Shade Analysis

System Output in AC Watts

System Output in AC Watts (includes total module output watts x inverter efficiency x design factor), per CSI EPBB Calculator :

Total Rebate Amount Requested (\$2.80 x System Output in Watts):

Certification

Each undersigned certifies that

- the information in this form is true and correct to the best of my knowledge
- the solar PV system is intended to offset part or all of the customer’s electrical needs at the site of the installation
- the site is within the service territory of the Moreno Valley Electric Utility

In addition, each undersigned understands and agree that the choice of improvements, the selection of contractors, the purchase of items and acceptance of materials used and work performed and the payments thereof is the sole responsibility of the owner. Moreno Valley Electric Utility does not endorse, recommend or make any representations as to specific brands, products, contractors or dealers; nor does it guarantee material or workmanship. Further, undersigned agree to indemnify and hold harmless the City of Moreno Valley, its officers, employees and agents from and damages related to the use or installation of PV-related equipment.
