City of Moreno Valley
PUBLIC SAFETY SUBCOMMITTEE
August 18, 2020 ♦ 2:45 P.M.

AGENDA

1. Call to Order / Introductions

2. Public Comments (2 minutes per Speaker)

3. Approval of Minutes from June 16, 2020 meeting

4. Action Items
   The Public Safety Sub Committee may discuss these items and consider a recommendation for City Council action.

   None

5. Advisory Items
   These items are provided for discussion or verbal updates as requested by the Public Safety Sub Committee.

   A. Updates from Animal Services:
      i. Shelter Services and Activity

   B. Updates from Fire Services:
      i. Fire Services
      ii. Fire Prevention
      iii. OEM Services

   C. Updates from Police Services:
      i. Police Personnel Status
      ii. Police Organizational Structure
      iii. Fireworks Update

6. City Manager’s Office Comments

   A. Next Public Safety Subcommittee Meetings: September 15, 2020. Future meetings on the Third Tuesday of each month at 2:45 p.m.

7. Sub Committee Member Comments

8. Adjournment

Upon request, this invitation (news release/agenda/notification) will be made available in appropriate alternative formats to persons with disabilities, in compliance with the Americans with Disabilities Act of 1990. Any person with a disability who requires a modification or accommodation in order to participate in these activities should direct such requests to Guy Pegan, ADA Coordinator, at 951.413.3120 at least 72 hours before the activity. The 72-hour notification will enable the City to make reasonable arrangements to ensure accessibility and participation in this meeting or event.
Public Safety Sub-Committee Meeting - Minutes of June 16, 2020

1. INTRODUCTIONS – 2:51 PM

2. PUBLIC COMMENTS

None.

3. APPROVAL OF THE MINUTES

ACTION: Councilwoman Thornton moved and Mayor Pro Tem Baca seconded, to approve the Minutes of February 18, 2020.

4. ACTION ITEMS

4.A. THE FORMATION OF A FIREWORKS TASK FORCE

A written Report was submitted prior to the meeting. Assistant City Manager, Marshall Eyerman provided a verbal summary of the report.

The Sub Committee members provide support to move forward with the training and acquisition of drones as a force multiplier for PD and Fire for events and taskforces.

As summary of action from the taskforce will be provided at the Sub Committee meeting on August 18.

5. ANIMAL SERVICES REPORT

A written Report was submitted prior to the meeting. Animal Services Division Manager, Steve Fries provided a verbal summary of the items presented in the report.

6. FIRE SERVICES STATUS REPORT

A written report was submitted prior to the meeting. Chief Abdul provided a verbal update on the items noted in the report.

6A. FIRE PREVENTION REPORT – (Written Report Only)
A written Report was submitted prior to the meeting. There were no questions from the Committee.

6B. OEM REPORT

A written Report was submitted prior to the meeting. Zuzzette Bricker provided a verbal summary of the report.

7. POLICE PERSONNEL STATUS REPORT

A written Report was submitted prior to the meeting. Chief Salisbury provided a verbal summary of the report.

7A. POLICE UPDATED ORGANIZATIONAL CHART – (Written Report Only)

The organizational chart was submitted prior to the meeting. There were no questions from the Committee.

8. CITY MANAGER REPORT

Assistant City Manager, Marshall Eyerman reported the next PSSC meeting will be scheduled for July 21st, and moving forward every third Tuesday of each month.

An update on the Fireworks Task Force will be provided at the August 18th Subcommittee Meeting.

The meeting adjourned at 3:40 PM
A. **Shelter Services:**

The following illustrates the number of positive outcomes of shelter pets during the month of June & July 2020 (family adoptions, pets rescued, reclaimed by their owners, TNR program, and pets transferred to pet adoption centers).

<table>
<thead>
<tr>

In addition, the Animal Rescue Coordinator transferred 1 kestrel and 1 owl to a non-profit wildlife bird rehabilitation organization along with transferring 1 chicken and 1 rabbit to a non-profit animal rescue organization.

B. Field Services:

Field Services operates on a 7 day, 24 hour calls for service model based on level of priority on all calls received. Six Animal Control Officers, one Animal License Inspector and one Field Services Supervisor currently serve the City.

Animal Control Officers rotate daily for Night Truck assignment in response to high priority calls after hours. During normal business hours, Animal Control Officers respond to routine and high priority service requests. The Animal License Inspector canvasses the community educating residents of the legal requirement to have all dogs currently vaccinated against rabies and to maintain current dog licenses.

C. Other Activities:

During July, free HomeAgain microchips were provided to 97 pets owned by Moreno Valley residents. This microchip promotion was made possible by a generous grant from the Petco Foundation.
D. Upcoming Events – Moreno Valley Animal Shelter

- **Home-Again Microchip Promotion** – The Petco Foundation free microchip promotion will continue through the month of August once 300 pets owned by Moreno Valley residents have been microchipped. Residents are encouraged to schedule an appointment with the Animal Shelter.

- **NBC 4 & Telemundo 52 “Clear the Shelters” Pet Adoption Promotion** – Saturday, August 15, 2020, 10:00 a.m. – 4:00 p.m. all available dogs and cats will be offered for a one-time discounted adoption fee of only $20. The fee includes spay/neuter surgery, a HomeAgain microchip with lifetime registration, and vaccinations. An additional $15 license is required for dogs. All adoptions will be conducted by appointment.

¹ Examples of Annual Fire Code Permits that are issued by Fire Prevention include, but are not limited to: compressed gases, liquid petroleum gas, places of assembly, high pile storage, vehicle fuel dispensing, repair garages, and hot works.

² Examples of New Construction Inspections include, but are not limited to: Fire Alarm Systems, Sprinkler Systems, Underground water systems, and Fire Hydrants.

³ Annual Inspections conducted by Fire Prevention are for all businesses that require an in-depth technical knowledge of the fire code. These inspections include, but are not limited to: renewal of fire code permits, state mandated inspections, and referral inspections from the Engine Companies.

⁴ Fire Annuals conducted by Engine Companies include all businesses that do not require a fire code permit in order to operate. These inspections require a basic knowledge of the Fire Code.

⁵ Counts represent inspection of a multi-family address (e.g. duplex, four-plex, complex).
MEMORANDUM

To: Public Safety Subcommittee
From: Zuzzette Bricker, Office of Emergency Management Program Manager
Date: August 6, 2020
Subject: July 2020 Office of Emergency Management Report

Mission: The Office of Emergency Management is responsible for minimizing the impact of natural and man-made disasters by establishing readiness through city-wide prevention, preparedness, response, recovery, and mitigation.

Current Preparedness Level: SEMS is the system required by Government Code §8607 (a) for managing response to multi-agency and multi-jurisdiction emergencies in California. SEMS provides for a multiple level emergency response organization and is intended to structure and facilitate the flow of emergency information and resources within and between the organizational levels.

Coronavirus Disease 2019 (COVID-19) ***Update***

Centers for Disease Control and Prevention (CDC) is responding to an outbreak of respiratory disease caused by a novel coronavirus (COVID-19) that was first detected in China. Currently, COVID-19 has been identified in 188 countries/regions worldwide, with 4,864,151 cases in the United States as of August 6, 2020.

On March 4, 2020, Governor Gavin Newson declared a State of Emergency in preparation for a potential broader spread of COVID-19. The emergency proclamation is the State’s response to address the coronavirus outbreak, making additional resources available to multiple state agencies and departments. The official announcement came following the first official COVID-19 death and the imminent rise of positive cases in California. Governor Newsom issued a stay at home order on March 19, 2020, to protect the health and well-being of all Californians and to establish consistency across the State to slow the spread of COVID-19. Additional proclamations have been released and can be viewed on the Office of Governor Gavin Newsom’s website.

Currently, 38,977 confirmed COVID-19 cases have been reported in Riverside County, resulting in 752 deaths. The City of Moreno Valley has increased from 1,862 to 3,742 confirmed cases and 38 to 51 deaths as of Thursday, August 6, 2020, a significant increase in one month.

In response to Governor Newsom’s call for increased COVID-19 testing, Riverside County and the State of California has established 22 testing sites in Riverside County; available to
test symptomatic and asymptomatic residents. These efforts have resulted in 378,977 tests completed. For information on testing site locations, please visit rivcoph.org/coronavirus.

On May 22, the County of Riverside submitted a COVID-19 Variance Attestation form confirming the Readiness for Variance. However, the County has since experienced a surge in confirmed cases resulting in the State mandating the County of Riverside scale back the reopening plan. Riverside County is currently on the State monitoring list as the confirmed case count has surpassed the 8% positivity rate threshold set by public health officials.

In an effort to decrease the confirmed cases and improve the positivity rate threshold, the City of Moreno Valley has committed to participate in the “Masks are Medicine” campaign, in which 175,000 masks will be distributed to the community. Distribution points include City fire stations and local grocery stores.

**How COVID-19 Spreads**

COVID-19 is thought to spread mainly through close contact from person-to-person. Some people without symptoms may be able to spread the virus. Person-to-person spread appears to occur similar to other respiratory viruses, mainly via respiratory droplets produced when an infected person speaks, coughs, or sneezes. These droplets can land in the mouths, noses, or eyes of people who are nearby or possibly be inhaled into the lungs. The virus may be spread in other ways. Though not the primary way it spreads, it may be possible that a person can get COVID-19 by touching a surface or object that has the virus, then touching their mouth, nose, or possibly eyes.

**Risk Assessment**

Because there are no vaccines or treatments for COVID-19, non-pharmaceutical interventions become the most critical response strategy. These community interventions that can help reduce the impact of disease, like social distancing and good hand hygiene.

- Cases of COVID-19 and instance of community spread are being reported in all states
- People in places where ongoing community spread of the virus that causes COVID-19 has been reported are at elevated risk of exposure, with the level of their risk depending on their location
- Healthcare workers caring for patients with COVID-19 are at elevated risk of exposure
- Close contact of persons with COVID-19 also at elevated risk of exposure
- Travelers returning from affected international locations where community spread is occurring are also at elevated risk of exposure, with their level of risk depending on where they traveled.

**Risk of Severe Illness:**

Based on current available information and clinical expertise, older adults and people of any age who have serious underlying medical conditions might be at higher risk for severe illness from COVID-19. This includes:

- People 65 years and older
- People who live in a nursing home or long-term care facility
- People of all ages with underlying medical conditions, particularly if not well controlled, including:
  - People with chronic lung disease or moderate to severe asthma
  - People who have serious heart conditions
  - People who are immunocompromised
People with severe obesity (body mass index of 40 or higher)
- People with diabetes
- People with chronic kidney disease undergoing dialysis
- People with liver disease
- People with cancer
- People with sickle cell disease

For a complete list of individuals with a higher risk, please visit https://www.cdc.gov/coronavirus/2019-ncov/need-extra-precautions/index.html

Symptoms

People with COVID-19 have had a wide range of symptoms reported – ranging from mild symptoms to severe illness.

These symptoms may appear 2-14 days after exposure to the virus. People with these symptoms may have COVID-19:

- Fever or Chills
- Shortness of breath or difficulty breathing
- New loss of taste or smell
- Fatigue
- Nausea or vomiting
- Cough
- Muscle or body aches
- Sore throat
- Congestion or runny nose
- Headache
- Diarrhea

If you develop "emergency warning signs" for COVID-19, get medical attention immediately. Emergency warning signs include:

- Trouble breathing
- Persistent pain or pressure in the chest
- New confusion or inability to arouse
- Bluish lips or face

Testing for COVID-19

There are laboratory tests that can identify the virus that causes COVID-19 in respiratory specimens. Dr. Cameron Kaiser, Riverside County Public Health officer, has modified the testing guidelines to allow testing for anyone residing in Riverside County wanting to be tested. The expanded testing will give health experts a better idea of the extent of the illness in Riverside County.

Fourteen testing sites have been established in the County of Riverside. The City of Moreno Valley has a testing site at Crossword Christian Church located at 21401 Box Springs Road and Cottonwood Golf Course 13671 Frederick Street. Those who want to be tested can call (800) 945-6171 to make an appointment.

The County of Riverside conducted an antibody study and tested 1,726 county individuals. This resulted in 101 individuals had developed antibodies for COVID-19, which a positivity rate of 5.9%. Preliminary results indicate the virus may have infected between 118,000 and 175,400 Riverside County residents. The results of the randomized study are still being analyzed. This finding underscores the importance to wear face coverings as people may have the virus without any symptoms, then easily spread it to others when not wearing a mask or keeping six feet of distance.
Prevention

There is currently no vaccine to prevent 2019-nCoV infection. The best way to prevent infection is to avoid being exposed to this virus.

- Maintain good social distance (about 6 feet)
- Wash your hands often with soap and water. If soap and water are not available, use a hand sanitizer that contains at least 60% alcohol
- Routinely clean and disinfect frequently touched surfaces
- Cover your mouth and nose with a cloth face covering when around others
- Cover coughs and sneezes with a tissue or use the inside of your elbow
- Monitor your health daily, be alert for symptoms

These are everyday habits that can help prevent the spread of several viruses.

Treatment

There are no drugs or other therapeutic treatment recommended or approved by the U.S. Food and Drug Administration for 2019-nCoV infection. Current clinical management includes infection prevention and control measures and supportive care, including supplemental oxygen and mechanical ventilator support when indicated. People who think they may have been exposed to 2019-nCoV should contact your healthcare provider immediately.

Report to Public Safety Sub Committee

TO: Public Safety Sub Committee Members
FROM: Marshall Eyerman, Assistant City Manager
AGENDA DATE: August 18, 2020
TITLE: FIREWORKS TASKFORCE UPDATE

RECOMMENDED ACTION

Recommendations:

1. Receive update on Fireworks Taskforce efforts for the 2020 Fourth of July holiday.

2. Review Fireworks Taskforce future action plan to address the use of illegal fireworks in Moreno Valley.

3. Receive additional direction from the Sub Committee.

SUMMARY

On June 18, 2020, staff provided the Sub Committee with recommendations for the creation of a new Fireworks Taskforce and additional items for discussion and guidance from the Sub Committee members.

The item today will provide you with an update of the recent efforts made by the Fireworks Taskforce and additional proposed future plans.

DISCUSSION

BACKGROUND:

In August 2019, City Council discussed with staff the continued complaints on the use of illegal fireworks in Moreno Valley. As a result, City Council directed staff to examine the formation of a Fireworks Taskforce.
On June 18, 2020, final recommendations detailing the scope of the taskforce was presented to the Sub Committee. Today, staff would like to inform the Sub Committee of the efforts police made during the 2020 Fourth of July holiday:

- The Fireworks Taskforce, comprised of Police, Fire and Code Enforcement personnel, provided direct enforcement on July 3rd and July 4th from 8pm to 12am. The Taskforce was split into 2 separate teams to enforce designated areas determined by areas with the highest calls for service. These services were in addition to the ongoing Police personnel responses to firework related calls in the weeks leading up to and through the holiday.
- To aid City residents in reporting illegal fireworks, staff created an online reporting option to report illegal firework usage. The online system received 1540 reports, in conjunction to the 3146 non-emergency calls for service specific to illegal fireworks in Moreno Valley. This is a grand total of 4686 reported illegal firework incidents.
- To reduce illegal fireworks sales, the Problem Oriented Policing (POP) team conducted social media operations that led to the citations/confiscation of fireworks.
- Collectively, response to firework related calls led to 4 arrest (including felonies and misdemeanors), 31 citations issued and confiscation of illegal fireworks.
- The City conducted an enhanced social media marketing campaign, getting the message out that fireworks are illegal and dangerous. In addition, the campaign included information about the potential effects fireworks may have on veterans and pets.
- Police and Fire also assisted in the social media marketing campaign by also posting anti-fireworks messaging on their social media sites.
- The Fire department responded to numerous firework related calls.
Next Steps and Preparation for New Year’s Eve:

- Staff from Police, Fire and Media have received drone training in anticipation of purchasing drones to assist with future fireworks enforcement. The City has also completed the purchase of one additional drone.

- Based on the Sub Committees direction, Staff will work with the City Attorney’s office to implement processes allowing for higher citation amounts up to $1,000 for firework user violations. Additionally, it will be determined if there is an option to fine home owners if renters are cited for illegal fireworks usage.

- The City shall purchase one additional drones for the Police Department as a force multiplier with the taskforce to assist in enforcing activities to reduce illegal fireworks starting in calendar year 2021.
  - This purchase will be funded with Asset Forfeiture funding.

- The City will purchase two additional drones for the Emergency Operations Center to be used help monitor fire hazards and act as a force multiplier with the taskforce to assist in enforcing activities to reduce illegal fireworks starting in calendar year 2021.
  - This purchase will be funded with AMR Fine funding.
o The City shall modify the Fireworks Taskforce by focusing on additional Code Enforcement officers. These officers will work with Police and Fire to complement their efforts to continue fireworks enforcement during New Year’s Eve and over an expanded time period for the 2021 Fourth of July holiday.

**FISCAL IMPACT**

Firework enforcement shall require the use of overtime hours and budgets. Current limited overtime budgets are already approved and available in the FY20-21 budget allocation. Future drone purchases and training will be acquired through the use of restricted funds.
