

Curb and Sidewalk Compliance

The Americans with Disabilities Act (ADA) is a civil rights law that mandates equal opportunity for individuals with disabilities. The ADA prohibits discrimination in access to public facilities, among other things. In compliance with the ADA, the City of Moreno Valley is in the process of updating its ADA Self Evaluation and Transition Plan to ensure that its facilities within the public right of way, as well as other City facilities, are accessible to people with disabilities. This includes pedestrian access to sidewalks and streets, including crosswalks, curb ramps, parking and other components of the right-of-way.

All persons working within the public right-of-way must comply with the requirements of the Americans with Disabilities Act (ADA). If their work in the public right-of-way will affect pedestrian access, the City, contractor or utility company is required to provide a properly signed accessible route of travel. In other words, all facilities, including those in the public right-of-way, must accommodate disabled pedestrians.

The figure below shows a typical sidewalk closure.
