

Survey: Nason Street Corridor Visioning Study

Question: What would you like to see in the Nason Street Corridor?

Medical Office : 15

Bike Infrastructure : 19

Pedestrian Infrastructure : 23

Single Family Development : 11

Multi Family Development : 4

Multi Use Development : 16

Other : 14

Question: What are the most important issues facing the Nason Street Corridor today?

Traffic(4)

Traffic and the lack of shopping south of Alessandro.

Traffic congestion.

Traffic control and landscape.

Truck traffic

Uneven size of the streets but that's being worked on now.

Backed traffic during school times hard to get into Target center

Better traffic flow for cars, bikes and pedestrians. A lack of higher end restaurants near Nason, and freeway.

Boys and Girls Club or some sort of after school youth type organization.

Choosing the right development.

Construction delays

Developer not developing the medical corridor as promised. City has put the infrastructure in and it is ready to build on. Why hasn't some thing been started after a huge expenditure by the city?

Development must be appropriate for a family living environment--no warehouses, distribution centers, or strip malls.

employment development

Free-flowing traffic with synchronized traffic signals.

Fully widen lanes all the way down Nason.

I wasn't aware of any issues. It seems to be coming along nicely.

I would like to see a few high end stores. I travel all the way to South Coast Plaza to shop, sometimes to Irvine. But with warehouses on the rise this is a dream. But could change if the city council wanted to look to the future of the city.

It could be a central corridor showcasing Moreno Valley's strengths, and it could also be used to pull in a stronger economy that's not solely based on retail and/or warehousing. I would like to see Moreno Valley draw more medical/technology business and the Nason corridor is ripe to take advantage of this with all the land available. However, it's important to beautify it as well, so a ped/bike infrastructure along with park area would be a great use of some of the space.

Keep it with open spaces and parks/gardens, etc.

Lack of influence by one developer

Lack of sidewalks

lots of traffic

Most of land is is empty..

NA

No more homes! Need better grocery stores and non-corporate restaurants.

**Poor long term planning. Lack of ANY facilities on the east end of town.
Land locked in with over construction of residential housing.**

Safety

sidewalks are very narrow in this town and street lights are not very bright.

Sidewalks!

The lights aren't timed and traffic backs up often.

the whole city is inundated with traffic, especially truck traffic. Anything to mitigate that would be helpful

There is nothing there.

Time getting the job completed to aid with flow of traffic/congestion on the road!

too few lanes

Question: What might improve the appearance of this segment of Nason Street?

A Whole Foods! I'd love the option to get organic, cruelty-free meats, and other specialty food items. So sick of the fast food and corporate chain restaurants. Would love a brewery and a gastropub!! Currently I have to go to Riverside for all my needs. Would be great for our city to provide this.

Access from the freeway. When you turn onto Nason street you should see trees and scrubs that are colorful without those flag banners that make Sunnymead Blvd look like a third world city. An atmosphere of tranquility, making you want to shop and feel safe.

Add a park along the corridor, as well as bike/ped paths and green area bordering the street.

Adding shopping, movie theater, sit down dining similar to tgethe shops on

day street

an additional public library, bike trails through open lots

Bike lanes, additional landscaping and higher end restaurants.

Define SEGMENT/ CORRIDOR..... whereas input from residents is certainly encouraging unless you define the parameters of your questions they mean nothing. Are we looking at the area north of Alessandro to the 60 or south to Iris or all of it or who the hell knows?????

Landscaping.

Landscape always makes an area look nicer

Landscape. Plenty of trees to make it more "home style" and inviting. The small town feel.

landscaping

Landscaping. Hardscaping.

Less big-rig trucks

Lighting

Mature flowering trees (Cherry?) and stone walls and/or structures.

More landscaping

More landscaping!

much wider sidewalks, brighter street lights, more night life type businesses such as street front stores, sidewalk cafes, comedy clubs etc.

n/a

NA

Not sure.

Parks, gardens, etc.

Plants, flowers.. New development

Re-paving streets ,side walks,landscaping,trees.

Side walks

Sidewalk

Sidewalks and lighting.

Sidewalks and Pedestrian crossing and Biker lanes!

sidewalks and trees

Some medical buidings.

Trees along the street.

Trees but I don't think it's an option.

Trees!

Trees, shrubs

Trees, Trees, and Trees

We need a new mall in Moreno valley or remodulation of the new one specially the horrible sign we have for the current one

Well lighted, clean and manicured along the road, no warehouses taking large segments of land.

you have to consider water shortages, and traffic problems, so pedestrian and cycling access to amenities in a drought tolerant manner.

Question: What trips have you taken using your car in the past five days?

Grocery Store : 29

Post Office : 13

Work : 24

Park : 8

School : 8

Doctor or Dentist : 13

Restaurant : 23

Movies : 5

Shopping : 25

Question: What current challenges do you feel prevents you from walking or biking in the area?

Lack of nighttime lighting : 3

Distance from amenities : 6

Lack of infrastructure (bike paths, sidewalks, crosswalks, etc.) : 7

Physical limitations : 2

Lack of time : 1

Safety : 7

Road safety (traffic speed, distracted drivers) : 12

Question: Are there any examples of good neighborhoods or bike / pedestrian paths that you have seen that you would like to see in this area?

don't know(2)

not sure(2)

none(2)

Not anywhere near my house.

Bike and pedestrian paths like the ones along section of Moreno Beach.

Bike lanes for bikers

bike paths on Iris street are an example that i would like to see in the Nason street corridor.

Canyon Springs area

Rancho Belago area has the best paths for pedestrians and for bikers.

Right off hand, I'm not aware of anywhere. Maybe we should set the bar, if possible.

Riverwalk area in Riverside.

Some of Moreno Beach and Iris has a good bike lane

Sunnymead Ranch

Temecula! Look at the area of Wolf Creek just to the east of the 15 freeway. They have wide wandering sidewalk trails, trees, bushes, and it's kept clean. Here I bought a bike to ride to work just four miles away and stopped due to the stray dogs, pitbulls fence racing me, and the lack of bike lanes.

The bike paths along Iris Avenue are one of the best paths in the city. This could be replicated on Nason Street.

The Sunnymead Ranch area is the best example of how a community should be built in Moreno Valley!!

There are parts of Riverside that have the road painted for bike paths that are really nice and make you want to bike. I have seen some plans the city has for the future of the bike paths and I think there are right on track. I really would like to see much wider sidewalks with tree covered areas for walking

not just in parks.

They're all in Riverside!

Victoria Avenue in Riverside

yes Hidden springs area

Hidden Springs

I do like the protected horse path between Oliver and Moreno Beach Drive on Cactus. Easy to walk well maintained. Dog friendly.

I'm not familiar with any.

Indian St. Is perfect example, plenty room for walkers & bikers w children & dogs. It's a 1 lane St.in both directions well good lighting & speed limit is 40 mph.....!!! We enjoy taking our walks w grandchildren down this st.

Iris and also sunnymead ranch

Irvine, California

Irvine, Newport Beach Trails

Keep big-rig trucks away from neighborhoods

Lack of lights in the evening and Safety both Road Safety and Safety in regards to not seeing bumps in the sidewalk.

Lake perris

Landscape and pedestrian paths on Cactus/Moreno Beach/Iris

N/a

NA

Newport beach

Ni
