SUMMARY

This report provides the Mid-Year Budget Report which updates the Mayor and City

Council regarding current year financial trends and provides the Fiscal Year (FY) 2018/19 Mid-Year Budget Review through December 31, 2018. This report also requests the approval of recommended amendments to FY 2018/19 revenues and expenditures.

DISCUSSION

On May 2, 2017, the City Council adopted the two-year Budget for Fiscal Years 2017/18 and 2018/19. The budget included all component units of the City, including the General Fund, Community Services District, Housing Authority and Successor Agency. During the two-year budget period, the City Council will be updated of the City's financial condition through the process of Quarterly Budget Reviews. This ongoing process ensures a forum to review expenditure and revenue changes from the estimates made in the budget document. Additionally, any significant changes in projected revenue or unanticipated expenditures that may occur will be presented to the City Council.

This report provides the FY 2018/19 Mid-Year Review for the first six months, July thru December. The Mid-Year Budget Review will focus primarily on the City's General Fund. This review will also present six months operational results from other key funds.

The City Council's direction of "Maintain a Balanced General Fund Budget" serves as a foundation for the fiscal status of City operations. Ongoing funding is directed to sustain ongoing operational expenses; one-time funding is directed toward one-time expenditures. This report identifies the budget adjustments as recommended by the City Manager.

FISCAL YEAR 2018/19 MID-YEAR REVIEW:

This Mid-Year Report updates the Mayor and City Council regarding current year financial trends and provides the opportunity for the City Council to review the recommended actions as they relate to revenues and expenditures.

General Fund Revenue Update

Revenue receipts do not follow an even schedule. Although 50% of the fiscal year has elapsed, based on historic trends revenues are estimated to be at approximately 26% of the budgeted amount. Actual revenues received are currently 34% of budget. As the FY 2018/19 revenue estimates were developed prior to the adoption of the budget on May 2, 2017, the revenue estimates may require adjustments based on the current projected actuals. Although there will be variances in some of the amounts budgeted, the total is expected to remain within 1% of the amended budget for the year. It should be noted that the lag in timing of revenue receipts helps illustrate the need for an operating cash reserve throughout the fiscal year.

General Fund Expenditure Update

Although not all expenditures follow a straight-line spending pattern, operating expenditures should track close to within 50% of budget for the year at the end of the first six months. As of December 31, 2018, total General Fund expenditures were at 49%. This pace is within expectations for most activities in the General Fund.

FISCAL YEAR 2018/19 BUDGET ADJUSTMENTS

The FY 2018/19 General Fund revenue budget, as amended, totals approximately \$110 million. Based on economic activity and revenue collections through December 2018, staff is recommending Mid-Year budget increase of \$699,240 to approximately \$110.7 million. The recommended increase includes an increase in engineering inspection fees based on projected trends and a replacement reserve transfer-in to cover a facilities management software replacement.

The FY 2018/19 General Fund expenditures budget as currently amended, and excluding one-time expenditures from fund balance, totals approximately \$110 million. The recommended Mid-Year budget changes increase expenditures by \$633,700 to \$110.6 million. The recommended increase includes an increase in contracted engineering professional services based on projected trends and a facilities case management software purchase. This also includes an additional \$50,000 for staff overtime to address potholes as a result of recent storms. Expenditures are offset with an increase in revenues. <u>The fund continues to be structurally balanced, without the use of fund balance for ongoing operations</u>. The specific budget adjustments for the General Fund are summarized in Exhibit A attached to the City Council Resolutions recommended for approval.

Fund	Type (Rev/Exp)	FY 2018/19 Amended Budget	Proposed Adjustments (\$)	Proposed Adjustments (%)	FY 2018/19 Amended Budget
General Fund	Rev	\$110,003,282	\$699,240	<1%	\$110,702,522
General Fund	Exp	\$110,003,276	\$633,700	<1%	\$110,636,976
Net Total (1)		\$6	\$65,540		\$65,546

(1) Excludes one-time expenditures from fund balance. In FY 18/19, Council approved the use of General Fund fund balance of \$1,100,000 allocated to street improvements.

City Position Summary Action

The City Position Summary as amended by the City Council serves as an important internal control tool for City Council to establish authorized positions for the City while enabling staff to manage within the authorized and funded positions. The City Position Summary addresses career authorized positions and does not include temporary positions. As a result of operational changes, some positions are being requested to be added and adjusted based on current and projected demands for those positions and services. Staff recommends the following updates to the City Position Summary:

Summaries of Major Fund Changes for FY 2018/19

The following provides a summary of some of the proposed budget adjustments to other major funds. A complete list of all changes are identified in Exhibit A to the Resolutions.

Gas Tax (Fund 2000)

Revenue decrease of \$250,493 based on the State of California, Department of Finance revised Gas Tax revenue estimates.

Measure A (Fund 2001)

Revenue increase of \$215,000 based on Riverside County Transportation Commission Mid-Year revenue projections. Additional revenues may be programmed through future Capital Improvement Plans.

Electric (Fund 6010)

Expenditures are increasing by \$1,325,000 based on expected power purchases and renewable energy expenditures.

ALTERNATIVES

- 1. Approve Recommended Actions as set forth in this staff report, including the approval of the budget adjustments for FY 2018/19, as presented in Exhibit A. The approval of these items will allow for ongoing activities to be carried out in the current fiscal year and the City is able to modify budgets and operations as necessary through this quarterly review, while retaining a structurally balanced General Fund budget. *Staff recommends this alternative.*
- 2. Do not approve proposed Recommended Actions as set forth in this staff report, including the resolutions adopting the budget adjustments to the FY 2018/19 budget, as presented in Exhibit A. *Staff does not recommend this alternative.*

FISCAL IMPACT

The City's Operating and Capital Budgets provide the funding and expenditure plan for all funds. As such, they serve as the City's financial plan for the fiscal year. The fiscal impacts for the proposed budget amendments and carryovers are identified in Exhibit A to the City Resolution.

City of Moreno Valley Fiscal Year 2018/19 Mid-Year Financial Summary

то:	Mayor and City Council
FROM:	Marshall Eyerman, Chief Financial Officer/City Treasurer
DATE:	March 5, 2019

INTRODUCTION

On May 2, 2017, the City Council adopted the Two-Year Operating Budget for Fiscal Years (FY) 2017/18 – 2018/19. During the two-year budget period the City Council will be kept apprised of the City's financial condition through the process of First Quarter, Mid-Year Budget and Third Quarter Reviews. This ongoing process ensures a forum to look at expenditure and revenue deviations from the estimates made in the budget document. Additionally, any significant changes in projected revenue or unanticipated expenditures that may occur will be shared with the City Council.

This report provides a review of the unaudited financial results at Mid-Year of FY 2018/19 (July 2018 – December 2018, 50% of the fiscal year).

CITYWIDE OPERATING REVENUE FY2016/17

The City ended FY 2016/17 with a budget surplus due to annual savings and reduction of expenses. The surplus reflects that the Operating Budget is being effectively managed and allows for the use of the funds for one-time expenditure. City Council appropriated the remaining \$1,100,000 surplus for street improvements in FY 2018/19.

CITYWIDE OPERATING EXPENDITURE SUMMARY

The following table contains a summary of the adopted budget, amended budget and the Mid-Year expenditures. The totals represent each major fund type and component unit of the City.

Table 1. Citywide Operating Expenditures

Actions taken by the City Council subsequent to the May 2, 2017 adoption of the two-year budget and included in the Amended Budget are:

- Throughout the fiscal year, there are also budget amendments to reflect the acceptance of grants and adjustments to contractual services and material/supplies. The individual amendments are reviewed as part of separate City Council agenda items.
 - Remaining \$1.1M of the FY 16/17 General Fund surplus was appropriated for street improvements.
- On June 19, 2018, Council approved lease/purchase agreement and the financing associated with the streetlight purchase from Southern California Edison. The approval also allowed staff to return to Council with the proposed budget adjustments related to these complex financing transactions, which will occur in the next quarter reporting.

The majority of this Mid-Year update will focus on the General Fund, as it supports all basic services provided to City residents. Highlights for other key component funds will be discussed at a summary level as well.

Table 2. General Fund Operations

General Fund Operating Revenues

The General Fund is comprised of several revenue types. However, the main sources include property tax, utility users tax, and sales tax. Different economic activity cycles and pressures affect each of these.

Table 3. General Fund Operating Revenues

Property Taxes/Property Taxes In-Lieu

Property taxes were budgeted to increase by 4% from the FY 2017/18 Amended Budget. The annual schedule of property tax payments from the County of Riverside will provide payments to the City based on the following estimated schedule:

Secured Property Tax	Payment Dates
Settlement 1	January
Settlement 2	May
Settlement 3	August
Teeter Settlement	October

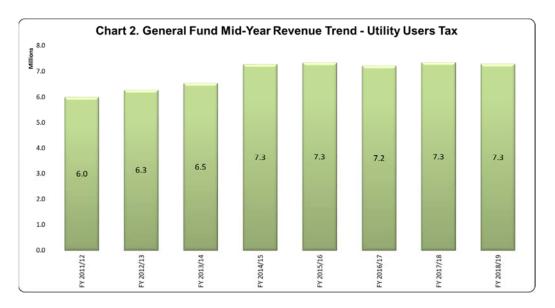

Based on historical averages of actual receipts, the City is estimated to receive 14% of the budgeted property tax revenue through Mid-Year. The City has currently received 13% through Mid-Year. Property taxes will continue to be monitored as property valuations may adjust through the year based on property sales and assessment appeals filed with the County.

Utility Users Tax

Utility Users taxes were budgeted to increase by 1% from the FY 2017/18 Amended Budget. This projection is primarily due to competitive forces within the communications markets. Both the wireless and wired markets experienced downturns year over year. Based on our discussions with utility tax experts, there are a couple of causes for this trend. First is competition and bundling practices within the market as more small players continue to join the market. Second is the migration of customers from contract plans to prepaid plans.

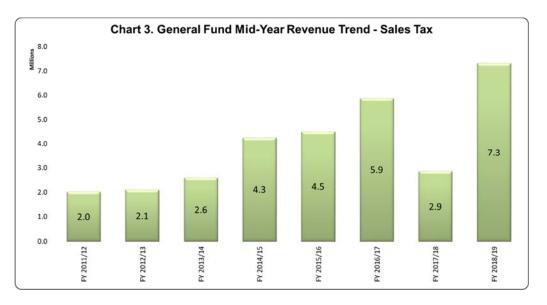

Based on historical averages of actual receipts, the City is estimated to receive 42.8% of the budgeted utility users tax revenue through Mid-Year. The City has currently received 43.2% through Mid-Year.

Sales Taxes

Sales taxes were budgeted to increase by 3% from the FY 2017/18 Amended Budget Sales tax receipts will need to be continually monitored through the year to determine if current trends begin to plateau or begin to decrease.

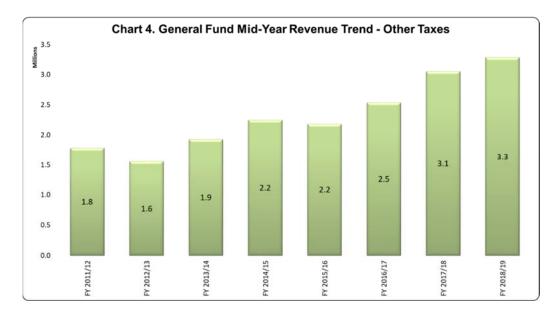

Based on historical averages of actual receipts, the City is estimated to receive 20% of the budgeted sales tax revenue through Mid-Year. The City has currently received 37% through Mid-Year.

Other Taxes

Other taxes are primarily composed of Business Gross Receipts, Transient Occupancy Tax, Documentary Transfer Tax, and Franchise Fees. Collectively, other taxes were budgeted to increase 3% from the FY 2017/18 Amended Budget.

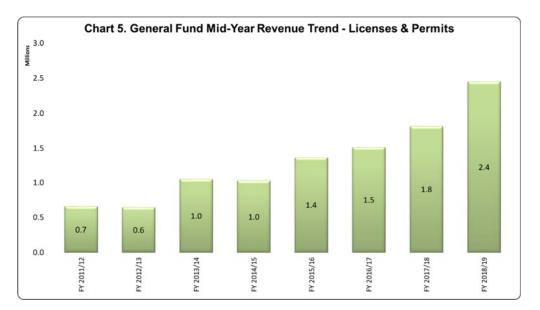

Based on historical averages of actual receipts, the City is estimated to receive 27% of the budgeted Other Taxes revenue through Mid-Year. The City has currently received 27% through Mid-Year.

Licenses & Permits

Licenses & Permits are primarily composed of Business and Animal Licenses, along with Building, Electrical, Mechanical, Plumbing and other permits. Collectively, Licenses & Permits were budgeted to increase by 5% from the FY 2017/18 Amended Budget. This increase reflects increases due to Commercial Cannabis Business Permits. This budget will be monitored for a possible future increase.

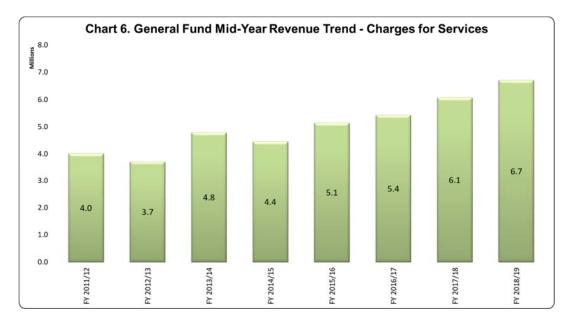

Based on historical averages of actual receipts, the City is estimated to receive 52% of the budgeted Licenses & Permits revenue through Mid-Year. The City has currently received 56% through Mid-Year. The higher growth rate is related primarily to the recent building and business license permit activities.

Charges for Services

Charges for Services are primarily composed of Plan Check Fees, Inspection Fees, Administrative Charges to other funds, and Parking Control Fines. Collectively, Charges for Services were conservatively budgeted to increase by 3% from the FY 2017/18 Amended Budget. This budget will be monitored for a possible future increase.

Based on historical averages of actual receipts, the City is estimated to receive 50% of the budgeted Charges for Services revenue through Mid-Year. The City has currently received 53% through Mid-Year.

Use of Money and Property

Investment income continues to remain low due to extremely low rates of return for fixed income investments, but has increased over the last year due to actions taken by the Federal Open Market Committee. The investments managed by Chandler Asset Management achieved a Yield to Maturity (YTM) for December 2018 of 2.14%. This compares to a YTM in December 2017 of 1.73 %. The investments managed by Insight Investments achieved a Yield to Maturity (YTM) for December 2018 of 1.90%. This compares to a YTM in December 2017 of 1.44%. In addition, the City maintained funds in the State Local Agency Investment Fund Pool (LAIF) with a YTM of 2.29%. This is a very low rate of return compared to historical experience, but is indicative of how investment income is performing everywhere, which is the reason the City utilizes the active management approach.

General Fund Expenditures

Expenditures are being spent in-line with prior year expenditures. Each Department's activities will be monitored throughout the year as they may be impacted by different operational activities and project timelines.

OTHER KEY FUNDS

The following summaries describe other major funds in the City.

Moreno Valley Community Services District

The Moreno Valley Community Services District (CSD) was formed by the voters in 1984 to collect fees and certain taxes to provide an array of services including parks, recreation and community services, streetlights, landscaping and ongoing maintenance. The CSD provides these services through separate "zones" that define the services that are provided.

For certain zones, the primary revenue source used to provide services to properties is parcel fees or taxes levied on properties via their annual tax bill. Proposition 218, passed by California voters in November 1996, and has posed a serious challenge to managing the future operation of the CSD zones. Prop. 218 requires any revenue increase to be addressed through a voting process by affected property owners. For a period following the initial implementation of Prop. 218, the CSD was successful in receiving approval for some new or increased revenues. There were also revenue increases due to the growth of developed parcels within the zones. However, due to cost increases that exceed any offsetting increases in the revenues over the

past years, and the recent economic downturn slowing new parcel growth, property owners have been resistant to efforts to fully fund service levels.

Electric Utility

The Moreno Valley Utility (MVU) manages the operation, maintenance and business planning of the City's electric utility. MVU's basic purpose is to purchase and distribute electricity to customers in newly developed areas of the City. The City began serving new customers in February 2004, and now serves more than 6,652 customers. As it reaches fiscal and operational maturity, MVU will continue to be a key component of the City's economic development strategy. The City Council has established special tiered rates for electric utility customers based upon factors such as the number of jobs created.

The main revenue source for this fund is derived from charges for services. The customer base includes residential, commercial and industrial customers. The growth in customer base will continue to provide for the ability to create rate stabilization and replacement reserve funding.

SUMMARY

The City of Moreno Valley is experiencing certain levels of growth and continues to maintain a structurally balanced Budget without the use of reserves.

Although the City has experienced positive results in some areas through FY 2017/18 and through the Mid-Year of FY 2018/19, the City should look toward the future with constrained optimism as we proceed through the fiscal year.

As positive fund balances begin to grow, we will bring back to the City Council for discussion options to address the other challenges and unfunded liabilities.

RESOLUTION NO. 2019-XX

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MORENO VALLEY, CALIFORNIA, ADOPTING THE REVISED OPERATING AND CAPITAL BUDGETS FOR FISCAL YEAR 2018/19

- 3. Plans and evaluates the performance of assigned staff; establishes performance requirements and personal development targets; regularly monitors performance and provides coaching for performance improvement and development; subject to management concurrence, takes disciplinary action, up to and including termination, to address performance deficiencies, in accordance with the City's human resources polices and labor contract provisions.
- 4. Provides day-to-day leadership and participates in programs and activities that promote a positive employee relations environment; Supervises work methods and operations to ensure a high performance and customer service oriented work environment; monitors maintenance and operating

costs; procures materials; processes and follows up on payment of invoices; ensures fleet and facilities maintenance policies, procedures and services are effectively rendered; makes suggestions and recommends changes to increase effectiveness; participates in the development of the division budget.

- 5. Plans, schedules, inspects and evaluates the work of skilled and semi-skilled personnel engaged in the construction, maintenance and improvement of City equipment, facilities, and vehicles; provides technical assistance to staff, vendors and others regarding the maintenance and care of equipment, facilities and vehicles.
- 6. Supervises programs relative to the preventative maintenance and repair of equipment, facilities and vehicles; inspects equipment, facilities and vehicles to assess the extent and cost of needed repair; maintains related records, including inventory and stock, and prepares correspondence and reports regarding vehicle, facilities and equipment service.
- 7. Assess the maintenance needs of facilities and plans and schedules work as required; estimates labor, material and equipment requirements for assigned work and projects; requisitions parts, tools, equipment and material for assigned work and projects.
- 8. Assists in the evaluation for replacement and development of specifications and projection of cost for new City vehicles and equipment, and capital equipment related to equipment and vehicle maintenance.
- 9. Maintains computerized work order records system of staff activities and progress; assists in developing and assembling documents for public bid processes for construction or maintenance contracts.
- 10. Oversees and supervises the work of outside firms providing contract maintenance in facilities and fleet maintenance; act as Project Manager for Facilities Maintenance projects as needed.

OTHER DUTIES

- 1. Ensures cleanliness of shop and vehicle service areas and ensures supplies and equipment are maintained in orderly condition; orders parts and supplies as needed.
- 2. Participates in after-hours emergency and non-emergency responses to equipment failures, facility needs, alarms, or equipment/vehicle breakdowns; conducts emergency repairs in the field as needed.
