. He can already successfully be convicted of murder of thousands of U.S.A. citizens in Hawaii, and also of his murders of the U.S.A. naval personnel on both of our aircraft carriers in 2011, and on both of our nuclear submarines, which he ordered to let the Chinese sink in 2013. And he is just getting started.

Our nuclear submarine is the last deterrent that stood in the way of the Chinese blowing up all of their U.S.A. based nuclear bombs. They are the reason that the Chinese were still playing games with the setting and unsetting of all of their U.S.A. based nuclear weapons.

The Justice Department in Washington DC has been so overwhelmed by the traitors and the Chinese that they cannot even see the light of day. They must be removed from Washington DC immediately, and given protective custody. And totally debriefed. The same with several top CIA personnel, and some SS personnel. Their immediate safe removal from their current locations is imperative. If they stay there one more week they may be blown up in a nuclear explosion anyway. Unless the U.S.A. and all of its allies, start taking back all of their lost defensive equipment, and start tearing down all of the Chinese nuclear weapons, the Chinese will have no reason to wait. The Chinese plan is for as soon as possible.

Obama and his military are planning to allow the Chinese to blow up every single, in house, atomic weapon that the Chinese still have on U.S.A. soil. Obama and crew are denying that they exist. They are even guarding some of them from the FBI and the Texas Rangers. They are even helping the Chinese hide and move the Nuclear weapons that the Chinese have on trucks inside the U.S.A. itself, and in our allies nations.

As of February 10, 2013, the Chinese, Obama, Dempsey, Winnefeld, Panetta, and a few others, are still in agreement, and still planning, a full fledged surprise nuclear attack on the mainland U.S.A., to include wiping out all of the military, for the Chinese.

The Obama administration has done nothing whatsoever to even attempt to prepare to save anyone's life. Not even the militaries. No first aid for any survivors.

**Even after he was busted, red handed, helping the Chinese dictator decide which U.S.A. cities to nuclear bomb to pull one over on Congress, and the U.S.A. public, in 2011.**

From the start Obama was trying to make it look like a surprise attack, because he was breaking so many laws, with his, one on one, surrender deal with the Chinese dictator.

Why the Justice Dept. even allowed him to run for another term, is evidence of how intimidating the U.S.A. traitors in the top military positions are. Let alone their near successful attempt to hide the facts of Hawaii from the voting public.

**We need to do as much as we can, as soon as we can. Time is now of the essence. Medical supplies, outside the largest cities nuclear fallout diameters; Food storages, housing, tents, shelter. All major population cities will be nuclear bombed, and chemical nerve gas sprayed. The Chinese already have all of the necessary equipment, to accomplish both, right here on U.S.A. soil, compliments of Obama.**

How guilty can Obama be? More than three full years of knowing that we will be involved in a nuclear war, any day now, and he has done not one thing, to prepare, to survive, outside of the cities, for either the general public or even the militaries. His excuse: "Oh if we prepare, they may do it", is blatant stupidity. His failure to prepare is not only negligence and incompetence, it is bona fide evidence of his treason.

**Voter fraud is a felony. Obama is guilty. And we have proven it. Dempsey personally threatened the GOP with assassinations if they contested the vote. Obama is not essential to the national security of the nation, as they claim.**

This needs to be dealt with effectively. If we do not deal with this effectively we may have a civil war between those that are backing the Chinese takeover, and those that are not backing the Chinese. We need the other two U.S.A. Gov. branches to step up to the plate and enforce the laws, and arrest Obama and at least nine other traitors.

The U.S.A. Constitution will work if the people in office will work, and do their jobs, and their duties upright to God. They cannot let these heinous crimes by the Executive Branch stand, or the nation will literally fall. Freedom of religion will cease to exist, worldwide, if the Chinese have their way. Denial of this entire Chinese situation is the worst thing that they are doing.

All personnel on all U.S.A. military bases need to be brought up to date. We have bona fide traitors at the top. The generals of all military installations need to pray and talk to God personally. And use their intelligence, with God, in order to save not only their own lives but also the lives of all of their men. Common sense, prayerful, down to earth, human nature understanding will be in order.

ALLOWING OBAMA TO STAY IN OFFICE DESPITE HIS VOTER FRAUD, DUE TO FEAR OF THE CHINESE, IS JUST ANOTHER WAY TO DENY THE REALITY THAT OBAMA IS IN BED WITH THE CHINESE.

IN 2009 WHEN OBAMA WAS CONFRONTED WITH A NUCLEAR WAR WITH CHINA, GOD TOLD HIM THAT HE MAY DIE DURING IT.

THE CHINESE EMPEROR OFFERED OBAMA, AND HIS TOP MILITARY GENERALS, PROTECTION AND LIFE'S IN LUXURY, IF THEY WOULD TURN OVER THE U.S.A. MILITARY AND ITS DEFENSES TO THEM.

OBAMA AGREED TO DO JUST THAT. WE CAN PROVE IT.

FROM SEP. 2010 TRU JULY 2011, WE MADE AUDIO TAPES OF THIS EVIDENCE. THE TAPE MAKERS WILL TESTIFY UNDER OATH, THAT THEY WERE FORCED TO TAKE MONEY, TO KEEP IT SILENT.

ALSO, IT SHOULD BE AS PLAIN AS THE NOSE ON YOUR FACE.

OBAMA'S LOSS OF UN-DEFENDED NAVY. HIS GIVING AWAY OF OUR DEFENSES. HIS HIDING OF ALL EVENTS, FROM CONGRESS AND EVERYONE. HIS PARTICIPATION IN THE HAWAIIAN DEATHS.

NOT ONLY IS THE TOP U.S.A. PERSONNEL EXPECTING THE DEMISE OF ALL OF THE U.S.A. POPULATION,

**THE U.S.A. IS ALSO STABBING ALL OF OUR ALLIES IN THE BACK.**

THE U.S.A. IS GUARDING, AND HIDING, ALMOST ALL OF THE CHINESE NUCLEAR BOMBS IN OUR ALLIES NATIONS, BY ORDERS OF OBAMA AND HIS GENERALS.

THE CHINESE BOMBS IN QUESTION WERE SET AT THE APPROXIMATE TIME THAT THE U.S.A. NUCLEAR BOMBS WERE SET, EVERY TIME, ALMOST ALL OF THEM.

**SOMEHOW, PRAYERFULLY, ALL OF OUR ALLIES NEED TO GAIN ACCESS TO THE GUARDING OF THOSE NUCLEAR BOMBS, IN THEIR NATIONS, AND IN THEIR CITIES, AND BE PREPARED, TO DISMANTLE EVERY LAST ONE.**

THE MILITARY IS SAYING THAT THEY ARE NOT KEEPING ACCURATE TRACK OF THE U.S.A. CITY PLACED BOMBS. **UNDER OBAMA'S AUTHORITY THE U.S.A.**

**MILITARY IS BEING ORDERED TO LET ALL OF THE U.S.A. CITY BOMBS AND ALL OF THE BOMBS IN OUR ALLIES NATIONS EXPLODE.** WE NEED SOME OTHER AGENCIES TO HELP KEEP TRACK OF, GUARD, AND DISMANTLE THEM. OBAMA IS LYING IF HE SAYS THAT HE CANNOT FIND THEM. IF ANY OF THEM BLOW UP, IT IS HIS DOING.

PANETTA IS ALREADY RETIRING IN THE CHINESE MAIN MILITARY BUNKER, THE ONE THAT HE CHANGED OUR INTELLIGENCE ON.

CHINA WILL NOT TURN OVER THEIR INDIVIDUAL SWISS BANK ACCOUNTS UNTIL THE ENTIRE U.S.A. DEAL IS DELIVERED. THEIR PROTECTION AND LIFE'S IN LUXURY CONTRACT READS: FOR THE SERVICE TO THE PEOPLE OF CHINA.

THE MAIN MILITARY BUNKER IN CHINA THAT IS NOW LABELED (INTERNATIONALLY), AS FOR CIVILIANS ONLY, DO NOT BOMB, IS ACTUALLY THE #1 MAIN MILITARY BUNKER IN CHINA, ORDINARY CIVILIANS CAN NOT EVEN ENTER. THERE ARE TWO MORE EQUALLY EQUIPPED, NORAD TYPE, BUNKERS IN CHINA.

**January 19, 2013, - Internationally, the U.S.A. and ALL its allies, STILL have Chinese nuclear weapons which have not been unset, only reset.**

The day before Christmas eve, 2012, all Chinese nuclear weapons on U.S.A. bases were set and ticking, not the agreed 57%, but ALL Chinese bombs on ALL U.S.A. bases, along with most U.S.A. Lg. population cities bombs. Repeat on January 9<sup>TH</sup>, 2013, and again on the 11<sup>th</sup>, 2013. Our military must pull them apart before the set time; Then Obama orders them given back. The military will not tear down the city bombs, only the base bombs, the Chinese reset them anyway.

Obama, Dempsey and Panetta are at wits end trying to come up with excuses for the military maneuvers which they are backing.

They are ALL drug addicts, they ALL use three times the tolerable amount of military special assignment narcotics every single day. They think that they are clear headed and fit for duty. They cannot even distinguish reality from fantasy. Traitors, all three.

They are using military, Special Forces personnel, that are drug addicts, to kill other Generals, and FBI agents, and Secret Service personnel, and whoever, that are conducting investigations into their Chinese filled Swiss bank accounts, and into their clandestine maneuvering of the U.S.A. military for the Chinese.

We have traitors in the highest ranks of the U.S.A. military. We need to remove them from their offices before we all pay with our lives. They are drug addicts; they are vainly fighting to win, knowing full well that their winning will mean the death of almost all U.S.A. military personnel. They **LIE, LIE, and LIE more**, to try to keep things going the way that their treason has thus far accomplished.

**Every time that anyone points out to them that their lies and maneuvers are stupid, they act real serious, and start threatening, and continue to argue that their lies and maneuvers may work, even knowing full well that they won't.**

Case in point: When the Chinese started killing all of the Hawaiian people, Obama called up the Chinese dictator and complained; Chinese dictator, quote: **"You knew that was what we were going to do."** **"What are you crying about?"**

They stopped killing them only momentarily, to give their selves time for more international simultaneous preparation, in order to minimize the ally retaliation when they do start the nuclear attack on the U.S.A. and its allies.

Don't you know that Obama and Dempsey, and Panetta, and a few others 'have' given the Chinese the order to hurry, and to go ahead, and nuclear bomb at least 57% of the U.S.A. military bases and 85% of the U.S.A. largest cities, In order to push the rest of the Americans into submission? Ask God for yourself.

Those Americans are all suppose to die with no warning, and no preparation. Like a surprise attack by the Chinese.

Plus; The Chinese will not stop at the Obama administrations approved surrender sacrifice of American lives.

57% of the U.S.A. military bases, or more, are suppose to be blown up in nuclear explosions, on the initial attack. And all of the top military traitors will deny giving the Chinese permission to do it.

Go ahead, ask God for yourself. Pray. Be safe, not sorry, pray three prayers for yourself, just to be sure.

Some military people do what satan says. Cold, Backstabbing, true to the Chinese.

Some military people do what God says. Practical, defensive, willing to help God save every single American life possible.

If they pray, they can see God, and the holy ghosts, and understand that self defense is the only way to stop the Chinese.

We need to remove the traitors. The traitors are true to the Chinese. Obama is not the only traitor. Take out the traitors. The sooner, the better. Ask God for yourself. They need to be removed. Not just worked around, removed. The lives of over half of the U.S.A. military depends on their removal.

Letting the Chinese kill the Americans is not a solution. Before God is done, there will be as many dead Chinese as Americans, percentage wise. Sacrificing Americans cold bloodily, like some generals prescribe, will not accomplish their fantasy argument. Their argument is totally stupid, drug induced, and satan driven.

God will show you, what you need to do. God will assign to you a holy ghost, to help guide you day by day. One task at a time. We need to remove the traitors. It is either them or more than 80% of the American population.  
[Godsfriend01.blogspot.com](http://Godsfriend01.blogspot.com)

What has the Obama administration done to prepare the public, to survive the events that they are aware of, and that they are helping to bring about? Nothing, not one thing. They plan on skipping to China and letting us suffer through it.

"The U.S. Government/Obama administration, can adjust the election results any way that they want to, and get away with it." Quote, Unquote. And they did, on election day 2012. Obama would have lost the vote had Dempsey not had his military add fraudulent voter districts. To prove it all that we have to do is count the voter districts in the voter counting computers, and verify if they really exist. It is just that simple to prove that Obama is guilty of felony voter fraud. Even the Hawaii votes proves that, as the Hawaii votes were all added in.

The military vote counters added districts that didn't exist. Just like they planned and practiced, several times, last summer. No one even questioned them, or thought to check their counts, or districts real existence. Obama was fully informed, even last summer.

Martin E. Dempsey and his Chinese paid generals were all ready to make everything look normal to the U.S.A. voters. They had Obama the winner in all of the Hawaiian voter districts prior to the actual vote. All of the Hawaiian districts vote counts, sent in, were made to match the previous year's population. Obama overwhelmingly won all districts in Hawaii, even though they do not exist any longer. The Hawaiian populations votes were not actually counted. If it was a matter of national security the actual count would have been counted, and the fraudulent counts would have been split fifty, fifty. The actual votes were not even counted. Zero U.S. citizens now live on three of the main five Hawaiian Islands.

The same with some nonexistent and no longer existent voter districts in Florida, and Rhode Island, and at least 31 in California, and some in other states. Totally fraudulent districts have appeared in several states. They added extra voter districts to the programs last summer.

Just how wide spread is the 2012 election voter fraud? Knowing that the Obama administration/Dempsey is going to be tried for treason when another person is elected as President, it is most likely very wide spread, in all states, where the military had orders from Dempsey to change the voter districts in the voter counting computers.

Obama plans to try to make everyone think that everything is normal. He is going to tell the media that he is going to Hawaii for Christmas, then he is going to hide out somewhere, and show the media videos from previous years. We may need to arrest Obama and his traitors before Christmas. For years China has planned to attack the U.S.A. on Christmas day. The Chinese have informed Dempsey of their new nuclear attack date. Dempsey plans to be out of the U.S.A. for the duration. Dempsey was a billionaire, via Chinese payoffs for U.S.A. military secrets, prior to Obama being elected. Notwithstanding, during Obama's first year in office he gave Dempsey pardons for more than one count of treason with the Chinese, thus becoming a co-conspirator.

All U.S.A. military installations are the first target of the Chinese nuclear assault on the mainland U.S.A.. Along with several very large U.S.A. cities. If we do not take repossession of the, in place, Chinese nuclear bombs on U.S.A. soil, the U.S.A. military is going to have less than five minutes to disarm them all. Last November, 2011, we did have Obama and crew arrested for conspiracy to overthrow the U.S.A. gov. We should have prosecuted him then.

The U.S.A. is in a pickle due to Obama and about nine military traders. But no matter how hard of a spot we are in, we will be better off the minute that we arrest them, sequester them due to security reasons, until their trials, period. Let the people who are not Chinese traders handle it. If we can do that the U.S.A. will have a fighting chance. With GODS help we can still survive. Obama did sign over the U.S.A. to become Chinese property in January 2013. Who gave him that authority?

Obama surrendered the U.S.A. to the Chinese, without the knowledge or consent of Congress, or the people. Then he ordered his military to hide it from Congress, as they might produce legislation to impeach him.

Obama has been paying the Chinese, to hold off till after the election. Obama has been paying the Chinese, with our defense equipment, our stealth bombers, our aircraft carriers, our nuclear submarines, etc. etc. etc. When the election is over and we run out of things to pay the Chinese off with, the Chinese plan to kill all non-Chinese people, worldwide. Obama pretends that they are just going to thin us out. His drug induced delusion is still remaining even after he discovered that they are killing everyone on the Hawaiian islands. Obama plans to let the Chinese thin us out without any military protection, or any military retaliation, or anything. He is so out of it that he thinks that they will just stop killing us at some point in time. If we do not defend ourselves, the Chinese will not stop killing us until we are all dead.

Obama will not defend our lives. He refuses to send one nuclear weapon on China, even after they use the same on us, he will not use one on them. We need to get rid of him before we get to that point. Obama, Martin E. Dempsey, James Winnefeld and Leon Panetta are all Chinese moles, bought and paid for. Panetta is personally throwing away all of the Hawaiian island evacuees letters to Congress. And everyone else's letters also, for more than two years. Even the Emails are stopped if the letters contain the words China or Hawaii.

Obama does not want anyone to know that he gave away the Hawaiian islands, and is allowing the Chinese to kill the U.S.A. citizens thereon. Obama does not want anyone to know that he gave away all of the U.S.A. defenses, and is refusing to take them back, among other things. Obama does not want anyone to know just how many U.S.A. citizens lives have thus far been lost on the Hawaiian islands. Obama is lying about the death count. He is admitting to maybe half a million. More daily, they have not stopped.

Dempsey, himself, killed one of the US Senators from Hawaii just to keep him silent. He is bragging about it. The Governors and Senators of New Jersey and other states have also had their lives threatened if they talk to anyone about the Chinese encroachment and murders on their shores. Florida, Rhode Island, California, Washington, Texas, Alabama, and Delaware.

Panetta personally mailed everyone, except Congress, a threatening letter full of lies, trying to save himself from prosecution, complete with forged signature and seal. Panetta has been making these documents with forged signatures and seals for over two years. All of the media gag orders were forged. Panetta is going to deny it, but we can prove it.

Obama could have saved almost all of the Hawaiian population, with some negotiations. He is lying when he says that he couldn't. The Hawaiian evacuees had to fly out on commercial flights. Obama refused to fly any unmarked military flights in or out to save anyone. Obama's military advisors gave him several ways to save thousands of Hawaiians lives. Obama chose to let the Chinese kill them, to save his run for office. Obama has ordered all personnel to make sure that no one finds out about this. They are even threatening the Hawaiian population that somehow managed to evacuate themselves.

The taxpayers paid our taxes for our military to protect and defend us, the public. Not to give our weapons to our enemy, to use to kill us, and our allies. Not to use our military to keep us in the dark. We paid our tax dollars to the military to protect and defend every last one of us, to the best of their ability, and to inform us so that we may be prepared.

MORENO, VALLEY, CA. 92552

## Cindy Miller

---

**From:** Karin Roberts <KRoberts@habitatriverside.org>  
**Sent:** Wednesday, May 01, 2013 4:18 PM  
**To:** Tom Owings  
**Cc:** Cindy Miller  
**Subject:** Habitat - 25 Anniversary  
**Attachments:** HFHR Board Roster work addresses January 2013.xlsx

Dear Mayor,

1. Myers Street - Thank you for taking the time to discuss with me future affordable home projects in Moreno Valley. Habitat sees it as a privilege to work in your city and together we will tackle the tight timeline for the 24265 Myers Street project (located between Indian and Heacock).
2. SB 391 – Please take a look at SB 391 – as mentioned, I am aware the bill isn't perfect, but somehow we need to replace the missing redevelopment monies. I run into Barry Foster and gave him also a folder with the same information about SB 391. We need to fight for a permanent source for affordable housing.
3. 25<sup>th</sup> Anniversary - thank you for allowing us to add your name on to our Honorary 25<sup>th</sup> Anniversary Committee. I will keep Cindy posted as we go along. Pamphlet in your folder.
4. Board - You wanted to see who is represented on our Board -I attached the current Board roster.

I will be attending the City Council Meeting on 5/14 ---

Thank You for your support.

Sincerely

Karin

## PROJECT INFORMATION

This project consists of development and construction of approx. eight single family homes for very-low income households who are first time home buyers. All families will have incomes at or below 50% of the Riverside County median income, adjusted for family size.

Location:	24265 Meyers Street, Moreno Valley CA. 92553
Assessor Parcel No:	481-250-002 and 481-250-003
No. of Houses:	8 to 10 residential units – detached single family homes
General Plan Designation:	Low Density Residential
Preliminary Design:	<p>Attached are floor plans and colored elevations for recently completed HFHR single family homes in the City of Moreno Valley ( two homes Plan A on Graham Street), City of Jurupa Valley, and City of Riverside. Each home will include an attached two-car garage, a front porch, and a rear concrete patio and are constructed in a craftsman style. All homes are built to Energy Star standards.</p> <p><b>Plan A:</b> 4-bedroom/2-bathroom home with 1,287 square foot living space, 136 square foot front porch, 432 square foot garage – total of 1,885 square feet.</p> <p><b>Plan B:</b> 3-bedroom/2 bathroom home with 1,317 square foot living space, 80 square foot front porch, 428 square foot garage – total of 1,825 square feet.</p> <p>The size of the dwellings can be modified to city specifications.</p>
Landscape Design:	Drought tolerant landscaping – we use landscape plans that were utilized for several of our recently built homes. They are irrigated with drip irrigation, and provide drought tolerant plants, citrus fruit trees and vegetable gardens and bark groundcover. There is minimal lawn area.

Green Features:

HFHR's construction proposes to include the following energy efficient features - Energy Star Standard:

- Tankless water heater
- LED recessed light cans
- Leviton motion sensing switches
- Solar skylight tubes
- Low VOC paint
- Radiant barrier roof
- R-38 insulation
- 5/8" drywall
- Low-flow toilets
- Low flow shower heads
- Energy efficient ceiling fans
- Energy Star windows
- Energy Star appliances
- Water wise drought tolerant landscape including fruit trees and vegetable garden
- Water wise drip irrigation
- 3 ton – 14SER A/C unit
- Exterior fluorescent lighting on photo cells
- 2KW solar panels provided by our partner Gridalternatives (only in Edison served areas – free for households below 50% AMI)

**Support SB 391 (DeSaulnier) the California Homes and Jobs Act of 2013:  
Spur job creation, boost California's business competitiveness,  
and build affordable homes for Californians**

Everyone in California needs a safe and affordable place to call home. Rents and mortgages within the reach of working families are critical to maintaining California's business competitiveness. **Let's get California building again.**

**The California Homes and Jobs Act of 2013 will:**

- ✓ Create 29,000 jobs annually, primarily in the beleaguered construction sector.
- ✓ Help businesses attract and retain the talent that fuels California's economy.
- ✓ Generate an estimated \$500 million in state investment and leverage an additional \$2.78 billion in federal and local funding and bank loans to build affordable homes and create jobs.
- ✓ Deploy these dollars in California communities through a successful private/public partnership model.
- ✓ Get California building again to create affordable home options for all Californians.

**The Housing Crisis Isn't Over for Many Californians**

For U.S. military veterans, former foster youth, families with children, people with disabilities, seniors on fixed incomes, and other vulnerable Californians, the housing crisis isn't over. In fact, millions of Californians are caught in the "perfect storm" — mortgages remain out of reach, credit standards have tightened, and the foreclosure crisis has pushed more people into a rental market already suffering from decades of short supply — leading to record-setting rent increases. The most vulnerable, who struggled to make rent before the foreclosure crisis, face even more uncertainty in today's rental market. They risk joining the 130,000+ Californians who are homeless on any given night.

**Building Affordable Homes Is a Business Imperative for California**

Business groups including the Los Angeles Area Chamber of Commerce, the Orange County Business Council and the Silicon Valley Leadership Group say California needs to increase the supply of housing options affordable to workers, so companies can compete for the talent that drives California's economy.

**By working together to pass SB 391 we can:**

- **Build safe and affordable single-family homes and apartments for Californians in need, including families, seniors, veterans, people with disabilities, and people experiencing homelessness.** A safe, secure home is essential for all Californians to live with dignity and safety; it is essential for children to succeed in school and in life.

Updated: February 9, 2013

- **Put Californians back to work.** The California Homes and Jobs Act will put tens of thousands of construction workers back on the job annually so they can provide for their families and boost local economies.
- **Unlock billions in federal, local, and private funds to build homes and create jobs.** The California Homes and Jobs Act would place a small fee on the recordation of real estate related documents — *excluding* home sales — raising \$500 million annually for state investment in affordable home production and leveraging an additional \$2.78 billion in federal, local, and bank investment in homes and jobs for Californians.
- **Help California’s budget live within its means.** The California Homes and Jobs Act is a renewable funding source that helps the state live within its means, increasing California’s supply of affordable homes, creating jobs, and spurring economic growth without incurring additional debt.
- **Build on California’s proven track record of public/private investment in affordable homes.** Since 2002, state investment through general obligation bonds has built more than 174,000 affordable apartments, for-sale homes, and shelters through successful programs that (1) build apartments affordable to seniors, people with severe disabilities, hardworking families with children, and others (Multifamily Housing Program); (2) assist households on modest budgets in becoming homeowners (CalHOME); and (3) provide stable homes for battered women, homeless mentally ill people, veterans, seniors, and others without a place to live (Multifamily Housing Program-Supportive Housing and Emergency Housing and Assistance Program), and others.

**Action Needed Now**

With funds from the successful state housing bonds Props. 46 and 1C running dry and the complete elimination of redevelopment, the availability of state dollars that leverage federal and local funds and private investment is the lowest it has been in years. This threatens housing production and the jobs that go with it. Failure to act now will leave millions without an affordable place to call home and make it incredibly difficult for California business to remain competitive.

---

An act to add Section 27388.1 to the Government Code, and to add Chapter 2.5 (commencing with Section 50470) to Part 2 of Division 31 of the Health and Safety Code, relating to housing.

LEGISLATIVE COUNSEL'S DIGEST

SB 391, as introduced, DeSaulnier. California Homes and Jobs Act of 2013.

Under existing law, there are programs providing assistance for, among other things, emergency housing, multifamily housing, farmworker housing, home ownership for very low and low-income households, and downpayment assistance for first-time homebuyers. Existing law also authorizes the issuance of bonds in specified amounts pursuant to the State General Obligation Bond Law. Existing law requires that proceeds from the sale of these bonds be used to finance various existing housing programs, capital outlay related to infill development, brownfield cleanup that promotes infill development, and housing-related parks.

This bill would enact the California Homes and Jobs Act of 2013. The bill would make legislative findings and declarations relating to the need for establishing permanent, ongoing sources of funding dedicated to affordable housing development. The bill would impose a fee, except as provided, of \$75 to be paid at the time of the recording of every real estate instrument, paper, or notice required or permitted

by law to be recorded. By imposing new duties on counties with respect to the imposition of the recording fee, the bill would create a state-mandated local program. The bill would require that revenues from this fee be sent quarterly to the Department of Housing and Community Development for deposit in the California Homes and Jobs Trust Fund, which the bill would create within the State Treasury. The bill would provide that moneys in the fund may be expended for supporting affordable housing, administering housing programs, and the cost of periodic audits, as specified. The bill would impose certain auditing and reporting requirements.

This bill would result in a change in state taxes for the purpose of increasing state revenues within the meaning of Section 3 of Article XIII A of the California Constitution, and thus would require for passage the approval of  $\frac{2}{3}$  of the membership of each house of the Legislature.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote:  $\frac{2}{3}$ . Appropriation: no. Fiscal committee: yes.  
State-mandated local program: yes.

*The people of the State of California do enact as follows:*

- 1 SECTION 1. This act shall be known as the California Homes  
2 and Jobs Act of 2013.
- 3 SEC. 2. The Legislature finds and declares that having a healthy  
4 housing market that provides an adequate supply of homes  
5 affordable to Californians at all income levels is critical to the  
6 economic prosperity and quality of life in the state. The Legislature  
7 further finds and declares all of the following:
- 8 (a) Funding approved by the state's voters in 2002 and 2006,  
9 as of June 2011, has financed the construction, rehabilitation, and  
10 preservation of over 11,600 shelter spaces and 57,220 affordable  
11 apartments, including 2,500 supportive homes for people  
12 experiencing homelessness. In addition, these funds have helped  
13 57,290 families become or remain homeowners. Nearly all of the  
14 voter-approved funding for affordable housing was awarded by  
15 the beginning of 2012.

1 (b) The requirement in the Community Redevelopment Law  
2 that redevelopment agencies set aside 20 percent of tax increment  
3 for affordable housing generated roughly one billion dollars  
4 (\$1,000,000,000) per year. With the elimination of redevelopment  
5 agencies, this funding stream has disappeared.

6 (c) California has 12 percent of the United States population  
7 but 21.4 percent of its homeless population. Seventy-three percent  
8 of people experiencing homelessness in California fell into it  
9 because they could not afford a place to live. Sixty-two percent of  
10 homeless Californians are unsheltered, 14 percent are veterans,  
11 and 20 percent are families.

12 (d) Furthermore, 4 of the top 10 metropolitan areas in the  
13 country for homeless are in the following metropolitan areas in  
14 California: San Jose-Sunnyvale-Santa Clara, Los Angeles-Long  
15 Beach-Santa Ana, Fresno, and Stockton.

16 (e) California continues to have the second lowest  
17 homeownership rate in the nation, and minimum wage earners  
18 have to work 120 hours per week to afford the average  
19 two-bedroom apartment.

20 (f) Millions of Californians are affected by the state's chronic  
21 housing shortage, including seniors, veterans, people experiencing  
22 chronic homelessness, working families, people with mental,  
23 physical, or developmental disabilities, agricultural workers, people  
24 exiting jails, prisons, and other state institutions, survivors of  
25 domestic violence, and former foster and transition-aged youth.

26 (g) While the current credit and foreclosure crisis has resulted  
27 in reductions in home prices in some areas, it has increased pressure  
28 on the rental housing market and slowed new housing production  
29 of all types, exacerbating the mismatch between the ever increasing  
30 number of households that need housing they can afford and the  
31 supply.

32 (h) California's workforce continues to experience longer  
33 commute times as persons in the workforce seek affordable housing  
34 outside the areas in which they work. If California is unable to  
35 support the construction of affordable housing in these areas,  
36 congestion problems will strain the state's transportation system  
37 and exacerbate greenhouse gas emissions.

38 (i) Many economists agree that the state's higher than average  
39 unemployment rate is due in large part to massive shrinkage in the  
40 construction industry from 2005 to 2009, including losses of nearly

1 700,000 construction-related jobs, a 60-percent decline in  
2 construction spending, and an 83-percent reduction in residential  
3 permits. Restoration of a healthy construction sector will  
4 significantly reduce the state's unemployment rate.

5 (j) The lack of sufficient housing impedes economic growth  
6 and development by making it difficult for California employers  
7 to attract and retain employees.

8 (k) To keep pace with continuing demand, the state should  
9 identify and establish a permanent, ongoing source or sources of  
10 funding dedicated to affordable housing development. Without a  
11 reliable source of funding for housing affordable to the state's  
12 workforce and most vulnerable residents, the state and its local  
13 and private housing development partners will not be able to  
14 continue increasing the supply of housing after existing housing  
15 bond resources are depleted.

16 (l) The investment will leverage billions of dollars in private  
17 investment, lessen demands on law enforcement and dwindling  
18 health care resources as fewer people are forced to live on the  
19 streets or in dangerous substandard buildings, and increase  
20 businesses' ability to attract and retain skilled workers.

21 (m) In order to promote housing and homeownership  
22 opportunities, the recording fee imposed by this act should not be  
23 applied to any recordings made in connection with a sale of real  
24 property. Purchasing housing is likely the largest purchase made  
25 by Californians, and it is the intent of this act not to increase  
26 transaction costs associated with these transfers.

27 SEC. 3. Section 27388.1 is added to the Government Code, to  
28 read:

29 27388.1. (a) (1) Except as provided in paragraph (2), in  
30 addition to any other recording fees specified in this code, a fee  
31 of seventy-five dollars (\$75) shall be paid at the time of recording  
32 of every real estate instrument, paper, or notice required or  
33 permitted by law to be recorded except those expressly exempted  
34 from payment of recording fees. "Real estate instrument" includes,  
35 but is not limited to, the following documents: deed, grant deed,  
36 trustee's deed, deed of trust, reconveyance, quit claim deed,  
37 fictitious deed of trust, assignment of deed of trust, request for  
38 notice of default, abstract of judgment, subordination agreement,  
39 declaration of homestead, abandonment of homestead, notice of  
40 default, release or discharge, easement, notice of trustee sale, notice

1 of completion, UCC financing statement, mechanic's lien, maps,  
2 and covenants, conditions, and restrictions;

3 (2) The fee described in paragraph (1) shall not be imposed on  
4 any real estate instrument, paper, or notice recorded in connection  
5 with a transfer subject to the imposition of a documentary transfer  
6 tax as defined in Section 11911 of the Revenue and Taxation Code.

7 (b) The fees, after deduction of any actual and necessary  
8 administrative costs incurred by the county recorder in carrying  
9 out this section, shall be sent quarterly to the Department of  
10 Housing and Community Development for deposit in the California  
11 Homes and Jobs Trust Fund established by Section 50471 of the  
12 Health and Safety Code, to be expended for the purposes set forth  
13 in that section. In addition, the county shall pay to the Department  
14 of Housing and Community Development interest, at the legal  
15 rate, on any funds not paid to the Controller within 30 days of the  
16 end of a quarter.

17 SEC. 4. Chapter 2.5 (commencing with Section 50470) is added  
18 to Part 2 of Division 31 of the Health and Safety Code, to read:

19  
20 CHAPTER 2.5. CALIFORNIA HOMES AND JOBS TRUST FUND

21  
22 Article 1. General Provisions

23  
24 50470. This chapter shall be known, and may be cited, as the  
25 California Homes and Jobs Act of 2013.

26 50471. (a) There is hereby created in the State Treasury the  
27 California Homes and Jobs Trust Fund. All interest or other  
28 increments resulting from the investment of moneys in the fund  
29 shall be deposited in the fund, notwithstanding Section 16305.7  
30 of the Government Code. Moneys in the California Homes and  
31 Jobs Trust Fund shall not be subject to transfer to any other fund  
32 pursuant to any provision of Part 2 (commencing with Section  
33 16300) of Division 4 of Title 2 of the Government Code, except  
34 to the Surplus Money Investment Fund. Upon appropriation by  
35 the Legislature, moneys in the fund may be expended for the  
36 following purposes:

37 (1) Supporting the development, acquisition, rehabilitation, and  
38 preservation of housing affordable to low- and moderate-income  
39 households, including, but not limited to, emergency shelters;  
40 transitional and permanent rental housing, including necessary

1 service and operating subsidies; foreclosure mitigation; and  
2 homeownership opportunities.

3 (2) Administering housing programs that receive an  
4 appropriation from the fund. Moneys expended for this purpose  
5 shall not exceed 5 percent of the moneys in the fund.

6 (3) The cost of periodic audits required by Section 50475.

7 (b) Both of the following shall be paid and deposited in the  
8 fund:

9 (1) Any moneys appropriated and made available by the  
10 Legislature for purposes of the fund.

11 (2) Any other moneys that may be made available to the  
12 department for the purposes of the fund from any other source or  
13 sources.

14

15

## Article 2. Audits and Reporting

16

17 50475. The Bureau of State Audits shall conduct periodic audits  
18 to ensure that the annual allocation to individual programs is  
19 awarded by the department in a timely fashion consistent with the  
20 requirements of this chapter. The first audit shall be conducted no  
21 later than 24 months from the effective date of this section.

22 50476. In its annual report to the Legislature pursuant to  
23 Section 50408, the department shall report how funds that were  
24 made available pursuant to this chapter and allocated in the prior  
25 year were expended. The department shall make the report  
26 available to the public on its Internet Web site.

27 SEC. 5. No reimbursement is required by this act pursuant to  
28 Section 6 of Article XIII B of the California Constitution because  
29 a local agency or school district has the authority to levy service  
30 charges, fees, or assessments sufficient to pay for the program or  
31 level of service mandated by this act, within the meaning of Section  
32 17556 of the Government Code.

O

## California needs financing mechanism for affordable homes

Chris Carey, Executive Vice President and CFO, City National Bank

In 2012, California outpaced the rest of the country in job growth, but hard work remains to keep the job momentum going.

This year, California must create new tools to fix one of its most serious and enduring problems: providing enough homes that are affordable to workers and their families.

The jobs future depends on housing. In the most obvious way, building new houses and apartments creates jobs - not only for the workers who are directly involved in their design, construction, finance and sale, but also for those who provide indirect services like selling furniture and servicing construction equipment. Creating for-sale and rental homes within reach of workers is also critical to creating jobs in sectors of our economy other than construction. Companies cannot keep or attract talented workers if those workers cannot find affordable places to live nearby.

Right now, the trends aren't encouraging. Though widespread foreclosures have lowered for-sale home prices, the flood of former owners into an already strained rental market has driven up rents - by double digits in some areas. In Silicon Valley, for example, one of the state's growth engines, average rents rose 10 percent in 2012, as construction of affordable homes and apartments fell to a 15-year low.

Unfortunately, the state tools available to help build affordable homes are disappearing.

Elimination of state redevelopment funding quickly ground local affordable home building efforts to a halt. Funds from bond measures approved by voters in 2002 and 2006 are running out.

That is why a broad, bipartisan coalition of Californians has come together to ask the state to create a new, more sustainable housing finance tool: the California Homes and Jobs Act of 2013.

Here's how it works. The Homes and Jobs Act will levy a \$75 fee on the recording of real-estate-related documents - excluding home sales - and deposit the proceeds into a state housing trust fund. The trust will fund public-private partnerships modeled on California's current affordable home programs. These programs have served a broad group of the state's residents: seniors and people with severe disabilities, working families with children, first-time home buyers, veterans, battered women and people experiencing homelessness. The \$500 million raised annually by the act will let California leverage another \$2.78 billion in federal, local and private capital to invest in meeting its housing needs. Known as Senate Bill 391, it is already supported by the Los Angeles Chamber of Commerce, Orange County Business Council, Silicon Valley Leadership Group, California Building Industry Association, and a broad array of faith-based, veterans and labor groups.

SB 391 builds on California's proven housing programs with a model used by other states. More than 40 states have state housing trust funds with dedicated revenue sources, nine of them using real-estate recording fees. The act will give California a permanent housing tool well-tested elsewhere, allowing it to finance housing without deficit spending.

In the collapse of home building, it is clear how important residential construction is in providing jobs and opportunity for the middle class. The Homes and Jobs Act will create 29,000 new jobs annually, primarily in the beleaguered construction sector.

All across California, local communities, investors and developers are ready to begin building affordable homes again and put Californians back to work. What they need from Sacramento is a new reliable housing tool to provide permanent and predictable financing. California's job future depends on it.

*Chris Carey is executive vice president and chief financial officer for City National Bank and a member of the Business Leader's Task Force on Homelessness, a partnership of United Way of Greater Los Angeles and the Los Angeles Area Chamber of Commerce.*

February 27, 2013

The Honorable Mark DeSaulnier  
Chair  
Senate Transportation and Housing Committee  
State Capitol Room 5035  
Sacramento, CA 95814

Dear Chairman DeSaulnier:

The Los Angeles Area Chamber of Commerce, Orange County Business Council, Silicon Valley Leadership Group and the Los Angeles Business Council thank you for taking action to create jobs and maintain California's business competitiveness with your authorship of SB 391, the California Homes and Jobs Act of 2013. On behalf of over 2000 businesses that fuel California's economy, we support this legislation to:

- ✓ Create 29,000 jobs annually, primarily in the beleaguered construction sector.
- ✓ Help businesses attract and retain the talent that fuels California's economy by building homes with rents and mortgages within reach of working families.
- ✓ Leverage \$2.78 billion in federal and local funding and bank loans to build affordable homes and create jobs.
- ✓ Deploy these dollars in California communities through a successful private/public partnership model.

CEO's say a lack of housing options within reach of the workforce is a major factor impeding California's businesses from attracting and retaining workers.

The California Homes and Jobs Act's modest fee on the recordation of real estate documents – *excluding* home sales – is a sustainable and self-renewing source of funding that will leverage billions in federal and local funding and bank loans to develop and operate homes affordable to families, seniors, people with disabilities and the homeless.

Importantly, SB 391 helps California's budget to live within its means, making funding available for private sector, affordable home construction *without creating new debt*.

With successful state housing bond funds running dry and the complete elimination of

redevelopment, the availability of state dollars that leverage federal and local funds and private investment is the lowest it has been in years. This threatens housing production and the jobs that go with it. Failure to act now will leave millions without an affordable place to call home and make it incredibly difficult for California business to remain competitive.

Again, we thank you for your authorship of this important legislation, and look forward to working with you to build homes, create jobs and maintain California's economic competitiveness.

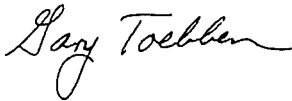

Sincerely,

Mary Leslie  
President  
Los Angeles Business Council

Lucy Dunn  
President and CEO  
Orange County Business Council

Gary Toebben  
President and CEO  
Los Angeles Area Chamber of Commerce

Carl Guardino  
President and CEO  
Silicon Valley Leadership Group

## The Role of Affordable Housing in Creating Jobs and Stimulating Local Economic Development

### Evidence in Brief<sup>†</sup>

By Keith Wardrip, Laura Williams, and Suzanne Hague

January 2011

The primary goal of affordable housing is to lower the monthly housing costs for low- and moderate-income families. But research shows that affordable housing development also drives local economic growth. This fact sheet summarizes the different ways in which affordable housing<sup>§</sup> can contribute to rising employment and economic recovery.

### Building Affordable Housing Creates Jobs and Spending Both During Construction and After the Homes are Occupied

It stands to reason that building or rehabilitating affordable housing creates jobs in the construction field. Less obvious is that this activity ripples through the economy, supporting businesses that supply the construction trade as well as retailers, health services, and restaurants where newly employed workers spend their pay. The National Association of Home Builders estimates that building 100 new Low-Income Housing Tax Credit units for families can lead to the creation of more than 120 jobs during the construction phase. Furthermore, once the paint is dry and the homes are occupied, new residents continue to support roughly 30 jobs in a wide array of industries.<sup>1</sup> Figure 1 illustrates the types of jobs created and supported during construction and after occupancy. These employment effects are on-par with building comparable market-rate units.

FIGURE 1. Types of Jobs Created During and After the Construction of a 100-Unit Family LIHTC Property

Source: National Association of Home Builders. 2010. *The Local Economic Impact of Typical Housing Tax Credit Developments*. Washington, DC: Author.

<sup>†</sup>This fact sheet summarizes the conclusions of a detailed research review by the Center for Housing Policy titled "The Role of Affordable Housing in Creating Jobs and Stimulating Local Economic Development: A Review of the Literature." Released by the Center for Housing Policy in January 2011, this review is available at <http://www.nhc.org/media/files/Housing-and-Economic-Development-Report-2011.pdf>.

<sup>§</sup>Affordable housing takes many different forms, and this review uses the term broadly to encompass all housing developed at levels affordable to low- and moderate-income households. Most of the programs explored in this fact sheet (e.g., the Low-Income Housing Tax Credit Program, down payment assistance programs, community land trusts, public housing, etc.) use a subsidy to bring housing costs down to below-market rates and in-line with what low- and moderate-income households can afford. However, this fact sheet also considers the impacts of programs and policies that reduce housing-related expenses (such as energy and transportation costs) or that provide sound, unsubsidized mortgage products to low- and moderate-income households.

## The Development of Affordable Housing Can Help Attract Both New Employers and a Skilled Workforce

Many employers have reported that a lack of affordable housing makes it more difficult — and thus more costly — to recruit and retain employees. In a national survey of more than 300 companies, 55 percent of the companies with more than 100 employees acknowledge an insufficient level of affordable housing in their proximity, and two-thirds of these respondents believe that the shortage is negatively affecting their ability to hold onto qualified employees.<sup>2</sup> Surveys also suggest that the availability of affordable housing plays a role in where businesses decide to build, relocate, or expand their operations.<sup>3</sup> From an employer's perspective, a lack of affordable housing can put a local economy at a competitive disadvantage.

Population and employment trends suggest that many employees feel the same way. During the run-up in home prices in the early part of the 2000s, 23 of the 35 highest-cost metro areas lost domestic population, while most moderately priced housing markets grew in size.<sup>4</sup> Preliminary research has also linked unaffordable housing

to slower employment growth.<sup>5</sup> This research suggests that mobile workers with choices might move away from areas with the highest housing costs in order to pursue opportunities in more affordable locales.

## Investing in Affordable Homes Increases Revenues for States and Localities

When affordable homes are built or rehabbed, the funds flowing to cities and states can be considerable. Revenues can take the form of fees for permitting, zoning, and utilities, or they can reflect sales, income, or property taxes generated by the construction-related economic activity. The National Association of Home Builders estimates that 100 Low-Income Housing Tax Credit units occupied by families generate roughly \$827,000 in local revenue immediately, with more than half coming from permit/impact fees and utility user fees.<sup>6</sup>

Additionally, research has shown that a new affordable housing development is more likely to have a neutral or positive impact on property values than a negative impact.<sup>7</sup> In situations where the impact is positive (e.g., a nicely designed development replaces a vacant lot or a dilapidated building), higher property values can translate into higher property tax revenues for local governments.

## Homebuyers Who Participate in an Affordable Homeownership Program Appear Less Likely to Experience Foreclosure Than Those Who Do Not, Which Can Reduce Government Spending

Recent research suggests that efforts to create affordable and sustainable homeownership opportunities for low- and moderate-income households can lower participants' risk of delinquency and foreclosure. Some effective programs provide zero-interest loans for down payment and closing cost assistance; others lower the cost of the home to a level affordable to working families; still others simply provide sound underwriting for prime loans in typically underserved areas. Illustrating the effectiveness of such efforts, one study finds that among low- and moderate-income borrowers, those who received subprime loans were three to five times more likely to default on their mortgage than those who received prime loans through an affordable lending program.<sup>8</sup> Additionally, a review of a program in Massachusetts that offers low-interest loans to help with down payment costs concludes that low- and moderate-income participants are only about half as likely to be in foreclosure as other borrowers in the state with prime, fixed-rate loans (0.75 percent compared to 1.39 percent).<sup>9</sup>

Bigstock Photo

Bigstock Photo

As long as the combined costs of housing and transportation remain affordable, both working families and local economies can reap the benefits as families have more to spend on local goods.

When they do occur, foreclosures force local governments to absorb many direct costs, including costs for boarding the property and coordinating trash removal; court and legal expenses; increased police and social services for the affected neighborhoods; and, potentially, demolition of severely distressed properties. Local governments may also see property taxes, utility revenues and other taxes and fees decline. Municipal costs for a single foreclosure can easily total in the thousands of dollars and exceed \$30,000 in extreme cases.<sup>10</sup> And in addition to these direct costs, foreclosure activity can lower nearby property values, which, in turn, can have a significant impact on government revenues.

Affordable homeownership programs, therefore, represent a smart, fiscally sound mechanism for promoting housing and neighborhood stability.

### **When Housing and Associated Costs Such as Transportation and Utilities Are Affordable, Families Have More Income to Spend on Local Goods and Services**

Affordable rent and mortgage payments can significantly increase the residual income that households have at their disposal after meeting necessary housing costs — by five hundred dollars or more per month in some cases.<sup>11</sup> Research shows that low- and moderate-income households are more likely than others to spend (rather than to save) this money to fulfill basic, but otherwise unmet, household needs such as food, clothing, healthcare, and transportation.<sup>12</sup> Local businesses stand to gain from the

increased buying power made possible by the availability of affordable housing.

Working families can also enjoy lower monthly costs if their home is in a dense, mixed-use community with access to public transit or job centers. One study shows that among working families earning between \$20,000 and \$35,000 (in 2000 dollars), those in central cities spend a significantly smaller share of their income on housing and transportation costs (54 percent) than do those living at greater distances from employment centers (70 percent).<sup>13</sup> A similar trend holds for households with incomes between \$35,000 and \$50,000. As long as the combined costs of housing and transportation remain affordable, both working families and local economies can reap the benefits as families have more to spend on local goods.

The same concept applies to homes that are energy-efficient. Energy-efficient homes reduce the use of fossil fuels and lower monthly utility costs in the process. The United States Department of Energy estimates that the federal Weatherization Assistance Program helps low-income families reduce utility costs by an average of \$437 per year.<sup>14</sup> Similar to an affordable rent or mortgage, reduced utility costs free up funds in a family's budget, allowing them to purchase more goods from local businesses.

Additionally, many builders of energy-efficient homes try to buy materials from local suppliers in order to reduce greenhouse gas emissions associated with transporting materials over long distances.<sup>15</sup> This maximizes the ripple effect of new construction or rehabilitation for local establishments and minimizes the loss of economic activity to other businesses.

As the research affiliate of the National Housing Conference (NHC), the Center for Housing Policy specializes in developing solutions through research. In partnership with NHC and its members, the Center works to broaden understanding of the nation's housing challenges and to examine the impact of policies and programs developed to address these needs. Combining research and practical, real-world expertise, the Center helps to develop effective policy solutions at the national, state and local levels that increase the availability of affordable homes.

## Serve on the City's Boards and Commissions

### An Invitation

City Boards and Commissions are the underpinnings of our community—they are how the community navigates the daily and weekly decisions that make Riverside run smoothly to become the kind of community we all want. Your Mayor and City Council members encourage your participation. Applicants must reside in Riverside and be a registered voter. The terms of office are four years, and members may serve as many as two consecutive terms.

### What Happens When You Apply?

Applications are accepted year-round, and vacancies are filled as they become available. The City Clerk's Office will let you know if you qualify and when vacancies will occur on the Board or Commission you are interested in. The Charter requires that all seven Council Wards be represented on each Board or Commission.

Please identify on the application all Boards and Commissions for which you have an interest in serving.

### What are the City's Boards and Commissions?

- Airport Commission
- Community Police Review Commission
- Commission on Disabilities
- Cultural Heritage Board
- Human Relations Commission
- Human Resources Board
- Board of Library Trustees
- Mayor's Commission on Aging
- Metropolitan Museum Board
- Park and Recreation Commission
- Planning Commission
- Board of Public Utilities
- Transportation Board

### How Do I Apply?

Applications may be picked up at the City Clerk's Office  
7th Floor of City Hall  
3900 Main Street  
or by calling 826-5557.

You may also download an application from the City Clerk's Web site at: [RiversideCa.gov/city\\_clerk](http://RiversideCa.gov/city_clerk)

### Is There a Deadline?

Applications are accepted year-round. Call the City Clerk's Office for information on deadlines for the current recruiting cycle.

Participate in the growth and safety  
of your community.

## APPLY TODAY!

## BOARDS AND COMMISSIONS

### AIRPORT COMMISSION\*:

Nine members act in an advisory capacity to the Mayor and City Council in all matters pertaining to administration, operation, development, improvement and maintenance of the Airport.

Meets at 2:30 p.m. the second Wednesday of each month in the Airport Terminal Building Conference Room. Time commitment may include 2-3 hours per month. For further information or to leave messages for Commission members, call Corinne Parker at 351-6113.

### COMMUNITY POLICE REVIEW COMMISSION:

Nine members advise the Mayor and City Council on all police/community relations issues; conduct public outreach to educate the community on the purpose of the Commission; receive, review and investigate, through its manager, complaints of alleged police employee misconduct; and conduct hearings and make findings to advise the Police Department in matters pertaining to police policies and practices.

Meets at 5:30 p.m. on the fourth Wednesday of each month in the Art Pick Council Chamber at City Hall. Time commitment may include 18-20 hours per month. For further information or to leave messages for Commission members, call Phoebe Sherron at 826-5509.

### COMMISSION ON DISABILITIES:

Eleven members advise the Mayor and City Council on all matters affecting persons with disabilities in the community. Commission members review community policies, programs and actions that affect persons with access and functional needs and make appropriate recommendations to the City Council.

Meets at 6 p.m. the second Monday of each month in the Fifth Floor Large Conference Room at City Hall. Time commitment may include 1-2 hours per month. For further information or to leave messages for Commission members, call Monique Gordon at 826-5427.

### CULTURAL HERITAGE BOARD\*:

Nine members make recommendations to the Mayor and City Council for the preservation of all historical objects, events, structures and sites.

Meets at 3:30 p.m. the third Wednesday of each month in the Art Pick Council Chamber. Time commitment may include 4-6 hours per month. For further information or to leave messages for Board members, call Frances Andrade at 826-5658.

### HUMAN RELATIONS COMMISSION:

Fifteen members advise the Mayor and City Council on issues of discrimination as well as promote diversity and equal opportunity in the City of Riverside. Commission members include representation from the following fields: education, medicine, health and welfare, law, real estate, industry, business, finance, law enforcement and labor.

Meets at 6 p.m. the third Thursday of each month throughout the community. Time commitment may include 6-8 hours per month. For further information or to leave messages for Commission members, call the Mayor's office at 826-5551.

### HUMAN RESOURCES BOARD:

Nine members act in an advisory capacity to the Mayor and City Council on matters related to personnel administration such as employment opportunities, equal employment opportunity, and policies and procedures impacting Human Resources among other issues. The Board meets with different department heads each month to receive department profiles related to activities and staffing.

Meets at 4 p.m. the first Monday of each month in the Second Floor Large Conference Room. Time commitment may include 2-3 hours per month. For further information or to leave messages for Board members, call Colene Torres at 826-5948.

### BOARD OF LIBRARY TRUSTEES\*:

Nine members are in charge of administration of City libraries. They make and enforce bylaws, rules and regulations as necessary and advise the Mayor, City Manager and City Council on the Library Department budget.

Meets at 5 p.m. the fourth Monday of each month in the Main Library Auditorium. Time commitment may include 3-5 hours per month. For further information or to leave messages for Board members, call Cindie Krueger at 826-5213.

### MAYOR'S COMMISSION ON AGING:

Eleven members act in an advisory capacity to the Mayor and City Council on all matters pertaining to senior citizens and their needs. This Commission requires its members to be at least 55 years old and not be paid representatives of an elder service.

Meets at 1 p.m. the second Thursday of each month in the Mayor's Ceremonial Room. Time commitment may include 6-10 hours per month. For further information or to leave messages for Commission members, call the Mayor's office at 826-5551.

### METROPOLITAN MUSEUM BOARD:

Nine members serve in an advisory capacity to the Mayor and City Council in matters pertaining to museum scope, growth and development, care, maintenance, daily operations and activities.

Meets at 4 p.m. the second Tuesday of each month in the Metropolitan Museum Conference Room. Time commitment may include 4-8 hours per month. For further information or to leave messages for Board members, call Toni Kinsman at 826-5273.

### PARK AND RECREATION COMMISSION\*:

Nine members act in an advisory capacity to the Mayor and City Council in all matters pertaining to parks, recreation, parkways, and street trees.

Meets at 6:30 p.m. the first Monday after the first Tuesday of each month at various locations. Time commitment may include 8-10 hours per month. For further information or to leave messages for Commission members, call Mayra Ocampo at 826-2055.

### PLANNING COMMISSION\*:

Nine members act in an advisory capacity to the Mayor and City Council on proposed changes to the General Plan for the physical development of the City, make recommendations on proposed zoning and land use and exercises control over land subdivisions and development applications.

Meets at 9 a.m. the first and third Thursdays after the first Tuesday of each month in the Art Pick Council Chamber. Time commitment may include 16-24 hours per month. For further information or to leave messages for Commission members, call Andrea Robles at 826-5989.

### BOARD OF PUBLIC UTILITIES\*:

Nine members make reports and recommendations to the Mayor and City Council regarding the Electric and Water Divisions of the Department of Public Utilities.

Meets at 8:30 a.m. the first and third Fridays of each month in the Public Utilities Board Room, 3750 University Ave., Fifth Floor. Time commitment may include 10-15 hours per month, including several committee meetings. For further information or to leave messages for Board members, call Cathy Ference at 826-5197.

### TRANSPORTATION BOARD\*:

Nine permanent members act in an advisory capacity to the Mayor and City Council in matters pertaining to public parking and the operation and management of the City streets systems and recommend traffic regulations.

Meets at 5:30 p.m. the first Wednesday of each month in the Orange Square Board Room. Time commitment may include 3-4 hours per month. For further information or to leave messages for Commission members, call Sharon Hedges at 826-5366.

\* The Political Reform Act of 1974 requires filing of Statements of Economic Interests for these boards and commissions.

P.O. Box 1095, 22876 Mountain Ave, Perris CA 92572

April 29, 2013

The Honorable Tom Owings  
Mayor Moreno Valley  
14177 Frederick Street  
Moreno Valley, CA 92552

Dear Mr. Mayor,

We bring you greetings in the name of Jesus Christ! Good Hope Missionary Baptist Church in Perris California will host its 1st Annual "Mountain Movers" Dinner on Saturday, September 28, 2013, at 4:00 PM. We will be honoring several individuals in the City of Moreno Valley in the area of medicine, education, and law enforcement. We are asking the City of Moreno Valley to sponsor four (4) tables for our young people who live in the City of Moreno Valley. The cost for tickets is \$35.00 and each table will seat eight (8) people. The total cost is \$1,120.00

This event will be held at the Moreno Valley Grand Ball room in the City of Moreno Valley. The address to this facility is 14075 Fredrick Street, Moreno Valley California 92552

Our theme for this annual occasion is entitled "I Am Still Standing For Jesus Christ." Our scripture is coming from Luke 17:6. All proceeds from this event will go toward the Reverend Alonzo Simmons Scholarship Fund. Our goal is threefold: to raise funds to help students who intend to go to college and to allow some of our young people (middle and high school students/Moreno Valley) to see the value of getting a quality education and to allow them to see successful role models in our community.

Additionally, there will be a souvenir booklet for this annual occasion and the City of Moreno Valley will have a full page add incorporated into the booklet as one of our supporter. Checks and or money order can be made payable to: Good Hope Missionary Baptist Church.

If you have any questions, you can contact me at (951) 616-0885.

Sincerely,

A handwritten signature in black ink, appearing to read "James Baylark".

Dr. James Baylark, Pastor

"Serving Christ is our highest privilege" Luke :9:23

## **FAITH PROMOTES B.L.I.S.S.**

Faith-based organizations have typically been the place where people in need go for help. More and more people today, including Government, understand that faith-based programs provide encouragement, motivation and ethical instruction, as well as help with daily needs. Also, Faith-based organizations that have effective ministries for the poor preserve their dignity through personal contact. That integrity helps people who are living in poverty overcome their daily obstacles and provides them the necessary tools to not only overcome poverty, but to stay out of it as well.

According to the 2005 U.S. Census Bureau data for Riverside County, there are 41,939 families or 216,935 individuals living in poverty. There are more than 1,350 places of worship in Riverside County. If every place of worship became responsible for just one family, poverty in Riverside County would begin to be eliminated. It is against this backdrop this proposal is made to embrace Project B.L.I.S.S..

Project B.L.I.S.S. stands for Building Links Impacts Self-Sufficiency. The Commission of the Community Action Partnership of Riverside County (CAP Riverside) and the Board of Supervisors have adopted "Bliss County", the Vision of Riverside County without poverty. Project B.L.I.S.S. is the program that implements this Vision. It is one of ten national models under the auspices of "Move the Mountain" an organization created in Ames, Iowa to address poverty. Move the Mountain has achieved success in helping move families out of poverty, saving millions of dollars in welfare payments each year, and adding new tax payers to communities. CAP Riverside is the only agency implementing this model in California.

Project B.L.I.S.S. Facilitators identify a family living at or below 200% of the federal poverty level, that has decided that they are ready to change their lives. Together, the Facilitator, Family and 3-5 Volunteers (called Allies) form a trusting relationship through a "Circle of Support".

A Circle of Support is a group of people who meet together on a regular basis to help a family, who has made the decision to take the necessary steps to move out of the isolation that is created by poverty, and accomplish goals established by the family. The family will have 3 to 5 Allies work with them to overcome obstacles and make positive changes in their lives. The emphasis of each Circle of Support is to build strong relationships, break down misinformation people have about one another and make it possible for families having a difficult time to gather enough resources, and support around them to thrive. An Ally can be anyone who wants to share their time and talents to support a family. Facilitators are essential to an effective circle meeting. The Facilitator helps guide the Circle, helps coordinate the activities, and helps people make commitments to action.

A second layer of support for Project B.L.I.S.S. families is called the Guiding Coalition; a group of 12-20 influential people, who are considered to be the "movers and shakers" of the community. Coalition members have access to resources, can make policy changes, and forge new partnerships to facilitate necessary changes for low-income people. They agree to provide advice or resources, on an as-needed basis, to help Facilitators aid Families and Allies who encounter roadblocks to making changes.

## **Community Action Partnership of Riverside County of Riverside**

### **Project B.L.I.S.S.**

Project B.L.I.S.S. stands for **B**uilding **L**inks **I**mpacts **S**elf-**S**ufficiency. The Commission of the Community Action Partnership of Riverside County (CAP Riverside) and the Board of Supervisors have adopted "Bliss County", the Vision of Riverside County without poverty. Project B.L.I.S.S. is the program that implements this Vision. Through a partnership with Move the Mountain Leadership Center in Iowa, "Circles" was implemented as a major part of Project B.L.I.S.S. as a way to develop relationships and build bridges that make it easier for people to transition out and remain out of poverty.

### **How the Program Works**

Project B.L.I.S.S. Circle Coaches identify a family living at or below 200% of the federal poverty level that has decided that they are ready to change their lives. Together, the Circle Coach, Circle Leader and 3-5 Volunteers (called Allies) form a trusting relationship through a "Circle". A Circle is a group of people who meet together on a regular basis to help a family, who has made the decision to take the necessary steps to move out of the isolation created by poverty accomplish goals established by the family.

### **Circle Coach**

A circle coach helps guide the Circle, helps coordinate activities, and facilitate attainment of the Circle Leader's goal.

### **Circle Leader**

A Circle Leader is the head of the participating low-income family that is interested in meeting household needs on a consistent basis and becoming self-sufficient. The Circle Leader is responsible for their Circle; convening, leading, and giving and receiving support. The Circle Leader works with the allies to complete their plan that was developed in the Getting Ahead classes and with the Circles Coach.

### **Circle Ally**

A Circle Ally is a community member who wants to be in a supportive, intentional, befriending relationship with a family working to get out of poverty. Circle allies work with the Circle Leader to successfully accomplish the plan. Within the guidelines set by the Guiding Coalition, circle Allies do what makes sense for the Circle.

### **Guiding Coalition**

A Guiding Coalition is composed of community leaders, elected and appointed officials, volunteers and families who are striving to get out of poverty. This group works to change the mindset and policies of their community with respect to poverty.

### **Bridges Out of Poverty Training**

Training for allies and key staff which provides an overview of the Circles model including information on how the Circles model differs from the traditional social service model, the importance of community engagement, mental models on hidden rules of class, community sustainability and pathways out of poverty.

### **Getting Ahead Curriculum**

Getting Ahead is for Circle Leaders and helps prepare them for a "Circle". It helps them understand economic class issues and helps them develop a plan to improve their resources and be an effective Circle Leader. Participants learn how the hidden rules of class can be used to build financial emotional, social and other resources. It also helps them understand the hidden rules of the middle class and wealth, and that choosing to use them, can open doors to new relationships, new jobs, and higher resources.

### **2012 Income Guidelines**

<b>Persons in Family or Household</b>	<b>B.L.I.S.S. Guideline (200% of HHS) – Monthly Income</b>	<b>B.L.I.S.S. Guideline (200% of HHS) – Yearly Income</b>
1	\$1,815	\$21,780
2	\$2,452	\$29,420
3	\$3,088	\$37,060
4	\$3,725	\$44,700
5	\$4,362	\$52,340
6	\$4,998	\$59,980
7	\$5,635	\$67,620
8	\$6,272	\$75,260
For families with more than 8 persons add \$637/month for each additional person.		

## Riverside County Step Up to Assets Savings Program

### FREQUENTLY ASKED QUESTIONS BY PROSPECTIVE PARTICIPANTS

#### **What is "Step Up to Assets"?**

Step Up to Assets Accounts are special savings accounts designed to help families and individuals of modest means establish a pattern of regular saving and, ultimately, purchase a "productive asset." A "productive asset" is something of value that is likely to return substantial long-term benefits to its owner — benefits like security, stability and opportunities for more income.

#### **What is the "savings incentive"?**

The "savings incentive" is a promise to supplement Step Up to Assets participant's savings deposits at a specific rate; in other words, \$0.20 cents of accelerated interest for each \$1.00 dollar saved up to a total of \$100.00 dollars for \$500.00 dollars saved which is the savings goal. **Bottom Line:** Participant saves \$500.00 dollars and will earn \$100.00 dollars just for getting in the habit of saving which is considered accelerated interest.

#### **Why would anyone give away money like that?**

Savings matches are not "giveaways." Participants earn savings matches by saving their own hard-earned dollars and taking other steps to prepare for the future, like attending personal finance workshops. Furthermore, providing savings incentives is a way to help hard working low-income families and individuals build a more stable and secure future. Everyone benefits when more members of a community have the tools they need, the *productive assets*, to provide for themselves and their families.

#### **Is there more to Step Up to Assets Program other than just savings incentives?**

Absolutely! Most people need more than just cash to become successful. For this reason, participants in the Step Up to Assets Program attend a ten (10) part personal finance and money management workshop series. These workshops are designed to help participants acquire or polish the personal and financial skills that are essential for long-term success; skills like long-range planning, household budgeting, credit repair, and savvy consumer habits.

#### **Where are the savings deposited?**

RivCo.IDA has enlisted Citibank as a financial institution partner. Program participants are required to establish special Step Up to Assets savings account at one of the branches of these institutions. Step Up to Assets accounts will not be assessed any monthly service fees and will be insured by the FDIC, FSLIC or FCUIC for up to \$100,000 per account.

#### **What is required of Step Up to Assets participants?**

Step Up to Assets participants are asked to commit to:

- Make monthly savings deposits of at least \$50
- Participate and save in the program for at least 10 months
- Attend personal finance and money management workshops

## Riverside County Step Up to Assets Savings Program

### Who is eligible to participate?

Step Up to Assets is open to individuals or families who meet the following criteria:

1. Residence within the County of Riverside.
2. Earned income - main source of income must come from a traditional job or self-employment. All sources of earned income must be reported on current tax return to meet minimum requirements.
3. Total annual household income must fall within one of the following charts:

**Chart 1: Earned Income Tax Credit Guidelines, TY 2011**

Household Size	Maximum Household Adjusted Income	
	Head of Household	Married Filing Joint
Household with 1 child	\$36,052	\$41,132
Household with 2 children	\$40,964	\$46,044
Household with 3 children or more	\$43,998	\$49,078

**Chart 2: 200% of Federal Poverty Guidelines, 2012**

Size of Family Unit*	Poverty Guideline	200% (Maximum Household Income)
1 person	\$11,170	\$22,340
2 people	\$15,130	\$30,260
3 people	\$19,090	\$38,180
4 people	\$23,050	\$46,100
5 people	\$27,010	\$54,020
6 people	\$30,970	\$61,940
7 people	\$34,930	\$69,860
8 people	\$38,890	\$77,780

\* Eligibility for Step Up to assets is based upon either Earned Income Tax Credit Guidelines or 200% of Federal Poverty Guidelines.

### How can I apply to participate?

Anyone interested in receiving more information about Step Up to Assets must attend one of the regularly scheduled program orientation sessions. # Riverside County Individual Development Account RIVCO.IDA

## FREQUENTLY ASKED QUESTIONS BY PROSPECTIVE PARTICIPANTS

### What is an "IDA"?

IDAs, or Individual Development Accounts, are special matched savings accounts designed to help families and individuals of modest means establish a pattern of regular saving and, ultimately, purchase a "productive asset." A "productive asset" is something of value that is likely to return substantial long-term benefits to its owner — benefits like security, stability and opportunities for more income. RivCo.IDA participants may use their savings and match money toward any one of three productive assets: first-time home purchase, small business start-up or expansion, or post-secondary education or vocational training.

### What is a "savings match"?

A "savings match" is a promise to supplement an IDA participant's savings deposits at a specific rate; in other words, a 2:1 savings match means that for every one dollar a RivCo.IDA participant saves, he or she will earn another 2 dollars toward the purchase of his or her total asset.

### Why would anyone give away money like that?

Savings matches are not "giveaways." Participants earn savings matches by saving their own hard-earned dollars and taking other steps to prepare for the future, like attending personal finance workshops. Furthermore, providing match dollars is a way to help hard working low-income families and individuals build a more stable and secure future. Everyone benefits when more members of a community have the tools they need, the *productive assets*, to provide for themselves and their families. This same thinking has been behind government initiatives like the Homestead Act of the nineteenth century and the GI Bill following World War II.

### Is there more to an IDA Program than just savings matches?

Absolutely! Most people need more than just cash to become successful homeowners, entrepreneurs or college or vocational school students. For this reason, participants in the RivCo.IDA Program attend a fifteen part personal finance and money management workshop series, including a special asset-specific preparation program. These workshops are designed to help participants acquire or polish the personal and financial skills that are essential for long-term success; skills like long-range planning, household budgeting, credit repair, and savvy consumer habits.

### Who is eligible to participate?

RivCo.IDA is open to individuals or families who meet the following criteria:

1. Residence within the County of Riverside.
2. Earned income - main source of income must come from a traditional job or self-employment. All sources of earned income must be reported on current tax return to meet minimum requirements.
3. Total annual household income must fall within one of the following charts:

**Chart 1: Earned Income Tax Credit Guidelines, TY 2011**

Household Size	Maximum Household Adjusted Income*	
	Head of Household	Married Filing Joint
Household with 1 child	\$36,052	\$41,132
Household with 2 children	\$40,964	\$46,044
Household with 3 children or more	\$43,998	\$49,078

Community Action Partnership of Riverside County  
2038 Iowa Avenue, Suite B-102, Riverside, CA 92507

[www.capriverside.org](http://www.capriverside.org)

## Riverside County Individual Development Account RIVCO.IDA

**Chart 2: 200% of Federal Poverty Guidelines, 2012**

Size of Family Unit*	Poverty Guideline	200% (Maximum Household Income)*
1 person	\$11,170	\$22,340
2 people	\$15,130	\$30,260
3 people	\$19,090	\$38,180
4 people	\$23,050	\$46,100
5 people	\$27,010	\$54,020
6 people	\$30,970	\$61,940
7 people	\$34,930	\$69,860
8 people	\$38,890	\$77,780

\* Eligibility for RIVCO.IDA is based upon either Earned Income Tax Credit Guidelines or 200% of Federal Poverty Guidelines.

### ***What is required of IDA participants?***

IDA participants are asked to commit to:

- Make monthly savings deposits of at least \$50
- Participate and save in the program for at least 12 months
- Attend personal finance and money management workshops
- Participate in asset-specific ownership preparation training

### ***Where are the savings deposited?***

RivCo.IDA has enlisted Altura Credit Union and Citibank as financial institution partners. Program participants are required to establish special IDA savings accounts at one of the branches of these institutions. IDA accounts will not be assessed any monthly service fees and will be insured by the FDIC, FSLIC or FCUIC for up to \$100,000 per account.

### ***What about making savings withdrawals?***

Because IDAs are intended to help people purchase productive assets, withdrawals for non-asset uses are prohibited. If faced with an emergency situation, program participants are encouraged to access all available community based resources to resolve their immediate crisis. Program staff will assist participants in locating resources as requested. If they choose, participants are always free to close their personal accounts, withdraw from the program and receive all of their personal savings and earned interest. Participants who withdraw from the RivCo.IDA program prior to completion are ***not*** eligible to receive any savings matches. Matching funds are ***not*** dispersed directly to the participant under any circumstances.

### ***How do participants receive match funds?***

Matched funds will only be disbursed to appropriate vendors or agencies when the participant has completed all program requirements and is ready to purchase their chosen asset. At that time a vendor check will be issued directly to the vendor or agency furnishing all or a part of a participant's asset goal (i.e. a mortgage company, home inspector, wholesale supplier, or community college or university).

### ***How can I apply to participate?***

Anyone interested in receiving more information about RivCo.IDA must attend one of the regularly scheduled program orientation sessions. # Their friends helped get them out of debt!

We may feel alone during these tough economic times, but when Amy Garcia's family struggled, an amazing circle of friends showed them we're all in this together...

Amy Garcia felt like she was drowning.

Looking at her bills, she could hardly breathe. Every month, her family was finding it harder to make ends meet.

How will we ever climb out of this hole? the Indio, California, mom panicked.

Yet they would soon find hope—and solutions—thanks to an amazing circle of friends...

It hasn't been easy for many of us lately—Amy and her husband, Ron, included. And with Amy out of work caring for their children and for her mom battling breast cancer, Ron's paychecks—despite two part-time jobs—barely covered the mortgage. And then there were utility bills. Groceries. Home repairs...

They weren't frivolous.

But when it came to buying school clothes for eight-year-old Jacob or new shoes for Isabella, three, Amy did the only thing she could do: She put it on credit cards.

Then the bills would arrive, though—and Amy would stare at her checkbook, her stomach in knots.

"Maybe I should go back to work," Amy suggested.

But then they'd have the expense of daycare, too. "And the kids barely see me," Ron sighed. "They need one of us."

It was true: While they tried to hide their stress from the kids, Jacob was falling behind in school, and Isabella would only sleep in her parents' bed.

So they applied for a line of equity. Cashed out Ron's 401K. But as the months passed, they could still barely keep their heads above water. We can't go on like this! Amy cried.

## Finding help—and hope

Then, one day after church, their pastor approached them.

How'd he know we were in trouble? Amy wondered, embarrassed. But she knew she had to swallow her pride. For our family, she thought. For our future.

So soon after, Amy and Ron met with Alicia Hollins, their Circle "coach."

Alicia had struggled before, too—and knew how desperate and powerless it made you feel.

She understands, Amy realized. And as she and Ron sat down with Alicia—and other

"allies" like their pastor's wife and more church friends—finding ways to work with their mortgage company and creating a plan to pay down their debt, relief washed over Amy. Because so many people cared.

And because—even if for just a little while—their "allies" took on their worries, giving them hope and strength.

## Light at the end of the tunnel

Inspired—and encouraged by Alicia at weekly progress meetings—Ron and Amy wrote down their goals.

*I want to make a better income so I can support—and spend more time with—my family,* Ron wrote. And Amy revealed a dream: "I've always wanted to be a teacher," she said. But how could she go back to school?

So Amy's "allies" called schools she'd attended—and discovered she already had credits she could put toward a degree at a local college!

"Really?" Amy marveled.

For the first time in a long time, there was light at the end of the

"What they gave us wasn't a handout, but a hand up," says Amy, right, with Alicia.

tunnel. And soon, there was reason to celebrate: Ron got a full-time position at a transportation company—and Amy began helping out at Jacob's school!

"Congratulations!" Alicia cheered—just as she did when Amy and Ron managed to pay off another credit card.

That wasn't all. Because as "allies" like Charlene—another mom from church—brought Jacob cool books, he began devouring them... and his grades improved! And little Isabella not only began sleeping in her own room, but began learning her letters and numbers, too!

And when the Circle secured a housing rehab grant, Amy received practically a whole-new kitchen and bathroom! "Thank you isn't enough," she breathed.

Soon after, as Amy accepted her associate's degree, not only were Ron and the kids there cheering, but her "allies" were, too!

"I couldn't have done it without you!" Amy beamed.

Today, Amy and her family have come so far, they plan to soon become "allies" themselves! Because the way she sees it, we're all here to be a blessing to someone else. And we're all in this together, a circle of caring through good times and bad.

"So many people came into our lives when we needed it most," Amy says. "Now we hope to make another family's future bright!"

## How to reach any goal!

- ◎ **Set a milestone!** — You don't need to break down your goal into a complicated plan. Instead, start by setting your sights on a "first step" that can be accomplished in about 14 days.
- ◎ **Share it!** Using a confident tone, tell someone whose opinion you respect about your aspirations. This alone will increase your chances of success by almost 50%!

- ◎ **Draw an "after" picture!** Next time you're doodling, sketch out a scene that depicts you after you've met your goal. Aim for as much detail as possible. Doing this repeatedly will reinforce your commitment to making your dream a reality!

- ◎ **Jot it down!** Writing down your objective makes you more than twice as likely to achieve it. Increase the effect by posting the goal somewhere you'll see it often, like the fridge.

## Riverside County Step Up to Assets Savings Program

### FREQUENTLY ASKED QUESTIONS BY PROSPECTIVE PARTICIPANTS

#### **What is "Step Up to Assets"?**

Step Up to Assets Accounts are special savings accounts designed to help families and individuals of modest means establish a pattern of regular saving and, ultimately, purchase a "productive asset." A "productive asset" is something of value that is likely to return substantial long-term benefits to its owner — benefits like security, stability and opportunities for more income.

#### **What is the "savings incentive"?**

The "savings incentive" is a promise to supplement Step Up to Assets participant's savings deposits at a specific rate; in other words, \$0.20 cents of accelerated interest for each \$1.00 dollar saved up to a total of \$100.00 dollars for \$500.00 dollars saved which is the savings goal. **Bottom Line:** Participant saves \$500.00 dollars and will earn \$100.00 dollars just for getting in the habit of saving which is considered accelerated interest.

#### **Why would anyone give away money like that?**

Savings matches are not "giveaways." Participants *earn* savings matches by saving their own hard-earned dollars and taking other steps to prepare for the future, like attending personal finance workshops. Furthermore, providing savings incentives is a way to help hard working low-income families and individuals build a more stable and secure future. Everyone benefits when more members of a community have the tools they need, the *productive assets*, to provide for themselves and their families.

#### **Is there more to Step Up to Assets Program other than just savings incentives?**

Absolutely! Most people need more than just cash to become successful. For this reason, participants in the Step Up to Assets Program attend a ten (10) part personal finance and money management workshop series. These workshops are designed to help participants acquire or polish the personal and financial skills that are essential for long-term success; skills like long-range planning, household budgeting, credit repair, and savvy consumer habits.

#### **Where are the savings deposited?**

RivCo.IDA has enlisted Citibank as a financial institution partner. Program participants are required to establish special IDA savings accounts at one of the branches of these institutions. IDA accounts will not be assessed any monthly service fees and will be insured by the FDIC, FSLIC or FCUIC for up to \$100,000 per account.

### ***What about making savings withdrawals?***

Because IDAs are intended to help people purchase productive assets, withdrawals for non-asset uses are prohibited. If faced with an emergency situation, program participants are encouraged to access all available community based resources to resolve their immediate crisis. Program staff will assist participants in locating resources as requested. If they choose, participants are always free to close their personal accounts, withdraw from the program and receive all of their personal savings and earned interest. Participants who withdraw from the RivCo.IDA program prior to completion are ***not*** eligible to receive any savings matches. Matching funds are ***not*** dispersed directly to the participant under any circumstances.

### ***How do participants receive match funds?***

Matched funds will only be disbursed to appropriate vendors or agencies when the participant has completed all program requirements and is ready to purchase their chosen asset. At that time a vendor check will be issued directly to the vendor or agency furnishing all or a part of a participant's asset goal (i.e. a mortgage company, home inspector, wholesale supplier, or community college or university).

### ***How can I apply to participate?***

Anyone interested in receiving more information about RivCo.IDA must attend one of the regularly scheduled program orientation sessions. To find out the dates and locations of upcoming orientations and workshops, or to request additional information, call Community Action Partnership of Riverside County at [REDACTED] or visit our website at [www.capriverside.org](http://www.capriverside.org).

CITY COUNCIL  
MORENO VALLEY  
RECEIVED

13 APR 16 PM 4: 59

Dear Mr. Mayor

April 15, 2013

I am writing you in regards to a sign on the northwest corner of Sunnymead Blvd and Perris Blvd. The above two directions are correct but the lower is not. If you proceed south on Perris Blvd. and turn left on Sunnymead or make a U-Turn north on Perris Blvd. you are in Moreno Valley.

The sign designates you must turn right to find Moreno Valley.

I knew this was a Cal-trans sign, so I called and spoke to the district director Basem Muallem. I also sent him a picture of the sign. Also enclosing a copy for you. He sent someone to the site and called me and told me this was an error. I received a letter to confirm the change and spoke to Mr. Muallem recently and was told there will be a slight delay in the time frame previously given due to lack of materials at this time.

I find it somewhat puzzling that city officials and council persons, fire, police and our own sign department personnel would not have reported this to Cal-trans. The sign has been there a long time. I am sure they have seen it a thousand times.

I realize you are very busy with a much needed larger agenda, but if I could meet or talk to you for a few minutes at your convenience there are two city street signs I would like your input on.

You may contact me at [REDACTED]  
Or [CHARLIEHORSE1949@HOTMAIL.COM](mailto:CHARLIEHORSE1949@HOTMAIL.COM)

P.S: the letter or picture need not be returned .

Sincerely,  
Charles Kolb

Moreno Valley, CA 92557

Dear Mr. Kolb:

This is in response to your letter dated February 12, 2013, regarding the directional signs in the City of Moreno Valley that are in need of replacement, specifically a Community Hospital Sign and the sign located at the corner of Perris Boulevard and Sunnymead Boulevard.

Iwan Risman, Professional Engineer (PE), Traffic Operations, Surveillance Region A, spoke with you via telephone on February 20, 2013 regarding the status of the signs. The materials needed to complete this order will be available mid March and the Sign Installation Order (SIO) completion date is estimated at the end of March 2013.

If you have any questions or need additional information please call Jesus Galvan, Acting Deputy District Director, Traffic Operations, at [REDACTED]

Respectfully,

A handwritten signature in cursive script that reads "Basem E. Muallem".

Handwritten initials "BEM" in the left margin.

CITY COUNCIL  
MORENO VALLEY  
RECEIVED

13 APR -8 PM 4: 58

Dear Mayor Tom Owings  
To whom it may concern,

District 5

I moved to Moreno Valley in October 2012 and I reside in Highland Meadows Apartment at 12080 Pigeon Pass Rd. 92557.

So, the concern I have is the day labor that stand almost all day across from Home Depot, and along the apartment complex fence.

Also more concern is the trash that they leave behind, I.E. trash bags hanging on the link fence, plastic chairs thrown behind the fence, empty plastic buckets used as a seat to sit on and old torn car seat, small portable BBQ to prepare their lunch, broken umbrella, baby crib flipped upside down and used as a table to play cards while waiting for someone to pick them up etc..

I think this is unacceptable for the image of our great city. You need to visit that area any time between 7:00AM till 3:PM and see the quality of people standing there, as it's their own home. I'm sure if any of the high figures officials running the city lives in or around that apartment will not accept what they will see.

I had made a phone call in the past to the city and it looks like nothing was done.

I'm asking for help to keep and maintain the city image and the quality of life especially for the people living in these apartments and around.

So, please do something to eliminate this problem and keep that area clean from trash they leave behind. "Remember the concern is not the people, the main concern is the trash and the objects they leave.

Thank you for taking the time and efforts to keep our city clean and higher class image.

Respectively yours

Citizen from beautiful Moreno Valley City.

Re: Community Survey Fielding and Protocols

With the assistance of City Staff, LEG and FM3 have recently drafted a community survey to assess community perspectives of community services and fiscal issues for the City of Moreno Valley. In creating the community survey for the City, we have drawn from our "best practices" from scores of other municipalities and other public agencies with demographics similar to Moreno Valley's. Specifically, both positive and negative information are evaluated to provide a balanced survey.

We'd like to thank city staff for their input. The feedback and comments we have received have been invaluable and has resulted in a highly tailored questionnaire.

We are currently planning to initiate interviews the week of April 1.

**Confidentiality of the Survey Prior to Completion of Interviews**

Certain protocols are vital to preserving the integrity and independence of the survey, to ensure an unbiased result. It is essential that the survey is not discussed, emailed or blogged about prior to our completion of interviews, as any media or e-discussion will potentially "taint the pool" of potential respondents and likely bias the results. For this reason, we adhered to standard protocols to maintain the integrity of this process and prevent potential survey respondents from being aware of the questions in advance of interviews.

To achieve our goal of an independent, unbiased scientific survey that provides the City with accurate information about your community's attitudes it is essential that the survey questions be kept confidential while the survey is being conducted. This also includes refraining from any discussion of the issues in this memorandum, which is not for public circulation—it is for your reference only.

### SPEAKING OF BARRY E KNIGHT

"Pastor Barry E. Knight is an inspirational man of God who is an effective communicator to all nationalities and ages. He "brought it" when we invited him to speak at chapel! He drew our students in, had them laughing as he shared his stories, and had us pondering as we left. He brings passion and conviction as he preaches from God's Word."

Bryan Sands, Director of Campus Ministries, Hope International University

"When you came to our office, I recorded your talk that day on "The 5 Elements of Competition". I have to say without a doubt that your talk was and still is one of the 3 most inspiring talks I have ever witnessed. I have listened to your talk at least 2 dozen times and transcribed it to notes so that I got it down cold"

Conference Attendee,  
Real Estate Broker and Financial Consultant

"Most speakers share their wisdom with the audience. Few speak from their heart. But very rarely do speakers share their wisdom while speaking from the heart. That's what makes Barry E. Knight a very rare speaker."

Patrick Bet - David,  
Chairmen and CEO  
People Helping People

BARRY E KNIGHT

SPEAKS™

*Connect ▪ Empower ▪ Lead*

Hello,

*"He who cannot change the very fabric of his thought will never be able to change reality, and will never, therefore, make any progress." – Anwar Sadat*

I am writing to you because there is a strong possibility that my company may be able to significantly impact your organization! Your mission statement ("") tells me that adding value to people is important to your organization's success. If so, then I'd love to speak with you soon because the people within your organization are its greatest asset! **Barry E. Knight Speaks** shares strategies with leaders and organizations on how to more effectively connect with, empower, and lead the people they serve. We do this by creating high performance ecosystems where leaders develop the mindset, beliefs, and behaviors necessary to coach their teams to accomplish organizational purposes.

Whether it's leaders successfully empowering their teams (Leadership Strategies), or creating a culture where people develop and grow within the organization (Organizational Strategies), or maybe it's coaching your team to reach optimum performance (Life Strategies), I am highly confident that **Barry E. Knight Speaks** has a supernatural gift to help your top influencers achieve personal and corporate success.

As you'll see from the enclosed information, those we have served, including Riverside County DPSS and Creative Solutions Foster Family Agency, have found that we help build a culture where leaders are developed and equipped to bring greater results relative to the organization's mission, goals, and bottom line profits. If this is important to you then I'd love to arrange a time to speak with you soon to see if **Barry E. Knight Speaks** would be a good fit for your organizational goals. You can reach us at 951.378.2848 or email [pastorknight@go2celebration.com](mailto:pastorknight@go2celebration.com). Thank you for your consideration of a potential partnership!

Successfully Yours,

Barry E. Knight

## A Snapshot

*The Ministry and Heart of Barry E. Knight  
Speaker, Pastor, Consultant/Strategic Thinker*

Pastor Barry E. Knight has committed his life to helping people reach their maximum potential! He is a man of faith and family, and maintains a high degree of integrity and commitment to his personal development.

Pastor Knight is the founder of Barry E. Knight Speaks, a professional speaking, consulting, and performance coaching company that shares custom built strategies with leaders and organizations on how to more effectively connect with, empower, and lead the people they serve. He is also the lead pastor of Celebration Worship Church in Moreno Valley, CA; a ministry whose mission is raising up a leadership generation to impact the world for Christ! Pastor Knight has been an influential speaker for more than 12 years. With opportunities to lead in both the business and ministry world, he has masterfully blended his experience as a businessman and spiritual leader into an electrifying and captivating speaking style that impacts people from all walks of life. This approach has gained him invitations to speak before thousands including business executives, entrepreneurs, government officials, educators, and church and community leaders. Pastor Knight is a very engaging and prolific speaker with a strong, leading presence. He has an impeccable ability to discern the needs of his audience and deliver a life changing message that speaks directly to their hearts.

Second only to His love for Christ is his love for his wife of 8 years, Sacheen E. Knight. They are the proud parents of two sons, B.J., age 7, and Charles Edward, age 4, and a baby girl, Sydnei Erica, born November 29, 2012.

It is Pastor's desire to live full and die empty; helping others get to where God desires them to be and also fulfilling everything that God has placed him on earth to do.

**9 REASONS WHY ORGANIZATIONS LIKE YOURS LOVE TO PARTNER WITH  
BARRY E. KNIGHT SPEAKS**

*We can serve you by customizing any of the following strategies through onsite training/seminars, coaching, consulting, and keynote speaking.*

**LEADERSHIP STRATEGIES**

1. They believe in investing in their leaders by bringing in a speaker who provides practical leadership solutions for personal and organizational success
2. They do not have an official leadership training and development program and would benefit from Barry E. Knight Speaks conducting periodic leadership development sessions for their organization
3. They desire their leaders to be coached in optimum performance skills, communication, and influencing people to help them more effectively reach organizational goals

**ORGANIZATIONAL STRATEGIES**

4. They desire to “re-culturize” or “re-strategize” their current leadership training and incentive program(s) to create and sustain a high performance culture and corporate environment (ecosystem) that fosters positive leader-to-team relationships and collaboration at all levels
5. They want their trainers trained by the Barry E. Knight Speaks system that helps trainers develop a coaching mindset, and produce highly competent trainees
6. It’s important for them to have innovative strategies that help them improve as a socially responsible organization in order to succeed in organizational purposes

**LIFE STRATEGIES**

Their desire to have a powerful and individual speaker to help them understand their organizational needs. They want their trainers trained by the Barry E. Knight Speaks system that helps trainers develop a coaching mindset, and produce highly competent trainees. It’s important for them to have innovative strategies that help them improve as a socially responsible organization in order to succeed in organizational purposes.

## ~SPEAKING OF BARRY E. KNIGHT~

### BUSINESS/ENTREPRENEUR

*"Most speakers share their wisdom with the audience. Few speak from their heart. But very rarely do speakers share their wisdom while speaking from the heart. That's what makes Barry E. Knight a very rare speaker."* – **Patrick Bet – David, Founder and CEO, People Helping People**

*"When you came to our office, I recorded your talk that day on 'The 5 Elements of Competition'. I have to say without a doubt that your talk was and still is one of the 3 most inspiring talks I have ever witnessed. I have listened to your talk at least 2 dozen times and transcribed it to notes so that I got it down cold"* – **Conference Attendee, Real Estate Broker and Financial Consultant**

### EDUCATION

*"Pastor Barry E. Knight is an inspirational man of God who is an effective communicator to all nationalities and ages. He 'brought it' when we invited him to speak at chapel! He drew our students in, had them laughing as he shared his stories, and had us pondering as we left. He brings passion and conviction as he preaches from God's Word."* – **Bryan Sands, Director of Campus Ministries, Hope International University**

### HUMAN/SOCIAL SERVICES

*Your talk with Creative Solutions for Kids and Families certified [foster] parents was not only inspiring but one that engages the participants to examine their individual purpose and influence to the foster children that they serve. You delivered your talk with practical concepts that allow individuals to think, clarify and internalize. It was indeed a talk that appeals to the hearts and minds, motivating parents towards a purposeful fostering.* – **Dr. Ryan Cargando, President/CEO Creative Solutions for Kids and Families Foster Family Agency**

*Pastor Knight was the keynote speaker at one of my recent Region Meetings. His message was very motivating and well received. His perspective is fresh, new, and uplifting.* – **Rosemary Jiron, Regional Manager, Riverside County, CA Child Protective Services**

*Pastor Knight presented at our Regional Meeting in June. His message was extremely positive and uplifting. I have received more compliments from staff regarding Pastor Knight than any other presenter. Further, my staff is requesting that Pastor Knight be invited to future Regional Meetings and events. Pastor Knight is truly exceptional and I look forward to him returning to my Region.* – **Dean Wilson, Regional Manager, Riverside County, CA Child Protective Services**

Phone [REDACTED] • email [pastorknight@go2celebration.com](mailto:pastorknight@go2celebration.com)  
14051 Indian Street Suite J Moreno Valley CA 92553

*I have observed Pastor Knight bring an air of calmness and peace to a room that is filled with hostility and aggression. I have observed Pastor Knight engage our clients on a level that draws out honesty and participation from even our most resistant clients. – Susan Mahoney, Regional Manager, Riverside County, CA Child Protective Services*

*I wanted to take a few moments to let you know how much I appreciate your support. I had asked you to present at my region meeting, and asked you to speak to workers about engaging clients. I was not sure what I was going to get, but in the end what we got was a great practical guide to interacting with our clients. What made this so spectacular is that when social workers asked you about particular situations you were able to role play what that interaction would look like. The interaction was real and so easily doable with a change of our thought process. The Seven Affirmations you provided my workers was amazing. – Theresa Solomon-Billings, Regional Manager, Riverside County, CA Child Protective Services*

*In the short time that I have had the opportunity to work with you, I have really appreciated the support and encouragement that you offer the clients and workers in this Department. – Supervisor, Riverside County, CA Child Protective Services*

*Your words of wisdom have proven to be invaluable in that they are engaging and motivating. – Supervisor, Riverside County, CA Child Protective Services*

*You can engage even the most challenging clients. – Supervisor, Riverside County, CA Child Protective Services*

*I believe you are an asset in supporting the Department's mission statement to protect and empower the vulnerable people that we serve. – Supervisor, Riverside County, CA Child Protective Services*

*Thank you for your presentation at our Regional Meeting. You did a great job of delivering the information and supporting positive morale in the Region. The feedback from the social workers was outstanding about your presentation. – Supervisor, Riverside County, CA Child Protective Services*

*Pastor Knight readily engages families with great sincerity and warmth. He can be depended upon to act professionally and appropriate in any situation. – Supervisor, Riverside County, CA Child Protective Services*

*Pastor Knight is a great role model for the community and provides consistent support to our staff. – Supervisor, Riverside County, CA Child Protective Services*

*What a blessing and positive addition Pastor Knight's presence adds in our ongoing...meetings. – Supervisor, Riverside County, CA Child Protective Services*

Please consider choosing FSA for a charitable contribution. Your donation will be put to good use, such as; helping an abused child, serving a meal to a homebound senior, providing child care to a working family, housing a homeless mother and child.

**Check out our videos on our FSA website at [www.fsaca.org](http://www.fsaca.org).**

UPS OVERNIGHT

March 14, 2013

The Honorable Tom Owings  
City of Moreno Valley  
14177 Frederick St.  
Moreno Valley, CA 92553

**Re: Notice Pursuant to the Worker Adjustment and Retraining Notification Act and/or California Worker Adjustment and Retraining Notification Act of the Planned Termination of Operations of Ralphs Grocery Company Store.**

Dear Mayor Owings:

Pursuant to the applicable provisions of the Worker Adjustment and Retraining Notification Act and/or California Worker Adjustment and Retraining Notification Act, you are hereby notified of our Company's decision to permanently lay off employees from the below-listed store location for business and economic reasons.

<u>LOCATION</u>	<u>STREET</u>	<u>CITY, STATE, ZIP</u>
152	23575 Sunnymead Ranch	Moreno Valley, CA 92557

We anticipate that the layoff referenced above will occur in the two week period beginning May 17, 2013, and that fifty-five employees will be laid off or transferred to another store location as a result of the aforementioned store closure.

Enclosed are: 1) an Affected Positions List detailing the number of affected employees by job classification as well as the union representing the respective affected job classifications; and 2) a Union List detailing the name of each union representing the affected job classifications including the name and address of the chief elected officer of each union.

Please call me at the telephone number shown above if you have any questions or require further information.

Sincerely,

Leroy D. Westmoreland  
Director, Labor Relations

March 19, 2013

Dear Mayor Owings,

This letter is to inform you that your city has been selected for inclusion in the Human Rights Campaign's 2013 Municipal Equality Index. The Human Rights Campaign (HRC) is the largest civil rights organization working to achieve equality for lesbian, gay, bisexual and transgender (LGBT) Americans. The Municipal Equality Index (MEI) is the first nationwide evaluation of municipal laws affecting the LGBT community. The index examines the laws, policies, and progress toward equality being made by United States cities and municipalities.

This year HRC will evaluate the 137 cities rated last year and 154 new cities. Last year's cities were the fifty state capitals, the fifty largest cities in the country, and 75 (25 large, 25 mid-size, and 25 small) cities and census-designated places that had a high proportion of same-sex couples. In addition to the cities scored in 2012, the 2013 MEI will score 291 cities, including the 150 largest cities in the country, the three largest cities in every state, and the city that is home to the state's largest public university (based on combined undergraduate and graduate enrollment). **Your city has been selected because it is one of the 150 largest cities in the country.**

HRC will conduct preliminary research on each of the cities selected, and will send you a draft scorecard in June for your review. At that time, we ask you to review our research and correct any point upon which you believe we may be in error. For more information about our criteria and scoring system, please refer to last year's report which is available at [www.hrc.org/mei](http://www.hrc.org/mei). The deadline for any feedback you have regarding your scorecard must be received by HRC no later than July 29 if it is to be included in the publication. The project will be published in November 2013.

**At this time, we are writing simply to alert you that your city will be rated in 2013.** If there is a specific person in your office with whom you would prefer we communicate from now on, please let us know. Please also let us know if you are interested in learning more about how you can improve your score prior to publication. Your draft scorecard will represent your score at the time the draft was sent, but any relevant city action taking place on or before July 29 may be reflected in the final 2013 score. To ensure such actions are correctly reflected in the final score, we ask that you notify us of any relevant city action taken after the draft scorecard is received but before July 29.

We look forward to working with you in ensuring your city is rated accurately and given all of the credit that you deserve.

Sincerely,

Cathryn M. Oakley  
Legislative Counsel, State and Municipal Advocacy

# Moreno Elementary

Home of the Mustangs  
Horsepower to Learn!

11 March 13

Dear Mayor Tom Owings,

Please accept our sincerest thanks and gratitude for attending the Fourteenth Annual Black History Program at our school. I hope that your experience was a pleasant one. We all thought your message was very timely and informative. We particularly enjoyed how it coincided with staying in school. Again, the staff and students of Moreno Elementary School were honored to have you attend our event and we look forward to your attendance next year.

Most Respectfully,

Ms. Deloris McDuffie

**Re: Notice Pursuant to the Worker Adjustment and Retraining Notification Act and/or California Worker Adjustment and Retraining Notification Act of the Planned Termination of Operations of Ralphs Grocery Company Store.**

Dear Mayor Owings:

Pursuant to the applicable provisions of the Worker Adjustment and Retraining Notification Act and/or California Worker Adjustment and Retraining Notification Act, you are hereby notified of our Company's decision to permanently lay off employees from the below-listed store location for business and economic reasons.

<u>LOCATION</u>	<u>STREET</u>	<u>CITY, STATE, ZIP</u>
152	23575 Sunnymead Ranch	Moreno Valley, CA 92557

We anticipate that the layoff referenced above will occur in the two week period beginning May 17, 2013, and that fifty-five employees will be laid off or transferred to another store location as a result of the aforementioned store closure.

Enclosed are: 1) an Affected Positions List detailing the number of affected employees by job classification as well as the union representing the respective affected job classifications; and 2) a Union List detailing the name of each union representing the affected job classifications including the name and address of the chief elected officer of each union.

Please call me at the telephone number shown above if you have any questions or require further information.

Sincerely,

Leroy D. Westmoreland  
Director, Labor Relations

Dear Mayor Owings:

Thank you for taking the time to meet with me on Wednesday afternoon. Your information on the city budget, services and development was very informative.

The recommendation you made to have a regular meeting with the City Manager to discuss feedback the chamber receives whether it is good or bad is a great idea. I have made contact with the city manager's office to set a meeting with Mr. Garcia to discuss.

Thank you for allowing me the opportunity to discuss the chamber's role with respect to the city and the community.

We look forward to seeing you this Saturday March 16 at our board retreat and look forward to a continued collaboration between the Chamber and the City of Moreno Valley.

Sincerely,

**U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**  
**THE DEPUTY SECRETARY**  
WASHINGTON, DC 20410-0050

March 4, 2013

The Honorable Tom Owings  
Mayor of Moreno Valley  
14177 Frederick Street  
Moreno Valley, CA 92552

Dear Mayor Owings:

As you are likely aware, due to the failure of Congress to reach a deal on balanced deficit reduction to avoid sequestration, the President was required by law to issue a sequestration order on March 1 canceling approximately \$85 billion in budgetary resources across the Federal Government for the remainder of the federal fiscal year (FY). As partners with the Department of Housing and Urban Development, you are entitled to timely and clear information about how these unfortunate budget cuts impact us, and, in turn, what it means for program beneficiaries in Moreno Valley.

At this time, HUD is taking every step possible to mitigate the effects of these cuts. However, based on our initial analysis, it is likely that your full-year FY 2013 formula program funding will be lower than it was in FY 2012 due to the sequester, which may affect your workforce and planning for this year, and possibly beyond. You can expect 5 percent reductions from the FY 2013 annualized Continuing Resolution levels for the formula programs you are eligible for, including the Community Development Block Grant (CDBG), HOME, Housing Opportunities for Persons With AIDS (HOPWA), and Emergency Solutions Grants for the homeless (ESG) programs.

In testimony to Congress in January, Secretary Donovan estimated some of the impacts sequestration would have on participants. For example, cuts to the HOPWA program would result in 7,300 fewer low-income households receiving permanent and short-term supportive housing assistance, including rent or utility assistance, while a sequester of HOME program funds will result in 2,100 fewer affordable housing units produced for low-income families. As you know, every dollar of HOME funding is leveraged with almost four dollars of other funds.

Once Congress has passed and the President has signed a full-year FY 2013 appropriation for HUD, the exact funding levels you will be receiving for these programs will be set, and, depending upon your program year start date, your individual FY 2013 program grant agreements will subsequently be sent to you.

Tom,

We have received  
letters from this  
group in the past.  
The bonds have to  
provide the cost of  
transportation, housing,  
food, etc.

Jessie

Honorable Tom Owings  
Mayor of Moreno Valley  
14177 Frederick Street  
Moreno Valley, CA 92552

Dear Mayor Owings,

America's Independence Day Parade, sponsored by the National Park Service, requires every state of the union represented in the **2014 National Independence Day Parade** - celebrating America's 238th birthday - and we need your assistance!

This world-class parade, which features military and veterans units, marching bands, impressive floats, and a wide array of specialty groups, takes place annually in Washington, D.C. on Constitution Avenue along the National Mall, and commemorates our country's rich, patriotic heritage.

**We need your office to nominate 3 - 5 high school marching bands that would proudly represent California in celebrating the birth of our great nation.** Official invitations will be sent to each school upon receipt of your nominations. We hope any band you recommend would be of the highest performance quality and would be a commendable representative of your state.

Please respond with your recommendations by e-mail to [info@july4thparade.com](mailto:info@july4thparade.com) **no later than April 15, 2013.**

Please feel welcome to visit our website for further information: <http://www.july4thparade.com>

We thank you and your staff in advance for your thoughtful response and we look forward to having your state represented in the 2014 National Independence Day Parade!

Sincerely,

John Wiscombe  
President

## Council Summary

Page 2 of 2

3/5/2013 6:58:13 PM

**Issue Description:** 2/27/13: Miguel Jacobo stopped by the council office regarding the vehicle tow charge.

Mr. Jacobo stated Mayor Owings advised him to first go to the tow yard because he thought the additional charge wouldn't be until day five and then to come back if the tow company didn't help. Mr. Jacobo stated Exclusive Tow advised the charge is within a 72 hour period.

Mr. Jacobo submitted a copy of Exclusive Towing Invoice # 4656 (attached).

Mr. Jacobo stated he left a voicemail message at MVPD telephone number 951.486.6925 that Mayor Owings provided him.

---

Please investigate on behalf of Mayor Owings, contact Mr. Jacobo, and advise the outcome.

Mr. Jacobo stated his vehicle was impounded when it was discovered he had a suspended license. He stated he was not aware the driver's license had been suspended. He stated that due to the holiday on February 18, he was not able to get his vehicle released in a timely manner. Mr. Jacobo asked what law allows a tow truck company to put a lien on a vehicle.

*How*  
Dear Mayor Owings,

It has been my honor to serve as Riverside County's 13<sup>th</sup> Sheriff since October 2, 2007. From its humble beginnings in 1893, the Riverside County Sheriff's Department has grown from a tiny agency at creation to a modern law enforcement agency now serving the 4<sup>th</sup> largest county in California, with nearly 4,000 fulltime employees and over 1,600 volunteers, making it one of our largest law enforcement agencies. The Sheriff's Department provides law enforcement patrols, operates our county jail system, secures all of our county courtrooms, and provides coroner-public administrator responsibilities for nearly 2.3 million residents with an annual budget exceeding a half-billion dollars.

Since taking office, the department has focused on frugally managing constrained budgets and avoiding layoffs, increased jail capacity, improved education and diversity in the workforce, stressed ethical conduct and transparency, created partnerships with our tribal communities, fielded technology to improve our effectiveness and developed collaborations and partnerships with our county's police chiefs. As a result, I have the endorsement of every one of our police chiefs and from community leaders across our many communities. It has been my byword to be visible, accessible to and approachable by members of the public.

I will run for re-election as your County Sheriff in June 2014, and I would personally be very honored with your endorsement and continued support for that effort. I am proud of the unanimous endorsement of our county supervisors for my 2014 re-election.

Please return the stamped, self-addressed endorsement card. If you have any questions, you can directly reach me at [SSniff@aol.com](mailto:SSniff@aol.com), or [REDACTED] (work: [Ssniff@riversidesheriff.org](mailto:Ssniff@riversidesheriff.org)). You can also actively follow me on Facebook at [www.facebook.com/SheriffStan.Sniff](http://www.facebook.com/SheriffStan.Sniff). Thank you!

Sincerely,

  
Stan Sniff, Sheriff

WHERE DREAMS SOAR

[www.moval.org](http://www.moval.org)

## **Incorporation:**

Incorporated as a General Law City on December 3, 1984, merging the communities of Moreno, Sunnymead and Edgemont.

## **Location, Size & Elevation:**

51.5 square miles, located in the western portion of Riverside County, surrounded by Riverside, Perris, March Air Reserve Base, Lake Perris and the Badlands. Elevation: 1,650 Ft.

## **City Motto:**

People, Pride, Progress

## **Form of Government:**

A five-member elected City Council governs the city. Officers are selected annually amongst themselves. Current Officials: Mayor Tom Owings (3rd District), Mayor Pro Tem Marcelo Co (4th District) Council Members: Victoria Baca (5th District), Jesse L. Molina (1st District) and Richard A. Stewart (2nd District). City Manager Henry T. Garcia.

## **Population:**

196,495\* Among California's growing cities; second most populous in Riverside County. Moreno Valley enjoys a diverse population projected to reach nearly 216,450 by 2018. Growth can be attributed to a range of quality housing options including high-end executive homes, affordable single-family homes, and condominiums; a family-friendly lifestyle; good schools, impressive quality-of-life amenities and growing job centers.

\* Population Information provided by the California Department of Finance and Nielsen Site Reports

## **Demographic Profile:**

- Mostly young families. Average family consists of two parents, two children
- Number of households: 53,862
- Number of housing units: 58,040
- Number of businesses: 3,059
- New homes starting at: low \$300,000's
- Average household size: 3.74 persons
- Average family household income: \$62,315
- Average existing home value: \$186,313
- Ethnic composition: (2010 U.S. Census): Hispanic 54.4%; White 18.9%; African-American 17.2%; Pacific Islander/Asian-American 6.4%; Two or more races 2.6%; Other .2%.

## **Amenities:**

Moreno Valley's amenities include: more than 32 parks and/or joint-use facilities (358.34 developed acres), and 6,000 acres of open space at Lake Perris; recreational, major medical, and educational facilities; quality housing at affordable prices, open spaces, abundant retail centers, industrial developments and social/cultural activities.

## **Schools:**

Moreno Valley has two public school districts: Moreno Valley Unified School District has 23 Elementary Schools, 6 Middle Schools, 4 Comprehensive High Schools, 1 Charter School, 1 Adult School, 1 Continuation School, 1 Community Day School, 1 Pre-School Head-Start and 1 Academic Center; 35,068 students enrolled. Val Verde Unified School District (includes Perris, Mead Valley and Moreno Valley) has 1 Pre-school, 13 Elementary Schools, 4 Middle Schools, 3 High Schools, 1 Continuation High School, with a total of 20,500 students enrolled. Moreno Valley College has approximately 10,000 students enrolled.

## **Job Creation:**

Moreno Valley has attracted and developed several large employers and opportunities for development in a wide array of industries, including:

- **Automotive:** Moss Bros. Auto Group
- **Commercial/Retail:** Burlington Coat Factory, Costco, Home Depot, HomeGoods, JC Penney, Kohl's, Lowe's Home Improvement, Macy's, Office Depot, Office Max, Sears, SuperTarget, TJ MAXX, Wal-Mart Super Center and Sports Authority
- **Hospitality:** Ayres Hotel & Spa, Hampton Inn and LaQuinta Inn & Suites
- **Hospitals/Medical:** Kaiser Permanente, Riverside County Regional Medical Center (RCRMC), and a proposed medical corridor
- **Industrial/Logistics:** Frazee Paint, Harbor Freight Tools, Harmon Kardon, iHerb, Minka Lighting, O'Reilly Automotive, Phillips Consumer Electronics, ResMed, Ross Dress for Less, Skechers USA, United Natural Foods, Inc. and Walgreens
- **Manufacturing:** BAS Recycling, Cardinal Glass, Eldorado Stone, Masonite Door Fabrication, Modular Metal Manufacturing, National Tube Supply, Serta Mattress, Supreme Truck Bodies, and Value Windows & Doors

## **Public Safety:**

Moreno Valley was recognized for its outstanding traffic safety enforcement by winning both state and national Law Enforcement Challenge in 2010. In 2011, MVPD received First Place honors and Special Recognition for Speed Awareness in the California Law Enforcement Challenge. The MVPD Traffic Division also earned the second place award in the National Law Enforcement Challenge. The City's public safety record is comparable to other cities of similar size, as verified by state and federal crime and traffic safety audits.

# Montagnes de Normandie

ÉDITIONS  
Charles CORLE

MV00230585

Il y a une trentaine d'années, lors d'une partie de pêche à la mouche avec mon père, nous avons abouti, par le plus grand des hasards, au Moulin de la Jalousie, dans les gorges de Saint-Aubert. Il me souvient d'avoir été surtout surpris, à l'époque, par le caractère sauvage de la vallée de l'Orne à cet endroit.

Dès lors, poussé par la curiosité, je me suis mis en quête de paysages similaires, si surprenants dans une région de plaines et de collines : de Mortain en Écouves, en passant par Domfront, Bagnoles, Falaise et Clécy, j'ai donc arpenté par monts et par vaux « l'autre Normandie », la Normandie moins verte, moins humaine, grignotée par les landes, barrée par les escarpements et défoncée par les rivières.

Au cours de ces premières pérégrinations d'apprenti géographe, s'est peu à peu forgée une conviction, jamais démentie par le reste de mes excursions géologiques et botaniques : j'étais bien en montagne, certes la plus basse de France mais également la plus ancienne, le Massif armoricain.

L'ouvrage *Montagnes de Normandie* a reçu le soutien  
du Conseil Régional de Basse-Normandie,  
du Conseil Général de l'Orne  
et de la Communauté de Communes du Bocage d'Athis

To Mayor T Owings; I'm writing you because you told me you would be transparent about everything. Well when you brought up the area on east side you didn't show the whole picture of warehouses. Why not! because people you represent would be diffiant upset about all these warehouses all around them, mean while in return we have high bonds and everybody uses the new improvements. So does this mean we get relieve of the fees and all these big warehouses pick up the tap. I beleive we are being tax with out representation, and big company's get everything(sound like what people voted against in Nov election). I would like to see what the sketcher paid in taxes(property) and sales tax or was that wave and the wine vinyard same question. Hope to see transparented (publish) you do everything else that going to cost the people of mov val. what about the rest of southwest area warehouses. Mean while you spend 50000.00 on consultant for warehouses when that was all done by the planning commision and paid for. You should know this because you were on it, you people are attacking sierra club and south coast about the lawsuits, well its only way people of moreno valley can try to stop you for the better of mov va. NO jobs were gain at sketcher's( what happen to the 2500 jobs)this was said byStwert, baca, moleno at a meeting when people fought it and won but override by that concil. Was told smaller warehouse put in but no futher then Eculepes ave. But god of moreno valley is getting his way by giving all money to get elected. Again would like to see publish all the money he and Jerry gave the last two election. Let the people SEE the trueth about how somebody can buy a city.If not affaird let the people vote on all the warehouses and get buses and take them to truck city usa(fontana ca) and see the damage done by trucks and warehouses.(plants,roads,air control,trucks park on the streets and traffic). And this is the best for Moreno Valley, in who's eyes the rich guys or the city council members. The jobs we get will be at the most 10.00 an hour and every warehouse will be automated look at the article I sent you.I,m hoping the state of calif start investigation on all the back rooms meetings(coco) starbucks meetings and the meetings on city grounds that belongs to tax payers(people) nbt big business. If you want help out the people of MV start cutting cost buy fireing city manager(450,000 sal plus benifits) see article 268,000 sal santa ana ca. Start cutting perks for city admin, city council, and no city cars, trucks going home, and last no overtime. That how the Gov did calif.and look bal budget.I would like to see some answers for a change and not bad remarks between the city council and at people of moreno valley.You all need to step down if you are not going to represent the people of mova and stop doing for self interest. Mr Owings what is yout interest, look at are streets on east end that are damage by trucks and drainage. look at the v ditches that rich boy did. Why wasn' it down right (buried) or another bond for tax payers. Im hoping for some results or is it going to be same old way mv Mr Ed Noonan 28933 kenda ct I want action!!!!!!

## GLOBAL ECONOMY

# Technology taking toll on middle class jobs

BY BERNARD CONDON  
AND PAUL WISEMAN  
AP BUSINESS WRITERS

**NEW YORK** — Five years after the start of the Great Recession, the toll is terrifyingly clear: Millions of middle-class jobs have been lost in developed countries the world over.

And the situation is even worse than it appears.

Most of the jobs will never return, and millions more are likely to vanish as well, say experts who study the labor market. What's more, these jobs aren't just being lost to China and other developing countries, and they aren't just factory work. Increasingly, jobs are disappearing in the service sector, home to two-thirds of all workers.

They're being obliterated by technology.

Year after year, the software that runs computers and an array of other machines and devices becomes more sophisticated and powerful and capable of doing more efficiently tasks that humans have always done. For decades, science fiction warned of a future when we would be architects of our own obsolescence, replaced by our machines; an Associated Press analyst

# MIDDLE CLASS

CONTINUED FROM A1

sis finds that the future has arrived.

"The jobs that are going away aren't coming back," says Andrew McAfee, principal research scientist at the Center for Digital Business at the Massachusetts Institute of Technology and co-author of "Race Against the Machine." "I have never seen a period where computers demonstrated as many skills and abilities as they have over the past seven years."

The global economy is being reshaped by machines that generate and analyze vast amounts of data; by devices such as smartphones and tablet computers that let people work just about anywhere, even when they're on the move; by smarter, nimbler robots; and by services that let businesses rent computing power when they need it, instead of installing expensive equipment and hiring IT staffs to run it. Whole employment categories, from secretaries to travel agents, are starting to disappear.

"There's no sector of the economy that's going to get a pass," says Martin Ford, who runs a software company and wrote "The Lights in the Tunnel," a book predicting widespread job losses. "It's everywhere."

The numbers startle even labor economists. In the United States, half of the 7.5 million jobs lost during the Great Recession paid middle-class wages, ranging from \$38,000 to \$68,000. But only 2 percent of the 3.5 million jobs gained since the recession ended in June 2009 are midpay. Nearly 70 percent are low-paying jobs; 29 percent pay well.

In the 17 European countries that use the euro as their currency, the numbers are even worse. Almost 4.3 million low-pay jobs have been gained since mid-2009, but the loss of midpay jobs has never stopped. A total of 7.6 million disappeared from January 2008 through last June.

Experts warn that this "hollowing out" of the mid-

Millions of mid-skill, mid-pay jobs have disappeared over the past five years and have been replaced with technology.

sophisticated, victims are expected to include those who juggle tasks, such as supervisors and managers — workers who thought they were protected by a college degree.

■ Thanks to technology, companies in the Standard & Poor's 500 stock index reported one-third more profit the past year than they earned the year before the Great Recession. They've also expanded their businesses, but total employment, at 21.1 million, has declined by a half-million.

■ Start-ups account for much of the job growth in developed economies, but software is allowing entrepreneurs to launch businesses with a third fewer employees than in the 1990s.

■ It's becoming a self-serve world. Instead of relying on someone else in the workplace or our personal lives, we use technology to do tasks ourselves.

■ Technology is replacing workers in developed countries regardless of their politics, policies and laws. Union rules and labor laws may slow the dismissal of employees, but no country is attempting to prohibit organizations from using technology that allows them to operate more efficiently — and with fewer employees.

Some analysts reject the idea that technology has been a big job killer. They

living standards and dashed hopes.

In the U.S., the economic recovery that started in June 2009 has been called the third straight "jobless recovery."

But that's a misnomer. The jobs came back after the first two.

Most recessions since World War II were followed by a surge in new jobs as consumers started spending again and companies hired to meet the new demand. In the months after recession's ended in 1991 and 2001, there was no familiar snap-back, but all the jobs had returned in less than three years.

But 42 months after the Great Recession ended, the U.S. has gained only 3.5 million, or 47 percent, of the 7.5 million jobs that were lost. The 17 countries that use the euro had 3.5 million fewer jobs last June than in December 2007.

Fifty percent of the U.S. jobs lost were in midpay industries, but Moody's Analytics, a research firm, says just 2 percent of the 3.4 million jobs gained are in that category. After the four previous recessions, at least 30 percent of jobs created — and as many as 46 percent — were in midpay industries.

Developing economies have been spared the technological onslaught — for now. Countries like Brazil and China are still growing mid-

hate.

"It doesn't have political appeal to say the reason we have a problem is we're so successful in technology," says Joseph Stiglitz, a Nobel Prize-winning economist at Columbia University. "There's no enemy there."

Unless you count family and friends and the person staring at you in the mirror. The uncomfortable truth is technology is killing jobs with the help of ordinary consumers by enabling them to quickly do tasks that workers used to do full-time, for salaries.

Software is picking out worrisome blots in medical scans, running trains without conductors, driving cars without drivers, spotting profits in stocks trades in milliseconds, analyzing Twitter traffic to tell where to sell certain snacks, sifting through documents for evidence in court cases, recording power usage beamed from digital utility meters at millions of homes, and sorting returned library books.

What hope is there for the future?

Historically, new companies and new industries have been the incubator of new jobs. Start-up companies no more than five years old are big sources of new jobs in developed economies. In the U.S., they accounted for 99 percent of new private sector jobs in 2005, according to a

# Hik off

A Menifee man and his friends were near a boulder 30 feet above ground when it

BY SARAH STAFF WRITER sburge@p

A hiker was killed last afternoon, Jan. 10, when a boulder 30 feet above ground was sitting on top of a rocky outcrop and plunged him into the canyon below. He was hit by a boulder, authorities

Riverside County officials identified the hiker as Nicholas Lovato, 34.

"They said it sounded like a cracking sound, and it kind of looked like the boulder just came down on Michael Maddux. It was just a freak, tragic

Novato and four other hikers were hiked into the region. The trailhead off Carlsbad is in the hills southwest of San Diego. Sheriff's officials said Lovato had walked down the canyon and hiked to the quarters of a mile on the side of the rough terrain, Maddux said.

Three of the hikers were described as experienced. Lovato stopped to rest on the crossing when it was about 100 feet above the ground.

Novato's friends

but the loss of midpay jobs has never stopped. A total of 7.6 million disappeared from January 2008 through last June.

Experts warn that this "hollowing out" of the middle-class workforce is far from over. They predict the loss of millions more jobs as technology becomes even more sophisticated and reaches deeper into our lives. Maarten Goos, an economist at the University of Leuven in Belgium, says Europe could double its middle-class job losses.

Some occupations are beneficiaries of the march of technology, such as software engineers and app designers for smartphones and tablet computers. Overall, though, technology is eliminating far more jobs than it is creating.

AP analyzed employment data from 20 countries; tracked changes in hiring by industry, pay and task; compared job losses and gains during recessions and expansions over the past four decades; and interviewed economists, technology experts, robot manufacturers, software developers, entrepreneurs and people in the labor force who ranged from CEOs to the unemployed.

The AP's key findings:

- Over the past 50 years, technology has drastically reduced the number of jobs in manufacturing. Robots and other machines controlled by computer programs work faster and make fewer mistakes than humans. Now, that same efficiency is being unleashed in the service economy, which employs more than two-thirds of the workforce in developed countries.

- Technology is being adopted by every kind of organization that employs people. It's replacing workers in large corporations and small businesses, established companies and start-ups. It's being used by schools, colleges and universities; hospitals and other medical facilities; nonprofit organizations and the military.

- The most vulnerable workers are doing repetitive tasks that programmers can write software for — an accountant checking a list of numbers, an office manager filing forms, a paralegal reviewing documents for key words to help in a case. As software becomes even more

developing economies have been spared the technological onslaught — for now. Countries like Brazil and China are still growing middle-class jobs because they're shifting from export-driven to consumer-based economies. But even they are beginning to use more machines in manufacturing.

Some analysts reject the idea that technology has been a big job killer. They note that the collapse of the housing market in the U.S., Ireland, Spain and other countries and the ensuing global recession wiped out millions of middle-class construction and factory jobs. In their view, governments could bring many of the jobs back if they would put aside worries about their heavy debts and spend more. Others note that jobs continue to be lost to China, India and other countries in the developing world.

But to the extent technology has played a role, it raises the specter of high unemployment even after economic growth accelerates. Some economists say millions of middle-class workers must be retrained to do other jobs if they hope to get work again.

A common refrain: The developed world may face years of high middle-class unemployment, social discord, divisive politics, falling

jobs. Start-up companies no more than five years old are big sources of new jobs in developed economies. In the U.S., they accounted for 99 percent of new private sector jobs in 2005, according to a study by the University of Maryland's John Haltiwanger and two other economists.

But even these companies are hiring fewer people. The average new business employed 4.7 workers when it opened its doors in 2011, down from 7.6 in the 1990s, according to a Labor Department study released last March.

Technology is probably to blame, wrote the report's authors, Eleanor Choi and James Spletzer. Entrepreneurs no longer need people to do clerical and administrative tasks to help them get their businesses off the ground.

Developing economies have been spared the technological onslaught — for now. Countries like Brazil and China are still growing middle-class jobs because they're shifting from export-driven to consumer-based economies. But even they are beginning to use more machines in manufacturing.

Candidates for U.S. president last year never tired of telling Americans how jobs were being shipped overseas. China, with its vast army of cheaper labor and low-value currency, was easy to blame.

But most jobs cut in the U.S. and Europe weren't moved. No one got them. They vanished. And the villain in this story — a clever software engineer working in Silicon Valley or the high-tech hub around Heidelberg, Germany — isn't so easy to

## ORANGE COUNTY

### Oregon returns suspect in death

An Oregon man facing murder charges for the 1990 stabbing death of his roommate was extradited Wednesday to Orange County.

Charles-Lee Clark, 74, is charged with one felony count of murder. He had been living in Beavercreek, Ore., according to the district attorney's office and Tustin police. He is being held on \$5-million bail.

Prosecutors allege that on Nov. 18, 1990, Clark fatally stabbed Kathleen Witkowski, 38, after an argument. Her body was found several days later.

# Santa Ana council fires city manager

BY NICOLE SANTA CRUZ

The administrator credited with steering Santa Ana away from potential bankruptcy has been abruptly fired, exposing a deepening fissure among political leaders in Orange County's second-largest city.

City Manager Paul Walters, who had been the city's longtime police chief before being asked to resolve a \$35-million budget shortfall, was seen as an ally of Santa Ana's longtime mayor, Miguel Pulido. But Pulido's power in the town has eroded and he is increasing isolated by council colleagues.

"It's also about laying the foundation of transparency and breaking the shackles of the current centralized form of government that the mayor has enjoyed for the last 26 years," said Sal Tinajero, the city's mayor pro tem.

Pulido was the only member of the council to oppose Walters' termination. The mayor did not return calls seeking comment.

Tinajero said the council will meet Thursday to discuss the terms of Walters' dismissal.

Walters, once a front-runner to replace Sheriff Michael Carona after the lawman was convicted of witness tampering, declined to comment. His contract shows he's paid \$265,000 per year.

Tom Lutz, a former city councilman, called the action a "political ploy" that could damage the city's recruiting power when it looks for a new city manager.

"Nobody is going to want to take that chance in any sort of a nationwide search," Lutz said. "It's not a good precedent to put out there."

Tinajero said he could not comment on the specifics of Walters' termination because it is a personnel matter, but said the council has evolved over recent years and has reached the point where the mayor is no longer running the city.

In the November election, Councilman David Benavides ran against Puli-

MARK BOSTER Los Angeles Times

**PAUL WALTERS** was Santa Ana's police chief before becoming city manager. He lost council support.

do, a move that was then called an "awakening within the city" by Tinajero. Despite the challenge, Pulido easily won reelection.

Tinajero said that Pulido has gone against council directives by attempting to get city staff to delay certain projects, leaving other coun-

cil members feeling powerless.

"Last night, what the city was looking toward was democracy and the implementation of democracy," Tinajero said.

nicole.santacruz@latimes.com

\$80,000 to

is not confirmed. Adding that she and the board's executive committee plan to meet soon on the matter.

Ken Duong, an attorney and chairman of the chamber's board, declined to comment. Vo targeted Duong in his note, saying that he owns "a law firm which is focused on international business & immigration and that generating global network is important."

When a theater troupe from Vietnam visited Fountain Valley in September, nearly 300 demonstrators swarmed the Saigon Performing Arts Center, vocally attacking the visitors from Ho Chi Minh City. It cost the city \$8,000 in police services to control the crowd, Vo said.

He also cited the demonstration outside Hitek TV & VCR in Westminster in 1999, when more than 15,000 people united against a Little Saigon merchant displaying the Communist flag and a picture of Ho Chi Minh at his video store. City officials there paid almost \$200,000 for overtime police, among other expenses, during 53 days of protest.

In recent months, officials in Westminster and Garden Grove have passed laws requiring advance notice of visits from communist delegations so police have time to prepare. Vo said he plans to introduce a similar ordinance in Fountain Valley. The heavily Vietnamese community known as Little Saigon reaches into all three cities and Santa Ana.

January 16, 2013

To: Tom Owings, Mayor, City of Moreno Valley, CA

From: Daniel Galarza, Certified Administrative Hearing Interpreter

Re: City Council meetings interpreting service

Dear Mr. Owings,

As per our recent conversation regarding the need for a more efficient language interpreting service during the City Council meetings, I am enclosing two letters of experience and recommendations for your consideration as you seek to improve this issue.

Besides having a Master's Degree in the Spanish Language from the University of California, I have rendered many years of interpreting service to our courts here in the Inland Empire. In addition, I have had the privilege of serving as a bilingual cross/cultural educator at the university level for several years. This experience has put me in contact with a wide variety of cultures within our area.

I believe that I can be of assistance in improving your current interpreting issues during your Council meetings and in any other interpreting and translation needs, not only in Spanish, but in any other language and culture as well. I have contacts in many other interpreting agencies. Unregulated and informal interpreting in important administrative matters can lead to misinterpretation, misunderstandings, and bias. I'm currently retired working part-time for Cal. State and Redlands Univ.

If my qualifications, experience, and suggestions are appealing to you please feel free to contact me for further information.

Sincerely,

Daniel Galarza [REDACTED]

Dear Sir/Madam:

The purpose of this letter is to highly recommend Mr. Daniel Galarza for any position that he may be qualified for, or for any endeavor that he seeks. The Chino Municipal Court has had the opportunity to utilize Mr. Galarza as a Certified Spanish Interpreter on numerous occasions in the past six months. We have found that he is extremely proficient in this responsibility, and his personality exhibits confidence and good character.

I personally have found Mr. Galarza to be conscientious in his interpreting responsibility, and to possess a personality that is well beyond reproach. I recommend him highly.

Very Truly Yours,

Dear Councilmember Owings,

On behalf of the members of the California Apartment Association - Apartment Association Greater Inland Empire (CAA-AAGIE), please accept our sincerest congratulations on your success in the recent election. We appreciate your hard work and commitment to serving the residents and businesses of Moreno Valley.

CAA- AAGIE has been the region's largest trade association for the rental housing industry in the Inland Empire since 1967. Our organization represents more than 1,000 members that own or operate more than 59,000 units within the region.

As you begin to prepare for your tenure, I would like to make myself available to you if you should need any assistance on areas involving the rental housing industry. I have enclosed my business card with my contact information.

Again, thank you for your time and dedication to serving the community of Moreno Valley. I recognize your commitment does not come without sacrifices and AAGIE is grateful for your service.

Best regards

Tim Johnson  
Executive Director,

Dear Community/Business Partner,

The Moreno Valley Hispanic Chamber of Commerce, in partnership with the Moreno Valley Ballet Folklorico Scholarship Association would like to invite you to join us in sponsoring The Moreno Valley High School AVID program Annual Senior Dinner and Award Recognition event.

AVID is an excellent educational program dedicated to assist students at risk, to succeed by finding ways to graduate from High School and be accepted at Higher educational institutions. AVID Coordinators are in the planning stages of their annual event, to be held Friday, May 24, 2013. As in the past the success of this event has largely been due to the contributions of sponsors who have gone out of their way to lend financial support to this event. Every year the money raised has been donated to the program. This year we plan on donating all funds to setting up this great annual event.

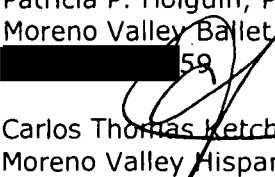

We hope that you would support the cause by joining hands with us as a sponsor for the event. As a sponsor, you will receive appropriate recognition from the High School AVID Coordinators and staff and all promotions for the event. You will also gain recognition from the audience attending the event. As a distinguished member dedicated to improving the life in our community, you are definitely an ideal partner for us in this venture.

We are estimating the cost of the event at approximately \$3, 000, which would cover the rent of the Moreno Valley Conference and Recreation Center and an affordable meal for 400 people expected to be in attendance. You can choose how you would want to participate and make sure this is a very successful event.

We are looking forward to hearing from you. In case you have any queries you can contact us at the numbers given below. Thank you for being our partner in the past and hopefully you will continue to support us in this endeavor. Checks can be made up to Moreno Valley Hispanic Chamber of Commerce, P.O. Box 246, Moreno Valley, CA 92553.

Yours sincerely,

  
Patricia P. Holguin, President,  
Moreno Valley Ballet Folklorico Scholarship Association

To Whom It May Concern;

I am writing to request your participation in an upcoming Career Day event I am coordinating. The name of the program is YEMP (Youth Education Motivation Program). Locally, it is sponsored by Riverside Community College District and I have attached a brochure of the program.

The event will be held at Palm Middle School in Moreno Valley, from 8:00am-10:30am, on Tuesday, May 21, 2013.

Essentially, adult speakers go into classrooms to discuss their career and background and to encourage students to complete their education. I have also attached a YEMP Speaker's Guide, which provides more detailed information. Hopefully, you and or others from your organization can join us for this worthy event. The dropout rates in this area are high and it is imperative that we encourage our students to stay in school.

Here are the details on the upcoming YEMP:

Date: Tuesday, May 21, 2013 8:00am- 10:30am

Address: Palm Middle School  
11900 Slawson Ave.  
Moreno Valley, CA 92557  
951-571-4260

Would you be so kind as to let me know if you are interested in participating in this program? Or perhaps you can refer a colleague that would be interested in participating? Please send me your contact information before February 28, 2013 so I can send you an official invitation for this special event.

Thank you for your help and support.

Sincerely,

*Hilda Rodriguez*

Moreno Valley, CA 92552

Dear Mayor Owings:

Subject: Notice of Availability of a Draft Environmental Impact Report/Environmental Impact Statement and Notice of Public Hearing

Riverside County Transportation Commission (RCTC), in cooperation with the California Department of Transportation (Caltrans), proposes to realign approximately 18 miles of State Route 79 (SR-79) in the cities of Hemet and San Jacinto and unincorporated Riverside County. The Project would begin approximately 1.26 miles south of Domenigoni Parkway and end at the intersection of SR-79 and Gilman Springs Road. The realigned highway would be a limited access, four-lane expressway, with two travel lanes in each direction separated by a median. The alternatives evaluated in the Draft Environmental Impact Report/Draft Environmental Impact Statement are four Build alternatives, two Design Options, and a No Build Alternative.

Anticipated federal approvals include air quality conformity, Section 7 consultation for threatened and endangered species, and a Section 404 Individual Permit. State approvals are also expected, including a Section 401 Water Quality Certification from the Regional Water Quality Control Board and a Streambed Alteration Agreement from the California Department of Fish and Wildlife.

Alternatives are being considered in the current Project Approval/Environmental Document phase of this project. Caltrans will act as the National Environmental Policy Act (NEPA) lead agency, and RCTC will be a responsible agency. Moving Ahead for Progress in the 21<sup>st</sup> Century (MAP-21) replaces the previous authorization, the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU). Effective July 1, 2007, the Federal Highway Administration (FHWA) assigned, and the California Department of Transportation (Caltrans) assumed, all the United States Department of Transportation (USDOT) Secretary's responsibilities under NEPA pursuant to Section 6005 of SAFETEA-LU codified at 23 U.S.C. 327(a)(2)(A). Caltrans also assumed all of

Draft Environmental Impact Report/Environmental Impact Statement Available for State Route 79 Realignment Project: Domenigoni Parkway to Gilman Springs Road

## Announcement of Public Hearing

### What's Being Planned?

The California Department of Transportation (Caltrans), in cooperation with the U.S. Army Corps of Engineers, Riverside County Transportation Commission, the City of Hemet, the City of San Jacinto, and the County of Riverside is proposing to realign approximately 18 miles of State Route 79 (SR-79) in the cities of Hemet and San Jacinto and unincorporated Riverside County. The project would begin approximately 1.26 miles south of Domenigoni Parkway and end south of the San Jacinto River. The

<b>Planned?</b>	<p>and the County of Riverside is proposing to realign approximately 18 miles of State Route 79 (SR-79) in the cities of Hemet and San Jacinto and unincorporated Riverside County. The project would begin approximately 1.26 miles south of Domenigoni Parkway and end south of the San Jacinto River. The realigned highway would be constructed as a limited access, four-lane expressway, with two travel lanes in each direction separated by a median. Four Build alternatives, two design options, and a No Build Alternative are evaluated in the Draft Environmental Impact Report/Draft Environmental Impact Statement. The four Build alternatives propose to realign SR-79 in different locations along the western portion of the San Jacinto Valley. The design options would have the same alignments as two of the Build alternatives, but would be lower in elevation from Domenigoni Parkway to Florida Avenue.</p> <p>The proposed work may have an effect on historic properties that are eligible for the National Register of Historic Places. Caltrans is evaluating alternatives to determine if the project can avoid adversely affecting the property(ies) or, if not, to identify adequate mitigation measures that can be incorporated into the project plans.</p> <p>Anticipated federal approvals include air quality conformity, Section 7 consultation for threatened and endangered species, and a Clean Water Act Section 404 Individual Permit. State approvals are also expected, including a Section 401 Water Quality Certification from the Regional Water Quality Control Board and a Streambed Alteration Agreement from the California Department of Fish and Wildlife.</p>
<b>Why This Ad?</b>	<p>Caltrans has studied the effects this project may have on the environment. Our studies show that it will significantly affect the quality of the environment. The results of these studies are explained in the Draft Environmental Impact Report/Draft Environmental Impact Statement. This notice is to advise the public of the availability of the Draft Environmental Impact Report/Draft Environmental Impact Statement, and the accompanying documents, and to offer the opportunity for public comments.</p> <p>Two open house hearings will be held to give you an opportunity to talk about the alternatives and proposed design of the project with Caltrans staff before the Preferred Alternative is identified.</p>
<b>What's Available?</b>	<p>You can review a hard copy of the Draft Environmental Impact Report/Draft Environmental Impact Statement at the Caltrans District 8 office at 464 West Fourth Street, San Bernardino, CA, 92401 on weekdays from 9 a.m. to 3 p.m. There are also hard copies available at the Riverside County Transportation Commission, 4080 Lemon Street, Third Floor, Riverside, CA 92501, Monday through Thursday from 8 a.m. to 5 p.m.; during business hours at the Hemet Public Library, 300 E. Latham Avenue, Hemet, CA 92543; and the San Jacinto Public Library, 500 Idyllwild Drive, San Jacinto, CA 92583. An electronic copy is available online at <a href="http://www.sr79project.info/">http://www.sr79project.info/</a>.</p>
<b>Where You Come In</b>	<p>Have the potential impacts been addressed? Do you have information that should be included? Your comments will be part of the public record. If you wish to comment on the Draft Environmental Impact Report/Draft Environmental Impact Statement, submit your written comment by March 25, 2013 to Aaron Burton, California Department of Transportation, P.O. Box 12008, Riverside, CA 92502-2208 or contact us through our website at <a href="http://www.sr79project.info/contact">www.sr79project.info/contact</a>.</p>
<b>When and Where?</b>	<p>Open house hearings for the Draft Environmental Impact Report/Draft Environmental Impact Statement will be held on Tuesday, February 26 from 3 p.m. to 6 p.m. and Wednesday, February 27 from 5 p.m. to 8 p.m. at Tahquitz High School, 4425 Titan Trail, Hemet, CA 92545 in the Multipurpose Room.</p>
<b>Contact</b>	<p>Individuals who require special accommodation (American Sign Language interpreter, accessible seating, documentation in alternate formats, etc.) are requested to contact Caltrans District 8, Aaron Burton at (951) 824-8706 prior to the scheduled open house hearing date. TDD users may contact the California Relay Service TTY line at 1 (800) 735-2929 or Voice Line at 1 (800) 735-2922. For more information about this study or any transportation matter, call District 8 Public Affairs at (866) 383-4631 or (909) 383-4631.</p>

RE: Police Services Agreement Review Request – Moreno Valley Mall

Dear Mr. Garcia,

This letter is a follow up to our request for the review of the Police Service Agreement at Moreno Valley Mall. In accordance with the agreement, Mall ownership hired a consultant to review the Agreement and current operations at the property and submitted the report and recommended modifications for service here on January 26, 2012. At that time we requested a review by your staff and the Moreno Valley City Council. To date, we have not had a meeting with City Council to review the request and the existing Police Services Agreement.

On April 3, 2012, we met with Michele Dawson, to further review the services, the consultant's report and property operations. We provided information from the International Council of Shopping Centers which reflects the industry standards for shopping centers and also provided information from shopping centers in the region with police services. Both the comparisons reflect the significant impact of the current agreement on the mall's security related costs and the operational expense burden on the businesses at Moreno Valley Mall.

We would like to have a meeting date set with the City Council at their earliest convenience to discuss the report and recommendations. Additionally, we would like to request a special study session be conducted to further review the existing agreement, current property operations and our request for modifications to Police Services Agreement. We understand the Council's schedule and time might be committed, however, we would like to meet no later than the first week in February in light of the fact that the report has been held for almost a year.

We appreciate your timely response to this request. We look forward to meeting with you and the Moreno Valley City Council.

If you need any additional information or have any questions, please contact me at [redacted] or by email at [donna.farrell@cis.cushwake.com](mailto:donna.farrell@cis.cushwake.com).

Greetings:

I am in receipt of responses provided to the comment letter submitted by AQMD, dated January 17, 2013 by T&B Planning ("T&B Response"). On behalf of the Sierra Club, Moreno Valley Group, and Residents for a Livable Moreno Valley, please consider these additional comments on the above Project.

The responses to AQMD's comments accentuate the fatal flaws of this Project and the City's failure to require *all feasible mitigation* to reduce the effects of the Project. First, the letter states that the Project incorporates 10 Project Requirements and 20 Mitigation Measures to reduce the Project's air quality impact. That the Project must comply with the law is evident- listing the manner in which the Project will comply with the law does not mitigate for this Project's significant air quality effects.

Second, AQMD commented that the Project will have long term operational air quality impacts and that, "Notwithstanding this significant impact, the lead agency concludes in its response to AQMD staff comments that no mitigation measures are feasible to reduce these impacts." AQMD does not comment that no mitigation was adopted specifically for long term NOx impacts. (*compare*, AQMD Letter, dated December 14, 2012, p.1. par. 2; T&B Response p.1 par. 4)

Third, AQMD commented that the "lead agency has not provided sufficient rationale to justify

the lack of mitigation.” (AQMD Letter p.1. par. 2) This deficiency is underscored, not refuted, by the response:

“The City determined that staff would be unable to effectively enforce such a measure and that placement of such a restriction on this one project could merely displace operators with trucks having older than 2010 to another location in the South Coast Air Basin where the restriction does not apply...” (T&B Response p.2 par. 6)

A finding of infeasibility is not supported by this explanation, where feasible means “capable of being accomplished in a successful manner within a reasonable period of time.” (CEQA Guidelines § 15364) While mitigation must be *legally enforceable* through conditions of approval and other means, the City states no basis for finding the Project infeasible where it has the ability to enforce such mitigation through incorporating it as a conditional of approval or otherwise, but has opted not to do so. (Pub. Res. C. 21081.6(b), Guidelines § 15126.4(a)(2).) The City fails to demonstrate any reason it cannot enforce mitigation.

The City need not *prohibit* trucks from entering the site to *enforce* mitigation. Such requirements may be monitored and reported by inspections by City staff or keeping of logs documenting trucks entering the site. Should the Project be found in non-compliance with its mitigation measures, the City may provide a deadline by which it must be brought into compliance before initiating further enforcement procedures such as permit revocations, stop work orders, denial of subsequent approvals, etc.

Moreover, while operators may be displaced temporarily, mitigation requirements placed on new projects will likely result in operators upgrading trucks in accordance with demand as such mitigation is incorporated into more and more projects. Mitigation will thus act to clean up the air, a possibility not considered in the response. By not requiring this mitigation, the Project would *definitely* emit pollutants into the air and not incorporate all feasible mitigation, as mandated by CEQA. The claim that operators *could* be displaced ignores the requirements of CEQA. It also undermines actions by AQMD, undisputed experts in the field of air quality in the region, to ensure healthy air quality in the Basin. Effectively, the Project seeks to operate below the standards to which other, similar projects would and will be held without adequate rationale to justify the lack of mitigation.

Fourth, having opted to not *require* use of trucks which meet cleaner engine standards or the use of alternative fuels for cargo handling equipment, the Project takes the step to *encourage* and *inform* about the use and availability of these cleaner equipments. It is feasible, as stated by AQMD, to require these standards and use of alternative fuels. Such requirements may be enforced by mandating that the operator maintain a log of trucks accessing the site and cargo handling equipment, or otherwise as discussed above.

Fifth, while it is apparent that AQMD, Sierra Club, and Residents for a Livable Moreno Valley are very concerned about the Project’s emissions from diesel equipment and diesel trucks, the mitigation required of this Project still does not mitigate for these on-road emissions. Two parking spaces for carpools and two EV charging stations does nothing to mitigate for the hundreds of truck trips to/from the site.

Sixth, it appears AQMD went above and beyond demonstrating that implementation of the mitigation measures is feasible, that other buildings have been required to implement such measures, and that businesses have decided to use and incentivize lower emitting trucks.

Seventh, AQMD suggested providing infrastructure for alternative fuels; another of its suggestions included using alternatively fueled operating equipment. The claim that the Project is "not a fuel terminal" is unresponsive to these suggested mitigation measures. Moreover, one of the "alternative fuels" cited is electric. Electricity may feasibly be used for more than 2 EV stations, such as for yard trucks, etc.

Eighth, as above, Moreno Valley may require tenants to apply for funding through incorporating such a requirement in its conditions of approval/mitigation measures. For example: "Require that any lease/sale agreement or contract contain the following requirement: Tenant must apply for funding to retrofit and/or replace older trucks." T&B and the City have cited no reason such a measure cannot be implemented.

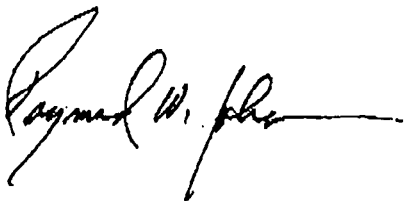

Ninth, neither the City nor T&B cite any reason that it cannot require all holsters that only operate onsite be alternatively fueled. It may be required as a mitigation measure and condition of approval, and supported by on-site infrastructure for alternative fuels.

Tenth, the City does not state why solar to provide electricity for the entire building is infeasible.

Eleventh, while CEQA may not require the analysis of "worst case scenario" per se, it does mandate that the City evaluate and disclose all potential and foreseeable project impacts. Potential impacts may be withheld, hidden, or otherwise not disclosed without the consideration of the "worst case scenario." The EIR must analyze a reasonable number of trips in the traffic and air quality study. It has not done so.

Lastly, the City fails to acknowledge that its health risk impact does not consider cumulative, but only individual, Project effects. Here, the Project individual health risk was 3.7 in one million. However, cumulative with other Projects in the area, the cumulative health risk may be much higher and new calculations are needed.

Sincerely,

A handwritten signature in black ink, appearing to read "Raymond W. Johnson". The signature is fluid and cursive, with a long horizontal line extending to the right.

Greetings:

On behalf of the Sierra Club, Moreno Valley Group, and Residents for a Livable Moreno Valley, I hereby request that the City Council reconsider comments previously submitted by these groups in opposition to the March Business Center Project and commenting on its Draft and Final Environmental Impact Reports, EIR Case P11-005; Resolution Nos. 2013-05, -06, -07, and -08 (the "Project"). Please incorporate all of these groups' previously made comments in full in considering this Project for approval or denial.

The EIR prepared for this Project does not comply with the law, policies or informational requirements of the California Environmental Quality Act (CEQA), as detailed in previous comments. The US Department of Fish and Wildlife, South Coast Air Quality Management District, the Pechanga Band of Luiseno Indians, and others have for these reasons opposed this Project and the City's decisions to go forward with extensive warehousing without any consideration for the health and quality of the environment in the City and region. Furthermore, the City has failed to require incorporation of all feasible mitigation or the adoption of environmentally superior alternatives to proposed projects. I would call your attention particularly to unmitigated impacts from mobile source air quality emissions and traffic and reiterate the comments of SCAQMD, though many other potentially significant Project effects are equally disregarded, overlooked, and unmitigated.

To comply with CEQA, the EIR must be almost completely revamped and recirculated in a manner that discloses and evaluates Project impacts. Additional mitigation measures,

especially to reduce operational air quality, traffic, and biological impacts must be adopted for the Project. Also, Alternative 2 must be adopted in lieu of the Project as it would accomplish most Project objectives while reducing significant Project effects.

For these reasons and those articulated in prior comment letters submitted concerning this Project, we ask that you deny Resolution Nos. 2013-05, 2013-06, 2013-07, and 2013-08, decline to certify the EIR and deny the Project in its entirety.

Thank you for your consideration of these and all previously submitted comments.

Sincerely,

**RE: Further Comment on Letter in Reply to AQMD; March Business Center Final Environmental Impact Report and Project Comments (P11-005 [EIR], PA11-0001 [General Plan Amendment]; PA 11-0002- PA11-0006[Master and 4 Plot Plans], PA011-0007 [TPM 35879], P11-004 [Specific Plan Amendment].)**

Greetings:

I am in receipt of responses provided to the comment letter submitted by AQMD, dated January 17, 2013 by T&B Planning ("T&B Response"). On behalf of the Sierra Club, Moreno Valley Group, and Residents for a Livable Moreno Valley, please consider these additional comments on the above Project.

The responses to AQMD's comments accentuate the fatal flaws of this Project and the City's failure to require *all feasible mitigation* to reduce the effects of the Project. First, the letter states that the Project incorporates 10 Project Requirements and 20 Mitigation Measures to reduce the Project's air quality impact. That the Project must comply with the law is evident- listing the manner in which the Project will comply with the law does not mitigate for this Project's significant air quality effects.

Second, AQMD commented that the Project will have long term operational air quality impacts and that, "Notwithstanding this significant impact, the lead agency concludes in its response to AQMD staff comments that no mitigation measures are feasible to reduce these impacts." AQMD does not comment that no mitigation was adopted specifically for long term NOx impacts. (*compare*, AQMD Letter, dated December 14, 2012, p.1. par. 2; T&B Response p.1 par. 4)

Third, AQMD commented that the "lead agency has not provided sufficient rationale to justify

the lack of mitigation.” (AQMD Letter p.1. par. 2) This deficiency is underscored, not refuted, by the response:

“The City determined that staff would be unable to effectively enforce such a measure and that placement of such a restriction on this one project could merely displace operators with trucks having older than 2010 to another location in the South Coast Air Basin where the restriction does not apply...” (T&B Response p.2 par. 6)

A finding of infeasibility is not supported by this explanation, where feasible means “capable of being accomplished in a successful manner within a reasonable period of time.” (CEQA Guidelines § 15364) While mitigation must be *legally enforceable* through conditions of approval and other means, the City states no basis for finding the Project infeasible where it has the ability to enforce such mitigation through incorporating it as a conditional of approval or otherwise, but has opted not to do so. (Pub. Res. C. 21081.6(b), Guidelines § 15126.4(a)(2).) The City fails to demonstrate any reason it cannot enforce mitigation.

The City need not *prohibit* trucks from entering the site to *enforce* mitigation. Such requirements may be monitored and reported by inspections by City staff or keeping of logs documenting trucks entering the site. Should the Project be found in non-compliance with its mitigation measures, the City may provide a deadline by which it must be brought into compliance before initiating further enforcement procedures such as permit revocations, stop work orders, denial of subsequent approvals, etc.

Moreover, while operators may be displaced temporarily, mitigation requirements placed on new projects will likely result in operators upgrading trucks in accordance with demand as such mitigation is incorporated into more and more projects. Mitigation will thus act to clean up the air, a possibility not considered in the response. By not requiring this mitigation, the Project would *definitely* emit pollutants into the air and not incorporate all feasible mitigation, as mandated by CEQA. The claim that operators *could* be displaced ignores the requirements of CEQA. It also undermines actions by AQMD, undisputed experts in the field of air quality in the region, to ensure healthy air quality in the Basin. Effectively, the Project seeks to operate below the standards to which other, similar projects would and will be held without adequate rationale to justify the lack of mitigation.

Fourth, having opted to not *require* use of trucks which meet cleaner engine standards or the use of alternative fuels for cargo handling equipment, the Project takes the step to *encourage* and *inform* about the use and availability of these cleaner equipments. It is feasible, as stated by AQMD, to require these standards and use of alternative fuels. Such requirements may be enforced by mandating that the operator maintain a log of trucks accessing the site and cargo handling equipment, or otherwise as discussed above.

Fifth, while it is apparent that AQMD, Sierra Club, and Residents for a Livable Moreno Valley are very concerned about the Project’s emissions from diesel equipment and diesel trucks, the mitigation required of this Project still does not mitigate for these on-road emissions. Two parking spaces for carpools and two EV charging stations does nothing to mitigate for the hundreds of truck trips to/from the site.

Sixth, it appears AQMD went above and beyond demonstrating that implementation of the mitigation measures is feasible, that other buildings have been required to implement such measures, and that businesses have decided to use and incentivize lower emitting trucks.

Seventh, AQMD suggested providing infrastructure for alternative fuels; another of its suggestions included using alternatively fueled operating equipment. The claim that the Project is "not a fuel terminal" is unresponsive to these suggested mitigation measures. Moreover, one of the "alternative fuels" cited is electric. Electricity may feasibly be used for more than 2 EV stations, such as for yard trucks, etc.

Eighth, as above, Moreno Valley may require tenants to apply for funding through incorporating such a requirement in its conditions of approval/mitigation measures. For example: "Require that any lease/sale agreement or contract contain the following requirement: Tenant must apply for funding to retrofit and/or replace older trucks." T&B and the City have cited no reason such a measure cannot be implemented.

Ninth, neither the City nor T&B cite any reason that it cannot require all holsters that only operate onsite be alternatively fueled. It may be required as a mitigation measure and condition of approval, and supported by on-site infrastructure for alternative fuels.

Tenth, the City does not state why solar to provide electricity for the entire building is infeasible.

Eleventh, while CEQA may not require the analysis of "worst case scenario" per se, it does mandate that the City evaluate and disclose all potential and foreseeable project impacts. Potential impacts may be withheld, hidden, or otherwise not disclosed without the consideration of the "worst case scenario." The EIR must analyze a reasonable number of trips in the traffic and air quality study. It has not done so.

Lastly, the City fails to acknowledge that its health risk impact does not consider cumulative, but only individual, Project effects. Here, the Project individual health risk was 3.7 in one million. However, cumulative with other Projects in the area, the cumulative health risk may be much higher and new calculations are needed.

Sincerely,

A handwritten signature in black ink, appearing to read "Raymond W. Johnson". The signature is fluid and cursive, with a long horizontal stroke at the end.

# MID COUNTY PARKWAY PROJECT PUBLIC NOTICE

## Notice of Availability of a Recirculated Draft Environmental Impact Report/Supplemental Draft Environmental Impact Statement and Notice of a Public Hearing

13 JAN 28 PM 2:59

CITY COUNCIL  
MORENO VALLEY  
RECEIVED

### WHAT IS BEING PLANNED?

The Riverside County Transportation Commission (RCTC), the Federal Highway Administration (FHWA), and the California Department of Transportation (Caltrans) are proposing a project to improve west-east transportation in western Riverside County between Interstate 215 (I-215) in the west and State Route 79 (SR-79) in the east. RCTC is the lead agency under the California Environmental Quality Act (CEQA) and FHWA is the Lead Agency under the National Environmental Policy Act (NEPA), in cooperation with Caltrans. The Mid County Parkway (MCP) project is a proposed 16-mile transportation corridor designed to relieve local and regional traffic congestion between the cities of Perris and San Jacinto and surrounding Riverside County communities. The corridor was identified as part of the Riverside County Integrated Project, a region wide planning effort to ensure mobility and protect the environment and quality of life as the area continues to grow. The project alternatives consist of three Build Alternatives (4 Modified, 5 Modified, and 9 Modified) and two No Build Alternatives (1A and 1B).

### WHY THIS NOTICE?

The Recirculated Draft Environmental Impact Report/Supplemental Draft Environmental Impact Statement (RDEIR/SDEIS), that was prepared pursuant to Federal and State environmental laws, examines the potential environmental impacts of the alternatives being considered for the proposed MCP project. The document describes why the project is being proposed, the project alternatives, the existing environment that could be affected by the project, the potential environmental impacts of each of the proposed alternatives, and the proposed avoidance, minimization and/or mitigation measures. Potential benefits from future implementation include increased accessibility for residents and businesses and relieving traffic congestion on the regional and local transportation network. Key issues include impacts to community character and cohesion, land use, farmlands, growth-related effects, biological resources, aquatic resources, cultural resources, aesthetics, park lands, open space, residential relocations, business relocations, traffic, noise, air quality, climate change, and temporary construction effects. The proposed work involves sites on a list enumerated under Section 65962.5 of the Government Code to hazardous wastes. One or more of the alternatives being evaluated will have an effect on the historic properties eligible for the National Register of Historic Places. The United States Army Corps of Engineers is a Cooperating Agency under NEPA and intends to use the MCP EIS as the supporting documentation for its future Section 404 permitting action.

The RCTC is hosting a public hearing to provide the community with information about the RDEIR/SDEIS. The public hearing will be held on February 20, 2013, at Lakeside Middle School located at 27720 Walnut Street, Perris, CA 92571. At this open house style meeting, you may attend anytime between 5 p.m. and 8 p.m. There will be no formal presentation at this meeting, however the public is invited to make oral comments to a court reporter or talk with staff about the project. Written comments will be accepted at the meeting and through the public comment period ending March 11, 2013.

### WHAT IS AVAILABLE?

The RDEIR/SDEIS and technical studies are available for viewing at the following locations during regular business hours: 1) RCTC, 4080 Lemon Street 3rd Floor, Riverside, CA 92501; 2) FHWA, 650 Capitol Mall, Suite 4-100, Sacramento, CA 95814; 3) Caltrans District 8 Office, 464 W. 4th Street, San Bernardino, CA 92401; 4) Perris Public Library, 163 E. San Jacinto Avenue, Perris, CA 92507; 5) San Jacinto Public Library, 500 Idyllwild Drive, San Jacinto, CA 92583; and 6) Moreno Valley Public Library, 25480 Alessandro Boulevard, Moreno Valley, CA 92553. You may also view and comment on the RDEIR/SDEIS at [www.midcountyparkway.org](http://www.midcountyparkway.org).

### WHERE YOU COME IN

The RDEIR/SDEIS is available for public review and comment between January 25, 2013 and March 11, 2013. The purpose of the public review and comment period is to give interested parties the opportunity to provide their input on the proposed project and the environmental analysis for the project. Public and agency comments previously submitted for the October 2008 Draft EIR/EIS will be included in the MCP Administrative Record, but no formal responses will be prepared. Any comments received during the public review period of the RDEIR/SDEIS will be formally responded to in the Final EIR/EIS. Comments may be submitted in person at the public hearing, online at [www.midcountyparkway.org](http://www.midcountyparkway.org), or mailed to: Ms. Cathy Bechtel, RCTC, P.O. Box 12008, Riverside, CA 92502. All comments must be received no later than 5 PM on March 11, 2013.

### CONTACT/SPECIAL ACCOMMODATIONS

For individuals who require special accommodations (American Sign Language or other lingual interpreter, documentation in alternate formats, etc.), please call (951) 787-7141 or write to: Ms. Cathy Bechtel, RCTC, P.O. Box 12008, Riverside, CA 92502, before March 11, 2013.

January 16, 2013

Mayor Tom Owings  
City of Moreno Valley  
14177 Frederick Street  
Moreno Valley, CA 92553

Dear Mayor Owings:

The purpose of this letter is to introduce myself to you as the newly elected Presiding Judge for the Superior Court of California, County of Riverside. I began a two-year term on January 1, 2013. As the Presiding Judge, I oversee the administrative aspects of the court system in this county, ensure the effective management of operations, apportion the business of the court, and direct budget expenditures. In performing this role, I work very closely with our Court Executive Officer, Sherri R. Carter, who oversees the management and administration of all non-judicial staff.

These are challenging fiscal times for all of us. The courts are not an exception and, as we round the corner into the new fiscal year, the courts in California will have endured their fourth straight year of drastic budget cuts, resulting in an overall reduction to the Riverside Superior Court's operating budget of approximately 27%. Our local court officials have worked diligently to continue public services while resources continue to dwindle, implementing automated efficiencies where possible so that we will not have to delay court hearings, eliminate vital services, or close entire courthouses.

Over the next several years I'm sure our paths will cross. I look forward to meeting with you and working together as we mutually strive to make Riverside County a better place for our constituents to live and work.

Please feel free to contact me any time by email at [mark.cope@riverside.courts.ca.gov](mailto:mark.cope@riverside.courts.ca.gov) or by phone at [REDACTED]

Sincerely,

MARK A. COPE  
Presiding Judge

13 APR 24 PM 4: 14

To: Tom Owings  
From: Tom and Teri Chelbana  
Subject: WLC  
Date: April 22, 2013

*Schedule Meeting*

We live at 11620 Pettit Street, between Moreno Beach Dr. and Redlands Blvd. I was born at March Air Force Base in 1948 and my wife, Teri, has lived in Moreno Valley since 1953. We both graduated from Moreno Valley High School and taught many years in the Moreno Valley Unified School District. My father, Frank Chelbana, came here in 1947 and was the mayor of Moreno Valley in 1992 until he passed away from lung cancer while in office.

As residents of Moreno Valley for more than 60 years, we are strongly opposed to the World Logistic Center. The traffic, health, and over-all quality of life will be very negatively impacted with this project. We have been to most meetings, both for and against this big project. We would have to say the little positive impact versus the major negative impact is very clear.

Mr. Iddo Benzeevi has gained control of our city council, you included, by contributing many dollars in campaign donation monies. The World Logistic Center isn't going to make Moreno Valley a better city. This will only be another example of why Moreno Valley has such a negative reputation in the Inland Empire. Let's make Moreno Valley a better place to live, by not approving the WLC.

Re: Behavior of parking enforcement officer PE5  
Cite # MV 3130111043 (copy enclosed)

Dear Mayor:

Please consider this letter a formal complaint about the demeanor and behavior of parking officer PE5.

I am a governmental employee driving a governmental vehicle with a "state exempt plate" on it. I am a social worker who was doing a home visit to visit two foster children recently placed into the home I was parked in front of.

This morning I was parked when one of the kids called to me that I was getting a ticket. Mr. PE5 was still standing in the street between my vehicle and his vehicle when I came out of the house. I called out to him that I was coming out and I could move the vehicle if there was a problem. He had already put the cite on the windshield. He said that there were street sweeping signs posted. I pointed out that I didn't see the signs and it was a governmental plate and I was there on official business. He said that he saw the plate but there were no markings on the (sides of the) vehicle. I asked him if he could void the cite since I was there on official business and his reply was that I could, "*contest the ticket and then you won't have to pay it*". His tone of voice was somewhat less than professional. Then he said there were signs posted in front of and behind my car. The sign in front of my vehicle was about 3 houses or 50 yards away and mounted on a pole. It would not have been easily readable for anyone at that distance. The sign behind me was on the opposite side of the street and well over 100 yards away so unless someone could read the text backwards in their mirror no one would know what the sign says.

Rather than argue with him I turned to walk away and figured that I would contest the cite through normal channels. When he got to the driver's door of his vehicle is when he said what I felt to be a sarcastic comment. Obviously you can't get the full flavor of his cadence or inflection from my written letter but he said, "Well, welcome to Moreno Valley". His sarcastic inflection made it sound like he was telling me, "Well, F-CK you" and then he jumped into his vehicle and squealed the tires when he made a U-turn and drove away.

I suspect you may be thinking I'm just a disgruntled citizen. Please allow me to explain my background. In my 1<sup>st</sup> career I was a deputy and sergeant with the Orange County Sheriff's Department. I was a training officer in the jail, patrol and the academy. I know how to speak to the public and when someone is being sarcastic with me. In my 2<sup>nd</sup> career I was a Child Protective Services Social Worker & supervisor in the Moreno Valley CPS office until I retired from there. I've come out of retirement again and work for another governmental agency at this time and we use unmarked cars and they have governmental plates.

I believe I know a thing or two about customer service and speaking to the public since I had people thank me for being professional with them when I arrested them or when I removed their children from their custody over the past 35 years. Mr. PE5 came across as a little man with a big chip on his shoulder who doesn't have the slightest idea how to be polite, especially when speaking to someone who might just be his father's age (I'm 62) who did nothing but ask him politely if the cite could be voided.

Since Mr. PE5 made such a big deal about the posted signs I went back to double check the streets from where I entered the neighborhood. If you drive on Alessandro and turn on Darwin you have to make a right onto Barbados. The sign is posted on the right on a pole just after the 1<sup>st</sup> house on the right. A normal driver is going to make the right hand turn looking at the street to ensure you don't hit a child and you are then past the sign because you are looking at the street. When I went to the end of Barbados the foster parent's home is on Dominican where it intersects with Barbados. By parking in front of the foster parent's home there was a sign 50 yards away in front of me and 100 yards away behind me on the opposite side of the street. I never saw a sign.

My goal here is two-fold as I am going to contest the ticket through normal channels anyway. First, if you have the authority to recall and void the cite I would appreciate it. Second, this employee might have someone talk to him about how to talk to the public; how to speak to adults who are being polite to him and how his mouth affects people's perception of the City of Moreno Valley and its employees.

I would appreciate hearing from someone in your office as to whether you believe my position has merit.

Thank you in advance for your time.

<b>Resolution Information</b>
Code & Neighborhood Services Official Al Brady responded on January 22, 2013, at 1:45 P.M.: The vehicle Mr. Moscovitz was operating for employment was cited by Parking Control personnel for violation of the City's street sweeping provisions on January 11, 2013. The officer confirmed that he was contacted by Mr. Moscovitz shortly after the ticket was entered electronically in the system and was advised by the customer that the vehicle in question was government owned and being utilized in an official capacity.
The officer did not initially identify the vehicle as government owned due to the fact that the car was not marked with agency decals or provided exempt plates (see attached photo). The SUV plate did contain numbers reserved for municipal vehicles but the officer did not recognize that fact before issuing the ticket. Based upon the information provided by Mr. Moscovitz, the officer voided the citation on January 14, 2013 (see citation information verifying dismissal attached).
As stated in the description field of this CRM, the City Manager's Office will be investigating the allegations regarding the employees' demeanor.

RE: Our Recent Meeting

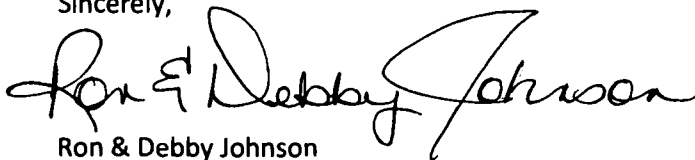

Dear Mr. Owings:

I wanted to take a moment and tell you how nice it was to chat with you at the Vanguard Art Gallery Holiday Mixer. My husband and I were particularly impressed with your interest in our son and the kind words of encouragement that you offered him. At eleven-years-old he is quite used to attending a wide range of events, many of them requiring interaction with adults, but never has anyone taken so much time to talk to him or shown such interest in his long range goals.

Christopher is most definitely interested in attending law school (his heart is currently set on Harvard) and then taking this background into public service, once he's established himself. Talking to you made him believe that it is possible, so thank you. Thank you for making one eleven-year-old boy very happy and thank you for your interest in the Vanguard Gallery. As an artist with work there I can tell you its heartwarming to know that there are those in our community who understand what we're trying to do. And most importantly, thank you from two parents for taking the time to encourage Christopher.

We wish you luck as you move forward in your new position as mayor.

Sincerely,

**RE: Congratulations on your election victory**

Councilman-elect Owings,

Tom —

Congratulations on a  
great victory. Don

Congratulations on your election victory.

Western is eager to work cooperatively and creatively with you to improve effective management of water resources.

With imported supplies cut back, agencies providing water and wastewater services are facing many difficult challenges in our region. To make matters worse, we are fighting to prevent the state from taking local property taxes needed here in this region to create new waters supplies for our economic survival. Greater interagency cooperation is increasingly necessary to ensure service reliability and efficient use of natural and financial resources entrusted to our careful stewardship.

Western is committed to developing and maintaining the kind of proactive relationships that lead to new opportunities and solutions mutually benefiting the citizens we serve. We appreciate your ongoing interest in our water issues and we look forward to working with you. Should you have any questions or concerns, please do not hesitate to contact us or Maria Mercardante, Government Affairs Administrator at [REDACTED]

Again, best wishes to you in your new term of office. Western looks forward to working with you to build a stronger partnership as a result of your leadership.

Sincerely,

DONALD GALLEANO  
President of the Board  
Division 4

Honorable Tom Owens  
14177 Frederick Street  
Moreno Valley, CA 92553

Dear Tom:

It is an honor to congratulate you on your success in the November election. I applaud you for embarking upon a journey many consider difficult; your enthusiasm and commitment to make our state and cities better is truly inspiring. Being elected into office is not an easy feat and it shows that your constituents have great faith in your abilities.

As you are aware, we have a great deal of work ahead of us. I am confident that you will rise to the occasion and be a great leader. I am excited to work alongside you so we may continue to make positive changes to our local communities and state.

If I can ever be of any assistance to you or your staff, please do not hesitate to contact my office at

Sincerely,

MIKE MORRELL  
Assemblyman, 63<sup>rd</sup> District

**Re: Congratulation on Election Victory in Moreno Valley**

Dear Council Member Elect Owings:

On behalf of Eastern Municipal Water District (EMWD), we congratulate you on your election victory in the November 6, 2012, General Election to the City Council in Moreno Valley. This is an exhilarating time to serve our dynamic region.

If you are not familiar with EMWD, each Director serves a geographic region. The Directors whose region includes Moreno Valley are David Slawson and Philip Paule. Their contact information is enclosed.

We look forward to working with you to serve our mutual constituents. We welcome you on a tour or informational briefing of our District any time.

For more information or to arrange a tour, please contact Donna Jacomet, Public Affairs Officer, at (██████████)

Sincerely,

Joseph J. Kuebler

Moreno Valley, CA 92552

*Set up meeting after 21st JAN*

*mtg scheduled on 4/24/13*

**Subject: Congratulations on your election!**

Dear Councilmember Owings:

Congratulations on being elected to the City Council for the City of Moreno Valley! The purpose of this letter is to provide you with information about our Agency, the Western Riverside Council of Governments (WRCOG).

WRCOG is a joint powers agency comprised of seventeen cities in Western Riverside County (including the City of Moreno Valley), the County of Riverside, and two regional water districts. Enclosed please find a selection of materials to acquaint you with the Agency for your review. WRCOG's website ([www.wrcog.cog.ca.us](http://www.wrcog.cog.ca.us)) can provide you with additional information regarding the Agency's many programs and activities, and on-line publications, the *e-communicator*, and program newsletters.

Again, congratulations on your election. Please do not hesitate to contact me at (951) 955-8303, or by email at [bishop@wrcog.cog.ca.us](mailto:bishop@wrcog.cog.ca.us), if you have any questions. I would be happy to meet with you at any time to discuss WRCOG activities.

Sincerely,

Rick Bishop  
Executive Director

*I look forward to meeting you!*

RB/jll

cc: Henry Garcia, City Manager, City of Moreno Valley, WRCOG TAC member

## Turnaround to Stateline Saturday April 13, 2013

### Are you ready?

J.S. Ross and the Board of Directors have been planning this year's turn-around trip for Stateline. J.S. says this is the best event that he puts on; so exercise your button pushin' fingers and practice your poker face, because we're gearing up for the trip of the century. Our destination is the Primm Valley Resorts at Stateline. The date will be Saturday, April 13th. Tickets will be \$30.00 each and go on sale, Saturday, March 9th at 9:00 a.m. (tickets can only be purchased by those 21 years old or over). Breakfast will be served at 6:30 am in the clubhouse and you will receive a lunch meal allowance and a meal voucher at the Casino which can be used at any of the three casino buffets. We will be leaving from the clubhouse promptly at 7:00 am and will return around 1:00 am Sunday morning. There will be a movie to the Casinos and on the way home, beer and wine will be served on the return trip. There will be games to play and prizes to win!!! Who's the oldest? Who's the youngest? Let's Make a Deal! Sunnymead Ranch Idol! Have a great time and enjoy the trip. Only 50 tickets will be available for sale. Tickets for this event usually sell out quickly! So don't wait to buy your ticket! GET IT ON MARCH 9TH! Ticket sales will have a cut-off date of Saturday, March 30th.

### VERY IMPORTANT NOTICE - CLUBHOUSE CLOSED FOR REDECORATING

The Clubhouse will be closed to everyone from February 1st through August 1st for the redecorating project.

### Sunnymead Ranch Annual Meeting Scheduled

#### PLEASE VOTE

The Annual Meeting of the Members, at which the members of the Association elect the Board of Directors, is scheduled for Wednesday, February 20, 2013 at 7:00 p.m. in the clubhouse. Polls open at 5:00 p.m. The Board of Directors has retained the services of HOA Elections of California who sent out notices of the meeting; a ballot; information about the candidates; and the required double envelope voting system to those members in good standing who are eligible to vote. IT IS IMPORTANT that you either attend the Annual Meeting or return your Ballot no later than Tuesday, February 19th, since a quorum must be present, either in person or by ballot, in order to conduct the meeting. A quorum is at least 25% of the voting power of the Association. If a quorum is not established, the Annual Meeting will be adjourned to a later date, as specified in the civil code, at which time the quorum requirement will be reduced to 15%. There is also a large black ballot box located outside of the clubhouse office. It is available for ballot drops during clubhouse hours. If you do not wish to vote for a candidate, you may opt to send in your ballot for quorum only.

### Spring Festival Postponed

The Board of Directors is always looking for great events to present to the residents of our community. The Spring Festival, which usually takes place a week before Easter, has definitely been one of them. It has come to the Board's attention that in the last four years, the Spring Festival's attendance has dwindled each year. The Board would hope to see a greater attendance for all of the effort and expense that the Association encumbers for this event. The Board agreed that they will take a break from the Spring Festival for this year and hope that interest will peak again in upcoming years. Hope to see you at a Spring Festival in the future.

## Bi-Annual Yard Sale

The Bi-Annual Yard sale is coming April 6 & 7, 2013. So get out those old tools, clothes & toys and let's make some money. An ad for the yard sale will run in the Penny Saver the two weeks prior to the yard sale.

Please note that the Health Department has requested that we relay information on illegal food vending sales out of garages, driveways and street corners during the community yard sale. These types of food sales are not only illegal, but many pose potential serious health risks from issues such as: abuses of safe food temperatures, cross contamination, unsafe food preparation practices, harmful bacteria and unsafe food sources. Please refer to the County Environmental Health website [www.rivcoeh.org](http://www.rivcoeh.org) for further information on illegal food vending or obtaining food permits for legal permitted temporary events.

## Fishing Committee

Hello Everyone!

I would like to begin by apologizing for this year's trout tournament cancellation. There were a number of factors that contributed to the cancellation but let me assure you those problems will be addressed in the future and ironed out long before we announce a tournament. That being said we have another event planned for May 11th the Blue Gill tournament for kids. Let's try to make this event a roaring success and show the kids a good time. We also have a Bass tournament scheduled for June 1st that should be a real winner since we haven't had one in awhile. Keep a lookout for all of these activities because the committee is trying to make fishing in the lake a fun and exciting activity for the whole family. Thank You and Happy Fishing

Rob Meadows

Our December Holiday meeting was hosted by Sharon & Paul Biber. Thank you for the beautiful decorated tables (and thanks to your grandsons for helping with the decorations and sharing their favorite train set). It got us all in a good holiday mood.

We enjoyed a delicious turkey dinner catered by Skip Thomas Catering. We enjoyed our Christmas gift exchange and then celebrated birthdays for both November (since we did not have a November meeting) and December. Happy Birthday & belated Happy Birthday to Tereza Nelson; Lydia Ortiz; Michele Netz; Tranquil Calley and Howard Peabody. We also celebrated anniversaries for Linda & Leonard Herron; Tom & Cathie Jewell; Lydia & Louie Ortiz. Congratulations to all.

We ended our night with playing a dice game called LCR. We had two winners, Yolanda Stygar & Owen Christian. They won gift certificates to Subway Sandwiches. It was a fun game, even if we did get a little rowdy, it was all in fun.

If you are 50 years +, we invite you to come down to the clubhouse on the third Wednesday at 6:00 p.m. and join us for a delicious catered meal (for \$10.50). You can make new friends and meet some of your own neighbors. If you are interested, please call Sonnie Kenney at 242-1612 so I can order a meal for you. We hope to see you there.

on Page 6 & 7**

## BOARD MESSAGE

"IT'S ELECTION TIME AGAIN", by the time you receive the Round-Up the election materials for this year will be in your mail boxes. 3 positions are up for election this year, with a slate of 4 candidates and each residence in good standing has three (3) votes. The Annual Meeting will be Wednesday, February 20th at 7:00pm with the polls opening at 5:00pm. You may return your ballots by mail, drop them in the drop box at the office, or vote at the meeting; but however you choose to vote, WE NEED YOUR VOTES.

The past year was very busy and productive for the Board. We were able to replant the center medians of Sunnymead Ranch Pkwy with drought friendly plants to save water. With the help of the Activities and Recreation Committee we were able to hold many of your favorite events like the Wine and Cheese Tasting, Brunch on the Lake, Karaoke Night, Stateline Trip, the Spring and Holiday Festivals, and of course The Annual Homeowners Celebration. With the help of the Fishing Committee, the Trout, Blue Gill, and Catfish Tournaments were hugely successful. The 3 biggest accomplishments this year were the restoration and repair of all 14 miles of Wrought Iron Fencing in the Ranch, the installation and implementation of the Access Control System, and construction and dedication of our Veteran's Garden of Honor. All this was accomplished while maintaining assessments at the current \$97, maintaining our reserves at over \$1.2 million and finishing the year slightly under budget with positive cash flow.

With the Access Control System we have found that traffic at the lake Club and at our events has diminished, so going forward if interest in particular events is not up to expectation they will be cancelled and fees returned in an effort save money.

Thank you  
George Gallanes, President  
For the Board of Directors

## HOSPITALITY COMMITTEE

December brought us ten new homeowners. The Hospitality Committee would like to welcome the following: Stephen Hock; Xing Ming Wang & Qiao Lin; Edward Davis; Donald & Leann Parish; Jay Ruan & Mee Ninh; Agustin Algaraz; Patyon Reid; SC Verma; J. Liu, J. Bin Wu & X. Ding; and Tuan & Julie Dinh.

All homeowners are invited to attend the monthly Open Forum which is held the 4th Wednesday of the month at the clubhouse at 7:00 p.m. This is a good way to meet your Board of Directors. The Board informs their homeowners what they are presently working on to maintain the beautiful community. You are able to ask questions of the Board, or tell of any concerns you have. You will hear about all the upcoming maintenance they are planning, all the upcoming events etc. Make sure you come down to the clubhouse office to get your new access cards and you will then start receiving the monthly "Round-Up" which is the newsletter that will let you know what is going on in our community.

If you are interested in getting involved in our community, we have several committees you can volunteer for. Please check with the office for the form to fill out if you would like to volunteer. This is a good way for you to get to know your neighbors and make new friends.

The Hospitality Committee would like to thank the following vendors/merchants for contributing to our tote bags: A big thank you to Amy's Nails; First Methodist Church; Aim Postal Service; Dream Cakes; Britches & Stitches; Faith Baptist Church; The Sweet Cupcakery; Margarita's Grill; Shepherd of the Valley Preschool & Kindergarten; Avon by Cynthia; Justice for All/Ronald Haughthbooks; Acapulco's Restaurant; Subway Sandwiches; RN Auto Electric; Hair Perfect; Cheryl's Diaper Cake Design; Power Town Electric; Heavenly Sweet Cupcakes and China One Restaurant.

# THE MANAGER'S MOMENT

by Betty Roth, CMCA, AMS, CCAM:

## Volunteer for a Committee

The Association is always looking for volunteers for committees. If you feel you would like to participate as a volunteer, please contact the Association office and we will send you a committee application to prepare and return. We know that we have very creative and giving people in our community who would be willing to serve. Volunteers serve at the pleasure of the Board.

## Boat and Pool Monitor Applications Are Being Accepted

This Association is currently accepting applications for the Boat and Pool Monitor positions for the 2013 spring and summer school breaks. The Boat Monitor positions will continue through the weekends from summer break through September. The work hours are varied during the day. The work days include weekends and holidays. Applications are to be submitted no later than Friday, 22, 2013, 6:00 P.M. The requirements for the positions are:

- Valid driver's license
- Seventeen (17) years of age or older. Applicants under the age of eighteen (18) must produce a valid work permit from their school.

Applications are available in the clubhouse office.

## HOLIDAY DECORATIONS

The Association thanks all residents who decorated their properties so beautifully for the holidays. The decorations were to be removed by January 15th. Please take a moment to make sure all of your decorations have been removed.

## Important Notice

### New Address for Mailed and Online Assessment Payments

#### **Important Assessment Payment Address Change Information for 2013**

Effective January 2, 2013 the Association will be using a new P.O. Box for the payment of assessments through the USBank Lockbox and Online Bill Pay payments. The HOA division of USBank has moved from Temecula to Los Angeles. To avoid the possibility of late payments and having a late fee applied to your account, please begin using the following P.O. Box on January 2, 2013 as payments sent to the old address will only be forwarded for a short time. Please be aware that you may need to

go online to your bank and change the address for your Online Bill Pay. Send Monthly Assessment Payments to:  
**ASSOCIATION PAYMENT PROCESSING**  
**P.O. BOX 60399**  
**LOS ANGELES, CA 90060-0399**

## Spring House Painting and Touch up

Spring is just around the corner. This is a great time to paint trim, garage doors, fences, gates and houses as well as maintenance on the front yard landscape. Remember to submit an Architectural Application for approval before starting any improvements on your home.

## Use of the New Pedestrian Entry Gate

The gate on Sunnymead Ranch Parkway which gives access to the community near the Veteran's Honor Garden and the Pool is now the safest pedestrian access gate to use with your new access card. It keeps pedestrian's out of the traffic lanes at the gate station as a safer alternative to entering the community by foot while still being able to swipe your card. The Association requests that you use this gate as much as possible to keep you and your loved ones out of harm's way.

## All Pedestrian Gates – Keep them Closed for Everyone's Safety

Leaving pedestrian gates ajar throughout the community invites many unwanted visitors into our community. The Association has worked very hard to install a state of the art access system to keep Sunnymead Ranch a wonderful place for residents. Leaving the gates ajar throughout the community invites unwanted guests and animals. Please keep the gates closed and use your keys to gain access.

## Theft From Resident Mailboxes

It has been brought to our attention that there are persons who may be going around and opening mailboxes to steal the contents. Please be aware. If you should see this happening, contact the police immediately. You may want to consider a locking mailbox as an option as well.

## **COUNCIL DISTRICT 2 GOINGS ON**

### **Richard A. Stewart, Councilmember District 2**

Here's the latest from your Moreno Valley City Council representative.

Wow! When I wrote last month that the new mayor and council would make changes I NEVER anticipated that I would be the major change they made! Mayor Owings REMOVED me from being the City's March Joint Powers Commission representative, a position I have held in one form or another since 1993! He then failed to assign me to ANY

## COUNCIL DISTRICT 2 GOINGS ON

of the main regional positions, instead reserving ALL of these for himself, Council member Co, and Molina. I hope the new March JPC members continue my fight to retain the Reserves and National Guard at March and to keep the Commissary and Base Exchange open! If you want to know more about this, e-mail me.

I still remain as YOUR council representative, as I was re-elected by YOU in 2010 and my term runs until November, 2014. I will continue my fight for YOU and for issues YOU consider important!

Stater Brothers Grocery Company has still NOT made a decision about whether or not to open a store in the former Albertson's located at Pigeon Pass and Ironwood. If you haven't already, please send an e-mail to: [mike.slaton@staterbros.com](mailto:mike.slaton@staterbros.com) Tell him you would like a Stater Brothers market located to serve our community! If you prefer "snail mail" then write to him at: Mike Slaton, Real Estate Director, Stater Brothers, 301 S. Tippecanoe Ave., San Bernardino, CA 92408.

Miguel's Jr. Mexican restaurant is moving towards beginning construction any day now. It will be located on Day Street. BevMo discount liquor is planning on locating in part of the old former "Staples" store in Towngate Center. They are looking at a spring 2013 opening. Richie's real American Diner is negotiating to acquire a site at Towngate Crossing for a 7,000 sq. ft. restaurant. China One Restaurant opened in November in Stonegate shopping center in the site of the former Fish Shack restaurant. See's Candies renewed their lease in Stoneridge.

March Air Reserve Base continues to be our top employer with 8,600 employees reported. The Moreno Valley School District is second with 3,366, followed by the County Hospital on Nason St. with 2,600, Ross Dress for Less/DD's Discounts at 1,630, then Moreno Valley Mall (excludes major tenant stores) with 1,365, Kaiser Permanente at 944, then the City of Moreno Valley with 771. Skechers USA has 600 employees, and Harbor Freight tools has 529 (and climbing!), iHerb with 490, Phillips at 484, Moreno Valley College with 451, and O'Reilly Automotive Distr. Ctr. with 398.

The City Council studied the issue of "Squatters" occupying vacant residential homes at the January 15th Study Session and is moving ahead with some programs to address this issue (which is different from the issue of bank-owned foreclosed properties, for which we have a task force established to deal with this problem). We will probably be attacking this squatter problem with another task force as well.

I have convinced our Public Works Department to slurry seal Sunnymead Ranch Parkway from Heacock Street to Perris Blvd. (it looks horrible after the "crack sealing" left it looking like the back of an alligator!). You can thank Sunnymead

Ranch HOA Board member Robert Riddick for bringing this to my attention.

Kaiser Permanente started to occupy their brand new medical office building located next to the Moreno Valley Community hospital, which they now operate. There is a 3-phase occupancy, with full use of the building expected by late April, 2013.

A comparison of November 2012 with November 2011 shows quite an increase in new construction valuation in our city: Nov 2011= \$1,898,606 vs. Nov 2012= \$45,384,336.

On January 7, 2013 our Moreno Valley fire department fought a big apartment fire across from the Moreno Valley Mall at Towngate. A total of 12 apartment units were involved in this fire. 12 fire engines, three ladder truck companies, one breathing support, and 3 fire chiefs responded to fight this huge fire, which was fanned by strong gusty winds. A total of 52 firefighters spent 9 hours at the fire. Loss was mostly limited to the third floor of the building, with major water and smoke damage to the first and second floors.

Please, if you have complaints, questions, or just want to discuss issues involving our city, send me an e-mail and include a phone number if you want me to call you, and please note what time of day is best for you. If you have questions or concerns about our city you would like to share with me, please e-mail me at: [Richards@moval.org](mailto:Richards@moval.org) or call the Council office at 413-3008.

Thank you, Richard Stewart your City Council representative.

## BRIDGE NEWS

Dec 4th

- 1st Place – Howie Peabody
- 2nd Place – Betty Fraser
- 3rd Place – Kathy Kulsick

Dec 11th

- 1st Place – Myla Peabody
- 2nd Place – Mary Hatmaker
- 3rd Place – Pat Henwood

Dec 18th

- 1st Place – Betty Fraser
- 2nd Place – Ruth Fraser
- 3rd Place – Kathy Kulsick

The highest score for the month was 4960 made by Mary on the 18th. The second highest score of 3550 was made by Howie on the 4th.

We have lots of fun Tuesday evening at 7:00 p.m. in the clubhouse playing bridge. So come on over all you bridge players. Call Betty 951-242-1414. Happy New Year and we hope to see more bridge players in 2013.

## HOME OF THE MONTH

Avalon Management is sponsoring the Sunnymead Ranch Home of the Month. Recipients are awarded a \$100.00 gift card from a home improvement store. Homes considered could be homes that are meticulously maintained and display a real pride of ownership, or they might even be a home previously in violation where the owners have made extreme improvements in the appearance. For the month of February, the \$100.00 gift card goes to 23816 Lone Pine Drive, Congratulations!

The gift card and certificate will be awarded to you at the March 27, 2013 Open Forum meeting of the Board of Directors at 7:00 p.m. We hope to see you there

## Response to Comments for the Final Environmental Impact Report (Final EIR) for the Proposed March Business Center

On June 14, 2012, the AQMD staff commented on the Draft EIR for the proposed March Business Center, a warehouse/distribution and light industrial facility use project. This letter addresses the lead agency's responses to our comments.

The Final EIR states that the proposed project will have long term operational air quality impacts that are significant. Specifically, regional NO<sub>x</sub> emissions from trucks accessing the site will be over ten times higher than significance thresholds. Notwithstanding this significant impact, the lead agency concludes in its response to AQMD staff comments that no mitigation measures are feasible to reduce these impacts. AQMD staff disagrees with this conclusion and is concerned that the lead agency has not provided sufficient rationale to justify the lack of mitigation. Further, the response to AQMD staff comments regarding cumulative impacts and trip rates do not appear to sufficiently address AQMD staff's concerns. AQMD staff recommends that the lead agency revisit some of their responses in light of the significant impacts found for this project prior to certifying the Final EIR. Details regarding these comments are attached to this letter.

The AQMD staff is available to work with the Lead Agency to address these issues and any other air quality questions that may arise. Please contact Gordon Mize, Air Quality Specialist – CEQA Section, at [REDACTED], if you have any questions regarding these comments.

Sincerely,

Ian MacMillan  
Program Supervisor, Inter-Governmental Review  
Planning, Rule Development & Area Sources

Mr. John Terrel,  
Planning Director

**1) Mitigation Feasibility for Significant Air Quality Impacts**

AQMD staff is concerned about the lack of mitigation measures the city has proposed for warehouse projects within its jurisdiction, including the March Business Center. While these newer larger warehouses have the potential to be more efficient than older facilities, the millions of square feet of new warehousing proposed within Moreno Valley will still need to be served by thousands of heavy duty diesel trucks every day.

The residents in our region currently experience the worst air quality in the nation, and we have a very serious challenge to meet the federally required ozone standard by 2023. Heavy duty diesel trucks emit a variety of harmful pollutants including ultrafine particles, diesel particulate matter (a known carcinogen), and nitrogen oxides (NOx). NOx emissions are a primary contributor to ozone and fine particulate matter formation, and heavy duty diesel trucks are the largest source of NOx emissions in our region. Even after more stringent CARB tailpipe regulations are met, our region will still need to reduce total NOx emissions by an additional 65% by 2023. We note that the March Business Center NOx emissions are ten times higher than the significance thresholds.

What is concerning to AQMD staff is that while the city is actively expanding its role as a center of warehouse operations, it is not advancing any measures to reduce the air quality impacts from the trucks serving those warehouses. In responses to recent AQMD staff comment letters, the lead agency has stated that they have no ability to reduce emissions from trucks. We disagree. Several other lead agencies<sup>1</sup> and businesses<sup>2</sup> in the region have found ways to either require or incentivize lower emitting trucks, faster than required by regulation. These measures have included:

- Requiring cleaner burning trucks, such as those meeting 2010 standards
- If this isn't achievable, finding an alternative phase-in schedule to introduce newer trucks faster than regulatory standards
- Providing infrastructure for alternative fuels (for example, electric or natural gas)
- Implementing advanced technology demonstration and implementation programs
- Requiring tenants to apply for funding to retrofit and replace older, dirtier trucks

-99 Cent

<http://www.aqmd.gov/aqmp/CCP/Document/091912BHWGMtg6.pdf> (pg. 6)

There also appears to be mitigation opportunities onsite that have not been fully pursued, including:

- Requiring all hostlers that only operate onsite to be alternative fueled,
- Providing enough electrical hookups for 100% of any refrigerated trucks visiting the site to plug in their TRUs
- Providing solar power on roofs to reduce reliance on fossil fuel burning power plants

AQMD staff recommends that the lead agency re-evaluate the feasibility of the above measures to reduce NO<sub>x</sub> emissions from trucks. If none of the measures are found to be feasible, additional rationale should be provided prior to certifying the Final EIR.

## 2) Adequacy of Environmental Analysis

In response to AQMD staff comments regarding trip rates (K-26), the lead agency makes the following statement.

*"CEQA does not require that development projects be limited to the level of daily operational activity assumed in the environmental analysis. Moreover, to impose a daily limitation on the number of truck trips, as the SCQAMD suggests, would limit the economic activity at the facility and could result in disruption of business operations . . ."*

This statement appears to indicate that the lead agency believes there is a fair argument that the project will yield more trips than is analyzed in the Final EIR. Moreover, AQMD staff strongly believes that CEQA does require that an EIR evaluate all potential impacts from a project. If the lead agency believes that there is the potential for more truck traffic than was analyzed for this project because a tenant has not yet been identified, then we recommend that a high end trip rate be used, such as that recommended in the CalEEMod guidance. Higher trip rates could potentially lead to additional significant air quality impacts that may need additional mitigation. If a high end rate is not utilized to evaluate impacts, AQMD staff recommends that the lead agency limit the activity to what has been analyzed in the Final EIR. If this limit would have additional impacts, those should also be evaluated prior to certifying the Final EIR.

## 3) Cumulative Impacts

In response to AQMD staff comments regarding cumulative impacts (K-35), the lead makes the following statement.

*"The air quality analysis relies on the Project's traffic study, for which a specific cumulative study area was established."*

However page 4.2-22 of the Final EIR indicates that this is not true.

*"Under long-term operating conditions, Project emissions would be well below SCAQMD's localized significance and carcinogenic exposure thresholds. Therefore, it is reasonable to conclude that even when combined with localized emissions from future developments within close proximity to the Project site, such emissions would not exceed SCAQMD thresholds. Accordingly, long-term operation of the Project would not expose*

*nearby sensitive receptors to substantial localized pollutant concentrations, and a cumulative considerable impact would not occur."*

The first statement implies that the cumulative traffic study was used for the cumulative air quality impact assessment. However the second statement from the Final EIR does not support this conclusion. The Air Quality Appendix of the Final EIR includes a discussion of the basin-wide risks from AQMD's MATES III study, however there is no mention of the recently approved and proposed surrounding projects that will also bring truck traffic to the area. The proposed project carcinogenic risks are less than significant, at 37% of the significance threshold. It is not clear to AQMD staff that including the truck trips from the more than 7 other warehouse projects within the vicinity will not yield a cumulatively significant health risk to sensitive receptors (e.g., residents and school children) located along truck routes serving these projects. AQMD staff recommends that the lead agency quantitatively evaluate the cumulative impact of all of these warehouse projects prior to certifying the Final EIR.

#### **4) Onsite Solar Power Generation**

AQMD staff appreciates that the project includes a component of photovoltaic solar power generation. However, after reviewing the Final EIR, it is not clear how much solar power will be generated onsite. AQMD staff recommends that the lead agency and applicant take advantage of the large roof space provided and construct the maximum amount of solar power as possible. This power generation can help to offset the need to draw power from fossil fuel burning power stations located in our basin.

RE: Support for Markham Collegiate Sports Academy

The Markham Collegiate Sports Academy is a proposed charter school unlike most in the nation. This letter of support indicates that I have been provided a thorough description of the proposed academy operations and lend my support to this effort. I believe a school of this stature will provide Moreno Valley residents a unique educational opportunity and a source of pride.

Markham Collegiate Sports Academy Council members have agreed to work closely with the Moreno Valley Parks and Community Services Department to construct joint use agreements and contracted classes for residents of the City should this charter petition gain approval from the Moreno Valley Unified School District.

The Markham Collegiate Sports Academy will require students to complete one of the most rigorous academic programs in the country in order to graduate from this facility. In addition, scholar-athletes will be provided full support to achieve mastery in their chosen athletic fields. These two attractive features will enhance the number and variety of educational and recreational choices for residents of Moreno Valley. The Markham Collegiate Sports Academy Council has my support to create this unique operation in Moreno Valley.

Sincerely,

Tom Owings  
Mayor

Good Afternoon:

Good news --- Mayor Owings provided a check for \$200. He requested that he not be recognized so that all of the donation can be used towards the program.

Would you still like to pick-up the check? If yes, Council offices are located on the second floor of City Hall. Please ask for Juliene or me when you arrive.

Thanks,

Cindy

**Subject:** Pop Warner sponsorship

Hi Cindy,

This is Jeffrey from Pop Warner, back in May I sent you over a request for my Pop Warner Football team sponsorship. I was just following up to see if you have heard anything on the status of that.

Thank you

Dear Sir/Madam:

**RE: MORENO VALLEY POP WARNER FUNDRAISING CAMPAIGN 2013**

I am writing this letter on behalf of your local youth football and cheer association: *Moreno Valley Pop Warner*. Moreno Valley Pop Warner Football and Cheer (Association) has a long and rich tradition in our community of teaching youth the fundamentals of football and cheer with a strong emphasis on scholastic excellence! The Association Executive Board is committed to continue this mission in 2013 and beyond.

We need your financial assistance to meet our fundraising goal for 2013. The funds you provide will help us get the players and cheerleaders new equipment and equipment and training for our coaching staff, which is made up of only volunteers. Any financial support from your organization will go a long way and be greatly appreciated, no matter the amount! If financial support is not possible, we would appreciate other types of donations like gift cards or non-perishable items. The donations will help us with our fundraisers. *More importantly, there are several ways in which your organization will benefit.*

First, we are a non-profit organization. Your donation may be tax deductible; please consult with your tax preparer for limitations. Second, if your organization makes a donation of one hundred dollars (\$100) or more, we will put your company name or logo on one of our "Sponsor Banner" that will be displayed at each of our home games. However, if your donation is of five hundred dollars (\$500) or more, we will make a 3' x 4' banner solely for your company and display it at each of our home games. Our games are well attended by parents, their friends and family members (your local customers) and an increasing number of spectators from the surrounding community. Your donation will provide you advertisement with your local customers and brand equity. Third, we will put your company's information on our website showcasing your contribution. Fourth, we will send your company a plaque at the end of the season – thanking you for your contribution! Fifth, if we produce materials like a newsletter, your company may be listed as a key sponsor. We hope that for all these reasons you will donate to the Association. Please see the attachment for a breakdown of the different levels of sponsorship and its benefits.

In closing, please remember that your donation will benefit the local youth with a positive experience that will last a lifetime. If you have any questions or wish to contact me, please contact me at 951.505.6286 or email: [mvpw.pres@gmail.com](mailto:mvpw.pres@gmail.com). I'm very much looking forward to hear from you.

Sincerely,

Gabriel Lucero  
President, Moreno Valley Pop Warner Football & Cheer

**VIP Sponsorship – (Donation Value of \$500.00 or more)**

**We will make you a Company Banner (3' x 4') and displayed at each of our home games and events,**

**SUBJECT: CHARACTER REFERENCE FOR NATHAN COLLINS RAY**

To Whom It May Concern:

I am a retired businessman, the Mayor of the City of Moreno Valley, and a Member of the Moreno Valley Benevolent and Protective Order of Elks.

This letter is being written on behalf of Nathan Collins Ray who is currently the subject of the criminal justice system. Nathan is the son of Phyllis and Willie Harris who are Exalted Leaders of the Moreno Valley lodge. I first met Nathan at the Moreno Valley Elks Lodge, and it is my observation that Nathan has been of great assistance to the lodge on the betterment of our community through promoting, setting up and assisting in fundraisers for our elementary school students, the elderly and veterans.

I am informed that this young man suffers poor judgment as a result of Schizophrenia/Bi-Polar Disorder which was exacerbated at the time of his arrest by his use of "Spice" a legal but dangerous substance in California. Prior to taking "Spice" he had been studying Criminal Justice in college and had been making great progress in his chosen career path. Hopefully, Nathan can turn his mistake into a meaningful experience by being active in our Drug Awareness Program against "Synthetic Drugs" where he can provide insight to others who have not used these dangerous drugs, but may be considering it.

I am aware that Nathan is in trouble because he has allegedly broken the law but I believe that if true, it may be due to bad influence of "Spice." I strongly feel that if that is the case, it would better serve the community and Nathan that he not be sentenced in way that would deprive him from recovering and becoming valuable asset to his community. I hope he will be returned home to his loving parents and be given the opportunity to accept his mental illness, remain on his medications, keep his appointments with a mental health professional, and become a positive role model to others.

I humbly ask that you look for a way to give him an opportunity to set his life back on track and not let a bad decision alter his life's direction forever. If you have any further questions, please feel free to contact me on [REDACTED]

Sincerely,

  
Tom Owings  
Mayor

July 15, 2013

Ms. Sue Gilchrist  
29163 Highland Blvd.  
Moreno Valley, CA 92555

Dear Ms. Gilchrist:

Per your request, I facilitated a meeting concerning the use of the City's Equestrian Center for mounted shooting events. In attendance were the City Manager, City Attorney, and the Parks and Community Services Department Director.

In reviewing the City of Moreno Valley's Municipal Code Ordinance 814 and CSD Ordinance 54, it was determined that mounted shooting is a permissible use. The change to the ordinances which made this use allowable was recommended by the Parks and Recreation Commission at a special meeting on June 3, 2010, and subsequently approved by City Council. Additionally, Chapter 11.40.040(E) (2) of the Moreno Valley Municipal Code creates an exemption for activities, such as mounted shooting, to take place at the Moreno Valley Equestrian Center.

Staff will continue to monitor all Equestrian Center uses to ensure that the best interests of our citizens are always a priority. As a team, we will also take under advisement your recommendation that adequate charges are being imposed for the use of this facility, including the possibility of charging for overnight camping.

Staff and I would like to take this opportunity to thank you for being a concerned citizen and actively involved over several years to make Moreno Valley a better place to live. We wish you nothing but the best on your new venture in Atlanta and hope you will keep in touch.

Sincerely,

Tom Owings  
Mayor

June 17, 2013

Honorable Rick Gibbs  
City of Murrieta  
1 Town Square  
Murrieta, CA 92562

Subject: Preliminary Exploration of Regional Public Safety Options

Dear Mayor Gibbs:

The City of Moreno Valley is exploring the potential for creating a regional police agency under a California Joint Powers Agreement to serve our City along with other area communities that will provide effective, locally responsive and cost-efficient police services to participating communities. We are undertaking an initial exploratory effort to determine the feasibility and cost benefit analysis of such an initiative, and invite your City's active participation in this important undertaking. This exploration is driven by two primary factors; gaining control of the rising cost of police services and the opportunity to implement modern policing practices as identified by the highly respected consulting firm, Strategic Policy Partnership, LLC.

It is important to state - - at the outset - - that the City of Moreno Valley continues to be satisfied with the quality public safety services provided to our community by the Riverside County Sheriff's Department. Despite the fact that our City has balanced its budget for the first time since 2007 without the use of reserves, we continue to be in precarious financial circumstances. Our public safety contract cost increases are outpacing the very limited revenue growth that the City is realizing and we are unable to continue to afford the existing levels of services for which we now contract. To help balance our budget for FY 2013/14, we are reducing police service levels by 25 officers. Further illustration of our community's situation with regard to public safety costs includes the following:

- We have been advised to expect 5% contract cost increases in upcoming years. For FY 2014/15 this would result in nearly \$1.7M in increased contract costs; we are projecting General Fund revenue growth of 2.5% which equates to \$846,974. We are compelled by these economic realities to explore additional options to sustain public safety for our residents.
- In Fiscal Year 2007/08 Moreno Valley's total police costs represented 38% of ALL our General Fund revenue and taxes; in the FY 2013/14 budget police costs represent 49% of ALL our revenue and taxes.
- Over the past 5 Fiscal Years, the City's non-public safety General Fund expenditures have decreased 44%; during that time our General Fund expenditures for police services have increased by 16%.

MV00230685

Again, the City of Moreno Valley is not dissatisfied with our partnership with the Sheriff's Department, but I believe my fellow Council Members and I owe it to our residents to explore all options available to ensure that we can continue to afford quality public safety services well into the future. Joint Powers Agreements provide the opportunity to develop a regional collaborative undertaking and this is something that I believe warrants some investigation and discussion. JPAs also provide the opportunity to develop a new agency from scratch that not only is cost effective but reflects modern policing practices and principles, permitting maximum responsiveness to local concerns in each community related to crime, disorder and related policing challenges.

We are being assisted in this effort by an expert team from the Strategic Policy Partnership, LLC (SPP) that includes Bill Bratton, the former Chief of Police in Los Angeles and Bernard Melekian, the former Chief of Police in Pasadena and most recently the Director of the U. S. Department of Justice's Office of Community-Oriented Policing.

In the next few weeks, SPP will collect information about current policing services in the region among communities that desire to explore the idea with us, and then hold a discussion Retreat on July 16<sup>th</sup> at which the data collected will be presented and discussion held regarding the feasibility of moving forward with the planning. Representatives from SPP, including Chief Bratton and Chief Melekian, will facilitate the Retreat discussion.

We hope you will be willing to join us in the exploration of this concept. In order to prepare for the meeting on July 16<sup>th</sup>, we ask that you make available to these consultants information regarding the policing services provided to your community. Attached to this letter is list of the information that SPP would need access to prior to the July 16<sup>th</sup> retreat session.

I invite you to join us in this endeavor. Since we only have a few weeks to collect the needed information prior to the Retreat, it is important that you advise us of your willingness to participate. Agreeing to participate in this exploration and discussion in no way obligates any community to join in the effort if we decide to move toward design of a new agency under a Joint Powers Agreement.

Please contact City Manager Michelle Dawson at [REDACTED] and to let us know about your participation. I look forward to hearing from you.

Sincerely,

  
Tom Owings  
Mayor

It is important to state - - at the outset - - that the City of Moreno Valley continues to be satisfied with the quality public safety services provided to our community by the Riverside County Sheriff's Department. Despite the fact that our City has balanced its budget for the first time since 2007 without the use of reserves, we continue to be in precarious financial circumstances. Our public safety contract cost increases are outpacing the very limited revenue growth that the City is realizing and we are unable to continue to afford the existing levels of services for which we now contract. To help balance our budget for FY 2013/14, we are reducing police service levels by 25 officers. Further illustration of our community's situation with regard to public safety costs includes the following:

- We have been advised to expect 5% contract cost increases in upcoming years. For FY 2014/15 this would result in nearly \$1.7M in increased contract costs; we are projecting General Fund revenue growth of 2.5% which equates to \$846,974. We are compelled by these economic realities to explore additional options to sustain public safety for our residents.
- In Fiscal Year 2007/08 Moreno Valley's total police costs represented 38% of ALL our General Fund revenue and taxes; in the FY 2013/14 budget police costs represent 49% of ALL our revenue and taxes.
- Over the past 5 Fiscal Years, the City's non-public safety General Fund expenditures have decreased 44%; during that time our General Fund expenditures for police services have increased by 16%.

MV00230693

Again, the City of Moreno Valley is not dissatisfied with our partnership with the Sheriff's Department, but I believe my fellow Council Members and I owe it to our residents to explore all options available to ensure that we can continue to afford quality public safety services well into the future. Joint Powers Agreements provide the opportunity to develop a regional collaborative undertaking and this is something that I believe warrants some investigation and discussion. JPAs also provide the opportunity to develop a new agency from scratch that not only is cost effective but reflects modern policing practices and principles, permitting maximum responsiveness to local concerns in each community related to crime, disorder and related policing challenges.

We are being assisted in this effort by an expert team from the Strategic Policy Partnership, LLC (SPP) that includes Bill Bratton, the former Chief of Police in Los Angeles and Bernard Melekian, the former Chief of Police in Pasadena and most recently the Director of the U. S. Department of Justice's Office of Community-Oriented Policing.

In the next few weeks, SPP will collect information about current policing services in the region among communities that desire to explore the idea with us, and then hold a discussion Retreat on July 16<sup>th</sup> at which the data collected will be presented and discussion held regarding the feasibility of moving forward with the planning. Representatives from SPP, including Chief Bratton and Chief Melekian, will facilitate the Retreat discussion.

We hope you will be willing to join us in the exploration of this concept. In order to prepare for the meeting on July 16<sup>th</sup>, we ask that you make available to these consultants information regarding the policing services provided to your community. Attached to this letter is list of the information that SPP would need access to prior to the July 16<sup>th</sup> retreat session.

I invite you to join us in this endeavor. Since we only have a few weeks to collect the needed information prior to the Retreat, it is important that you advise us of your willingness to participate. Agreeing to participate in this exploration and discussion in no way obligates any community to join in the effort if we decide to move toward design of a new agency under a Joint Powers Agreement.

Please contact City Manager Michelle Dawson at [REDACTED] and to let us know about your participation. I look forward to hearing from you.

Sincerely,

Tom Owings  
Mayor

Honorable Daryl Busch  
City of Perris  
101 N. D Street  
Perris, CA 92570

**Subject: Preliminary Exploration of Regional Public Safety Options**

Dear Mayor Busch:

The City of Moreno Valley is exploring the potential for creating a regional police agency under a California Joint Powers Agreement to serve our City along with other area communities that will provide effective, locally responsive and cost-efficient police services to participating communities. We are undertaking an initial exploratory effort to determine the feasibility and cost benefit analysis of such an initiative, and invite your City's active participation in this important undertaking. This exploration is driven by two primary factors; gaining control of the rising cost of police services and the opportunity to implement modern policing practices as identified by the highly-respected consulting firm, Strategic Policy Partnership, LLC.

It is important to state - - at the outset - - that the City of Moreno Valley continues to be satisfied with the quality public safety services provided to our community by the Riverside County Sheriff's Department. Despite the fact that our City has balanced its budget for the first time since 2007 without the use of reserves, we continue to be in precarious financial circumstances. Our public safety contract cost increases are outpacing the very limited revenue growth that the City is realizing and we are unable to continue to afford the existing levels of services for which we now contract. To help balance our budget for FY 2013/14, we are reducing police service levels by 25 officers.
